GENERAL INFORMATION.

LOCATION.

This Institution is located in the healthy and flourishing City of Westminster, Carroll county, Maryland, on the line of the Western Maryland Railroad, about midway between the cities of Baltimore and Hagerstown.

The commanding eminence at the "West End"—nearly one thousand feet above tide-water—on which the College buildings stand, overlooking the whole city and many miles of the surrounding country, affords one of the most beautiful and picturesque views in the State. The main edifice is a spacious one, five stories high, containing Chapel, Recitation Rooms, Halls for the Societies, Professors' Apartments, and Dormitories. Additional dormitory accommodation for male students, rendered necessary by the steadily increasing patronage of the College, is provided by Ward Hall, a new and commodious building erected during the year 1882; and it is hoped that the accommodations will be further increased by the enlargement of this building, at an early date, to double its present size. The grounds belonging to the College comprise eight acres, allowing sufficient range for the exercise of students during the time not allotted to study.

THE PECULIAR ADVANTAGE

this College offers is, that parents can have their sons and daughters educated in the same institution, and under the same instruction. The Course of Study, however, is not the same for both sexes—the young ladies completing theirs in three years, and the gentlemen theirs in four. Although both sexes have the same instructors, yet the two departments are kept entirely separate, the Students meeting only at Chapel services and in the dining-room with members of the Faculty, and at no other time unless under similar supervision.

The Vice-President, Preceptress, and other members of the Faculty, reside in the building, eat at the same table with the Students, and have constant oversight of them.

PATRONAGE AND DIRECTION.

The College property is owned by a Board of Trustees, incorporated in March, 1868, by the General Assembly of Maryland, and the Institution is under the special patronage of the Maryland Annual Conference of the Methodist Protestant Church; but nothing is introduced either into the course of study or the discipline and management of the School which can be, in any way, objectionable to Students of other religious persuasions.

CONDITIONS OF ADMISSION.

1. Candidates for admission into any Class must come well recommended, as to moral character, (if from any other Institution of learning, with suitable testimonials) and be examined in the studies already pursued by that Class. Such examinations may be had on Tuesday or Wednesday of Commencement Week, and applicants are advised to avail themselves of this opportunity in order to further qualify themselves by September in any studies in which they may be found deficient. It is very desirable that Students should enter at the beginning and remain until the close of the session.

2. Each Student, upon entering, is required to sign a pledge to obey all the Rules of the Institution, a printed copy of which is at the same time furnished him.

3. Prompt payment of all College bills must be made.

4. Students must agree to take all the studies of the Class entered, unless excused from any portion thereof at the time of entering.

5. No Student shall, at his own option, drop a study during a session. Communications from Parents or Guardians in reference to this or to any other regulation of the College, should be addressed to the President, who will promptly lay them before the Faculty for consideration and action.

6. If a Student be a minor, his spending money should be deposited with the President, to be returned in such sums as he may think best.

STATE SCHOLARSHIPS.

An Act of the General Assembly of Maryland, passed in 1878, enables the College to furnish board, fuel, lights and washing free to one Student (male or female) from each Senatorial District of the State, to be appointed by the School Commissioners by and with the advice and consent of the Senators of their respective Districts, *after a competitive examination of the candidates*. A Scholarship cannot be held by the same Student for more than four years, and the holder is required to give his (or her) bond to

the State of Maryland for such amount, with such security as may be approved of by the President of the Collège, that he (or she) will teach school within the State for not less than two years after leaving College. In order to enable the Faculty to carry out fully the intention of the Act of the Legislature providing for these Scholarships, it is highly important that the School Commissioners of the several Senatorial Districts should be careful to appoint Students prepared to *enter, at least, the Freshman Class*. If, however, any of the candidates selected are deficient in preparation, they will be received into the Preparatory Department of the College.

EXAMINATIONS.

There are two examinations of all the classes every year. The one begins on the last Monday in January, and the other on the second Monday in June. The latter is the concluding examination of the academic year; the former is called the intermediate examination: both are open to the public. Students, moreover, who, from any cause, are absent more than three times in four consecutive weeks from recitations in any one study, are required to pass a *special* examination on the subjects treated of in the class-room during their absence.

COMMENCEMENT AND VACATIONS.

The Annual Commencement is held on the third Thursday in June.

The Baccalaureate Sermon of the President to the graduating class is delivered on the morning of the Sunday preceding Commencement.

On the evening of the same day, a sermon is delivered before the Literary Societies by a preacher elected for the occasion.

On the subsequent days preceding Commencement, are held the Joint Exhibition of the Browning and the Philomathean Literary Societies, the Class-day Exercises of the graduating class, the Oratorical Contest between the Irving and the Webster Literary Societies, the meeting of the Alumni Association, and the Annual Oration before the Literary Societies.

On the evening of Commencement-day, an oration is delivered and an essay is read before the Alumni Association by two of their members.

Vacation extends from Commencement until the first Tuesday in September, on which day the regular Course of Study begins, and there is no intermission of recitations except on Good Friday and Easter Monday, and during Christmas week.

Students are not allowed to remain at the College during any

portion of the time allotted to vacation, unless by special arrangement with the President.

DEGREES OF A. B., AND A. M.

At the Annual Commencement the degree of Bachelor of Arts is conferred upon all the members of the graduating class.

Graduates are ranked as students of the first, second, or third distinction in scholarship according as they obtain during the Junior and Senior years an average of nine, eight, or seven on all the regular studies of each Department.

Any graduate who shall have been admitted a member of one of the learned professions, shall be entitled to the degree of Master of Arts, three years after graduation.

Other graduates will be recommended by the Faculty to the Board of Trustees for the degree of Master of Arts, three years after graduation, provided they shall have submitted, on or before June 1st of the year in which they shall seek the degree, a literary, philosophical or scientific thesis, which must be approved by the Faculty.

LECTURES.

In addition to the regular recitations of the several Classes, the following Courses of Lectures are delivered during the College year:

By President Ward, on Mental and Moral Philosophy.

“ Vice-President Benson, on Belles-Lettres.

“ Professor Reese, on Philology and Classical Literature and Antiquities.

“ Professor Simpson, on Natural Science.

“ Professor McDaniel, on Mathematics.

“ J. W. Hering, M. D., on Anatomy, Physiology and Hygiene.

Special instruction in Elocution is also given to all the Students by Professor Merrill.

A PARTIAL COURSE

may be arranged for such Students as do not wish to pursue all the studies required of candidates for graduation. The studies selected, however, must be prosecuted under the same rules, as to recitations and examinations, which govern Students pursuing the regular course.

LITERARY AND SCIENTIFIC AIDS.

The department of science is provided with Philosophical and Chemical apparatus, Geological and Mineralogical collections, and other requisites for the study of such branches as are usually comprised in a College course.

Besides the libraries belonging to the Literary Societies, and

intended more especially for the use of their respective members, the Students have access to others containing over 4000 volumes.

PHYSICAL CULTURE.

Besides the opportunities afforded by an extensive campus for out-door exercise in an air exceptionally pure and bracing, the Students enjoy the advantage of regular instruction in Calisthenics under the care of a trained and accomplished teacher. The Calisthenic Drill is performed with the aid of a complete gymnastic apparatus, and with a musical accompaniment, and thus furnishes an exercise which, while entertaining and agreeable in itself, gives to the body and its movements grace and beauty, and makes it the basis of a sound and healthy mind.

GRADES AND AWARDS.

The scholastic standing of the Students is determined by a system of grading, the scale of which is from 1 to 10.

Students who obtain on all the regular studies in any Department an average under seven and over five, may, at the discretion of the Faculty and with the consent of the Professor in charge of the Department, be continued with their class, but with the distinct understanding that they cannot be graduated unless they make up their deficiency.

At the Annual Commencement, Certificates of Distinction are awarded to the three highest of such Students as have attained an average grade of nine in all the studies of any department. Others who have attained an average grade of nine receive honorable mention. And as every violation of College Law, and every unexcused absence from a stated exercise is demerited, to such Students as have received no demerit marks during the year is awarded a Certificate of Distinction in Department.

SOCIETIES.

The Irving and the Webster Literary Societies of Young Gentlemen, and the Browning and the Philomathean Societies of Young Ladies, hold regular weekly meetings, and it is the desire of the Faculty that all the Students avail themselves of the advantages of these valuable and instructive organizations.

ORATORICAL CONTEST.

On Tuesday evening of Commencement Week, there is an Oratorical Contest between the Irving and the Webster Literary Societies. The following have been selected by their respective Societies to represent them at the present Commencement for 1885:

IRVING.

EDWARD C. WIMBROUGH,
PAUL W. KUHN,

DOMESTIC ARRANGEMENTS, &c.

The Vice-President has the management of the Boarding Department, under the direction of the Board of Trustees, and spares no pains to render entire satisfaction to the patrons of the Institution.

NON-RESIDENT STUDENTS are required to board in the Institution, unless a different arrangement is made with the President.

BOARDING STUDENTS are required to bring their own sheets, pillows, pillow-cases, blankets and counterpanes; the name of the owner plainly marked on each article.

LADY BOARDERS should supply themselves, in addition, with over-shoes and umbrella.

EACH ROOM is furnished with bed, bedstead, chairs, stove, mirror, washstand, bowl and pitcher, and a study-table, the use of which will be granted, free of cost to the Students, but *they must pay any expense that may be incurred in keeping these articles of furniture in repair, and, if broken, they must be replaced by the Students having the articles in charge.* Special damages will be assessed on those Students who injure or destroy any College property.

TUITION FEES are charged from the BEGINNING of the session, but the charge for board dates from the entrance of the Student.
