Cover Story

With this issue we are starting a new bulletin sequence, hoping to bring the Alumni Issue to you regularly with four issues during the year: January, April, July-August and November.

For a fresh start, we thought a good many of you might like to have a fresh picture of the Western Maryland campus which we have shown on the cover this month.

With Alumni Reunions in mind, many of you may want to make plans now to return to the Hill for the Commencement and Alumni Week-End May 28 to May 31. This is just how the campus will look when you return this Spring.

Special reunions are being planned by classes ending in the numeral four or nine, but to all Western Marylanders the door is open for a grand reunion with friends and classmates. Why not try and make it for your reunion this year?

Western Maryland College Bulletin

Western Maryland College Bulletin, Westminster, Maryland, published monthly during the school year from January to November and July-August, except May, June and September, by the College.

Entered as second class matter; May 19, 1921, at the Postoffice at Westminster, Md., under the act of August 24, 1912. Accepted for mailing at special rate of postage provided for in section 1103, act of October 3, 1917.
Have you ever questioned how alumni of Western Maryland College compare academically with alumni of colleges and universities all over the United States? Do our graduates and professors win or receive national scholastic recognition? Those who are closely associated with the College would answer "yes"—for many reasons. A partial proof can be found in the number of Western Marylanders who have been awarded Fulbright Scholarships which are presented by the United States Department of State. These scholarships encompass three categories: graduate study, visiting professor and visiting teacher. Western Maryland has had scholars in the first two groups. The scholarship is for one year's work in one of the many countries participating in the program.

In recent years several Western Marylanders have been awarded the Fulbright Scholarship. Eugene Mechtly, '52, went to Innsbruck, Austria, for graduate work in Physics. He now is in the U. S. Army, at Fort Knox. Charles Immler, February, '52, in the field of Economics, traveled in Australia lecturing on American schools, our life and culture. Margaret Statler Blayney, '47, went from Western Maryland to the University of Pennsylvania where she received her Masters degree and began her doctorate work in English. Margaret was teaching at the University of Colorado when she was awarded a Fulbright Scholarship which took her and her husband, who had a Ford Foundation Award, to Oxford University, England. Margaret transferred her doctoral work to Oxford and, having received an extension of her scholarship, completed her residence requirements for her Ph.D. from Oxford. Her thesis is not yet complete. Mrs. Blayney is living in Cleveland where her husband is a member of the English faculty at Oberlin College.

The two most recent holders of the Fulbright Scholarship are Dr. Thomas F. Marshall and Henry Ernst, '53, who hold these awards for the current year.

Since 1946 Dr. Marshall has been Professor of American Literature at Western Maryland. He now is the Professor of American Literature and Civilization at the University of Athens, Greece for the present academic year. Dr. Marshall is a graduate of Temple University and holds his doctorate from the University of Pennsylvania. Professor Marshall has several times been the feature speaker at the Poe Society meetings and at the Enoch Pratt Library talks in Baltimore. He is a director of the College English Association and the College Conference on English. During the past summer he was a Faculty Fellow at Duke University. Dr. Marshall is one of five members of the English Program at the University of Athens; two are British professors, and the others, Americans. One of his American colleagues is the distinguished New England poet Robert Tristam Coffin, author of "Strange Holiness", and Pulitzer Prize winner.

(Continued on page 10)
Since the last bulletin went to press other new faculty members have come to the Hill.

Assistant professor E. Robert Adkins, a native of Salisbury (but who is not a close relative of our Western Maryland Adkins family), filled the vacancy in the Psychology department left by the resignation of Mrs. Helen James. Mr. Adkins is a graduate of Columbia University and came to us from the faculty of Middle Tennessee State College where he was an instructor in Educational Psychology. He is married, has three children and is living in Vetville.

Dr. Edward M. Arnett, newest member of the Chemistry department, filled the post vacated by Dr. J. Lloyd Straughn, who left the College this summer to go into industrial chemical research. Dr. Arnett, a native of Philadelphia, is a graduate of the University of Pennsylvania. He and Mrs. Arnett are living near Westminster. Both are graduates of Germantown Friends School in his native city and she of Radcliffe College. Mrs. Arnett is studying for her doctorate in History at Dropsie College, Philadelphia — the thesis — Feminism In Egypt.

L. Albert Beaver, office manager for Thomas, Bennett and Hunter of Westminster became a special instructor in Economics when Clyde Ahrnsbrak left the College to become Auditor for The Black and Decker Manufacturing Co., in Towson. His wife, the former Betty June Stonesifer, WMC ex-'47, was formerly the Mid-Century Program secretary in the Public Relations Office.

Mrs. Bart Norman (Lucille Gischel, '44), has joined the Public Relations Office Staff as Assistant Director, having taught for the past several years at Westminster High School.

MUSIC LIBRARY DEDICATED

Through the graciousness of the late Fernanda Doria, operatic and concert star of a few years back and former voice instructor at the College, her personal music collection was bequeathed to the College.

To house this collection, a special room in Levine Music Hall has been refinroomed and named the Fernanda Doria Music Library. On Monday, November 16, it was dedicated. In it are included operatic scores; hundreds of pieces of sheet music; folk songs, sacred music, quartettes, arias, collections of songs, piano music and others; musical textbooks; autographed photographs of famous musicians who were her friends; and many other personal mementos of her rich musical career which include three caricatures drawn by Caruso and presented to her mother.

The late Miss Doria, a former resident of New York and Washington, joined our music faculty in 1946. Her career as a radio, operatic and concert performer brought her fame not only in the United States but also in Europe, Canada and Mexico. She was a member of several opera companies both here and abroad; the Chicago, Philadelphia, San Carlos and others.

Known not only for her lovely mezzo-contralto voice, Miss Doria was an authority on the folk music of the Hebrides.

The dedicatory service in November was attended by many of her music associates, friends and former students. Marion Bauer of New York, music critic and author, delivered the principal tribute to Miss Doria whose life work was being commemorated in the dedication of this library which will serve generations of music students at Western Maryland.
A. A. U. W. NEWS

The College is pleased to announce that it has been placed on the accredited list of colleges belonging to the American Association of University Women. This membership is retroactive. All female graduates of Western Maryland are now eligible for membership in local A. A. U. W. Clubs.

POPULATION REPLACEMENT

By Dr. James P. Earp

The annual "stork study" made by the Population Reference Bureau of Washington, D. C., reveals that the collegiate class of '43 on a nation-wide basis, is breaking records in regard to the larger family trend. Each year colleges throughout the nation are polled to determine the number of marriages and births to college graduates. Western Maryland is participating in this research project. The members of the class of '43 of W.M.C. have helped in the trend toward larger families, but have not surpassed their hopes as college freshmen. As the class entered college, they were requested to state their expectations in regard to the future. Five desired to remain childless, two wanted an only child, 66 hoped for two children, 53 wanted three offspring, thirty counted four as a goal, two wanted five, and one hoped for six! In comparison, the actual figures of the 93 grads who answered the questionnaires are as follows: Seven not married, 25 married but childless, 21 with one offspring, 26 with two children, 11 with three, and three with four offspring. The average for the class is 1.27 children per reporting grad. The average of their hopes as freshmen was 2.70 per grad. Thus the class has not attained the peak of its hopes as freshmen.

The trend in the past ten years is encouraging, however. College grads want more babies and are having them. The class of '43 is a little below the national average, yet they are only ten years out of college and still have years ahead to replace themselves. The class of '28, on the other hand, 25 years out of college, have completed families by this time and they are only slightly ahead of the class of '43. If the class of '43 keeps up the pace, they will easily top the class of '28.

Highest honors go to small colleges, the poll reveals. W.M.C. is a small college, yet it is not among the top colleges of the nation in regard to the larger family trend. How about trying to change this fact, grads?

Very little skill is required to interpret the table below. It is merely a comparison between the men and women who reported from the class of '43 and '28, and how those figures compare with the national averages.

W.M.C. is participating again this year in the research project of "counting grad's babies". This year we are sending questionnaires to the class of '29 and '44. We are asking your cooperation and prompt return of the questionnaires to the college. It will be of value to us to know as soon as possible the size of your family.

SPORTS IN BRIEF

Football: Again Charlie Havens came up with a winning team; four wins, 3 losses and one tie. The 1953 grid-iron march ended with a powerful triumph over Johns Hopkins at Homewood 46-0. In beating Pennsylvania Military College on Homecoming, our tradition of never having lost on Homecoming continues intact.

Soccer: The record of four won and six lost doesn't quite tell the story of a fighting team which surmounted great odds to come up with the best record in four years of booting. Despite close losses to superior teams, the Terror Soccermen had two of their teammates chosen third-team Southern urea All-Americans, Captain Richard Linton, '54, fullback and Dennie Harmon, '57, center-forward. These two along with Co-captain Nick Gwynn, '54, half-back made All-Conference second team.

Basketball: Bruce Ferguson's cagers post a three and eight record to date with the season about half over. Outstanding contest of the present campaign was the heart-breaking loss to University of Baltimore 68-67. Till then, Baltimore U. had posted an average of over 100 points per game.

Rifle: Little publicized, but good nevertheless, our nimrods, in a tri-match, beat Temple and La Salle in the season opener, Jan. 9.

Wrestling: Our grapplers lost their opener to Catholic University but after a promising match with Johns Hopkins, prospects for the remainder of the season look good.
New Trustees Elected

Alonzo G. Decker, President of the Black & Decker Mfg. Co., world's largest maker of portable electric tools, was elected to the Board of Directors following the death of Dr. Irving L. Pollitt, '89, then Senior member of the Board. Mr. Decker was co-founder of the company with S. Duncan Black in 1910 and was Vice-President and General Manager from its founding until the death of Mr. Black in 1951.

Born in Baltimore 69 years ago, Mr. Decker's family moved shortly to Orangeville in Baltimore County. He has been a countian ever since and now lives with his wife on Stevenson Lane, Towson.

Mr. Decker has always been interested in engineering and manufacturing. He went to work at the age of 15 in a brass foundry as an apprentice moulder and later worked in a pattern shop. His next job was in the shop of the National Composotype Company where he advanced to the engineering department and later installed typecasting machines throughout the U. S. as well as in England.

In 1906 Mr. Decker joined the engineering department of the Rowland Telegraphic Company, manufacturers of multiplex printing telegraph apparatus, a forerunner of the modern tele-type machine. It was here that he met his future partner, and four years later they went into business "on their own" in rented warehouse space on South Calvert Street making special machinery to order.

Mr. Decker developed Black & Decker's first electric tool, a ½" Drill, which revolutionized the portable tool industry. This tool had a "pistol grip and trigger switch" and a universal motor that permitted the tool to be plugged into any type of power line. These innovations, which were improvements over any other tools then on the market, are now standard in the industry. Mr. Decker has guided his company to the development of many new tools and it now makes nearly 150 different models and several thousand accessories.

In 1917 Mr. Decker and his partner decided to move their plant to the country much against the advice of many business men. They selected a cornfield off the Joppa Road outside of Towson, then only a country town. Here they built a 60' X 120' building which has now expanded to 287,000 sq. ft. of space in five buildings. In addition to the headquarters plant at Towson, the company now has large plants at Hampstead, Md., and Harmondsworth, England, plus 35 Factory Service Branches throughout the U. S. and Canada.

Besides his activities as President, Director and Chairman of the Executive Committee of Black & Decker and its subsidiaries in Canada, England, Australia, Brazil and Mexico, Mr. Decker has found time to enter into the civic activities of Towson and Baltimore.

For many years he has been President of Eudowood Sanatorium. He is on the board of the Towson YMCA and on the Advisory Council for Civil Defense for Baltimore County. He is also a director of the Maryland Trust Company, the Baltimore Association of Commerce, and the First Federal Savings & Loan Association of Towson; President of the Industrial Corporation of Baltimore; and member of the Maryland Advisory Board of the Liberty Mutual Insurance Co.

John Morgan Clayton, Jr., WMC '21, known intimately to his college friends as "Johnny" Clayton, is the newest member of the College Board of Trustees, elected to this office on Friday, October 30.

Formerly of Dorchester County, Mr. Clayton now lives in Baltimore where he is a registered representative of Stein Brothers & Boyce, a brokerage firm which he joined in 1929.

His election to the College Board of Trustees follows a long and close association with his Alma Mater, for since graduation he has served it in many capacities. As President of the Alumni Association during the thirties, he helped organize many clubs throughout the counties.

For nine years, John Clayton was an alumni visitor to the Board of which he is now a member and during the Mid-Century Advance Program was the Baltimore Alumni Group Chairman.

Mention Western Maryland to John Clayton and he has a full head of steam up, ready to go in the direction which will best serve his college.

Sports are one of his many facets of interest in the College. During the years when Mr.
Richard Harlow was director of Athletics on the Hill, Mr. Clayton was a member of the College Alumni Athletic and Advisory Committee. His close association with Mr. Harlow warmed into a long friendship with the great football mentor. Mr. Clayton's enthusiasm for Western Maryland teams has not waned for still he can be counted on as one of the "regulars" at home games, especially during the football season.

His son, John Morgan III, who graduated in 1953, echoed his father's interests in sports while in college, having been a member of two varsity teams, soccer and rifle. In the latter he stood as No. 3 marksman in a field of 15 teammates.

Not only interested in sports as a spectator, Mr. Clayton is quite a golfer in his own right. Holding memberships in both the Hillendale Country Club of Baltimore and the Cambridge Country Club, he is the possessor of several trophies won in golfing competition.

Following his graduation from Western Maryland in 1921, John Clayton went on to graduate study at Johns Hopkins University and the University of Maryland in the fields of political science, economics and law. In addition to his post-graduate work, he taught school at Forest Park and the Polytechnic Institute and was the Head of the English department at Lansdowne High School, near Philadelphia.

His interest in civic affairs has followed the same pattern of diligence as his college interests. From time to time he has served in Baltimore on Community Fund and Red Cross drives.

He is a member of the Board of Stewards of St. Mark's Methodist Church and a teacher of the Men's Bible Class there.

Obviously "board" work for Mr. Clayton is nothing new, for prior to his recent election to our Board he has been serving as a member of the Board of Directors of the Maryland General Hospital and of the Y. M. C. A. (Seamen's Branch) in Baltimore.

He is also a member of the Masonic Order, Knights Templar and Boumi Temple.

Since 1930, he has been Director and Treasurer of the American Home Building Association. As if his present activities were not enough to keep two men busy, John fills speaking engagements at churches and civic clubs.

The John Claytons are truly a Western Maryland family. Not only did Mr. Clayton's son graduate from Western Maryland but also his daughter, Mrs. George Fletcher Ward, Jr., in 1949. No biographical sketch of Trustee Clayton would be complete without mentioning his lovely wife, the former Olga Jester of Ellendale, Delaware, whose interests in Western Maryland parallel that of her husband.

NO GIFT TOO SMALL

With the re-introduction of the Living Endowment Fund this year, all Western Marylanders may contribute to Alma Mater without feeling the pocketbook pinch.

Some of you may feel that a contribution of $1.00 is too small, but it's not. Why, we have already received gifts smaller than that and been awfully proud of the donors for their faithfulness.

Following a pattern set by a few of the classes who reunited last Alumni Day, the Class of 1901 got together for a special reunion this Fall at which time they collected a lump sum as a class (and as individuals) donating it to the Living Endowment Fund which gave the Annual Alumni Fund a unique sendoff.

Here pictured are those of the Class of '01 who attended with friends and family.

Sitting; left to right: "Clay" Phillips; Mrs. Phillips; Ray Fogle; "Irene" Fogle; "Bess" Cover; "Edna" Elderidge; "Carrie" Birely; Standing: Col. E. F. Black (Cobey's son-in-law); "T. FULBRIGHT SCHOLARS (from pg. 3)

Dr. Marshall is attending a Lyceum Series of lectures and will lecture on Ernest Hemingway in the Spring. He will also give a sequence of lectures in other cities of Greece.

The Marshalls write that they are enjoying life in Athens, living in an apartment with marble flooring and a view of the Acropolis. Both of them are taking a course in Greek, "for diversion" and to make it easier to get along with their new neighbors. The latest news was that they were hoping to tour the Mediterranean countries of the Levant during the Christmas recess. Before returning to the United States they plan to travel in Western Europe. Students in Dr. Marshall's classes next year will doubtless hear many valuable stories about his year's experience abroad. The English department has announced that alternating courses that were to be offered this present academic year and taught by Dr. Marshall will be scheduled for the year 1954-55 when he will be back on the campus.

Henry Ernst is using his Fulbright Scholarship for a year's study in Theology and Philosophy at New College, University of Edinburgh, Scotland. Mr. Ernst came to W. M. C. from Baltimore City College. During his college years he served as President of the Argonauts Honor Society, as head of the college's pre-ministerial group in the Classics Club. Mrs. Ernst (Priscilla Johnston, '53), herself an honor graduate of Western Maryland, writes an interesting news item. Priscilla says that all the foreign Fulbright scholars to Great Britain meet in London upon arrival for a three to four day orientation program. They attend classes and lectures about the islands and then proceed to their chosen places of study.

The award is made under the provisions of Public Law 584, 79th Congress, the Fulbright Act. It is one of approximately 375 grants for lecturing and research abroad. All candidates are selected by the Board of Foreign Scholarships, the members of which are appointed by the President. Lecturers and research scholars are recommended for the Board's consideration by the Conference Board of Associated Research Councils, which has been designated to receive and review the applications of candidates in the several categories. Applicants are judged on three principal items — their total academic record, references and recommendations, and their own personal statements concerning the purpose of the applicant's work.

Western Maryland ranks high in the academic world. We are proud of our alumni and professor who, as Fulbright Scholars, have helped make it so.

We Don’t Like To Get Personal, But - - -

We (meaning the Alumni Office staff) are in dire need of some information—about you, that is.

It’s been a good many years since the College has compiled a Biographical File and it’s time we were doing something about it.

Compiling this data is not merely a labor of love (although we just love to hear from our alumni). Accrediting agencies require periodic surveys of alumni—what advance degrees they hold, what graduate schools attended, what kind of work they are doing, papers and texts they have had published, etc.

The information obtained in compiling this Biographical File will provide the necessary data for such surveys as may be demanded of the College.

Then too, we feel that it will prove a valuable and interesting reference to you as an alumnus as you write into us for information about your former college friends and classmates; and to the alumni office staff as we refer to you from time to time in bulletins.

We cannot establish this Biographical File without your help, however, so won’t you help us by completing the questionnaire on the inside cover and mailing it to: Alumni Secretary, Western Maryland College, Westminster, Maryland.

April 3, 1954 marked the eighty-eighth birthday of a scholarly southern gentleman whom all of us here on the Hill have come to know and love through our associations with him during our years at the College.

Dr. Wills' frequent trips to the Hill attest to his continued interest in all college activities. Almost daily we are inspired by his presence on the Hill.

We who have prepared this edition of the Alumni Issue would like to dedicate it to Dr. George Stockton Wills. Embodied in his work here during his twenty years as Head of the English department and as professor emeritus since 1944 are the challenging ideals of higher education to which we would aspire.

COVERAGE STORY
Classes ending with a 9 or 4!

Reunion time is coming—May 28th. After having dug in files whose content we had forgotten, dusted off Alohas and copies of the Western Maryland College Monthly with inquiring hands, written and received many helpful letters, and sorted through pictures of our past, we have tried to present to you a cover and feature article, pp. 6&7, which might remind you of your years on "The Hill".

The pictures used are not necessarily of your particular graduating years, but rather are ones which fit in with the idea of Reunions and Reminiscences. With the much appreciated cooperation of some of your classmates, we have tried to recall incidents of your years on the campus. We hope you will enjoy being reminded of your college "doings"—to the extent of planning a W. Md. College May 28 weekend.

The cover picture recalls the W. Md. Prep School in Levine Hall, Outdoor Exercises for Young Ladies, and the "Dumbell" Exercise in Calisthenic Hall. The young ladies in their gymnasium costumes "hiked" to Fern Rock, about ¼ mile from Main Hall. Chaperones are the two men and two women in dresses without stripes. Note the gymnasium costume of the young man—"sweatshirts" with collar, tie and front emblazoned with W.M.C.

The pictures on pp. 6&7 show The Dining Hall where the boys used to smile and smile again at their "strikes" on the female side of the hall, The Daisy Chain springtime festivity, girls doing an Indian Club Exercise in physical culture class, and the early "co-educational" Library. In the dining hall picture, Miss Lottie Owings, Preceptress, sits at the head of the table in the foreground and the young Professor McDaniel sits at the men's table in the rear. The calisthenics class is being directed by Prof. McDaniel. His program of training, a forerunner of our present-day setting-up exercises became so widely known that Prof. McDaniel was invited to introduce them at Harvard College. He did—during the summers of 1887 and 1888. Please notice that the library users are well supervised by the librarian—she stands over a table of girls—one of whom is Miss Carrie Mourer of Westminster. The gentleman (standing) third from the left is the late L. Irving Pollitt.

ELECTION OF OFFICERS
Following are the nominations for offices to be filled in the Alumni Association for the two year period, 1954-56.

President—Dr. William H. Adolph, '41
Vice-Pres.—Brady O. Bryson, '35
Alumni Visitor to the Board of Trustees
Richard W. Kiefer, '34
Elizabeth Crisp Rechner, '39

Nominations from the floor will be accepted on the morning of the Annual Business Meeting on Saturday, May 29, in Levine Music Hall at 10:30 a.m.
May I first extend my own cordial invitation to return to the campus for Alumni Day and the Commencement Week-end. As you will see elsewhere in these pages an interesting program is being arranged, but after all the program is not the main attraction we have to offer. No program can take the place of the familiar scene of one of America's most beautiful campuses, and the nostalgic thrill of spinning yarns and talking of old times with friends and classmates. Why not plan now to come back and see the old crowd—particularly if this is your anniversary year!

I think I can promise you something very special if you do come back for Commencement this year—the beginning of the new Men's Dormitory. It may be only a hole in the ground by the end of May, but, at least, it will be the start of something we have long looked forward to. Perhaps you will be interested in hearing about some of the recent developments leading up to our Building Program.

The most recent development was an appropriation of $250,000 for a men's dormitory by the 1954 session of the Maryland Legislature. Frankly, it came to us this year as a most welcome surprise. It had been introduced as a part of the General Construction Loan of 1953 in the 1953 Legislature by Senator Stanford Hoff, Ex'32, of Carroll County and Senator Frederick C. Malkus, Jr. '34, of Dorchester County. It passed both Houses of the 1953 Legislature, but was finally vetoed after adjournment. According to Maryland law all bills vetoed between sessions must be presented for final action at the opening of the next session. Our appropriation, therefore, came up at the opening of the 1954 session; and much to our delight the veto was overridden.

The plans and specifications for the dormitory have been completed for sometime; and although bids have not been received as yet, it is anticipated that it will cost considerably more than the State appropriation. This difference will be taken from funds raised during the Mid-Century Advance Program.

One of the problems in relation to the new dormitory was the selection of a suitable site. We always hoped that we might be able to erect it immediately opposite Albert Norman Ward Hall. This seemed impossible, however, because only about one-half of that site belongs to the College. The rest is the property of the Seminary. Recent decisions by the Seminary, however, have finally made it possible for us to erect the dormitory on the site of our first choice. As most of you have heard, the Seminary has decided to move to the campus of American University in Washington as soon as sufficient funds are available for the erection of adequate facilities. When this decision was made, the College agreed to buy all of the present seminary property, including the main building, the President's House, and four faculty houses. When we reached this agreement, the Seminary was kind enough to give us immediate use of the land adjacent to the President's House, so that we could proceed with the building of our dormitory without further delay.

I am sure you can all appreciate how our original plans, publicized during the Mid-Century Advance Program, have had to be altered in view of this anticipated acquisition of the seminary property. Just what use will be made eventually of the Seminary building is now under consideration, but, in all probability, the interior will have to be completely redesigned in any case.

These are just some of the things that keep a college president awake at night; and when you visit the campus in May, nothing will make me happier than to sit down and talk with you in detail about our plans.
Every Saturday at 1:45 p.m. Western Maryland takes to the air.

This time marks the end of a week of rehearsals, interviews, and performances of talented students, the finished product of which is wrapped up on recording tape and broadcast from Station WTTR in Westminster. This is "Western Maryland On The Air".

The idea for an all-star Western Maryland show was conceived early last October by Bob Bartl, a student from Washington, D.C., Bob, who has previously worked in radio, saw a golden opportunity for the show with the opening of Station WTTR.

Approval was obtained from the proper authorities. With the cooperation of the staff of WTTR, the first show, a historical documentary on the College, was broadcast October 24.

Many hours of preparation go into the fifteen minute show. The theme must be decided, the script written, interviews planned and the students who are to be featured on each week's program must be contacted and rehearsed. Recordings are made at different times during the week. To record the show at one time would be virtually impossible, since a definite recording time would be sure to conflict with someone's schedule or extracurricular activities.

With the Thanksgiving and Christmas shows a special vocal group, the Radio Choraliers, was incorporated into the program. The Choraliers have gained much popularity. Over 20 mixed voices blend together in the rendition of such selections as "Give Me Your Tired and Poor" from Miss Liberty and "You'll Never Walk Alone" from Carousel.

Charlie Fessenden, a native of Bethesda, Md., is the director of the Choraliers.

Bob likes to think of "Western Maryland On The Air" as a pioneer project. He hopes that future classes will continue the work that he and his staff have begun. This isn't the first time that Western Maryland has had its own radio show. Its predecessor was a show under the direction of Dr. John D. Makosky, broadcast from a Frederick station.

Right now the big problem is money. Bob feels that the scope of the program is limited now because of insufficient funds. "We need new equipment, especially a dynamic microphone which will take the power of singing voices," Bob said. The microphone now in use is part of the tape recorder purchased by the College for the program and is built to carry one speaking voice. A permanent place to record is also needed.

The job of splicing the program so that it will be heard as a congruent performance falls to Bob. On Friday nights he, often with the assistance of one or more of his staff members, work with the tape, usually into the wee hours of the morning. Routine announcing must be dubbed in and parts which are too long must be cut. Time is important. Although a leeway of 15 seconds is allowed, 14 minutes and 30 seconds of air time must be filled.

An undertaking of such a task could not be successful without organization. Bob has gathered about him a competent staff. He serves as program director and chief announcer himself. Stan Greenberg is in charge of securing talent for each week's program; Sandy Roberts is in charge of the "Personality of the Week"; Dick Shenton, technical director; Charlie Fessenden, director of the Choraliers; and Bobby Phillips, special programs. Acting in an advisory capacity is Miss Joy Sleeper, Irene Pope, Doreen McNell and Bill Blevans. Other announcers are Dick Tinkler and Sandy Roberts. Secretary for the group is Sally Smith.
SPRING SPORTS
by Eddie Smith '55

Much of the success which the Terrors will achieve this spring in their sixty inter-collegiate athletic contests, in five different sports, will fall upon the shoulders of those who are featured in the photos which cover this page.

With a nineteen-card schedule arranged for Jim Boyer's diamondmen, much of the punch necessary will have to come from the mound staff. Bill Clem, capable portsider from Walkersville, Md., (lower left) will head a four-man crew. Charlie White will handle the majority of the receiving duty.

After three years of coming up through-the-ranks, Bob Steelman of Lynwood, N. J., has been selected as the '54 golf captain. In realizing this goal, Bob has shown outstanding school spirit, as well as a much improved "links" game.

Led by Barry Winkelman, Ferguson's choice for captain the second straight year, the Green and Gold stickmen will face six opponents before closing with Dickinson on May 15. Winkelman won his letter in his freshman year, and as goalie has been the mainstay this year as well as last. From Baltimore, he is a junior.

Heading Coach Hurt's edition of the 1954 racquetmen is Chick Silberstein. As a senior he is completing his third tour of duty on the tennis team and is currently in the running for one of the top positions.

The tennis squad plays a rugged 16 contest campaign.

After a successful 2-2 log last year, Coach Harlow's cinder enthusiasts will meet five M-D opponents before touring to Lynchburg, Va., for the Conference Meet. Jack Duhl, weights man, is the captain of the squad.

ALL OUR WILDEST DREAMS CAME TRUE!!! Student Gov't. had been adopted—No more K.O.B.'s necessary—No more Parlor

No more "paired" shopping lines—Couples actually "strolled" on campus!

WHAT BLISS!!!
The little cottage, now home of Dean of Men, built. . . . WAR YEARS—Mr. Hoover's "wheatless" days, "sweetless" days, we even added "eatless" days. . . . REMEMBER?
24 Gen. Douglas MacArthur, commandant of the then 3rd Corps area, visited W. Md. for R.O.T.C. inspection. ... We had watched McDaniel Hall being built. ... We were the first class to graduate under Albert Norman Ward’s Admin. ... Our class was the experimental one for the changing social customs (Parlor nightly, eating together, daytime open campus, etc.) ... Saw the end of the prep. school. ... Issued the first student publication “Black and White”. ... Some of us joined the new fraternities: Pi Alpha Alpha, Gamma Beta Chi, Alpha Gamma Tau. ... Remember those compulsory morning chapels and Friday afternoon Smith Hall public speaking performances?

29 AS FRESMEN!! Rat Rules!—We were first to suffer these. Planters of trees—honoring seniors. “By the Light of the Silvery Moon”—we turned composers and craftsmen—lantern chain, farewell to the grand old seniors. By SENIOR YEAR!! Had renamed student publication “The Gold Bug”—students still issue it. ... Some of us helped organize the Delta Pi Alpha frat. ... Our education dept. became the School of Educ. ... Had seen Science Hall built and ready for use. Had been introduced to coach Dick Harlow who hoped to put W.M.C. on the “football map”.

34 Dr. Ward announced plans for Blanco Ward Dorm for Women. ... Our Gold Bug warned “of the recently empowered dictator—the colorful Adolf Hitler”. ... Summer House rebuilt completely. ... The Great Experiment—Open Dances. ... Christmas carolers set back on their haunches—W.M.C. was a solid sheet of ice. ... We knew W. Md.’s only All-American, Bill Shepherd. ... Remember May Day? The Lutheran’s cow (artificial, on wheels) which the boys rode down Hoffa Field hill, smashed to smithereens. The real cow broke loose, got flustered, cavorted all over Hoffa Field. (The poor farmer ended up in the hospital—strained muscles, trying to hold it.) The Queen and her Court lifted their skirts, dashed for grandstands; milkmaids scammed to security; pianist climbed atop piano. The spectators howled, but the participants were scared to death.

39 Choir went to Newark and World’s Fair for concerts. ... Had honest to goodness fire—4th floor, Blanche Ward. Everyone on alert, except 4th floor maidens—they slept through it. ... Girls, remember our terrific pitcher Julia Berwager who helped us win women’s softball and baseball championships? ... We had done spade work for Y.W.C.A. and Y.M.C.A. to become S.C.A. ... Used the complete library, admin. offices and bookstore moved out. ... Levine Hall put the men out—renovated—and moved the Music Dept. in. ... Saw completion of Albert Norman Ward Dorm and Gill Gym. ... Introduced the “cats” of Physiology lab to protesting roommates and Dean of Women via the window sills. ... We W.W.Club’ers became known as the Sigma Sigma Tau’s.

44 WAR!! Men left May, 1943 leaving ratio about 4:1, women-men students. ... The A.S.T.P. moved in. ... Lean days of rationing—no more dressing for dinner, stockings at a premium. ... Trumpeters organized. ... We were some of J.G.C.’ers who changed name to Iota Gamma Chi’s. ... Harold Bauer came to college—awed the music students. ... THINK BACK!!! REMEMBER? Bo Baughers’ cheerleading? The after dinner post office jams? Miss “I’S” good infirmary food? The Military Ball Weekend blizzard? The Air Raid Alerts?

49 Tables turned! More men than women students. Veterans G.I. Bill. ... Vet Village and new Thompson Infirmary go up. ... Second largest graduating class in W.M.C. history. ... Active Student Gov.—Campus Bulletin Board, Green and Gold Terror Blotters. ... College “Radio Players” put W.Md. on the air waves. ... May Queen—first time foreign student—Swedish beauty. ... 30th Anniversary of R.O.T.C. Unit showing growth from 30 men in 1919 to 162 in 1949.

Since the opening of the Art Exhibit Room one year ago, our Art Department staff, Dr. William Allan Macdonald and Miss Louise Shipley, WMC, '39, have arranged an interesting and educational series of exhibits.

Included this year have been prize collections from the Baltimore Museum of Art, sculpture and paintings of Baltimore artists, Karl Metzler, Edward Rosenfeld and Metsumi Kanemitsu and the Albert Blum Collection of Primitive African Art.

Shown here is a portion of the C. Newton Kidd Collection of Antique Lamps and Primitive Lighting Devices recently exhibited which Mr. Kidd, college trustee, presented to Western Maryland this year.

During the Commencement Week there will be a showing of the work of our senior art students.

Entered as second class matter, May 19, 1921, at the Postoffice at Westminster, Md., under the act of August 24, 1912. Accepted for mailing at special rate of postage provided for in section 1103, act of October 3, 1917.
PROFILE OF '54

Around The Campus

CHOIR WITH BALTIMORE SYMPHONY

The College Choir is in for an exciting two days of concert-making with the Baltimore Symphony Orchestra this Fall. October 22 and 23 are the dates. The program will be a Rogers and Hammerstein night.

Friday the 22nd will see the entire Baltimore Symphony Orchestra, its conductor Massimo Freccia, and four soloists from the City Center Opera in New York City move onto the campus. The day will be filled with rehearsals, staging, musicians in the dining hall, autograph seeking, and a grand concert at 8:15 p.m. in Alumni Hall for the student body and public. Then on Saturday the 23rd, Professor Alfred deLong and his 65 choir members will go to Baltimore for an 8:30 P.M. concert at the Lyric Theatre.

Mr. de Long has begun work with Maestro Freccia on the program which will be orchestral and choral music from the many Rogers and Hammerstein shows: Carousel, State Fair, The King and I, Victory at Sea, South Pacific, Me and Juliet and Oklahoma.

After considering many Maryland choral groups, the Baltimore Symphony asked our College Choir if we would cooperate in such a program. Mr. de Long was enthusiastic; the choir members, willing and able. They know they are in for four and a half strenuous weeks at the opening of the college year. Such a concert means plenty of hard work in rehearsals and practice rooms, a great deal of worthwhile learning, but fun, too.

The Class Of '54

To bring you the complete story of the Class of '54 would take us back at least four years, when as wide-eyed freshmen they came to the Hill from various geographical areas representing a wide variety of backgrounds. But space does not permit and the Aloha has done it all already.

The last chapter sums it up pretty well. On Commencement Day what they had taken with them from these halls and what they were leaving behind was plainly written on every face as each filed out of Alumni Hall. Whatever college had meant to each, there was no disguise of feelings. Graduation for them combined mixed feelings of triumph, surprise and relief.

Patrick Leonard Rogan . . . three sports man . . . winner of Alumni Citizenship Award and John A. Alexander Athletic Medal. "Pat" was twice elected Class President, was President of the "Preachers" . . . an Economics major from Crum Lynne, Pa.

Beverly Anne Stringfield . . . graduated summa cum laude . . . won Fulbright Scholarship for a year's study in Paris . . . Aloha's Associate Editor, an Argonaut from Washington.

Arnold Hayward . . . President of Student Government . . . Lynn Frances Gruber Medal for proficiency in extra-curricular activities . . . cadet commandant of ROTC, a pianist and a psychology major from Trenton, N. J.

Mary Barbara Plaskett . . . winner of Alumni Citizenship Award . . . President of Blanche Ward Hall . . . Secretary of Social Activities Committee . . . Sociology major from Riverside, N. J.

Patricia Elizabeth Herman . . . "Pasty", named the outstanding woman on campus in winning AAUW award . . . President of the Women's Council, a Trumpeter, Phi Alph and athlete . . . no job too difficult for this gal from Washington, an English major.

Howard Richard Linton . . . "Dick" became first Terror named to All-American Soccer Squad . . . captained his team two years . . . carried a Chemistry major . . . awarded graduate fellowship at U. of Penn. His home . . . Aldan, Pa.

Elizabeth Eaton Parsons . . . nickname "Perk" well suited . . . Mary Ward Lewis Prize for best all around college woman . . . President of Student Christian Assoc. . . . "fiddler supreme" of Little Symphony . . . Prexy of Sigmas, a Trumpeter and native of Clarkton, N. C.

Though small in number—only 163 in the class—they nevertheless produced some outstanding personalities, had some great moments, beautiful queens, thrilling events. Two from this class have been nationally recognized for achievement in academic and athletic ability.

The Class of '54—our youngest alumni! They made one of the differences this year. But you be the judge—this is a class profile—here is what some of them accomplished in four years on "The Hill."

Aloha
The 1954 Living Endowment

Your contributions to the Living Endowment Fund (Annual Alumni Giving Plan) this year totaled $5323.04, a figure which topped by almost $1000 any previous year's effort. It would have taken approximately $133,076.00 fixed endowment invested at 4% interest to have produced this income for the College.

A glance at the statistics listed will give you some idea of what individual classes achieved. It may startle you that only 339 (6 percent) of our alumni contributed. Although our total was higher this year, our average gift per donor dipped slightly below the $16.50 average gift attained in 1946, the first year the Living Endowment was organized. Single contributions this year ranged in size from 50 cents to over 300 dollars.

On a nation-wide basis, Western Maryland joined 392 institutions reporting a total amount of $16,443,756, given by alumni to their alumni funds.

In passing out the orchids we would like to recognize, by listing here, the names of the class agents who helped boost class totals and the Class of 1949 which had the greatest number of contributors for a single class.

To the Class of 1908 we throw a double bouquet for the highest average per donor and the largest contribution from a single class. This Fall when the 1954-55 Fund swings into action, perhaps a little more class competition will help boost us into the five figure realm.

It is not how much you give that is important but that you do establish the habit of giving every year.

As the College continues to strengthen its program in this highly competitive endeavor to provide educational facilities for present and future generations of Western Marylanders, it continues also to look to its Alumni for annual support in helping to meet current operating expenses. Through your annual contributions to the Living Endowment Fund you are helping to do just that. Put Western Maryland in your budget next year. No contribution is too small, nor too large, but it is important that you give something. Can we raise our sights to 100 percent participation?
Below is the summary report of the Living Endowment contributions as of July 30th.

The Class Agents were used only in the classes beyond 1900. As you will notice, there were exceptions even in this group.

GOODBYE—MRS. VEALE

Anyone and everyone who has known Mrs. Nina Veale will be reluctant to hear that she is retiring—leaving the campus to return to her home in Salisbury, Maryland, where Mrs. Veale says she intends to just relax and enjoy life. Mrs. Veale has been on “The Hill” for thirteen years as House Director of Blanche Ward Dormitory. Her 1940-1954 stay was a return trip, because Mrs. Veale is a Western Marylander—Class of 1908. All of your Alumni friends hope, Mrs. Veale, that Salisbury living will be pleasant, but not too pleasant to keep you from using every Alumni occasion for a visit to the campus so that we may visit with you, as usual.

Mrs. Veale’s successor, Mrs. Arthur W. Ewell, will find that her family of three grown children will increase to about 150 girls. However, she will be prepared, having recently taken a course in Institutional Management at the Hannah Harrison School near Washington, D.C. Mrs. Ewell is a native of Westminster, married a Westminster Seminary student, and was an active church worker while her husband served as pastor of the Westminster Methodist Protestant Church for about five years. Blanche Ward girls will find themselves with a charming new house director.

W.M.C.—J.H.U. ENGINEERING

Dr. Lowell S. Ensor and Dr. R. D. Summers of our Physics Department have announced that the final details are being worked out with Johns Hopkins University effecting a cooperative plan between our Liberal Arts program and their School of Engineering. The plan at present will enable a student to take a three year Liberal Arts program at W.Md., transfer to the Hopkins Engineering School, and receive at the termination of these five years of work our B.A. and the Hopkins Engineering degree. The plan is expected to become effective this coming academic year, 1954-55.

LIBRARY GIFT

Some seven years ago the first of a 5000 volume personal library was sent to the college library. Mr. Samuel M. Hann of Baltimore, a prominent Methodist layman and member of the Mt. Vernon Place Church, became interested in Western Maryland through his church membership and acquaintance with Dr. Fred G. Holloway, then President of the College. Mr. Hann was a distinguished banker and official of the Fidelity Trust Co. of Baltimore. He had decided that his entire collection should be given to the College after his death. He died on November 3, 1952. At the recent Commencement, Dr. Ensor announced the Samuel M. Hann Gift and the receipt of over 3000 volumes this Spring from Mrs. Hann, who lives in Baltimore. Approximately 1000 books are still to be received.

The Samuel M. Hann Gift is a well-rounded collection covering various subject fields, the books having been collected with the help of subject matter authorities. The collection includes many very beautiful editions. Mr. Hann was particularly proud of his religious books, and his books of history, travel, biography and literature show evidence of much use, study and enjoyment.

HOMECOMING

OCTOBER 30th
Richard Cressen (Dick) Harlow was among 12 of college football’s greatest coaches today named to the Football Hall of Fame. Harlow, who lives in Westminster, coached at his alma mater, Colgate and Western Maryland before closing out his career at Harvard. He went to Montgomery, Ala., for the past several years as an advisory coach to the North in the annual Blue-Gray game.

Dick was born in Philadelphia in 1889. After attending Episcopal Academy, Philadelphia, he went to State, where he was graduated in 1912 and received his master’s the following year.

During his undergraduate years, Harlow was a standout tackle.

**Coach of Year In 1936**

Dick was voted coach of the year by the U.S. Football coaches and writers in 1936 and received the Stagg Award in 1948.

In recent years, Harlow has served in an advisory capacity for football at Western Maryland and has coached track there during the past three years.

Dick’s coaching career was interrupted by two wars. In 1917-18 he served in the U.S. Infantry, and from 1942 to 1944 was a lieutenant commander in the Navy.

An ornithology expert, Harlow has been associate curator of zoology of the Aggasiz Museum since 1934, and collaborated by measuring eggs from 1936 to 1939 for Bent’s Life Histories of North American Birds. He has been an experimental specialist on gentians since 1934.

## COLTS MOVE IN

For the 3rd season, the Baltimore Colts, Baltimore’s professional football team, moved onto campus for their summer training camp late in July. Approximately 60 men are living in Albert Norman Ward dorm, eating in the dining hall and working out every morning and afternoon on the playing fields, with headquarters in Gill Gymnasium.

Not only is the College glad to have the Colts on campus, but doubly so since hearing Don Kellett, the Colt Manager, remark on a TV interview and to the newspapers that Western Maryland provides the Colts with a site and facilities for summer training which are not surpassed by those had by any other professional club in the country.

## OUR DEAN OF WOMEN

Miss Helen G. Howery, Dean of Women, has been elected to be Vice-President of the Regional Association of Deans of Women and Advisers of Girls. Having served as President for the State of Maryland, she will take over the Vice-President’s job for the Region which includes colleges of Delaware, Maryland, Virginia and the District of Columbia. Two of Western Maryland’s former Deans of Women, Miss Margaret M. Robinson and Mrs. Fannie M. Stover, were charter members of this or-
ganization in 1923. This should sound familiar to early Western Marylanders—at early meetings, the deans met to give “serious consideration to the problem of ‘activities for young persons other than dancing or card playing’.”

NEW DORMITORY

On July 26, the College announced to the public the awarding of a contract to the Land and Simmons Company of Baltimore for the erection of a Men’s Dormitory on campus.

Construction will begin sometime this summer or early fall after materials are lined up for the project. On the basis of the bid accepted, it is estimated the total cost will be approximately $400,000 which does not include furnishings.

As President Ensor reported in the last bulletin, the site chosen for the new building is directly opposite Albert Norman Ward Hall on land adjacent to the Westminster Theological Seminary.

As shown here from the architect’s drawings, the new building will be similar in design to Albert Norman Ward Hall erected in 1939.

The new dorm, which will normally house 140 men, will be 170 ft. x 37 ft. in dimension with a total floor area of approximately 31,000 sq. ft. It will be four stories high, constructed of steel and cinder block with brick exterior. Rooms are designed for double occupancy except those on the fourth floor which will be for three men. Floors will be poured, reinforced concrete. With cinder block partitions and a roof of slate on gyp-steel plank supported on steel rafters the building will be fire-proof throughout.

The basement, part of which will be above the ground level, will be planned for fraternity club rooms with a few regular dormitory rooms.

Funds raised during the Mid-Century Advance Program will supplement those appropriated by the Maryland General Assembly to finance construction.

The 1953 General Assembly appropriated $250,000 for the construction of the dormitory. The same amount was allotted to Washington College in Chestertown to build a gymnasium and fieldhouse. Governor McKeldin vetoed both appropriations which were overridden at the 1954 session of the Legislature.

Upon completion of the new dormitory, “Need Number One” of the four point Mid-Century Advance Program will be realized. Some change in original planning may be needed as an advent of the proposed change in Seminary location, reviewed for you in President Ensor’s message in the May bulletin.

CHAPTER MEETINGS

Thirty-seven Philadelphia area alumni turned out for the Spring Banquet at Kugler’s on Thursday, April 1. To the retiring President, Bob Bricker, ’42 goes a barrel full of praise for keeping the chapter in full swing in the “city of brotherly love.”

The newly elected officers are:
Martha Libis, ’47—President
Jay A. Lockman, ’51—Vice-President
Louis Pietroforte, ’51—Sect-Treas.

Three dozen Washington Countians turned out for the Spring Banquet in Hagerstown on Tuesday, April 6, at the Rose Bowl Party House. Entertainment was provided by two college freshmen musicians, Betty Eli and Beverly Parsons. President Ensor showed some of his personal collection of kodochrome campus slides.

The following officers were elected:
*Barbara Sowers Thomas, ’49—President
Emily Linton Carnochan, ’42—Secretary
Rebecca LeFew, ’53—Treasurer

COVER STORY

Richard “Dick” Harlow was honored on Saturday, October 23, when Admiral John Brown, USN retired, President of the National Foundation and Football Hall of Fame made the Award presentation on Hoffa Field during half-time ceremonies.

“Dick” Harlow was named to the National Football Hall of Fame on August 10, 1954.

Pictured on the cover is the presentation ceremony. With his back to the camera is Admiral Brown, who was Harlow’s commanding officer in the Navy in World War II. Standing beside Mr. Harlow is Floyd “Goose” Doughty, ’33, one of the members of the Honor Guard who escorted “Dick” down the fifty yard stripe to receive the award.

It was a great occasion for a great coach. On twenty-four other campuses throughout the United States similar ceremonies were taking place. The presentation here was the only one on a campus of less than 1000 students.

Western Maryland College Bulletin

Vol. XXXV November Number 6

Entered as second class matter, May 19, 1921, at the Postoffice at Westminster, Md., under the Act of August 24, 1912. Accepted for mailing at special rate of postage provided for in section 1103, act of October 3, 1917.
Ground was broken for the men's new dormitory late in August. When the first of this series of pictures was taken, there was nothing more than a hole in the ground. Even before this point was reached, chain saws buzzed, clearing trees preliminary to the ground breaking. Later, power shovels, bulldozers and other heavy construction equipment moved in to gouge a deep scar in the earth which now cradles the foundation of the new structure. Most of this activity took place before students returned to College in September.

As you can see, the new dormitory is taking shape as steel is being placed and concrete poured.

The new building will bear a close resemblance to Albert Norman Ward Hall which faces it to the North. Like it, the new dorm will be divided into four sections with suites in each of the ends. One major architectural change will be the inclusion of a lounge and reception room located on the ground floor.

Interior walls will be of painted cinder block; floors will be covered with asphalt tile. It will be completely fireproof.

When the new dorm is completed, all male students on campus will be housed in the new quadrangle formed by it, Gill Gym, and Albert Norman Ward Hall with the open end to the West.

Old Ward and McKinstry Halls will be abandoned as dormitories.

New club rooms for the two fraternities now housed in the basement of Alumni Hall, Gamma Beta Chi and Delta Pi Alpha, will be available in the basement of the new dorm.

Dirt removed in excavation has been moved to the south side of Gill Gym where an additional parking lot will be constructed.

It is hoped the men's new dormitory will be ready for occupancy by September 1955.
Twenty-five years ago, two southern scholars came to "The Hill": Dr. Clyde A. Spicer to the Mathematics department, and Dr. Theodore M. Whitfield, the History and Political Science department. Both are professors whom all alumni remember as being teachers of outstanding merit. They are still at it—Dr. Spicer's classes continue to take his advice to "try a quarterback sneak for this calculus problem, 'cause you won't gain much yardage with a line plunge!", and Dr. Whitfield's students always remember that "the test will not cover the material before page one".

Both Dr. Spicer and Dr. Whitfield are natives of Virginia. They attended the University of Richmond, then did graduate study at Johns Hopkins University. Not only were they roommates at Hopkins, but each earned his doctorate in 1929. While in graduate school, Dr. Spicer was also assistant professor of Math. Dr. Whitfield's dissertation was awarded the Mrs. Simon Baruch university prize for a paper related to the war for Southern independence. In addition to this book, he has also written a genealogy of the Whitfield, Bryan, Smith, and related families.

In 1929 they came to Westminster. Each began teaching as associate professors, and within a year each became a full professor and head of his respective department. Excellent teachers, they are also active members of professional organizations. Dr. Spicer appears in the fourth edition of "Who's Who In the East", was named a Fellow in the American Association for the Advancement of Science in 1934, is a member of American Men of Science, American Mathematical Society, and Mathematics Association of America. Dr. Whitfield belongs to the American Historical Association, the Maryland Historical Society, and has served as treasurer of the Carroll County Historical Society.

Although neither has lost his southern accent, these men are real Western Marylanders. All who attend football games see Dr. Whitfield and his sons either on the side lines or in the stands, while Dr. Spicer, with baseball cap and ticket apron, helps at the Hoffa Field entrance. Many Gamma Bets will remember Dr. Whitfield for his interest in their fraternity, serving as their sponsor for years. The International Relations Club finds him a capable advisor.

And to make Western Maryland a family tradition, Dr. Spicer's son plans to enter WMC next year while Dr. Whitfield's older daughter is a popular Senior and his younger "miss" is a talented music student of the Freshman class.

The college is proud to recognize the uninterrupted 25 years of fine teaching by these two professors. Alumni remember them as outstanding personalities who are not just former teachers but good friends.
1929 added yet another present faculty member, Professor Hugh Latimer Elderdice, Jr., Instructor in Chemistry. Mr. Elderdice has not, however, taught since that time, having been called into the Armed Services in 1940. However, after the war, in 1946, he was back in the labs on 3rd floor Lewis Hall, where he is an Assistant Professor of Chemistry. He is a member of the American Chemical Society.

Seeing Mr. Elderdice pictured at a lab table is so inimitably true to form that perhaps it explains why he is seldom seen elsewhere on campus.

His lab is an interesting place. Visitors on May Days usually find him whipping up an impromptu experiment or demonstration of interest and value. Seldom is his door closed; there is always something brewing in test tubes or decanters; it is surely a second permanent address—3rd floor, Lewis Hall.

Miss Marie Parker came to Western Maryland College in 1929 also, and with the exception of one semester has been teaching in the Health and Physical Education department for 25 years. She had previously served as Maryland State Supervisor of Physical Education for Women from 1927-1929. Her experience in the teaching field was gained in the Baltimore City schools—being a physical education teacher in Girls’ Latin, Public School #13 and Forest Park High School.

Miss Parker attended the University of Missouri for her B.S., and received her further degree from Columbia University. She has done additional study at Johns Hopkins University. It was for graduate work that Miss Parker took advantage of a Sabbatical leave in 1947, the only break in her 25 years at the college. Students in her health and rec-

NATIONAL ACADEMIC LEADERS

Several of our Faculty members are executive officers of various national professional organizations:

Mrs. Evelyn Smith Hering—Fine Arts Committee of the American Association of University Women.

Dr. Kathryn B. Hildebran—President of the Modern Language Association of the Middle States and Maryland.

Dean Helen C. Howery—Vice-President of the Regional Association of Deans.

Dr. Thomas F. Marshall—Head of the Committee of Bibliography for the Literature and Society group of the Modern Language Association; Advisory member of the Business Liaison Committee of the College English Association.

Dr. O. Ruth Russell—member of two committees of the International Council of Women Psychologists.

Miss Daisy W. Smith—Chairman of the Department of Colleges and Universities of the Maryland Home Economics Association; member of the Education committee of the American Dietetics Association for the State of Maryland.

Dr. Harwell P. Sturdivant—Regional Director of the Beta Beta Beta, national biology society.

Dr. Evelyn W. Wenner—Member of the State Board of the American Association of University Women.

Dr. Harwell P. Sturdivant has recently been recognized and made a Fellow in the American Association for the Advancement of Science. Recognition is given to those who have made a decided contribution to science. He is especially interested in the field of cytogenetics, the study of the cell in heredity.

Dr. Sturdivant is head of the Biology Department at Western Maryland.
Shown above left and right are two new faculty and staff members who came to the Hill this year.

Captain Leslie D. Carter, Inf. USA, is Assistant Professor of Military Science and Tactics. A West Point graduate, he last served with the 508th Airborne Infantry Regiment. He is married, has three children and lives in Westminster.

Dr. Ralph B. Price (above right) heads the Economics department succeeding Dr. Charles Phillips now at the University of Maryland.

Dr. Price came to Western Maryland from the Institute of International Education. He and his family live in Westminster.

Mrs. Mary Ewell (see July-August bulletin) is House Director of Blanche Ward Hall.

Replacing Miss Gretta Smith on the Library staff is Miss Jane V. Humbertson, a graduate of Washington College who has a Master's degree in Library Science from Carnegie Tech.

Below is a portion of the current exhibit in the College Art Gallery. The sculpture, line drawings and oils are the work of Reuben Kramer and his wife Perna Krick, well known for their work in the Baltimore and Washington area. In 1935, Mr. Kramer won the “Prix de Rome” in sculpture for two years of study in Italy.
Homecoming morn dawned rainy and gloomy. A sea of mud caused the cancellation of the alumni-varsity soccer game much to the disappointment of those who had travelled many miles to participate. Student spirits drooped momentarily as thoughts of labor lost on floats and displays struck forcefully.

But miraculously skies cleared by 10:30 a.m. What had been a drab beginning turned out to be "one of the best Homecomings ever."

With clearing skies, the campus sprang back to life . . . students worked feverishly assembling campus displays . . . the parade went back on schedule . . . Queen and Court discarded raincoats . . . the crowd came . . . the sun shone . . . and the Terrors kept intact a tradition by edging a favored Franklin and Marshall football team, 6-0.

It was a great day!
SPOTLIGHT ON SPORTS

THE SOCCER TEAM

In posting a 7-2-1 record, the Green and Gold booters finished the best season in years. In the last week of play, two championships loomed large in their sights but were just not to be had. Battling neck and neck with Baltimore University for the Mason-Dixon Championship, the Terrors dropped the title when B. U. took the game and the cup 3-0, in Baltimore.

The other championship effort was lost in the same week when, on a field of mud, here at home, we battled Hopkins in an overtime game finally deadlocked at 2-2 when the last whistle blew. Had Western Maryland won this game, they would have championed Haverford College, winner of the northern division for the Middle Atlantic Conference title.

The tie with Hopkins put WMC into a four-way tie with Washington College, Drexel, and Bucknell for first place honors in the southern division. Coaches from the four colleges involved decided to draw for the play-off. Washington College won the draw, beat Haverford 1-0 and brought the MA title to Maryland for the first time in history.

Team statistics show Center Forward Dennie Harmon, sophomore from Franklin High School, leading the scoring power this year with 18 of the 27 scored by Western Maryland.

Playing their final inter-collegiate game against Hopkins were four seniors: Henry Taitt, outside right; Alan Hagenbuch, left half-back; Ray Davis, center-half-back and Roy Etzler, left fullback. All were 4-year varsity players who had turned in many a superior game on the Western Maryland pitch. One other senior, Jim Monninger, managed the team this year.

FOOTBALL

Unable to improve upon their 1953 record, the Green and Gold gridders closed out the current season in winning fashion against their old rival, Johns Hopkins University, and thus gained an even split in their 8-game card for '54.

The Terrors alternated wins and losses with their weekly contests throughout the first six games of their schedule. Starting with the opener on September 25, the eleven scored successes every other week against the Dickinson Red Devils 25-0, the Lebanon Valley Flying Dutchmen 32-0, and the Franklin and Marshall Diplomats 6-0.

However, on the "off" week they dropped tilts to Penn Military 0-24, Hampden-Sydney 6-38, and Drexel 13-34.

Gettysburg, with its usual strong aggregation, upset this systematic winning-and-losing scheme 27-0; but the Terrors came back strong in their final outing, edging the Hopkins Blue Jays 12-7 on November 20.

The season was marked with injuries to such outstanding ballplayers as Warren McFague, Warren Bimestefer and Dick Holbruner. The first two, injured in the initial half of the campaign, were unable to return to action; but Holbruner’s knee injury mended in time for him to take over the passing offense that Bimestefer led before his mishap.

Although much of the time during the current season was spent in teaching new men new positions, the Havens-coached lads nevertheless placed one of their number in the number 5 slot of the State scoring leaders. Behind Beilski and Waller (Univ. of Md.) and Gattuso and Craig (of the Sugar Bowl-bound NAVY) the Terrors moved Charley White, senior end and letterman from Laytonsville, Md.

White led the WMC scoring with 4 6-pointers plus extra point after touchdown while other Terrors Hersh, Smith, Martinell, McFague, Holbruner and Rausch shared in the remainder of the 94 total offense points allowed by Mason-Dixon and Middle Atlantic Conference opponents.
The veterans of the club carried the brunt of the load throughout the year. Seniors Jack Duhl, Ronnie Jones, Jack Snover, Luke Suwall, Charlie White as well as McFague and Bimestefer, ran the ball club with very little help from the small group of underclassmen who flanked them.

Looking ahead to the future, Charley Havens will, after graduation this spring, have a fine nucleus around which to build: Martinell, Butler, Correll, Hersh, Holbruner, Miller, and Batista heading the list of the core of the '55 eleven.

Thus read the citation, paying tribute to one of America's truly great coaches of all time. A duplicate of the gold-framed citation was given to the sponsoring college, Western Maryland and hangs in the Athletic Office in Gill Gymnasium.

Following the "Award Game," "Dick" Harlow was honored at a Testimonial Dinner co-sponsored by the College and the Westminster Service Clubs. Testimonials were given by Gen. Robert J. Gill, '10; Charles W. Havens, '30; "Nate" Weinstock, ex-'29; William T. Mather, Jr.; "Tim" Russell, former Harvard football player; and Dr. Lowell S. Ensor, President. Judge Charles E. Moylan, '17, was Toastmaster.

Coach Richard C. Harlow has been granted highest honors of National Football Hall of Fame, in recognition of his outstanding coaching ability as demonstrated in inter-collegiate competition, his sportsmanship, integrity, character, and contribution to the sport of football, this certificate bears witness that his name shall be forever honored in the National Football Hall of Fame.

PULL POPULATION REPLACEMENT
by Roberta Ramsburg

This year, as in previous ones, Western Maryland College, in conjunction with the Population Reference Bureau, is carrying on a survey to determine the number of marriages and births to college graduates. By the time you receive this issue of the Alumni News, questionnaires will have been sent to the graduates of the classes of 1930 and 1945.

The members of the class of 1944, who participated in the study conducted last year have helped in the trend for larger families, but have not surpassed their hopes which they expressed as freshmen. The chart below lists their hopes as freshmen compared to the number of children the sixty-one graduates have had.

<table>

Thus, the class has not attained the peak of its hopes as freshmen.

The trend in the past ten years is encouraging, however. The birth rate among college graduates has been continually on the rise. The class of 1944 is above the national average, and still have years ahead to replace themselves, since they are just 10 years out of college. The class of 1929 (average 1.74), on the other hand, being twenty-five years out of college, have completed their families by this time and are only slightly ahead of the class of 1944. The class of 1944 shows good promise of topping the class of '29.

The table below shows the comparison between the men and women who reported in the classes of '29 and '44 and their comparison with the national averages.

The Sociology Department is interested in the "accomplishments" of the classes of 1930 and 1945. We are asking your cooperation and prompt return of the questionnaires to the college so that we may count your "babies" in this survey.
