AN INTRODUCTION TO

WESTERN MARYLAND COLLEGE
AN INTRODUCTION TO
WESTERN MARYLAND COLLEGE
An Introduction To Western Maryland College

AMERICA PROVIDES many excellent colleges for young people seeking higher education. In the selection of an institution, an applicant should make certain that it is a college of good standing and one with whose ideals and objectives the individual is in accord.

Western Maryland College is a liberal arts institution, accredited by the Middle States Association of Colleges and Secondary Schools and the University Senate, and offers a varied curriculum taught by a competent staff of instructors. The enrollment is limited to six hundred carefully selected students. The College is coeducational, the first institution south of the Mason and Dixon Line to open its doors to both young men and young women. The limited enrollment, with a ratio of one instructor for every ten students, makes possible a close relationship between students and faculty and among the students themselves. Members of the faculty are chosen not only for their scholarship, but for their character, their ability to teach, and their willingness to counsel with students.

As a liberal arts college its philosophy of education is to produce men and women having leadership qualities and conscious of the individual's responsibility for personal development and social advancement. At the same time it provides courses for professional training in stated areas as well as pre-professional training for those who plan to continue their education in the various specialized fields. Applicants are urged to write for the publication, Vocational Opportunities at Western Maryland College.

One of the distinctive features of the school is its emphasis upon character development. The College was chartered in 1868 under the auspices of the former Methodist Protestant Church and is now one of the church-related colleges of the Methodist Church. While it is open to students of all faiths and makes no religious tests of any, it gives ample opportunity for moral and religious development. It urges all students to attend church on Sunday (Methodist, Lutheran, Episcopal, Catholic, Reformed, Church of the Brethren, and Church of God congrev-
Western Maryland College

gations are to be found in Westminster) and requires attendance each Sunday evening at the College Chapel Service. The students govern themselves by their own elected representatives who are assisted by faculty advisers. The College assumes that persons enrolling will respect the tradition of the school which prohibits the possession or use of alcoholic beverages on the campus or being under the influence of them at any time.

Persons enrolling at the College are required to live in the dormitories unless residing with parents or immediate relatives. This provides a more unified campus community and makes possible an environment where education is not pursued in isolation but in those natural relationships which typify the democratic atmosphere of American life.

The College is ideally located on a one-hundred-acre campus at the west end of Westminster, Maryland, amid the intimate beauty of Carroll County's rolling hills. The environment is ideal for study and is at the same time close to the cultural advantages offered by the City of Baltimore (twenty-eight miles distant) and the Nation's Capital (fifty-eight miles distant.) Candidates may write for the descriptive booklet, College Hill.

It is suggested that applicants make careful reading of the material contained in this catalogue and that they write to the College for any additional information which they may desire. A Handbook of Western Maryland College is published each summer and sent to each incoming student. This publication contains the various regulations of the College as well as other interesting data. Ignorance of the rules and regulations can not be construed as basis for their evasion.

FACILITIES
Western Maryland College

Educational

OLD MAIN, the first building erected on the campus (1866), is now largely devoted to the use of the Department of Art. HERING HALL (1890), named for Dr. J. W. Hering, first Treasurer of the Board of Trustees, contains laboratories and other facilities for the Department of Home Economics. LEVINE HALL OF MUSIC (1891), named in memory of James Levine Billingslea, after extensive alterations in 1939 houses the Department of Music and provides seven studios and classrooms, ten practice rooms, and a recital hall. THE Mc DANIEL HOUSE (1896), is used for the home management program of the Department of Home Economics. THE LIBRARY (1908) contains periodical, reference, magazine, conference, and reading rooms as well as staff rooms and stack space for the more than 40,000 volumes contained in the collection. It is a depository for government publications and the Carnegie Endowment for International Peace. LEWIS HALL (1914), named for the College's second President, Thomas Hamilton Lewis, contains thirteen classrooms and six laboratories, three each for the Department of Physics and the Department of Chemistry. The laboratories are ample in both equipment and space. The astronomical observatory tops the building. SCIENCE HALL (1929) contains thirteen classrooms and three modernly equipped laboratories for the Department of Biology.

Residential

SMITH HALL (1887), named for John Smith, first President of the Board of Trustees, provides residence rooms for faculty members. THE PRESIDENT'S HOUSE (1889) was the gift of Daniel Baker's sons. WARD HALL (1895), named for the College's first President, James Thomas Ward, is a dormitory for men. McKINSTRY HALL (1907) provides housing for women students. Mc DANIEL HALL (1922), named for William Roberts McDaniel, for many years Vice-President of the
Facilities

College, is a dormitory for women and contains a large student lounge as well as many auxiliary rooms. BLANCHE WARD HALL (1935), named for Blanche Murchison Ward, wife of the late President Albert Norman Ward, provides housing for one hundred sixty women and contains a number of rooms auxiliary to dormitory purposes. ALBERT NORMAN WARD HALL (1939), named in memory of the College’s third President, is a composition of four distinct units and provides dormitory and social rooms for male students. The Dining Hall, with a capacity of six hundred, is located in Science Hall.

In room assignments preference is given to old students in the order of classes and to new students in the order of matriculation. Bedrooms are completely equipped but pillows, blankets, linen, and towels are supplied by the student.

Health and Physical Welfare

An infirmary for women is located in McDaniel Hall and one for men in Old Main. An adequate nursing staff is available at all times and infirmary privileges are granted to each student without charge for a period not to exceed seven days in any school year. Announcement has been made of the gift of an Infirmary by Dr. and Mrs. William J. Thompson of New York City, the same to be erected as soon as regulations permit. Modern and adequate physical education facilities for women are to be found in BLANCHE WARD GYMNASIUM. THE GILL GYMNASIUM (1939), named for Colonel Robert J. Gill, ’10, has a main playing floor eighty by one hundred fifteen feet with folding bleachers seating one thousand. Ample lockers and shower rooms are provided as well as rooms for the Department of Physical Education and Intercollegiate Athletics. HOFFA ATHLETIC FIELD is the location of intercollegiate sports. HARVEY STONE PARK is a beautiful tract of five acres with an amphitheater and a covered pavilion. A nine-hole golf course, two playing fields, and nine tennis courts are available for student use.
General

BAKER CHAPEL (1895), gift of Mr. William G. Baker of Buckeystown, Maryland, "to the glory of God and in grateful recognition of the mercy that spared the life of a beloved son," is used for the Sunday School and other religious exercises. It contains a two-manual pipe organ by Brown. Announcement has been made of the gift of a new Baker Memorial Chapel to be dedicated to the memory of William G. Baker, Sr., Daniel Baker, Joseph D. Baker, and Sarah Baker Thomas and to be erected as soon as regulations permit. ALUMNI HALL (1899) contains an auditorium capable of seating twelve hundred persons. It is used for chapel, assemblies, lectures, and musical programs as well as the presentations of the Department of Dramatic Art. It also contains a three-manual pipe organ by Moller. YINGLING HALL (1904), gift of Anna R. Yingling, '71, provides quarters for the Department of Military Science. CARROLL HALL, a property purchased in 1922, houses the Offices of Administration.
FROM ADMISSION TO

GRADUATION
Concerning Admission and Graduation

BEFORE completing plans for admission, applicants are advised to read carefully the contents of this catalogue. It is written so as to give, in brief compass, a mental picture of Western Maryland College. In addition, the applicant should read all other available publications of the College which help to give a fuller picture of the institution. Too much stress cannot be laid upon the need of the careful selection of a college which will fill the applicant's needs and with whose traditions and objectives he is in accord.

Application blanks may be obtained by writing to the Registrar. *Only such students will be admitted who:*

(1) are graduates of a secondary school accredited by the Middle States Association of Colleges and Secondary Schools, by similar associations, or by the Department of Education or State University of the state in which the school is located.

(2) are recommended by the principal of the secondary school attended.

(3) have satisfactorily completed fifteen units of secondary school work including Mathematics 2 (two years of Algebra, or one each of Algebra and Geometry), English (four years) 3, History 1, and nine units elected from the following: History 3, Foreign Languages 6, Physical Geography 1, General Science 1, Biology 1, Zoology 1, Botany 1, Chemistry 1, Physics 1, Algebra 1, Geometry 1, Solid Geometry $\frac{1}{2}$, Plane Geometry $\frac{1}{2}$, and from approved vocational work 4. *(A unit is the credit value of at least thirty-six weeks' work of not less than four recitation periods per week, each period not less than forty minutes.)*

The quality of a student's secondary school work is stressed and exceptions to the required units may be made when the applicant's standing is well toward the top of his secondary school class.

Western Maryland College will accept students transferring from other accredited colleges only if they can furnish a statement of honorable dismissal from the institution attended. A transcript of the student's record must also be presented. A
Western Maryland College

tentative evaluation will be given of the credits transferrable; definite evaluation can be made only after the student has been in residence a full semester. No transfer credit will be allowed for courses completed with the lowest passing grade of the institution formerly attended.

When an application for admission is approved, the Registrar will send all additional data needed before arrival at the College. Where applicants do not themselves designate a choice of roommate, the College will endeavor to make selection on the basis of probable compatibility.

The curriculum which each freshman pursues is not finally determined until the end of Freshman Orientation Period. During this time, the incoming students attend a series of lectures and discussions in reference to college education and college life. They are also given a number of tests whose results are in the hands of the counselors to whom the freshmen are assigned for the selection of courses and such other counseling as may be necessary. The determination of courses is based on the student's high school records, the secondary school principal's report, the entrance tests, and the individual's objectives. The counselors are members of the faculty who have had special training or experience in advising students in regard to academic problems. Assignment of counselors is made largely on the basis of the student's vocational interest. Normally the individual retains the same advisor until such time (usually the fourth semester) when the student will have chosen a major department of study, at which time the head of the department (or of the Department of Education if the student expects to teach in high school) will become his counselor.

In certain cases, the selection of a major department is made prior to the fourth semester. A major in Music or in Home Economics, for instance, should be indicated at entrance, so that courses in these departments may be taken during the freshman year. If one expects to major in a science, mathematics should be taken in the first year, leaving the selection of the particular science, if desired, to a later date. It is advisable to have a fairly definite plan for specialization by the end of the freshman year.

For those who desire expert assistance in coming to a decision regarding the choice of a vocation, the College offers a special vocational guidance service. This consists of a series of
tests, questionnaires, and personal interviews, and help in interpreting the data thus obtained. The tests measure mental, physical, and emotional aptitudes, vocational interests, personality traits, etc. The service is administered by the Department of Psychology. (A fee of $5.00 is charged for this service.)

An additional aid to the proper orientation of freshmen is a series of lectures and class exercises given in the form of a non-credit course, one hour per week throughout their first semester. This is designed to aid students in such areas as: the value of a liberal education, the proper budgeting of time and money, the choice of a vocation, the development of personality, and the building of a philosophy of life.

Grades and Reports

The instructor determines the progress of the individual and the group by means of conferences, class work, tests measuring the cumulative knowledge in the course and in the field of study, special assignments or papers, and upon other procedures which may prove valuable, avoiding as far as possible, dependence upon semester examinations.

The scholastic standing of a student is indicated by a system of grades, designated by the letters A, B, C, D, E, F, and I. A, B, C, and D are passing grades, A indicating work of the highest rank, D of the lowest. Students receiving the grade of E are conditioned in the subject, and may remove the condition in any way that is satisfactory to the instructor, provided it is done within one year. Students receiving the grade of F must repeat the course to receive credit for it. Students receiving the grade of I must complete the course within one year from date of record if a credit grade is to be given.

Students who withdraw before the end of a semester receive a grade of Withdrawn Passing or Withdrawn Failing. No academic credit is allowed for these grades, unless the student has been called into the armed services, in which case partial credit is allowed when the grade is Withdrawn Passing.
Western Maryland College

The general quality of students' work is numerically determined by assigning quality points for each semester hour of a passing grade as follows: A—3, B—2, C—1, D—0. A student is not in full class standing unless he has successfully completed thirty-four semester hours of academic work each year with at least an equal number of quality points. The number of semester hours which each course carries is stated after the description of the course, given in the section, Courses of Instruction, of this catalogue.

Reports are mailed to parents at the end of each semester and at mid-semester during the freshman year. Mid-semester reports are also made in courses where upper-classmen are doing unsatisfactory work. The academic records are reviewed each semester by the Committee on Admissions and Standards. A student may be dropped from college when, in the opinion of the Committee, his scholarship record is so low as to justify such action.

Honorable mention may be awarded a student in any class who, during the scholastic year, receives grade A or B in eighty percent of his semester hours for that year, and no grade below C.

Requirements for Graduation

The College offers two Bachelor's degrees, Bachelor of Arts and Bachelor of Science. The Bachelor of Arts degree requires a somewhat broader foundation than the Bachelor of Science, a sampling of more of the fields of knowledge, and a smaller degree of specialization in any one field. The Bachelor of Science degree is offered at present only in certain scientific fields as indicated below.

REQUIREMENTS FOR THE DEGREE OF BACHELOR OF ARTS

The satisfactory completion of one hundred thirty-six semester hours and one hundred thirty-six quality points is required for the degree of Bachelor of Arts. The one hundred
From Admission to Graduation

thirty-six semester hours are to be distributed as follows:

1. **Basic Subjects.**

Depending upon the entrance credits, placement tests, and the work of the first semester, the student may be excused from all or part of the following subjects: English composition, physical science, general biology, foreign language, and social studies.

Military science is required of all freshman and sophomore men students. Those who seek to be excused must file a written request with the President, the same to be endorsed by the parents of the student seeking exemption.

2. **A Major.** This consists of not less than eighteen semester hours of C grade or better (in any one of the major departments) beyond the introductory course or courses in that department. Where a department does not offer a major, it is so stated under Courses of Instruction. Introductory courses in each department are marked with an asterisk. Where a choice is given for introductory courses, if one course is taken as introductory, the second may count toward the major requirements. Where, in a few cases, a course may not be counted toward a major, it is so designated under Courses of Instruction. Not more than thirty semester hours in one department beyond the introductory courses will be credited toward the degree of Bachelor of Arts, except that a maximum of thirty-six such semester hours may be credited to students who are candidates for graduation honors. Majors must be chosen and the choices reported to the Registrar early in the second semester of the sophomore year.
Western Maryland College

3. A Minor. (None is required in the pre-medical course.)
This may be either:

a. A Department Minor, consisting of at least ten semester hours of C grade or better in any one department other than the one selected for a major, in addition to the introductory course or courses in that department; or

b. A Group Minor, consisting of at least six semester hours of C grade or better in addition to the introductory course or courses in each of two related departments other than the major department. In either case, the choice of a minor must be approved by the student's counselor, and must be reported to the Registrar early in the second semester of the sophomore year.

The departments in which a student may have a minor, either departmental or group, are: all the major departments, German, Library Science, Physical Education, Political Science, and Spanish.

4. Electives. Enough additional semester hours to total one hundred thirty-six, selected from any department, with the approval of the student's counselor. Those who are candidates for a certificate to teach in the secondary schools must include at least eighteen semester hours of education courses among their electives, must meet certification requirements in the subjects they expect to teach, and must be under the advice of the Department of Education as to allowable teaching subjects and combination of subjects.

Requirements for the Degree of Bachelor of Science

The satisfactory completion of one hundred thirty-six semester hours and one hundred thirty-six quality points is required for the degree of Bachelor of Science, which is offered in the Departments of Biology, Chemistry, Home Economics, and Physics. The one hundred thirty-six semester hours are to be distributed as follows:

1. Basic Subjects. The same as for the Bachelor of Arts degree except that the social studies requirement is reduced from fifteen to twelve semester hours.
2. A MAJOR. The required courses for each department are stated under Courses of Instruction, and are in addition to the introductory course or courses. A grade of C or better is necessary in all credits toward a major.

3. SUPPORTING COURSES. The courses listed as Supporting Courses for the degree in the departmental offering under Courses of Instruction.

4. A MINOR. The same as for the Bachelor of Arts degree. These courses may be chosen from the Supporting Courses, in which case the grade requirements of the minor also apply.

The Accelerated Program

In normal procedure a degree is earned over a four-year period. Because of the present emergency a sequence of courses has been provided which makes possible the completion of the requirements for a degree in slightly less than three years. This is accomplished by attending college during the summer session. Students may enroll at the opening of the fall or the winter session or the summer term. Young men desiring to complete as much education as possible before reaching the age of eighteen are advised to enroll for the summer term beginning in June.

Graduation Honors

The College grants two honor citations at graduation, Cum Laude and Summa Cum Laude. The attaining of these citations depends on the quality of work done, as outlined below.

CUM LAUDE

There are two ways of qualifying for this honor:

A. Students will be graduated Cum Laude who receive a grade of A in at least thirty percent of the total number of semester hours taken, a grade of B or better in not less than fifty additional percent of such hours, and not more than four semester hours in grades below C.
B. Students will also be graduated Cum Laude who receive a grade of A in at least twenty percent of the total number of semester hours taken, a grade of B or better in not less than forty additional percent of such hours, and not more than four semester hours in grades below C, provided

1. That they select, with the permission of the department concerned, a subject for independent intensive study in one of the departments offering a major or in the Department of Education, and

2. That this subject be selected not earlier than the end of the sophomore year nor later than the end of the junior year, and that the study be continued until graduation (as much as three semester hours per semester may be allowed for this special study toward the one hundred thirty-six semester hours required for graduation), and

3. That the student pass a comprehensive examination in the department in which the special study is made.

**SUMMA CUM LAUDE**

This citation will be awarded to students who have met the grade requirements stated under Plan A above and have done the special work stated under Plan B above, and who are recommended by the department concerned as worthy of highest honors.

**Awards**

The following awards have been founded, and are bestowed annually at Commencement:

**The Bates Prize**, founded in 1905 by Edward Bayley Bates, of the class of 1898, in memory of Rev. Laurence Webster Bates, D.D., is a gold medal awarded to the member of the graduating class who has made the best record during his undergraduate course as a college man.

**The Mary Ward Lewis Prize**, founded in 1920 by the Browning Literary Society in honor of the wife of the second
President of the College, is a gold medal awarded to the member of the graduating class who has made the best record during her undergraduate course as a college woman.

The John A. Alexander Medal, founded in 1920 by the Class of 1917 in memory of John A. Alexander, a member of the Class of 1917, who died in the World War, is a gold medal awarded to the member of the graduating class who has made the best record in athletics.

The Lynn F. Gruber Medal, founded in 1925 by the Black and White Club as a memorial to Lynn F. Gruber, of the Class of 1926, is given for proficiency in extra-curricular activities.

The History Excellence Prize is established by Prof. Theodore M. Whitfield in honor of his father, James Morehead Whitfield, and in the hope of encouraging excellence in scholarship. Juniors and seniors majoring in the Department of History and Political Science are eligible for the award which is made annually to the student of highest excellence in scholastic achievement during his residence at Western Maryland College.

Preparation for High School Teaching

The School of Education offers comprehensive curricula for the preparation of high school teachers of the academic subjects and of the special subjects: Art, Home Economics, Music, and Physical Education. Students preparing to teach plan their course and work under the guidance of the Education Faculty throughout the course. If the student carefully plans his program, he may qualify to teach two or more high school subjects, complete the professional requirements for certification in Maryland, and meet the requirements for the Bachelor's degree in the usual four years of the college course.

Students ranking academically below the third quintile at the close of the junior year may not enter the courses in Education without the permission of the Education Faculty. For further information, the student is referred to the departmental requirements under Courses of Instruction.
Western Maryland College

The Fifth Year

Western Maryland College offers a fifth year of study to a limited number of students preparing for teaching. This allows time for additional courses in the specific fields of instruction as well as added time for cadet teaching. By pursuing a fifth year of study, the student may qualify for the degree of Master of Education. Applicants for this work should communicate with the Dean of the School of Education.
GENERAL INFORMATION
General Information

**Extracurricular Activities**

**STUDENT GOVERNMENT**

Realizing the opportunity given during the four years in college to develop qualities of leadership and good citizenship, the Administration encourages student participation in self-government and in worthwhile extra-curricular activities. Representatives of the Student Government and the Faculty compose a Student Activities Committee which directs the varied social program of the college year.

Upon registration all students become members of either the Men’s Student League or the Women’s Student Government Association, which are organized to direct the conduct of students in all phases of college life. The governing bodies are composed of boards of student representatives.

**HONOR SOCIETIES**

The National Honorary Biological Fraternity, Beta Beta Beta, has established a chapter at Western Maryland College. A student majoring in biology may be initiated into the fraternity after he has obtained a total of ten semester hours credit in biology, provided this and all his other college work is of superior grade. Members are elected at the beginning of each semester by the active members of the chapter, on nomination by the faculty of the Biology Department.

A chapter of Tau Kappa Alpha, a national debating and public speaking fraternity, was established in the College in May, 1935. Juniors and seniors who have participated in as many as three intercollegiate or intramural speaking or debating contests are eligible for membership.

In 1935 there was organized at the College a local honor society named “The Argonauts.” Fellowship in the society is reserved for those who graduate with the citation Cum Laude or Summa Cum Laude, but the activities of the organization on the campus are carried on chiefly by the associates, who are either candidates for graduation honors or have an average grade of B and have spent at least four semesters in this or another college of recognized standing. Meetings are held about once a month.
to hear reports on scholarly investigations, and a banquet is held each spring in honor of the fellows.

**RELIGIOUS ORGANIZATIONS**

There are on the campus the Student Christian Association, the William G. Baker Sunday School, and the Wesleyans, an association of ministerial students. A United Religious Activities Council, composed of representatives from the major student organizations and also from the faculty, directs and unifies the religious activities.

**ATHLETIC ORGANIZATIONS**

Western Maryland sponsors several athletic teams, both intramural and intercollegiate. Football, basketball, baseball, and track are considered major sports for men; boxing, soccer, tennis, rifle, and golf are the minor sports; touch-football, basketball, volleyball, handball, wrestling, speedball, tennis, fencing, and similar sports are included in the intramural program.

Women's athletics are organized under the Women's Athletic Association. Hockey, basketball, baseball, volleyball, tennis, badminton, archery, golf, fencing, and hiking are among the sports included in the year's program. In addition to the above, horseback riding is available at a stable adjoining the campus.

**SOCIAL FRATERNITIES AND SORORITIES**

There are eight of these organizations on the campus, all of them of local origin: Alpha Gamma Tau, Pi Alpha Alpha, Gamma Beta Chi, and Delta Pi Alpha for men; Delta Sigma Kappa, Phi Alpha Mu, Sigma Sigma Tau, and Iota Gamma Chi for women.

**MISCELLANEOUS CLUBS**

Among the organizations concerned with special interests may be mentioned the various music clubs, such as the Choir, the Glee Club, the Band, and the Orchestra; the Art Club; the College Players; the Home Economics Club; Le Cercle Francais; the Camera Club; the International Relations Club; the Eco-
nomics Club; the Alpha Delta Lambda, a student club in physical sciences; the R.O.T.C. Officers Club; the Hospians, a men's service club.

STUDENT PUBLICATIONS

The Gold Bug is a weekly paper sponsored by the students of the College. The Aloha, the student annual, is edited and published by the senior class.

CONCERT AND LECTURE PROGRAM

The College regularly invites speakers of note to address the student body on subjects of general or scholarly interest. A series of musical and dramatic programs features not only members of the Departments of Music and Drama, but outstanding guest artists. One of the annual events is the concert by the National Symphony Orchestra under the direction of Hans Kindler.

Expenses

While the regular college year consists of two semesters and students are billed on this basis, charges are made upon the supposition that a student will attend the entire year. Since the budget of the College for the year is built on this assumption, no refund can be given to those withdrawing during the year (unless called into the armed services). Allowance, however, will be made for board in the case of students absent from college for a continuous period in excess of three weeks. Bills are due when presented and students will not be advanced from one class to another nor be graduated until accounts are settled in full.

The tuition charge for the semester is $140. An additional charge of $8 per hour is made for each semester hour in excess of the normal load of sixteen to eighteen hours. Board and room (depending on room selection) range from $175 to $212.50 for a semester. An extra tuition charge of $35 per semester is made for private instruction in voice, piano, organ, and violin. Certain courses in Art and in Dramatic Art, where there is individual instruction, carry a small extra tuition charge as listed under Courses of Instruction.
Western Maryland College

A refundable breakage deposit of $10 is charged to all boarding students, $5 to all day students. Laboratory fees for courses in science are given under each course description. A charge of $1.50 per day is made for use of the infirmary in excess of the seven days available without charge. Music practice rooms for piano, violin, and voice carry a fee of $5 per daily hour per semester; organ, $7.50.

Total charges for all necessary college expenses (including text books, which may be purchased at the college bookstore) vary from $675 to $775 for the regular college year.

**Scholarships**

**STUDENT AID**

Western Maryland College has available a few self-help positions for worthy and needy students. Juniors and seniors in good standing may use the Student Loan Fund. Applicants for student aid and those interested in scholarship help may address their inquiries to the President.

**STATE SCHOLARSHIPS**

An Act of the General Assembly of Maryland enables the College to furnish tuition and board free to two students (one young man and one young woman) from each county of the State and from each legislative district of Baltimore City. A scholarship cannot be held by the same student for more than four years, nor beyond the time of receiving a Bachelor's degree, and the holder is required to give bond to the State of Maryland
for such amount, with such security as may be approved by the College, that he, or she, will teach school within the State for not less than two years after leaving College. In order to enable the College to carry out fully the intention of the Act of the Legislature providing for these scholarships, it is highly important that only those students be appointed who are graduates of accredited four-year high schools, whose scholarship meets the requirements for recommendation of the State Department of Education, and who desire to qualify as high school teachers in the State of Maryland. A medical examination for the Teachers' Retirement System should be required before an appointment is made.

Candidates for these scholarships residing in Montgomery and Prince George's Counties should apply to their respective county Boards of Education for information regarding the competitive examination; candidates residing in the other counties and in the districts of Baltimore City should apply to the Registrar of the College for this information.
COURSES OF INSTRUCTION
Courses of Instruction

Courses are designated by departments and a three digit system of numerals. The first, or hundreds, digit in a number indicates the class standing that a student must attain to be eligible for the course. Freshmen may not register for any course numbered 200, or above; sophomores, 300 or above; juniors, 400 or above; seniors, 500 or above.† Courses numbered 500 or above are open to advanced students doing work beyond the Bachelor’s degree.

Single numerals (e.g., 101) designate semester courses. Two numerals indicate a year course. Courses designated by odd numbers are offered the first semester, those by even numbers the second semester. A course numeral succeeded by the letter r (e.g., 101r) indicates that it is repeated each term.

A semicolon is used to separate the numerals (e.g., 103; 104) when each half year’s work may be taken independently of the other and credit received for the work of a single semester.

A comma placed between the numerals (e.g., 105, 106) indicates that the work of the first semester is prerequisite to that of the second but credit may be received for the work of the first term without the completion of the work of the second.

Hyphenated numerals (e.g., 107-108) indicate year courses for which no credit is given until the work of both semesters has been completed.

Asterisks placed before the course designation (e.g., *101) indicate that the work is considered introductory in relation to major and minor requirements.

†Exceptions may be permitted only by the Dean of the Faculty in cases of unusual program adjustments, or in special preparation for participation in the National Emergency.

*102. INTRODUCTORY HUMAN BIOLOGY.

A study of biological principles as illustrated primarily in the human being; origin of the race and of the individual, fundamental structure and physiology of the body, reproduction, inheritance, survival against disease. Required of all freshmen except those who take Biology 104. Prerequisite, Biology 101 or its equivalent. Laboratory fee, $5.00.

Two class periods and one three-hour laboratory period a week. Credit, three semester hours.

103. GENERAL BIOLOGY SURVEY.

A parallel course to Biology 101 and may be substituted for that course by all who expect to take no further work in the department beyond the first year. Materials fee, $3.00.

Three class or demonstration periods a week. Credit, three semester hours.

104. HUMAN BIOLOGY SURVEY.

A parallel course to Biology 102 and may be substituted for that course by all who expect to take no further work in the department. Prerequisite, Biology 101 or 103 or their equivalent. Materials fee, $3.00.

Three class or demonstration periods a week. Credit, three semester hours.

201. INVERTEBRATE ZOOLOGY.

Morphological and systematic study of representative forms from the various phyla of invertebrate animals. Special attention is given to fauna of local interest, including terrestrial, fresh-water, and marine forms. Laboratory fee, $5.00.

Two class periods and one three-hour laboratory period a week. Credit, three semester hours.

202. GENERAL SYSTEMATIC BOTANY.

A study of the structure and reproduction of typical plants from all phyla, with special emphasis on the flowering plants. Considerable time in the spring is given to the collection and study of local flora. Laboratory fee, $5.00.

Two class periods and one three-hour laboratory period a week. Credit, three semester hours.
Western Maryland College

204. Genetics.
Primarily a study of the laws of inheritance, this course also deals with the related subjects of evolution and with some philosophical problems arising from the study.
*Three periods a week.* Credit, three semester hours.

301. Vertebrate Embryology.
A study of comparative vertebrate development as seen in frog, chick, and pig. The course includes training in the technique of making permanently mounted serial sections of embryos. Laboratory fee, $5.00.
*One class period and two three-hour laboratory periods a week.* Credit, three semester hours.

A systematic comparison of the gross anatomy of type specimens from the fishes, amphibia, reptiles, birds, and mammals to show both fundamental homology and individual adaptation. Laboratory fee, $8.00.
*One class period and two three-hour laboratory periods a week.* Credit, three semester hours.

304. Mammalian Physiology.
The study of the mechanics of the animal organism, particularly the mammal: its use of food, its response to stimuli, its self-regulation, foods, digestion, absorption, circulation, respiration, excretion, muscular action, nervous coordination, etc., from a physical and chemical point of view. A previous knowledge of elementary chemistry is necessary and some organic chemistry is highly desirable.
*Three class periods a week.* Credit, three semester hours.

304a. Anatomy of the Cat.
Laboratory dissection of the cat, and comparison with human anatomy. Required of all who take Biology 304, unless they have previously had Biology 302. Laboratory fee, $5.00.
*One three-hour laboratory period a week.* Credit, one semester hour.

A study of the relation of animals to their surroundings: the effect upon animal life of the various ecological factors, such as presence of water, temperature, light, physical and chemical conditions of the air and soil, climatic and biotic factors and the special adaptations of animals for meeting these factors. Particular stress is placed on the field work, in which much attention
is paid to the insect life of the vicinity, the habitat in which an insect is found, the taxonomy of insects, the reasons for the various associations. Laboratory fee, $5.00.

*Two class periods and one three-hour laboratory or field period a week.* Credit, three semester hours.

306. **PLANT ECOLOGY AND PHYSIOLOGY.**
A study of plants in relation to their environment from a physiological point of view. Emphasis is placed on types of habitat, plant associations, and succession. Part of the laboratory work is devoted to the study of various types of associations in the field, part to the performing of physiological experiments in the laboratory. Prerequisite, Biology 202. Laboratory fee, $5.00.

*Two class periods and one-three-hour laboratory or field period a week.* Credit, three semester hours.

Alternates with Biology 308. Offered in 1944-1945.

307. **MICROBIOLOGY.**
An introductory course giving training in bacteriological technique and sanitation, with some study of yeasts and molds. Morphological and physiological characteristics of ordinary types of bacteria leading to their identification. Bacteriological analysis of milk and water. Bacteriology of foods. Laboratory fee, $5.00.

*Three class periods and one three-hour laboratory period a week.* Credit, four semester hours.

308. **APPLIED MICROBIOLOGY.**
A continuation of Biology 307, dealing with various applications of bacteriology such as foods, commercial products, the economy of nature, and public health. Non-pathogenic organisms are used for the most part in the laboratory, but diseases are considered in class. Prerequisite, Biology 307. Laboratory fee, $5.00.

*Two class periods and one three-hour laboratory period a week.* Credit, three semester hours.

309. **ELEMENTARY HISTOLOGY.**
A study of the cell and of the principal mammalian tissues, together with practice in the preparation of tissues for microscopic study. Laboratory fee, $5.00.

*One class period and one three-hour laboratory period a week.* Credit two semester hours.
311. ADVANCED ANATOMY.

The structure of the human body, particularly of the skeletal and muscular systems, based on the study of the skeletons and models in the laboratory. Designed especially for advanced students in Physical Education. Prerequisite, Biology 304a or 302. Laboratory fee, $5.00.

*One class period and one three-hour laboratory period a week.* Credit, two semester hours.

316. HISTORY OF BIOLOGY.

*Once a week.* Credit, one semester hour.

351; 352; 451; 452. SPECIAL STUDIES IN BIOLOGY.

Directed individual study of various biological problems as the interest and previous preparation of the student may suggest. Conducted primarily for honors students, but other qualified students may be admitted with the consent of the Department. Laboratory fee, not more than $5.00 each semester, depending on the nature of the course.

Credit, one to three semester hours each semester, depending upon the quantity and quality of the work done.

BETA BETA BETA

In addition to the formal courses, there is held a weekly biological discussion under the auspices of Tri-Beta. Students report on current theories, recent advances, the relation of biology to other sciences, biographies of great biologists, results of experiments or observations, and kindred subjects not ordinarily covered in the regular courses, as time or interest demands. All who expect to major or minor in biology are urged to attend.

CHEMISTRY

Professor Schofield; Associate Professor Straughn; Miss Gambrill

Requirements for the Degree of Bachelor of Science: Major Courses, Chemistry 301, 302, 303, 304, 401, 403, 404, 452. Supporting Courses, Mathematics 101, 102, 201, 202, 301, 302; Physics 201, 202; German 101-102, 103, 104 or the equivalent; French 101-102 or the equivalent.

*201, 202. GENERAL CHEMISTRY.*

An elementary study of the fundamental laws and theories of chemistry; the chemistry of the more important elements and

their compounds. Laboratory fee, $6.00 each semester.

Three class periods and one four-hour laboratory period a week. Credit, four semester hours each semester.

203, 204. INTRODUCTORY CHEMISTRY FOR STUDENTS IN HOME ECONOMICS.

A special course containing a larger proportion of organic chemistry than Chemistry 201, 202. Offered only to students in Home Economics. Laboratory fee, $6.00 each semester.

Two class periods and one three-hour laboratory period a week. Credit, three semester hours each semester.

301. QUALITATIVE ANALYSIS.

Cation and anion analysis, employing semimicro technique; the theory underlying the analytical procedure. Prerequisite, Chemistry 201, 202. Laboratory fee, $9.00.

One class period and two three-hour laboratory periods a week. Credit, three semester hours.

302. ELEMENTARY QUANTITATIVE ANALYSIS.

The theory and practice of typical volumetric and gravimetric analyses. Prerequisite, Chemistry 301. Laboratory fee, $9.00.

One class period and two four-hour laboratory periods a week. Credit, three semester hours.

303, 304. ORGANIC CHEMISTRY.

A systematic study of the compounds of carbon; coordinated laboratory work on reactions, preparations, and qualitative analysis of organic compounds. Prerequisite, Chemistry 201, 202. Laboratory fee, $4.00 or $8.00 each semester. Breakage deposit, $10.00.

Three class periods and one or two three-hour laboratory periods a week. Credit, four or five semester hours each semester, depending on the selection of the laboratory work.

352; 451; 452. SPECIAL STUDIES IN CHEMISTRY.

Directed study of special topics. Elective for candidates for graduation honors in chemistry and for candidates for the degree of Bachelor of Science with a major in chemistry.

Credit, one to three semester hours each semester, depending on the quantity and quality of the work done.

401, 402. ADVANCED QUANTITATIVE ANALYSIS.

A continuation of Chemistry 302 and electroanalysis, combustion analysis, and colorimetry. Prerequisite, Chemistry 302.
Western Maryland College

Laboratory fee, $9.00 each semester.

One class period and two four-hour laboratory periods a week. Credit, three semester hours each semester.

403, 404. Physical Chemistry.
The properties of matter in the gaseous, liquid, and solid states; solutions; kinetics and thermodynamics of chemical reactions; electrochemistry. Prerequisites, Chemistry 302, Mathematics 202. Laboratory fee, $5.00 each semester.

Three class periods and one three-hour laboratory period a week. Credit, four semester hours each semester.

CLASSICS

Associate Professor Ridington

A student may elect a major or a minor in either Greek or Latin.

GREEK

*101-102. Elementary Greek.
A beginner's course for college students who have had no Greek. The course aims to provide an insight into the achievements of ancient Greece and to develop the power to read Greek.

Three periods a week. Credit, six semester hours.

First semester: Xenophon's Anabasis, Books I-II; second semester: Homer's Iliad, Books I-IV.

Three periods a week. Credit, three semester hours each semester.

221. Greek Literature in English Translation.
Readings largely from epic, drama, and literary criticism designed to provide a broad acquaintance with these phases of Greek literature and to clarify their position as a background of English literature. Knowledge of Greek is not required.

Three periods a week. Credit, three semester hours. This course may not be counted toward a major in Greek.

222. Greek Literature in English Translation.
Readings from lyric poetry, philosophy, history, biography, and other fields with emphasis on the Greek spirit as a back-

Two periods a week. Credit, two semester hours. This course may not be counted toward a major in Greek.

301; 302. Lycias and Plato.
First semester: Lycias' Orations; second semester: Plato's Apology and Crito.
Three periods a week. Credit, three semester hours each semester.

351; 352; 451; 452. Special Studies in Greek.
Directed study planned and conducted with reference to the needs of those students who are candidates for graduation honors in Greek. Qualified students who are not candidates for such honors, but who desire to take the course, are also admitted.
Credit, one to three semester hours each semester, depending upon the quantity and quality of the work done.

401; 402. Thucydides and Euripides.
First semester: Thucydides' History of the Peloponnesian War, Books VI-VII; second semester: Euripides' Medea and Sophocles' Antigone.
Three periods a week. Credit, three semester hours each semester.

LATIN

A beginner's course for college students who have had no Latin. This course is equivalent to the first two units of high school Latin. Some attention is given to Roman life and literature as well as to the Latin language and its place as a background for English.
Three periods a week. Credit, six semester hours.

*103, 104. Intermediate Latin.
This course is equivalent to the last two units of high school Latin. First semester: Cicero's Orations; second semester: Vergil's Aeneid, Books I-VI.
Three periods a week. Credit, three semester hours each semester.

105; 106. Ovid and Livy.
First semester: selections from Ovid's Metamorphoses; sec-

Second semester: Livy's *History*, Books XXI-XXII. Prerequisite, Latin 103, 104, or its equivalent.

*Three periods a week.* Credit, three semester hours each semester.

A study designed to develop in the students a thorough knowledge of classical mythology and its influence and use in our civilization. Attention is given to the use of mythology in English literature, in contemporary papers and periodicals, in art, and in other phases of our culture. A knowledge of the Latin language is not required.

*Three periods a week.* Credit, three semester hours. This course may not be counted toward a major in Latin.

109; 110. Survey of Roman Literature.
Selected readings from many of the great writers of prose and poetry. The development and significance of Roman literature is studied.

*Three periods a week.* Credit, three semester hours each semester.

201; 202. Cicero and Horace.
First semester: Cicero's *De Amicitia, De Senectute* and *Letters*; second semester: selections from Horace's *Odes* and *Satires*.

*Three periods a week.* Credit, three semester hours each semester.

224. Latin Literature in English Translation.
A general survey of Roman literature with attention to its relation to other literatures, especially English. Knowledge of Latin is not required.

*Three periods a week.* Credit, three semester hours. This course may not be counted toward a major in Latin.

301; 302. Tacitus and Roman Comedy.
First semester: Tacitus' *Agricola* and *Germania*; second semester: Plautus' *Captivi* and Terence's *Phormio*. Composition once a week throughout the year.

*Three periods a week.* Credit, three semester hours each semester.

305. Vergil.
Readings based chiefly on Books VI-XII of the *Aeneid*, but

including selections from other portions of Vergil's writings. Attention is given to the development of Vergil's art as a writer and to the literary significance of the Aeneid. 

Three periods a week. Credit, three semester hours.

351; 352; 451; 452. SPECIAL STUDIES IN LATIN.
Directed study planned and conducted with reference to the needs of those students who are candidates for graduation honors in Latin. Qualified students who are not candidates for such honors, but who desire to take the course, are also admitted.
Credit, one to three semester hours each semester, depending upon the quantity and quality of the work done.

DRAMATIC ART

Associate Professor Smith

No major or minor is offered in this field.

201, 202. INTERPRETATION.
A study of the art of interpreting literature, including analysis of material, voice training, elements of expressive action, imagery, motivation, and improvisation. Laboratory recitals are held each week, thus affording the students practical experience in platform and stage behavior. Each student receives individual instruction and criticism.
Two periods a week. Credit, one semester hour each semester.

301, 302. PLAY PRODUCTION AND ACTING.
Theory and technique of play production: stage design, costuming, lighting, make-up, and directing. The one-act play is studied in class, and presented in public to give the students experience in acting. Body training is continued, and the study of voice production and phonetics. Prerequisite, Dramatic Art 201, 202. Extra tuition fee, $7.50 each semester.
One period a week. Credit, one semester hour each semester.

403, 404. DRAMATIC INTERPRETATION.
The study of drama both modern and classic; public presentation of full length plays; the adaptation of plays to platform reading; radio technique. This course in expressional technique is adapted to the individual need and development of the stu-
dent. Prerequisite, Dramatic Art 301, 302. Extra tuition fee, $7.50 each semester.

*One period a week.* Credit, two semester hours each semester.

**ECONOMICS AND BUSINESS ADMINISTRATION**

Professor Tandy

*Economics 201, 202 is a prerequisite to all courses numbered 301 and above.*

103, 104. **Consumer Economics.**

Principles and problems of efficient buying and using of goods. Practical experiments and projects in the use of money, time, and other resources.

*Three periods a week.* Credit, three semester hours each semester.

106. **Economic and Social Geography.**

A study of economic and social activity in relation to natural resources.

*Three periods a week.* Credit, three semester hours.

*201, 202. **Principles and Problems of Economics.**

A study of the principles of economic organization and their application to economic problems. See note above.

*Three periods a week.* Credit, three semester hours each semester.

203, 204. **Elementary Accounting.**

The course covers a study of single proprietorship, partnership, corporation, manufacturing accounting, and accounting for non-profit organizations.

*Three periods a week.* Credit, three semester hours each semester.

Alternates with Economics 301, 302. Offered in 1944-1945.

208. **Personnel Administration.**

Hiring, selection, and training of employees; representation plans; pension plans; incentives; unemployment; legal relationships. Prerequisite, Economics 201.

*Three periods a week.* Credit, three semester hours.

Offered in alternate years, not in 1944-1945.
Courses of Instruction

301, 302. BUSINESS LAW.
Property, torts, contracts, agency, employer and employees, negotiable instruments, suretyship, insurance, bailments, carriers, sales, deeds, conveyances, mortgages, landlord and tenant, and business crimes.

Three periods a week. Credit, three semester hours each semester.
Alternates with Economics 203, 204. Not offered in 1944-1945.

303. TRANSPORTATION.
The development and principles of transportation.
Three periods a week. Credit, three semester hours.
Alternates with Economics 305. Offered in 1944-1945.

304. INTERNATIONAL ECONOMICS.
Principles of international trade and exchange; restrictions to trade; reciprocity, autarchy, international conflict.
Three periods a week. Credit, three semester hours.

305. LABOR PROBLEMS.
History, policies, and the significance of organized labor; methods of promoting industrial peace; development of labor legislation and social insurance.
Three periods a week. Credit, three semester hours.

306. GOVERNMENT CONTROL OF BUSINESS.
Influence and control of government in economic life.
Three periods a week. Credit, three semester hours.

307. ECONOMICS OF RETAILING.
Principles and problems of retail store operation.
Three periods a week. Credit, three semester hours.

308. PRODUCTION MANAGEMENT.
This is a survey of the major managerial problems of the production departments of manufacturing enterprises.
Three periods a week. Credit, three semester hours.

309. MONEY, CREDIT, AND BANKING.
History, principles, and effects of money, credit, and bank-

Three periods a week. Credit, three semester hours.
Alternates with Economics 313. Offered in 1944-1945.

311. Marketing.
Principles and activities involved in the flow of goods from producer to consumer.
Three periods a week. Credit, three semester hours.

312. Advertising.
Function and methods of advertising. Analysis of the relationship of advertising to production, distribution, and consumption.
Three periods a week. Credit, three semester hours.
Alternates with Economics 308. Offered in 1944-1945.

313. Budgeting.
The construction of modern business budgets and their use in relation to the administration of a going concern. Prerequisite, Economics 203, 204.
Three periods a week. Credit, three semester hours.

314. Introduction to Statistical Method.
See Mathematics 314.

351; 352; 451; 452. Special Studies in Economics.
The work is organized around the discussion group. Only those students are admitted who have demonstrated to the satisfaction of the department both the desire and the ability to do independent work. Students normally enter at the beginning of their junior year with the expectation of continuing during their senior year.
Credit, one to three semester hours each semester, depending upon the quantity and quality of the work done.

Western Maryland College

For a certificate in Art, Home Economics, Library Science, Music, and Physical Education, four years of work of college grade are required, at least thirty semester hours of which must be in the special subject in question. To qualify as a part-time librarian, a minimum of twelve semester hours of courses in Library Science is required. The program of work will be under the direction of the head of the department concerned.

The School of Education does not offer an undergraduate major in Education. The student in Education majors in one of the subjects which he is preparing to teach. He may meet certificate requirements in several subjects other than the major and graduate with more than one minor.

Students preparing to teach should plan their work so that one semester of the senior year may be kept entirely free for professional training. Consideration will be given to the student's choice of semester, but the class must be divided into two approximately equal groups.

303; 303R. Educational Psychology.
The characteristics of adolescence; increasing the effectiveness of learning; evaluating the outcomes of instruction. Prerequisite, Psychology 203.
Six periods a week, eight weeks. Credit, three semester hours.

407; 407R. Principles of High School Teaching.
The principles involved in the selection, organization, and teaching of the subject matter of the high school.
Six periods a week, eight weeks. Credit, three semester hours.

409; 409R. Student Teaching.
Conference, observation, and participation in the high schools of Carroll County.
Four weeks. Credit, four semester hours.

411; 411R. Guidance.
Principles and techniques of guidance by the homeroom and classroom teacher.
Four periods a week, eight weeks. Credit, two semester hours.

413; 413R. Audio-Visual Instruction.
The study of available materials in these fields with a view to their effective use in the classroom and in life. Materials fee, $3.00.
Eight periods a week, four weeks. Credit, two semester hours.
Courses of Instruction

415; 415R. The Junior High School.
  Historical development; the curriculum, extra-curriculum; present status in Maryland; the small junior high school.
  Eight periods a week, four weeks. Credit, two semester hours.

417; 417R. Curriculum Principles and Practices.
  Contrasting conceptions of the curriculum. A survey of curriculum trends, and an evaluation of recent innovations in selected schools.
  Eight periods a week, four weeks. Credit, two semester hours.

SPECIAL METHODS OR TEACHING COURSES

All candidates for the high school teacher's certificate are required to complete courses in special methods in two teaching subjects. In these courses the candidate reviews and reorganizes the content of his teaching subjects in the construction of large-topic or unit assignments which can be taught effectively to high school pupils, and studies the methods and techniques of teaching the several subjects. Each course gives considerable attention to the organization of the subject treated and its place in the curriculum.

Four periods a week, eight weeks. Credit, two semester hours.

The courses, listed below, are taught by departmental teachers qualified to do this type of work.

421; 421R. The Teaching of English.
423; 423R. The Teaching of French.
425; 425R. The Teaching of Mathematics.
427; 427R. The Teaching of Science.
433; 433R. The Teaching of Latin.
437; 437R. The Teaching of History and Social Science.

For courses in the teaching of Home Economics, Music, Art, Library Science, and Physical Education, and for additional courses creditable for teachers of these special subjects, refer to these departments under Courses of Instruction.
451; 452. History of Education.
A review of the development of educational institutions, theory, and practice; a study of the progress of education in the United States since 1789; the growth of democracy and nationalism in education in the leading countries of the world.
Three periods a week. Credit, three semester hours each semester.

Testing procedures; statistical methods applied to educational data; interpreting results for the improvement of teaching.
Three periods a week. Credit, three semester hours.

454. Philosophy of Education.
A philosophical study of curriculum and procedures in secondary education.
Three periods a week. Credit, three semester hours.

Independent study of a limited field under the guidance of a member of the staff, involving extensive reading and preparation of an essay. Required of all candidates for the degree of Master of Education.
Credit, four to ten semester hours for the year, depending upon the quality and quantity of the work done.

DEPARTMENT OF ENGLISH

Professor Wills; Associate Professors Makosky and Marshall;
Assistant Professors Hendrickson, Wenner, and Carmichael

Not more than eight semester hours of the following courses may be credited toward an English major: English 107, 217, 218, 221, 222, 224, 313, 314, 327, 328, 403, 404.

*101, 102. Literature and Composition.
A brief review of the principles of grammar and composition; training in reading; the study of significant literature; regular practice in writing and speaking.
Three periods a week. Credit, three semester hours each semester.

Note: Freshmen whose preparation justifies it may be excused from three or six hours of English 101, 102.
Courses of Instruction

105. Types of English Prose.
The critical reading of a recognized masterpiece in each of the major fields of prose.
Three periods a week. Credit, three semester hours.

The study of a limited number of poems illustrative of the major types of verse composition.
Three periods a week. Credit, three semester hours.

See Latin 107.

*201, 202. Survey of English Literature.
Readings from the literature of England, with a history of the literature, from the earliest period to the end of the nineteenth century.
Three periods a week. Credit, three semester hours each semester.

207. The Principles of Poetry.
A course designed to help the student understand and enjoy poetry.
Three periods a week. Credit, three semester hours.

Readings from the literature of the United States, touching upon its backgrounds, with emphasis upon the achievements of the nineteenth century.
Three periods a week. Credit, three semester hours.

The major American poets from Freneau to Sandburg, against the background of their lives and their times.
Three periods a week. Credit, three semester hours.

211; 212. The English Novel.
A study of the British novel from the early eighteenth century to the present, with special attention to the evolution of various types in the works of the major authors.

**PRE-MEDICAL COURSE**

Western Maryland College is one of the colleges approved by the American Medical Association for the giving of a pre-medical course. In normal times all the better medical schools either specifically require a baccalaureate degree for entrance or give preference to students who hold such a degree. On the basis of the requirements of such schools the following courses beyond the basic requirements have been prescribed for a pre-medical major at Western Maryland College:

- Biology 301, 302 (201, 204, 304, and 309 recommended); Chemistry 201, 202, 301, 302, 303, 304 (403, 404 recommended); Physics 201, 202 (301 recommended); Mathematics, six semester hours (six additional semester hours recommended); French or German, the equivalent of two college years (some schools require both French and German). Electives should include at least six semester hours of Social Studies beyond the basic requirements and, if possible, additional courses in Psychology, Philosophy, and Literature.

During the present emergency the medical schools have reduced their prerequisites in most cases to two academic years (sixty semester hours exclusive of physical education and military science). The specific requirements include: Biology, eight to twelve semester hours; Chemistry, fourteen to nineteen semester hours; Physics, six to twelve semester hours; English, at least six semester hours; and a modern foreign language, at least six semester hours.

Supporting Courses, Chemistry 201, 202; Mathematics 101, 102, 201, 202, 301, 302; two college years or the equivalent in either French or German and the equivalent of one college year in the other.

101. PHYSICAL SCIENCE.
An integrated course of study selected from the fields of Astronomy, Geology, Chemistry, and Physics. Emphasis is placed on the cultural aspects of these sciences. Demonstration equipment fee, $5.00.

*Three periods a week. Credit, three semester hours.
Offered in alternate years, not in 1944-1945.

**201, 202. GENERAL PHYSICS.
Mechanics, sound, heat, light, magnetism, and electricity. Prerequisite, Mathematics 101, 102. Laboratory fee, $5.00 each semester.

*Three class periods and one three-hour laboratory period a week. Credit, four semester hours each semester.

203. METEOROLOGY.
An elementary treatment of the principles and practices of accumulating and interpreting weather information.

*Three periods a week. Credit, three semester hours.

301. MECHANICS.
The mechanics of solids, liquids, and gases. Prerequisites, Physics 201, 202 and Mathematics 201 and 202. Laboratory fee, $5.00.

*Three class periods and one three-hour laboratory period a week. Credit, four semester hours.

302. HEAT.
Fundamental principles of heat phenomena. Prerequisites, Physics 201, 202 and Mathematics 201 and 202. Laboratory fee, $5.00.

*Three class periods and one three-hour laboratory period a week. Credit, four semester hours.
Alternates with Physics 304. Offered in 1944-1945.
303, 304. Magnetism and Electricity.
A course in the theory of the subjects, with the solution of problems. Prerequisites, Physics 201, 202 and Mathematics 201 and 202. Laboratory fee, $5.00 each semester.

*Three class periods and one three-hour laboratory period a week.* Credit, four semester hours each semester.

305. Light.
A study of the fundamental principles of light phenomena, together with the history of their development and application. Prerequisites, Physics 201, 202 and Mathematics 201 and 202. Laboratory fee, $5.00.

*Three class periods and one three-hour laboratory period a week.* Credit, four semester hours.

Offered in 1944-1945 and in alternate years.

A treatment of some of the recent trends in such fields as sound, radiation, spectral emission, and quantum theory. Prerequisites, Physics 201, 202 and Mathematics 201 and 202. Laboratory fee, $5.00.

*Three class periods and one three-hour laboratory period a week.* Credit, four semester hours.

Offered in 1944-1945 and in alternate years.

308. Radio.
A study of the theory and practices of radio communication. Prerequisite, Physics 201, 202.

*Three periods a week.* Credit, three semester hours.

308a. Radio Laboratory.
A laboratory course to accompany Physics 308. Laboratory fee, $5.00.

*One three-hour laboratory period a week.* Credit, one semester hour.

311, 312. Household Physics.
A course in General Physics arranged for students whose major field is Home Economics. Laboratory fee, $4.00, second semester.

*Three class periods a week, first semester; two class periods and one three-hour laboratory period a week, second semester.* Credit, three semester hours each semester.

Endowments

For a number of years the College has been accumulating an endowment fund. In a campaign which was completed several years ago, funds were secured which increased the endowment to more than $900,000. Included in this fund are the following Special Endowments:

**The Oscar Lafayette Morris Library Memorial Fund—$10,000.**

By the will of the late Oscar Lafayette Morris, of Salisbury, Maryland, the College came into possession of a bequest of $10,000. This gift has been set apart as a special endowment for the Library, to be known as the Oscar Lafayette Morris Library Memorial Fund.

**The James Thompson Memorial—$10,000.**

Through a gift of $10,000 made by Dr. and Mrs. William J. Thompson, of New York City, in memory of Dr. Thompson’s father, the late Rev. James Thompson, of the Maryland Conference of the former Methodist Protestant Church, the “James Thompson Memorial” has been established. The income from this endowment is used for the purchase of books for the Departments of Psychology and Philosophy and Religion.

**The Harry Clary Jones Scholarship Fund—$10,000.**

Through a bequest of the late Prof. Harry Clary Jones, two scholarships are offered for seniors in the Departments of Chemistry and Physics, one in the Chemistry Department and one in the Physics Department. Candidates for these scholarships must meet certain standards set by the departments concerned, and the scholarships are to be given only to students who reach these standards. If in one of these departments no outstanding candidate appears in any year, two scholarships may be given in the other department, provided there should be found two candidates in that department who meet the requirements set for the bestowal of the scholarship. If no candidate in either of these departments meets the requirements for this honor, then no scholarship shall be awarded in that year, and the income from the investment for that year shall be placed back into the fund and used in awarding additional scholarships in succeeding years, as the Committee on the Award may see fit. This committee shall be the two heads of the departments concerned, who will recommend the awarding of the scholarship to the President of the College for his approval and appointment.

**The Lee Scholarship Fund—$15,000.**

Through a bequest of Miss Grace Lee, four tuition scholarships are to be awarded by the Board of Trustees of the College for the
Western Maryland College

benefit and education of deserving students. The beneficiaries are to be students who are unable to meet the full expenses of a college education. Applications for the scholarships must be made to the President of the College before the first of August of each year.

The Florence E. Stoner Western Maryland Free Scholarship—$20,000.

By the will of the late Frank L. Stoner, of Frederick, Maryland, a trust fund of $20,000 was set up, the income from which is to be used for the maintenance of a free scholarship at Western Maryland College.

The W. O. Atwood Memorial Fund—$150.

The W. O. Atwood Fund was established in 1933 as a loan fund for worthy students.

The Laura J. Stevens Memorial Fund—$100.

The Laura J. Stevens Memorial Fund was established in 1934 as a loan fund for worthy students.

The Class of 1932 Student Loan Fund—$330.

This fund was established by the Class of 1932 as a loan fund for worthy students.

ENDURING INVESTMENTS

No forms of beneficence exceed in importance gifts to education. Educational institutions are not money-making institutions—their dividends are in character building and in mental development. The tuition students are able to pay meets only one-third of the actual costs; the remainder must come from endowment and annual gifts. We desire to call the attention of our friends to the important work Western Maryland College is doing in the field of higher education, and to make the suggestion that the College offers an opportunity for beneficence where most satisfactory results may be obtained. More than two million dollars have been expended in this institution in buildings and endowment. The success of this college has been phenomenal in many respects, but its success makes it imperative that a much larger endowment and a more extensive equipment be secured if the college is to go forward in the most efficient way.

The friends of higher education are respectfully asked to
Endowments

consider the claims of this institution and to join in making possible the complete success of the enterprise projected.

Consideration is asked for the following items:

1. $1,500.00 will establish a tuition scholarship in the Department of Music.

2. $3,000.00 will endow a tuition scholarship in the Academic Department.

3. $10,000.00 will endow a scholarship that will provide both board and tuition for one student.

4. $75,000.00 will endow a full professorship.

5. $75,000.00 to $150,000.00 will erect one of the new buildings projected in the plans adopted for the re-grouping of the college buildings.

Gifts in any amounts will be applied to the purposes indicated by donors.
