The College reserves the freedom to change any programs, policies, requirements, or regulations published in this catalog.

Western Maryland College admits students of any race, color, religion, national and ethnic origin to all the rights, privileges, programs, and activities generally accorded or made available to students at the college. It does not discriminate on the basis of race, color, religion, national and ethnic origin in administration of its educational policies, admissions policies, scholarship and loan programs, and athletic and other college-administered programs.

Western Maryland College does not discriminate on the basis of sex in the educational programs or activities which it operates and is required by Title IX of the Education Amendments of 1972 and regulations of the Department of Health, Education, and Welfare not to discriminate in such a manner. The requirement not to discriminate extends to employment at Western Maryland College.

Inquiries concerning Title IX can be referred to Title IX coordinator, Western Maryland College.

Western Maryland College does not discriminate on the basis of handicap in admission or access to the college, in treatment or employment, or in the educational programs or activities which it operates. The responsible employee designated to coordinate compliance efforts with the 504 Regulation is Dr. William Miller.
The College

Western Maryland College is located on a 160-acre campus in Westminster, Maryland. It is 28 miles from Baltimore on Route 140 and 58 miles from Washington, D.C. on Maryland Routes 27 and 97.

Western Maryland College is a liberal arts institution accredited by the Middle States Association of Colleges and Secondary Schools. It holds membership in The American Association of Colleges for Teacher Education and has program approval from the National Association of Schools of Music and the Council on Education of the Deaf. The College is on the approved list of the American Association of University Women.

The College is coeducational, the first institution south of the Mason and Dixon Line to open its doors to both young men and young women. It was founded in 1867 and chartered in 1868.

Philosophy and Objectives

Western Maryland College, as an educational institution dedicated to the liberal arts as a vital aspect of our culture, believes it can effectively further its purposes through appropriate graduate studies for professionals, in the fields of education and the liberal arts. The development of responsible and creative graduates clearly entails commitment to develop an environment open to the pursuit of truth and the growth of professional attitudes, ethical values, and critical judgment. This philosophical perspective and practice, intrinsic to the educational environment of Western Maryland College, must necessarily pervade its graduate programs.

The consequent involvement of graduate students in leadership roles in academic activities and in opportunities to demonstrate and strengthen personal integrity by participation in the program requirements furthers the realization of such relevant characteristics as mature judgment and skill in human relations essential to excellence in their professional situations.

The Master of Liberal Arts program is an extension of the College's long tradition in study of liberal arts at the baccalaureate level. It is a non-research degree focusing upon a balanced program in varied liberal arts fields.

The graduate program leading to a Master of Education is designed to develop educators who will have:
1. a familiarity with the broad fields of knowledge and their relationships to each other.
2. an enriched background in their area of specialization.
3. an understanding of those concepts in education which will enhance effectiveness.
4. increased leadership potential through the ability to recognize educational problems and to design and perform studies to seek inferences about them.
Calendar

*Summer Session
**First term begins .......... Wednesday, June 20
First term ends .......... Friday, July 20
Second term begins .......... Tuesday, July 24
Second term ends .......... Wednesday, August 22

Fall Term
First semester begins .......... Wednesday, September 12
Thanksgiving recess begins .......... Wednesday, November 21
Classes resume .......... Monday, November 26
Semester ends .......... Friday, December 21

Spring Term
Second semester begins .......... Monday, February 4
*Spring recess begins .......... Monday, March 24
Classes resume .......... Monday, March 31
Semester ends .......... Friday, May 16
Commencement .......... Saturday, May 24

*Schedule may vary in off-campus centers.
**No classes July 4.

OFFICERS OF ADMINISTRATION
Ralph Candler John, Ph.D., President
William McCormick, Ph.D., Vice President: Dean of Academic Affairs
James F. Ridenour, M.S., Vice President for Development
Philip Blettner Schaeffer, A.B., Vice President for Business Affairs and Treasurer
C. Wray Mowbray, Jr., M.A., Vice President: Dean of Student Affairs

GRADUATE AFFAIRS COMMITTEE
Robert P. Boner, Ph.D.
Leonard S. Bowlsbey, Ph.D.
H. Samuel Case, Ph.D.
Donald E. Jones, Ph.D.
William McCormick, Ph.D.
Raymond C. Phillips, Jr., Ph.D., Chairman
Donald R. Rabush, Ed.D.

Leonard S. Bowlsbey, Ph.D., Associate Dean for Graduate Studies
Nancy L. Clingan, Executive Secretary
Jeanette Witt, Administrative Assistant
Hilbert Hughlett Dawkins, Jr., M.Ed., Registrar
Jack A. Morris, M.B.A., Business Manager and Assistant Treasurer
The Program

Graduate courses are conducted during late afternoon and evening hours except during the summer. Residence hall facilities are open to graduate students during the summer and in limited amount during regular terms.

Master of Liberal Arts

The M.L.A. program consists of 30 semester hours divided as follows:
12 hours in at least 3 different departments in CULTURAL HERITAGE (+)
6 hours in at least 2 different departments in CONTEMPORARY SOCIETY (#)
3 hours in the CREATIVE PROCESS (@)
9 hours of elective graduate credit

Note: Courses in each category are designated on pp. 9-24.

Master of Education

The M.Ed. program is available with the following areas of concentration:
- Educational Administration (27A)
- Education for the Deaf (27D)
- Elementary Education (27E)
- Guidance and Counseling (27G)
- Mathematics Education (57)
- Media (27M)
- Physical Education (72)
- Reading (27R)
- Secondary Education (27X)
- Special Education (27S)

M.Ed. programs are available with or without thesis. Thesis programs include 30 credits; non-thesis programs require 33 credits and a comprehensive examination.

All programs are divided into three parts as follows:
1. Area of specialization — 12 to 18 hours.
2. Education — 6 to 9 hours including Introduction to Educational Research (27:550).
3. Synthesis — 9 hours in courses covering broad fields supporting the area of concentration, including Trends in American Thought (01:510).

Students enrolling in M.Ed. programs must confer with the appropriate faculty advisor at the time of entrance in order to design a program. Student handbooks, available through advisors, explain program requirements in detail. Programs will vary in accordance with the backgrounds and goals of individual students. Approved programs for state certification usually require additional hours beyond the degree.

Certificate of Advanced Study in Education for the Deaf

Students who have earned master's degrees in education for the deaf may enroll for a program leading to an advanced certificate in this field. This program, to be designed in conference with the faculty advisor, includes 21 hours of work, at least 12 hours at the 600 level and none below 500 level.

Admission Requirements

Admission to Graduate Study is based on the following:
1. A baccalaureate degree from a college or university of recognized standing.
2. An academic background appropriate for graduate study in the candidate's chosen field.

Matriculation

Anyone with a bachelor's degree may enroll for graduate work without a formal admissions procedure. Students entering a program leading to a master's degree must file an application including names of references, and transcripts of bachelor's degree work. The sub-committee on matriculation from the faculty Graduate Affairs Committee will select students for degree candidacy on the basis of:
1. recommendation of faculty advisor
2. references
3. transcripts of previous academic work
4. grades in the first 9 hours of study at WMC — to include at least 6 hours in the area of concentration
5. score on the English Fluency Test

A test on English fluency will be administered by the College three times a year in February, July, and October. Fees are payable directly to the college ($10).

Policies

All graduate programs are governed by the following policies:
1. Matriculation toward a master's degree may be achieved after 9 credits of work. However, a minimum of 15 credits must be completed following matriculation.
2. While Western Maryland College offers graduate work at several off-campus centers, a minimum of 15 credits of the total must be taken on campus.
3. A maximum of six transfer credits may be accepted from other accredited institutions.
4. In a total 30-credit program, 6 hours may consist of undergraduate courses listed for graduate credit (e.g. 81:311G). Additional work will be required of graduate students in these courses.

5. A maximum load of 6 hours is strongly recommended for part-time students in regular terms and for all students during the summer session.

6. To remain in good standing, graduate students must maintain a grade-point average at WMC (calculated on 4 points for an A, 3 for B, 2 for C) on the following basis:
   - 2.5 for matriculation and through first 18 hours
   - 3.0 at 21 hours and thereafter.

   Students whose records fall below levels established above will be placed on academic probation and their records so marked. Students will be academically dismissed if grade index for graduate hours attempted falls below 2.0 upon accumulation of 9-18 hours; 2.5 after completion of 21 hours. Such students may appeal dismissal to the matriculation subcommittee of the Graduate Affairs Committee at that time or prior to subsequent desire to return to the College.

The following pertain to M.Ed. students only:

1. Only matriculated students are eligible for Introduction to Educational Research.

2. Once thesis credit is begun, the student must remain in continuous registration at the College (except in summer sessions) until the thesis is approved. If all course work is completed, registration is required for zero-credit at the rate of one credit hour per semester.

3. Comprehensive examinations should be taken after study in the area of concentration is complete, preferably during the last term before graduation. The test is administered three times a year in February, July, and October. These should be scheduled after consultation with faculty advisor.

4. Credits earned in internship courses apply toward certification, but not in the 30 credits required for the M.Ed.

Evaluation

The College grading system — A, B, C, F, and I — is used to report the quality of credit. An average of B must be maintained.

Course work reported “incomplete” must be completed within one year from date of record if a credit grade is to be given.

Withdrawal

In case of withdrawal from a course, the student must notify the Graduate Office in writing. The grade of W will be recorded if withdrawal occurs before the announced date. If a student’s enrollment is terminated by the College for non-payment of fees, a $25 reinstatement fee will be added before that course may be resumed. If the course is not resumed, the reinstatement fee will be due before subsequent course enrollment.

Library

Graduate students are entitled to use the library facilities under the same conditions as undergraduate students. The student should learn the library regulations as early as possible, for it is important that the graduate student realize his obligation to conform with all library regulations.

Western Maryland’s library contains more than 115,000 volumes. New titles are added monthly. The collection of materials is extensive and varied as is suitable for a liberal arts college. It is also a depository for government documents.

Graduation Requirements

The following steps are required to become eligible for the master’s degree:

1. Completed course work commensurate with the degree with a B or better average (WMC courses), of which at least 15 semester hours must have been taken on the campus at Westminster.

2. Completion of the program within a period of six years. (Students whose course work extends back beyond this time may be required to update their studies with additional hours.)

3. Students completing work are responsible for notifying the Registrar at the beginning of their final semester.

Deadline for thesis approval and/or graduation eligibility:

April 15 for June completion of degree requirements

August 15 for August completion of degree requirements

December 15 for January completion of degree requirements

Fees

Tuition: $66 per credit hour; $10 for each course must be paid at the time of registration. This is non-refundable (unless the college cancels the course) but is part of the total tuition. The balance is due upon receipt of bill; enrollment is
cancelled on accounts not paid within 30 days (14 days in summer sessions).

Application Fee: $10. Payable once with application for a program leading to master's degree and/or certification.

Graduation Fee: $8.

Test Fees: $10. For college-administered tests: the English fluency test and the comprehensive exam for eligible M.Ed. graduates.

Internship: $200 additional fee may be required.

The College reserves the right to increase charges if costs rise significantly.

Optional Fees:

Room and Board

Regular Residence Halls: two or more per room — $725 per semester (+ $25 for single occupancy); $260 per 5-week summer term (+ $15 for single occupancy).

Financial Aid

A limited amount of financial assistance is available to full-time graduate students. The nature of these openings and the person from whom to seek additional information follow:

1. Employment as head resident in college housing: Associate Dean of Students.
2. Employment as graduate assistant in Education: Chairman, Education Department.
3. Employment as graduate assistant in Physical Education: Chairman, Physical Education Department.

Students may also seek low-interest loans through a federally funded program, the Guaranteed Student Loan Program. Maximum loan amounts vary from state to state. In Maryland, for an academic year, graduate students may receive up to $2000 through their local bank. Students who qualify receive a loan which does not accrue interest until after graduation.

As far as loans through the College are concerned (the National Direct Student Loan Program, for example), there are no such programs on the graduate level.

Teaching Certificates

Western Maryland College M.Ed. programs are Maryland approved under the "program approval" concept in the following fields: administration, counseling, education for the deaf, media, reading, and special education. Under current reciprocity agreements, certification is granted to graduates in Maryland and many other signatory states.

College Events

A calendar of events of interest to the college community is available at the Information Desk in Decker College Center. A full program of cultural and recreational activities is presented by the Student Government Association, the Office of College Activities, musical organizations and the Drama Department. Most programs are open to the entire College community. Inquiries should be directed to the Office of College Activities.

Career Services

The Office of Counseling and Career Services makes available to graduate students upon request a credential service. There is no charge to establish a credential file but a fee of one dollar per copy of the file will be required in advance to cover the cost of duplicating and mailing. The office also maintains and circulates a job placement bulletin every two weeks. Copies of the bulletin are available in the Graduate Affairs Office and are posted on the main bulletin board on the middle level of Decker College Center.

Decker College Center

The use of Decker College Center is available to graduate students on the same basis as undergraduates. The College Center houses lounges, TV areas, grille, post office, bookstore, and game rooms. Mail box assignments are available to resident graduate students upon request. A WMC student I.D. card is required for use of the College Pub.

Food Services

The College has one dining hall with cafeteria-style meals and a college grille. Although designed to serve residents on the full board plan, other students may purchase meals in the dining hall at guest rates. The grille located in Decker College Center operates on an a-la-carte basis. Hours and regulations may be found in the Graduate Student Handbook and are posted in the appropriate areas.

Health Services

The facilities of the College Infirmary are available to all currently enrolled full-time graduate students living in college residence facilities during the regular academic year at a cost of $8.00 per visit. Medication used for very frequent
diseases is supplied at no cost. Special medications prescribed by either the student's personal physician or the college physician must be obtained at the student's own expense. Infirmary services do not cover fees for specialists, laboratory tests, x-rays, allergy shots, immunization shots, visits to the doctor's office, etc. There is a fee for the GYN clinic. The College has no financial obligation for any service rendered by the hospital, including treatment done in the emergency room. Dispensary and doctor's hours are listed in the Graduate Student Handbook and are posted in the Infirmary.

Housing Services

A limited amount of housing services are offered to graduate students. A listing of off-campus apartments and rooms for rent are available for inspection in the Office of Student Affairs.

Students may make application to the Associate Dean of Students for assignment to housing space on campus, but a very limited amount of space is available. Rooms are assigned on a semester basis and a non-refundable deposit is required.

I.D. Cards

The use of numerous campus facilities and admission to some events is limited to students with a Western Maryland College I.D. card. Cards are available for each currently enrolled graduate student.

Privilege of Attendance

Western Maryland College extends to qualified graduate students the privilege of attendance. The College expects and will require of all its students cooperation in developing and maintaining high standards of scholarship and conduct.

The College wishes to emphasize its policy that all students are subject to the rules and regulations of the College currently in effect or which may be put into effect by the appropriate authorities of the College. Guidelines are listed in the Graduate Student Handbook available in the Student Affairs Office and the Education Department.
Courses of Instruction

In addition to these courses, certain 300 and 400-level undergraduate courses are offered for graduate credit. Such offerings will be listed in course announcements by undergraduate number and a G suffix letter.

Classes are held in late afternoon and evening except during the summer session.

The M.L.A. program consists of 30 semester hours divided as follows:

(+) Cultural Heritage
(#) Contemporary Society
(@) Creative process

CHEMISTRY (15)

# 15:504 Energy: Harnessing and Utilization  
An in-depth study of the present energy situation with emphasis on present and future technologies to meet the current and future energy demands of this nation and the world.

COMPARATIVE LITERATURE (17)

+ 17:501 The Metamorphosis of the Hero in World Literature  
Readings from Eastern and Western literature, ancient and modern. Beginning with the ancient epic and tragic heroes of Homer and Greek tragedy, this course traces the changing types of the hero down to modern existentialism.

+ 17:502 Utopias in Literature  
Beginning with the classical statements of Plato and Sir Thomas More, this course then emphasizes modern treatments of utopia in the works of Dostoevsky, Zamiatin, Huxley, Orwell, and B.F. Skinner.

COMPUTER SCIENCE (19)

# 19:505 Introduction to Computer Programming  
Computer fundamentals such as logic, algorithms, flowcharting, and the study of the FORTRAN programming language on a time-sharing system. Emphasis is placed on the effective use of computers in solving numeric problems.

# 19:506 The Computer, the Individual, and Society  
An introduction to the use of a time-sharing computer system and a survey of the various uses and effects of computers in today's society. The BASIC programming language is used to solve elementary numeric and non-numeric problems. This course is particularly appropriate for teachers who should have the background to discuss with their students applications of computers and the decisions society is likely to face regarding computers.

# 19:527 Computer Uses in School Administration  
Specific computer applications to school administration are discussed and evaluated. Areas of concern including scheduling, record control, curriculum, and institutional research.

# 19:528 Computer Uses in Career Guidance (formerly 19:504)  
This course deals with the new trend in the use of the computer and terminal devices for providing direct assistance to students in the making of educational and vocational decisions. Topics include the rationale for use of computer-assisted guidance systems, description of available systems, cost and effectiveness of systems, role of the counselor and computer, and direct experience with development of guidance materials for computer delivery.

DRAMATIC ART (21)

# 21:511 The Oral Study of Literature  
The study, adaptation and performance of various forms of literature in order to interpret and communicate to an audience a literary work in its intellectual, emotional and aesthetic entirety.

# 21:512 Theatre for Children  
Approaches to children's theatre, creative dramatics and dramatic literature; writing, directing and staging of plays for children with emphasis on the techniques and methods of play construction and production.

# 21:515 Introduction to Acting and Interpretation  
An introduction of the elements of self-awareness and theatrical expression for the beginning actor/interpreter.

ECONOMICS (24)

# 24:501 Economics of Environment  
The biological and economic crises of contemporary man, the impact of increasing resource use of growing populations, and of affluence on the structure and function of the ecosystem; policies for conservation and preservation of the environment.

# 24:502 Current Economic Problems  
Topics for study will be selected from the following: pollution, growth, urban problems, poverty, health, education, transportation, population, agriculture, international trade and finance, labor, inflation, unemployment, and energy.
EDUCATION (GENERAL) (27)

27:501 History and Philosophy of Education 3 credits
Central philosophical concepts with a study of their effect upon the theory and practice in American education

27:505 Methods of Pupil Appraisal 3 credits
Nature, function, and use of measurements in the appraisal of educational products and aspects of personality. Both standardized and non-standardized instruments are included; attention is given to the application of procedures in pupil classification, guidance, evaluation, and prediction.

27:508 Law-Related Education 3 credits
The purpose of this course is to update the participants' knowledge, understanding and skills for teaching law and justice in the elementary, middle, and high school level. Participants will improve skills through experiencing simulation, inquiry, field study, case study method and other innovative techniques. Resource persons, such as lawyers, judges, law enforcement officials, etc., will assist the instructor.

27:510 Foundations of Curriculum 3 credits
An analysis of curriculum theory and the various forces influencing curriculum decisions: learning theory, philosophy of education, school goals, subject disciplines, the community, and society at large. Curriculum models in current use will be studied and evaluated in terms of both cognitive and affective goals.

27:511 Curriculum Design 3 credits
An analysis of present curriculum development and designs with attention to several models of implemented curriculum are studied; strategies for curriculum design are examined, and specific proposals for implementation are developed and evaluated in detail.

27:512 Seminar: Trends in Curriculum 3 credits
A study of new directions in curriculum — local, regional, and national — as indicated by current literature of the field. Implications of these trends will be projected, based on standard forecasting techniques.

27:550 Introduction to Educational Research 3 credits
Prerequisite — matriculation in the master's program or permission of instructor.
The fundamentals of research techniques including procedures for the development of research paper in curriculum evaluation: topic selection, reviewing the literature, constructing hypotheses and designing the experiment. A discussion of elementary statistical devices is included.

27:551 Special Studies in Education 3 credits
Prerequisite — matriculation completion of nine hours or more in the area of concentration, and permission of instructor.
Independent study and research under the guidance of a faculty member in the educational field under study.

27:552 Internship 3 credits
A semester under the guidance of a faculty member in an actual teaching situation. Supervision during this period will be shared by the college and the supervising staff of the institution involved.

27:553 Internship 3 credits
Continuation (when required) of 27:552.

Subject Methods
The following courses are designed to provide a detailed study of the specific educational problems pertinent to the teaching of each discipline.

27:503 Seminar: Teaching Public School Art 3 credits
A group investigation into differing art teaching techniques with emphasis placed upon proper classroom activities for attainment of specific objectives. Preparation of plans which will establish these goals will be an activity of the group.

27:522 Creative Dynamics in the Elementary Classroom 3 credits
A course for teachers who are interested in supplementing cognitive skills and knowledge in the creative application of the lively arts and other dynamic forms as a dimension in classroom instruction. Setting conditions for creative teaching are explored and developed through practical integration utilizing literature, drama, movement, arts, crafts, music, verbal and non-verbal communication.

</tbody>
</table>
27A:510 School Labor Relations 3 credits
A study in organized labor groups as they pertain to education. Topics to include negotiations, salary disputes, fringe benefits, unions, etc.

27A:513 School-Community Relations 3 credits
Elements of successful school-community relations programs. A study of the role of the school as it relates to society and the relationship between social and educational problems.

27A:516 Case Studies in School Administration 3 credits
Analysis of case studies dealing with problems in school administration is the focus of the course. Students will examine the cases, propose alternative responses, and evaluate the probable effects of each response.

27A:517 Seminar: Human Relations in Administration 3 credits
This course is a study of affective concerns in the management process. Through a study of current literature on human relations development, the student will review various interaction models and apply them in situations requiring accurate perception of client needs and selection of appropriate responses.

27A:518 Seminar: Educational Administration 3 credits
This course is designed to identify and examine the latest developments in the field and their implications for the school administrator at present and in the foreseeable future.

27A:551 Special Studies in Administration 3 credits
Prerequisite — matriculation, completion of nine hours or more in the area of concentration, and permission of the instructor.
Independent study and research under the guidance of a faculty member in administration.

27A:552 Internship in Administration 3 credits
Prerequisite — Permission of advisor.
A semester under the guidance of a faculty member in an actual administrative situation. Supervision during this period will be shared by the college and the supervising staff of the institution involved.

27A:553 Internship in Administration 3 credits
Prerequisite — 27A:552

27A:590 Thesis in Administration 3 credits
Prerequisite — 27:550.
The presentation of a research proposal and subsequent thesis acceptable to the committee appointed by the college.

EDUCATION OF THE DEAF (27D)
Interpreters are provided only for courses prefixed 27D and for 27:550, 27S:518, 36:403G, 01:510 and 81:311G. Non-hearing students enrolling for other courses should check with the program coordinator.

27D:331G Advanced Manual Communication 3 credits
Prerequisite: 27:131 and 132 or equivalent.
A course to develop advanced skills in manual communication. Previous background in the subject is required.

27D:517 Diagnostic-Prescriptive Teaching with Exceptional Children 3 credits
The development of basic diagnostic competencies using both formal and informal techniques to assess the cognitive and affective strengths of exceptional hearing impaired children. Emphasis will be placed on the discussion of educational programs and on the development of these competencies by practical application with exceptional hearing impaired children.

27D:521 Teaching Speech to Hearing Impaired Children 3 credits
Examines problems underlying the acquisition of speech by hearing-impaired children and establishes a framework for the orderly development of speech communication skills, within a Total Communication setting. It includes anatomy of the speech mechanism and acoustical and physiological characteristics of speech production. Phonetics and orthographic systems are learned in conjunction with speech evaluation procedures. Various techniques for developing functional speech in the hearing impaired child are explored. Methods of auditory training and speechreading are reviewed and practiced. The course is designed to assist the classroom teacher in establishing and maintaining a systematic speech program (based on an auditory approach) from birth through the school years. Frequent observation and practicum.
Practicum: Speech and Speech Reading 3 credits
Prerequisite: 27D:521
The major goal of this experience is to further develop those skills acquired in 27D:521 (Methods of Teaching Speech to Hearing Impaired Children), as outlined in the competency checklist, and to use them in a practical situation. Encompasses performing evaluations, development of target behaviors, correcting and developing speech patterns, implementing an effective program within the classroom.

Introduction to Language and Communication (formerly 27D:430G) 3 credits
The study of language acquisition and development of language skills in hearing children. The effects of hearing loss on the development of communication skills in deaf children. This course will provide the student with a basic understanding of linguistics, psycholinguistics, transformational grammar and speech development. The effects of hearing loss on the development and effectiveness of oral and written language will be discussed as well as other disorders of language development. The historical background of speech reading, assessment, and methods and techniques of visual communication training is included. Frequent observations.

Teaching Language to Hearing Impaired Children 3 credits
Prerequisite - 27D:529

Curriculum and Instruction: Practicum (formerly 27D:571) 3 credits
Prerequisite — Open to full time students only or by special permission of the instructor. January Term.
A four-week practicum utilizing the concepts developed in 27D:517, and the aspects of curriculum and instruction unique to education of hearing impaired. Students participating in this course will be assigned to a school or class for the deaf in their intended area of certification. A written project is required. Off campus. Students are responsible for travel and incidental expenses. (Board and room generally furnished by the various schools for the deaf.)

Special Studies in Education of the Deaf 3 credits
Prerequisite — matriculation, completion of nine hours or more in the area of concentration, and permission of the instructor.
Independent study and research under the guidance of a faculty member in this field.

Internship in Education of the Deaf 3 credits
Prerequisite — Two summers of course work in the education of the deaf, or completion of the fall semester for full time students, or by special permission of the instructor. Extra fee: $200.00.
A period under the guidance of a faculty member in actual teaching situation. Supervision during this period will be shared by the college and the supervising staff of the institution involved.

Internship in Education of the Deaf 3 credits
Prerequisite — 27D:552.

Thesis in Education of the Deaf 3 credits
Prerequisite — 27D:550.
The presentation of a research proposal and subsequent thesis acceptable to the committee appointed by the college.

Applicable Learning Strategies for Multiple Handicapped Hearing Impaired Children I 3 credits
A general overview of the effects of additional handicapping conditions on the hearing impaired child and the resultant educational problems of the multiple handicapped. Emphasis will be placed on diagnosing functional abilities and developing educational strategies to be used with the atypical hearing impaired child.

Learning Strategies for Multiple Handicapped Hearing Impaired Children II 3 credits
Prerequisite: 27D:580
This course deals with specific curricular implications of the multiple handicap on the hearing impaired child. Specific emphasis will be on methods and materials for the areas of Language, Mathematics, Motor, Social and Career Development.

Current Issues in Curriculum for the Hearing Impaired 3 credits
Prerequisite: master's degree
This course will focus on current curriculum topics which have major impact on the education of the hearing impaired. Specific content of the course will vary. Students will be required to research individual topics as assigned.
27D:602 Consultation Skills for Teachers of the Hearing Impaired  
3 credits
Prerequisite: master's degree
This course will examine the rapidly growing role of the teacher as a consultant. Focus will be on teacher-teacher, teacher-parent, teacher-administrator consultation skills enabling the teacher to fulfill his/her multi-dimensional role in conjunction with PL 94-142.

EDUCATION (COUNSELOR EDUCATION) (27G)

27G:501 Introduction to Counseling  
3 credits
An orientation to the role and function of the counselor. The course will focus on the students' understanding of the context in which counselors work, the skills they must acquire, and the need to be increasingly aware of their own competencies, responsibilities and values. Emphasis will be placed on the development and application of basic listening and attending skills.

27G:502 Counseling Theories and Techniques  
3 credits
A study of the major counseling theories and an introduction to the techniques involved in applying these theories. Emphasis will be placed on the development of a personal theory of counseling.

27G:503 Laboratory Practicum  
3 credits
Prerequisites — 27G:501, 27G:502
The further development, integration, and application of counseling skills in a laboratory setting. Emphasis will be placed on individual counseling although small group techniques may be stressed when appropriate. Each student must have access to at least one client in an ongoing counseling relationship. Enrollment is limited to ten students.

27G:504 Career Development  
3 credits
A course designed to assist counselors in becoming aware of their role in career development. A survey of major career development theories and their implications for the counselor.

27G:505 Cross Cultural Communications  
3 credits
A course designed to prepare the counselor to work more effectively with minority group cultures. Special attention is given to a sociological survey of minority cultures in the United States. Cross cultural communication will be stressed.

27G:506 Organization and Administration of Counseling Programs  
3 credits
Problems and procedures in initiating and conducting guidance programs. Emphasis is placed on the administrative structure of the guidance program within the organization of the entire school system. Responsibilities of administrative and supervisory personnel are considered.

27G:507 Elementary School Counseling  
3 credits
The study of theory, method, and evaluation techniques which are unique to this setting. The focus will be on individual and group counseling with the elementary student as well as play therapy.

27G:508 Group Dynamics  
3 credits
Provides an overview of major group theories, knowledge of group process, and understanding the relationship between group goals and group process. Develops group participant, observer, and facilitator skills. Students are required to participate in a personal growth group. Enrollment is limited to fourteen students.

27G:509 The Counselor and Family Relationships  
3 credits
A course designed to familiarize the counselor with the major theories and techniques of family and couple counseling. Practical application of skills will be stressed.

27G:510 Consultation Skills  
3 credits
This course will examine the rapidly growing role of the educator as a consultant. Emphasis will be given to creative problem solving.

27G:551 Special Studies in Guidance and Counseling  
3 credits
Prerequisite — matriculation, completion of nine hours or more in the area of concentration, and permission of the instructor.
Independent study and research under the guidance of a faculty member in this field.

27G:552 Field Practicum  
3 credits
Prerequisite — 27G:503 and permission of advisor.
A supervised counseling internship in a school, agency, or other professional setting. Supervision will be shared by the college and the supervising staff of the facility involved.
27G:590 Thesis in Guidance and Counseling 3 credits
Prerequisite — 27:550.
The presentation of a research proposal and subsequent thesis acceptable to the committee appointed by the college.

EDUCATION (MEDIA) (27M)

27M:515 Administration of the School Media Center (formerly 27M:504) 3 credits
The planning, organization, administration, and coordination of the media center into the instructional program of the elementary, middle and high school, with special emphasis on the role of the media specialist in curriculum planning.

27M:516 Cataloguing and Classification (formerly 27M:320G) 3 credits
The principles and techniques of classifying media utilizing the Dewey Decimal system and of descriptive cataloguing using ALA guidelines are studied and applied in practical experiences.

27M:517 Media Selection for Children (formerly 27M:502) 3 credits
The study of print and non-print media, with emphasis on authors and illustrators of materials for children. Principles of selection, evaluation, and integration of these media into the elementary and lower middle school classrooms are incorporated in the course.

27M:518 Media Selection for Young Adults (formerly 27M:503) 3 credits
A study of print and non-print media with special emphasis on reading interests of young adults. Principles of selection, evaluation, and integration of these media into the upper middle school and high school classrooms are incorporated in the course.

27M:519 Reference Sources and Information Retrieval (formerly 27M:321G) 3 credits
An introduction to the selection, evaluation, and utilization of basic reference materials. Guidance in locating information for research purposes and for locating answers to user questions is emphasized.

27M:520 Selection and Evaluation of Non-print Media (formerly 27M:521) 3 credits
A critical evaluation of instructional materials, using recommended selection criteria, for purchase and utilization in the classroom. The integration of these materials into the curriculum process.

27M:522 Design and Production of Non-print Media (formerly 27M:501) 3 credits
The principles of planning and producing non-print materials for utilization in instruction. All elements of the planning process are emphasized in preparation for the actual application of production technique.

27M:525 Library Systems and Networks (formerly 27M:506) 3 credits
An introduction to the basic principles of automated information storage and retrieval systems, with emphasis on those relating to school media centers. A discussion of library networking and the impact of this process on access to information.

27M:526 Library as a Social Institution (formerly 27M:507) 3 credits
An overview of the historical development of libraries, from the earliest times to the modern library is discussed; the library profession, its historical development and its status today, is studied; and a discussion of the library in our society today and in the past culminates the study of the library as a social institution.

27M:551 Special Studies in Media 3 credits
Prerequisite — matriculation, completion of nine hours or more in the area of concentration, and permission of instructor.
Independent study and research under the guidance of a faculty member in this field.

27M:552 Internship in Media 3 credits
Prerequisite — Permission of advisor.
A semester under the guidance of a faculty member in an actual school situation. Supervision during this period will be shared by the college and the supervising staff of the institution involved.

27M:553 Internship in Media 3 credits
Prerequisite — 27M:552.

27M:590 Thesis in Media 3 credits
Prerequisite — 27:550.
The presentation of a research proposal and subsequent thesis acceptable to the committee appointed by the college.
EDUCATION (READING) (27R)

27R:515 Reading in the Elementary School (formerly 27R:501) 3 credits
Survey course focused on the process of learning to read in the elementary school. Techniques and materials are evaluated for their use in teaching the basic skills with different types of learners in a variety of learning settings.

27R:516 Diagnostic-Prescriptive Teaching of Reading (formerly 27R:525) 3 credits
Prerequisite — 27R:515 or equivalent.
Designed for teachers who have some background in reading. The emphasis is on those techniques and materials readily available to the classroom teacher to help cope with reading problems in the classroom.

27R:517 Advanced Diagnostic/Prescriptive Teaching of Reading (formerly 27R:502) 3 credits
Prerequisite — 27R:516
Designed to develop ability to deal with more severely disabled readers. Students develop competence in administration, scoring, and interpretation of informal and formal diagnostic instruments. Students will also develop facility in prescribing individual reading programs based on diagnosis.

27R:518 Laboratory Practicum in Reading (formerly 27R:503) 3 credits
Prerequisites — 27R:515, 27R:516, 27R:517
Supervised clinic experience which emphasizes diagnostic-prescriptive teaching as well as increased facility as a resource person. Students are expected to design and execute a reading program based on diagnostic screening information.

27R:520 Reading in the Secondary Schools (formerly 27R:506) 3 credits
The place of reading in the total school program is examined to help secondary teachers and reading specialists develop skills needed in content reading, recognize reading problems, and become aware of the unique needs of the secondary learner.

27R:521 Seminar: Current Issues in Reading (formerly 27R:504) 3 credits
Prerequisite — 27R:515 or 27R:520
A course to deepen the student's knowledge and understanding of areas such as: contemporary issues in reading; special learning problems; related language arts; affective considerations; and causes of reading disability. Students also research topics of individual interest.

27R:522 Organization and Supervision of Reading Programs (formerly 27R:505) 3 credits
Prerequisite — 27R:515 or 27R:520
Provides an overview of reading programs in Maryland and throughout the country. Reading programs are evaluated with respect to parent education, teacher education, testing, instruction and materials, and research. Students examine their own school reading programs and develop model programs.

27R:523 Teaching Reading to the Gifted (formerly 27R:601) 3 credits
Prerequisite — 27R:515 or 27R:520
An examination of current curricular adaptations in the field of reading for the gifted students. The course will also focus on the special reading needs and abilities of gifted students both in terms of types of book available and techniques for developing advanced reading skills.

27R:524 Adapting Materials for Reading Instruction (formerly 27R:602) 3 credits
Emphasis will be on rewriting currently existing materials to meet the needs of gifted, average, and disabled readers. Emphasis will also be on the production of new materials in areas such as functional reading and basic reading skills.

27R:531 Teaching Reading to the Hearing Impaired 3 credits
A survey course which focuses on the process of learning to read as it is applicable to the hearing impaired child. Techniques and materials are evaluated for their use in teaching basic reading skills to the child with a mild, moderate, severe/profound hearing loss.

27R:551 Special Studies in Reading
Prerequisite — matriculation, completion of nine hours or more in the area of concentration, and permission of the instructor.
Independent study and research under the guidance of a faculty member in this field.

27R:590 Thesis in Reading
Prerequisite — 27R:550.
The presentation of a research proposal and subsequent thesis acceptable to the committee appointed by the college.
SPECIAL EDUCATION (27S)

27S:515 Exceptional Children: Conceptual Models and Applied Theory 3 credits
Basic theoretical considerations involved in child development and learning, as applied to the field of special education (ED, LD, and MR).

27S:516 Teaching Strategies for Exceptional Elementary Children 3 credits
Methods, techniques, and models used for the analysis of specific tasks and selection of teaching strategies and materials to be employed with exceptional elementary children (ED, LD, and MR).

27S:517 Diagnostic-Prescriptive Teaching with Exceptional Children 3 credits
Prerequisite — 27:505, 27S:516.
A review of basic diagnostic procedures and the development of additional competencies in formal and informal assessment techniques which deal specifically with exceptional elementary children. Emphasis will be placed on the study of techniques and strategies used to develop prescriptive educational programs. These competencies will be developed through practical application with exceptional children.

27S:518 Seminar: Education of Exceptional Children 3 credits
Review of current literature, legislation (local, state, and federal), and practices in the field of special education. A discussion of the expanding role of the special educator and his responsibilities to parents, regular classroom teachers, administrators, and the general public.

27S:525-526 Special Adaptations for the Secondary School Student 3 or 6 credits
A study of the affective and cognitive adaptations that are essential if we are to positively interact with the special secondary school student. Specific focus includes: assessment (affective, vocational and cognitive) strategies for programming the special student and teaching the student how to circumvent the system and survive.

27S:527 Teaching Exceptional Children: The Gifted 3 credits
An analysis of educational provisions for superior and creative students, including characteristics, identification and special problems of underachievement and social adjustment.

27S:551 Special Studies in Special Education 3 credits
Prerequisite — matriculation, completion of nine hours or more in the area of concentration, and permission of the instructor.
Independent study and research under the guidance of a faculty member in this field.

27S:590 Thesis in Special Education 3 credits
Prerequisite — 27:550
The presentation of a research proposal and subsequent thesis acceptable to the committee appointed by the college.

ENGLISH (30)

# 30:501 Modern Approaches to the Study of the English Language 3 credits
The concepts and operations of structural and transformational grammars; their relationships to rhetoric and literature; and their connections to earlier views on grammar and language.

+ 30:502 Seminar: Major British Writers 3 credits
A study of a major figure, theme, genre, or period from British literature. A different topic is selected each session.

+ 30:503 Seminar: Major American Writers 3 credits
A study of a major figure, theme, genre, or period from American literature. A different topic is selected each session.

+ 30:505 Critical Approaches to Understanding Literature 3 credits
Various critical approaches to literary criticism, beginning with Aristotle and continuing through to selected contemporary critics.

@ 30:510 Craft and Creativity 3 credits
A study of what creative persons say about inspiration, craftsmanship, and their own process of creation, with emphasis on writing. An attempt to apply this understanding of the creative process to one's own writing — whether poetry, stories, or essays. Informal workshop and tutorial approach. Open to students at any level of competence in creative writing.
# 30:520 Studies in Mass Communication
A study of the impact of various media of mass communications. Particular attention is given to possible influences of media on the minds of the young.

30:530 English Language: Problems of Usage
A theoretical and practical approach to the study of modern English usage. The course requires compositions, exercises, and readings on the subject of English usage.

FRENCH (33)
+ 33:501 Other Ways of Western Thought: The French Way
Major themes in French thought concentrating on the classical, romantic, and modern periods. All readings, discussions, and assignments in English.

GENERAL SCIENCE (36)
36:403G Audiology
A basic course in audiology for teachers of hearing impaired children. In addition to anatomy and physiology of the hearing mechanism, the course includes introductory studies in audiology covering production, transmission and reception of speech sounds and other sounds and various procedures for testing hearing and interpretations of hearing test results. Observations and practicum are provided. Auditory training techniques as well as individual and group amplification are presented.

+ 36:501 History and Philosophy of Science
A study of major scientific achievements from antiquity to the present, with particular emphasis on scientific theory and on the interactions between philosophy and scientific activity.

+ 36:502 Earth Science
A review of basic geological concepts followed by a presentation of recent advances selected from the areas of environmental studies, economic geology, historical geology, geophysics, geochemistry, meteorology, and oceanography.

+ 36:503 Astronomy
A review of basic astronomical concepts followed by a presentation of recent advances selected from the areas of astrophysics, cosmology, and space science.

+ 36:504 Weather Science
A basic study of meteorology emphasizing the influence of weather on technology and culture.

36:601 Advanced Audiology
Prerequisite — master's degree and 36:403G.
The course emphasizes the use of residual hearing in the education of hearing impaired children. Current developments in hearing aid technology will be discussed. Students will be expected to develop competencies in aural rehabilitation (auditory training).

GEOGRAPHY (38)
# 38:510 Geography: A Modern Synthesis
The course emphasizes the links between an academic tradition and areas of public concern; the focus is upon applied aspects of ecology, economic change and social issues; the attention to systems, cycles, trends as examples of modern geographic analysis is pursued.

+ 38:513 Historical Geography of North America
A consideration of past circumstances from the geographer's viewpoint to understand how the combination of nature and culture created the regional patterns in North America in earlier times.

HISTORY (48)
+ 48:506 Plantagenet England
A history of England from 1154 to 1485. Topics include: the Age of Eleanor of Aquitaine; Magna Carta and the origin of Parliament; the Hundred Years War and the Wars of the Roses; and medieval society.

+ 48:507 The England of the Tudors
A portrait of the creative personalities of the Tudor Age as well as an analysis of the political, social, and economic forces of the 16th century.
Medieval People: Biography and Autobiography in the Middle Ages  

Biographies and autobiographies are studied as sources for understanding the evolution of society and the family in the Middle Ages. Subjects include: Augustine, early saints' lives, Charlemagne, Abelard and Heloise, Frederick Barbarossa, St. Louis, and the Pastons.

Major Issues in Modern American History  

In-depth analysis of central themes in U.S. history since 1900, such as the role of the federal government, labor organization, the changing status of women, the Cold War, McCarthyism, and the influence of the mass media.

HUMANITIES (49)

A Humanistic Perspective on the Arts in Modern Education  

A study of humanistic values and issues as revealed by artists and their products; in addition to the theoretical, the course will include intensive, practical case studies dealing with the unique contribution of the arts to a humanistic and humanizing education.

The Humanities and Dehumanization  

A study of dehumanizing tendencies in the use of language and the media, and in the writing of history. The humanities as integrating experiences will be studied from the points of view of literature, philosophy, mythology, and education.

One Nation, Many Voices: Interest Groups and Humane Values  

A study of interest groups in America, their history, aims, and problems. Featured will be case studies in the labor movement, consumer affairs, the women's movement, and issues relative to blacks.

The Scientist and Technocrat as Humanist  

Through studying the lives and work of major scientists and mathematicians who are also recognized as humanists, this course attempts to show that the worlds of the scientist and humanist are not mutually exclusive and that they in fact rely on each other.

MATHEMATICS (57)

Probability  

A study of sample spaces, counting techniques, different types of events in a discrete or continuous setting, random variables and related moments, binomial, Poisson, normal, and other standard distribution.

Mathematical Statistics  

A study of multidimensional random variables, Chebychev inequality, Central Limit Theorem, sampling and statistical inference, descriptive statistics.

Modern Algebraic Structures  

Groups, rings, fields, vector spaces, and linear transformations with in-depth attention to at least one of these areas.

Modern Geometry  

Elementary theory of the foundations of geometry, logical systems, and methods of proof; selected topics in Euclidian geometry with a brief study of finite and projective geometrics; an intuitive investigation of the basic ideas of non-Euclidian geometry.

Calculus for Teachers  

A rigorous study of infinite sets, functions, limits, continuity, derivatives, and Riemann integrals, with applications of the concepts to the teaching of elementary calculus.

History of Mathematics  

A study of the development of the major areas of mathematics, with emphasis on personalities, historical periods, and significant cultural influences. Attention will also be given to the role of history in the teaching of mathematics.

Number Theory  

A study of integers, divisibility, congruences, linear Diophantine equations, number-theoretic functions, quadratic forms, and other elementary topics.

Intuitive Topology  

An intuitive examination of some basic objects and problems in geometric topology. Topics will include the four-color problem, non-planar networks, classification of surfaces, and bounding problems of surfaces in four-dimensional space.
+57:510 Mathematical Ideas
A slant-wise glimpse, rather than a direct immersion, into the field of mathematics. Readings and discussions will center on the nature of mathematics as a form of creative expression and its relevance to the world in which we live. As time and interests will allow, this will involve examination of the foundations of mathematics, the people involved in the development of mathematics, the various branches of mathematics, the impact of mathematics on today's society, including contemporary applications, etc. (This course does not count toward an area of concentration in mathematics.)

MUSIC (63)
+63:503 Vocal and Instrumental Textures
A study of the factors involved in the development of vocal and instrumental music from the Baroque period through the early 20th century, including an examination of changing musical lines and textures during these periods.

+63:504 Jazz and Its Influence
History of the development of a truly American idiom and its influence on both the classical and jazz world in this country and in Europe.

+63:505 Music Style — A Survey
A study of each major musical period — Renaissance, Baroque, Classical, Romantic, and Contemporary — hearing its qualities, studying the technical resources and limitations, and recognizing its habits of thought and style, thus developing musical assurance and a broadening of musical tastes.

+63:506 The 19th Century Social Revolutionary Musicians
A study of selected 19th century composers who were considered revolutionary in their ideas, writings and compositions. Each composer will be considered with regard to the culture, social environment, and economic background surrounding his life and musical contributions.

# 63:507 Impressionism — A Social Phenomenon?
A study of the origins of the impressionistic style and the adaptations of its philosophy in art, music, drama and poetry in Europe and the British Isles as well as the western hemisphere.

PHILOSOPHY (69)
+69:502 Critical Thinking and Reasoning
Principles of logic with attention to concepts of meaning, truth, existence, reference, predication, and quantification with applications to philosophy, science, art.

PHYSICAL EDUCATION (72)
72:501 Statistical Analysis in Physical Education
A critical statistical analysis of measurement and evaluation in physical education. The tools and techniques of descriptive and inferential statistics are emphasized.

72:502 Administration of Athletics
A study of the history and rationale of administrative principles and practices as they relate to the conduct of athletic programs in American educational institutions.

+72:506 Comparative Physical Education
Physical education activities and programs, both past and present, of various countries throughout the world are examined in light of their implications among and with the geographical, political, social, religious and cultural aspects of each country.

# 72:510 School and Community Health
Principles and problems in the development, maintenance and improvement of school and community health.

72:514 Topical Studies in Physical Education and Sport
A study of advanced topics in physical education and sport. Selected topics relevant to current issues, students' interests and goals are presented. (N.B.: No more than 6 credits of topical studies may be counted toward degree requirements)

+72:515 History of Physical Education and Athletics
Historical and philosophical development of physical education and athletics from early civilization to the present.
72:516 Sociology of Sport 3 credits
An examination of sport as a social phenomenon. Topics considered include the interrelationship of sport and politics, law, social change, economics, art and literature, and religion as well as the impact of sport upon the individual and social institutions.

72:517 Physiological Aspects of Physical Activity 3 credits
An examination of the basic physiological principles governing motor activity in athletics and physical education. Energy sources, ergogenic aids, diet and nutrition, current physiological research, performance factors, and other pertinent topics are considered.

72:518 Psychology of Sport 3 credits
The principles of psychology as they relate to motor learning, performance, motivation, arousal, perception, transfer, and other topics associated with physical activity and sport.

72:519 Physical Education Facilities 3 credits
A study of terminology, principles, and standards for planning, construction, use and maintenance of indoor and outdoor physical education, athletic and recreational facilities.

72:520-525 Coaching Seminars 3 credits
Theory and principles of coaching interschool sports. Primary emphasis is given to personnel analysis, examination and development of basic systems, safety considerations, and other organizational topics. (N.B.: No more than 6 hours of coaching seminars may be counted toward degree requirements)

72:526 Biomechanics of Physical Activity 3 credits
A study of the mechanical principles governing movement and performance in physical activity. Topics in applied anatomy will also be considered.

PHYSICS (75)

75:503 Contemporary Physics 3 credits
Prerequisite — Trigonometry.
A survey of physics during the 20th century. Emphasis will be placed upon the development of the relativistic and quantum concepts and upon their application to understanding recent advances in physics. The course is designed for students who have had no recent studies in physics.

POLITICAL SCIENCE (78)

78:506 International Law and Organization 3 credits
The study of international law in an organizing world. Special attention is given to new areas of the law, with emphasis on international organizations, individuals, space, and environment.

78:507 United States Foreign Policy Process 3 credits
A study of the process by which the foreign policy of the United States is formulated. Special reference is given to the domestic decision-making process and its relation to substantive foreign policy alternatives.

78:527 School Law 3 credits
A study of local school administration from the legal point of view; principles of law and their applications described in legal theory. Attention is given to legal powers and duties.

78:528 Special Topics in School Law 3 credits
Prerequisite: 78:527
Topics of current interest in school law are investigated in depth. Students may expect to spend some time pursuing topics of their own choice, working independently under the guidance of the professor.

PSYCHOLOGY (81)

81:311G Psychology of Deafness 3 credits
An examination of the effects of a lack of hearing on personality and behavior. The literature in this and related fields is interpreted in terms of its theoretical and practical meaning for persons with hearing losses and for professionals who serve in their habilitation and education. Through an understanding of the effect of auditory deprivation, the course offers insights into the role of hearing in the psychological development of those with normal hearing.

81:501 Advanced Educational Psychology 3 credits
A study of the learning process and the application of principles of psychology to education. Factors influencing learning, the products of learning, and evaluative techniques are emphasized.
Human Growth and Development: Child 3 credits
The course describes the child and examines him in the context of his culture and of his own biology, and explains and makes some suggestions about him. The approach is relatively eclectic, but certain theoretical positions are made explicit. The view is to be that of a psychologist, but materials from other disciplines in both biological and social sciences are used, as appropriate.

Human Growth and Development: Adolescent 3 credits
This course describes the adolescent and examines him in the context of his culture and of his own biology, and explains and makes some suggestions about him. The approach is relatively eclectic but certain theoretical positions are made explicit. The view is that of a psychologist, but materials from other disciplines in both biological and social sciences are used, as appropriate.

Mental Hygiene and Interpersonal Relations 3 credits
Principles of mental hygiene with emphasis on interpersonal relationships. Focus is on improving communication skills, identifying the effect of feelings on communication, and enriching personal-social adjustment.

Psychology of Personality 3 credits
A study of the major contemporary approaches to personality theory, including relevant research and overall evaluation.

Behavior Modification in the Classroom 3 credits
A study of the principles of behavior modification and their practical application in the classroom. Students develop projects to be performed in their teaching situations: identification of problem, definition behavioral terms, selection of methods to change behavior and to measure change.

Psychology of Language 3 credits
A basic course in psycholinguistics which includes psychological analysis of descriptive grammar, the role of learning in language, meaning, thought, and language development.

Altered States of Awareness 3 credits
A current analysis of normal and altered states of consciousness with emphasis on sleep and dreams, biofeedback, relaxation, meditation, and psychoactive drugs. Students will examine their own brain waves and the electrical activity of muscles and skin to enhance understanding of various altered states.

Social Psychology 3 credits
Analysis of the behavior of the individual as a member of social groups; focus on the areas of collective behavior, roles, symbolic interactionism, personality development, and small group research.

Psychology of the Exceptional Child 3 credits
Nature and needs of the exceptional student; degrees of deviation from the typical and their causes, and disorders of behavior which are frequently concomitant. Psychological bases of a suitable educational program are included.

Psychology of Abnormal Behavior 3 credits
A study of disorganized behavior of persons, including anxiety reactions, neuroses, and conduct disorders with some attention to signs of psychotic behavior. The course aims to develop capacity for recognizing abnormal behavior patterns.

Psycho-Social Aspects of Disability 3 credits
Behavioral implications of disability are studied in depth, with particular emphasis upon relevant literature. Research related to intelligence, personality, social adjustment, and vocational considerations, is reviewed and synthesized. Appropriate diagnostic and assessment procedures with the disabled are discussed. This course is oriented toward providing the student with informational background for the guidance and counseling of disabled children and adults.

RELIGIOUS STUDIES (84)

Religion As Autobiography 3 credits
An investigation of the religious dimensions of one's personal story by studying the autobiographical reflections of such contemporary persons as Mohandas Gandhi, Dag Hammarskjold, Thomas Merton, Margaret Mead, and Alex Haley.

SOCIOLOGY (90)

Anthropology: General and Applied 3 credits
A study of the parallels between physical and cultural evolution with emphasis upon selected ethnographies of peoples representing various stages of cultural development. Emphasis upon the uses of anthropology in the modern world and its relationship to planned culture change.
90:503 Issues in American Society  
An in-depth study of selected key issues in contemporary American society; the exploration of various sociological approaches to the analysis of these issues with particular attention to dominant trends in culture change.

90:504 Comparative Social Institutions  
An analysis of selected social institutions within American society to determine their real functions and to assess their total effect upon the society.

90:505 Sociology of the Community  
The main objective of this course is to acquaint the student with some basic sociological concepts which can be applied to the analysis of the community in which he lives. Special focus is placed upon the school and the interpretation of the materials as they relate to this social institution.

90:506 Urban Sociology  
The study of the differentiation of social structures and functions within urban communities; ecological processes involved in the growth of cities and metropolitan areas; an analysis of urbanism as a way of life.

90:507 Criminology  
The causes, incidence, treatment, and prevention of crime and delinquency.

90:521 Introduction to Social Services  
Social welfare services in modern America; historical development, institutional nature, and current trends; evaluation of effectiveness of current programs. Characteristics of social agencies, their functions and personnel. Emphasis on agencies interacting with public education.

SPANISH (93)  
93:501 Other Ways of Western Thought: The Hispanic Way  
Study of some literary works to acquaint the student with high points in the culture and literature of the Hispanic World: the conquest of the New World, Cervantes' view of man, and Borges' fictions.
FACULTY

William T. Achor, Ph.D., Professor of Physics
Mary Gail Biebel, Ph.D., Assistant Professor of Education (Counselor Education)
Robert P. Boner, Ph.D., Associate Professor of Mathematics
Leonard S. Bowlsbey, Jr., Ph.D., Professor of Education (Administration)
James R. Carpenter, Jr., M.Ed., Instructor in Physical Education
H. Samuel Case, Jr., Ph.D., Associate Professor of Physical Education
Richard A. Clower, Ed.D., Professor of Physical Education
Joan D. Coley, Ph.D., Associate Professor of Education (Reading)
Stephen W. Colyer, Ph.D., Associate Professor of Psychology
Cornelius P. Darcy, Ph.D., Professor of History
Margaret W. Denman, Ph.D., Assistant Professor of Education (Media)
Max W. Dixon, M.A., Associate Professor of Dramatic Art
Theodore Evergates, Ph.D., Assistant Professor of History
Francis M. Fennell, Ph.D., Assistant Professor of Education (Elementary/Secondary Education)
Robert H. Hartman, Ph.D., Associate Professor of Philosophy & Religion
Brent Hylton, M.M., Assistant Professor of Music
Alton D. Law, Ph.D., Professor of Economics
James E. Lightner, Ph.D., Professor of Mathematics and Education
Edmund E. Makosky, A.M., Instructor in Physics
Kathy Mangan, M.A., Assistant Professor in English
William G. Miller, Ph.D., Professor of Psychology
Alexander G. Ober, Ph.D., Assistant Professor of Physical Education
Howard R. Orenstein, Ph.D., Associate Professor of Psychology
Paula Ottinger, M.A., Instructor in Education
Wasyl Palijczuk, M.F.A., Associate Professor of Art
Melvin D. Palmer, Ph.D., Professor of Comparative Literature
Leroy L. Panek, Ph.D., Associate Professor of English
Raymond C. Phillips, Jr., Ph.D., Professor of English
Hugh T. Prickett, Ed.D., Assistant Professor of Education (Education of the Deaf)
Donald R. Rabush, Ed.D., Assistant Professor of Education (Special Education)
Robert W. Sapora, Ph.D., Assistant Professor of English
William L. Tribby, Ph.D., Associate Professor of Dramatic Art
McCay Vernon, Ph.D., Professor of Psychology
Tim Weinfeld, M.A., Associate Professor of Dramatic Art
Ira G. Zepp, Ph.D., Associate Professor of Religion

Adjunct Faculty

Donald K. Algier, Ph.D., Adjunct Associate Professor in Administration
Elizabeth J. Barger, M.Ed., Adjunct Associate Professor in Reading
Herman E. Behling, Ed.D., Adjunct Professor in Administration
Edward J. Bennett, M.Ed., Adjunct Associate Professor in Reading
Margery Berman, Ph.D., Adjunct Associate Professor in Reading
Claudia R. Bowen, M.A., Adjunct Assistant Professor in Special Education
Jo Ann Bowlsbey, Ed.D., Adjunct Professor in Counselor Education
John J. Campbell, Ph.D., Adjunct Professor in Reading
Janet Conley, M.Ed., Adjunct Assistant Professor in Reading
Edward Corbett, Jr., M.A., Adjunct Assistant Professor in Education for the Deaf
David J. Duncan, Ph.D., Adjunct Assistant Professor in Psychology
Robin Eckstein, M.A., Adjunct Instructor in Education for the Deaf
C. Thomas Fenstermacher, Ed.D., Adjunct Associate Professor in Administration
Robert M. Forder, M.Ed., Adjunct Assistant Professor in Psychology
Susan Grant, M.S., Adjunct Instructor in Education for the Deaf
Jeffrey Griffith, Ph.D., Adjunct Assistant Professor in Education
Charles Halm, M.A., Adjunct Assistant Professor in History
Charles Hamby, M.Ed., Adjunct Instructor in Media
Artha Hoffarth, M.Ed., Adjunct Instructor in Special Education
Ruth Howell, M.A., Adjunct Instructor in Education for the Deaf
Eugene W. Huddle, Ph.D., Adjunct Assistant Professor in Education
Sarah Hyde, M.Ed., Adjunct Assistant Professor in Education for the Deaf
Barbara A. Kapinus, M.Ed., Adjunct Assistant Professor in Reading
James M. Kennedy, Ed.D., Adjunct Associate Professor in Administration
Sabra C. Kittner, M.Ed., Adjunct Associate Professor in Media
James E. Kraft, M.Ed., Adjunct Assistant Professor in Geography
Theodore Landis, M.Ed., Adjunct Assistant Professor in Special Education
Walter S. Levin, L.L.B., Adjunct Professor in Administration
Robert L. Lindsay, M.S., Adjunct Instructor in Special Education
Sara J. Little, Ed.D., Adjunct Associate Professor in Special Education

The Humanities and Modern Education

A study of humanistic values and issues as revealed by the artist and the artist's product; in addition to the theoretical, the course will include intensive, practical case studies dealing with the unique contribution of the arts to a humanistic and humanizing education. Practicing artists will be present to work with class members in the following areas: film-making, pottery, dance, poetry writing, aesthetics, music, art, and theatre.
This is the third of three new graduate courses offered during the 1978-79 academic year as part of the college’s special emphasis on the humanities. The courses provide a broad humanities perspective through particular discussions and presentations of humanities fields. Although the aim of the courses is to enhance students’ awareness of humanities values in general, some attention will be given to the humanities in the practice of education.

Humanities 503 carries three hours of graduate credit, and there are no prerequisites. The course will substitute for “Trends in American Thought” for master of education candidates, and will count toward group requirements for master of liberal arts candidates.

The class, which will be divided into two sections, will meet for a three-hour session daily, except Sundays and July 4, beginning Wednesday, June 20, and ending Saturday, July 7. Section I will meet from 8:30 until 11:30 a.m.; Section II will meet from 1:00 until 4:00 p.m. The sections will meet together on Saturdays. Special Saturday sessions will be held on the following dates:

- **June 23** (12:30 p.m. to dusk)
  - Folk crafts, Carroll County Farm Museum
  - Greek-Elizabethan Festival, WMC Campus
  - Performance of a Shakespeare comedy by Theatre Hopkins, WMC Campus

- **June 30** (9:00 a.m. to 4:00 p.m.)
  - Workshop session

- **July 17** (9:00 a.m. to 2:00 p.m.)
  - Workshop team from Maryland Center for the Arts

The presentations will feature talks, discussions, the use of a variety of media and learning situations, and individual experience in the practice of each of the arts. The course requires regular attendance, meeting-to-meeting preparation, and a term paper or project due at the end of the first semester of the 1979 summer session.

Registration information and materials are included in the summer graduate registration mailings. Or you may write the Registrar, Western Maryland College, Westminster, Maryland 21157, for registration materials. For further information, contact Bill Tribby or Ira Zepp at the college, (301) 848-7000.
