The Western Maryland College.

Organization.

The Western Maryland College was organized and opened its first year in September, 1867. It is owned and operated, under a charter from the State of Maryland, by a Board of Trustees, consisting of twelve ministers chosen from the Maryland Annual Conference of the Methodist Protestant Church, twelve citizens of Carroll County, Maryland, and nine persons chosen without regard to residence.

It was founded by members of the Methodist Protestant Church, but exercises no denominational control over its students.

Location.

The College is located in Westminster, Carroll County, a city of about three thousand inhabitants, thirty-four miles west of Baltimore, with which it is connected by the Western Maryland Railroad. Westminster is situated in one of the most healthy and beautiful parts of Maryland, and no place could be more desirable as the site for an institution of learning. It is quiet and retired, yet easily accessible and in ready communication with the outside world by railroad, telegraph and telephone. Its streets are lighted by electricity; it has an abundant supply of pure water; its inhabitants breathe an invigorating

mountain air, and enjoy the advantages of numerous and handsome churches.

The College occupies an eminence at the west end of the city, one thousand feet above tidewater, which affords a view rarely equalled in extent, variety and beauty.

**Buildings and Equipment.**

1. **MAIN BUILDING.**—This is the central and original part of an edifice that now has four wings with front and flanking towers, an extreme length of two hundred and seventy-three feet and a depth of eighty feet. The central portion is four stories high and has the administration offices, parlor and teachers apartments. A large room on the first floor is fitted up as a gymnasium for young ladies and another room as bath-room.

2. **OWINGS HALL.**—This wing, named for Miss Lottie A. Owings, for many years Preceptress, was built in 1871, is four stories high and is used in the fourth story for piano rooms, in the third and second stories are sleeping rooms for young ladies, and the first floor is the physical laboratory and recitation room. In the basement is the steam laundry.

3. **SMITH HALL.**—This building erected in 1887, adjoins the main building on the north and is named in honor of the first President of the Board of Trustees, Mr. John Smith, of Wakefield. In this building are the large dining room seating two hundred persons at table, the kitchen and pantries, the Assembly Room where morning prayers are held every school day, and sleeping rooms for young ladies.
4. HERING HALL.—Another wing to the main building, erected in 1890, and named for Dr. J. W. Hering, the first Treasurer and now President of the Board. This building is fitted in the most modern way with recitation rooms for the various departments and has also the chemical laboratory and a small lecture hall. The second floor provides a splendid library room, over eighty feet long, and sleeping rooms for the male seniors.

5. WARD HALL.—This wing, erected in 1895, to take the place of a smaller building built in 1882 by contributions secured by Dr. J. T. Ward, first President of the College and named for him, is a modern home for male boarding students. It is three stories high and every room is lighted with two large windows and open to the sun.

6. YINGLING GYMNASIUM.—This building was erected in 1889 and given to the College by Miss Anna R. Yingling, of Westminster, Md., a graduate of the Class of '71. It contains bath-rooms for young men and has the complete outfit of the modern gymnasium.

7. Y. M. C. A. HALL.—Erected in 1893 and devoted to the work of the Association. It has a good audience room, well furnished, and a committee and reading room.

8. LEVINE HALL.—Erected in 1891 by a contribution from Dr. Charles Billingslea, of Westminster, Md., as a memorial to his son James Levine. It is devoted to the use of the primary department.
9. BAKER CHAPEL.—This is a stone structure erected by Mr. W. G. Baker, of Buckeystown, Md., as a thank-offering. Here the students assemble on Sunday morning for Sabbath-school, and on Sunday evening for regular preaching by the President of the College.

10. PRESIDENT'S HOUSE.—Erected in 1889 and contributed by Daniel Baker's sons, of Buckeystown, Md.

11. PROFESSOR'S RESIDENCE.—Erected in 1896 and occupied by the Professor of Mathematics.

12, 13 and 14. RESIDENCES.—Owned by the College and occupied by the Chief Engineer, the Butler and the Watchman.

15. ALUMNI HALL.—Erected in 1898. A building one hundred by eighty feet, three stories high. Here are the assembly, committee and banqueting rooms of the Alumni Association; the rooms of the Literary Societies, and an Auditorium seating twelve hundred persons.

EQUIPMENT.—The College has provided for the home-life of its students in a modern and comfortable way. A large steam plant in a separate building furnishes heat to every room through a separate radiator. Light is also provided by our own electric light plant. The rooms are all furnished.

Of the educational equipment may be mentioned a Library of about five thousand volumes, which have all been selected with care and with special reference to the needs of our students; a good mineralogical
Buildings and Equipment.

Collection, charts, maps, etc. The Chemical, Physical and Biological Laboratories have the usual modern arrangements for students' work—separate tables supplied with gas and water, and a good collection of working and illustrative apparatus. There have been added to these departments in recent years a Dynamo, Microscope and Transit, presented by Mr. J. S. Topham, of Washington, D. C., and a five-inch refractor, equatorially mounted, with driving clock, presented by Messrs. Wm. H. Starr and E. O. Grimes, of Westminster, Md.
Admission of Students.

General Conditions.

1. Both male and female students are received. They are taught by the same teachers and in practically the same courses of study, although they recite separately and compete for separate honors.

2. Students not prepared for the collegiate course have the very best attention given them in the Preparatory Department.

3. Candidates for admission into any class must come well recommended as to moral character (if from any other institution of learning with suitable testimonials), and be examined in the studies already pursued by that class.

4. Students must agree to take all the studies of the class entered, unless excused from any portion thereof at the time of entering. No student shall of his own option drop a study during a session. Communications from parents or guardians in reference to studies should be addressed to the President, who will promptly lay them before the Faculty for consideration. But the Faculty reserves the right of final decision.

5. Each student, upon entering, is required to sign a pledge to obey all the rules of the institution—a printed copy of which is at the same time furnished him.
Admission of Students.

Entrance Examinations.

Candidates will be examined on Monday and Tuesday of commencement week, and they are advised to avail themselves of the opportunity in order to qualify themselves by September in any studies in which they may be found deficient. Those who cannot apply at this time will be examined at the beginning of the school year.

Candidates for the Freshman Class are examined in the following studies:

**ENGLISH**.—English Grammar throughout; English Composition, as much as is contained in Lockwood's Lessons or in the first five chapters of Hill's Foundations of Rhetoric.

**MATHEMATICS**.—Arithmetic complete; Algebra to Quadratic Equations (Female students will be examined only to Simultaneous Equations of the First Degree).

**LATIN**.—Latin Grammar: *Viri Romae* or three books of Cæsar. (Female students will not be required to take this examination).

**OPTIONAL**.—One other examination must be taken, and candidates may choose United States History, or Descriptive Geography, or Physiology. (Female students must take two).

Those who fail in one of the four examinations required, but pass with credit the other three, may be admitted to the Freshman Class and given special instruction until the deficiency is made up.

Those who present certificates of graduation from approved high schools and academies will be admitted without examination, unless they desire to enter a higher class than the Freshman.
Courses of Study.

The College offers four courses of study, all covering four years and leading to the degree of A.B.

In the first two years the courses are alike in all respects, except that in one of them French and German take the place of Greek. In the last two years the courses all differ, and even those pursuing the same course are given one or more options.

The courses are designated in accordance with their predominating study—the Classical, the Scientific, the Historical and the Modern Language Course.

Supplementary Courses.

Music.

Instrumental music, for the present, is limited to the piano and pipe organ. The studies comprised in this course have been carefully selected from the best now used in foreign and American conservatories. They are intended to take students from the rudiments of music and the first principles of pianoforte playing to a degree of excellence that will render them capable of ably performing classic and difficult selections. Special attention in the case of advanced pupils is given to expression and the proper interpretation of the work under consideration. A class in Harmony and Composition is formed each fall of third and fourth year pupils, and instruction in this necessary adjunct to a musical education is made as thorough and practical as possible by means of blackboard drill.

The course in Vocal Music includes both the principles of voice culture and the higher cultivation and appreciation of vocal art. Each pupil is given private lessons to develop and insure correct intonation, management of breath, extended compass and beauty of tone. In vocalization the Italian method is used. English, German and Italian songs are selected from the best composers, and special attention is given to expression and execution.

During the academic year there are given, once a month, by teachers and pupils, public recitals which not only greatly promote the work of the department, but prove occasions of interest and enjoyment for the whole school.

Piano.

The course includes four grades, and has been so arranged that one may, without inconvenience, pursue it while engaged in the Collegiate Department.
Supplementary Courses.

Upon the completion of studies mentioned in this department, the pupil is entitled to a certificate showing this fact.

**FIRST YEAR**—Mathew's Twenty Lessons; Mathew's Standard Grade, Books I and II; McDougal's Junior Studies in Melody-playing; Touch and Technic, Book I.

**SECOND YEAR**—Touch and Technic, Books I, II, III and IV; Introduction and Book I Mathew's Studies in Phrasing; Standard Grade, Books III, IV, V; Mozart's Sonatas; Bach's Two-part Inventions.

**THIRD YEAR**—Touch and Technic, Books I, II, III and IV; Cramer's Etudes; Studies in Phrasing, Book II; Bach's Preludes and Fugues; Beethoven's Sonatas; Harmony (Howard).

**FOURTH YEAR**—Touch and Technic, Books I, II, III and IV; Czerny's Fingerfertigkeit; Bach's Fugues; Harmony (Howard); Concert Pieces; History.

**Pipe Organ.**

Instruction in Organ playing is given to pupils sufficiently advanced in music to take up this study. The works of Bach, Handel, Rink, Merkel, Kullak and other classical composers, as well as those of standard modern writers, are carefully studied, special attention being given to church music. Harmony is continued throughout the course, and everything pertaining to a thorough and artistic rendering of the music devoted to this instrument is carefully considered.

The College has a fine two-manual organ, with water motor, giving students ample opportunity for practice.

**Voice.**

The course includes four grades, and the completion of the work included in them entitles the pupil to a certificate stating this fact.

**FIRST YEAR**—Elements of Notation—Respiration, Vowel Formation, Articulation, Pronunciation; Placing Tones; Anatomy and Physiology of the Vocal Organs; Seiber's Elementary Vocalises.

**SECOND YEAR**—Exercises for increasing Flexibility of Voice; Phrasing; Panofka's Vocalises, Book I; Lütgen; Songs by Classic and Modern Composers.
Western Maryland College.

Third Year—Exercises for Flexibility continued; Stark’s Solfeggien Album; Songs in French, German and Italian; Harmony (Howard).

Fourth Year—Advanced Vocalises by Panofka, Bordogni; Marchesi; Arias from Operas and Oratorios; Songs by Schubert, Schumann and other classic writers; Harmony (Howard) History.

There will also be exercises in Concerted Music, Chorus Practice and Sight-Singing.

Art.

This department provides for a thorough artistic and technical course in drawing, modeling and painting, in which practical designing and architectural drawing receive due attention. Approved methods of instruction are employed to promote a high appreciation of art study and composition, and to enable students to think and work independently. Lessons in drawing and painting from life, as well as outdoor sketching are included in the course, and the study of art history. The studio is supplied with a good collection of models and copies of masterpieces.

At the completion of the following course, original studies from life or still-life, painted without assistance, must be submitted, and those whose work is satisfactory receive the certificate of the department, and the best work the gold medal.

First Year—Drawing from Casts, Objects and Flat Studies in Pencil, Charcoal and India Ink; Lessons in Perspective.

Second Year—Shaded Drawing in Pen and Ink, Sepia, Charcoal and Crayon; Sketching from Nature in Pencil; First Course in Water Colors and Pastels.

Third Year—First Course in Oil Painting; Sketching from Nature in Sepia, Crayon and Water Colors; Designs for Decoration.

Fourth Year—Drawing and Painting from Objects, Nature Life, etc.; Decorative Painting.
Supplementary Courses.

Elocution.

The course in Elocution covers two years of class instruction, Freshman and Sophomore, and two years of additional work in special classes. The first two years’ work is general and preliminary. In the Junior Year the classes are divided into small groups so as to permit of individual attention to each student.

The course includes the study of Voice, Respiration, Articulation, Modulation, Emphasis and Physical Expression in its different branches; also Analysis of the works of the best authors, Bible and Hymn Reading, and Shakespeare.

Upon the satisfactory completion of this course the certificate of the department is conferred.
Departments of Study.

Philosophy.

JUNIOR YEAR.—Psychology is studied the first and second terms.

Baldwin's Elements is the text-book and class-room instruction is supplemented by a course of lectures on the Physiological basis of Psychology, given last year by Dr. L. F. Barker of the Johns Hopkins Hospital.

Deductive Logic is studied during the third term, special attention being given to practice in the syllogism.

SENIOR YEAR.—Fowler's Inductive Logic is studied during the first term.

The last two terms are given to the study of Ethics. MacKenzie's Manual is used as a text-book and a very full discussion of Ethical Theory is followed by a survey of Practical Ethics.

The above courses are required of all students.

English.

FRESHMAN YEAR.—Those admitted to this course are supposed to have had some elementary instruction in English Composition, as much as is represented by the first five chapters in Hill's Foundations of Rhetoric. At this point therefore the class begins work and the book is finished in the second term. In the third term, Carpenter's Advanced Rhetoric is studied.

The great aim of this course is to develop facility and accuracy in expression. To this end in addition to the recitations constant practice in essay writing is required, and one afternoon in every week a seminary is held for essay writing under the guidance of the teacher.

SOPHOMORE YEAR.—The first term is occupied with Carpenter's Rhetoric which is finished.

In the Second and Third terms the class is taken through Pancoast's Introduction to English Literature.

The Freshman and Sophomore work in English is required of all students.
Departments of Study.

JUNIOR YEAR.—This year is given to a study of the literature from Burns to Tennyson. This course is optional except to those taking the Modern Language course. It may be taken for one term or more, as the studies will be arranged to cover separate authors with reference to the close of each term.

SENIOR YEAR.—A study of literature from Shakespeare to Burns. The course is optional with all except those taking the Modern Language course.

A course in Old English and Anglo-Saxon is also given in this year, required in Modern Language course and optional with others. *Sweet'*s Anglo-Saxon Primer and Reader will be used and *Corson'*s Handbook of Early English.

Ancient Languages.

The course in Latin and Greek aims to provide as wide a range of reading in the classics as is possible in the time allotted to the work; and the attention of the student, as he advances, is directed more and more to the claims of the book he is reading as a literary production and an incomparable instrument of the higher culture.

Latin.

FRESHMAN YEAR—Grammar continued; Composition; Sallust's Conspiracy of Catiline; Cicero's Orations.

SOPHOMORE YEAR—Virgil's *Æneid*; Livy, Book XXI.

JUNIOR YEAR—Cicero—Letters; de Natura Deorum; de Senectute; de Amicitia; Pliny's Letters; Horace, Odes.

SENIOR YEAR—The Annals of Tacitus; Phormio and Adelphi of Terence; Menaechmi of Plautus; Catullus; Juvenal.

The first and second years are required of all students. The third year of all male students and female classical students, and the fourth year of all classical students.

Greek.

FRESHMAN YEAR—Grammar; Composition; Xenophon's *Ana-* basis; Select Dialogues of Lucian.

SOPHOMORE YEAR—Herodotus; Homer's *Iliad* or *Odyssey*. 
Western Maryland College.

JUNIOR YEAR—Lysias or Demosthenes; Plato's Apology and Crito; Thucydides.

SENIOR YEAR—Aristophanes' Clouds; Sophocles' Antigone.

The first and second years are required of all male students, except those taking the Modern Language Course. The third and fourth years are required of all male classical students.

The classical course in the senior year is supplemented by lectures delivered twice a week by Professor Reese on Ancient Literature from Homer to Juvenal, and the students are required to prepare essays each term on subjects suggested by these lectures. Associate Professor Black will conduct a Seminar in Latin, meeting once in two weeks.

Modern Languages.

The increasing importance of French and German in modern life, and especially in scientific and historical research, has led to an enlargement of the place for these languages in the modern curriculum.

All students have some training in one of these languages and those who select them in place of Greek have four years in both.

French.

FRESHMAN YEAR—Whitney's Brief French Grammar; Super's French Reader.

SOPHOMORE YEAR—Composition and Review of Irregular Verbs; Modern Comedies (Labiche, Augier, Coppee, etc.); Private Reading.

JUNIOR YEAR—Translation of English into French; Modern French Prose (Daudet, Merimee, Loti, etc.); Private Reading.

SENIOR YEAR—Original Composition and Conversation; Classical and Romantic Drama (Racine, Corneille, Moliere, Hugo); History of French Literature.

The above courses are required of all female students and of those taking the Modern Language Course.
**Departments of Study.**

**SENIOR YEAR, B—** Grandgent’s Short French Grammar; Selections from Levy, Flammarion, Reclus, etc.; Les Origines de la France Contemporaine, par Taine.

This course is required of all Seniors who have not studied French before their Senior year.

**German.**

**FRESHMAN YEAR—** Otis’ Elementary Grammar; Harris’ Reader.

**SOPHOMORE YEAR—** Grammar continued; Von Hillern’s Holzer als die Kirche; Schiller’s Der Neffe als Onkel; Cham- isso’s Peter Schlemihl.

**JUNIOR YEAR—** Composition; Freitag’s Aus dem Staat Friederichs des Grossen; Schiller’s Wilhelm Tell; Private Reading.

**SENIOR YEAR—** Moses der Bibliothekar; Goethe’s Naturwissenschaftliche Arbeiten; History of German Literature; Private Reading.

The above courses are required of students taking the Modern Language course.

**JUNIOR YEAR, B.—** Joynes-Meissner’s Grammar; Harris’ Reader.

This course is required of all Juniors who have not studied German before their Junior year.

**SENIOR YEAR, B—** Freitag’s Aus dem Staat Friederichs des Grossen; Schiller’s Wilhelm Tell; History of German Literature; Private Reading.

This course is required of all female students and of all students taking the Scientific or Historical course.

**Mathematics.**

**FRESHMAN YEAR.—** Wentworth’s College Algebra, completed from Quadratics; Phillips and Fisher’s Elements of Geometry Complete.

**SOPHOMORE YEAR.—** Crockett’s Plane and Spherical Trigonometry; Practical Problems, Work with Engineer’s Transit; Hardy’s Analytic Geometry.

These courses are required of all students.

**JUNIOR YEAR.—** Hardy’s Differential and Integral Calculus.

This course is required of all students taking the Scientific Course and elective to all others.
Astronomy.

**Senior Year** — Young's General Astronomy; Lectures and Observatory Work.

This course is elective.

Chemistry.

**Sophomore Year** — One-half of the year is devoted to a general study of Chemistry from an elementary textbook, with one hour a week in the laboratory.

This course is required of all students.

**Junior Year** — Remsen's Inorganic Chemistry is studied one term and his Organic Chemistry one term. During both terms the students work two hours a week in the laboratory, using Jones' Practical Chemistry.

**Senior Year** — The study of Unsaturated Carbon Compounds, Illuminating Gas and the Hydrocarbon derivatives of Coal Tar. Two hours a week are given to laboratory analysis of minerals, etc.

The last two courses are elective.

Geology.

**Freshman Year** — Physical Geography required of all students.

**Senior Year** — Tarr's Geology. This course is elective.

Biology.

**Senior Year** — An elementary course in general Biology is given during the first term, followed by a more elaborate course in the succeeding terms combined with work in the laboratory.

Physics.

**Sophomore Year** — General Physics. The subject is studied in an elementary way and preparatory to the more exacting study of the following years. The various laws of Physics are illustrated by experiments requiring one hour in the laboratory each week.

This course is required of all students.

**Junior Year** — The course varies from year to year. For 1898–9 there will be a course of lectures on Mechanics, Properties of Matter. Ames' Theory of Physics will be used, and the class will be required to work two hours each week in the laboratory.
Departments of Study.

SENIOR YEAR—The course for 1898–9 will be a special course in Electricity, using Thomson's Elements of the Mathematical Theory of Electricity and Magnetism. Two hours work in the laboratory.

The last two courses are elective.

History.

FRESHMAN YEAR.—Gardiner's Student's History of England. Though the work can be done without previous knowledge of the subject, it is very desirable that students should come prepared on some handbook equivalent to Montgomery's.

SOPHOMORE YEAR.—The Sophomore year is devoted to General History. A course of lectures is given each term, based on a very full syllabus prepared by the Professor of History for use in this College. The first term covers Oriental Civilizations and Greece. Private reading, Myers' Greece. The second term is occupied with the history of Rome to the division of the Empire. Private reading, Liddell's Rome. The third term covers the political and religious questions of the Middle Ages. Private reading, Emerton's Middle Ages; Mediaeval Europe and Thatcher and Schwil's Middle Age.

The above courses are required of all students.

JUNIOR YEAR.—Duruy's History of Modern Times. Private reading, Fyffe's Modern Europe. The course will cover the period of the Reformation, French Revolution and the history of the Nineteenth Century. Freeman's Historical Geography.

SENIOR YEAR.—American Political and Constitutional History. The course is based on the Epoch series, each term covering the ground treated in one volume.

The last two courses are required of students taking the Historical course and are elective to all others.

Political Science.

JUNIOR YEAR.—Walker's Political Economy, advanced course, is the text-book for the first term.

The course in the second term is based on Walker and Adam Smith.

The third term is devoted to the study of such practical subjects as Money, Public Finance, Taxation and Banking.
A bank is organized in accordance with the requirements of the National Banking Act, and a mock business conducted by the students.

Senior Year—The History of Civil Government. The course is based on Wilson's State. Private reading, Feilden; also Taswell-Langmead on the Constitutional History of England. Fiske; also Hinsdale on the Constitution and Government of the United States. Bryce’s American Commonwealth is used as a general reference.

The above courses are required of all students taking the Historical course, and are elective to all others.

Physical Training.

Besides the opportunities afforded by an extensive campus for outdoor exercises, in an air exceptionally pure and bracing, special attention is paid to the physical development of the students. They are required to exercise daily under the instruction of a regular teacher with dumb bells, wands, clubs and other light apparatus. These exercises are all performed to piano music, which stimulates to more vigorous effort and renders the drill in every way more attractive and beneficial. This training gives to the body grace, beauty and health.

A large portion of the fourteen acres of land belonging to the College is devoted exclusively to outdoor sports, while the gymnasium, fully equipped with the best modern apparatus, furnishes ample provision for indoor athletic training. The students are required to exercise daily under the superintendence of a director, who assigns to them the kind of exercise most needed in each individual case.

One of the most attractive features of Commencement Week is Athletic Day, when, in addition to the competitive sports of the Ball Ground and Tennis Courts, the students give an exhibition in the various Calisthenic Drills they have learned during the year.
Departments of Study.

Supplementary.

The work of instruction is done mainly in the class-room and by recitations, but in the Collegiate Department the textbook is supplemented by frequent lectures as a part of the regular work.

Besides the above, a course of lectures is delivered to the whole school in Smith Hall, which gives the students an opportunity of hearing various literary, scientific and historical subjects treated, not only by members of the Faculty, but also by distinguished speakers and specialists not connected with the College.

One hour is given every Friday to a public assembly in the Auditorium, where an exercise of a different kind is held every week: Senior Orations and Disputations, Junior Themes, Sophomore Readings and Recitations, Music Recitals, and Lectures alternate in pleasing variety, and offer unusual facilities to broaden the student's culture.
General Information.

The Peculiar Advantage

This College offers is that parents can have their sons and daughters educated in the same institution and under the same instruction. Although both sexes have the same instructors, yet the two departments are kept entirely separate, the students meeting only at chapel service and in the dining-room with members of the Faculty, and at no other time unless under similar supervision.

Domestic Arrangements.

The President, with his family, resides in the College campus, and, with the Preceptress, and other members of the Faculty, who reside in the College, constantly seeks to provide all the comforts and enjoyments of a well-ordered home. Receptions are held once a month, when all the students are brought together for social recreation and for the acquirement of ease and grace in the customs of polite society.

The boarding department is in charge of a housekeeper and steward, under the direction of the President. The table is furnished with wholesome food in abundance, prepared with constant attention to variety, and with the view of rendering reasonable complaint impossible.

Student's Outfit.

Non-resident students must board in the College. It is expected that each room will be occupied by
two boarding students. All necessary furniture is provided, but students are expected to pay for any damage while in possession. It is necessary for each student to bring the following: Four sheets for a single bed, pillow cases, one pillow, blankets and spread, one fork and teaspoon, marked with surname; towels and napkins and napkin-ring.

All the above articles must be marked in plain letters with the owner's full name.

**Visiting.**

It is the aim of the College to make the students thoroughly at home and to prevent in every way any dissipation of their interest in study. To this end the earnest co-operation of parents and guardians is solicited. Students should be sent promptly at the beginning of the term, and after they have entered should not be removed, even for a day, unless it be absolutely unavoidable. The Faculty has experienced the distracting influence incident to students visiting friends in town, and has concluded to discourage such visits as much as possible, and in every case to require the student to return during the day.

Visitors to the College will always be welcome (on Sunday no visits are allowed or received), and when it is possible, patrons will be entertained for a short while; but the rooms are usually occupied with students, and patrons should in all cases notify the president of any contemplated visit. Good hotels in the city of Westminster afford accommodations on reasonable terms.
Dress.

The authority of the College will be earnestly exerted in favor of that plain and economical dressing which is so becoming to young people at school. All costly jewelry and expensive clothing should be left at home. Our young gentleman are expected to dress with neatness, but all extravagance is discouraged. The dress of the young ladies must be plain and simple and such as will meet with the approval of the preceptress. There seems to be no good reason why most of the dressmaking cannot be done at home, thus giving the parents the opportunity to limit the expense and direct the style.

The members of the Senior class must appear in cap and gown on all public occasions during the third term.

Religious Exercises.

Western Maryland College was founded by Christian men, and is distinctively a Christian College. It holds the promotion of spiritual culture above every other kind of education in importance. And while it exacts no religious tests of its students, nor seeks any denominational control, yet it encourages all proper efforts to uphold and extend the religious influences which have always been a marked feature of College life at this place.

The students are assembled for prayers every school-day, and are required to attend divine service on Sunday morning at some church in Westminster. The following denominations are represented in the city: Methodist Protestant, Methodist Episcopal, Protestant...
General Information.

Episcopal, Roman Catholic, Reformed, Lutheran, German Baptist. The church affiliations of students will be scrupulously respected, and only those will be required to attend the Methodist Protestant Church who have no church of their own in the city.

On Sunday evenings services are conducted in the College Chapel by the President, which the students are required to attend. The Young Men's Christian Association and Young Women's Christian Association have each a branch association in the College, and rooms fitted up for receptions and religious services. On Friday evening a general prayer-meeting is held under the direction of the College. On Sunday afternoon a voluntary meeting is held, conducted by the Y. M. C. A. The Sunday-school is one of our most important religious factors. Though attendance is not compulsory, during the past year all the students have enrolled themselves as scholars. The classes are all taught by members of the Faculty, and the lessons used are those of the International Series.

Societies.

The Irving and the Webster Literary Societies of young men, and the Browning and the Philomathean Societies of young women hold regular weekly meetings, and it is the desire of the Faculty that all the students avail themselves of the advantages of these valuable and instructive organizations.

On Tuesday morning of Commencement Week there is an oratorical and literary contest between the Irving and the Webster Societies and between the Browning and Philomathean Societies. The award for the
former societies is a trophy presented by Professor A. H. Merrill; for the latter a trophy presented by the late Professor M. A. Newell.

State Scholarships.

An Act of the General Assembly of Maryland enables the College to furnish tuition, board, fuel, lights and washing free to two students (one male and one female) from each Senatorial District of the State, to be appointed by the School Commissioners, by and with the advice and consent of the Senators in their respective Districts, after a competitive examination of the candidates. A scholarship cannot be held by the same student for more than four years, and the holder is required to give his (or her) bond to the State of Maryland for such amount, with such security as may be approved by the President of the College, that he (or she) will teach school within the State for not less than two years after leaving College. In order to enable the Faculty to carry out fully the intention of the Act of the Legislature providing for these scholarships, it is highly important that the School Commissioners of the several Senatorial Districts should be careful to appoint students, prepared to enter at least, the Freshman Class. If, however, any of the candidates selected are deficient in preparation, they will be received into the Preparatory Department of the College.

Examinations.

Examinations of all the classes are held at the close of each of the three terms into which the scholastic
year is divided. Students, moreover, who, from any cause, are absent from more recitations in any one study, than they have per week in that study, are required to pass a special examination on the lessons missed.

**Vacations.**

Vacation extends from Commencement until the second Tuesday in September, on which day the regular course of study begins, and there is no intermission of recitations except on Thanksgiving Day, Washington’s Birthday and during the Christmas holidays and Easter recess.

**Degrees of A.B. and A.M.**

The degree of Bachelor of Arts is conferred upon all students who complete the four years’ course of study to the satisfaction of the Faculty.

The degree of Master of Arts is conferred upon such Bachelors of Arts as make application for it on or before May first of each year on the following conditions:

1. They must have received the degree of A.B. three years before.
2. They must send with their application a fee of ten dollars.
3. They must furnish evidence of having obtained a diploma from some law, medical, theological or scientific school; or,
4. They must submit with their application a literary, scientific or philosophic thesis upon a subject to be obtained from the Secretary of the Faculty not later than January first preceding. The thesis must be the
result of original research, consisting of not less than 3,500 words, typewritten, on legal cap paper.

5. They must present themselves, vested in cap and gown, at the commencement when the degree is conferred.

**Grades and Awards.**

The scholastic standing of the students is determined by a system of grading, the scale of which is from 1 to 10.

Students who obtain on all the regular studies in any department an average under seven and over five, may, at the discretion of the Faculty and with the consent of the Professor in charge of the department, be continued with their class, but with the distinct understanding that they cannot be graduated unless they make up the deficiency.

At the Annual Commencement honors are awarded in accordance with the following requirements:

In the Senior Class the student receiving the highest grade for the Senior and Junior years receives the honor of pronouncing the Valedictory; the next highest the Salutatory. The male student receiving the highest grade in the Classical course, or the next highest if the highest is Valedictorian, or the third highest if the Valedictorian and Salutatorian are Classical students, receives the honor of pronouncing the Classical Oration. By a similar arrangement the Scientific, Historical and Modern Language Orations are awarded. Likewise the Classical, Scientific, Historical and Modern Language Essays for the female students. All students who have received a grade of
nine or over in all the studies of the Junior and Senior years, or who have received a grade of nine or over in all the studies of the Senior year and Honorable Mention twice are graduated *Summa Cum Laude*, and all the students who receive a general average of nine in the studies of the Senior and Junior years, or a general average of nine in the studies of the Senior year and Honorable Mention once are graduated *Cum Laude*, their names to appear in the order of their grades.

In the Junior, Sophomore and Freshman Classes gold medals are awarded to the members of these classes making the highest general average, provided they have attained an average grade of nine in all the studies of all the regular departments after having entered without conditions.

In the Preparatory Department the leading students who have attained the grade of nine in all studies receive Certificates of Distinction.

All other students, collegiate or preparatory, whose average in all the studies for the year reaches nine, are entitled to Honorable Mention, provided they have entered without conditions.

Gold medals are awarded also to the students doing the best work in Painting, Instrumental Music, Vocal Music and Elocution. The Norment Prizes are Gold Medals given to the students of the Sophomore and Freshman Classes excelling in Elocution.
EXPENSES.

The Collegiate Year.

The Collegiate Year, of thirty-nine weeks, is divided into three terms. The first term begins on the second Tuesday in September; the second on the second Monday in December; and the third on the fourth Monday in March. The year closes with Commencement Day, on the third Wednesday in June.

The time devoted to Christmas holidays is not included in the above year, and it is not desirable for students to remain at the College during that time; but where it cannot be avoided, students will be accommodated with board for those two weeks on paying four dollars per week.

Charges.

Two hundred dollars a year pays for board, tuition, furnished room, heat, light and laundry.

Two hundred and twenty-five dollars a year pays for all the above and instruction in either Instrumental Music, Vocal Music or Art.

Tuition alone in Collegiate Department.............$45 00 a year.

" " Preparatory Department........ 30 00 "

" " Instrumental Music................. 45 00 "

" " Vocal Music.......................... 45 00 "

" " Art...... ............................ 45 00 "

In addition to these charges a deposit of $5.00 is required. This money is returned at the close of the year with any charges for injury to property deducted. Students are held responsible for damages to room or furniture while in their possession. In case of damages committed by students in general, where the responsibility cannot be directly traced, the cost is assessed on the whole school.

Text-books will be furnished at reasonable rates, and generally cost from $5.00 to $10.00 for the year.
Expenses.

Special Rates.

1. The children of all ministers residing in Westminster and the children of ministers of the Methodist Protestant Church are entitled to FREE TUITION, except in extras and in the Primary Department. To all such who board in the Institution the charges will be $45.00 per term for board. Bills not paid within ten days of beginning of term will be charged at regular rates.

2. Students who leave the Institution each week on Friday to return Monday will receive board at $45.00 per term. This does not include laundry.

3. Students designing to enter the ministry of the Methodist Protestant Church receive free tuition on a recommendation from their Quarterly Conference that they are worthy.

Payments.

For the $200 rate the first payment is $90.00, made at the time the student enters. The second payment of $55.00 is made in December at the beginning of the second term, and the third payment of $55.00 is made in March at the beginning of the third term.

For the $225 rate the first payment is $115, and the other payments are the same as for the $200 rate.

For tuition alone payment is made in three instalments—one-third at the beginning of each term.

Checks should be made payable to Western Maryland College.

No money paid for tuition will be refunded in any case, but a drawback will be issued to any student not completing the term for which tuition has been paid, entitling him to receive that tuition at any time.

If a student does not enter at the beginning of a term, or if he leaves before the term expires, or if he is absent during the term, he will be charged five dollars a week for board for the time he is in attendance and the regular rate for tuition for the term. But a student who withdraws without the consent of the Faculty will be charged for the whole term, and no money will be refunded.

A large number of those applying for admittance to the College are found deficient in Latin and Mathematics, while poor training in English makes it difficult for them to make up this deficiency by extra work. For this reason, as well as to provide for those who do not expect to enter the College at all, the following course of study has been arranged, the last year of which, being an immediate preparation for the Freshman class, is almost entirely taken up with English, Latin and Mathematics:

**First Year.**

Maxwell's First Book in English.
Stickney’s Fourth Reader; Stickney’s Advanced Speller.
Eggleston’s First Book in American History; Frye’s Primary Geography.
Walsh's Arithmetic—Part First.
Penmanship.

**Second Year.**

Maxwell’s Introductory English Grammar.
Stickney’s Fourth Reader; Stickney’s Advanced Speller.
Eggleston’s History of the United States; Frye’s Complete Geography.
Walsh’s Arithmetic—Part Second.
Penmanship.

**Third Year.**

Maxwell’s Introductory English Grammar.
Stickney’s Fifth Reader; Stickney’s Advanced Speller.
Montgomery’s American History.
Walsh’s Arithmetic—Part Second.
Collar and Daniell's First Latin Book. (For male students only. First half of year).

Elementary Algebra. (For male students only. Last half of year).

Penmanship; Exercises in Declamation.

Sub-Freshman Year.

To be admitted to this class students must be fourteen years old, and must pass an examination in English Grammar, Geography, Arithmetic and United States History. They must be well prepared in these branches.

ENGLISH.—Maxwell's Advanced English Grammar is studied during the first and second terms. Hill's Foundations of Rhetoric third term.

LATIN.—Collar and Daniell's First Latin Book. Viri Romæ or Cæsar.

MATHEMATICS.—Arithmetic reviewed for practice. Wentworth's School Algebra to Quadratics.

White's Outlines of United States History is studied the first term and Physiology the last two.

Reading, Book-keeping and Declamation through the year.
