Western Maryland College, in compliance with Federal and State laws and regulations governing affirmative action and non-discrimination, does not discriminate in the recruitment, admission, and employment of students, faculty, and staff in the operation of any of its educational programs and activities as defined by law. Accordingly, nothing in this publication should be viewed as directly or indirectly expressing any limitation, specification, or discrimination as to race, religion, color or national origin, or to handicap, age, sex, or status as a disabled or Vietnam-era veteran. Any inquiries regarding the above may be directed to Dean Helen B. Wolfe, 301/848-7000, ext. 500.

The College reserves the freedom to change any programs, policies, requirements, or regulations published in this catalog.
Published August, 1988.
"I think we should thank our lucky stars for the fact that we happen to be coming together in this particularly lovely place, a fine old school distinguished by more than a century of offering the best in education to generations of bright, sometimes brash, but always choosy and challenging students."

Robert H. Chambers, President
Western Maryland College
Western Maryland College believes that liberally educated men and women think and act critically, creatively, and humanely. They take charge of their lives and develop their unique potentials with reason, imagination, and human concern. The College's goal—to provide an academic and social environment that promotes liberal learning—is expressed in its *First Principles*:

We strive to place students at the center of a humane environment so that they may see and work toward their personal goals while respecting others and sharing responsibility for the common good.

We provide a foundation of knowledge about the past and present so that students may be informed about the world.

We provide various approaches to knowledge and personal achievement so that students can think critically about, respond creatively to, and form sensitive, intelligent decisions concerning the world and its future.

We provide instruction in fundamental skills so that students can express themselves for their own satisfaction and to the larger community.

We provide solid and respected professional programs for the committed student, and, more important, we provide a liberal arts education as an integral part of professional training so that students will be more flexible, more successful, and happier in the world of work.
Heritage

According to Edward B. Fiske, education editor of the *New York Times* and author of *The Best Buys in College Education*, “Western Maryland College began its existence as the first coeducational college south of the Mason-Dixon line, and the College and its students have been innovating ever since.”

Shortly after the Civil War, Fayette R. Buell, a Westminster teacher, embarked on his dream of founding a small private college. He purchased a tract of land—a hill overlooking the town—and issued a prospectus in search of support for his dream. Although financing was slow to materialize, he did receive generous support from two of the community leaders: the Reverend J. T. Ward, of the Methodist Protestant Church, who would become the College’s first president, and John Smith, president of the thriving Western Maryland Railroad and a resident of nearby Wakefield Valley.

Mr. Smith, who became the first president of the College’s board of trustees, suggested that the College be named after the railroad, which maintained an important terminal in Westminster. On the day in 1866 that the cornerstone was laid for the College’s first building, free rail passage was granted to everyone who attended the ceremonies. Eventually, the Western Maryland Railroad became extinct, after merging with another company. But the College that bore its name continued to grow.

The first building on the Hill was completed in September, 1867; 37 men and women were enrolled in eight areas of study. Already, the new college was in many ways ahead of its time. In the original *Charter*, the founders and the first board of trustees clearly reflected their intentions that Western Maryland be an innovative and independent institution:

*Western Maryland College shall be founded and maintained forever, upon a most liberal plan for the benefit of students without regard to race, religion, color, sex, national or ethnic origin, which students shall be eligible for admission to equal privileges and advantages of education and to all social activities and organizations of the college, without requiring or enforcing any sectarian, racial or civil test, and without discrimination on the basis of sex, national or ethnic origin, nor shall any prejudice be made in the choice of any officer, teacher, or other employee in the said college on account of these factors.*

Since its inception, it has been an independent liberal arts college with an autonomous board of trustees. A voluntary fraternal affiliation with the United Methodist Church existed from 1868 until 1974; today there are no ties to any denominational body. Control and ownership are fully vested by the *Charter* in the trustees, under Maryland state law.

In its 120-year history, the College has had only seven presidents: Dr. Ward, Dr. Thomas Hamilton Lewis (1886-1920), Dr. Albert Norman Ward (1920-1935), Bishop Fred G. Holloway (1935-1947), Dr. Lowell S. Ensor (1947-1972), Dr. Ralph C. John (1972-1984), and Dr. Robert H. Chambers (1984-present). Under their guidance, the College has assumed a place among the quality liberal arts colleges in the nation, developing programs and material and physical assets that fulfill the vision of its founders.
Location

Western Maryland’s picturesque campus is just a short drive from two of the nation’s major metropolitan centers—Baltimore and Washington. It overlooks the historic town of Westminster onto a panorama of rich farmland, mountain silhouettes, and spectacular sunsets.

Western Maryland’s 160-acre campus is centered on the crest of a high hill. Its landscaping, roadways, numerous playing fields, and 35 buildings take advantage of the varied, sloping terrain. Although the predominant architectural influence is Georgian, an eclectic and interesting variety has been added by the presence of Classical, Victorian, Dutch, and more modern styles.

Located on Main Street in Westminster, the College is within walking distance of department stores, restaurants, antique and specialty shops, churches, movie theaters, and banks. Parks, recreational areas, and historic sites are just a few minutes away by car.

Baltimore, home of Maryland’s banking, shipping, and communications industries, is 30 miles southeast of the College. Washington, D.C. is just over 50 miles to the south. Both offer Western Maryland students opportunities for learning and leisure—art and history museums, internships on Capitol Hill, Baltimore Orioles games, and Georgetown nightlife.

On campus, facilities for learning and leisure include fully equipped science laboratories, an audiology lab, and video equipment; a nine-hole golf course; the new Physical Education Learning Center with a weight training center and human performance laboratory; and Decker College Center, with a bookstore, lounges, post office, snack bar, and pub.
The original College community—37 students and seven faculty members—has multiplied to the present day community of 1,200 undergraduate students from 22 states and ten foreign countries; there are 83 full-time faculty members, 80 percent of whom hold Ph.D.'s. The campus atmosphere is warm and friendly.

At Western Maryland, a part of liberal education is developing friendships. One of Western Maryland's basic aims is to give students opportunities to achieve an understanding of other people through relationships within the academic community.

Faculty members are readily accessible to students—for tutoring, counseling, or simply for friendly discussions; however, students should take the responsibility for initiating such contact. And, because better interchange of ideas and greater understanding result when students live on campus, all undergraduate students are required to live in residential housing except those officially designated as commuting students.

Students are also encouraged to participate in governing the College through the Student Assembly and various College committees. One of these is the Honor Board, made up of both student and faculty representatives. The Board holds hearings on violations to the Honor Code and prescribes penalties. The Code establishes standards of conduct specifically related to coursework, as distinguished from social regulations, for the College community. Its purpose is to make students responsible for their own actions. Each person is required to accept the academic honor system, to assist in making it effective, and to participate with faculty members in reporting all violations.

Student involvement beyond the classroom is also vital to the spirit of community at Western Maryland. Music, art, and drama groups thrive on the Hill, and special interest groups range from the educational to the entrepreneurial. More than 40 percent of the students compete on one of the College's 21 intercollegiate sports teams, and about 30 percent are members of one of the eight Greek organizations on campus.
Opportunities and Honors

Change, revision, experimentation, and exploration—all are vital to Western Maryland's continuing pursuit of excellence. Each year many new opportunities for students and faculty members arise and new achievements in the community are honored. Here is a sampling:

*Academic departments* have added new courses including: Photography, Graphic Art, Philanthropy, Computer Science, World of Light and Color, and Jewish Image in Western Literature. New minors have been established in accounting, comparative literature, classics, aquatics, outdoor education, and sports coaching.

Student internships are now available at the Frederick Cancer Research Center in chemistry, and at other sites in industry, politics, television, and social work. A word processing center for students in writing classes, featuring Macintosh personal computers, has recently opened. In recent years, the College’s teacher education program was named the State of Maryland’s most innovative.

*Faculty members* are consulting in chemistry at the Naval Weapons Research Laboratory and at the National Institutes of Health; with CBS Publications and Walt Disney Productions on educational projects; and with PBS on a 13-part television series on Maryland writers.

Others are conducting biological research at the Savannah River Ecological Laboratory; making a film on French archaeological sites; and spending their sabbaticals and holidays studying such subjects as deafness, Islamic art in the Near East, and ancient games of Greece.

*Students* have consistently scored in the 83rd percentile or better on the Graduate Record Examination in economics. Seventy-five percent of the chemistry department’s graduates have enrolled in graduate school. A recent study ranked Western Maryland among the nation’s top 50 institutions in the percentage of graduates who earn Ph.D.'s in the life sciences.

One student won a Fulbright Fellowship to study abroad in Austria. Others have worked as advisors to Junior Achievement companies in the community, and with faculty members researching the enzymology of birth defects, cystic fibrosis, and cancer. Over the past five years 25 athletes have been nominated to Academic All-America teams for their achievements in academics and athletics.
Western Maryland College is fully accredited by the Middle States Association of Colleges and Secondary Schools.

The College’s undergraduate programs in teacher education are approved for certification by the Maryland State Department of Teacher Education. The College is also on the approved list of the American Association of University Women and the American Chemical Society, and is accredited by the Council on Social Work Education.

Enrollment
Of the College’s 1,200 undergraduate students, 45 percent are men and 55 percent are women. They come from 22 states and ten foreign countries; the majority are from the Middle Atlantic Eastern Seaboard states.

Faculty
The student faculty ratio is 13:1. There are 83 full-time undergraduate faculty members, 80 percent of whom hold the doctoral degree or its equivalent. All courses and laboratories are taught by regular faculty members, not by teaching assistants.

Calendar
The academic year is organized on a 5-1-5 basis—fall and spring terms are separated by a January Term, three weeks of intensive study during which students pursue special topics.

Costs
Western Maryland is one of 221 colleges in the nation and four in Maryland to be featured in The Best Buys in College Education by Edward B. Fiske, education editor of the New York Times. Average expenses for the academic year 1988-89:

- Tuition $9,450
- Room and Board $3,545
- $12,995

Financial Aid
Western Maryland awards financial aid on the basis of both need and merit. Approximately 60 percent of all students receive financial aid in the form of scholarships, grants, loans, and campus jobs.

Academic Program
Students take 30 percent of their course work in the liberal arts: humanities, the fine arts, and the natural and social sciences.

Majors
American studies
Art
Biology
Business administration
Chemistry
Communication
Economics
English
French
German
History
Mathematics
Music
Philosophy
Physical education
Physics
Political science
Psychobiology
Psychology
Religious studies
Sociology
Social work
Spanish

Preprofessional programs available include pre-legal studies, pre-ministerial studies, pre-museum studies, pre-professional studies for health sciences, and certification for both elementary and secondary teaching. Pre-engineering, pre-forestry, pre-nursing, and pre-physical therapy are offered with subsequent transfer to cooperating universities after basic work is completed at Western Maryland. Students may also design their own majors.

Deaf Education
Western Maryland College is internationally recognized for its graduate programs in training teachers for the deaf and deaf/blind. Undergraduate students may take courses in this field and many choose to learn sign language.

Policy
Western Maryland College, in compliance with Federal and State laws and regulations governing affirmative action and non-discrimination, does not discriminate in the recruitment, admission, and employment of students, faculty, and staff in the operation of any of its educational programs and activities as defined by law. Accordingly, nothing in this publication should be viewed as directly or indirectly expressing any limitation, specification, or discrimination as to race, religion, color, or national origin, or to handicap, age, sex, or status as a disabled or Vietnam-era veteran. Any inquiries regarding the above may be directed to Dean Helen B. Wolfe, Director of Affirmative Action, 301/848-7000, ext. 500.
From Western Maryland College to:

- Baltimore: 31 miles
- Columbia: 36 miles
- Washington: 56 miles
- Gettysburg: 24 miles
- Philadelphia: 136 miles
- Wilmington: 100 miles
- New York: 218 miles
- Northern Virginia, Fairfax/Arlington: 70 miles
- Richmond: 86 miles

**From Baltimore:**

Take the Baltimore Beltway (I-695) to Exit 19 onto I-795 (Northwest Expressway). Continue on I-795 North to its completion. Follow signs to Westminster via Route 140 North. Continue on Route 140 around Westminster and turn left exiting onto Route 31. Drive ¼ mile (with the WMC golf course on your left) and turn left at red light onto Route 32. Route 32 is Main Street, Westminster, and the campus visitor entrance will be the second one on the left.

**From Washington:**

From the Washington Beltway (I-495), exit onto I-270 toward Frederick, then onto Rte. 118 East toward Germantown/Damascus. Take Rte. 27 to Westminster. Turn left at the intersection of Rtes. 27 and 32, and drive ½ mile. The campus visitor entrance is the second right.

**From the North:**

From U.S. 15 at Gettysburg, exit onto Rte. 97 South. Follow 97 to Rte. 140 North, and take it around Westminster. Exit left onto Rte. 31 and drive ¼ mile (WMC golf course on your left). Turn left at red light onto Rte. 32. The campus visitor entrance is the second left.
Student Life

An important element of the education at Western Maryland is the opportunity to exchange ideas and share interests outside the classroom. When students live together in a residential setting these opportunities are greatly enhanced, not only by daily contacts in living quarters and the dining hall, but also by ready access to campus activities.

After becoming accustomed to the rigorous demands of their academic schedules, most students decide to become involved in other aspects of campus life. With entertainment, cultural events and a constant calendar of student activities available on campus, students can soon choose to fill their time to whatever extent they wish.

The diverse interests and needs of Western Maryland students are reflected in the wide-ranging and continuously evolving selection of activities. There are over 60 organizations, and campus events are largely planned and organized by students. The College Activities Office is responsible for coordinating and scheduling events, reserving facilities and advising student groups. Many organizations and publications have office space in Decker College Center.

College Regulations

Every community has traditions and rules that its members are expected to follow. At Western Maryland, we treat students as adults, and as such we expect individuals to respect the rights, property, safety, privileges and obligations of others. Since the College believes that liberally educated men and women think and act humanely and in a responsible manner, our regulations give students considerable freedom.

In addition to areas of academic honesty addressed by the Honor Code, College regulations cover the use of alcohol and drugs; behavior which impedes the educational process of individuals or the institution; legal access to students records, such as grades and billing; and other matters, including those affected by state and federal laws. These regulations are detailed in the Student Handbook, a copy of which is given to each student at the beginning of every academic year.

Student Government

All students are automatically members of the Student Government Assembly (SGA), which is the student body's central governing and coordinating organization. It consists of two main parts: the Executive Council, elected by the student body at large, and the Senate, composed of representatives from the classes. The SGA is active in campus life, bringing influence to bear on a variety of matters, and serving generally as the voice through which students participate in the affairs of the College.

Students hold full voting membership on most policy-making College committees, serving with faculty members, administrative staff and trustees in dealing with institutional concerns such as curriculum, academic policy, athletics, calendar, schedule, admissions and financial aid. There are three student visitors to the board of trustees, and six students serve on the Trustee Committee on Student Affairs.

Also, each class at Western Maryland is organized as a unit, and officers are elected to supervise the administration of class activities. In addition to responsibilities as a class officer
while a student, the senior class president assumes guidance of certain activities after graduation, such as organizing class reunions.

CAPBoard

Social, cultural and educational activities for the campus community are coordinated by the College Activities Programming Board (CAPBoard). With more than 70 student members, CAPBoard is organized into six committees, each specializing in one area of programming: cultural arts, films, May Day, Mainstage, Coffeehouses and publicity. These committees plan a full calendar of entertainment and educational opportunities. CAPBoard participation also provides valuable leadership experience and training.

Honor Societies

In addition to Phi Beta Kappa, the national honor society which recognizes liberal arts scholarship of a high order, there are eleven other honorary societies on campus. Two oriented toward general accomplishment are Omicron Delta Kappa, a national society recognizing leadership qualities, and the Trumpeters, a local society honoring senior students dedicated to service.

National or international honor societies recognizing achievement in specialized fields are Beta Beta Beta (Biology), Kappa Mu Epsilon (Mathematics), Lambda Iota Tau (Literature), Omicron Delta Epsilon (Economics), Alpha Theta (History), Phi Delta Mu (Education), Pi Gamma Mu (Social Sciences), Alpha Omega Epsilon (Chemistry) and Kappa Delta Pi (Education). The honorary chemical society, Phi Lambda Upsilon, shares a joint relationship with the Johns Hopkins University.

Student Publications

Students interested in writing and publishing may work with three publications edited and published by students: Phoenix, the official student bi-weekly newspaper; Crossroads, the College yearbook, a pictorial collage of campus life; and Contrast, a literary magazine published yearly.

Cultural and Special Interest Organizations

There are a substantial number of organizations which offer students the opportunity to become more knowledgeable and more involved in a field of particular interest. Examples of these are foreign language clubs, Cheerleaders, Pom-pom Squad, Commuter Students, Ranger Platoon, Film Club, Equestrian Club, and the Photo Club.

The Arts

While co-curricular activities offer students majoring in the various arts fields numerous opportunities to extend their specific interests, all students, regardless of academic major, are encouraged to take part in Western Maryland's many musical, dramatic and artistic activities. Musical organizations include the College Choir, College Concert Band, College String Orchestra, College Jazz Ensemble, College Singers, Madrigal Singers, the Bass Ensemble and Pep Band, and various other instrumental ensembles. Those interested in dramatic arts may participate in both the technical production and performing aspects of several major plays and musicals planned by the Communication/Theatre Arts Department and in less formal presentations of dramatic scenes. The Art Club, which is involved in a number of creative ventures in addition to staging exhibits, is open to all.

Community and Service Groups

Several organizations are designed to expand the experiences of the WMC student and to encourage participation in commu-
nity projects. The Black Student Union, the "Sounds of Silence" Club, and the International Relations Club work to enhance social interaction and understanding between people from diverse backgrounds. Several organizations work with elementary school children in Westminster, retarded citizens and handicapped groups.

**Religious Life**

Seven active student religious organizations on campus represent Catholic, Jewish, Protestant and other faiths. There are two chapels, Baker Memorial Chapel, which is a prominent landmark, and Baker Chapel, a lovely old stone chapel which dates back to the early days of the College. The Chapel Committee organizes various worship services. Students are also welcomed at the many churches in Westminster.

**Reserve Officer Training Corps**

The Reserve Officer Training Corps offers an academic military science program through which selected WMC students can qualify at graduation for commissions as officers in the United States Army. Through a cooperative program with the University of Maryland at College Park, Air Force ROTC is also available to WMC students. Additional information may be found under Military Science and Financial Aid.

**Social Fraternities and Sororities**

There are eight national and local fraternities and sororities on campus. The fraternities are Alpha Gamma Tau, Gamma Beta Chi, Phi Delta Theta (national) and Sigma Phi Epsilon (national). The sororities are Alpha Nu Omega, Phi Mu (national), Phi Alpha Mu and Phi Sigma Sigma (national).

Approximately a third of the students join the Greek letter social organizations. Students with at least a 2.0 average are eligible beginning in their sophomore year. Members of each organization have the option of living together in a section of a Residence Hall designated by the College.

The Inter-Greek Council works in cooperation with the Student Affairs Office to make rules for such activities as rushing, bidding, parties and special events. Western Maryland College prohibits hazing either on college property or off campus by any college organization.

**Athletics**

Western Maryland College considers participants in sports and fitness activities an integral part of the total educational program. Toward this end, the College supplies facilities and opportunities for participation in a full range of team and individual athletic and fitness programs. With the opening of the new Gill Physical Education Learning Center in 1984, the College provides vastly expanded programs in both Physical Education courses of study and recreational opportunities.

The following facilities are available to students for participation in formal or informal group activities or as part of individual conditioning programs or recreation:

- Swimming pool
- 9-hole Golf Course
- 6 Outdoor Tennis courts
- (2 indoor)
- Volleyball courts
- Basketball courts
- Track
- Gymnasium
- Cross Country Trail
- Baseball field
- Badminton
- Stadium
- Squash court
- Raquetball
- 2 Saunas
- Weight room
- Fencing room
- Dance studio
- Table tennis
- Rappelling facility
- Whirlpool

**Intercollegiate Sports**

The College is committed to offering a balanced and varied program of intercollegiate athletics for both men and women. Schedules in varsity and junior varsity sports are maintained not
only for the talented athletes but also to serve the needs and desires of as many students as possible. The College does not designate sports as major and minor because it believes all are of equal importance to the students participating in them. Teams for men include baseball, basketball, cross-country, football, lacrosse, soccer, swimming, tennis, track and wrestling. Teams for women include basketball, cross-country, field hockey, lacrosse, soccer, softball, swimming, tennis, track and volleyball. In addition, WMC sponsors a coeducational golf team.

Western Maryland is a member of the National Collegiate Athletic Association and the Middle Atlantic States Collegiate Athletic Conference. In football, the College is a member of the Centennial Conference. The school colors are green and gold. The mascot is the Green Terror.

Intramural Sports

Intramural programs for both men and women are extensive and provide for a wide variety of competitive events. Coeducational tournaments and competitions are also held.

Beyond the Campus

In addition to the many restaurants, shops, film theaters, churches, and other attractions in Westminster, there are many recreational destinations within easy reach by car. In 35 minutes students can reach the Catoctin Mountains for picnicking, hiking, swimming and canoeing, and there are several skiing facilities in nearby Pennsylvania. Gettysburg National Military Park and other historic sites are also nearby.

Baltimore’s theaters, concert halls, museums, libraries and major league sporting events are about 15 minutes away... as is the Inner Harbor shopping and recreational showplace, which includes the National Aquarium, Maryland Science Center, and the Pier 6 Concert Pavilion. Washington’s world-renowned galleries and museums, libraries, national monuments, governmental centers, and other extensive cultural and recreational resources can be reached in about an hour and fifteen minutes. Visiting other campuses is easy, too, as there are over a score of colleges and universities within 70 miles.
Student Services

The management of residential halls, extracurricular activities and various student services is coordinated by the Office of Student Affairs, which is located on the upper level of Decker College Center. The Dean of Student Affairs and members of his staff are readily available to talk with individual students and groups; the goal of Student Affairs staff is to help students make the best use of the College's and students' own resources and opportunities.

Residences

A student's residence experience is one of the most important facets of attending college, and the residence hall is far more than a place to sleep. Learning to live in close proximity with others, making new friendships, and becoming aware of the rights and responsibilities of all concerned are important steps toward acquiring a liberal education. Students who request campus housing and make a non-refundable deposit are assigned rooms.

Housing

The College offers a variety of living arrangements. There are five traditional coeducational residence halls, in which men and women are separated by floors. These are Albert Norman Ward Hall, Blanche Ward Hall, McDaniel Hall, Rouzer Hall and Whiteford Hall; they contain single, double and triple rooms and, in some instances, suites. Daniel MacLea Hall is designed for coeducational suite-style living. Students may apply to live on study floors where extended quiet study hours are enforced. Other areas are reserved for members of a particular fraternity or sorority to live together as a group. Upperclass students may live in the Garden Apartments, each of which is shared by four students and has its own kitchen. All rooms are wired for telephones.

Resident Staff

There is a Resident Assistant (RA) assigned to a particular area in every residence hall. An RA is a qualified and trained undergraduate whose job it is to live with students and be available to oversee the quality of life in his or her area. Resident Assistants are responsible for advising individuals, assisting in health or safety emergencies, communicating campus policies to students, and reporting student concerns to administrative staff. Resident Assistants are directly supervised by the Coordinator of Residence Staff and Programming. The Associate Dean of Student Affairs, Assistant Director for Residence Life and Coordinator of Residence Staff and Programming are responsible for both the day-to-day operations of the residence halls and handling whatever special student needs that may arise.

Roommates

Roommate preference forms requesting information about smoking or non-smoking, study habits, musical tastes and other considerations, are circulated to new students prior to arrival on campus. The Assistant Director of Residence Life then uses the results in matching potentially compatible persons as roommates. Students may room with friends of their own choosing, but only mutual roommate requests will be honored.

Commuting Students

While 90 percent of the undergraduate students live in the residential halls, commuting students are a welcome and growing part of the Western Maryland student body. Many live with their parents or guardians within reasonable driving distance. However, a growing number of students are either resuming their college education after a pause of a number
of years, or beginning their studies at a later stage in their lives than do more typical freshmen coming directly from secondary school. Some students are seeking a second undergraduate degree. The College urges all of these commuting students to visit the Office of Student Affairs to meet the commuter coordinator and to learn about the services on campus tailored to their special needs. Commuters are particularly encouraged to participate in the many extra-curricular activities on campus. (See also Continuing Education and Nontraditional Students in the Admission section, page 18.)

New Student Orientation

During the week prior to the start of the fall semester, an orientation program is scheduled for all new students. In addition to being assigned faculty and peer advisers at this time, students are introduced to the layout of the campus, registration procedures, programs of study, student government, student activities, student services, residence hall facilities, and, in general, a host of people ready to assist new students in settling into campus life successfully. Placement tests are given during this period. There are also parties, entertainment and a picnic at Harvey Stone Park. On the day new students arrive on campus, they and their parents or spouses and other family members are invited to attend the Introduction Convocation and a reception on the lawn of the President's House. An orientation program designed especially for parents is presented at Alumni Hall.

Food Service

All residential students other than those living in the Garden Apartments and Pennsylvania Avenue houses are required to subscribe to the meal plan in Englar Dining Hall. Meals are served seven days a week and include continental breakfasts for students who prefer to eat later than the scheduled breakfast hour. Dining services are managed by the Seilers Corporation, and menus include many alternate selections for the diet conscious. Commuting students, parents and visitors are welcomed to purchase meals.

The snack bar on the middle level of Decker College Center is open seven days a week, with extended evening hours on weekends.

Health Services

The Student Health Center located in Smith House provides free confidential medical treatment for minor injuries and illnesses. This includes office visits, a limited number of medications for the treatment of common ailments, and certain lab tests. Also, students with chronic conditions may arrange for routine care, such as administering prescribed allergy medication. A GYN clinic is offered weekly by appointment for a special fee. The Health Center is directed by a Registered Nurse; the College physician visits the Center daily during the week. There are no overnight accommodations.

More comprehensive and specialized care is available at Carroll County General Hospital in Westminster. Students who choose to go to a hospital are responsible for payment for all services at the hospital, including emergency room treatment. The College does not assume financial responsibility for any hospital services, nor for such services as visits to doctors' offices, consultation with specialists, laboratory tests, prescription drugs, x-rays, or immunization shots.

Many parents and guardians carry health insurance that covers their students while at the College; most nontraditional commuting students also have access to health insurance. If not, Western Maryland has made available a comprehensive health insurance program; information about this program is circulated to all students.
Each student must complete the Health Insurance Coverage form before entering, and the College requires that the health of every student be insured.

**Conveniences**

Western Maryland maintains several services for the convenience of students and faculty in Decker College Center. A branch of Union National Bank provides check cashing and other routine banking services. The College Store sells textbooks and other books, general college supplies, imprinted sports clothing, health aids, records, greeting cards, gifts and many other items. The Post Office supplies each student with an individual mailbox; stamps and money orders may be purchased, and packages mailed and received. The Campus Security Office is also located on the lower level.

**Counseling and Career Services**

The Center for Counseling and Career Services assists students with personal and career related concerns. Located in Smith House, the Center is designed to help students with both their present needs and their future plans. All services are free and confidential.

Addressing immediate and continuing student needs, individual and group counseling sessions focus on such topics as stress management, examination anxiety and problems in group living. The counselors' skills range from helping with study problems to crisis intervention. While students generally choose independently to make use of the Center, occasionally they are referred by faculty or administrators.

A second focus is career planning and job placement. The Center for Counseling and Career Services maintains a complete career library and a computerized career guidance system. There is a popular three-credit course on career and life planning: workshops on resume writing, job interviewing and seeking employment; and a credentials service. Students may sign up for interviews with recruiters from business and industry who visit the campus at regular intervals, and the "Job Bulletin" lists vacancies and other opportunities.

Additional information about Student Services can be found in the Student Handbook.
Transfer Credit

Transfer credit will be granted for courses that are standard liberal arts courses or that compare to the offerings of WMC if the institution is accredited and if the grade conditions are appropriate. Courses meeting Major requirements, including courses listed as required in the WMC Guidance Bulletin, are transferred after consultation with the appropriate academic department.

The Registrar's Office will evaluate transfer credits and notify applicants of the acceptability of their credits.

Continuing Education Students

Western Maryland welcomes and encourages the growing number of students who are choosing to begin or continue their college educations at times later in their lives than the period immediately following graduation from high school. These continuing education students attend the College both part-time and full-time. The College recognizes that a varied student body enriches the education of all and is increasingly providing recognition of and services for this important group of students through the Office of Academic Affairs. This office serves three primary functions:

1. It develops policies and procedures which are responsive to the needs of individual students.
2. It helps meet the continuing educational needs of local business, industry, and professional groups.
3. It offers noncredit courses and courses which carry credit through continuing education units (CEU's).

Additional financial aid is provided for continuing education students who are seeking a degree.

International Students

In addition to the application form and test scores, international applicants must submit official copies of the Test of English as a Foreign Language (TOEFL), official school records listing all courses taken, and results from all secondary school, university, and national examinations. Copies of diplomas and certificates and the "Certificate of Finances" form are also required. Limited financial assistance is available to qualified international students.

Advanced Standing and Placement

The College makes decisions on advanced placement in specific academic areas, excluding the basic liberal arts requirements, based primarily on the student's high school program and potential major. Although College Board achievement tests are not required, they often assist in determining placement.

The Advanced Placement Test (APT) scores are normally accepted by Western Maryland on the following basis:

Test Score
5 or 4—Student will receive advanced placement plus six hours credit (except Calculus AB—three hours credit).
3—Student will receive advanced placement plus three hours credit (except Calculus AB—credit determined by Mathematics Department).
2—The department concerned will determine placement, but generally there will be no advanced placement. No credit given.
1—No advanced placement or credit given.

Some students entering Western Maryland from high school seek credit for courses taken at a college while still attending high school. They will be notified about transfer credits by the Office of the Registrar either when they are offered admission or after final transcripts are received. The amount of credit allowed will be based on the guidelines discussed under "Transfer Students."

Also, some applicants have had experiences that have resulted in knowledge equivalent to that acquired in regular
college courses. They may establish their claim to credit for such knowledge by taking either the Advanced Placement Test or the College Board’s College Level Examination Program (CLEP) appropriate to the subject matter. CLEP scores in Liberal Arts subject areas will be accepted by the College. Placement and credit will be granted to those whose scores are equal to or above the American Council of Education’s recommended minimum scores. These scores are listed in the College Board publication College Placement and Credit by Examination.

Veterans Administration Benefits
Veterans or their dependents who are eligible for veterans’ educational benefits should contact the Office of the Registrar for information regarding VA applications and forms. Veterans’ Administration regulations require students receiving benefits to enroll in courses that lead to a degree or certificate and to maintain satisfactory progress.

Monthly allowances, paid directly by the Veterans’ Administration to the veteran, are based on the student’s total credit hours per semester. Student tuition and fees are paid to Western Maryland College by the student.

Special Students
Secondary school students, students from other colleges, and continuing education students are welcome to enroll for specific classes without completing the regular admissions application or enrolling as degree candidates. A special student may take a maximum of six credits before seeking admission. The progress of special students is monitored by the Dean of Academic Affairs. Special student registration forms may be obtained at the Office of the Registrar.

Summer School
Western Maryland College operates a summer program which welcomes special and degree-seeking students. Information about the summer program is available from the Office of the Registrar.
Financial Aid

Western Maryland College supports a program of financial aid to eligible students on the basis of both need and merit. The College is able to do this through its endowment, gifts and grants, and through cooperation with certain government programs and other resources for student aid. Over 65 percent of the current student body receives some form of financial assistance. A family's total financial resources and obligations are considered in awarding aid; it is expected that students and their families assume as much responsibility for educational expenses as they are able. The family income of students presently receiving financial aid ranges from low income to high middle income. Students are admitted to the College based on academic and other criteria prior to consideration of their applications for financial aid.

Students who have been accepted by the College and can demonstrate financial need may be eligible for assistance in the form of scholarships, loans, and opportunities for student employment. Frequently an award is a "package" of these three resources tailored to the student's needs. Aid is also available from many other sources, both public and private. Many awards carry provisions for annual renewal for students who do well academically and whose financial circumstances remain unchanged. To find out if you are eligible for financial aid, you must apply.

The Application Process

The first step is to obtain a Financial Aid Form (FAF) from any secondary school guidance office and submit it to the College Scholarship Service (CSS) in Princeton, New Jersey. You can also request the Financial Aid Form from the Western Maryland College financial aid office. The FAF should be filed as soon as possible after January 1. The CSS generally requires four to six weeks to evaluate the financial data and forward the results to the College. The Financial Aid Office will then evaluate all information and make awards accordingly. Awards are generally announced after March 15. This is the only College office empowered to make official offers of financial aid.

Since the total amount of College financial aid available in a given year is limited, it is to a candidate's advantage to file for financial aid as soon after January 1 as possible. Applicants must be accepted by the College before financial aid is awarded, so students should pay close attention to admission deadlines.

Each student is urged to contact his or her high school counselor regarding state and local sources of aid, such as service club scholarships, to supplement potential aid from the College.

Financial Aid Counseling Service

The College maintains a counseling service for students who desire assistance and information on Financial Aid. Located on the first floor of Elderdice Hall, the Financial Aid Office reviews a student's eligibility for aid of various types, describes applicable alternatives, and explains the process involved. The service is provided at no cost.

A financial aid brochure containing detailed information about how to apply for aid is available upon request from the Offices of Admission or Financial Aid.

NOTE: Students must file the Financial Aid Form by the appropriate deadline prior to each academic year in order to have their financial aid renewed. Also, students
who have matriculated at Western Maryland but were refused financial aid for that year may apply again each year. Similarly, Western Maryland students who have never applied for financial aid may do so by filing the FAF at the appropriate time. Students whose financial circumstances change should be aware that financial aid can change accordingly.

Academic Scholarships

Western Maryland College awards more than $100,000 each year in scholarships to academically talented students. The renewable awards include: Trustee Scholarships valued at full tuition, President’s Scholarships valued at half tuition, Dean’s Scholarships valued at $3,000, and Faculty Scholarships valued at $2,000.

Freshmen—In order to be eligible for the Trustee’s and President’s awards, one must compete in the Presidential Scholarship Competition, be a high school senior with a 3.5 grade point average, have a combined SAT score of 1100, and show evidence of leadership abilities in school or community activities. Information concerning the Presidential Scholarship Competition is available through the Offices of Admission and Financial Aid. Consideration for the Dean’s and Faculty’s Scholarship awards will be given on a competitive basis to those students who meet the academic standards stated above.

Transfers—In order to be eligible for academic scholarships, a transfer student must have completed at least one year of college work with a grade point average of 3.2 or higher. Transfer Scholarships are awarded on a competitive basis and preference is given to those students who apply before March 15th.

In order to renew the Academic Scholarships, a student must maintain at least a 3.0 grade point average in their Western Maryland College course work.

College Grants

A substantial number of grants valued from $100 to $6000 are awarded to students each year based upon their financial need. Endowed and special scholarships that are a portion of these awards are listed at the end of this section.

Family Tuition Reduction Grant

Western Maryland offers families with more than one immediate family member at WMC a special tuition reduction grant. The grant is $1000 and is listed on the second family member’s financial aid award and bill. The grant will continue each year as long as there are two family members enrolled full time in our undergraduate program. If more than two members attend WMC simultaneously, the tuition reduction will apply for each additional person.

Carroll County Scholarship

Western Maryland College offers residents of Carroll County a $1500 renewable tuition scholarship. In order to receive this scholarship, the student must be a resident of Carroll County. A student does not have to demonstrate financial need in order to qualify, but if a student has financial need this scholarship will be used to help meet that need. The scholarship is renewable annually.

Eagle Scout/Gold Award

Eagle Scout and Gold Award recipients are eligible for a $1000 renewable tuition scholarship. In order to receive this scholarship, students must send a letter of recommendation from their troop leader and a copy of their certificate.

Junior Achievement Scholarship

Western Maryland College offers a $2000 Junior Achievement tuition scholarship to high school students participating in Applied Economics with a minimum "B" average in school and 1000+ on the SAT. The scholarship is renew-
able for all four years and students must write a letter to the Admission Office stating they are interested in applying for the scholarship.

AFS—American Field Service Scholarship

Western Maryland College offers a $1000 tuition scholarship to two AFS returnees who have a minimum 3.0 G.P.A. and at least a 1000 on the SAT. The scholarship is renewable provided the student maintains at least a 3.0 G.P.A.

Federal Grants

Pell Grants are based solely on need. The amount of the grant is established by the government, based on a formula using family income and assets. The amount of the award may vary from year to year depending on changes in family income or federal regulations. To receive a Pell Grant, a student must be enrolled as at least a half-time undergraduate in an institution of higher learning and must be a citizen or permanent resident of the United States. Every student interested in financial aid must apply for a Pell Grant. Applications are available in secondary school guidance offices and through the WMC Financial Aid Office. Alternately, students may apply by completing the appropriate portions of the Financial Aid Form (FAF).

Maryland State Grants

Any Maryland resident who intends to apply to the College for financial aid must apply for the Maryland State Scholarships. The scholarships listed below require the student to take the November or December Scholastic Aptitude Test (SAT). A Financial Aid Form (FAF) or other designated form must be filed with the College Scholarship Service, Princeton, New Jersey, by February 15. Applications may be obtained from high school guidance offices.

Senior Scholarship Appointments

An act of the General Assembly of Maryland enables each of the local State Senators to award a minimum of 145 scholarship units per year. Each unit is valued at $100, and a recipient may not hold more than 15 units of aid ($1500) in any one academic year. These scholarships may be held for four years, and interested students are urged to contact their local State Senator for additional information and possibly a personal interview.

General State Scholarships

These scholarships are awarded by the State Scholarship Board using the Scholastic Aptitude Test (SAT) and the Financial Aid Form (FAF). Half of the scholarships in each political subdivision of Maryland will be awarded to students showing the greatest financial need, and the other half will be awarded to meet the needs of those students having the highest aptitude (SAT scores). Scholarships may range from $200 to $2500 for the 1988-1989 academic year. This type of scholarship does not restrict the recipient to any particular academic field of study or vocational choice.

Loans

The Perkins Loan enables the College to assist many needy students. The typical student loan granted is in the range of $500 to $1500 per year. The Perkins Loan presently carries an interest rate of 5 percent, starting at the time of repayment of principal and interest which commences for new borrowers 9 months after the student ceases to be enrolled at least half time in college. A new borrower is someone whose enrollment period began on or after July 1, 1987 and did not have an outstanding Perkins Loan (or NDSL). For students who did have an outstanding
Perkins Loan (or NDSL) on July 1, 1987, their grace period is 6 months.

The Robert T. Stafford Student Loan Program (formerly called Guaranteed Student Loans) also makes low-interest loans available to students. The maximum loan amount per year is $2625 for a student’s first or second year and then $4000 per year after the student has achieved third year status. The maximum amount that an undergraduate student may borrow is $17,250.

Successful completion of a course requires a letter grade of A, B, C, D, or CR for a non-grade course.

Students who have earned greater than 150 credit hours should provide documentation with an appeal to the Director of Financial Aid demonstrating why they have not yet received a Bachelor’s degree.

Students not making satisfactory progress will be notified and placed on a one-semester probation. If the standards are not met following the one-semester probation, financial aid will be withheld.

Students with extraordinary circumstances may appeal in writing to the Director of Financial Aid. Students who have been denied assistance based on unsatisfactory progress must successfully meet the satisfactory progress standards before being reinstated on financial aid.

Part-time students must successfully complete 50% of all hours attempted and maintain the appropriate GPA for the class level as listed above.

### Army ROTC Scholarships

The Army Reserve Officer Training Program (ROTC) at Western Maryland College offers four-, three-, and two-year full scholarships to qualified applicants. Army ROTC scholarships are awarded by a

national board based on academic merit and leadership potential. These scholarships cover full tuition, textbooks, laboratory fees and other purely educational expenses, plus $100 per month for up to ten months of each academic year and an initial mileage allowance from home to college. In addition, three- and four-year scholarship recipients receive free room from the College. Four-year scholarship applications must be submitted by December 1 of the year prior to college entry. Information and applications may be obtained from high school guidance offices, the Military Science department at the College, or by writing to Army ROTC Scholarships, Fort Monroe, Virginia 23651. Students who are enrolled in ROTC and those planning to enroll may apply for the three- and two-year full scholarships through the Professor of Military Science each February.

Air Force ROTC Scholarship

Air Force ROTC is available to students at Western Maryland College through an agreement with the University of Maryland at College Park, Maryland. Students at Western Maryland are eligible to compete for all AFROTC scholarships; the 7, 6, 5 and 4 semester scholarships pay for total tuition at both the University of Maryland and Western Maryland College, pay for all required books, provide a $100 per month subsidy, and pay for pilot and navigator training programs. Students who are interested in Air Force ROTC should contact the Military Science department at the College or Air Force ROTC, Cole Fieldhouse, University of Maryland, College Park, Maryland 20742.

Installment Plans

Western Maryland makes available an installment plan for convenience in paying college expenses; the College also provides information on commercial tuition payment plans. (See College Expenses: Payment of Bills.)

This financial aid information was correct at the time this catalog was written. Changes in required forms, filing dates, amounts of money and other matters, many beyond the control of the College, are constantly taking place. Because of possible changes, financial aid applicants should contact the Office of Financial Aid for current information.

Endowed Scholarships and Loans

Alumni and friends of Western Maryland College have presented gifts that have been placed in the endowment for a variety of uses. The following endowed scholarships are designed to assist the financial needs of students enrolled at Western Maryland. Full information is available at the Financial Aid Office.

The William G. Baker, Jr. Scholarship Fund: Established as a memorial to Mr. William G. Baker, Jr., for many years a devoted trustee of the college.

The Ballard-McDonald Treasure Seekers Scholarship Fund: Established in 1987 by Virginia Sweeney Ballard, Class of 1942, Worthy Grand Matron, and Robert D. McDonald, Worthy Grand Patron 1986–87, of the Grand Chapter of Maryland order of the Eastern Star. This scholarship was established by the Worthy Grand Matron as her special project in Education of the Deaf through contributions and fund raisers. The scholarship is to be awarded annually to a student or students in the Education of the Deaf Program. The recipient(s) shall be selected by a committee chaired by the Director of the Education of the Deaf Program. The Worthy Grand Matron wishes the selection to be based on a high level of scholarship and skill.

The Barnes Scholarship Fund: Established in 1981 by the will of Vivian Englar Barnes, Class of 1921, to provide scholarships for students to learn how to teach the deaf.

The Wilmer V. Bell Memorial Scholarship Fund: Established in memory of Wilmer V. Bell, Class of 1930, former Alumni Association President, winner of
the Alumnus of the Year Award in 1970, and outstanding educator in the Baltimore area.

The Clarence H. Bennett Memorial Scholarship Fund: Established in 1984 in memory of Clarence H. Bennett, Class of 1928. He was a past president of the Alumni Association and long-time, devoted trustee of Western Maryland College and an outstanding Washington, D.C. businessman. This scholarship is to provide financial aid for outstanding, academically qualified students in the humanities.

The Margaret A. Bowers Scholarship Fund: Established in 1980 in memory of Margaret Anne Bowers, Class of 1926, to assist deserving women students.

The Bessie C. Branin Music Scholarship Fund: Established in 1982 by the will of Bessie C. Branin, Class of 1924, for scholarship aid to a music major.

The Franklin L. Byers and Louise C. Byers Memorial Scholarships: Established in 1984 by the will of Louise C. Byers because of the family’s long-time interest in Western Maryland College to provide scholarships for students demonstrating financial need and excellent scholarship.

The Katherine H. Clower Memorial Scholarship Fund: Established in 1988 by Dr. Richard A. Clower, Class of 1950, in memory of and in tribute to his beloved wife Kay, MEd. Class of 1973. The scholarship will be awarded annually to a student or students based on need.

The James F. and Hazel Gompf Coleman Scholarship Fund: Established in 1984 by the children of James F., Class of 1938, and Hazel Gompf Coleman, Class of 1938, in memory of their parents. It is to be awarded annually to a returning student (sophomore, junior, or senior) from the Eastern Shore with at least a B average on the basis of the student’s financial need.

The Lowell R. Duren Mathematics Scholarship Fund: Established in 1983 by the Mathematics and Computer Science Department in memory of Lowell R. Duren, a loyal and respected friend and former Chairman of the Mathematics Department, especially remembered for his outstanding teaching. This scholarship will be awarded annually to the freshman or sophomore mathematics major who earns the highest score on the Lowell Duren Mathematical Competition.

The Dorothy Elderdicede Inter-national Student Scholarship Fund: Established in 1979 by the friends of Dorothy Elderdicede, Class of 1911, in recognition of her long devotion to the college and to her loving interest in the many foreign students who attended Western Maryland College. The scholarship is awarded annually to a worthy student from a foreign country.

The Joseph Englur Scholarship Fund: Established under a bequest of the late Joseph Englur, a trustee of the college from 1897 until his death in 1924. The income from this fund is to be used to assist needy students in pursuing their education.

The Charles “Rip” and Mary Broughton Engle Scholarship Fund: This fund was begun in 1974 as an annuity to assist a worthy student in attending Western Maryland. Both Charles and Mary Engle are of the Class of 1930.

The Lowell S. Ensor Scholarship Fund: Established by faculty, students, alumni, and friends to honor Dr. Ensor at the time of his retirement in 1972 as president of the college.

The Dr. James D. Essig Memorial Scholarship Fund: Established in 1985 in memory of Dr. James D. Essig, history professor at Western Maryland College at the time of his death, by his family, friends, colleagues, and students as a living memorial to an outstanding scholar and teacher. The scholarship is to be awarded annually to a history major with at least a B average demonstrating high personal and academic integrity selected by the History Department.

The Dr. Page Etchison/Dr. Willis Morse Memorial Scholarship: Established by the Organized Bible Class Association, of Washington, in memory of Mr. Page McKendree Etchison.

The Hilary A. Faw Loan Fund: Established in 1987 by Robert D. Faw, Class of 1941, in memory of his father, to provide loan funds to full-time undergraduate junior and senior students faced with an emergency situation.

The Gaither Lee Fischbach, Jr. Memorial Scholarship Fund: Established by the friends and fellow-students of Gaither Lee Fischbach, Jr., who died during his freshman year at Western
Maryland College. This scholarship assists a student to prepare for the Christian ministry.

The Richard C. Flavin, Jr. Memorial Scholarship Fund: Established in 1981 by the friends and family of Richard C. Flavin, Jr., Class of 1950, an active member of the Board of Governors of the Alumni Association at the time of his passing.

The Benjamin E. Fleagle Memorial Scholarship Fund: Established by Rena F. Kennedy in 1975 in recognition of her brother, an alumnus of the Class of 1904.

The Charles '32 and Lois Forlines Scholarship Fund: Established in 1988, this scholarship serves as a tribute to Charles and Lois Forlines, two people devoted to Western Maryland College. Mr. and Mrs. Forlines worked hard through life and struggled financially at times but always found time and money to support WMC. Through this scholarship a student with need will have the chance for the wonderful education Charles enjoyed. In addition to demonstrated need, the recipient must have and maintain at least a 2.5 GPA and be of exemplary moral character which must be clearly demonstrated by deed and action.

The Arthur Pue and Amanda Clark Forsyth Memorial Scholarship Fund: Established by M. J. Grove in memory of his mother, who was a member of the Class of 1897.

The Dr. Grace E. Fox Scholarship Fund: Established in 1984 by the will of Grace E. Fox. This scholarship, administered by Western Maryland College, is to be awarded to high school graduates in the electoral district of Uniontown.

The Sidney M. Friedberg Scholarship Fund: Established in 1983 by Sidney M. Friedberg, Chairman of Fair Lanes, Doctor of Humane Letters, 1983, and a self-made entrepreneur with great concern for people. The scholarship is to be awarded to students demonstrating financial need and great potential for success in their chosen fields.

The Eleanor B. Gaither Memorial Scholarship Fund: Established under the wills of Mr. and Mrs. James H. Gaither in memory of their daughter who was a member of the Class of 1940.

The Madeleine W. Geiman Scholarship Fund: Established in 1987 through the testamentary planning of Madeleine W. Geiman, Class of 1922, to provide scholarship aid for tuition and other necessary charges for student(s) who are deemed to be worthy of and in need of financial assistance.

The Hering Leister Giggard Educational Fund: Established by Gertrude Giggard in recognition of her brother to provide scholarships to the handicapped not otherwise able to obtain a college education.

The William P. Grace Memorial Scholarship Fund: Established in 1985 by the family of Col. William P. Grace, Class of 1927, to honor an ROTC Junior Cadet not on an Army Scholar-
The Hines Scholarship Fund: Established by George Millard Hines, Class of 1925, in memory of his mother, Class of 1897, and other members of his family who attended Western Maryland College.

The Ralph G. Hoffman Scholarship Fund: Established in 1987 upon his retirement as Director and Chairman of the Carroll County Bank and Trust Company Board of Directors by the Officers and Directors of the Carroll County Bank and Trust Company with additional gifts by family and friends. The scholarship honors Ralph G. Hoffman, lifelong resident of Westminster; outstanding member of the Bar; Emeritus member of the Board of Trustees, Western Maryland College; and Chairman of the Board of Directors, Carroll County Bank and Trust Company. The scholarship is to be awarded each year to a Carroll County student majoring in economics, business administration, or pre-law demonstrating financial need and having an outstanding academic record.

The Abbie White Holland Memorial Scholarship Fund: Established in 1981 by the family of Sarah "Abbie" White Holland, a member of the Class of 1902. The scholarship is awarded annually to a member of the senior class.

The Paul S. Hyde Memorial Scholarship Fund: Established in 1987 by the testamentary planning of Paul S. Hyde, Class of 1937. The scholarship is awarded annually to needy students recommended by the Superintendent of Schools of Wicomico County.

The Alvey Michael Isanogle Scholarship: To a student with a true interest in academic pursuits as witnessed by both attitude and scholarship achievement. Created in memory of Dr. Isanogle, long-time Dean of the School of Education.

The Dr. and Mrs. Edgar B. Jenkins Student Loan Fund: Established by Dr. and Mrs. Jenkins, former faculty members, to assist capable students in receiving an education.

The Philip J. and Doris L. Jenkins Scholarship Fund: Established by Mr. and Mrs. Jenkins in 1974, this fund provides scholarship assistance for five to ten students each year.

The Florence Johnson Memorial Fund: Established by Mrs. George S. Johnson in memory of her daughter of the Class of 1921. The income is used annually to provide assistance to a student preparing for fulltime Christian service in music.

The Harry C. Jones Scholarship Fund: Established by the bequest of Prof. Harry C. Jones, a scholarship is awarded to two seniors, one in the Chemistry Department and one in the Physics Department.

The Dr. John Bayley Jones Scholarship Fund: Established in 1985 by the Frostburg United Methodist Church and his many friends and colleagues in honor of the 50th year of Dr. Jones' ordination. It is to be awarded annually to a junior or senior majoring in sociology and/or religious studies, who, through scholarship, personal integrity, and a desire to make the world a more humane place, most effectively embodies the Christian life and thought of John Bayley Jones, a United Methodist clergy; Director of Public Relations and Instructor in Sociology at Western Maryland College, 1944-49; and long-time trustee of the college. Preference will be given to students from Frostburg or the western Maryland area.

The Drs. Kerschner, Royer, and Sturdivant Endowed Scholarship Fund: Established in 1988 by the former students, friends, and colleagues of three premier Western Maryland College professors that have spent their careers educating students in the finest tradition of the liberal arts. These three professors have taught biology to untold numbers of students. They have been the inspiration behind the careers of so many people in numerous walks of life. For this reason and many others this scholarship which is to be awarded each year to a student or students majoring in biology and demonstrating need is dedicated to these three professors. The recipient(s) must have at least a 3.0 GPA and be of sophomore or above standing. The recipient(s) will be selected by the Director of Financial Aid with the advice of the Biology Department faculty.

The Emma Bowen Kistler Scholarship Fund: Established by her sister in memory of Emma Bowen Kistler of the Class of 1897.

The Leon F. Lamb Memorial Scholarship Fund: Established by the friends of Mr. Lamb, long-time Washington, D.C. resident, as a tribute to friendship and to assist a worthy student in completing an education.
The Jeanine Lave Memorial Scholarship Fund: Established in memory of Miss Lave, who was a junior at the college at the time of her death in 1974. The scholarship is awarded annually to a student majoring in art.

The Lee Scholarship Fund: Through a bequest of Miss Grace Lee.

The Eva L. Lewis Memorial Fund: Established under the will of Dr. E. Ralph Lewis, awarded to a preministerial student for the junior and senior years. The award is made by the college on the basis of academic ability, qualification for the Christian ministry, and financial need.

The Frank C. Marino Scholarship: Under the provisions of this contribution, $250.00 is available annually to give scholarship aid to needy and deserving students. No discrimination is to be made against any person because of religious faith.

The Anna Kenney Walls McCool Scholarship Fund: Established in 1988 on the occasion and in celebration of her 50th class reunion. This scholarship serves as a tribute to Ann McCool, a devoted teacher and honorary trustee of Western Maryland College. Mrs. McCool worked hard for her education and struggled financially to get her education. Through this scholarship, a student with need will have the same chance for the wonderful education Ann enjoyed. In addition to demonstrated need, the recipient must have and maintain at least a 2.5 GPA and be of exemplary moral character which must be clearly demonstrated by deed and action. Preference will be given to a student from Sussex County, Delaware, followed by a resident of the Eastern Shore of Maryland.

The William McCormick, Jr. Memorial Scholarship Fund: Established by family, friends, colleagues, and former students of Dr. William McCormick, Jr., Vice President: Dean of Academic Affairs from 1973 until his death in 1983. It is to be awarded annually to a returning student who has attended WMC for at least one year and who represents the qualities for which Dean McCormick is remembered: concern and love for college community, caring for others in a humane manner, and high personal and academic integrity.

The C. Wray Mowbray, Jr. Scholarship Fund: Established in 1987 by C. Wray Mowbray, Jr., Class of 1958, to provide scholarship assistance to residents of the State of Maryland. Selection will be based on need and recipients must maintain at least a 2.5 GPA for renewal.

The Mund Scholarship: Established by Dr. and Mrs. Allan W. Mund. Dr. Mund was acting president of Western Maryland during 1970.

The Elsie Held Naclerio and Thomas A. Naclerio Scholarship Fund: Established in 1985 by Elsie Held Naclerio, Class of 1928, and Thomas A. Naclerio. The scholarship is to be awarded annually to a worthy student majoring in the Humanities.

The Nichols Scholarship Fund: Established by Mrs. Laura Wilson Nichols as a memorial to her husband, The Rev. James L. Nichols, of the Class of 1925, and a former pastor of the Westminster Methodist Protes-
confidence and determination; and through his teaching, he stimulated the intellectual curiosity and professional attitudes of those around him. Selected by a committee, chaired by the Head of the Department of Economics and Business Administration, the recipient will be chosen based on his/her academic performance in department courses as well as overall academic achievement. The recipient must also demonstrate the characteristics for which Dr. Price is most remembered: intellectual curiosity, humane manner, love of the College community, and caring for others.

The Queen Anne County Scholarship: Established in 1975 by Julia Thomas Burleigh for residents of Queen Anne County, Maryland.

The Lewis C. Radford Memorial Scholarship Fund: Established in memory of Dr. Lewis C. Radford, of the Class of 1916, by his friends, family, and classmates.

The Martha Harrison Ramsey Scholarship Fund: Established in 1983 in memory of Martha Harrison Ramsey, Class of 1934, by her family and friends. It will be awarded to a student who plans to teach in the performing arts. Preference will go to students from Baltimore County, Md., and southwest Virginia.

The Anne Dexter Randle Memorial Scholarship Fund: Established by family and friends in memory of Anne Dexter Randle, Class of 1941.

The Ridgaway-Knott Scholarship Fund: A gift by Ethel Grace Ridgaway, who created this fund in 1978 for a deserving pre-ministerial student, in consideration of the wishes of her nephew, Clarence Knott.

The Jesse C. and Ruth H. Royer Scholarship Fund: Established in 1988 by the will of Ruth H. Royer, this scholarship serves as a tribute to Jesse and Ruth Royer, two people tied to Western Maryland College by their daughter Christine's graduation from the College. Through this scholarship, which is renewable, a student with need will have the chance for a wonderful education. In addition to demonstrated need, the recipient must have and maintain at least a 3.0 GPA and be of exemplary character.

The Reverend Russell Wells Sapp Memorial Scholarship Fund: Established in 1979 by the family and friends of Russell Sapp, Class of 1923. Ordained a minister in the Methodist Protestant Church in 1925, he served a number of churches until his retirement in 1961.

The Donna Sellman Alumni Children Grant Fund: Established in 1986 by Donna DuVall Sellman, Class of 1945, to provide grants to incoming students who are children of WMC alumni. The recipients are selected by the Director of Alumni Affairs upon recommendation of the Director of Financial Aid. The recipients must meet the following minimum standards to qualify: freshman—1100 combined SAT score and 3.5 GPA in high school; sophomore transfer—3.2 GPA in college or the freshman standards; be recognized for outstanding participation in extracurricular activities in high school and a stated intent to participate in student activities in college.

The Agnes B. and Robert D. Schreck Memorial Scholarship: Established by family and friends in 1969.

The John H. Simms Scholarship Fund: Established in 1986 by John H. Simms, Class of 1929, Honorary Trustee of the College. The scholarship is to be awarded to one or more students based on need and good standing.

The James D. Smyth, Jr. Memorial Scholarship Fund: Established in 1987 by his parents, Mr. and Mrs. James Donald Smyth, Sr., Class of 1948, as a living memorial to James D. Smyth, Jr., Class of 1971. This scholarship is to be awarded annually, with the possibility of renewal, to a student demonstrating financial need, outstanding personal character, and an above average academic record. The recipient must be a major in psychology or biology, with preference to psychology.

The Stone Scholarships: The will of Harvey A. Stone provides that the income from the property he bequeathed to the college shall be applied to the education of male students at Western Maryland who may be pursuing a course preliminary to entering upon a theological course.

The Bishop James H. Straughn Scholarship Fund: Established in memory of Bishop Straughn, an alumnus of the Class of 1899, active trustee, and President of the Board from 1929 to 1949.

The George M. Sullivan Scholarship Fund: Established by his wife, Elna R. Sullivan, in honor of her husband, a member of the Class of 1927.
The Surdna Foundation Scholarship Fund

The Margaret Lee Tawes Scholarship Fund: Established in 1987 by Margaret Lee Nelson Tawes, Class of 1932. This scholarship is to be awarded annually to a student with a major or minor in music with preference to students from the Delmarva Peninsula. The recipient must maintain a B average to have the scholarship renewed.

The Dr. Charles Roberts Thomas Scholarship Fund: This fund, established in 1968, provides scholarship assistance to needy students at the discretion of the Board of Trustees of Western Maryland. Dr. Thomas was a member of the Class of 1911.

The M. Frank Thomas Scholarship Fund: In memory of Mr. Thomas who graduated from Western Maryland in 1908 and was a trustee from 1951–1965. Awarded annually to residents of Frederick County.

The Theron Barker Thompson Memorial Scholarship Fund: Given in memory of his father by Ernest Thompson, award-winning playwright, to support scholarships for students from Carroll County pursuing studies in the field of the fine or performing arts. Dr. Thompson was a member of the faculty of the college for 13 years, 1961–1974. He retired in 1974, after a distinguished career in education in New England and at Western Maryland.

The Henrietta Roop Twigg Memorial Scholarship Fund: Established in 1979 by Mr. and Mrs. Eugene Willis, Classes of 1934 and 1935, in memory of Henrietta Roop Twigg, Class of 1913. The scholarship is to be awarded annually to a student majoring in music.

The Maurice S. H. Unger Memorial Fund: Established by the will of Miss Eleanor DeForest Boteler of Baltimore, as a tribute to a prominent Carroll Countian, Maurice S. H. Unger, who was a Carroll County Educator and Superintendent for 19 years. The scholarship is awarded to Carroll County residents who have a financial need and demonstrate a strong moral character.

The C. Harry Wahmann Memorial Scholarship Fund: Established in 1984 in memory of C. Harry Wahmann, devoted trustee of the college. It is to be awarded annually to students demonstrating financial need and with superior academic credentials.

The Margaret Wappler Memorial Scholarship for Applied Music: Established by the Omicron Eta Chapter of Delta Omicron, this scholarship of $175.00 is awarded annually to an upper-class music major making a significant contribution to music on the Hill.

The W. Edwin Warfield Memorial Scholarship: Provided by the Lions Club of Silver Spring, Maryland, in memory of W. Edwin Warfield, a member of the club and an alumnus of Western Maryland who died in action during World War II.

The Western Maryland College Endowed Scholarship Fund: Established in 1985 by the family and friends of Western Maryland College to honor family and friends. Contributions to this fund form a principal from which the income is used to provide need-based scholarships. These scholarships are to be awarded to outstanding Western Maryland College students.

The Western Maryland College Student Foundation Scholarship Fund: Established in 1985 by the members of The Student Foundation. The scholarships are to be awarded to Western Maryland College students based on leadership and need.

The Roger H. Willard Memorial Scholarship Fund: Established in 1982 by the family of Roger H. Willard, Class of 1930. The scholarship is awarded annually to a WMC student from Frederick County.

The Dr. Charles H. and Margaret V. Williams Scholarship Fund: Established in 1987 upon the 50th reunion of Dr. Williams, Class of 1937. This fund is to provide scholarships to students who would not attend the College if it were not for this scholarship award. A student granted this award may be eligible to receive the award in consecutive years, if he/she maintains at least a 3.0 GPA.

The Clarence M. Willis Endowment Fund: Established by Clarence M. Willis in 1987 in memory of Evelyn Johnson Willis; her mother, Katharine Hobbs Johnson,
Class of 1910; and in tribute to his beloved wife, Pearl Dotson Willis. These scholarship funds are for the purpose of enabling deserving, needy, and academically qualified candidates to receive a college education. Recipients must remain in good standing to retain the scholarship.

The W. Wilson Wingate Memorial Scholarship Fund: Established in 1981 by his sister, Carolyn, in honor of his self-sacrificing devotion to his family and his concern for and support of all young athletes.

The William R. Winslow Scholarship Fund: The income from this fund provides three full tuition scholarships. It is the further stipulation of the donor that the recipient of the scholarship must be willing to earn money to pay for his room and board.

The B. Irene Young Pre-Medical Scholarship Fund: Established in 1983 by B. Irene Young, Clerk-in-Charge of the Western Maryland College Post Office for many years, for a student seeking a career as a surgeon in Osteology or Geriatric Medicine.

The Raymond L. and Jessie B. Young Scholarship Fund: Established by their daughter, B. Irene Young, for the purpose of providing financial aid to a hearing-impaired and blind student. Should there not be a candidate with this dual limitation, the aid may be awarded to a deaf or a blind student.

Annual Scholarships
Each year a number of individuals, companies, and foundations provide gifts restricted to scholarship aid. The following is the current list of donors and the special purpose of their grants:

E. S. Adkins & Company Scholarship—to a student from the Eastern Shore

Baltimore Alumni Chapter Scholarship—to a student from Baltimore

James M. Johnston Trust for Charitable and Educational Purposes Scholarship—to students preparing to teach the deaf

Henry Buckingham Kimmey Annual Scholarship—to a sophomore from Carroll County who demonstrates both financial need and high academic promise

John J. Leidy Foundation Scholarship—to a student based upon demonstrated need and reasonable academic standards

Charlotte W. Newcombe Foundation Scholarship—to handicapped students in the Education of the Deaf Program

Opportunity Scholarship—to provide a half-tuition scholarship to a black student

Duane L. Peterson Memorial Scholarship—to a student based on need

Royer Scholarship—to biology majors based on academic merit

The Board of Beneficence of St. John’s I.M.P. Church Scholarship—to students from Baltimore area with financial need

Westminster Rotary Club Scholarship—to provide aid to Carroll County students

Other Endowed Funds
Certain funds within the endowment of Western Maryland College have been donated by alumni and friends to support the financial strength of the College. These contributions provide for library acquisitions, student loans, and various discretionary funds.

The Baker Chapel Endowment Fund: Established in 1988 by the Class of 1948 to provide for the upkeep and maintenance of Baker Chapel.

The John P. Barthel Memorial Poetry Competition: Established in 1985 in loving memory of John P. Barthel, Class of 1948, by his wife, Mildred L. Barthel, Class of 1946. This annual poetry competition among students at Western Maryland College on the topic of “The Home and Family” is administered by the English Department.

The F. Murray Benson Memorial Fund

The B. Christopher Bothe Memorial Lectureship Fund: Established in memory of B. Christopher Bothe of the Class of 1972, this endowed fund provides support for an annual day-in-residence for a poet or prose writer, under the general supervision of the College’s English Department.

The Class of 1927 Endowed Library Fund

The Dunning Memorial Fund

The John T. and Birdie S. Ensor Memorial Fund

The Maude Gesner Professor of Music Endowment Fund: Established in 1984 in honor of Maude Gesner, for her
many years of dedicated service as inspiring teacher and head of the Music Department.

The Eileen C. Henze Memorial Fund: Established in 1981 by the will of Eileen C. Henze, Class of 1938, in support of the English Department.

The Tony and Sherry Hill Periodical Publications Fund

The Fred Garrigus Holloway Lectureship Fund: Established in 1986 by anonymous donors to honor Dr. Fred G. Holloway, fourth President of Western Maryland College. The lecture will be held annually in the fall of each year and will be given by a respectable scholar or critic of literature.

The Frank Hurt Tennis Fund: Established in 1981 to provide funds for the upkeep and maintenance of the Frank B. Hurt Tennis Courts.

The Drs. Kerschner, Royer, and Sturdivant Growth Endowment Fund: Established in 1988 by a group of former students of Dr. Jean Kerschner, Dr. Isabel Thompson Isanogle Royer, and Dr. Harwell P. Sturdivant. This fund which will receive gifts over the next several years and is being invested for growth will eventually create a $1 million fund, the income from which will be used by the Board of Trustees for scholarships or for faculty support.

The Margaret Reisler Kishbaugh Memorial Fund

The Makosky Book Collection Fund: Created in 1976 by alumni and friends of John D. Makosky, Academic Dean Emeritus. This fund is used each year to purchase books selected by the English Department for Hoover Library.

The Corinthia Caldwell Meyls Memorial Fund

The George and Sally Bridges Meyls Memorial Fund

The Oscar Lafayette Morris Library Memorial Fund: By the will of Oscar Lafayette Morris, the college came into possession of a bequest which has been set apart as a special endowment for the library.

The Dr. Edward J. Nygren Endowment Fund: Established by the testamentary planning and possible lifetime contributions of Edward J. Nygren WMC Class of 1947, to provide the funds and two violins for the establishment of the Western Maryland Quartet, a string quartet under the direction of the music department.

The Col. Harry A. Patterson Memorial Fund

The Duane L. Peterson Memorial Fund

The Jane M. Prichard Memorial Fund

The William Ridington Library Fund

The E. McClure Rouzer Memorial Fund: Established by E. McClure Rouzer, a member of the Class of 1907 and long-time benefactor and trustee of Western Maryland College.

The Frank E. Shipley Memorial Fund

The Laura F. Stalnaker Scholarship Loan Fund: Established in memory of Miss Laura F. Stalnaker of the Class of 1881. Loans from this fund are available to worthy students on a non-interest bearing basis and are repayable within a ten-year period after graduation.

The Grace T. Stewart Memorial Fund

The James Thompson Memorial Fund: Through a gift made by Dr. and Mrs. William J. Thompson in memory of Dr. Thompson's father, The Rev. James Thompson of the Maryland Conference of the former Methodist Protestant Church. The income from this endowment is used for the purchase of books for the Departments of Psychology and Philosophy and Religious Studies.

The Sidney H. Waghelstein Endowed Fund

The Joseph S. Whiteford Fund: This fund has furnished and endowed a suite of rooms in Albert Norman Ward Hall to be occupied by two worthy young men without charge.

The Whitfield History Scholarship Fund

The Jacob O. Williams Memorial Fund

The Mr. and Mrs. William R. Woodfield, Sr. Fund
Western Maryland has always attempted to keep its fees within the reach of those students coming from families with moderate incomes while offering a liberal arts education of outstanding value. The success of this effort has been recognized by Edward B. Fiske, education editor of the New York Times: Western Maryland College is one of 220 colleges featured in Fiske's book The Best Buys in College Education, Times Books, 1987.

The regular academic year for undergraduates consists of a fall semester, the January Term, and a spring semester. Students enrolling for 12 or more credit hours in the fall and spring semesters are charged tuition as full-time students. Students enrolling for less than full-time will be charged at the part-time rate. Full-time undergraduates are entitled to enroll in one January Term without paying additional tuition. For information concerning our January Term, please refer to the January Term catalog. All residential students (those living in college-owned housing) will pay full tuition costs.

**Tuition and Payment of Bills**

The College attempts to make the tuition charge comprehensive; thus, it includes Student Health Service fees and Student Activities fees. The tuition for part-time and special students is $315 per semester hour. Students who have been out of school for two or more years are eligible for a reduced tuition rate of $139 per semester hour for the first 15 hours at WMC. To apply for this grant, students should contact the Admission Office.

The College divides basic charges into two half-year billings, the first payable by August 19, 1988 and the second by January 20, 1989. Additional bills for miscellaneous fees, library fines, property damages, etc. are mailed as charges are incurred. Checks should be made payable to Western Maryland College and mailed to the Cashier. No student will be permitted to enter class, advance from one class to another, or be graduated until all financial obligations are met. Students may pre-register for the following semester during assigned periods as outlined in the Registrar's Courses of Instruction Bulletin. Those students who do not pre-register during their assigned periods will be charged a $15.00 late fee.

Students may receive their class schedules and finalize their registrations prior to the first day of the semester. A $15.00 late registration fee will be charged to students completing their registrations on or after the first day of the semester.

For the convenience of parents desiring monthly payment arrangements, a Western Maryland College Tuition Contract is available; there are also several commercial tuition payment plans. Information describing these plans is mailed to parents annually and may be obtained from the Student Accounts Office upon request.

A schedule of tuition and other fees follows:
### Average Undergraduate Student Expenses

<table>
<thead>
<tr>
<th>College Year 1988–89</th>
<th>Resident</th>
<th>Non-Resident</th>
</tr>
</thead>
<tbody>

<td><strong>ID replacement fee</strong></td>
<td>$15.00 (each replacement)</td>
</tr>
</tbody>
</table>
Room Fees

Students are assigned single, double or triple rooms in the Residence Halls. Double and single rooms are available in the Garden Apts and Pennsylvania Avenue houses. The semester rates for these rooms follow:

Residence Halls
- triple—$ 680.00
- double—$ 780.00
- single—$ 880.00

Garden Apts
- double—$ 940.00
- single—$1,040.00

Pennsylvania Avenue Houses
- double—$ 905.00
- single—$1,005.00

The Garden Apts. and Pennsylvania Avenue houses are equipped with kitchen facilities.

All students living in College-owned housing will be charged full-time tuition.

All students desiring College housing must make a deposit of $100 in the spring before room assignment will be made for the following fall. This is subsequently credited toward the room charges when billed.

Board Fees
The board charge of $992.50 per semester is for a comprehensive plan which provides 20 meals a week in Englar Dining Hall when College is in session. Students living in the residence halls are required to participate in the board plan. Alternative meal plans as well as the full board plan are available to residents of the Garden Apartments and Pennsylvania Avenue houses and commuters.

Health Insurance Fees
A Student Health Insurance fee of approximately $120 is charged to all students each academic year. Waiver forms may be submitted to remove the charge. Information concerning the insurance and waiver forms may be obtained from The Student Health Center.

Refund Policy
The College must make financial commitments to its faculty, staff and service contractors on an annual basis. It is assumed a student will not withdraw from the college during a semester. Should withdrawal become necessary because of prolonged illness or similar unusual circumstance, the following refund policy will prevail:

Tuition refund in event of withdrawal:
Less than 2 weeks ........................................ 80%
Between 2 and 3 weeks .................................. 60%
Between 3 and 4 weeks .................................. 40%
Between 4 and 5 weeks .................................. 20%
5 weeks or more ......................................... no refund
Room: There will be no refund unless the room can be occupied by another student. If the room is filled, the refund will be prorated from date of withdrawal.

Board: A pro rata refund will be made from date of withdrawal.

The effective date of withdrawal is the date of receipt of written notification from the student in the Career or Counseling Centers.

Should a credit balance be generated due to a reduction in tuition or other charges when a student withdraws, policies regarding refunds to federal aid programs will take precedent. Any remaining credit balance will be mailed to the student within 2–3 weeks of the effective date of withdrawal.
Basic Liberal Arts Subjects

Given the First Principles of the College and its orientation to the liberal arts, the following basic requirements must be completed by every student. No one course may be used to satisfy more than one liberal arts requirement, and each must be at least a three-credit course.

A. Heritage Sequence
This two-semester sequence may be chosen from the following: Comparative Literature 119 and 120, History of Art 113 and 114, History of Music 203 and 204, History of Philosophy 113 and 114, History of Political Thought 321 and 322, Theatre of the Western World 225 and 226, Western Civilization 105 and 106, or Women in Western Culture 107 and 108.

B. Distribution Requirements
Distribution requirements cannot be satisfied or reduced by examination.

Cross-Cultural Studies
One course that explores a culture other than Euro-American, Judeo-Christian, and Greco-Roman.

Fine Arts
One course from these offerings: Art History and Appreciation, Communication and Theatre Arts 119 or 124, or Music History and Literature.

Humanities
Three courses, each from a different department or area among the following: American Studies; History; Literature: American, British, Classics, Comparative, French, German, or Spanish; Philosophy; and Religious Studies.

Natural Science
Two courses from offerings in Astronomy, Biology, Chemistry, General Science, and Physics. (At least one laboratory course.)

Quantitative Analysis
One course in Computer Science, Mathematics, or Statistics. (Note: Computer Science 102, Mathematics 141 will not fulfill this requirement.)

Social Sciences
Two courses from offerings in Economics, Political Science, Psychology, and Sociology.

C. Competence Requirements
Competence requirements may be satisfied or reduced by examination.

English Composition
Students are required to demonstrate competence in English composition, either by sustained writing performance in English 101 and 102 or by completing the intensive one-semester course, English 103. Upperclass students whose competence in writing falls beneath standards acceptable to the College may be referred to The Writing Center and must attain satisfactory progress before graduation.

Foreign Language
Students are required to give proof of competence equal to one year of college study. This may be demonstrated by passing the second semester of the first year of a foreign language course or by achieving a satisfactory score on a competence test.

Mathematics
Students are required to demonstrate competence in basic arithmetic operations and algebra. This must be demonstrated by passing a stated level on a standardized test given by the College in arithmetic and algebra. Students who fail to pass either part of the competency test are encouraged to enroll in skills workshops (Mathematics 001 or 002), and must continue to retake the test until both parts are passed.

Physical Education
Students must present evidence of an acceptable level of knowledge and skill proficiency in the following areas: two life-time sports activities,
one team activity, and one fundamental movement activity. This proficiency can be satisfied by acceptable performance on proficiency tests, by participation in the intercollegiate athletic program, or by satisfactory completion of appropriate activity courses as listed under Physical Education Activity in the Courses of Instruction section of the catalog (see page 101). Students may be exempt from this requirement because of age or physical disability. Students seeking such exemption must apply to the Dean of Academic Affairs.
Educational Programs

Western Maryland College offers the undergraduate degree of Bachelor of Arts, which is normally earned in four years. Students may work at their own speeds toward completing degree requirements. The College also offers two graduate degrees: the Master of Liberal Arts and the Master of Science.

While there are certain basic liberal arts requirements that must be met, students have a great deal of freedom in choosing their own paths toward earning the Bachelor of Arts degree. Western Maryland believes that studying one field or concentration in depth gives a focus and thereby a framework to a student's educational program. The College offers major academic areas of study, dual majors, academic minors, pre-professional programs, and the option for students to design their own majors. Academic advisers and other members of the faculty, career counselors, and peer advisers are readily available to help students think through and evaluate options. However, responsibility for selecting a challenging, meaningful and intellectually rewarding program that meets the requirements of the College rests solely with the student.

The student who arrives at Western Maryland with the goal of studying a specific major, preparing for a career in a particular field, or taking a pre-professional program, can begin immediately planning a course of study to work toward that end.

The more typical student, who has not yet made a specific commitment to a major or is entering college undecided, can begin by taking basic requirements and choosing from a diverse selection of courses on an elective basis. It is neither necessary nor always advisable for students to make a decision on a major until their second year. While seeking and evaluating options, over a period of time, students can gain fresh perspective about an already established area of interest, discover and ignite enthusiasm for previously unconsidered disciplines, test and rule out subjects which are found to be less attractive than once supposed, and even satisfy simple curiosity. Thus when the time for the formal declaration of a major arrives, the decision can be made with confidence.

Requirements for the Bachelor of Arts Degree

Students must meet the following requirements to graduate from Western Maryland College with a Bachelor of Arts degree.

1. Completion of at least 120 semester hours, the last 30 of which must be taken at Western Maryland. (The 30 hour WMC requirement does not include student teaching for the Education minor.) The 120 semester hours are distributed among major requirements, basic liberal arts subjects, at least one January Term course and electives.

2. Completion of the basic liberal arts requirements, as outlined on page 37.

3. Completion of at least one of the academic majors offered by the College.

4. Completion of at least one January Term.

5. A grade point average of 2.00 ("C") or above on all work taken at Western Maryland. (See Grades and Records below.)

Transfer students and others seeking advanced placement should consult their academic advisers and a faculty representative of their major department to determine applicable requirements.
Majors

American Studies
Art
Biology
Business Administration
Chemistry
Communication
Economics
English
French
German
History
Mathematics
Music
Philosophy
Physical Education
Physics
Political Science
Psychobiology
Psychology
Religious Studies
Sociology
Social Work
Spanish

Major Requirements

For the basic major, departments specify certain courses both within the major department and from supplementary disciplines. No more than 48 semester hours in any one department may be counted toward the required 120 hours. A student must have a 2.0 or better average (on a 4.0 scale, equivalent to a "C") in courses from each sponsoring department and an actual grade of "C" or better in at least 30 of the total number of hours required for the major. A description of each major is given under Courses of Instruction, with additional information available in the Guidance Bulletin, a copy of which is given to each entering student during the new-student orientation period.

In addition to the basic major, many departments offer areas of concentration that involve additional courses to help students achieve specific goals.

Dual Majors

Many departments offer students the option of combining work from two majors to achieve a program with a broader perspective. Usually a dual major requires more hours than a basic major in a single department. The requirements for dual majors are detailed in the Guidance Bulletin under departmental listings.

Most students find a satisfying fit with one of the existing programs. For those whose academic interests and goals cannot be served by an existing program, however, there is also the option of a student-designed major, which provides an opportunity to investigate and to apply the relationships of several areas of knowledge. The program is proposed by the student to meet particular goals, and as such it must be comparable in size and expectation to the conventional major—cohesive, integrated, and demonstrating significant depth. The initial proposal should be submitted in the sophomore year. Detailed guidelines for student-designed majors can be found in the Guidance Bulletin, which is distributed as mentioned above and is also available in the Registrar's Office.

Examples of Approved Student-Designed Majors
Biology/Journalism
Bio-Cultural Anthropology
Theatre Arts Management
Medical and Biological Illustration
Criminal Psychology
Sports Journalism/Publicity
Public Relations/Publicity and the Performing Arts
Classical Civilizations

Recreation
Religious Studies/Social Welfare
Sports Medicine

Pre-Professional and Dual Degree Majors
Western Maryland College has a strong tradition of supplying pre-professional education to students interested in pursuing professional studies. A recent survey of Ph.D. productivity during the period 1951 to 1980 found that Western Maryland College ranks in the top 50 institutions in the country in the percentage of its graduates who went on to earn Ph.D.'s in the Life Sciences. The requirements of pre-professional pro-

grams vary greatly; students should discuss their goals with both their academic advisers and the specific faculty adviser who coordinates the desired pre-professional program. This should be done as early in a student's college career as possible to assure that appropriate requirements are met within the designated time frame.

The following brief descriptions of Western Maryland's pre-professional programs should be supplemented with information from the Guidance Bulletin and consultations as suggested.

Pre-Engineering Studies
Students interested in becoming engineers can do so by completing three years at Western Maryland and two years at the University of Maryland at College Park; Washington University, St. Louis, MO; or another qualified engineering school. Successful completion of this 5-year program qualifies the student to receive the Bachelor of Arts degree from Western Maryland together with the Bachelor of Science degree in Engineering from the engineering school.

Pre-Forestry Studies
Western Maryland participates in a cooperative program with the School of Forestry and Environmental Studies at Duke University. Through this 5-year program, students can earn a bachelor's
degree from Western Maryland and a master's degree from Duke. Students spend their first three years at WMC fulfilling the basic liberal arts graduation requirements and other specific pre-forestry requirements and then transfer to Duke.

Pre-Professional Programs for the Health Professions
Pre-Medicine
Pre-Dentistry
Pre-Optometry
Pre-Pharmacology
Pre-Physical Therapy
Pre-Podiatry
Pre-Nursing¹
Pre-Veterinary

Admission standards of health professional schools in general are very similar to the graduation requirements of Western Maryland College. Professional schools either require or encourage entering students to have fulfilled the requirements of some academic major and to have studied a wide range of subjects, including non-science subjects. These standards are met by all Western Maryland College graduates.

Professional schools require in addition that students achieve well above average grades in their studies, and, usually, that students sit for an entrance examination. Because professional school entrance standards vary widely, individual guidance is necessary. Students who wish to enter health professional schools should notify the health professions adviser as early as possible in their college careers. Further, students who are undecided may discuss their options with the adviser, who may be reached by contacting the Department of Biological Sciences.

Pre-Law Studies
Law schools give preference to students with high grades and backgrounds of broad cultural and social education. A student can major in any department. The most useful courses are those which offer training in writing and speaking, literature of all kinds, history, economics, and political science.

Pre-Museum Studies
This program is for students planning careers in the areas of museum curatorship, management, public education and administration. Students major in Art and complete a program which includes Business Administration, Computer Science, an internship and foreign language study.

Pre-Ministerial Studies
A pre-ministerial student can major in any one or a combination of several departments, such as English, History, Philosophy/Religion, Psychology, and Sociology. The student should map out an appropriate four-year program with the assistance of advisers from the appropriate departments and the pre-ministerial adviser.

Pre-Occupational Therapy Studies
Western Maryland participates in a cooperative program with the School of Medicine of Washington University, St. Louis, MO. Successful completion of this 5-year program qualifies the student to receive the Bachelor of Arts degree from Western Maryland together with the Bachelor of Science degree in occupational therapy from Washington University.

Pre-Physical Therapy Studies
Students interested in becoming physical therapists can do so by completing three years at Western Maryland and two years at the University of Maryland, School of Physical Therapy in Baltimore, MD. Successful completion of this 5-year program qualifies the student to receive the Bachelor of Arts degree from Western Maryland together with the Bachelor of Physical Therapy degree from the University of Maryland.

¹Pre-Nursing students may participate in a 4-year cooperative nursing program with Emory University by attending Western Maryland for two years of basic liberal arts study and then transferring to Emory to study nursing for two years, thus earning both the B.A. and R.N. degrees.
Teaching Certification
Western Maryland College does not offer a major in Education; however, the College does offer minors in elementary and secondary education to students majoring in a wide variety of subjects. Students who desire certification to teach in the various programs offered should contact the Education Department as early as possible for assistance in planning their programs. Various requirements must be met and examinations passed, and work should be planned so that one semester of the senior year may be kept entirely free for student teaching. Teacher certification is addressed in detail in the Guidance Bulletin.

Minor Programs
Many students have strong secondary interests and elect one or more minor programs in addition to their primary commitment to a major program. This option not only gives students a format for exploring secondary areas; it also gives recognition on a student's transcript that the student has completed a significant amount of study in an area outside the declared major. Additionally, a minor also encourages students to group some elective courses into a well-designed whole.

Most departments offer minors, various departments cooperate to sponsor interdisciplinary minors, and some offer vocational or career minors. Additional information and requirements for the various minor programs appear in the Guidance Bulletin.

Military Science
No major is offered in this field. However, Military Science can be an integral part of a student-designed major or an elective in any major. The courses are designed to develop leadership potential and to prepare students for duty as a commissioned officer in the Active Army, Army Reserve or Army National Guard.

Courses are open to both men and women. Students will find that the Army provides for additional training and experience that are closely aligned with and supportive of undergraduate major and civilian professions.

Electives
The additional courses to total 120 or more semester hours for the baccalaureate degree should be selected with care and imagination in consultation with the academic adviser. It is here that the opportunity exists to balance and round out a college education, perhaps acquiring perspectives, information and skills that will prove invaluable in many areas of life in the future.

January Term
The January Term provides both students and faculty with an unusual educational opportunity. After a student completes the fall semester
learning something of the geography, history, language and culture of other people.

**Students are required to complete one January Term program successfully and may choose to participate in additional January Terms for nominal tuition.**

January Term courses are described in a separate publication available from the Academic Affairs Office after September 15.

**Special Studies**

Special studies courses provide students with the opportunity for individual study under the direction of a faculty member. The study, agreed upon by the sponsoring faculty member and the student, should be an experience not available within the regular college offerings. Students must apply for special studies on forms available in the Registrar’s Office. The reverse side of the form contains complete guidelines. Individual departments may formulate additional policies for special studies; they may also have additional guidelines on special studies for candidates for departmental honors.

**Internships**

The College conducts an active program of student internships through cooperative programs with government, business, industry, institutions and individuals. Internships are generally arranged directly through the academic departments of the College, and each internship must be sponsored by a member of the faculty. Students may apply for internships on forms available in the Registrar’s Office.

No more than nine credits of internships may be counted toward the 120 credits required for graduation. For Social Work majors and Education minors, the number may be eleven.

**Special Off-Campus Semester Programs**

Western Maryland offers several single-semester programs designed to enable students to pursue specialized interests. The Washington Semester Program administered by The American University enables students to study public affairs in the nation’s capital. The United Nations Semester offers a limited number of students the opportunity to participate in the Drew University semester in New York. The Drew Semester in Brussels focuses on the politics of the European community, and the Appalachian Semester, offered in cooperation with Union College in Kentucky, gives mature students an opportunity to study the Appalachian region.
Studying Abroad

Every year a group of Western Maryland College students chooses to study abroad. Western Maryland has entered into formal association with several colleges and programs. Many other options for world-wide study are also available. In addition, the College is involved in an exchange program with Nagasaki Wesleyan Junior College which provides an opportunity for a minor in Japanese Civilization through a year's study in Japan.

Students should consider international studies early in their college years. No definite commitments have to be made early but careful academic program planning is necessary. Study abroad information is available from the Academic Affairs Office.

Continuing Education

Western Maryland welcomes the growing number of students who are choosing either to begin or continue their college studies at a point later in their lives than do freshmen who enroll directly after high school. Recognizing that these nontraditional students have special needs, they are assigned special advisers.

For information please contact the Office of Academic Affairs and see also under Admission the entry on Continuing Education Students, page 18.

Second Bachelor's Degrees

The second bachelor's degree program at Western Maryland is designed to meet the needs of students who have completed a degree in one field and now wish to become proficient in another.

Students may elect any major offered at the College and must meet all requirements for that major. A minimum of 30 semester hours beyond the first degree must be taken at Western Maryland; if the new major requires more than 30 hours, the additional credits must be taken before the degree is awarded. A second degree requires a minimum grade point average of 2.0 computed on all work attempted at Western Maryland. The College's basic liberal arts requirements are assumed to be met, and 90 credits are automatically transferred from the original degree program.

Applications for the second bachelor's degree and more specific policies and procedures for the degree are available from the Academic Affairs Office.

Academic Regulations and Procedures

For a full discussion of academic regulations and procedures including information on semester hours, academic loads, change of courses, change of academic advisers, minimum scholastic requirements, class absences, residence requirements and related topics, please see the Student Handbook and the Guidance Bulletin.

Grades and Reports

For each course, the instructor determines the progress of the individual and the class by means of class work, tests, special assignments or papers, conferences and other procedures that might prove valuable.

Grading System

The scholastic standing of students is indicated by a system of grades designated by the letters A, B, C, D, F and I. Plus and minus grades (e.g., an A- or a B+) may be assigned and will appear on the student's transcript. They do not, however, affect a student's grade point average (e.g., an A- is considered an A for calculating grade point average).

A, B, C and D are passing grades, A indicating work of the highest rank, D of the lowest. Students receiving the grade of F must repeat the course if they wish to receive credit for it. Students receiving the grade I (Incomplete) who wish to receive credit for the course must complete the course within one year from the date of record, unless a shorter time has been set by the course instructor or the Standards Committee.
Qualified juniors and seniors may elect certain courses under the Credit-Fail option. To receive credit for a course under this option, a student must attain a grade of C or better, but the letter grade is not recorded on the student’s record.

**Grade Point Average (GPA)**

The general quality of students’ work is determined numerically and is called the grade point average (GPA). The GPA is calculated in two steps. First, letter grades are converted to numerical grades on the following 4-point scale: A = 4; B = 3; C = 2; D = 1; F = 0. A student earns quality points for each course completed equal to the number of semester hours for the course multiplied by the point value for the grade. Then, the grade point average for one semester is calculated by dividing the total quality points achieved by the number of semester hours in regularly graded courses.

Thus, a student taking 5 three-hour courses (totaling 15 hours) who received one A, two Bs and two Cs would have earned a GPA of 2.80 for the semester. 

\[(3 \times 4) + (6 \times 3) + (6 \times 2) = 42 + 15 = 2.80\]

Similarly, an overall GPA for all work attempted at Western Maryland is calculated by adding the quality points for each semester and dividing by the total number of semester hours attempted.

To maintain class standing, students must complete successfully the normal program of semester hours with at least a 2.0 or C average. Any student whose cumulative grade point average is less than 2.0 will be placed on academic probation.

The standard rate of progress is 30 semester hours a year, but students should undertake programs they can handle successfully, no matter what the hour total. The number of semester hours that each course carries is stated after its title in the section on Courses of Instruction, which begins on page 52.

**Auditing**

An audit is entered on the record as “audit,” no hours attempted, no quality points. Amount of participation required in the course is set by the professor. For a full-time student, there is no additional charge. For a part-time student, the charge is one-half the regular tuition. Students may elect to switch from audit to credit (upon payment of the price differential, where applicable). Students who choose this option must complete course requirements as assigned, must make their decision prior to the withdrawal date, and must have the instructor’s approval to change from audit to credit. Audited courses appear on student transcripts but do not carry grades or credit. For further details on Audits, see the Student Handbook and Courses of Instruction booklet.

**Withdrawal**

A student who withdraws from a course before the date specified for withdrawal cutoffs receives a grade of W, and the course is not counted in figuring the student’s grade point average. After the stated date, failure to meet a course obligation will be graded F and so recorded; exceptions to this rule may be permitted only by the Dean of Academic Affairs and only in cases of genuine emergency, such as protracted illness late in the semester. In such cases, a grade of W or I may be permitted provided the student’s work was satisfactory (C or better) at the time of withdrawal. In the event of withdrawal from the College after the date specified, a student will receive a grade of WP (withdrawn passing) or WF (withdrawn failing).

**Reports**

Grade reports are sent to all students at the end of each semester. New students and students performing below average may receive midsemester grade reports also. Academic records are reviewed each semester by the Dean of Academic Affairs in consultation.
with the Dean of Student Affairs and the Committee on Admissions and Standards. A student may be dropped from the College when the student's scholarship record is so low as to justify such action.

**Educational Records**

Educational records are those records, files, documents and other material directly related to a student and maintained by the College or any of its agents. Western Maryland College assumes an implicit and justifiable trust as custodian of these records. Access to and release of student records are determined by WMC policy, which complies with Public Law 93-380 (the Family Educational Rights and Privacy Act of 1974, often referred to as the Buckley Amendment). Copies of the Western Maryland College Policy on Release of Information About Students and of the U.S. Department of Education regulations implementing Public Law 93-380 are available in the Office of Student Affairs. Students receive notification of the rights accorded them under the above documents at the beginning of each academic year. A more complete description of these policies appears in the Student Handbook.

**Requirements For the Master's Degree**

Western Maryland offers graduate studies leading to the Master of Liberal Arts degree and the Master of Science degree to individuals who have a baccalaureate degree. Courses are taught primarily in late afternoon and evening during the regular school year, and during the day in the summer.

Dormitory accommodations are available for summer terms and, to a limited extent, during the regular school year. Courses are also offered at other locations in Maryland.

Master's programs require the completion of 30 to 33 semester hours, depending upon the program selected by the student.

**Master of Liberal Arts**

The Master of Liberal Arts requirements total 30 semester hours, 21 of which are specified by area as follows: 12 hours in courses dealing with cultural heritage, 6 hours in courses focusing upon contemporary society, and 3 hours in creative applications in the fine arts or related fields.

**Master of Science**

The Master of Science requirements include 30 semester hours with a thesis, or 33 semester hours with a comprehensive examination in lieu of the thesis. The program involves a minimum of 9 hours in three areas: an area of concentration (chosen from Administration, Education of the Deaf, the Deaf/Blind, Elementary Education, Guidance and Counseling, Media, Physical Education, Reading, Secondary Education, or Special Education); Education; and other supportive courses. State certification involves additional work beyond the M.S. in some fields.

Course descriptions, requirements for matriculation in each program, and details of specific program requirements are published in the Graduate Catalog available through the Office of Graduate Studies.

Western Maryland reserves the right to alter policy, programs and requirements when such alterations seem desirable to fulfill the objectives of the College.
Recognition of Academic Achievement

Phil Beta Kappa Society

The United Chapters of Phil Beta Kappa, the national honor society which recognizes high academic achievement in liberal arts, established the Delta of Maryland Chapter at Western Maryland College in 1980. Members are selected by the Delta Chapter each year on the basis of academic standing in accordance with regulations of the national society.

National and international honor societies which recognize academic accomplishment in specific fields are listed in the Student Life section of this catalog under Honor Societies. (See page 10)

Western Maryland College Honors Program

Students with outstanding academic records and standardized test scores are invited to apply for the WMC Honors Program. As members of the program, they have one specially designed course together each semester, participate in special activities together, and are given the option of common housing.

Completion of the program merits notation on diplomas upon these Honors Students' graduation.

Dean's List

The Dean's List recognizes students with outstanding academic performances each semester on the following basis:

- Highest honors, requiring a grade point average of 3.80-4.00.
- High honors, requiring a grade point average of 3.60-3.79.
- Honors, requiring a grade point average of 3.40-3.59.

General Honors at Graduation

General honors citations are recognized at graduation and recorded on the diplomas and on the students' permanent records. These honors are:

- Summa Cum Laude, for a grade point average 3.80 or higher.
- Magna Cum Laude, for a grade point average of 3.60-3.79.
- Cum Laude, for a grade point average of 3.40-3.59.

Eligibility for honors requires a minimum of 60 semester hours at Western Maryland College.

Departmental Honors at Graduation

Departmental honors are recognized at graduation and recorded on the students' permanent records. To receive departmental honors, students must:

- Have a grade point average of 3.2 in all courses taken in the major.
- Satisfy any departmental requirements, such as engaging in seminars or in individual directed study, submitting an essay, or passing with distinction a comprehensive examination in the major field.
- Be recommended by the department.

Endowed Annual Prizes and Awards

Each year Western Maryland College honors outstanding students for both academic and other achievements by awarding a number of endowed prizes and other awards. These are made possible by the generous gifts of alumni and other friends of the College. They are presented during the Honors Convocation, Commencement, or on other special occasions.

The John A. Alexander Medal: Endowed by the Class of 1917 in memory of John A. Alexander, Class of
1917, awarded to the member of the graduating class with the best record in athletics.

The Michael and Polly Beaver Award for Excellence in Education: Established in 1985 by the family, colleagues, students, and friends of Michael and Polly (Grayson) Beaver, Class of 1979, as a lasting memorial of their lives and their impact on education. The recipient, selected by the Education Department, is a graduating senior completing the minor in elementary or secondary education; someone who has had a distinguished college career as reflected in their scholarship and contributions to life both on- and off-campus. The award is presented at Honors Convocation.

The David Brian Cross Memorial Award for Achievement in Mathematics: The award, established in 1983, is based on performance in the William Lowell Putnam Mathematical Competition. The award, established in 1983, is given in memory of Davey Cross, Class of 1981, whose academic achievements serve as a model of excellence.

The James P. Earp Sociology Award: Established in 1985 in memory of Dr. James P. Earp, former Chairman and Emeritus Professor of Sociology. Dr. Earp, known for his qualities of character and leadership, provided the foundation for the strong Sociology Department of today. The award is given annually to a junior who has demonstrated the qualities for which Dr. Earp is remembered: a high level of scholarship in the study of Sociology as well as qualities of character and leadership which have been an inspiration to the campus community.

The Lowell Skinner Ensor Memorial Award for Graduate or Professional Study: Presented annually to that member of the graduating class whose excellence while at Western Maryland College best predicts success in attaining a graduate or professional degree. Excellence shall be based on scholarship, character, and contributions to the life of the college. Nominations for the award shall be submitted each spring by Department Chairpersons with final selection by the College Awards Committee. This award was established by family and friends in memory of Lowell Skinner Ensor, fifth President of Western Maryland College.

The James B. Moore Memorial Award: To that member of the sophomore class who during his freshman year showed superior qualities of character and leadership in all phases of campus life and activity including ROTC. The award was established by the family, classmates, and friends of Lt. Col. James B. Moore, Class of 1953, who in 1967 gave his life for his country in Vietnam and who, during his student days and as an officer in the United States Army, demonstrated in an unusual fashion these same qualities of character and leadership.

The Makosky Award for Excellence in English: Created in 1981 by the members of the English Department to honor John D. Makosky, Dean of Faculty Emeritus. This award is given each year to an outstanding graduating senior.

The Frank and Margaret Malone Award for Excellence in a Foreign Language: Established in 1987 by Col W. Frank Malone, Class of 1938, in memory of his beloved wife, Margaret C. Malone. The award is made each year to that senior who shall have demonstrated the highest level of excellence in a foreign language.

The Malcolm L. Meltzer Psychology Award: Established in 1987 by the Meltzer family in memory of and in tribute to Dr. Malcolm L. Meltzer, Class of 1951. The award shall be made each year to the graduating senior who has majored in psychology, has completed all academic requirements, has the highest overall GPA, and has been accepted by and is planning to attend an accredited graduate school in psychology.

The James B. Moore Memorial Award: To that member of the sophomore class who during his freshman year showed superior qualities of character and leadership in all phases of campus life and activity including ROTC. The award was established by the family, classmates, and friends of Lt. Col. James B. Moore, Class of 1953, who in 1967 gave his life for his country in Vietnam and who, during his student days and as an officer in the United States Army, demonstrated in an unusual fashion these same qualities of character and leadership.

The Felix Woodbridge Morley Memorial Award: To that member of the freshman class who by his or her de-
velopment on the Hill has most happily justified admission to the college community. The award was established in 1952 by Mr. and Mrs. Felix Morley in memory of their son, who was a freshman at the college during the academic year 1951-1952.

The Philip and Azalea Myers Award for Creativity in English: Created in 1979 by Philip Myers in loving memory of his wife Azalea (Sally) Myers, Class of 1914, to an outstanding senior in the English Department.

The Western Maryland Norman E. Sartorius Gift and Citation: Established in 1982 by the will of Dr. Norman E. Sartorius, Class of 1900. To be awarded every other year to a student who has contributed the most toward the moral and spiritual uplift of the Western Maryland student body.

The M. Louise Shipley Art Award of Excellence: Given to the outstanding graduating senior art major, the award recognizes the services of the long-time chairman of the Art Department.

The Esther Smith Award: Given annually to a graduating senior who during four years at WMC has displayed a high degree of creativity in the arts (drama, music, or art) and who also is respected by both faculty and students for his or her contribution to the human welfare of the college. This combination of qualities was uniquely characteristic of Esther Smith and endeared her to the entire college community during her 44 years as a member of the Dramatic Art Department.

The Hugh Barnette Speir, Jr. Prize: Given to the student showing greatest excellence in European History. It was established by the parents of Hugh Barnette Speir, Jr., of the Class of 1945, who was killed in World War II while serving with the armed forces in Germany.

The Dr. Clyde A. Spicer Award: Originally established by Kappa Mu Epsilon in 1969, it was endowed by the family, colleagues, former students, and friends of Dr. Spicer as a living memorial of his 40 years of dedicated service to Western Maryland College and, most specifically, to the mathematics program of the college. This award is given annually to the outstanding graduating senior in mathematics.

The James Stephens Memorial Award: Income from the fund is to provide a trophy to the outstanding football player as voted by his teammates. Named in honor of James C. Stephens, Class of 1964.

The H.P. Sturdivant Biology Award: Established in 1973 at the retirement of Dr. Sturdivant as chairman of the Biology Department. Awarded to the senior biology major who displays the following qualities: academic excellence, dedication to the liberal arts philosophy, and unselfish service.

The United States History Award: Established through a bequest of Mr. H. Peyton Gorsuch for students excelling in United States history.

The Michael L. Wagelstein Memorial Award: To that male member of the graduating class who demonstrated to the greatest extent the following attributes: military proficiency and leadership potential; athletic ability; sincerity; zest for living; and loyalty to country, college, and friends. The award was established in 1970 by the family, classmates, and friends of Captain Michael L. Wagelstein, Class of 1967, who during his student days and as a Regular Army officer, demonstrated and was recognized for these characteristics.

The Kathryn E. Wentz Art Awards: Established in 1984 by Mr. Harold F. Wentz in honor of his loving wife for all the understanding and encouragement she has provided to his art career. Cash awards and ribbons will be given at the Kathryn E. Wentz Art Show held each spring for the students of Western Maryland College and the May Day Art Show. These two shows will be arranged and juried under the direction of the Art Department.

The Mr. and Mrs. Harold F. Wentz Most Promising Art Freshman Prize

The Steve Robert Wilson Memorial Award: Established in 1986 by the alumni fraternity brothers, family, and friends as a living tribute to Steve R. Wilson, Class of 1975, a dedicated member of the track and field team during his four years at WMC. The award is to be made each year at the Honors and Investiture Convocation to the senior man and senior woman with the most outstanding record in track and field.
The Barry A. Winkelman Memorial Award: Granted to a male student beginning his junior year who has been accepted for advanced ROTC, has evidenced academic and athletic ability, and exhibits certain characteristics reminiscent of Captain Winkelman, Class of 1955, who was an Army pilot at the time of his death.

The WMC Distinguished Teaching Award: Established by Sigma Sigma Tau Sorority, this award is given annually to an outstanding member of the WMC faculty.

The Bates Prize: In memory of The Rev. Laurence Webster Bates, D.D., a gold medal is awarded to the member of the graduating class who has made the best record during the undergraduate course as a college man.

The Mary Ward Lewis Prize: Founded in 1920 by the Browning Literary Society in honor of the wife of the second president of the college, a gold medal is awarded to the member of the graduating class who has made the best record during her undergraduate course as a college woman.
Courses of Instruction

Key to Finding and Interpreting Course Descriptions

Departmental Listings
The academic departments are generally listed in alphabetical order. Each department has a code number which appears in parentheses at the head of the listing, for example American Studies (01) and Computer Science (19). All courses are listed under the department which offers them.

Course Designations
Courses of instruction are designated by a system of three-digit numbers within each department. The first, or hundreds digit in a number indicates the class standing that a student must attain to be eligible for the course. To interpret the numbering system, you need to know that:

- Single numbers (e.g. 101) designate courses which are completed in one semester.
- Double numbers (e.g. 101, 102) designate courses which are completed in one academic year, or two semesters.
- A comma placed between the numbers (e.g. 103, 104) indicates that the work of the first semester is prerequisite to that of the second; however, credit may be received for the first semester without completing the second semester.
- A semicolon is used to separate the course numbers (e.g. 105; 106) when each of the two courses making up one academic year’s work may be taken independently of the other, and either may be taken first.

A course title in parentheses, e.g. (Seminar in American Studies), indicates a course whose topic may vary from year to year.

The number of credits per course is indicated below the course title. Normally, each course meets the same number of periods per week as the number of credits unless otherwise specified.

The department head is the first faculty member listed within each department section unless otherwise indicated.

Courses required for major programs are stated in full in the Guidance Bulletin published annually and available in the Registrar’s Office.

The courses listed below are usually offered each year unless otherwise specified. The College reserves the right not to offer any particular course, however, when the demand is limited or instructional time is not available.
American Studies (01)

Professors Richwine (Director) and Phillips; other faculty members from the departments involved.

The American Studies major is an interdisciplinary program that can be tailored to fit the educational and vocational needs of a wide variety of students. First, the major, because of its depth and breadth, can form the core of an ideal liberal arts education; second, it can be designed to provide excellent pre-professional training for law school, government service, journalism, graduate work in city planning, museum and archive management, and library science. Combined with designated education courses, American Studies also furnishes an excellent background for those planning to teach high school English or social studies.

A major completes a basic program of two introductory surveys of American literature, two in American history, and one in American government. After selecting an area of concentration, the major then designs a program from courses focused on America offered by many departments, such as: Art 239, 240; English 235, 237, 263, 281, 282, 284, 285, 286; History 225, 226, 229, 249; Music 110; Philosophy 116; Religious Studies 328; Political Science 202, 207, 305, 308, 319; Sociology 104, 203, 245, 328; and many January Term offerings.

Basic Major:

Required courses:
American Studies 201, 301, 302, 451 or 452; English 113, 114; History 107, 108, or two advanced courses in American history; Political Science 201.

In addition to these requirements, students must complete the courses listed under the areas of specialization in the Guidance Bulletin.

Areas of Concentration for American Studies:
Literature, Teacher Certification Secondary (5-12) English (Literature emphasis), History, Sociology, Social Sciences.

201 Issues in American Studies
3 credits
An introduction to the interdisciplinary study of American culture through the reading and discussion of selected significant primary works. Alternates with American Studies 301 and 302. Offered in 1988-89.

301 (Seminar in American Studies)
3 credits
A survey of American culture with particular emphasis on the relationships among social conditions, intellectual history, and literature. In 1989-90, the topic is the American Character: Images and Myths. Alternates with American Studies 201. Offered in 1989-90.

302 (Seminar in American Studies)
3 credits
An interdisciplinary study of a specific problem, period, or issue in American culture, past or present. In 1989-90, the topic is the Turbulent 1890s. Alternates with American Studies 201. Offered in 1989-90.

451; 452 Special Studies in American Studies
0 to 3 credits
Students majoring in American Studies must complete at least three semester hours of work in these courses.
Art (03)

Professor Palijczuk, Associate Professor Badiee (Department Chair), Assistant Professor Bloom, Lecturers Hankins and Van Hart.

Areas of particular teaching interest: Professor Palijczuk: Introduction to Art, Watercolor, Life Drawing, Painting, Sculpture and Printmaking; Professor Badiee: Art History with emphasis on both Western and non-Western traditions; Professor Bloom: Drawing, Design, Photography, Graphic Design and Computer Graphics.

Students majoring in art may plan their programs for graduate study in applied art or graphic design, public school teaching, the history of art, or museum studies. Many students add art to their course of study for personal enrichment and a desire for creative satisfaction.

There are five basic approaches to the art major: graphic design, history of art, pre-museum studies, studio art, and combined studio art and history of art. See Guidance Bulletin for details. The following combined studio art and history of art program illustrates one of these approaches.

Combined Studio Art and Art History Major:

Required Courses:
Art 101, 113, 114, 117, 240, and twenty-one additional hours of applied art and/or art history.

Desirable electives:
Art 211, 219, 239, 306, 313; Comparative Literature 201; History; Literature; Music History; Philosophy.

Other Educational Options in Art:
Teacher Certification (7–12), and dual majors with history or communication.

Applied Art

101 Drawing I
3 credits
A studio course concentrating on basic perspective variations in value and composition.

117 Design I
3 credits
An introductory investigation of design principles involving the elements of art (line, color, value, texture, etc.).

201 Life Drawing
3 credits
Drawing from live models to learn proportion and anatomy of human head and figure. Various drawing media and techniques are emphasized. Prerequisite, Art 101, or permission of the instructor.

206 Computer Graphics
3 credits
A study of the fundamentals and application of graphic design software programs. Students complete assignments exploring the wide range of design possibilities the computer offers. The course includes field trips and work in the Macintosh laboratory. Offered in 1988–89 and alternate years.

208 Design II
3 credits
A continuation of Art 117, stressing personal interpretation and solution to various design problems. Prerequisite, Art 117. Offered in 1988–89 and alternate years.

211 Sculpture I
3 credits
Clay modeling of the human head and figure, making of plaster molds and castings. Prerequisite, permission of the instructor.

214 Jewelry and Lapidary I
3 credits
A studio activity in fabricating and casting jewelry and the cutting, polishing, and setting of stones. Attention is given to jewelry design. Priority is given to art majors. Offered in 1988–89 and alternate years.

215 Photography
3 credits
A study of the technical processes, the aesthetics and history of photography. The course requires a 35 mm
camera with manual
settings, and emphasizes the
production of black and
white prints. There is an
extra fee for materials.

216 Graphic Design I
3 credits
A studio activity stressing
the importance of the imagi-
native and creative talents
of the artist in today's com-
mercial art world. Prerequi-
sites, Art 101 and 117.

218 Graphic Design II
3 credits
A studio course on the tech-
nical realm of advertising
graphics, illustration and
informative and promotional
art. Field trips to a variety
of art agencies are included.
Prerequisites, Art 101, 117
and 216.

219 Ceramics I
3 credits
A studio course investigat-
ing the coil, slab, and wheel
methods of clay construc-
tion. Firing techniques and
glazing procedures are intro-
duced.

295; 296; 395;
396 Internships
3, 3, 3, 3 credits
Opportunities to gain knowl-
edge and experience through
supervised participation in a
variety of art related areas,
usually through an off-
campus agency or organiza-
tion. Prerequisite, Art major
with junior or senior stand-
ing.

302 Sculpture II
3 credits
Various plaster build-up
methods, wood and stone
carving, assemblage forms,
individual experimentation
of form and materials. Pre-
requisite, permission of the
instructor.

306 Printmaking
3 credits
A study of the principles of
printmaking, with emphasis
on wood and linoleum print-
ing, serigraphy, intaglio,
and in special cases, lithogra-
phy. Prerequisite, Art 101,
or permission of the instruc-
tor.

310 Watercolor
3 credits
Experimentation with at
least ten different techniques
of watercolor painting. Pre-
requisite, Art 101, or per-
mission of the instructor.

311 Ceramics II
3 credits
A continuation of Ceramics
I with emphasis on the aes-
thetic and creative use of
the medium. Prerequisite,
Art 219.

313 Painting I
3 credits
An introductory course in
oil painting with emphasis
on realistic or recognizable
objects. The mixing and ap-
plication of paint to the
painting surface and at least
five painting techniques are
studied.

351; 352; 451; 452 Special
Studies in Applied Art
0 to 3 credits
Directed study planned and
conducted with reference to
the needs of those students
who are candidates for de-
partmental honors in art.
Qualified students who are
not candidates for such hon-
ors but who desire to take
the course are also admit-
ted.

404 Painting II
3 credits
An advanced course with
focus on larger dimensions.
More individual freedom of
choice of subjects, tech-
niques, painting surfaces,
and paint media is encour-
aged. Prerequisite, Art 313
or permission of the instruc-
tor.

414 Jewelry and Lapidary
II
3 credits
Advanced techniques in
forging, sculpting and mass
production of jewelry. Pre-
requisite, Art 214.

History and Appreciation of
Art
All art history courses
consist of a survey of
one or more stylistic pe-
riods. Students also en-
gage in research and cre-
ative analysis of specific
works, and relate their
studies where possible to
other disciplines. Instruc-
tion includes field trips to
museums each semester.

109 Introduction to Art
3 credits
A course designed for the
student who is interested in
art but does not wish to ma-
jor in it. It blends studio ex-
perimentation with some
history, aesthetics, and
other theoretical foundations
of the arts.

113 History of Western Art
I
3 credits
A survey of painting, sculp-
ture, and architecture from
15,000 B.C. to 1400 A.D.
Included are Near Eastern,
Egyptian, Greek, Roman,
and Medieval Art.

114 History of Western Art
II
3 credits
Continuation of the survey
of History of Western Art I,
1400 to present. Emphasis is
placed on the Renaissance,
Baroque, Romantic, and
Modern periods.
217 Classical Art and Archaeology
3 credits
A survey of the major sites and material remains of the ancient Greek and Roman worlds, including the history of outstanding archaeological discoveries and a reconstruction of the private, civic and religious life of the Greeks and Romans through their architecture, sculpture and painting, Bronze Age through Roman Empire. Offered in 1988-89 and alternate years.

222 Art of the Medieval World
3 credits
A study of the Early Christian, Byzantine, Romanesque, and Gothic Arts in Europe. Offered on demand.

229 Arts of India, China, and Japan
3 credits
The development of painting, sculpture, and architecture in India, China, and Japan. Alternates with Art 242.

235 Arts of the Renaissance, 1300-1600
3 credits
The development of European Arts from Giotto to Michelangelo in the south, and van Eyck to Bruegel in the north. Offered in alternate years.

236 Baroque and Rococo
3 credits
A study of the architecture, sculpture, and painting of the period 1600-1800. Includes the masters Bernini, Rubens, Rembrandt, Velazquez, and Watteau. Offered in alternate years.

239 Romanticism and Impressionism
3 credits
A study of the major artists of the 19th century including Goya, Delacroix, Courbet, Manet, Monet, Degas, Van Gogh and Gauguin. Includes both European and American art. Offered in alternate years.

240 Twentieth Century Art
3 credits
Painting and sculpture in Europe and America from 1900 to the present day. Emphasis is placed on emerging artistic trends.

242 Art and Culture of Islam
3 credits
An investigation of the architecture, painting and other arts of the Islamic world. Areas covered include the arts of Syria, Iran, Medieval Spain, North Africa, Central Asia and Moghul India. Alternates with Art 229.

305 Sacred Architecture
3 credits
A historical and systematic examination of both formal and symbolic aspects of structures built for religious purposes, along with their associated religious activities. Offered in alternate years.

353; 354; 453; 454 Special Studies in History of Art
0 to 3 credits
Directed study planned and conducted with reference to the needs of those students who are candidates for departmental honors in art. Qualified students who are not candidates for such honors but who desire to take the course are also admitted.

Astronomy (06)

No major is offered in this field.

102 Descriptive Astronomy
3 credits
A study of the stars and stellar evolution, the solar system, galaxies, and cosmology, with emphasis on contemporary topics.

104 Introductory Astronomy Laboratory
1 credit
Laboratory and field exercises including observational techniques, astronomical coordinate and time systems, planetary calculations and measurements, basic astronomical photography and photometry, stellar mass and distance determinations. Prerequisite, Astronomy 102, which would normally be taken concurrently.
**Biology (09)**

Professors Brown (Department Chair), Alspach, and Long; Associate Professors Iglicht and Paquin; Lecturer Schmall.

*Areas of particular teaching interest:* Professor Brown: microbiology, physiology of plants; Professor Alspach: comparative physiology of vertebrates and invertebrates, marine biology, physiological ecology; Professor Long: developmental biology, evolution; Professor Iglicht: ecology, evolution, botany; Professor Paquin: genetics (human and molecular), cytogenetics, immunology, bioethics.

Students majoring in biology may prepare for graduate study in biology, for professional study in forestry and the health sciences, and for teaching.

Western Maryland College has 3–2 arrangement with the Duke University School of Forestry and Environmental Studies, a 3–2 agreement with the Washington University (St. Louis) for those interested in biomedical engineering, and a 2–2 program with the Nell Hodgson Woodruff School of Nursing at Emory University.

### Courses for Students Not Majoring in Science

<table>
<thead>
<tr>
<th>Course Number</th>
<th>Course Title</th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>113</td>
<td>Biology and Human Concern</td>
<td>4</td>
<td>The theme of this non-majors course is the understanding of (1) the principles underlying the structure and maintenance of ecosystems, (2) the effects of human management and (3) ecological-based solutions to problems created by humanity. Topics include ecosystem functioning, human population growth, pollution, pest/disease control, energy resources and nutrition. <strong>Three class periods and one laboratory period per week.</strong></td>
</tr>
<tr>
<td>115</td>
<td>Genetics, Evolution, and Society</td>
<td>3</td>
<td>Human genetics and evolution for the non-science major. Themes of the course include our own heredity; the technology of cytogentic and genetic engineering that enables us to study and, in some cases, to manipulate genetic material; the genetic basis of evolutionary theory; and the assessment of such information that is reported to the public. <strong>Prerequisite, passing the arithmetic section of the mathematics proficiency examination.</strong></td>
</tr>
<tr>
<td>118</td>
<td>Human Biology</td>
<td>4</td>
<td>The biology of people: includes study of human evolution, ecology, behavior, anatomy, physiology, and genetics. These are studied with a view toward the appreciation of scientific and medical research affecting all our lives. <strong>Three class periods and one laboratory period per week.</strong></td>
</tr>
</tbody>
</table>

### Basic Biology Major:

**Required courses:**
Biology 111, 112, 203, 204, 210, 321, and two other three or four credit biology courses at the 300 level; Chemistry 103, 104, 217, 218; Mathematics 117.

**Additional courses strongly recommended:**
Mathematics 118; Computer Science 106; Statistics 215; Physics 101, 102.

**Other Educational Options in Biology:**
Teacher Certification Secondary (5–12), Pre-Forestry, Pre-Professional Curriculum for the Health Sciences (e.g., dental, medical, nursing, laboratory technician). In addition to the basic biology major, the Department offers a major designed to emphasize study of the environment and a major designed for the 3–2 Duke University forestry program.
Biology 111 is a prerequisite for all other courses in biology except 113, 115 and 118. Passing the Mathematics Proficiency requirement is a prerequisite for Biology 112 and all biology courses numbered 200 and greater.

111, 112 Principles of Biology
4, 4 credits
In the first semester, the principles of both bioenergetics and reproduction are considered at the cellular, organismal, and population levels. The work of the second semester integrates the principles of maintenance, genetic control, and evolution of organisms. Three class periods and one laboratory period per week.

203 Genetics
3 credits
A study of the concepts of classical and contemporary genetics. Includes the action of genetic mechanisms at various levels of biological organization (the molecular, cellular, organismal, and population) and in a variety of cells and organisms including humans.

204 General Botany
4 credits
Principles of classification, dispersal, and adaptation to habitat of fungi, algae, bryophytes and tracheophytes are studied. Tracheophyte cell structure and physiology are also presented. Three class periods and one laboratory period per week.

205 Invertebrate Zoology
4 credits
Structural and functional adaptations of invertebrate animals studied in relation to their habitats and evolution. Lecture and laboratory.

210 Cell Biology
3 credits
Structure and function of cells are studied with emphasis on energetics, transport processes, biosynthesis, and cellular dynamics. Prerequisite, Biology 111. Corequisite, Chemistry 103.

211 Human Physiology
4 credits
A study of the functions of the human organism: digestion, circulation, respiration, excretion, nervous control, endocrine regulation, and muscle action. Prerequisites, Biology 111, Chemistry 116, 118. This course may not be counted toward a major in biology. Three class periods and one three-hour laboratory period per week.

230 Environmental Analysis
4 credits
A study of the methods of assessing environmental quality, with special emphasis upon freshwater habitats. The ecosystem is used in evaluating the effects of pollutants, both natural and cultural, on the environment. The laboratory incorporates field and laboratory work designed to develop an understanding of how physicochemical and biological parameters relate to actual field situations. Prerequisites, Biology 111, 112, and Chemistry 103, 104. Three class periods and one four-hour laboratory period per week.

303 Biological Models
3 credits
An applied modelling and simulation course which introduces the methodology of dynamic systems analysis. Student designed models will be based on problems in physiology, population biology, ecology, genetics and evolution. Prerequisite, Mathematics 117, three class periods per week.

304 Ecology
3 credits
A study of the interactions between organisms and their environment and among organisms of the same and other species. Emphasis is on organismal or physiological ecology, population and community ecology and ecosystems ecology. Prerequisite, Biology 112.

306 Ecology Laboratory
1 credit
Field studies of the structure and function of terrestrial ecosystems combined with laboratory experiments illustrating ecological principles. A laboratory course for students who have taken or are currently enrolled in Biology 304.

307 Microbiology
4 credits
A study of structure, metabolism, growth, and reproduction of microorganisms with emphasis on bacteria. Prerequisites, Biology 203, Chemistry 103 or 116 and 118.

309 Advanced Genetics—Human
3 credits
A course whose major focus is human genetics. The course extends the general principles learned in Biology 203. Prerequisite, Biology 203. Offered in alternate years.
311 Advanced Genetics—Molecular
3 credits
A course whose major focus is molecular genetics. The course extends the general principles learned in Biology 203. Prerequisite, Biology 203. Offered in alternate years.

315 Genetics Laboratory
1 credit
An experimental and experimental approach to the subject of genetics. Model systems (microorganisms, fungi, plants, invertebrates, human and animal cells in culture, and molecular structures) are studied. Students are expected to perform a guided experiment of their own design. Prerequisite, Biology 203.

316 Animal Physiology
4 credits
A study and analysis of functional processes in animals and the involvement of these processes in homeostatic regulation. Topics include osmotic and ionic regulation, excretion, respiration, circulation, muscles, nervous communication, and hormones. This course is designed for students majoring in biology. Prerequisites, Biology 112, Chemistry 103, 104; some knowledge of organic chemistry is recommended. Three class periods and one laboratory period per week.

321 Evolution
3 credits
The evidences, the mode, and the implications of organic evolution treated in such a manner as to emphasize the function of evolution as the greatest general unifying principle in biology. Special attention is paid to the many recent contributions of research to this field. Prerequisite, Biology 203 and at least twelve additional semester hours of biology above the freshman level.

323 Vertebrate Embryology
4 credits
A study of vertebrate morphogenesis, including structural and biochemical changes during development and the mechanisms which control developmental processes. Control, patterns, and the mechanisms of the morphogenetic movements are considered in depth. Prerequisite, Biology 112 or permission of the instructor. Three class periods and one laboratory period per week.

324 Comparative Anatomy of Vertebrates
4 credits
A study of vertebrate structure in relation to phylogeny, ontogeny, and function, emphasizing morphological adaptation for function. The laboratory investigation compares the detailed anatomy of a fish (shark), an amphibian (Necturus), and a mammal (cat). Prerequisite, Biology 112 or permission of the instructor. Two class periods and two laboratory periods per week.

326 Plant Physiology
3 credits
A study of the principal functions of higher plants with emphasis on intercellular processes including development, hormone action, photosynthesis, gas exchange, nutrient transport, and mineral nutrition. Prerequisite, Biology 204.

351; 352; 451; 452 Special Studies in Biology
0 to 3 credits
Directed individual study of various biological problems as the interest and previous preparation of the student may suggest. Work may be done on campus or off campus in a department sponsored program. Members of the department may be consulted about available options.

Business Administration (12)

See Economics and Business Administration
Chemistry (15)

Professors Herlocker (Department Chair), Cross, Jones, and R. H. Smith.

Areas of particular teaching interest: Professor Herlocker: preparation and properties of transition metal complexes; Professor Cross: solar energy conversion processes, photochemistry of biological processes, computer programming and graphics, and numerical analysis of physiochemical data; Professor Jones: computer applications to chemistry, chemical education, analytical and clinical chemistry; Professor Smith: studies in the mechanism of action of chemical carcinogens and the synthesis of cancer chemotherapeutic agents.

The offerings in chemistry are intended to provide the essential background for students electing a major in the subject to qualify for graduate study, government and industrial work, and secondary education. When the offerings are combined with the appropriate courses in biology, the student would be qualified for admission to medical, dental, veterinary, and optometry programs, as well as graduate programs in medicinal chemistry, clinical chemistry, biochemistry, environmental studies, pharmacy, pharmacology, and related fields. The program in chemistry meets the undergraduate professional standards of and is certified by the American Chemical Society.

Extensive use is made of off-campus internships and on-campus summer research assistantships to give students practical experience in their chosen profession.

Basic Major:

Required courses:
Chemistry 103, 104, 217, 218, 219, 307, 308, 415, 416, and at least one additional hour; Mathematics through 118, or the equivalent; Physics 101, 102.

Other Educational Options in Chemistry:
American Chemical Society Certified Chemistry Major, Biochemistry, Pre-Professional Curriculum for the Health Sciences, Industry, Teacher Certification Secondary (6–12).

103, 104 General Chemistry
4, 4 credits
A study of the fundamental laws and theories of chemistry. The first semester is concerned with a study of matter in its various forms, with emphasis on bonding and structure. The second semester is concerned with the reactions of matter, with emphasis on equilibrium. Prerequisite, Mathematics 107, which may be taken concurrently. Three class periods and one four-hour laboratory period per week.

115 Chemistry and Society
3 credits
Chemistry for the non-science major. The course (with or without laboratory) will help students develop a working knowledge of basic chemical concepts as applied to modern society, understand the historical progression of chemistry, understand the experimental method of probing things that cannot be seen in order to develop a mental picture of them, and distinguish scientific fact from fiction.

116 Introduction to General, Organic, and Biochemistry
3 credits
A study of the fundamental laws of chemistry, including atomic structure, chemical periodicity, reaction kinetics, equilibria, redox reactions, pH, and an introduction to organic and biochemistry covering nomenclature, reactions, and the main units of biochemistry (carbohydrates, proteins, lipids, and nucleic acids).
117 Chemistry and Society Laboratory
1 credit
The laboratory experiments are designed to augment the lecture in Chemistry 115 by developing an understanding of the experimental methods used to probe into things unseen and to answer questions asked by the experiment. Prerequisite or co-requisite, Chemistry 115.

118 Introduction to General, Organic, and Biochemistry Laboratory
1 credit
Laboratory techniques and experiments designed to augment the lecture in Chemistry 116. Prerequisite or co-requisite, Chemistry 116.

202 Chemistry of the Elements
3 credits
A study of the chemistry of the elements. Emphasis is on the important inorganic compounds, their laboratory and industrial preparations, and their reactions with elements and other compounds. Prerequisite, Chemistry 104. Offered in 1989–90 and alternate years.

210 Physical Chemistry for the Life Sciences
3 credits
An introduction to the elements of thermodynamics, quantum mechanics, and chemical dynamics of life processes. Prerequisites, Chemistry 104; Mathematics 117. Offered in 1988–89 and alternate years.

217, 218 Organic Chemistry
4, 4 credits
A systematic study of the compounds of carbon based upon functional reactivity with emphasis on the physical-chemical approach to reaction mechanisms. A coordinated laboratory incorporates classical techniques (recrystallization, distillation, and extraction) as well as selected analytical methods (chromatography and spectroscopy). Qualitative analysis of organic compounds comprises half of the second semester lab. Prerequisite, Chemistry 104. Three class periods and one four-hour laboratory period per week.

219 Quantitative Analysis
4 credits
Theory of titrimetric and gravimetric procedures; problems of and in sampling; statistical treatment of results for reliability; application and use of elementary procedures such as spectrophotometry (UV, IR, and Flame Emission), chromatography, and potentiometry. When possible the laboratory emphasizes clinical applications. Prerequisite, Chemistry 104. Three class periods and one four-hour laboratory period per week.

230 Environmental Analysis
See Biology 230.

307, 308 Physical Chemistry I, II
4, 4 credits
The laws of thermodynamics; equilibria; electrochemistry; chemical kinetics; introductory quantum and statistical mechanics. Sufficient computer programming is introduced in the laboratory to allow treatment and interpretation of laboratory data. Prerequisites, Physics 102, Mathematics 118, or permission of the instructor. Chemistry 219 must be taken prior to or concurrent with Chemistry 307. Three class periods and one four-hour laboratory period per week.

312 Biochemistry
3 credits
Structure and reactions of amino acids, carbohydrates, lipids and proteins; protein amino acid sequence determination and conformational protein structure; structure, rates, and mechanism of enzyme reactions; bioenergetics; membrane transport processes, electron transfer theories and oxidative phosphorylation; catabolic pathways, energetics and regulation of biomolecular degradation reactions; anabolic pathways and photosynthetic processes. Prerequisite, Chemistry 218.

318 Instrumental Techniques
4 credits
Theory and practice in obtaining chemical data with instruments with emphasis on the quantitative aspects. Studies include electrochemical techniques such as polarography, stripping analysis, amperometry, advanced chromatographic techniques, NMR, Mass Spectrometry, X-ray, Laser usage, and laboratory computer applications. Prerequisites, Chemistry 219, 307. Pre- or co-requisite, Chemistry 308. Two class periods and two three-hour laboratory periods per week.

326 Advanced Organic Chemistry
3 credits
A study of a variety of selected topics including ^13^C-NMR, photochemistry, molecular rearrangements, heterocyclic compounds, and some aspects of physical organic chemistry (kinetics and linear free energy relationships), with emphasis on the content and use of current literature. Prerequisite, Chemistry 218. Offered in 1988–89 and alternate years.
351; 352; 451; 452  Special Studies in Chemistry 0 to 3 credits
Directed literature study or laboratory research in special topics as the interest and preparation of the student and the chemistry faculty may suggest. This course is open primarily to students who are either chemistry majors or minors.

411  Chemical Physics 3 credits
Theoretical chemistry, quantum and statistical mechanics; spectroscopy; applications of the computer to theoretical calculations. Prerequisite, Chemistry 307. Juniors may be admitted by permission of the department. Offered in 1989–90 and alternate years.

412  Inorganic Chemistry 3 credits
A survey of topics which comprise the broad area of inorganic chemistry. The topics studied include atomic and molecular structure, elements of symmetry, acid-base theory, non-aqueous solvents, and structural and chemical behavior of metallic and non-metallic compounds. Prerequisites, Chemistry 218, 307. Juniors may be admitted by permission of the department. Offered in 1988–89 and alternate years.

415, 416  Chemistry Seminar 0, 1 credit
Presentation of laboratory or literature findings on current topics of chemical interest by students, faculty, and visiting lecturers. Required of all senior chemistry majors. Juniors and non-majors may be admitted by permission of the department.

Classics (14)

Assistant Professor D. Evergates

Areas of particular teaching interest: Professor Evergates: Greek and Roman history, literature, and archaeology. No major is offered in this field. A minor in Classics is available; see the Guidance Bulletin for those courses which are required.

201  Etymology: Greek and Latin Elements in English 3 credits
An introduction to the early sources of the English language, the course is designed to provide students with an efficient means of expanding their English vocabulary through familiarity with Greek and Latin roots, prefixes, suffixes, etc. Some technical, medical, and legal terminology is included. This course does not fulfill a language requirement. Offered in 1989–90 and alternate years.

202  (Greek and Roman Literature in Translation) 3 credits
A seminar on major themes, authors, and genres from the Greek and Roman world. Study of outstanding literary works of the Greeks and Romans in their original context, and their influence on Western culture. In 1988–89 the topic is Greek and Roman Comedy and Satire.

217  Classical Art and Archaeology 3 credits
A survey of the major sites and material remains of the ancient Greek and Roman worlds, including the history of outstanding archaeological discoveries and a reconstruction of the private, civic, and religious life of the Greeks and Romans through their architecture, sculpture and painting. Bronze Age through Roman Empire. Offered in 1988–89 and alternate years.
Communication and Theatre Arts (16)

Communication

Professor R. Sapora; Associate Professor Weinfeld; Assistant Professors Dillman, R. Miller and Presnell; Instructor Regis (Department Chair).

Areas of particular teaching interest: Professor Sapora: Film and Video Production, Linguistics, Mass Media; Professor Weinfeld: Speech Arts; Professor Dillman: Information Systems, Print Media; Professor Miller: Film History and Criticism, Speech Arts; Professor Presnell: History and Philosophy of Communication, Mass Media; Instructor Regis: Writing, Print Media.

Communication is an interdisciplinary major that treats the history, function, and effects of human communication from the earliest times through the appearance of printing to the advent of contemporary mass media. The major in communication prepares students for graduate programs in communication theory, film studies, journalism, and information systems; and for professional careers in film, video, and print media, journalism, advertising, information systems and other fields in which effective communication is essential.

Basic Major:

Required Courses:
Communication 100, 101, 201, 204, 401; English 208; nine hours from Communication 103, 209, English 203, 325, Theatre Arts 113, 328; three hours from English 306, Statistics 215, Computer Science 103, Theatre Arts 211; six hours from Communication 224 or 301 through 320.

Other Educational Options in Communication:
Concentrations in Film and Video Studies, Journalism and Publication, Information Systems; Minor in Communication; Dual Majors in Art and Communication, Theatre Arts and Communication, Political Science and Communication, Psychology and Communication; Track in General Systems Analysis.

100 Foundations of Communication
3 credits
Communication defined and described from a variety of perspectives: rhetorical, technological, linguistic, and cultural. An introduction, interdisciplinary in nature, to the study of communication.

101 History of Human Communication
3 credits
A study of human communication from the advent of speech through the development of writing and movable type to the widespread use of newspapers, film, radio, and television. Prerequisite, Communication 100.

103 Speech Arts
3 credits
An introductory course designed to prepare the student to meet a variety of public oral communication situations. The student concentrates on the practical application of basic principles and techniques of public speaking.

124 Film for Non-Majors
3 credits
An introduction to analysis and appreciation of the film. This course is intended for non-majors. Communication majors must complete Communication 204, and cannot receive credit for both courses.

201 Effects of the Mass Media
3 credits
A study of the social, political, psychological, economic, and esthetic effects of the major mass media: print, film, radio, and
television. An examination of these media to identify techniques of exposition and persuasion which enhance or detract from generally accepted humanistic values. Prerequisite, Communication 101.

204 Film Studies for Communication Majors
3 credits
A study of film history, aesthetics, and techniques of film analysis, tracing the process of film making from script to screen. Prerequisites, Major or minor in Communication, Communication 100, 101.

209 Basic Film and Video Tape Production
3 credits
An introduction to the design and production of film and video tape with major emphasis on scriptwriting, shooting on location, editing, and overall production planning. Prerequisite, Communication 101.

224 (Topics in Film History and Analysis)
3 credits
A study of major directors, works and ideas in the history of world cinema. Prerequisite, Communication 204 or permission of the instructor.

295; 296; 395; 396 Internships
1–3 credits
Opportunities for students to gain credit for workplace experience, on-campus and off.

301–320 (Special Topics in Communication)
3 credits
Intensive study of particular topics in the theory and practice of communication. Prerequisite, Senior standing in the department.

401 Senior Seminar
3 credits
A colloquium based on individual research projects relative to current issues or topics in communication. Prerequisite, Senior standing in the department.

451; 452 Special Studies in Communication
0 to 3 credits
Directed study for students who desire specialized work in areas of communication not detailed in the course offerings of the department. Prerequisite, Major in Communication, necessary courses to provide background for proposed study, and permission of the instructor.

214 Introduction to General Systems Theory
3 credits
An introduction to the theory of general systems with emphasis on problem description and analysis. Topics include the history and philosophy of General Systems Theory, the theory and practice of problem solving, data abstraction and modeling, and systems analysis techniques.

222 Sophomore Seminar in Systems Analysis
1 credit
A general review of the field of systems analysis. Assignments in English writing and computer programming ensure that students are acquainted with the levels of competency demanded of professionals in this discipline. Prerequisite, Computer Science 103, or permission of the instructor.

322 Junior Seminar in Systems in Analysis
1 credit
A review of the field of systems analysis with emphasis on current research and professional and graduate opportunities. Students give presentations which describe their proposed Senior projects. Prerequisite, Communication 222, or permission of the instructor.

422 Senior Project in Systems Analysis
1 credit
Under the direction of the instructor, each student undertakes the analysis and solution of the problem he or she presented in Junior seminar. Work begins in the fall term, and the final results are presented during the spring term. Prerequisite, Communication 322.

Theatre Arts

Associate Professors Weinfeld and Domser; Assistant Professor R. Miller

Areas of particular teaching interest: Professor Weinfeld: Directing, Theatre History and Dramatic Literature, Scriptwriting; Professor Domser: Design and Technical Production; Professor Miller: Acting.
The theatre arts program is a comprehensive study of theatre history and performance, of dramatic literature and criticism, performance and production skills. Because Western Maryland emphasizes learning theatre by doing theatre, a number of major faculty-directed productions and several student-directed productions are planned each year.

**Dual Majors in Theatre Arts-English and Theatre Arts-Communication**

**Required Courses:**

**Theatre Arts-English:** English 111, 112, 114; English 261 or 262; 12 hours from upper-level English courses; Comparative Literature 225, 226, 227; Theatre Arts 113, 119, 211; 6 hours from Theatre Arts 331–334; 3 hours from 328, 410; 3 hours from Art 109, History 105, 106.

**Theatre Arts-Communication:** Theatre Arts 113, 119, 211; 6 hours from Theatre Arts 331–334, or 328; Comparative Literature 225, 226, 227; Communication 100, 101, 201, 204, 209; 3 hours from Communication 301–320; Communication 401; 3 hours from English 203, 204; 6 hours of Internship from Theatre Arts or Communication.

**113 Acting**

3 credits

A course designed to develop in each student the physical, vocal, emotional, and interactive creativity necessary to imaginative theatrical performance.

**119 Theatre Appreciation**

3 credits

An introduction to analysis and appreciation. A detailed examination of plays from various ages and types of drama and the appreciation of live theatrical performances. Training in the analysis of dramatic structure, character, setting, mood, acting, and directing.

**211 Stagecraft**

3 credits

An introduction to the theory and practice of stagecraft for theatre, film, and video. Concentration on basic drafting, stage management, carpentry, rigging, and electronic skills.

**231–236 Theatre Practicum**

1 credit

An opportunity for students to develop skills in particular areas of theatre under close faculty supervision. (May be taken for credit a maximum of six times.)

**253; 254 Reading List**

1, 1 credit

A specialized and individualized group of readings of significant dramatic literature and criticism. The reading is done as independent study.

**328 Scriptwriting**

3 credits

The principles of scriptwriting through the analysis of scripts for stage, film, and television. The techniques and demands of scriptwriting are developed through the construction and composition of original scripts and adaptations.

**331–334 (Special Topics in Theatre)**

3 credits

Intensive study of particular topics in theatre, such as directing, oral interpretation, or design.

**353; 354; 453; 454 Special Studies in Theatre**

1 to 3 credits

Concentrated study in an area of interest to the individual student and of significance to the major's area of concentration. Projects are chosen and developed in consultation with a member of the department.

**410 Directed Studies in Theatre**

3 credits

A course enabling senior theatre majors to undertake an intensive investigation of acting, design, directing, or history and literature. Students choose their own area and work under the direction of the appropriate faculty member. Prerequisite, Senior standing.
Comparative Literature (17)

Professors Richwine (Director) and M. D. Palmer; Assistant Professor D. Evergates; Senior Lecturer N. B. Palmer.

119 Great Works of the Western World I
3 credits
Representative masterworks of European culture from ancient times through the Renaissance.

120 Great Works of the Western World II
3 credits
Representative masterworks of European culture from the Enlightenment to the present.

121 Masterpieces of French Literature
See Foreign Languages, French 121.

123 (German Literature in Translation)
See Foreign Languages, German 123.

125 (Studies in Hispanic Literature in Translation)
See Foreign Languages, Spanish 125.

201 Comparative Mythology
3 credits
A study of the myth-making process and of the major mythological types and themes.

202 (Greek and Roman Literature in Translation)
3 credits
A seminar on major themes, authors and genres from the Greek and Roman world. Study of outstanding literary works of the Greeks and Romans in their original context, and their influence on Western culture. In 1988–89 the topic is Greek and Roman Comedy and Satire.

208 The Bible as Literature
3 credits
A study of the King James translation of the Bible, its intrinsic value as literature and its influence on later British and American writers. For comparative purposes, the course will deal briefly with other ancient Near Eastern literature.

209 Modernization vs. Tradition: American and Japanese Fiction in the Twentieth Century
3 credits
A study of representative twentieth century novelists of Japan and the American South, with a focus on the conflict between tradition and modernization.

227 Contemporary Drama
3 credits
Theatre history and dramatic literature in the Western World from Realism to the present. Offered in alternate years.

231 Philosophy in Literature
See Philosophy 231.

242 The Faust Theme
3 credits
A survey of the Faust theme from its sixteenth century origins to the present day. Special emphasis is given to variations in the development of the theme and to the twentieth century concept of Faustian man. Offered on demand.

351; 352; 451; 452 Special Studies in Comparative Literature
0 to 3 credits
An opportunity for students to arrange programs of study that are not included in the regular course offerings in comparative literature.
Computer Science (19)

Professors Cross and Yedinak; Associate Professor Eshleman (Director of Academic Computing); Assistant Professor Dillman.

The dual major in computer science and mathematics provides a broad and solid foundation for a career in professional computing or for graduate study in computer science. Recent graduates have obtained positions as systems analysts, programmers, and computer specialists at private software companies, research and development firms, computer manufacturers, and government agencies.

Students in any discipline can prepare for computer related positions by completing a minor in computer science. Other options include computer science concentration within the business administration, economics, and psychology majors; an information systems concentration in communication, and the system analysis track within the communication major.

The academic computing facilities include two microcomputer labs (one equipped with Macintoshes in a classroom lab setting and the other housing IBM Personal System 2 microcomputers), a lab containing terminals connected to a PRIME minicomputer system, and additional microcomputers in various academic departments. The labs are open for students to access afternoons and evenings as use demands and laboratory consultants are available to provide assistance to users. Students also have access to a Macintosh word processing laboratory located in the English Department.

Computer Science/Mathematics Dual Major:

Required courses:
Computer Science 106, 210, 213, 301; three additional hours at the 200 level or above, and three hours of special studies; Mathematics 117, 118, 207, 218, 221, 323, one hour of Problems Seminar, one course chosen from 305, 316, 336, and 406, one course chosen from 324, 328, and 335.

102 Information Processing
3 credits
A study of the nature of information, its manufacture and use. Topics include data acquisition and organization, computers and modern "productivity tools" (e.g., spreadsheets, graphics packages, data base systems), artificial intelligence, and concerns of privacy, security, automation and ethics. This course does not meet the Basic Liberal Arts Subjects Quantitative Analysis requirement.

103 Programming with BASIC
3 credits
This course provides an introduction to computer programming using the programming language BASIC on a microcomputer system. Emphasis will be placed on studying the language and its application in problem solving. Students gain experience through a variety of programming projects ranging from numerically-oriented problems to ones with graphic output.

106 Structured Programming with Pascal
3 credits
An introduction to standard computer programming techniques including problem analysis, algorithm design, program coding, testing and documentation.

210 Introduction to Numerical Methods
3 credits
An introduction to numerical methods for solving problems from calculus and linear algebra including the solution of a single nonlinear equation, the solution of linear systems, interpolation and approximation, differentiation and integration, and
the solution of eigenvalue problems. Prerequisites, Computer Science 106 and Mathematics 218. Offered in alternate years.

213 Data Structures 3 credits
A study of the theory and application of computer data structures. Topics include stacks, queues, lists, trees and graphs; list processing techniques; sorting and searching; and dynamic storage allocation. Prerequisite, Computer Science 106.

251; 252; 351; 352; 451; 452 Special Studies in Computer Science 0 to 3 credits
Directed individual study of various advanced topics in Computer Science.

301 Assembly Language Programming and Computer Organization 3 credits
An introduction to the structure and organization of computers and to the use of machine language programming and assembly language programming. A microcomputer assembly language is studied in detail; however, concepts and techniques applicable to other computers are emphasized. Computer architecture, arithmetic and basic logic design are studied. Prerequisite, Computer Science 213. Offered in 1988–89 and alternate years.

303 Modeling and Simulation 3 credits
A study of the theoretical foundations of discrete-event modeling and simulation. Topics include: data abstraction and analysis, event definition and representation, list manipulation, random number generation, algorithm development, result verification and simulation languages. Some computer programming is required. Prerequisites, Computer Science 106 and Statistics 216.

309; 310 (Topics in Computer Science) 3, 3 credits
Studies of advanced topics in computer science such as operating systems, database management, automata theory, comparative programming languages, and file processing. Different topics are chosen each year based on students’ interests and needs. Prerequisite, permission of the instructor.

Cross-Cultural Studies (66)

Professor Zepp (Coordinator); Associate Professor Wu; Assistant Professor Alles; and faculty members from the departments involved.

No major is offered in this field.

101, 102 Asian Civilization 3, 3 credits
A general introduction to Asian civilization. The first semester’s focus is on China, the second semester on India. Each semester deals with the heritage from ancient times to the present and includes a study of the history, religion, art, social conditions, politics, and economics of the area.

108 Cultural Anthropology 3 credits
A study of culture, with material drawn from both primitive and complex societies.

113 Africa since 1800 3 credits
Africa at the dawn of the nineteenth century; the scramble for Africa and the establishment of colonial rule; the African reaction in the twentieth century.

119 East Asian Philosophy 3 credits
A survey of the cultural heritage of China and Japan, with emphasis on the philosophical presuppositions concerning man and nature. Schools of thought which will receive special attention include Confucianism, Taoism, Yin and Yang, Neo-Confucianism, Zen, and Shintoism.

120 Japan: The Land of Contrast 3 credits
A study of Japan’s synthesis of Eastern and Western cultures. The old and the new in philosophy, religion, literature, politics, and economics.

201 Comparative Mythology 3 credits
A study of the myth-making process and of the major mythological types and themes.
209 Modernization vs. Tradition: American and Japanese Fiction in the Twentieth Century
3 credits
A study of representative twentieth century novelists of Japan and the American South, with a focus on the conflict between tradition and modernization.

221 Gandhi and Tagore: Their Impact on Twentieth Century India
3 credits
The influence on modern India of the lives and thoughts of these two giants in politics and literature. Special attention is given to Gandhi's understanding of non-violence and to the vast and varied literary output of Rabindranath Tagore. A significant by-product may be a deeper understanding of the Hindu world-view.

223 Cultural History of Latin America
3 credits
Historical and contemporary culture of Latin America. Offered in alternate years.

228 Mysticism: East and West
3 credits
A study of the content and methodology of representative forms of mysticism from the following traditions: Zen (Buddhism), Yoga (Hinduism), Sufi (Islam), Hasidism (Judaism), Catholic and Protestant Christianity. Offered in 1988-89 and alternate years.

229 Arts of India, China, and Japan
3 credits
The development of painting, sculpture, and architecture in India, China, and Japan. Alternates with Cross-Cultural Studies 242.

242 Art and Culture of Islam
3 credits
An investigation of the architecture, painting and other arts of the Islamic world. Areas covered include the arts of Syria, Iran, Medieval Spain, North Africa, Central Asia and Moghul India. Alternates with Cross-Cultural Studies 229.

254 Prehistoric and Tribal Religions
3 credits
An examination of the myths and ideas, rituals, and institutions associated with the religious traditions of prehistoric peoples and contemporary tribal peoples of Africa, the Americas, and Australia-Oceania.

255 Religions of Asia
3 credits
A study in some detail of the major Asian religions: Hinduism, Buddhism, Confucianism, Taoism, and Shinto. Attention is paid to origins and historical development, beliefs, practices, and institutions.

256 Religions of the Ancient World
3 credits
A study in some detail of the religious traditions of the ancient Mediterranean and ancient Near East—e.g., Egypt, Mesopotamia, Iran, Greece—and the ancient New World—Maya, Aztec, and Inca. Attention is paid to historical development, beliefs, practices, and institutions.

261 Shamans, Priests, Prophets, and Founders
3 credits
A wide ranging study of religious leaders in a global context, including (but not limited to) such seminal figures as Moses, the Buddha, Jesus, and Muhammad. Uses methods of both sociology and religious studies.

302 Classical Indian Philosophy
3 credits
A study of the classical Indian tradition of philosophical thought, from its roots in the Vedas and Upanishads to its systematization in the six orthodox (astika) schools. Attention is also given to the "heterodox" views of the Buddhists, the Jains, and the "materialists."

305 Sacred Architecture
3 credits
An historical and systematic examination of both formal and symbolic aspects of structures built for religious purposes, along with their associated religious activities. Offered in alternate years.

306 Hindu Rituals and Ethics (karma and dharma)
3 credits
An intense look at the Hindu "path of action" in its many dimensions: rituals of the life, related notions of purity and pollution, and the relations between action and liberation. Offered in alternate years.

310 Politics of Developing Areas
3 credits
An examination of forces shaping the new nations and their problems of transition.

317 Communist Political Systems
3 credits
A study of the political systems in the communist world. The course focuses principally on the Soviet Union and The People's Republic of China, with reference to other communist countries.
Economic Development
3 credits
The theories of economic growth and development applied particularly to underdeveloped areas of the earth. The interrelationships of economic, political, sociological, historical, and technological factors in growth and development are examined.

Dramatic Art
See Communication and Theatre Arts.

Economics and Business Administration

Professors Law (Department Chair) and Seidel; Associate Professors Claycombe and Olsh; Assistant Professor Singer; Instructor Milstein; Lecturers Bornemann, Carter, Feldman, and Willis.

Areas of particular teaching interest: Professor Law: international economics, macroeconomics; Professor Seidel: money and banking, corporate finance; Professor Claycombe: industrial organization, managerial economics; Professor Olsh: microeconomics, history of economic thought; Professor Singer: accounting and taxation; Instructor Milstein: intermediate and managerial accounting.

Students major in this department to prepare for careers in business and finance; for careers in government such as economic analysis, administration, and foreign services; and, by completing graduate study in a university, for professional careers in law, business, and economics. A student may also prepare to teach social studies in public schools.

Economics (24)

Basic Major:

Required courses:
Economics 203, 204, 303, 320, 405, and a minimum of nine additional hours at 300–400 level; three hours of Mathematics; Statistics 215, 216; three hours from English 203, 208, 325, Communication 103 or Computer Science.

Other Educational Options in Economics:
Dual majors with Business Administration, a Foreign Language, Mathematics, or Political Science; Pre-Legal; Teacher Certification Secondary.

Passing the arithmetic section of the mathematics proficiency examination is prerequisite for Economics 101. Passing the arithmetic and algebra sections of the mathematics proficiency examination is prerequisite for all other economics courses.

Economics 203, 204 or permission of the instructor is prerequisite to all economics courses numbered 303 and above.
Introduction to Political Economy
3 credits
A course designed to introduce students to economic reasoning and its application in analyzing economic problems and institutions. This course is not open to students who have taken Economics 203. It is not normally taken by majors in economics or business administration.

Principles and Problems of Economics
3 credits
In the first semester, the study of basic economic problems of any society; the market system, prices, allocation of resources, and income distribution. The second semester includes the study of factors affecting national income and employment; money and banking; growth, recession, inflation; international economics; economic systems.

Microeconomic Theory
3 credits
The theory of demand, production and cost, and resource allocation in a market economy; the varieties of competitive conditions such as pure and perfect competition; monopoly, monopolistic competition, and oligopoly; the theory of factor pricing and income distribution in a free society.

International Economics
3 credits
Principles of international trade, exchange, and investment; problems of trade restriction, cartels, economic integration, balance of payments, multinational firms, underdeveloped areas of the world, commercial policies of countries of the world.

Money and Banking
3 credits
A study of the history of money and monetary policy, principles and structure of banking, monetary theory, and the international monetary system.

Public Finance
3 credits
Principles and problems of taxation; the theory, character, and trend of public expenditures; public choice; the sources and effects of public revenue and public indebtedness—national, state, and local.

Macroeconomic Theory
3 credits
A study of the theory of national income determination. Monetary and fiscal policies of government and their management for the purpose of price level and employment stabilization are examined. Projects in national income forecasting are undertaken.

Corporation Finance and Financial Management
3 credits
The management of business funds, with emphasis on the techniques of financial analysis, the financial environment in which firms operate, the sources and forms of external financing, and the allocation of funds to competing alternatives such as plant and equipment, working capital, and financial investment. Prerequisites, Business Administration 101 and Statistics 215, or permission of the instructor.

Managerial Economics
3 credits
The application of economic theory and quantitative methods for solving business problems. Emphasis is on analysis of demand, cost and profit under conditions of imperfect information and uncertainty. Topics include business pricing strategies and linear programming. Offered in 1988–89 and alternate years.

Economic Development
3 credits
The theories of economic growth and development applied particularly to underdeveloped areas of the earth. The interrelationship of economic, political, sociological, historical, and technological factors in growth and development are examined.

Industrial Organization and Public Policy
3 credits
Study of structure, conduct and performance of industry in the United States as they pertain to the goals and effects of public policy. Emphasis is on antitrust and regulation.

Reading List
1 credit
Open only to students declaring economics or business administration as a major. Reading is completed during the summer and tested by examination.

Special Studies in Economics
0 to 3 credits
Directed individual study of various economics problems as the interest and previous preparation of the student may suggest; conducted primarily for honor students. Other qualified students may be admitted with the consent of the department.

The History of Economic Thought
3 credits
The development of economic theory from ancient
times to the present; contributions of Greece, Rome, and the Middle Ages; major emphasis on mercantilism and nineteenth and twentieth century economic analysis.

452 Senior Thesis
1 to 3 credits
Directed individual research and writing. Open only to economics majors. Honors students are normally expected to register for three semester hours.

453, 454 Economics and Business Administration Colloquium
1, 1 credit
Readings and group discussion. Significant works in economics and business administration are read and analyzed. This course is open to all senior economics majors.

Business Administration (12)

Basic Major:

Required courses:
Business Administration 101, 102; Economics 203, 204, 303, 320; Statistics 215, 216; three hours of mathematics; three hours from Economics 304, 310, 319, 326, 327; three hours from Business Administration 209, 211, 225, 323, 324; three hours from Business Administration 205, 305, 316, 325; three hours from English 203, 208, 325 or Communication 103; an additional three-hour elective course in business administration, economics, or computer science.

101, 102 Principles of Accounting
3, 3 credits
First semester: fundamental principles of accounting with emphasis on the preparation and interpretation of financial statements. Attention is given to the collection and reporting of pertinent information for creditors, management, and investors. The second semester includes the preparation of data for internal management purposes; the collection, presentation, and interpretation of information for the purposes of decision-making, cost control, and managerial planning. Business Administration 101 must be taken before Business Administration 102. Passing the arithmetic section of the mathematics proficiency examination is prerequisite for Business Administration 101.

201, 202 Intermediate Accounting
3, 3 credits

206 Business Law
3 credits
The study of the basic law of contracts with emphasis on agency, secured transactions, employer-employee relationships, partnerships, corporations, and selected other topics. Offered in 1988-89 and alternate years.

209 Principles of Marketing
3 credits
This is a course designed to address fundamental marketing principles, problems and practices. Particular emphasis will be given to the sales function—the link that adjusts the organization's objectives and output to the ever changing needs of the marketplace. Students will gain insight to the marketing and sales disciplines through participation in case study analyses and mock sales presentations.
210 Ethics and Business
3 credits
A consideration of some of the major ethical issues in business; the profit motive and the public good, social responsibility of corporations, environmental concerns, consumer and employee relations, the role of the state, advertising practices, conflict of interest and of obligation, and hiring practices. Offered in 1988–9 and alternate years.

211 Cost Accounting
3 credits
The study of manufacturing costs under job order, process and standard cost accounting systems. Includes variance analysis, budgeting, and direct and absorption costing. Prerequisites, Business Administration 101, 102. Offered in 1989–90 and alternate years.

212 Tax Accounting
3 credits
Theoretical and practical analysis of federal taxation under the current Internal Revenue Code as it relates to individuals. Includes preparation of federal tax forms. Prerequisites, Business Administration 101, 102.

213 Auditing
3 credits
A basic study of the standards and procedures followed in the audit of financial statements. Prerequisites, Business Administration 101, 102. Suggested for Accounting minors only. Offered in 1988–89 and alternate years.

215 Managerial Accounting
3 credits
A course emphasizing the role of accounting information in management decision making. Particular emphasis on internal planning and control. Includes such topics as budgeting, cost behavior and allocation, and tax planning. Prerequisites, Business Administration 101, 102. Offered in 1989–90 and alternate years.

305 Public Administration
3 credits
An examination of the nature and development of public administration in the United States with attention to policies of organization, management, personnel, budgeting, forms of administrative responsibility, and governmental services.

316 Complex Organizations
3 credits
A study of complex business, industrial, and governmental organizations as operating social systems; emphasis upon patterns of relationships within these organizations and the nature of relationships between large scale organizations and society. Offered in 1988–89 and alternate years.

295; 296; 395; 396 Business Internships
3, 3, 3, 3 credits
A supervised work study program designed to provide students with practical job experience in business and the opportunity to integrate theory and practice in the field. Interns are placed with firms in the Westminster/Baltimore/Washington areas.

335; 336 Business Seminar
1, 1 credit
A supervised work-study program covering selected topics in business administration such as marketing, personnel, finance, production, and taxes. This weekly seminar session is enhanced by practical field experience. The course Field Experience in Business Administration (337; 338) must be taken concurrently with the Business Seminar.
Field Experience in Business Administration

I, 1 credit

Students obtain practical on-the-job experience in the field of business administration by acting as advisers to a company in the Carroll County Junior Achievement program. All aspects of business operation from incorporation to liquidation are covered. Prerequisite: Business Administration 335, 336 taken concurrently, or permission of the instructor.

Special Studies in Business Administration

0 to 3 credits

Directed individual study of various business administration problems as the interest and previous preparation of the student may suggest; conducted primarily for honor students. Other qualified students may be admitted with the consent of the department.

Senior Thesis

1 to 3 credits

Directed individual research and writing. Open only to business administration majors. Honors students are normally expected to register for three semester hours.

Economics and Business Administration Colloquium

1, 1 credit

Readings and group discussions. Significant works in economics and business administration are read and analyzed. This course is open to all business administration majors.

Education (27)

Professors Bowlsbey, Coley, Prickett and Rabush; Associate Professors Denman-West and Fennell (Department Chair); Assistant Professors Behling, and Wolfe.

Areas of particular teaching interest: Professor Bowlsbey: administration, English education; Professor Coley: diagnosis and remediation of reading disabilities, developmental reading; Professor Prickett: deaf education and sign language; Professor Rabush: exceptional children, language development; Professor Denman-West: school librarianship, children’s and young adult literature; Professor Fennell: curriculum, elementary school mathematics; Professor Behling: educational administration; Professor Wolfe: counselor education, psychology of teaching.

No major is offered in this field. The student in education majors in a subject which is an approved teaching field, and may meet certification requirements in areas other than the major. Programs have been approved by the State of Maryland for elementary teacher education and the following secondary teaching fields: art, biology, chemistry, English, French, German, mathematics, physical education, physics, social studies, and Spanish. The physical education program offers a K-12 certification option. A reciprocity agreement provides certification in over 35 other states; a list is available in the Education Office.

104 Learning: Affective and Cognitive

3 credits

An overview of public education. This introductory education course includes identification of pupil characteristics at the elementary, middle, and high school levels. Topics include the recognition of individual differences and their effect on student behavior. Reinforcement, motivation, and teacher's role in mainstreaming, communication skills, and professional ethics are also examined.

205 Instructional Planning

3 credits

Studies the planning process in detail. Initial diagnosis of entering behavior, construction of plans with appropriate objectives and techniques, study of the cognitive, affective and psychomotor domains and their use in task analysis, planning, and evaluation are studied. Methods of pupil assessment and interpreting pupil progress complete the planning-implementation-evaluation cycle. Competencies in instructional media, and interaction system review are also a course component.
Students should plan to spend approximately two hours per week in the public schools.

206 Elementary Methods: Language Arts/Social Studies 3 credits
Trends and techniques in language arts and social science instruction at the elementary level. Emphasis is placed on relating literature, reading, and the social studies. Prerequisites, Education 104 and 205. Participation in the public schools, approximately two hours per week.

207 Creative Experiences in the Elementary School 3 credits
A course for prospective elementary teachers emphasizing the development of personal skills and knowledge in the creative application of art, music, and drama as a dimension of elementary classroom instruction. Theoretical and practical examples of integrating literature, drama, dance, music, arts, and crafts are studied. Prerequisites, Education 104 and 205.

308 Reading Lab 3 credits
A study of the reading process as it relates to the elementary school child, including the skills of reading and the basic techniques commonly used to teach reading in the elementary school. Special attention is given to the diagnostic/prescriptive role of the teacher in the reading situation. Students teach short reading lessons to small groups of elementary students in a supervised setting. Prerequisites, Education 104, 205, and 206.

322 Elementary Methods: Science/Mathematics 3 credits
Current trends in mathematics and science for the elementary school level examined with an emphasis on the student’s ability to diagnose skill needs in these two content areas. Students acquire familiarity with a variety of teaching techniques and commercially available materials in these two areas so that they may prescribe effective individualization strategies. Prerequisites, Mathematics 141, Education 104 and 205. Participation in the public schools, approximately two hours per week.

341-350 Implementing Instructional Plans (Secondary Methods) 3 credits
An in-depth study of specific methods for the student’s teaching field, classroom management techniques applicable to the discipline, and varied behavioral management strategies including affective concepts. Prerequisites, Education 104 and 205. Three class periods a week and participation and/or microteaching in the public schools.

341 English
342 Art
343 Foreign Language
344 Mathematics
345 Social Studies
346 Music/Instrumental

348 Physical Education
350 Science

404 Reading in the Content Areas 2 credits
The teaching of reading for all content areas with special emphasis on the use of reading techniques to meet individual and group needs. Practical applications are concurrent with student teaching.

406 Classroom Adaptations: Management, Special Populations 2 credits
A study of classroom management strategies. Implications and applications of PL 94-142, The Education for all Handicapped Children Act. Special populations covered include handicapped, gifted, multicultural and ethnic groups. Practical applications are concurrent with student teaching.

410 Student Teaching: Secondary (grades 7-12 Certification Programs) 8 credits
An internship teaching situation in the public schools; experiences proceed from introductory participation to the assumption of a full teaching assignment with all related planning responsibilities and the extracurricular involvements of the professional teacher. Prerequisites, Education 205 and permission of the Education Department. There is an extra tuition fee for this course.
415-416 Student Teaching—Elementary (grades 1-6 Certification Programs)  
8 credits

415 Student Teaching—Primary  
4 credits
An internship teaching at the primary level of the elementary schools. Experiences proceed from introductory participation to the assumption of a full teaching assignment with all related planning responsibilities and the extra-curricular involvements of the professional teacher. Prerequisites, Education 206, 207, 322, and permission of the Education Department. There is an extra tuition fee for this course.

416 Student Teaching—Intermediate  
4 credits
An internship teaching at the intermediate level of the elementary schools. Experiences proceed from introductory participation to the assumption of a full teaching assignment with all related planning responsibilities and the extra-curricular involvements of the professional teacher. Prerequisites, Education 206, 207, 322, and permission of the Education Department. There is an extra tuition fee for this course.

419-420 Student Teaching—Elementary-Secondary  
(grades K-12 Certification Programs)  
8 credits

419 Student Teaching—Elementary  
4 credits
An internship teaching at the elementary level of the public schools. Experiences proceed from introductory participation to the assumption of a full teaching assignment with all related planning responsibilities and the extra-curricular involvements of the professional teacher. Prerequisites, Education 206, 207, 322, and permission of the Education Department. There is an extra tuition fee for this course.

420 Student Teaching—Secondary  
4 credits
An internship teaching at the secondary level of the public schools. Experiences proceed from introductory participation to the assumption of a full teaching assignment with all related planning responsibilities and the extra-curricular involvements of the professional teacher. Prerequisites, Education 204, 206, the appropriate Methods course, and permission of the Education Department. There is an extra tuition fee for this course.

Undergraduate Courses in the Education of the Deaf

Western Maryland College and the Maryland School for the Deaf in Frederick, Maryland have developed a nationally recognized program for training students to teach the deaf. This is the only such program in the State of Maryland.

While there are undergraduate semester hours of work in this field available, full certification in accordance with standards set by the Council on Education of the Deaf follows completion of the Master of Education program in this field. This program is also available at Western Maryland College. Undergraduates are welcome to sample the offerings in sign language. Signed English (Education 121) is especially designed for such a purpose.

A twenty-one hour interpreter training program is available at the undergraduate level.

Students interested in any of the Western Maryland College programs in deafness should contact the coordinator.

121 Signed English  
1 credit
A comprehensive course including basic signs commonly used by the average deaf person. Particular concentration is placed on comprehensive communication between two or more persons in sign language.

122 American Sign Language  
1 credit
A comprehensive course emphasizing the learning of American Sign Language, but also including idiomatic signs used commonly by the deaf.

129 Introduction to Interpreting  
1 credit
This course provides students with a knowledge of interpreting ethics, the role of the interpreter, and the solving of problems that may arise in interpreting.

130 Introduction to Deafness  
3 credits
An introduction to the field of deafness. The history of Education of the Deaf, psychological aspects of deafness, and audiology will be discussed. Students become familiar with various agen-
cies which provide services to the hearing impaired. While not a prerequisite, this course provides good background for Psychology 311.

133 Fingerspelling
1 credit
A course designed to enhance skills in using and reading fingerspelling effectively. Basic principles are covered, with emphasis upon practice in a laboratory setting.

134 Intermediate Sign Language
3 credits
Advanced training in the skills of manual communication. Prerequisites, Education 121, 122, and 133.

135 Advanced Sign Language
3 credits
A comprehensive study of basic sign language idioms and colloquialisms in conversational signs. Prerequisite, Education 134.

137 Interpreting for the Hearing Impaired II
3 credits
An extension of the content described in Education 136. In addition, students are exposed to local and regional agencies serving deaf persons in the areas of social welfare, vocational rehabilitation, medicine, law enforcement, religion, employment, education, and mental health. Emphasis in this course is on practical applications of material learned. The student uses and refines his or her interpreting skills in simulated situations as courtroom interpreting, and similar work at social welfare, vocational, rehabilitation, mental health, medical, religious, and other agencies. Telephone interpreting, platform interpreting, interpreting on television, are also simulated. Prerequisite, Education 136.

139 Sign to Voice Interpreting
3 credits
A study of the principles and problems of interpreting the manual, oral, and written communications of deaf person(s) into the spoken or written English equivalents. Prerequisite, Education 134.

141 Braille Transcription
3 credits
A course designed for the instruction of professional persons in the rehabilitation or education of the blind and deaf-blind. The history of braille, training in the use of the Perkins Brailler, familiarization with the use of the slate and stylus, and the rules for transcription of literary braille are presented in fourteen lessons. The course covers grade one and grade two braille.

311 Psychology of Deafness and Profound Hearing Loss
See Psychology 311.

English (30)

Professors Richwine (Department Chair), Chambers, M.D. Palmer, Panek, Phillips, R. Sapora and Stevens; Associate Professor Mangan; Instructor Regis; Senior Lecturers N.B. Palmer and C. Sapora; Lecturers McMahon and Pecoraro.

Areas of particular teaching interest: Professor Richwine: twentieth century American and British literature; Professor Palmer: European literature, writing; Professor Panek: Renaissance literature, popular fiction; Professor Phillips: colonial and nineteenth century American literature; Professor Sapora: Medieval literature, linguistics, literary theory; Professor Stevens: eighteenth and nineteenth century British literature, the twentieth century novel; Professor Mangan: creative writing, American literature, women’s literature; Instructor Regis: basic writing, advanced composition.
Study of our language and literature offers essential liberal arts education which students may use in many ways. Graduates with the English major are pursuing careers in journalism, law, business, social work, and government service. A number have entered theological seminaries and schools of library science. Many teach in the public school system; others, after graduate work, join college faculties. Several students combine English with another subject in a dual major.

**Basic Major:**

**Required courses:**
English, at least thirty hours distributed as follows: 111, 112, 113, 114, 400; nine hours of Period Studies, including at least three from 230, 231, 232; six hours of Major Figures; Comparative Literature, six hours, including at least three from 119, 120; History 105, 106.

**Desirable electives:**
Philosophy, six hours; Comparative Literature 225, 226, or 227.

**Other Educational Options in English:**
Dual majors with American Studies, Communication, Theatre, Political Science, or History; Teacher Certification Elementary (K-6) Secondary (5-12).

**English 101, 102 or 103 or permission of the instructor is prerequisite to all other English courses.**

### Writing and Linguistics

**001 Writing Center**
0 credit
A tutorial in composition for upperclassmen whose proficiency in writing is beneath standards acceptable to the college. Admission is usually by referral. The activities and the length of the tutorial varies with each student.

**101, 102 Composition and Reading**
3, 3 credits
Instruction in how to write clear, correct, and effective expository prose; practice in careful, analytical reading of significant literature; training in research techniques. Completion of these courses with acceptable writing competence satisfies the college requirement in composition.

**103 Intensive Composition and Reading**
3 credits
A one-semester course including concentrated practice in expository writing and training in research techniques; critical analysis of significant literature. Open only to those students selected by the department. Completion of this course with acceptable writing competence satisfies the college requirement in composition.

**203 Introduction to Journalism**
3 credits
A workshop in news and feature story writing and editing involving intensive writing and analysis of current newspaper techniques and ethics.

**204 Journalism II**
3 credits
An intensive writing laboratory designed for students who have mastered the fundamentals of journalistic writing and wish to develop advanced skills in various formats, such as the feature, editorial, and column. Selected articles from this class will be recommended for publication in the campus newspaper. Prerequisite, English 203.

**206 Creative Writing—Poetry**
3 credits
A workshop in poetry which focuses on the discussion of student writing and the reading of works by contemporary poets.

**207 Creative Writing—Fiction**
3 credits
A workshop in short fiction writing. Class discussion focuses on student writing and stories by recognized contemporary authors.

**208 Advanced Composition**
3 credits
Advanced instruction and practice in writing graceful and vigorous prose, with
emphasis on analysis and argument. Attention is given to the elements of rhetoric and to the practical problems of grammar and usage.

306 Approaches to the Study of Language 3 credits
An introduction to the principles and methods of linguistics, a survey of the history of the linguistic enterprise (including the application of linguistic findings to teaching in the schools), and a linguistic analysis of the history of the English language.

325 Technical Writing 3 credits
A workshop in technical writing with assignments based primarily on topics from the individual student's field of major interest. Focus is on objective writing and editing to communicate technical material meaningfully to the general reader.

Surveys

111 British Literature I 3 credits
A study of the masterworks of English literature from the Anglo-Saxon era to the dawn of the Romantic era. In addition to the anonymous poets of Beowulf and Sir Gawain and the Green Knight, the major figures included are Chaucer, Spenser, Shakespeare, Donne, Marlowe, Milton, Swift, Pope, and Johnson.

112 British Literature II 3 credits
A study of the major literary figures of the English Romantic and Victorian movements, and of significant twentieth century writers. Among those discussed are Wordsworth, Byron, Shelley, Keats, Tennyson, Browning, Arnold, Dickens, Hardy, Shaw, Yeats, Conrad, and Eliot.

113 American Literature I 3 credits
Special emphasis on the works of Bradford, Franklin, Cooper, Poe, Hawthorne, Emerson, Thoreau, Melville, and Whitman, as well as on the development of significant themes.

114 American Literature II 3 credits
A survey of the major works of Twain, Dickinson, The Realists and Naturalists, through the Lost Generation to selected major contemporary writers.

Period Studies

230 Literature of Medieval England: Beowulf to 1530 3 credits
A survey of the major works of English literature from the seventh to the early sixteenth century, with attention given to the artistry of the works and to the ways in which the works reflect the cultures from which they arise.

231 Literature of the Renaissance 3 credits
The poetry and prose of England from 1530 to 1660 with attention to the development of a national literature, to the discovery of prose poetic forms, and to recurring themes. Among others, the works of Thomas More, Sidney, Bunyan, Wyatt, Spenser, Donne, and Milton are considered.

232 The Age of Reason 3 credits
A study of Restoration and eighteenth century British literature with primary emphasis on the literature of Reason and neo-classical responses to the theory of the rational man.

233 The Romantic Age 3 credits
A study of both American and British Romanticism, emphasizing the major literary figures in their cultural milieu.

234 The World of the Victorians 3 credits
A study of British prose and poetry of the era of Queen Victoria, concentrating on Tennyson, Browning, Arnold, Dickens, Eliot, Meredith, and Hardy with especial emphasis on their aesthetic responses to social forces and evolutionary change.

235 The Rise of Realism: American Literature, 1860–1914 3 credits
Readings in American fiction and poetry that mark the rise of realism and naturalism, including the works of Dickinson, Twain, Howells, James, Crane, Frost, and Dreiser.

236 British Literature: 1880–1920 3 credits
A study of British literature from 1880–1920, with emphasis on the four main literary genres—novel, poetry, drama, and short story—in the transitional period that marks the decline of high Victorianism and the emergence of the post-World War I era. Focus is on the literature in its cultural context as well as literature as art. Among the writers examined are Conrad, Galsworthy, Hardy, Housman, Joyce, Kipling, and Shaw.
237 The Modern Age: British and American Literature: 1920 to present
3 credits
A study of modern experiments in fiction, drama, and poetry, including the works of Joyce, Faulkner, Lawrence, Hemingway, Eliot, Pound, Yeats, Auden, and several more recent authors.

Major Figures and Groups

260 Chaucer
3 credits
A reading of The Canterbury Tales, Troilus and Criseyde, and the minor poems, with some attention given to the influence of continental authors on Chaucer’s works. Offered in 1989–90.

261 Shakespeare I
3 credits
Study of Shakespeare’s early plays and poetry with emphasis on the sonnets and major plays including Romeo and Juliet, Midsummer Night’s Dream, and Henry IV. Offered in 1989–90.

262 Shakespeare II
3 credits
Study of Shakespeare’s problem plays, mature tragedies and romances with emphasis on major plays including Hamlet, King Lear, and The Tempest. Offered in 1988–89.

263; 264 (Major Figures and Groups)
3, 3 credits
An intensive study of the work of a major British or American writer or of small related groups of writers. In 1988–89 the topics are Hawthorne/James and Hemingway/Fitzgerald.

265; 266 (Major Themes in British and American Literature)
3 credits
The examination of an idea, myth, plot, question, or area of concern with consideration of how different ages and individuals treat the same theme. In 1988–89 the topic is Women’s Literature.

281 (Fiction)
3 credits
The study of British and American fiction, either the novel or the short story as a type of literary expression. Offered in 1988–89.

282 (Poetry)
3 credits
The study of British and American poetry as a type of literary expression. Offered in 1989–90.

284 (Drama)
3 credits
The study of British and American drama as a type of literary expression. Offered in 1989–90.

285; 286 (Major Themes in British and American Literature)
3 credits
The examination of an idea, myth, plot, question, or area of concern with consideration of how different ages and individuals treat the same theme. In 1988–89 the topic is Women’s Literature.

400 Senior Seminar
3 credits
Designed for senior English majors; a different theme, genre, or topic each semester, emphasis on the techniques and methods of literary criticism.

451; 452 Special Studies in English
0 to 3 credits
Directed study planned and conducted with reference to the needs of those students who are candidates for departmental honors in English or who have designed an independent study project or who have arranged an approved internship.

Foreign Languages

Associate Professors Deveny (Department Chair) and Williams; Assistant Professors Büttner, D. Evergates, and Zauche; Instructor Rotolo; Lecturers Fick and Valiela.

Areas of particular teaching interest: Professor Deveny: medieval and Golden Age Spanish literature; Professor Williams: nineteenth and twentieth century peninsular literature; Professor Büttner: twentieth century German studies; Professor Zauche: German studies, 1500–1700; Instructor Rotolo: nineteenth and twentieth century French literature.
Recognizing that the study of language is essential to liberal arts education, the department is committed to the goal of providing a sequence of courses leading to competence in a foreign language. Concentration in a language may take the form of a major, thus preparing a student for graduate work in the field, or, combined with education courses for secondary school teaching. Competence in a foreign language is increasingly important in other fields as well, and provides a desirable dual major in combination with areas such as economics/business administration, history, political science, and social work.

Several opportunities to enrich the academic program are provided both on and off campus. Students are encouraged to explore the opportunities for affinity housing, to participate in language clubs, and to take advantage of the many special events which focus on foreign cultures. The department also urges travel and study abroad for all students majoring in foreign languages. The January Term trips regularly provide short-term study tours of major French, Spanish, and German speaking countries. Western Maryland also grants full academic credit for a number of fine programs which sponsor a summer, a semester, or a year abroad. Information on such programs is available in the Office of Academic Affairs.

A student may elect a major in French (33), German (42), or Spanish (93); no major is offered in Greek (45), Latin (51), or Russian (87).

**Basic French Major**

*Required courses:*
Thirty-six total hours including, French 101, 102, 131, 201, 202, 301, 302 and 401. The total number of hours may be reduced by placement.

**Basic German Major**

*Required courses:*
Thirty-six total hours including, German 101, 102, 131, 201, 202, 301, 302, 401. The total number of hours may be reduced by placement.

**Basic Spanish Major**

*Required courses:*
Thirty-six total hours including, Spanish 101, 102, 131 and/or 223, 201, 202, 301, 302, 401. The total number of hours may be reduced by placement.

**Other Educational Options in Foreign Languages:**
Dual majors with another language, Economics, History, or Political Science; Teacher Certification Secondary (7–12). The department also offers minors in each of the major languages. A minor consists of twenty-four hours, reducible to twelve by testing. Eight of the hours beyond the intermediate level must be taken in the target language.

**French (33)**

*101, 102 Intensive French 4, 4 credits*

The acquisition of oral/aural skills through intensive exposure to French used both as the medium of communication and the object of study. It enables the student accurately to express his or her daily experiences in spoken and written French, and to understand communications of a moderate level of difficulty.
121 Masterpieces of French Literature
4 credits
An introductory survey of French literature, focusing on several works chosen for their characteristically French spirit with the aim of developing a coherent idea of the French literary tradition. The course is taught in English.

131 Culture of France
4 credits
A study of influences that have molded France through the ages, with insights into all aspects of French culture (geography, history, the arts, folklife, gastronomy, etc.) as reflected in the main provinces (Ile-de-France, Normandy, Burgundy, Brittany, Provence, the Basque Country). This course is taught in English.

German (42)

101, 102 Intensive German
4,4 credits
The acquisition of oral/aural skills through intensive exposure to German used both as the medium of communication and the object of study. It enables the student accurately to express his or her daily experiences in spoken and written German, and to understand communications of a moderate level of difficulty.

123 German Literature in English Translation
4 credits
Themes, topics, and periods in German literature including the Age of Hohenstaufen and the German Novel of the Twentieth Century.

201 Intermediate French
4 credits
Review and expansion of grammar; oral and written practice in language; cultural studies and brief literary readings. Prerequisite, French 102 or the equivalent.

202 French Composition/Conversation
4 credits
Intensive practice in writing, comprehending and speaking the French language. Prerequisite, French 201 or the equivalent.

301, 302 Introduction to the Study of French Literature
4, 4 credits
A survey of literary history read through a detailed analysis of major representative works. The first semester covers the Medieval period through the Enlightenment; the second semester covers Romanticism to the present. Prerequisite, French 201 or the equivalent.

401, 402 Advanced Literary Studies
4, 4 credits
Themes and topics related to periods, genres, and major figures including:
- a. La littérature de la Renaissance
- b. La littérature et la Pensée du 20 ème Siècle
- c. Le Théâtre Classique
- d. Le Siècle des Lumières
- e. Le Realisme, le Naturalisme, et le Symbolisme
Prerequisites, French 301, 302.

453; 454 Etudes Indépendantes
0 to 3 credits
Independent study in an area selected to meet the student’s interest or need as determined by background and the mutual agreement of student and instructor. Admission to the course requires the permission of the department.

131 Culture of Germany
4 credits
A study of diverse aspects of the culture and history of Germany and the contributions of German culture to Western Society. This course is taught in English.

201 Intermediate German
4 credits
Review and expansion of grammar; oral and written practice in language; cultural studies and brief literary readings. Prerequisite, German 102 or the equivalent.

202 German Composition/Conversation
4 credits
Intensive practice in writing, comprehending, and speaking the German language. Prerequisite, German 201 or the equivalent.

301, 302 Introduction to the Study of German Literature
4, 4 credits
A survey of literary history read through a detailed analysis of major representative works. The first semester covers the Medieval period through the Enlightenment; the second semester covers Romanticism to the present. Prerequisite, German 201 or the equivalent.
401, 402 Advanced Literary Studies
4, 4 credits
Themes and topics related to periods, genres, and major figures including:
a. Die deutsche Lyrik
b. Goethe und Schiller
c. Die Novelle des 19ten Jahrhunderts
d. Die Romantik
e. Reformation, Renaissance, Humanismus
f. Mann, Kafka, Hesse
Prerequisites, German 301, 302.

Greek (45)

107, 108 Elementary Greek
3, 3 credits
Fundamentals of grammar; basic vocabulary; reading and composition; Greek culture. Offered in 1988–89 and alternate years.

211, 212 Topics in Intermediate Greek
3, 3 credits
Study of major authors or genres in ancient Greek literature. Continued work in vocabulary, syntax and expand sight vocabulary and promote rapid reading skills; continued work in grammar and syntax. Critical analysis of prose and verse forms. Rotating topics will include Homer, Greek drama, Plato, Greek New Testament. Prerequisite, Greek 108 or equivalent.

Latin (51)

107, 108 Elementary Latin
3, 3 credits
Fundamentals of grammar; basic vocabulary; reading and composition; Roman culture.

211, 212 Topics in Intermediate Latin
3, 3 credits
Study of major authors or genres in the original language. Extensive reading to rotate topics will include Ovid as Mythmaker; Lyric Poetry-Catullus and Horace; Roman Comedy; Tacitus and the Traditions of Roman History; The Roman Novel-Petronius and Apuleius. Prerequisite, Latin 108 or equivalent.

302 Advanced Latin: Seminar on Vergil
3 credits
A study of the forms, sources, and themes of Vergil’s poetry and his influence on Latin and later western literature. Readings from Eclogues, Georgics, Aenid. Prerequisite, Intermediate Latin or permission of the instructor.

Russian (87)

107, 108 Elementary Russian
3, 3 credits
Fundamentals of grammar and pronunciation; basic vocabulary; reading, speaking, and writing practice. Offered on demand.

453; 454 Forschungsjahr
0 to 3 credits
Independent study in an area selected to meet the student’s interest or need as determined by background and the mutual agreement of student and instructor. Admission to the course requires the permission of the department.
Spanish (93)

101, 102  Intensive Spanish  
4, 4 credits  
The acquisition of oral/aural skills through intensive exposure to Spanish used both as the medium of communication and the object of study. It enables the student accurately to express his or her daily experiences in spoken and written Spanish, and to understand communications of a moderate level of difficulty.

125  Studies in Hispanic Literature in English Translation  
4 credits  
Spanish and Spanish American literature in translation. The topic changes each year.

131  Culture of Spain  
4 credits  
A study of diverse aspects of the culture and history of Spain and the contributions of Hispanic culture to Western society. This course is taught in English.

201  Intermediate Spanish  
4 credits  
Review and expansion of grammar; oral and written practice in language; cultural studies and brief literary readings. Prerequisite, Spanish 102 or the equivalent.

202  Spanish Composition/Conversation  
4 credits  
Intensive practice in writing, comprehending and speaking the Spanish language. Prerequisite, Spanish 201 or the equivalent.

223  Cultural History of Latin America  
3 credits  
Historical and contemporary culture of Latin America. This course is taught in English.

301, 302  Introduction to the Study of Spanish Literature  
4, 4 credits  
A survey of literary history read through a detailed analysis of major representative works. The first semester covers the Medieval period through the Enlightenment; the second semester covers Romanticism to the present. Prerequisite Spanish 201 or the equivalent.

401, 402  Advanced Literary Studies  
4, 4 credits  
Themes and topics related to periods, genres, and major figures including:  
a. Literatura española del siglo XIX  
b. Poesía y prosa de la Postguerra  
c. Literatura española del siglo XX  
d. Literatura hispanoamericana del siglo XX  
e. Literatura medieval española  
f. Cervantes  
g. Poesía y prosa del Siglo de Oro  
h. Teatro español del Siglo de Oro  
Prerequisites, Spanish 301, 302.

453; 454  Estudios Independientes  
0 to 3 credits  
Independent study in an area selected to meet the student’s interest or need as determined by background and the mutual agreement of student and instructor. Admission to the course requires the permission of the department.

French (33)

See Foreign Languages.

General Science (36)

Professors Achor, Alspach, R. Smith, and Yedinak.

No major is offered in this field.
113 Sound, Music, and Hearing
4 credits
A study of sound in everyday experience. Topics considered include the physical nature of sound, description and measurement of sound, physiological and perceptual aspects of hearing, characteristics of human speech, electronic sound systems, noise, and musical acoustics. Three class periods and one three-hour laboratory period a week.

115 A World of Light and Color
3 credits
A survey of the behavior of light and its roles in human experience. Topics to be considered include basic light phenomena, wave and photon models of light, color and color theories, light energy, effects of light on living matter, atmospheric effects, optical instruments, human vision and perception.

116 Energy for the Future
4 credits
A survey of energy forms and the physical principles governing the use of energy, followed by discussions on sources of energy, and on environmental and economic costs. Emphasis is placed on recent developments in the area of energy alternatives. Three class periods and one three-hour laboratory period a week.

118 Man and the Weather
3 credits
An interdisciplinary study of weather with emphasis on the science of meteorology, and on the influence of weather on society and culture. Offered in alternate years.

German (42)
See Foreign Languages.

Greek (45)
See Foreign Languages.

Geography (38)
The courses in geography are offered in conjunction with the graduate evening program of the college. Admission to the courses requires enrollment in the secondary social studies program or permission of the Education Department.

No major is offered in this field.

316 Geography: A Modern Synthesis
3 credits
A course emphasizing the links between an academic tradition and areas of public concern, with focus upon applied aspects of ecology, economic change and social issues. Attention is given to systems, cycles, and trends as examples of modern geographic analysis.

327 Historical Geography of North America
3 credits
A consideration of past circumstances from the geographer's viewpoint to understand how the combination of nature and culture created the regional patterns in North America in earlier times.
History (48)

Professors Darcy (Department Chair) and T. Evergates; Associate Professor Chase; Assistant Professors D. Evergates and Wagner.

Areas of particular teaching interest: Professor Darcy: modern Europe; Professor T. Evergates: Medieval and Renaissance Europe; Professor Chase: modern America; Professor D. Evergates: Greek and Roman history; Professor Wagner: early America.

In its broadest sense history is the study of the changing character of civilizations and nations, and as such provides a fundamental context for a liberal arts education. The history program offers majors a background in the main periods of American and European history, as well as a closer understanding of selected topics. The history major is qualified to pursue a number of careers, including law, government service, business, and education.

Basic Major:

Required courses:
History 105 and 106; at least one Period course in each of the following: Ancient or Europe before 1789, Europe since 1789, and American; 401; at least five additional history courses; and four courses from the fields of Art History, Economics, Literature, Cross-Cultural Studies, Political Science, Psychology, and Sociology.

Other Educational Options in History:
Dual majors with History of Art, English, a Foreign Language, or Political Science; Teacher Certification Secondary (7–12) Social Studies. Minors in American or European History.

Introductory Courses

105 Western Civilization, Origins to 1700 3 credits
An introduction to the heritage of the Western world that emphasizes the achievements of the pre-classical, classical, medieval, and early modern periods.

106 Western Civilization, 1700 to the Present 3 credits
An introduction to the history and cultural achievements of the West during the last three centuries.

107 Formation of the American Republic 3 credits
A survey of American history from colonial days through Reconstruction. Emphasis is on themes such as slavery, the evolution of representative government, sectional tensions, and economic and social change.

108 Development of Modern America 3 credits
A survey of trends which have shaped the United States since 1865 including, among others, industrialization, urbanization, race relations, reform, and global conflicts.

113 Africa since 1800 3 credits
Africa at the dawn of the nineteenth century; the scramble for Africa and the establishment of colonial rule; the African reaction in the twentieth century.

207 Computers in Historical Studies 3 credits
An introduction to the use of computers in historical studies. The course provides experience in the collecting and processing of historical serial data, and a basic working knowledge of the SPSS program. No previous experience with computers is necessary.

Period Courses

211 Ancient Greece 3 credits
Greek civilization from the Bronze Age through the Classical Period. Discussion
of religion, societies, political institutions, and art and literary forms.

212 Roman History 3 credits
A history of Rome from its origins through the early Empire with emphasis on Republican institutions, private and public life, art and literature.

213 The High Middle Ages 3 credits
Medieval civilization in the eleventh, twelfth, and thirteenth centuries, with emphasis on feudal society and the crusades, the rise of cities, intellectual and cultural achievements, and the formation of monarchies.

214 The Renaissance and Reformation 3 credits
A study of the transition from the medieval to the modern world from the fourteenth through the sixteenth centuries. Analysis of Renaissance society and humanism, the age of oceanic exploration and the rise of the Atlantic economies. Reformation movements, and the wars of religion.

215 European History, 1789–1870 3 credits
A political and social study of the great powers in an age of revolutions and state building. Emphasis is placed on such common factors as the development and impact of nationalism, industrialism, and constitutionalism.

216 European History, 1870–1920 3 credits
A study of Europe at its zenith, ca. 1890. Topics include imperialism, the march of women and workers, the origins of World War I, the Russian Revolution, the peace settlement, and the ideas and tensions out of which Modernism in literature and art emerged.

217 Twentieth Century Europe 3 credits
Origin and significance of World War I; the struggles of democracies and the rise of totalitarian governments between the wars; the roots of World War II; the War; the restoration of Europe after 1945.

223 Cultural History of Latin America
See Foreign Languages, Spanish 223.

225 Colonial and Revolutionary America 3 credits
An in-depth study of early American history and culture. Topics include the origin of slavery, Indian society, the growth of permanent settlements, political trends, the imperial crises, Revolution, and the ratification of the Constitution.

226 The Era of Civil War and Reconstruction 3 credits
Causes and consequences of the Civil War with emphasis on the experiences of blacks, white Southerners and Northerners, and on the issues which prevented the achievement of national unity.

229 Twentieth Century America 3 credits
An exploration of social and political change in modern America, with an emphasis on the Twenties and Sixties. Prerequisite, History 108 or permission of the instructor.

Topics Courses

231; 232 (Topics in History) 3, 3 credits
World War I: The English experience on the war front and on the home front as depicted by eye witnesses and interpreted by historians—the trauma and the legacy.
The Crusades: Reading and discussion of eyewitness accounts and of recent historical works on the origin, conduct, impact, and significance of the crusades in European history.
From Charity to Voluntarism: Philanthropy in America. A study of the changing profile of philanthropy in American society from colonial times to the present.
American Legal History: An exploration of the nature and function of law in America, and the education, professionalization, and role of the American lawyer. Works of fiction and contemporary legal analysis, as well as historical materials, are used.
America's Women, 1607–the present: This topic focuses on the experience of America's women in an effort to illuminate the past and provide a historical perspective on our present. The course locates women in the family, the work place, and the political arena, and it examines interaction between context and ideology in the process of social change.

235 Early European Society 3 credits
A study of the political, social, familial, and cultural life of the peoples who settled in Europe after the collapse of the Roman Empire. The course considers reasons for the fall of the Empire and the emergence of a new civilization from the
remnants of the classical world.

237 History of England to 1485
3 credits
A survey of English history in the Anglo-Saxon, Norman and Plantagenet periods. The course focuses on social and constitutional developments, including common law and representative institutions.

238 History of England since 1485
3 credits
A survey of modern English history, including the Tudor monarchy, and the Reformation, the revolutions of the seventeenth century, reform movements in the eighteenth and nineteenth centuries. Victorian imperialism, and the World Wars.

239 History of France to 1789
3 credits
A survey of French history from Charlemagne to the Revolution, with particular attention to the formation and evolution of national institutions under the Capetian, Valois, and Bourbon dynasties.

240 Russian History since Peter the Great
3 credits
A survey of Russian history with special attention to the roots of revolution and the change from tsarism to communism.

244 The American Revolution as a Social Movement
3 credits
An exploration of the social dimensions of the Revolutionary experience. Emphasis on class structure, urban and rural violence, popular culture, military conflict, and the aftermath of the Revolution.

249 American Foreign Policy
3 credits
A history of American diplomacy since 1865, with emphasis on the two World Wars and on the period after 1945.

251; 252 Special Studies in History
0 to 3 credits
Independent projects, arranged by special permission.

Seminars

258 Seminar in European History
3 credits
A study of the varieties of historical writing from Thucydides to LeRoy Ladurie, with readings of great works in the European tradition. The course analyzes the changing perspectives and questions of interest to historians, especially in this century.

259 Seminar in American History
3 credits
A study of the evolution of American history as a field of inquiry, with emphasis on the writings of Bancroft, Turner, Beard, and Hofstadter, and the new social historians.

401 History Colloquium
3 credits
The course enables senior history majors to engage in the craft of history by writing a substantial paper and defending it in a seminar. Required of all majors.

Interdisciplinary Studies (50)

Associate Professor Weinfeld and faculty members from the departments involved.

No major is offered in this field. A minor in Women's Studies is available; see the Guidance Bulletin for those courses which are required.

107, 108 Women in Western Culture
3, 3 credits
A two-semester interdisciplinary study of the status and roles of women in the western world. The first semester covers the period from pre-classical to the French Revolution. The second semester covers the period from the French Revolution to the present.
211 Medical Care Crisis: Altruism vs. Commercialism
3 credits
A study of past and present medical care practice in America. Its intricate connections with law, business, and ethics are explored.

411, 412 Honors Seminar
1, 1 credit
A seminar for the senior year of the Honors Program during which students pursue a topic in depth and write an Honors paper. During the junior year, the topic for the following year's seminar is chosen and announced. Prerequisite, enrollment in the Honors Program.

Latin (51)
See Foreign Languages.

Library Science (54)
Associate Professors Bachmann and Denman-West; Instructors Quinn and Eleanor Richwine.
Certification in library science follows completion of a Master's degree program in this field. The undergraduate courses listed below are required courses for students who are preparing to teach elementary or English education.

No major is offered in this field.

317 Literature for Children
3 credits
The study of print and non-print media, with emphasis on authors and illustrators of materials for children. Principles of selection, evaluation, and integration of these media into the elementary and lower middle school classrooms are incorporated in the course.

318 Literature for Adolescents
3 credits
A study of print and non-print media with special emphasis on reading interests of young adults. Principles of selection, evaluation, and integration of these media into the upper middle school and high school classrooms are incorporated in the course.

Mathematics (57)
Professors Rosenzweig (Department Chair), Boner, and Lightner; Associate Professors Clark and Eshleman.

Areas of particular teaching interest: Professor Rosenzweig: differential topology, philosophy of mathematics, singularity theory; Professor Boner: algebraic geometry, algebra, graph theory; Professor Lightner: mathematics education, geometry, history of mathematics; Professor Clark: probability and statistics, Markov Chains, operations research; Professor Eshleman; applied mathematics, numerical analysis, programming languages.

The mathematics program is broad enough so that students taking the basic major in mathematics have the necessary background for a variety of careers, as well as a thorough preparation for graduate study. Students also have the opportunity, through the topics courses, the problem seminars, the special studies courses and electives, to focus their mathematics programs on individual needs and objectives.
Besides going to graduate school, recent graduates have begun careers in accounting, banking, business, insurance, computer work for private companies and various governmental agencies, teaching, actuarial work, and operations research. Others have secured positions under the general titles of "mathematician," "statistician," or "analyst" for the Social Security Administration, the National Security Agency, and the National Bureau of Standards.

Basic Major:

Required Courses:
Mathematics 117, 118, 119, 218, 221, 305, 316, 323, two hours of problem seminar and twelve additional hours chosen from courses at the 200 level or above, three hours of computer science.

Recommended Courses:
Computer Science courses; twelve to fifteen hours of supporting courses chosen from a discipline related to mathematics.

Other Educational Options in Mathematics:
Computer Science concentration; Operations Research concentration; Teacher Certification Secondary (5-12); dual majors with Biology, Economics, Philosophy, Physics, or other disciplines.

001 Mathematics Workshop
0 credit
A course designed to develop the quantitative skills of students whose proficiency in basic mathematics is beneath standards acceptable to the college.

002 Basic Algebra
0 credit
A course designed to raise the student's algebraic skills to a basic functioning level. Topics include operations with polynomials, factoring, solutions of equations, graphs, and word problems. Prerequisite, passing the arithmetic section of the mathematics proficiency examination.

106 Finite Mathematics with Applications
3 credits
Designed to offer students (primarily non-mathematics majors) a course that gives them some insight into the way mathematicians approach problems in other disciplines. This course includes sections from the following topics: matrices and some applications, graph theory and mathematical modeling, discrete probability, game theory, and linear programming.

107 College Algebra and Trigonometry
3 credits
The basic concepts of algebra and trigonometry needed for the study of calculus. Properties of exponents; solving equations and inequalities, graphing; properties of polynomial, exponential, exponential, logarithmic and trigonometric functions.

110 Calculus for Business and the Social Sciences
3 credits
A heuristic approach to the basic techniques of calculus, with a major emphasis on applications to business and social science problems. Topics include derivatives with applications to optimization of functions of one and several variables, integration with applications, exponential and logarithmic functions, and differential equations. This course may not be used as the prerequisite for Mathematics 118. Prerequisite, Mathematics 106 (preferred), Mathematics 107, or permission of the department.

117 Calculus I
4 credits
Initial study of limits, derivatives and integrals; review of trigonometric functions; differentiation techniques and formulas applied to rational and trigonometric functions; applications of derivatives including curve sketching, extrema and rate problems; definition of the integral; elementary applications of integrals. Prerequisite, Mathematics 107 or placement by the department.

118 Calculus II
3 credits
Further study of the trigonometric, exponential, and logarithmic functions and their derivatives, methods of integration, parametric equations, polar coordinates, sequences, infinite series, and
power series. Prerequisite, Mathematics 117.

119 Calculus III
3 credits
A study of functions of several variables. Topics include partial derivatives, directional derivatives, multiple integrals, the structure of Euclidean n-space, $E^n$, functions from $E^m$ to $E^n$, line and surface integrals, Green's and Stokes' Theorems. Prerequisite, Mathematics 118 or placement by the Department.

141 Mathematics for Elementary School Teachers
3 credits
An introduction to selected topics in mathematics, including sets and set operations, number and numeration systems, arithmetical operations and algorithms, measurement, reasoning and problem solving, and the basic concepts of algebra and geometry. This course does not count toward the major in mathematics, and is open only to those students preparing to teach in the elementary school. This course does not meet the Basic Liberal Arts Subjects Quantitative Analysis requirement.

207 Applied Combinatorics and Graph Theory
3 credits
An introduction to combinatorial problem solving and applied graph theory. Topics to be covered: arrangements and selections, generating functions, recurrence relations, graph isomorphism, graph models, planar graphs, Euler and Hamiltonian circuits, and graph coloring problems. Additional topics will be chosen from among: inclusion-exclusion formulas, trees, and network algorithms. Offered in 1988–89 and alternate years.

210 Introduction to Numerical Methods
3 credits
An introduction to numerical methods for solving problems from calculus and linear algebra including the solution of a single nonlinear equation, the solution of linear systems, interpolation and approximation, differentiation and integration, and the solution of eigenvalue problems. Prerequisites, Computer Science 106 and Mathematics 218. Offered in 1988–89 and alternate years.

218 Linear Algebra
3 credits
A study of the theory of finite-dimensional vector spaces, linear transformations, matrices, determinants, inner products, and eigenvalues. Prerequisite, one semester of calculus.

221 Fundamental Concepts of Algebra
3 credits
An introduction to modern algebraic theory; emphasis on the nature of the structures of algebra including groups, rings, and fields; selected topics from elementary number theory and polynomial theory. Prerequisite, Mathematics 221.

304 Differential Equations
3 credits
Linear differential equations with applications in the physical, biological, and social sciences; series solutions; systems of linear differential equations; approximation methods, the Laplace transform. Prerequisite, Mathematics 118. Offered in 1988–89 and alternate years.

305 Introduction to Mathematical Analysis
3 credits
A rigorous treatment of the theory of elementary calculus including functions, limits, sequences, series, uniform continuity, derivatives and Riemann integration; topological properties of the real numbers. Prerequisite, Mathematics 221.

310 History of Mathematics
3 credits
A study of the development from primitive counting systems to modern mathematics, with particular emphasis on the 17th century. Alternates with Mathematics 322.

312 Real Analysis
3 credits
A rigorous study of the convergence of sequences and series of functions; polynomial approximation; interchange of limit processes; the Lebesgue integral. Prerequisite, Mathematics 305. Offered as needed.

316 Complex Analysis
3 credits
An introductory course in the theory of functions of a complex variable; properties of analytic functions, classical integral theorems, Taylor and Laurent expansions, and applications. Prerequisite, Mathematics 119; Mathematics 305 is highly recommended.
322 Fundamental Concepts of Geometry
3 credits
The foundations and evolution of geometry; selected topics from Euclidean and non-Euclidean geometries, projective geometry, affine geometry; studies in the nature of proof and famous geometric problems. Alternates with Mathematics 310.

323 Probability
3 credits
A study of sample spaces, counting techniques, discrete and continuous random variables and related moments; binomial, Poisson, normal and other probability distributions; Chebychev inequality, central limit theorem. Prerequisite, Mathematics 118; Mathematics 119 is recommended.

324 Mathematical Statistics
3 credits
A systematic treatment of statistics from a theoretical point of view, sampling distributions, decision theory, estimation, hypothesis testing, modeling and applications. Prerequisite, Mathematics 323. Offered in 1988-89 and alternate years.

327 Philosophy of Mathematics
3 credits
A study of the foundations of mathematics and the different schools of philosophy of mathematics. Logicism, intuitionism and formalism, the infinite in mathematics, the existence of mathematical objects, and mathematical truth. Offered as needed for the dual major in philosophy/mathematics.

328 Operations Research
3 credits
A survey of topics from Operations Research: linear programming, computer applications using the Simplex Algorithm; dynamic programming; inventory control; queuing problems, network analysis, game theory. Prerequisites, Computer Science 106 and Mathematics 323; Mathematics 324 or 335 is strongly recommended. Offered in alternate years.

331; 332; 431;
432 Mathematics Problems Seminar
1, 1, 1, 1 credit
Consideration of problems chosen from diverse areas of mathematics, giving students experience in dealing with mathematics and mathematical ideas outside of a course context. The problems considered vary from year to year.

335 Stochastic Processes
3 credits
Markov Chains, stable distributions for regular chains, absorption probabilities, computer simulations, Poisson process, Birth Death Process. Prerequisite, Mathematics 323. Offered in alternate years.

336 Number Theory
3 credits
An introduction to the theory of numbers. Divisibility, primes, unique factorization, congruences, Euler’s phi-function, Fermat’s and Wilson’s Theorems, quadratic reciprocity, perfect numbers and applications to Diophantine equations. Offered every third year.

353; 354; 453; 454 Special Studies in Mathematics
0 to 3 credits
Directed study planned and conducted with reference to the needs of students who are candidates for departmental honors. Qualified students who are not candidates for such honors are admitted with the consent of the department.

406 Abstract Algebra
3 credits
A rigorous presentation of the theory of groups, rings, and fields through a study of selected topics, with emphasis on the study of groups, homomorphisms and isomorphisms of groups and rings, isomorphism theorems, Sylow theorems; ideals. Prerequisite, Mathematics 221. Offered in alternate years.

409 Topology
3 credits
An introduction to the basic notions of topological spaces, which are the foundation for Analysis and Calculus. Basic Set Theory, the axioms and specific examples of topological spaces, connectedness and compactness, separation axioms, continuous functions, homotopy theory. Offered every third year.
Military Science (60)

Lieutenant Colonel Cinquino (Department Chair); Captains Burker and Fitzgerald; Sergeant Major Carter.

Since 1919 Western Maryland College has had a Reserve Officer Training Corps program. The program is classified as "Branch General," which makes it possible for those who are commissioned at graduation to serve in a branch of the Army related to their interest and educational background. The program allows the student to qualify for his or her academic objective while at the same time securing a commission as a regular army or reserve officer.

No major is offered in this field.

The basic course (first two years), open to all male and female students at Western Maryland College, incurs no military obligation except for ROTC scholarship recipients. The advanced course (final two years) is offered to those men and women who have completed either the basic course or basic summer camp (or received credit for them through active or reserve service in the Armed Forces). Advanced course applicants must be approved by the Military Science Department and must enter into a contract with the Government stating that, in return for a monthly subsistence allowance, they will complete the course in college, attend ROTC Advanced Camp, and accept a commission in the United States Army Reserve, if tendered. Transfer students interested in the advanced course should contact the Professor of Military Science during the spring semester if they plan to enroll in ROTC during the fall semester.

Air Force ROTC is available to students at Western Maryland College through an agreement with the University of Maryland at College Park. Air Force ROTC courses are scheduled so that students from Western Maryland College may complete all of their AFROTC requirements during one morning per week at the College Park campus. Upon graduation from Western Maryland College and completion of the AFROTC curriculum at the University of Maryland, the student will be commissioned a second lieutenant in the Air Force.

101, 102 The Army As An Institution 1.5, 1.5 credits
First semester: Basic orientation to the U.S. Army and ROTC, to include the career opportunities offered by these institutions, small unit organization, the U.S. Army Officer, weapons systems, and the traits and principles of leadership. Second semester: Introduction to using a map and compass to navigate cross-country. One class period and one practical leadership laboratory period a week; voluntary adventure training, tactical field training, and weapons firing off campus each semester.

Note: Practical leadership laboratory consists of Military Skills training, e.g., Hand-to-Hand Combatives; Dismounted Drill; Nuclear, Biological, and Chemical Defense; Radio Communications; Assembly/Disassembly of Military Weapons; and Rappelling. Students choose two skills each semester.

201, 202 Military History and Science 2.5, 2.5 credits
First semester: A study of American military history from the colonial wars of the eighteenth century to the Spanish-American War of the late nineteenth century. Concentration will be on the application of the principles of war, the strategy and tactics leading to victory or defeat, and the development of weapons and equipment and their impact upon warfare. The first half of this semester will include the study of small unit tactics: how infantry squads and platoons fight. Second semester: A continued study of American military history from the opening years of the twentieth century to the present. The military's role in support of national policies and a working knowledge of the general organizational status of the military will be emphasized. Two class periods and one prac-
tical leadership laboratory—period per week. Voluntary adventure training, tactical field training and weapons firing off campus each semester.

301, 302 Applied Leadership 2.5, 2.5 credits
Theory and principles of small unit leadership and practical application; principles of war; role of the non-commissioned officer; performance oriented training; advanced land navigation; small unit tactics; communications systems; physical and mental conditioning. These courses of instruction prepare the cadet for attendance at advanced camp and emphasize teamwork and mission accomplishment within the advanced camp evaluation model. Two class periods and one practical leadership laboratory period per week. At least one weekend field training exercise each semester.

401, 402 Dynamics of the Military Team 2, 2 credits
First semester: Command and staff organization functions; written and oral communications; study of the various military teams; combat, combat support and combat service support operations; the Soviet army. Second semester: Ethics and professionalism; officer and enlisted relations; personnel management systems; military justice and leadership development. Two class periods and one practical leadership laboratory per week. At least one field training exercise (FTX) per semester.

Music (63)
Professor Heggemeier; Associate Professors Dietrich (Department Chair) and Hering; Lecturers Day, Eckard, Kirkpatrick, Kreider, Miller, Ridgeway, Wells, and Zafiris.

Areas of particular teaching interest: Professor Heggemeier: piano; Professor Dietrich: band, orchestra, brass, strings; Professor Hering: music history and organ.

The Music Department offers opportunities for both the major and nonmajor student to develop their musical talents by offering courses for both disciplined growth and creative development. Recitals and concerts are performed each semester by faculty, students, and such organizations as the College Choir, Band, Jazz Ensemble, and various other performance ensembles.

Current faculty policy limits the number of hours taken for credit to 8 of the 120 hours required for graduation in vocal and instrumental ensembles such as Music 101, 102, 103, 150–160.

Basic Major:
Required courses:
Music 107, 108, 201, 202, 203, 204; three additional hours in music history; 8 hours of applied music lessons; 6 hours of music electives; 2 hours of special studies in music. Majors other than piano must study piano at the discretion of the music faculty; majors must give one public recital. The department also offers a minor in music.

001-021 Applied Music-Private Instruction 0 to 1 credit
Private instruction in voice, piano, organ, guitar, orchestral and band instruments. Lessons are generally given in half-hour periods (0.5 credit) to nonmajors or hour periods (1 credit) to majors and minors. An extra tuition fee is charged for lessons: $85.00 for half-hour periods and $160.00 for one hour periods. Prerequisite, ap-
proval of the instructor: Consult the department for proficiency evaluation and major requirements for Applied Music Instruction.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>101 Band</strong></td>
<td><strong>0 to 1 credit</strong></td>
<td>Performance of compositions from all periods of musical history, including a study of the form, character, history and musical content. At least four public concerts are given each year.</td>
</tr>
<tr>
<td><strong>102 College Choir</strong></td>
<td><strong>0 to 1 credit</strong></td>
<td>All college choral group that performs on and off campus at least four times a year. All styles of choral literature performed.</td>
</tr>
<tr>
<td><strong>103 College Singers</strong></td>
<td><strong>0 to 1 credit</strong></td>
<td>Select group of singers to perform small ensemble classical and popular music. Prerequisite, permission of the instructor.</td>
</tr>
<tr>
<td><strong>107, 108 Music Theory</strong></td>
<td><strong>3, 3 credits</strong></td>
<td>Basic knowledge of musical materials, written and keyboard harmony through the dominant seventh chord; sight singing, melodic and harmonic dictation. Prerequisite, permission of the instructor.</td>
</tr>
<tr>
<td><strong>109 Music Appreciation</strong></td>
<td><strong>3 credits</strong></td>
<td>A study of music as an art through its elements; rhythms, melody, harmony, form, and timbre; a survey of the various musical styles. Increased listening perception in all types of music is the course goal.</td>
</tr>
<tr>
<td><strong>110 History of Jazz</strong></td>
<td><strong>3 credits</strong></td>
<td>A survey of the stylistic transformations that have taken place in jazz since 1900, with a study of the social and political conditions that have exerted a powerful influence on the jazz artists.</td>
</tr>
<tr>
<td><strong>111 Piano Lab I</strong></td>
<td><strong>2 credits</strong></td>
<td>A study of basic keyboard skills with emphasis on reading, transposition, fundamentals of music theory, and the necessary physical skills to play simple pieces. This is a beginner's course which is not intended for those students who can already read music at the keyboard.</td>
</tr>
<tr>
<td><strong>112, 115, 117 Piano Lab II, III, IV</strong></td>
<td><strong>2, 2, 2 credits</strong></td>
<td>A continuation of Piano Lab I at progressing levels of proficiency. Admission and placement is by the instructor's evaluation of the student's ability.</td>
</tr>
<tr>
<td><strong>116, 118 Guitar Class I, II</strong></td>
<td><strong>1, 1 credit</strong></td>
<td>Class instruction in the basic skills of playing the guitar.</td>
</tr>
<tr>
<td><strong>120 The Recorder and its Music</strong></td>
<td><strong>3 credits</strong></td>
<td>A survey of the music for the Recorder (end-blown flute) from the Renaissance to the contemporary. Includes instruction in playing the alto Recorder. Ability to read musical notation required.</td>
</tr>
<tr>
<td><strong>121 Voice Class</strong></td>
<td><strong>1 credit</strong></td>
<td>An introduction to the correct use of the voice in singing, including breathing, articulation, enunciation, expression, and various types of vocal literature.</td>
</tr>
<tr>
<td><strong>150–160 Performance Ensemble</strong></td>
<td><strong>0–1 credit</strong></td>
<td>A comprehensive survey by performance of the ensemble literature; both original and transcribed, from classical to contemporary; for each of the ensembles listed. Public performances are given. Prerequisite, permission of the instructor.</td>
</tr>
<tr>
<td><strong>150 Flute Choir</strong></td>
<td><strong>1 credit</strong></td>
<td></td>
</tr>
<tr>
<td><strong>151 Flute Quartet</strong></td>
<td><strong>1 credit</strong></td>
<td></td>
</tr>
<tr>
<td><strong>152 Woodwind Quintet</strong></td>
<td><strong>1 credit</strong></td>
<td></td>
</tr>
<tr>
<td><strong>153 Saxophone Quartet</strong></td>
<td><strong>1 credit</strong></td>
<td></td>
</tr>
<tr>
<td><strong>154 Jazz Combo</strong></td>
<td><strong>1 credit</strong></td>
<td></td>
</tr>
<tr>
<td><strong>155 Clarinet Choir</strong></td>
<td><strong>1 credit</strong></td>
<td></td>
</tr>
<tr>
<td><strong>156 Brass Quintet</strong></td>
<td><strong>1 credit</strong></td>
<td></td>
</tr>
<tr>
<td><strong>157 String Ensemble</strong></td>
<td><strong>1 credit</strong></td>
<td></td>
</tr>
<tr>
<td><strong>158 String Quartet</strong></td>
<td><strong>1 credit</strong></td>
<td></td>
</tr>
<tr>
<td><strong>159 Electric Bass Ensemble</strong></td>
<td><strong>1 credit</strong></td>
<td></td>
</tr>
<tr>
<td><strong>160 Jazz Ensemble</strong></td>
<td><strong>1 credit</strong></td>
<td></td>
</tr>
<tr>
<td><strong>201, 202 Advanced Music Theory</strong></td>
<td><strong>3, 3 credits</strong></td>
<td>The continuation of Music 107, 108 through the use of remote harmonies, twentieth century compositional styles, counterpoint, and form. Prerequisites, Music 107 and 108, or permission of the instructor.</td>
</tr>
<tr>
<td><strong>203, 204 Music of the Western World</strong></td>
<td><strong>3, 3 credits</strong></td>
<td>A survey of music in the Western World from the earliest rhythms and songs to the complex subtleties of the twentieth century, observed against the backdrop of landmarks that heralded the changes.</td>
</tr>
</tbody>
</table>
214 (Masters in Music)  
3 credits  
A study of one major composer's life and representative compositions. Offered in 1988-89 and alternate years.

216 History of Musical Theatre  
3 credits  
A survey of musical theatre from its beginning to the present, studied in relation to its historical, literary, and cultural background. Includes study of such musical theatre forms as opera, operetta, ballad opera, and musicals. Offered in 1988-89 and alternate years.

221 Renaissance Music  
3 credits  
An intensive survey of Renaissance music (1450-1600), with a review of the social and political conditions which supported the musical establishment of the period. The course includes a study of Renaissance music theory, techniques, and practice. Ability to read musical notation is useful, but not a prerequisite. Offered in alternate years.

295; 296; 395; 396 Internships  
1 to 3 credits  
Opportunities for students to acquire on-the-job experience in particular areas of study. Prerequisite, permission of the instructor.

333, 334 Methods of Teaching Piano  
2, 2 credits  
Methods of teaching piano to beginners of all ages; a survey of suitable teaching materials for all grades, including discussion of the technical and musical problems involved. One class period and one period of supervised teaching a week. Prerequisite, permission of the instructor. Offered on demand.

351; 352; 451; 452 Special Studies in Music  
0 to 3 credits  
Concentrated study in an area of interest to the individual student and of significance to the major's area of concentration. Projects are chosen and developed in consultation with a member of the department.

403 History and Literature of the Piano  
3 credits  
A survey of literature for harpsichord, clavichord, and piano; a study of the development of these instruments and the history of piano technique and performance. Prerequisite, Music 109, or permission of the instructor. Offered on demand.

---

Philosophy and Religious Studies

Professors Hartman (Department Chair) and Zepp; Associate Professor Wu; Assistant Professor Alles; Lecturers Maxey and Stanley.

Areas of particular teaching interest: Professor Hartman: history of philosophy, existentialism, social and political philosophy, ethics; Professor Zepp: contemporary religious thought, phenomenological and comparative studies, religion and human justice; Professor Wu: contemporary philosophy, East Asian studies, philosophy of science; Professor Alles: religions of South Asia and the ancient Mediterranean world, history methods of the study of religions.

Students may plan their program for general liberal education, for graduate study, or for special objectives in religious work including the ministry, religious social work, pastoral counseling, and related fields.

Philosophy (69)

Basic Major:

Required courses:  
At least twenty-four hours of philosophy, including 205, 210, 223 or 316; Senior Seminar 402; and six hours of history of philosophy chosen from 113, 114, 116, 215, 220
Strongly recommended electives:
A minimum of three hours in Cross-Cultural Studies; Comparative Literature, six hours; British and/or American Literature, six hours; Political Science, three hours; History, six hours; Psychology or Sociology, six hours.

Other Educational Options in Philosophy:
Dual major in Philosophy and Mathematics, special programs combining Philosophy with other disciplines.

111 Problems of Philosophy  
3 credits  
An introduction to the chief problems with which philosophy is concerned, and a study of some of these from the viewpoints of the leading modern schools of philosophical thought.

113 History of Ancient and Medieval Philosophy  
3 credits  
An introduction to philosophy through a study of the systems from the Pre-Socratics through the Nominalists; particular emphasis on Plato, Aristotle, and major figures of the Middle Ages.

114 History of Modern Philosophy  
3 credits  
An introduction to modern philosophy through a study of Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume, and Kant, whose systems comprise classical rationalism and empiricism.

116 Great American Thinkers  
3 credits  
A study of the development of philosophy in the United States, with special attention to the lives and writings of selected leaders from Edwards to Dewey.

119 East Asian Philosophy  
See Cross-Cultural Studies 119.

205 Ethics  
3 credits  
A study of the leading types of ethical theory, the origins of morality, and the principles involved in moral action.

209 Philosophy of Existence  
3 credits  
A study of thinkers and schools that deal with the nature and meaning of human existence, the threat of modern anonymity and collectivism, and the search for freedom and value. After a brief historical background, the course deals with recent figures such as Kafka, Heidegger, Sartre, and Camus.

210 Ethics and Business  
3 credits  
A consideration of some of the major ethical issues involved in business: the profit motive and the public good, social responsibility of corporations, environmental concerns, consumer and employee relations, the role of the state, advertising practices, conflict of interest and of obligation, and hiring practices. Offered in 1988–89 and alternate years.

215 Revolt and Revolution in the Nineteenth Century  
3 credits  
A study of the major figures and the movements they initiated that brought about critical and radical changes in thinking about history, religion, morality, society, and the nature of human existence. The course includes such figures as Hegel, Feuerbach, Marx, Kierkegaard, Comte, Mill, Darwin, and Nietzsche. Offered in alternate years.

220 Philosophy of the Twentieth Century  
3 credits  
A study of contemporary schools, such as Naturalism (Dewey, Whitehead), Existentialism (Sartre, Heidegger, Jaspers), Positivism (Ayer, Schlick), Phenomenology (Husserl, Merleau-Ponty, Ricoeur), and Linguistic Analysis (Wittgenstein, Austin, Wisdom). Prerequisite, at least three hours in Philosophy, preferably Philosophy 223. Offered in 1988–89 and alternate years.

221 Gandhi and Tagore  
See Cross-Cultural Studies 221.

222 Philosophy of Science  
3 credits  
A critical study of the conceptual structures and methods used in scientific thinking, including the nature of causality, induction, prediction, the logical character of scientific laws, theories, and presuppositions. Major consideration is given to the claim of scientific objectivity. Permission of the instructor is required for admission to this course. Prerequisite, at least three hours in Philosophy, preferably Philosophy 223. Offered in alternate years.
223 Logic and Reflective Thinking
3 credits
The general principles of inductive and deductive logic, and the use of these principles in the solution of problems in such fields as science, philosophy, and religion.

226 Science and Human Values
3 credits
A general introduction to the nature of science and the relationships between science, technology, and social conditions in the modern world. Offered in 1988-89 and alternate years.

230 God, Human Suffering, and the Holocaust
See Religious Studies 230.

231 Philosophy in Literature
3 credits
Interpretation and analysis of some literary works which successfully express philosophical ideas concerning man and the world in which he finds himself caught up.

232 Mind-Body Problem
3 credits
A philosophical examination of the nature of mind and body. Topics include the cognitive functions of mind, our knowledge of other minds, behaviorism, death, and immortality. Prerequisite, at least three hours in Philosophy 223. Offered in alternate years.

302 Classical Indian Philosophy
3 credits
A rigorous introduction to the classical Indian tradition of philosophical thought, from its roots in the Vedas and Upanishads to its systematization in the six orthodox (astika) schools. Attention is also given to the "heterodox" views of the Buddhists, the Jains, and the "materialists."

316 A Philosophical Approach to Poverty and Economic Justice
3 credits
A conceptual approach to the issues of poverty and the just society, examining various theories and models, developing fundamental principles, and attempting to formulate a coherent and workable theory with reference to a particular instance of poverty. Offered in alternate years.

351; 352; 451; 452 Special Studies in Philosophy
0 to 3 credits
Directed study planned and conducted with reference to the needs of students who are candidates for departmental honors. Qualified students who are not candidates for such honors are admitted with the consent of the department.

402 Senior Seminar
3 credits
A seminar required of all philosophy and religious studies majors as part of their graduation requirements. Each student is required to write a major paper on a topic within his/her major. A member of the department supervises the project.

Religious Studies (84)

In Religious Studies, students are encouraged, by exposure to a variety of religious expressions and beliefs, to develop attitudes and convictions of their own while gaining an appreciation for the meaning of religion in the lives of people throughout the ages and across cultures.

Fundamental to our approach is the comparative study of world religions, which includes historical and phenomenological methods. While we engage in the academic study of religion as an empirical dimension of human life, we do not espouse one single religious tradition.

The departmental curriculum is divided into historical/interpretive courses, e.g., Religion of the Ancient World and Sacred Architecture and ethical/critical courses, e.g., God and the Holocaust and Liberation Movements and Human Freedom.
Basic Major:

Required courses:
At least twenty-four hours of Religious Studies including 101 or 102, 6 hours each in both Ethical-Critical and Historical-Interpretive courses and Senior Seminar 402; Comparative Literature, six hours; History, six hours; Psychology and/or Sociology, six hours.

Strongly recommended electives:

Other Educational Options in Religious Studies:
Special programs combining Religious Studies with other disciplines.
All 300 level courses prerequisite three hours in Religion or permission of instructor.

Introductory Courses

101  Ways of Being Religious
3 credits
The nature and meaning of religion as a mode of human expression, with special reference to the importance of myth, symbol, ritual, and the sacred. Historical, phenomenological, and comparative methods are used.

102  Religion and Culture
An introductory study of the various ways in which religion and human culture interact: e.g., religion as a foundation for culture, religion as a critique of culture, religion and American public policy. Students become acquainted with some of the world's major religious traditions.

Ethical-Critical

206  Religion and Society
See Sociology 206.

212  Life and Thought of Martin Luther King, Jr.
3 credits
The examination of the philosophical and religious influences on the life and thought of Martin Luther King, Jr., and in turn, his influence on the American Civil Rights Movement, on our understanding of religion to politics and the practice of non-violence.

221  Gandhi and Tagore: Their Impact on Twentieth Century India
3 credits
The influence on modern India of the lives and thoughts of these two giants in politics and literature. Special attention is given to Gandhi's understanding of non-violence and to the vast and varied literary output of Rabindranath Tagore. A significant by-product may be a deeper understanding of the Hindu world-view.

230  God, Human Suffering, and the Holocaust
3 credits
Why do innocent people suffer in a world governed by a good God? How can we talk of God? How can we talk of God after Auschwitz? These, and other questions related to the so-called "problem" of evil, are examined. The course focuses on several forms of human suffering with particular attention to the nazi Holocaust. Offered in alternate years.

304  Religion and Human Sexuality
3 credits
The nature and meaning of human sexuality found in a comparative analysis of world's religions, especially Judaism and Christianity; an examination of the relation between the sacred and the sexual as well as the consideration of ethical implications, e.g., sexuality and social justice, sexual orientation, and sexual expression (marital and non-marital). Offered in 1988-89 and alternate years.

320  Critical Issues in Religious Thought
3 credits
An attempt to engage religious thought in an intellectual exchange with other world-views represented by psychoanalysis (Freud), biological science (Darwin), and social theory (Marx). Offered alternate years.

328  Liberation Movements and Human Freedom
3 credits
The contribution to the current Native American, Black, Chicano, Gay, and Women's movements to an understanding of human liberation, viewed from the perspective of Paulo Freire's
typology of oppression, with special reference to the social, political, and religious forces making for oppression and for liberation.

**Historical-Interpretive**

208 The Bible as Literature
See Comparative Literature 208.

213 Hebrew Bible
3 credits
An examination of the historical background, composition, and dominant religious themes of the books of the Hebrew Bible/Old Testament, as well as the use of these writings as sacred scripture.

214 Christian Scriptures
3 credits
An examination of the historical background, composition, and dominant religious themes of the books of the Christian Scriptures (New Testament) and related writings, as well as the use of these writings as sacred scripture.

219 Jewish Roots in Christianity
3 credits
This course examines the contributions of Judaism to Christianity in its development stages. Primary and secondary texts of the Hellenistic period are utilized to shed insight on the process of development. Consideration is also given to the impact of Jewish roots in Christianity upon contemporary Jewish-Christian relations. Sponsored by the Jewish Chautauqua Society. Offered in 1988–89.

220 Jewish Images in Western Literature
3 credits
From the New Testament to Shakespeare and Chaucer to any number of twentieth century authors, the image of the Jew remains controversial. This course examines the writings of Jew and non-Jew in order to analyze how the Jew has been seen by writers throughout history. Sponsored by the Jewish Chautauqua Society. Offered in 1988–89.

228 Mysticism: East and West
3 credits
A study of the content and methodology of representative forms of mysticism from the following traditions: Zen (Buddhism), Yoga (Hinduism), Sufi (Islam), Hasidism (Judaism), Catholic and Protestant Christianity. Offered in 1988–89 and alternate years.

253 Judaism, Christianity, and Islam
3 credits
A study in some detail of the major monotheistic religions: Judaism, Christianity, and Islam. Attention is paid to origins and historical development, beliefs, practices, and institutions.

254 Prehistoric and Tribal Religions
3 credits
An examination of the myths and ideas, rituals, and institutions associated with the religious traditions of prehistoric peoples and contemporary tribal peoples of Africa, the Americas, and Australia-Oceania.

255 Religions of Asia
3 credits
A study in some detail of the major Asian religions: Hinduism, Buddhism, Confucianism, Taoism, and Shinto. Attention is paid to origins and historical development, beliefs, practices, and institutions.

256 Religions of the Ancient World
3 credits
A study of the religious traditions of the ancient Mediterranean and ancient Near East—e.g., Egypt, Mesopotamia, Iran, Greece—and ancient America—Maya, Aztec, and Inca. Offered in alternate years.

301 Shamans, Priests, Prophets, Founders
3 credits
A wide ranging study of religious leaders in a global context, including (but not limited to) such seminal figures as Moses, the Buddha, Jesus, and Muhammad. Uses methods of both sociology and religious studies. Offered in 1988–89 and alternate years.

302 Classical Indian Philosophy
3 credits
A rigorous introduction to the classical Indian tradition of philosophical thought, from its roots in the Vedas and Upanishads to its systematization in the six orthodox (astika) schools. Attention is also given to the “heterodox” views of the Buddhists, the Jains, and the “materialists.”

305 Sacred Architecture
3 credits
A historical and systematic examination of both formal and symbolic aspects of structures built for religious purposes, along with their associated religious activities. Offered in alternate years.
Hindu Rituals and Ethics (karma and dharma) 3 credits
An intense look at the Hindu "path of action" in its many dimensions: rituals of the life cycle and daily life, seasonal festivals and celebrations, castes and stages of life, related notions of purity and pollution, and the relations between action and liberation.

Special Studies in Religious Studies 0 to 3 credits
Historical studies—Reformation, nineteenth century, etc.; classical figures—Augustine, Aquinas, Tillich, etc.; phenomenological subjects—myth, ritual, the sacred, etc.; Scriptural studies—Koran, Bible, Gita, etc. Directed study planned and conducted with reference to the needs of students who are candidates for departmental honors. Qualified students who are not candidates for such honors are admitted with the consent of the department.

402 Senior Seminar
See Philosophy 402.

Physical Education (72)

Professors Clower (Department Chair), Case, and Ober; Associate Professors Carpenter and Fritz; Assistant Professor Weyers; Lecturers Easterday, Martin, Seibert, Sprague, and Welliver.

Areas of particular teaching interest: Professor Clower: sport sociology and history; Professor Case: exercise physiology; Professor Ober: kinesiology; Professor Carpenter: sport psychology; Professor Fritz: teacher education; Professor Weyers: adapted physical education.

Beyond the basic physical education major, the department provides a variety of options for the physical education major, including teaching certification in secondary school physical education or in elementary-secondary school physical education. Both certification programs are approved by the Maryland State Department of Education.

Basic Major:

Required courses:
Physical Education 182, 184, 207, 222, 224, and three hours of activity beyond basic liberal arts requirements; Biology 111, 211, 324; Chemistry 103, 104, or 116, 118; Psychology 106, Sociology 103.

Other Educational Options in Physical Education:
Minors are offered in athletic training, outdoor education, aquatics management, sports coaching, and sport communication. A cooperative program in physical therapy is offered as well as student-designed majors in such areas as sports medicine.

Activity

The basic college requirement is competence in three areas of activity—body movement activities (courses numbered 001-029; 101-129), team activities (courses numbered 030-059; 130-159), and lifetime sports activities (courses numbered 060-092; 160-189). This requirement may be satisfied by demonstration of competence or by completing courses chosen from the activity courses listed below.

Most of the courses listed below will be offered each semester. A list of specific courses to be offered in a particular semester is provided at the time of registration.

Students who satisfy all or part of the physical education requirement through testing or participation may not enroll in the beginning level of any activity in which proficiency has been demonstrated.

A student may not receive credit twice for the same activity. Some courses carry dual numbers indicating that
they may satisfy either of two proficiency areas. The same course may not be used to satisfy more than one proficiency area requirement. Beginning level activities or permission of the instructor, are a prerequisite for all second level instruction.

The College accepts no financial responsibility for injuries resulting from participation in physical education activities.

**Physical Education Activity 0.5 credit**

Instruction in the fundamental skills and basic knowledge of the activity named. Each activity meets approximately fourteen hours and carries 0.5 semester hour credit.

<th>Principles and Problems of Coaching</th>
</tr>
</thead>
</table>

Basic principles and theory of coaching interschool sports, including various administrative aspects. Topics considered include philosophy, personal relationships, contest management, championship determination, coaching ethics, finance and
budget, equipment selection, team selection and organization, and legal considerations.

207 History and Principles of Physical Education 3 credits
The historical and philosophical development of physical education and sport from prehistoric to present civilization; analysis of the purposes, scope and interrelationships of physical education, sports, health education, and recreation in the formation of the American physical education program and profession.

215 Adapted Physical Education 3 credits
Organization of developmental, remedial and atypical and handicapped individuals with an emphasis on the specialized competencies needed to deliver quality physical education service to special populations. Legal and administrative aspects of service delivery; assessment of individuals; program planning and IEP preparation; specialized instructional techniques and teaching strategies; modification of activities, materials, equipment and facilities are considered.

221 Medical Aspects of Physical Activity 3 credits
Prevention and emergency care of injuries associated with physical activity. First aid care, medical and safety problems, nutrition, support methods, and conditioning exercises are studied.

222 Physiology of Exercise 3 credits
An examination of the basic physiological principles governing motor activity. Energy sources, training and conditioning, ergogenic aids, diet, and other pertinent topics are considered. Prerequisite, Biology 211 or 316.

224 Kinesiology 3 credits
The study of human movement based upon anatomical and mechanical principles with application for skill analysis and instruction.

228 Personal and School Health 3 credits
Extensive research, reports, and guided discussion in areas of personal health that are especially pertinent in today’s society. An overview of the school health program, including school health services, healthful school living and school health education; school health education to include both the theory and application of instruction.

230 Elementary School Physical Education 3 credits
Analysis of the physical education program in the elementary school; selection of activities, skill development, teaching methods and materials, program planning, class organization, and evaluation techniques.

231–239 Sports Coaching
Theory and techniques of coaching the sport listed.

231 Basketball 1 credit
232 Field Hockey 1 credit
233 Football 1 credit
234 Lacrosse 1 credit
235 Soccer 1 credit
236 Softball 1 credit
237 Track 1 credit
238 Volleyball 1 credit
239 Wrestling 1 credit
295; 296; 395; 396 (Internship in Selected Topics I, II) 3, 3 credits
Supervised field experiences in appropriate agencies designed to assist students in acquiring and using skills and relationships unique to the selected topic. Placement may include the several news media, schools and colleges, health agencies, or community recreation departments.

303 Administration and Evaluation of Physical Education 3 credits
The administration of physical education in school, including organization of programs and evaluation of individuals and programs. Objectives, scheduling, policies, and other administrative procedures, along with evaluative devices and techniques are stressed.

306 Advanced Athletic Training 3 credits
Analysis of incidence of athletic injuries; preventive measures in sports medicine; use of therapeutic modalities, policies, and medical referral; practical therapeutics; training room organization and administration. Prerequisite, Physical Education 221.
307 Practicum in Athletic Training
3 credits
Practical experience and extensive field work in athletic training. Prerequisite, Physical education 221 (this course may be taken concurrently).

308 Aquatics Management
3 credits
Administration and organization of swimming pools and aquatics programs. Standards of health; supervision, maintenance, and operation of pools; personnel training; facility and program planning for schools, camps, and recreation centers are among the topics considered.

351; 352; 451; 452 Special Studies in Physical Education
0 to 3 credits
Directed study planned and conducted with reference to the needs of those students who are candidates for departmental honors in physical education. Qualified students who are not candidates for such honors but who desire to undertake special work in the department may also be admitted.

---

Physics (75)

Professors Achor and Yedinak; Assistant Professor Pagonis (Department Chair).

Areas of particular teaching interest: Professor Achor: acoustics, electronics, laboratory instruction; Professor Yedinak: mathematical physics, computers, meteorology; Professor Pagonis: solid state physics; microcomputers.

Physics deals with the most basic aspects of the natural world, and is characterized by its emphasis upon the analysis and solution of those problems that the study of nature presents.

The Physics major is designed to provide students with knowledge of and experience in the basic concepts and methods used in physics. This background is appropriate for further study in a variety of areas, including law, medicine, teaching, the social sciences, engineering, mathematics, computer science, and the natural sciences (astronomy, biology, chemistry, geology, meteorology, oceanography, as well as physics itself). By a judicious choice of electives, the student with an undergraduate major in physics can prepare for entry into graduate and professional study in any of these fields.

Basic Major:

Required courses:
Physics 101, 102 (calculus section preferred), 204, 211, 212, 311, and either 309 or 312; Chemistry 103, 104; Mathematics 117, 118; and three hours chosen from Computer Science 106; Mathematics 119, 218, 304.

Other Educational Options in Physics:
Dual major with Mathematics, Pre-Engineering, Professional major, Teacher Certification Secondary (5–12).

Physics 101, 102 are prerequisite to all other courses in physics except Physics 208.

101, 102 General Physics
4, 4 credits
An introduction to the fundamental phenomena, concepts, and theories of physics. The first semester deals with mechanics, special relativity, and heat. The second semester deals with electricity and magnetism, wave phenomena, and quantum physics. Prerequisites, for the noncalculus section—high school algebra, geometry, and trigonometry; for the calculus section—Mathematics 117 or the equivalent. Three class periods and one three-hour laboratory period a week.

104
204 Introduction to Modern Physics
4 credits
Quantization, wave and particle aspects of matter, elementary quantum mechanics, atomic and molecular structures, solids, and nuclei. Prerequisite, Mathematics 118. Three class periods and one four-hour laboratory period a week. Offered in alternate years.

208 Electronics
4 credits
An introduction to electronics emphasizing digital and linear integrated circuits. Topics considered include linear and nonlinear operation of transistors, combinational and sequential digital circuits, and operational amplifier circuits. Circuit theory is presented as needed. Three class periods and one four-hour laboratory period a week. Offered in 1989–90 and alternate years.

209 Optics and Waves
4 credits
Geometrical and physical optics, with emphasis upon the latter; study of wave phenomena such as polarization, interference, diffraction, and scattering; comparison of electromagnetic and mechanical waves. Prerequisite, Mathematics 118. Three class periods and one four-hour laboratory period a week. Offered in 1988–89 and alternate years.

211 Mathematical Physics
3 credits
The application of mathematics to physical systems. Topics studied are techniques of integration, vector calculus, Fourier analysis, complex algebra, and some matrix methods. Prerequisite, Mathematics 118.

212 Intermediate Mechanics
4 credits
Newtonian mechanics applied to the motion of particles and systems, conservation laws, motion of rigid bodies, central force problems. Prerequisite, Physics 211. Three class periods and one four-hour laboratory period a week.

309 (Topics in Quantum Physics)
3 credits
Intensive study of one or two areas of contemporary physics such as atomic physics, elementary particle physics, molecular physics, nuclear physics, quantum statistical mechanics, and solid state physics. Prerequisites, Physics 204, 211. Offered in 1988–89 and alternate years.

311 Intermediate Electricity and Magnetism
4 credits
Electrostatics in free space and in dielectric media, magnetostatics in free space and in magnetic media, scalar and vector potentials, electromagnetic induction, introduction to Maxwell's equations. Prerequisite, Physics 211. Three class periods and one four-hour laboratory period a week. Offered in alternate years.

312 Advanced Classical Physics
3 credits
Advanced topics in mechanics, and in electricity and magnetism. Lagrangean and Hamiltonian formulations of mechanics, Maxwell's equations, electromagnetic waves, relativistic dynamics; other topics chosen to meet the needs of the students enrolled. Prerequisites, Physics 212, 311. Offered in alternate years.

341; 342; 441; 442 Physics Seminar
1, 1, 1, 1 credit
Study of advanced topics in physics, emphasizing each semester one matter of particular importance to contemporary physics. Students are required to present material relevant to the topic. Prerequisite, a minimum of six semester hours of physics beyond the introductory level. One and one-half class periods a week. Offered on demand.

351; 352; 451; 452 Special Studies in Physics
0 to 3 credits
Directed study planned and conducted with reference to the needs of those students who are candidates for departmental honors in physics. Qualified students who are not candidates for such honors but who desire to undertake such work are also admitted.

402 Introductory Quantum Mechanics
3 credits
Origins of quantum theory, the Schrodinger equation, physical meaning of quantum mechanics, solutions of one- and three-dimensional problems. Prerequisites, Physics 204, 211, or permission of the instructor. Offered on demand.
Political Science (78)

Associate Professors Weber (Department Chair), Neal, and H. Smith; Instructor Nichols.

Areas of particular teaching interest: Professor Weber: international law, American foreign policy, political gaming and simulation; Professor Neal: judicial process, political theory, American political behavior; Professor Smith: state and local governments, public administration, national and Maryland elections and campaigns; Instructor Nichols: comparative politics of Western Europe, developing nations and communist nations, methodology of comparative politics.

The curriculum in political science is directed towards an understanding of national and international affairs with particular emphasis on preparing students for the study of law, for graduate school, and for responsibilities in political, administrative, educational, and social fields.

Opportunity is afforded to a limited number of students to participate in off-campus programs—the Drew University Semester at the United Nations or in Brussels, the Washington Semester at The American University.

Basic Major:

Required courses:

Political Science 201 is strongly recommended as background for advanced United States courses.

Political Science 204 is strongly recommended as background for international and comparative courses.

Desirable electives:
Additional political science, psychology, economics, history, literature, philosophy, and computer science.

Other Educational Options in Political Science:
Dual majors with Economics, English, a Foreign Language, History, Social Work, or Communication; Pre-Legal; Teacher Certification Secondary (7–12) Social Studies.

101 Introduction to Political Science
3 credits
An examination of the fundamentals of political science with emphasis on the nature of democratic and totalitarian governments, methods of studying political science, contemporary political ideologies, and the major factors shaping the development of modern governments.

151; 152; 251; 252 Directed Studies in Political Science
0 to 6 credits
Directed individual study.

201 American Political Institutions
3 credits
An examination of the structures and decision-making processes of the federal government. Special attention is accorded to executive-legislative relations and such linkage forces as lobbying, elections, and coalition-building.

202 State and Local Government
3 credits
Analysis of state, county, and urban politics and administration with emphasis on the evolving federal relationship, the development of strong governors and the emergence of complex state
bureaucratic organizations. Special attention is given to problems, prospects, and dynamics of Maryland.

203 International Law and Organization
3 credits
The study of international law in an organizing world. Special attention is given to new areas of the law, with emphasis on international organizations, individuals, space and environment.

204 World Politics
3 credits
An examination of major factors which condition international politics, with emphasis on national, imperialistic, and ideological factors involved.

207 American Public Policy
3 credits
An examination of the major theoretical, conceptual, and practical issues in the study of public policy and the policy process, with examples drawn from current issues in American public policy. This may include education, civil liberties, political economy, welfare, and energy.

213 Comparative Government
3 credits
Analysis and comparison of the political institutions and practices of selected western countries.

216 Political Participation and Public Opinion
3 credits
An examination of concepts and methods employed by analysis of political opinion with emphasis on the cultural and historical factors that influence the broad parameters of mass opinion. The various types of participation, the models used to explain participation in general, and the role played by parties, candidates, issues, and personal characteristics are discussed.

305 Public Administration
3 credits
An examination of the nature and development of public administration in the United States with attention to policies of organization, management, personnel, budgeting, forms of administrative responsibility, and governmental services.

308 Constitutional Law
3 credits
Introduction to the study of the principles of constitutional law as related to the changing political, social, and economic problems of the United States; the role of the Supreme Court in the political process.

310 Politics of Developing Areas
3 credits
An examination of forces shaping the new nations and their problems of transition.

317 Communist Political Systems
3 credits
A study of the political systems in the communist world. The course focuses principally on the Soviet Union and The People's Republic of China, with reference to other communist countries.

319 Civil Liberties
3 credits
A study of the First Amendment to the Constitution with an emphasis on the major Supreme Court decisions on Freedom of Speech, Press, and Assembly.

321 Classical Political Thought
3 credits
A survey of classical political thought from the ancient Greeks through the medieval period. The course emphasizes the concepts of natural law, Roman law, Church-state relations, and other topics relating to the political ideas of the period.

322 Modern Political Thought
3 credits
A survey of the ideas of the great political thinkers from Machiavelli to the present. The course examines the political ideas embodied in liberalism, conservatism, and various contemporary ideologies.

331 Comparative Regimes, Movements, and Ideologies
3 credits
An examination of the various political movements, ideologies, and their resulting regimes which compete for the hearts and minds of populations of nation-states. Case studies of totalitarian regimes, bureaucratic-authoritarian regimes, military and fascist regimes are analyzed as are the ideologies which either justify or legitimize them and the movements which brought them into existence.

351; 352; 451; 452 Directed Studies in Political Science
0 to 6 credits
Directed individual study.

401; 402 Contemporary Political Problems
3, 3 credits
An analysis of various topical or recurring problems in the area either of domestic or international politics. This course serves as a focal point for an integration of
methodology, theory, and substantive problem areas.

453 Honors Project
3 credits
An independent research paper for students who are candidates for departmental honors.

Off-Campus Programs

Washington Semester Program
To enable students to spend one term in specialized study of public affairs in the nation's capital, Western Maryland College participates in the Washington Semester Program sponsored and administered by The American University. Each semester students may study the American Government, the formulation of American foreign policy, the District of Columbia as an urban area, the administration of justice, problems of international development, or economic policy formulation, engaging in research projects, seminars, internships, and other formal courses at The American University. Credit earned becomes a part of the Western Maryland College record.

The United Nations Semester
A limited number of students have an opportunity to broaden their liberal arts study by participation in the Drew University semester at the United Nations. The students engage in observation and analysis of the United Nations on the scene in New York. In addition to a seminar and a research paper, participants may enroll in six to nine semester hours in the regular Drew University program. Students must be recommended by the Campus Coordinator. Credit earned becomes a part of the Western Maryland College record.

Drew Semester in Brussels
This program focuses on the politics of the European Community.

Students interested in any of the above off campus programs should contact the Political Science Department.

Pre-Professional Courses

Pre-Engineering
Students interested in becoming engineers can do so by first completing three years at Western Maryland College, and then completing an engineering program in two years at the University of Maryland (College Park), Washington University (St. Louis, MO), or another accredited engineering school. Successful completion of this program qualifies students to receive the B.A. degree from Western Maryland College and the B.S. degree in engineering from the engineering school.

Pre-Forestry
The Western Maryland College pre-forestry program is designed to allow students to prepare for study at the Duke University School of Forestry and Environmental Studies. The program prepares students to enter Duke University either after three years of undergraduate study or after completion of the baccalaureate degree. Students who wish to enter Duke University after only three years at Western Maryland College must meet the requirements of the "3-2 curriculum." Those who major in biology, chemistry, physics, economics, or business administration are also well-prepared for the program.

Pre-Legal
Law schools give preference to students with high grades and backgrounds of a broadly cultural and social education. A student may major in any department, but the most useful courses are those offering training in writing and speaking, literature, history, economics, and political science.
The Law School Admission Test Council and the Council of the Section of Legal Education and Admissions of the American Bar Association both advise against taking courses on a "credit/no credit" basis by students intending to go to law school.

Pre-Ministerial
A pre-ministerial student may major in any one of several departments: English, History, Philosophy and Religious Studies, Psychology, Sociology, for instance. The student should prepare a four year program with the assistance of an appointed adviser and the advisory officer of the department in which the major work will be done.

Pre-Occupational Therapy Studies
Western Maryland participates in a cooperative program with the School of Medicine of Washington University, St. Louis, Mo. Successful completion of this 5-year program qualifies the student to receive the Bachelor of Arts degree from Western Maryland together with the Bachelor of Science degree in occupational therapy from Washington University.

Pre-Physical Therapy Studies
Students interested in becoming physical therapists can do so by completing three years at Western Maryland and two years at the University of Maryland, School of Physical Therapy in Baltimore, MD. Successful completion of this 5-year program qualifies the student to receive the Bachelor of Arts degree from Western Maryland together with the Bachelor of Physical Therapy degree from the University of Maryland.

Pre-Professional Curriculum for the Health Sciences

Pre-Dental, Pre-Medical, Pre-Optometric, Pre-Podiatry, Pre-Veterinary
Admission standards of health professional schools in general are very similar to the graduation requirements of Western Maryland College. Professional schools either require or encourage entering students to have fulfilled the requirements of an academic major and to have studied a wide range of subjects including non-science courses. In addition, professional schools require that students achieve well above average grades in their studies and, usually, that students sit for an entrance examination. Some medical, nursing, and veterinary schools, however, require additional courses in science and non-science areas. The student should become familiar with the requirements of specific schools early through consultation with the Pre-Health Professions Adviser (Dr. Brown, Room 205, Lewis Hall of Science).

Pre-Nursing
Western Maryland College offers a cooperative program with the Nell Hodgson Woodruff School of Nursing of Emory University, Atlanta, Georgia, leading to the degree of Bachelor of Science in nursing. Students may apply to Emory after two years of undergraduate study at Western Maryland College.
**Psychobiology (80)**

Associate Professors Colyer and Orenstein (Advisers).

Recognizing that psychobiology has evolved as a focal point for theorizing and research, this major is designed to train the individual to investigate the linkages between psychological, physiological, and biochemical processes. Students majoring in psychobiology may prepare themselves for graduate study in psychology, biopsychology/psychobiology, animal behavior processes, neuropsychology, and for paraprofessional research positions in laboratories.

This program is administered by the Psychology Department.

**Basic Major:**

*Required Courses:*
- Biology 111, 112, 203, 316; Chemistry 103, 104; Psychology 106, 201, 216, 228, 329, and 3 additional approved hours in Psychology; Statistics 215.

*Desirable electives:*
- Biology 323; Chemistry 217, 218; Computer Science 106; Psychology 330; Statistics 216.

**Psychology (81)**

Professors W. Miller and Vernon; Associate Professors Colyer (Department Chair) and Orenstein.

*Areas of particular teaching interest:* Professor Miller: adulthood and aging, psychotherapy, and clinical neuropsychology; Professor Vernon: deafness, disability, psychodiagnostics, behavioral genetics; Professor Colyer: learning, comparative, and developmental psychology; Professor Orenstein: human memory, biofeedback, and perceptual learning.

Psychology is a pluralistic discipline with alliances in the natural sciences, the social sciences, and the humanities. This department reflects the diversity in the field. The course offerings focus on behavior in the broadest sense and are intended to provide the background for students electing a major to qualify for graduate study in psychology and related disciplines, to work in human service agencies (day care centers, rehabilitation departments, mental health clinics, youth service agencies, etc.), to prepare for social work through certification in social work, or to teach via certification in Elementary Education.

The department urges all interested and qualified students to pursue Departmental Honors via Special Studies in Psychology. This program encourages independent study and research.

**Basic Major:**

*Required Courses:*
- Psychology 106, 201, 211, 216, 218 and at least twelve additional hours; Biology 111 or 113 or 118; Sociology 103, 108; Statistics 215.

*Desirable electives:*
- Computer Science 106, Philosophy 222, Statistics 216.
Other Educational Options in Psychology:
Computer Science concentration, Manual Communication/Interpreting for the Hearing Impaired, Rehabilitation Counseling concentration, Social Work Certification, Teacher Certification Elementary (1–6).

Psychology 106 is prerequisite to all other courses in psychology.

106 Contemporary Psychology
3 credits
An introductory course designed to develop an understanding of the basic principles governing behavior, with emphasis on the scientific method of studying behavior. Intelligence, motivation, emotion, perception, learning, personality, and social factors that influence the individual are among the topics considered.

201 Psychology of Learning
4 credits
Overview of the fundamental principles of learning and memory and their applications for the understanding of behavior. Empirical and theoretical issues are examined. Students conduct laboratory experiments designed to illustrate principles and issues. Three class periods and one three-hour laboratory period a week. Laboratory work may extend beyond the allotted three-hour period.

202 Behavior Modification
3 credits
The study of the basic principles governing human behavior with emphasis on procedures for eliminating and acquiring desirable behaviors through cognitive or behavioral intervention, anxiety management and self-control. Special emphasis is placed on cognitive and self-regulatory processes.

207 Child Development
3 credits
Critical survey of research problems and theories pertaining to child behavior; review and application of principles of learning in early childhood. Three class periods a week and directed observation in the field.

208 Social Psychology and the Law
3 credits
Analysis of the behavior of the individual as a member of social groups with focus on the courts as social systems; includes such topics as social perception, attribution, bargaining and group decision-making.

211 Psychology of Abnormal Behavior
3 credits
The incidence, causes, treatment and prevention of disorganized behavior of persons.

216 Psychological Research
4 credits
A current treatment of the philosophy and methodology of the scientific method. Topics include all phases of design and analysis of research. The laboratory is designed to acquaint each student with procedures, techniques, and apparatus used in psychological investigations. Three class periods and one three-hour laboratory period a week. Laboratory work may extend beyond the allotted three-hour period. Prerequisite, Statistics 215, or permission of the instructor.

218 Psychological Assessment
3 credits
An introductory course in testing; a study of the construction, administration, interpretation, and use of tests of intelligence, aptitude, interests, and personality.

228 Animal Behavior
3 credits
A study of animal behavior in the context of evolution and ecology with emphasis on epigenetic and ethological approaches as they relate to the development of reproductive, feeding, and aggressive behaviors and sensory processes.

229; 230 (Special Topics in Psychology)
3, 3 credits
The study of particular topics in psychology including but not limited to: decision making, behavioral correlates of genetics, history and systems, behavioral medicine, expectancy covariation, advertising and consumer behavior, psychology of management, drugs and behavior, interviewing techniques, and personnel adjustment.

303 Theories of Personality
3 credits
An overview of the major contemporary theories of personality. Emphasis on the normal personality.
306 Adolescent Development and Behavior 3 credits
Critical survey of research problems and theories pertaining to adolescent development; review and application of principles of learning to adolescent behavior.

307 Psychology of the Exceptional Child 3 credits
An overview of the psychological effects of major exceptionalities including giftedness, deafness, blindness, mental retardation, brain injury, speech defectiveness, mental illness, and orthopedic problems, with the emphasis upon children and on the treatment, rehabilitation, and educational techniques available to serve persons with these exceptionalities. Three class periods a week and directed observation in the field.

308 Adulthood and Aging 3 credits
Psychological and personality changes from young adulthood through old age; adult socialization and the age status system; changing concomitants of family relationships, employment, leisure; and retirement; life review, reconciliation, and termination.

311 Psychology of Deafness and Profound Hearing Loss 3 credits
An examination of the effects of a lack of hearing on personality and behavior. The literature in this and related fields is interpreted in terms of its theoretical and practical meaning for persons with hearing losses and for professionals who serve in their habilitation and education. Through an understanding of the effect of auditory deprivation, the course offers insight into the role of hearing in the psychological development of those with normal hearing.

329 Physiological Psychology 3 credits
An analysis of the basic physiological mechanisms underlying human behavior with emphasis on the brain and central nervous system. Topics include genetics, behavioral development, emotion, learning, and memory.

330 Psychology of Perception 3 credits
An information processing approach to contemporary issues in perception. Topics include analysis of signal detectability, selective attention, taste perception, figure formation, illusions, visual stability, memory, novelty, and space, time and motion perception.

335 Helping Relationships 3 credits
An overview and synthesis of the theories and techniques of psychological counseling with emphasis on the development of skills that facilitate the helping and habilitative process.

338 Laboratory in Helping Relationships 3 credits
Supervised experience in a human service agency including on-campus seminar sessions designed to facilitate utilization of skills unique to the helping professions (counseling). Placement may include youth service agencies, mental health organizations, group homes, hospitals, etc. Prerequisites, Psychology 335 and permission of the instructor.

340 Neuropsychological Assessment 3 credits
A study of the behavioral correlates of brain dysfunction in humans with focus on neuropsychological assessment. Three class periods a week and laboratory/practicum.

351; 352; 451; 452 Special Studies in Psychology 0 to 3 credits
Directed individual study; open to advanced students in psychology who are candidates for departmental honors. Other qualified students may be admitted with the consent of the department.

Religious Studies (84)
See Philosophy and Religious Studies.
Reserve Officers Training Corps Program (86)

See Military Science.

Russian (87)

Sociology and Social Work

Professors Ashburn (Department Chair); Associate Professors Herrman, Rees, and Tait.

Areas of particular teaching interest: Professor Ashburn: criminology, law enforcement, complex organizations; Professor Herrman: social theory and stratification; Professor Rees: human relations in the work place, family; Professor Tait: social research, juvenile delinquency.

Students majoring in sociology may prepare for graduate study in criminal justice, liberal arts, management, social work, or theology as well as in sociology or can move directly into careers in law enforcement, business, social service or education.

The social work program prepares students for the practice of social work. This program is accredited by the Council on Social Work Education as meeting the standards for undergraduate social work programs preparing for practice. Graduates of this program can move directly into social work positions or may enter some graduate schools of social work with advanced standing. A limited number of students qualify to participate in off-campus programs such as those available in American urban centers, Appalachia and abroad.

Sociology (90)

Basic Major:

Required courses:
Sociology 103, 319, 351, and at least fifteen additional hours, including nine hours chosen from 108, 203, 212, 316; Social Work 214 or Psychology 208; Economics 101 or 203; Political Science 201, Psychology 106; Statistics 215.

Other Educational Options in Sociology:
Criminal Justice, Management, Teacher Certification (K–6), Pre-Theology.

Sociology 103 is prerequisite to all other courses in sociology except Sociology 108 and 245.

103 Introductory Sociology
3 credits
The analysis of social organization, the nature of culture, personality, groups and associations; sociological definitions, concepts and usages are emphasized as basic to a sound sociological perspective.

104 Sociology of Deviance
3 credits
The study of development, enforcement, and violation of societal norms. Use is
made of recent theoretical perspectives relative to the concept of deviance.

108 Cultural Anthropology
3 credits
A study of culture, with material drawn from both primitive and complex societies.

202 The Family
3 credits
A study of the contemporary American family; its variety of patterns; its reaction to stress; and its function in a rapidly changing society.

203 Urban Sociology
3 credits
The study of the differentiation of social structures and functions within urban communities; ecological processes involved in the growth of cities and metropolitan areas; an analysis of urbanism as a way of life.

205 Criminology
3 credits
Theoretical aspects of criminal behavior as well as the justice system itself are examined in detail.

206 Religion and Society
3 credits
An investigation of the varieties of religious belief and practice; religious institutions and their effect upon the individual; how a society affects its religious institutions and how religious institutions affect society. Offered in 1988–89 and alternate years.

208 Social Psychology and the Law
See Psychology 208.

210 Population
3 credits
The composition, growth, distribution, and changes in population of the United States and other areas of the world. Offered in 1989–90 and alternate years.

212 Social Stratification and Inequality
3 credits
A survey of classical and contemporary theories and research dealing with the development and consequences of inequality in small groups and large societies. Topics include the emergency of hierarchies in groups, distributive justice and status consistency, class conflict, social mobility, and the relations between status and conformity deviance. Offered in 1988–89 and alternate years.

245 Ethnography of The American Indian
3 credits
An archaeological and ethnological analysis of Indian cultures in the Americas from the early hunters to the high cultures of Maya, Inca, and Aztec. Offered in alternate years.

308 Adulthood and Aging
See Psychology 308.

309 Penology and Correction
3 credits
A study of the historical development of punishment and correction, with material drawn from ancient to present day practice. Prerequisite, Sociology 205.

310 Juvenile Delinquency
3 credits
A study of the causal conditions, prevention, and treatment of delinquency. Several field trips are made to local agencies to investigate ways in which society is dealing with the problem.

314 Law Enforcement and Criminal Justice
3 credits
The organization and function of law enforcement agencies; an analysis of the most effective organized approaches to social control; an overview of law enforcement and the prosecutors' function within the criminal justice system; comparison between democratic and totalitarian systems of law enforcement. Prerequisite, Sociology 205.

316 Complex Organizations
3 credits
A study of complex business, industrial, and governmental organizations as operating social systems; emphasis upon patterns of relationships within these organizations and the nature of relationships between large scale organizations and society.

319 The Development of Sociological Theory
3 credits
The development of social theory with major emphasis on the contribution of the eighteenth and nineteenth centuries to the understanding of current concepts and systems of sociological thought. Prerequisite, twelve semester hours of sociology. Offered in alternate years.

325 Human Relations in Management
3 credits
Provides the student with basic skills designed to manage people effectively. Emphasis is on developing effective communication and motivation techniques and applying skills in various management situations. The team approach to management is introduced and methods to develop a more effective leadership base.
within the group process are illustrated.

328 Liberation Movements and Human Freedom
3 credits
The contribution to the current Native American, Black, Chicano, Gay, and Women's movements to an understanding of human liberation, viewed from the perspective of Paulo Freire's typology of oppression, with special reference to the social, political, and religious forces making for oppression and for liberation.

351 Methods of Social Research
3 credits
The application of the basic techniques of social research to the study of various sociological phenomena. The emphasis is upon the student designing and completing a research project. This course is required of all junior sociology majors.

Social Work (91)

Basic Major:

Required courses:
Sociology 103, 108, 202, 328; Social Work 102, 214, 217, 218, 322, 349, 409, 415, 416, 417, 418; Biology 113; Economics 101; Political Science 207; Psychology 106, 202, 208; Statistics 215.

102 Introduction to Social Work
1 credit
An overview of the function of social work in the social welfare service system. Emphasis on characteristics of social work as a helping profession and the expectations of persons trained in this field.

214 Patterns of Socialization
3 credits
A theoretical base for understanding individuals as they develop and have membership in families, groups, organizations and communities. Emphasis on interaction of persons and society against the background of varied societal opportunities and expectations; integration of related social science knowledge.

217 Social Welfare as a Social Institution
3 credits
An overview of social welfare in modern America, emphasizing its historical development and current institutional nature. Analysis of social agencies and the social work profession functioning in this system with consideration of programs designed to meet identified needs and social problems.

218 Social Welfare Policy
3 credits
An analysis of the process of social welfare policy development with an evaluation of the effectiveness of policies and programs in selected fields of service.

318 Social Work in Special Practice Fields
3 credits
An in-depth study of programs and policies in a specialized area of social service. Unique needs of the service population and appropriate interventive techniques are emphasized. Offered every third year.

322, 409 Social Work Practice I, II
3, 3 credits
Provides the knowledge, skill, and affective preparation necessary for entry level generalist practice in social work. Focus is on training students to use a variety of interventions in work with a wide range of problems experienced by people as they interact with their environment. Prerequisite, Social Work 217.

349 Methods of Social Work Research
3 credits
The application of the basic techniques of social research to the study of social work problems and programs. Research projects for commu-
nity social agencies are conducted by students. Prerequisite, Social Work 217.

415, 416 Field Instruction Seminar I, II
2, 2 credits
Weekly seminar focusing on integration of social work concepts and theories with field instruction. Assignments are related to students' agency experiences. To be taken concurrently with Field Instruction in Social Work I, II.

417, 418 Field Instruction in Social Work I, II
4, 4 credits
Supervised experience in the practice of generalist social work in a community social agency. Students assume direct service responsibility using a variety of social work methods and roles. Each student is assigned to a specific agency for the year. Sixteen hours of field instruction per week. To be taken concurrently with Field Instruction Seminar in Social Work. Prerequisite, permission of the department.

453; 454 Special Studies in Social Work
0 to 3 credits
Directed study planned and conducted with reference to the needs of those students who are candidates for honors in Social Work. Qualified students who are not candidates for such honors but who desire to undertake special work in the department are also admitted.

Off Campus Program

The Appalachian Semester
Western Maryland College participates in a specialized program of study at Union College in Kentucky. The Appalachian Semester offers mature students a unique educational opportunity to devote their full time to studying the Appalachian region—its strengths, its problems, and its challenges.

Spanish (93)
See Foreign Languages.

Statistics (96)

Professors Law and Seidel; Associate Professors Claycombe and Olsh.

No major is offered in this field.

215 Elementary Statistics for Social Science
3 credits
Basic statistical principles and techniques; summarizing and presenting data; measuring central tendency and dispersion in data; basic concepts of probability and probability distributions; estimation of parameters and testing of hypotheses through statistical inference; linear regression and simple correlation. Examples are used from all of the social sciences. Not open to students who have completed Mathematics 324.

216 Statistical Method
3 credits
Emphasis on underlying assumptions, limitations, and practical applications of modern statistical methods. Specific statistical techniques such as time series analysis, analysis of variance, chi-square and non-parametric techniques, regression and correlation, multiple regression and correlation, index numbers, and decision theory; introduction of application of the computer to statistical analysis. Prerequisite, Statistics 215 or Mathematics 324.
No major is offered in this field. Studying abroad can be an important and exciting part of students’ college programs. Students majoring in most disciplines can find programs abroad which will complement their Western Maryland College courses of study.

The College has entered into formal association with the programs listed below. Many other options for world-wide study are also available. The exchange program with Nagasaki Wesleyan Junior College provides an opportunity for a minor in Japanese Civilization.

001 Study Abroad—Central College of Iowa  
12–30 credits
Courses offered include cultural, liberal arts, and, in the foreign language centers, intensive language study. Central College has programs in London, Wales, the Netherlands, Yucatan, France, Austria, and Spain. *Students may enroll for one or two semesters depending on the program.*

002 Study Abroad—University of Maryland  
12–30 credits
Courses offered vary depending on the program locale but include cultural, traditional liberal arts, and business. The University of Maryland has study opportunities in London, Copenhagen, and Israel. *Students may enroll for one or two semesters depending on the program.*

003 Study Abroad—Sweet Briar College  
12–30 credits
Language and culture courses are emphasized. Sweet Briar College offers a one-year program in Paris and one semester or a year of study in Seville.

004 Study Abroad—American Institute for Foreign Study (AIFS)  
12–30 credits
Traditional liberal arts courses as well as local specialized courses are offered. The American Institute for Foreign Study has established programs in Great Britain, the Republic of Ireland, Austria and Germany, France, Italy, Spain, Switzerland, and China. *Students may enroll for one or two semesters.*

005 Study Abroad—Marymount College  
12–30 credits
Liberal arts courses are emphasized. Marymount College offers study locations in the United Kingdom and Australia. *Students may enroll for one or two semesters depending on the program.*

006 Study Abroad—Heidelberg College  
12–30 credits
Liberal arts curriculum offered at the University of Heidelberg in Heidelberg, Germany. *Students may enroll for one or two semesters.*

007 Study Abroad—Syracuse University  
12–30 credits
Courses offered include traditional liberal arts, cultural, and languages. Syracuse University has study centers in England, France, Germany, Israel, Italy, and Spain. *Students may enroll for one or two semesters depending on the program.*

008 Study Abroad—Alma College  
12–30 credits
Language and liberal arts courses are offered. Alma College offers programs in Madrid, Paris, Mexico City, and Kassel, Germany. *Students may enroll for one or two semesters depending on the program.*

009 Study Abroad—Academic Year Abroad  
15–30 credits
Diverse liberal arts curriculum offered. Academic Year Abroad offers study opportunities in Paris, Madrid, Siena/Milan. *Students may enroll for one or two semesters depending on the program.*

010 Study Abroad—Saint Louis University  
12–30 credits
All levels of Spanish and intermediate and advanced French courses with liberal arts subjects. Saint Louis University has programs in Paris and Madrid. *Students may enroll for one or two semesters depending on the program.*
011 Study Abroad—
Nagasaki Wesleyan Junior College
30 credits average
Courses offered include Japanese language, customs, literature and history. Students may earn a Japanese Civilization minor. Students enroll for the academic year.

012 Study Abroad—
Harlaxton College
12–30 credits
Traditional liberal arts curriculum offered at Harlaxton College, which is the British campus of the University of Evansville. The College is a former nineteenth century manor house in the County of Lincolnshire about an hour's travel from London. Students may enroll for one or two semesters.

First Semester

Registration of freshmen/transfer students ............................................... To be announced
Daily class schedule begins, 7:50 a.m. .................................................. Mon., Sept. 5
Last day to add a class, 4:30 p.m. ......................................................... Mon., Sept. 12
Last date for course drops and Credit/No Credit applications, 4:30 p.m. ........ Mon., Sept. 19
Midsemester grades are due in the Registrar's Office, 12 noon ......... Fri., Oct. 14
No classes ................................................................. Mon. & Tues., Oct. 24 & 25
Last date for withdrawal from courses with “W” grade, 4:30 p.m. .......... Tues., Oct. 28
Thanksgiving recess begins, 7 p.m. ....................................................... Tues., Nov. 22
Classes resume, 7:50 a.m. .............................................................. Mon., Nov. 28
First semester classes end ............................................................. Fri., Dec. 9
Reading Day(s) .............................................................. Sat. & Sun., Dec. 10 & 11
Examinations begin ................................................................. Mon., Dec. 12
First semester ends ............................................................. Sat., Dec. 17
Final grades due in Registrar's Office, 10 a.m. ............................... Tues., Dec. 20

January Term

January Term begins, 10 a.m. ......................................................... Wed., Jan. 4
Last day for course changes, 4:30 p.m. ................................................ Thurs., Jan. 5
Last date for withdrawal from courses with “W” grade, 4:30 p.m. .......... Tues., Jan. 10
January Term ends; winter recess begins ........................................... Tues., Jan. 24

Second Semester

Second semester classes begin, 7:50 a.m. ........................................... Mon., Jan. 30
January Term final grades due in Registrar's Office, 10 a.m. ............... Fri., Feb. 3
Last day to add a class, 4:30 p.m. ......................................................... Mon., Feb. 6
Last date for course drops and Credit/No Credit applications, 4:30 p.m. . Mon., Feb. 13
Midsemester grades are due in the Registrar's Office, 12 noon .......... Wed., Mar. 15
Spring recess begins, 7 p.m. ............................................................. Fri., Mar. 17
Classes resume, 7:50 a.m. .............................................................. Mon., Mar. 27
Last date for withdrawal from courses with “W” grade, 4:30 p.m. .......... Wed., Mar. 29
Honors & Investiture Convocation ......................................................... Sun., Apr. 30
Second semester classes end ............................................................. Fri., May 5
Reading Days ................................................................. Sat. & Sun., May 6 & 7
Examinations begin ................................................................. Mon., May 8
Examinations end ................................................................. Sat., May 13
Senior Week ................................................................. Sun.–Fri., May 14–19
Final grades due in the Registrar's Office, 10 a.m. ............................... Tues., May 16
Commencement ................................................................. Sat., May 20
