## Correspondence

Correspondence addressed to Western Maryland College, Westminster, Maryland, may be expected to reach the proper department. To avoid delay, however, correspondents are requested to address letters as follows:

Requests for catalogs and inquiries regarding admission should be addressed to the REGISTRAR.

Inquiries regarding students of the college, excuses from parents, etc., should be addressed to the DEAN OF MEN or to the DEAN OF WOMEN, as the case may be.

All payments and bills should be addressed to the TREASURER.

Correspondence regarding the general interests of the college should be addressed to the PRESIDENT.

Historical

## Historical

**W**ESTERN Maryland College is the outgrowth of a private Academy started in Westminster in the year 1860.

The movement for enlarging the Academy into a college began in 1866, but under such disadvantageous circumstances as to make its failure almost a certainty.

One simple incident gave the movement its only promise of success. In the spring of 1866, Rev. J. T. Ward, D. D., a member of the Maryland Annual Conference of the Methodist Protestant Church, retired from the active itinerancy and settled in Westminster. It happened that Dr. Ward possessed in a marked degree the confidence and affection of Mr. John Smith and Mr. Isaac C. Baile, both of Westminster and men of considerable wealth. These gentlemen, Mr. Smith in particular, willing to venture something in an enterprise endorsed by their friend and former pastor, agreed to lend to the proprietor of the Academy the money with which to erect the first building, provided Dr. Ward was placed in charge of the College as President. Mr. Smith also suggested that the institution should be called "Western Maryland College." Both these suggestions were accepted; the cornerstone of the first building was laid September 6th, 1866, and the first session of Western Maryland College was opened September 4th, 1867, with six professors and seventy-three students.

The enterprise was thus only begun, and its difficulties accumulated so fast that it would undoubtedly have come to an end in less than a year, but for the interposition of the Maryland Annual Conference of the Methodist Protestant Church. This body had not been officially connected with the enterprise at all up to this time, as it was in fact a private concern, but those most deeply interested in the college were members of that church, and hence it was natural that a report should be made to that body, particularly when disaster seemed impending. The report made to the Conference in March, 1868, showed that the one building begun was still unfinished, that the money advanced by Mr. Smith and Mr. Baile was all spent, and that the property was covered by

liens for nearly as much more. The Conference determined to save the institution, and accordingly named thirty-three men as a Board of Trustees, who were authorized to become incorporated, to purchase the property, to assume the indebtedness, and to appoint an agent to solicit funds.

The charter was obtained March 30th, 1868; the property purchased August 12th, 1868, and on September 14th, 1868, the College opened its second session under the new auspices and began its long struggle for resources and reputation. But it was not until 1886 that the last of the money originally loaned by Mr. Smith and Mr. Baile could be repaid and the College declared free of debt.

Rev. J. T. Ward, D. D., remained in the Presidency until released at his own request in 1886, when he was succeeded by Rev. T. H. Lewis, D. D.

Dr. Lewis continued in office for thirty-four years. Upon his resignation in June, 1920, he was succeeded by the present incumbent.

### CONNECTION WITH THE CHURCH

The College has been under the fostering care of the Methodist Protestant Church from the beginning. Members of that church have given largely of their time and effort and means to establish it, and its success is attributable, more than to any other factor, to the interest thus manifested. The Charter requires that twelve of the thirty-three trustees shall always be chosen from among the members of the Maryland Annual Conference of the Methodist Protestant Church. In this sense it is a denominational Institution. But its Charter forbids it to be a sectarian institution, declaring that,

"the youth of every religious denomination shall be freely admitted to equal privileges and advantages of education and to all the literary honors of the College without requiring or enforcing any religious or civil test . . . . nor shall any preference be given in the choice of a President, Master, Tutor or Teacher in the said College on account of his or her particular religious profession."

## CONNECTION WITH THE STATE

The General Assembly of Maryland granted a Charter to the College in 1868, giving the Trustees power to hold property, elect a Faculty and confer degrees "in any of the arts, sciences and liberal professions to which persons are usually admitted in any other Colleges or Universities in America."

Further recognition of the College as one of its important agencies of higher education was given when the General Assembly in 1878 assigned to it a number of the free scholarships, which had been founded some years before, for the education of those intending to teach in the Public Schools of the State. For the better preparation of such students the College has established a course in Education, and those completing this course, in addition to the regular college course, receive a Certificate from the State Board of Education, authorizing them to teach in any of the Elementary and High Schools of the State. In this sense, therefore, the College is a State institution, but its hospitality has been extended as well to those who come from many other States.

## PROGRESS

During the past thirty years the College has maintained a steady advance in all directions. This might almost be called the "Building Era." Whereas, up to 1886, it had erected but three buildings, costing altogether less than \$30,000, it has since that time erected twenty buildings, costing \$400,000, including equipment and apparatus.

Western Maryland College came in with the advent of modern educational ideas, and, unhampered by traditions, it has been free to build for the present and the future.

It led the way in that form of co-education which is rapidly displacing both the absolute separation of the sexes and the education of them in the same classes. It accepts both men and women as students on equal terms, opening to both the same courses of study, the same Faculty and the same degree; but instructing them in separate classes.

It was the first College in the State to employ a Physical Director and to build a Gymnasium, and its recognition of

Libraries and Laboratories as indispensable adjuncts to the classroom has resulted in adequate and constantly growing provision in these directions.

For a number of years the college has been engaged in raising an Endowment Fund. The Trustees and the Alumni have had committees prosecuting the work with gratifying success. The Endowment is now in excess of Three Hundred Thousand Dollars, (\$300,000.00), and plans are being made to increase this Endowment to Six Hundred Thousand Dollars (\$600,000.00), within the next three years.

The Board of Trustees has approved the plans for a regrouping of the college buildings. The plan calls for ten units of construction. The first unit, the Athletic Field, is about completed; and the second unit, McDaniel Hall, will be completed by September 1, 1922. The next three units will include a boys' dormitory, a gymnasium, and a dining hall and music conservatory, and these three units are expected to be completed within the next five years. A financial campaign for this purpose will likely be put on in the fall of 1922.

## General Information

## General Information

### LOCATION

THE College is located in Westminster, Carroll County, Maryland, a city of about four thousand inhabitants, thirty-four miles west of Baltimore, with which it is connected by the Western Maryland Railroad. Westminster is situated in one of the most healthful and beautiful parts of Maryland, and no place could be more desirable as the site for an institution of learning. It is quiet and retired, yet easily accessible and in ready communication with the outside world by railroad, telegraph and telephone. Its streets are lighted by electricity; it has an abundant supply of pure water; its inhabitants breathe an invigorating mountain air, and enjoy the advantages and refinement of a modern city.

The College occupies an eminence at the west end of the city, nearly one thousand feet above tidewater, which affords a view rarely equaled in extent, variety and beauty.

### PECULIAR ADVANTAGE

The peculiar advantage this College offers is that parents can have their sons and daughters educated in the same institution and under the same instruction. It was the first College in the South to offer equal educational facilities to both sexes. But it is not strictly co-educational. Both sexes have the same courses and the same instructors, but they do not recite together except where the classes are small, and the two departments are kept separate, the students meeting only at chapel service and in the dining-room with members of the Faculty, and at no other time unless under similar supervision.

### DOMESTIC ARRANGEMENTS

The President, with his family, resides in the College campus, and, with the other members of the Faculty who reside in the College, constantly seeks to provide all the comforts and enjoyments of a well ordered home. Receptions are held frequently, when all the students are brought together for social recreation and for the acquirement of ease and grace in the customs of polite society.

The boarding department is in charge of a housekeeper and steward, under the direction of the President. The table is furnished with wholesome food in abundance, prepared with constant attention to variety and with the view to rendering reasonable complaint impossible.

### STUDENT'S OUTFIT

Students not residing in Westminster must board in the College. It is expected that each room will be occupied by two boarding students. All necessary furniture is provided, but students are expected to pay for any damage while in possession. It is necessary for each student to bring the following: Four sheets for a single bed, pillow, two pillow-cases, blanket, spread, towels, napkins and napkin-ring.

All the above articles must be marked in plain letters with the owner's name.

### ASSIGNMENT OF ROOMS

Old students have the preference in the assignment of rooms in the order of classes. New students are assigned to rooms in the order of application. Where it is desired, the President will give special attention to the selection of room-mates, so as to meet the wishes of parents in this important matter. Two students occupy each room, but there are a few smaller rooms which may be occupied by one student alone. In such cases an extra charge of \$7.50 a semester is made. For those who occupy rooms in McDaniel Hall, the new dormitory for women, an added charge will be made of \$12.50 a semester.

A registration fee of \$10.00 will be charged each boarding student at the time application is made. This fee will be credited on the bill for the first semester.

### ABSENCE FROM COLLEGE AND VISITING

It is the aim of the College to make the students thoroughly at home and to prevent in every way any dissipation of their interest in study. To this end the earnest co-operation of parents and guardians is solicited. Students should be sent promptly at the beginning of the term, and after they have entered should not be removed even for a day, unless it be absolutely unavoidable.

able. The Faculty has observed the distracting influence incident to students leaving College for social visits, and discourages all such visits in every possible way. In the case of relatives, or where there are special reasons, students may be permitted to spend the day away from College if it does not interfere with stated work. Otherwise parents must not expect that leave of absence will be given except to return home. In this case the Faculty also earnestly requests parents to bear in mind that frequent absences from study make progress impossible. With the long holiday recess at Christmas and with the Spring vacation, the school year is broken up quite enough, and students should be sent back to their work promptly at the end of the recess.

Visitors to the College will always be welcome under the following conditions: No person can visit a young lady in the College without a letter from her parents and the approval of the Faculty. Sunday visiting is discouraged. Relatives visiting students must not expect any of the College regulations to be abrogated on account of their presence. The College cannot entertain visitors, but the President will take pleasure in having every attention shown those who may be interested in seeing the College or its students, and will give any information desired in regard to hotels and boarding-houses in Westminster, where comfortable accommodations may be secured.

### ABSENCE FROM CLASSES AND STATED EXERCISES

Supervision over student absences is vested in a Committee on Absences to be composed of the Dean of Men, the Dean of Women, and one other faculty member who shall be appointed annually by the President of the College and who shall serve as the Chairman of the Committee.

A student absent from class exercises immediately preceding or following a scheduled holiday or vacation period shall be subject to a fine of \$5.00 a day or fraction thereof, unless permission for the absence has been previously granted by the Committee on Absences.

Students absent from tests or examinations, necessitating the instructor to give other tests or examinations, will be required to pay \$1.00 for each test or examination so given.

Students are required to attend the stated exercises of the college. Absence from these exercises will be demerited. A student receiving 75 demerits during a semester, or 125 demerits for the year, may be suspended, deprived of college privileges, or, in the judgment of the faculty, may be required to do extra college hours for graduation.

### DRESS

The influence of the College, and even its authority where necessary, will be exerted in favor of plain and economical dressing, so manifestly becoming to young people at school. There are no social functions at the College where full dress is allowed. As to the young ladies, there seem to be no good reasons why most of their dress-making cannot be done at home, thus giving parents the opportunity to limit the expense and direct the style. In preparing the outfit, parents should remember that college life does not call for display in dress, and that it is usually a sign of bad taste.

The members of the Senior Class are required to wear the academic cap and gown on all public occasions after their investiture. This makes expensive Commencement outfits unnecessary.

Both male and female students are required to have special suits for the exercises which are taken daily in the Gymnasium. Suits for the young ladies consist of a loose blouse and bloomers made of navy blue flannel. They can be made at home over the patterns found in all fashion magazines. Suits for young men are best ordered here. They can be bought cheaper than they can be made at home.

### RELIGIOUS EXERCISES

Western Maryland College was founded by Christian men, and is distinctively a Christian College. It holds the promotion of spiritual culture in accordance with the principles of the New Testament above every other kind of education in importance. And while it exacts no religious tests of its students, and makes no attempt to influence denominational preference, yet it encourages all proper efforts to uphold and extend the religious influences which have happily been a marked feature of college life at this place from the beginning.

The students are required to attend religious exercises which are held at the beginning of every school day, and are required to attend divine service on Sunday morning at some church in Westminster. The following denominations are represented in the city: Methodist Protestant, Methodist Episcopal, Protestant Episcopal, Roman Catholic, Reformed, Lutheran and German Baptist. The church affiliations of students will be scrupulously respected, and only those will be required to attend the Methodist Protestant Church who have no church of their own in the city.

On Sunday evening services are conducted in Baker Chapel by the President, which the students are required to attend. The Young Men's Christian Association and the Young Women's Christian Association have each a branch association in the College and rooms fitted up for religious services. On Sunday afternoon a voluntary meeting of the two associations is held, conducted by the Y. M. C. A. The Sunday School held on Sunday morning is one of our most important religious factors. Though attendance is not compulsory, most of the students enroll themselves as scholars. The classes are taught by members of the Faculty, and the lessons used are those of the International Series.

Voluntary classes in Bible study and in Missions are conducted by the Christian Associations.

### LITERARY SOCIETIES

The Irving and the Webster Literary Society of young men, and the Browning and the Philomathean Society of young women hold regular meetings, and it is the desire of the Faculty that all the students avail themselves of the advantages of these valuable and instructive organizations. No fraternities are permitted in the College.

On Tuesday evening of Commencement Week there is an oratorical and literary contest between the Irving and the Webster Society, and between the Browning and the Philomathean Society. The award for the former societies is a trophy presented by the late Prof. A. H. Merrill, Professor of Elocution in the College; for the latter a trophy presented by the late Prof. M. A. Newell, State Superintendent of Education in Maryland.

## STATE SCHOLARSHIPS

An act of the General Assembly of Maryland enables the College to furnish tuition and board free to two students (one male and one female) from each legislative district of the State, the appointment to be made by the School Commissioners, by and with the advice and consent of the senators in their respective districts, after a competitive examination of the candidates. A scholarship cannot be held by the same student for more than four years, and the holder is required to give bond to the State of Maryland for such amount, with such security as may be approved by the President of the College, that he (or she) will teach school within the State for not less than two years after leaving College. In order to enable the Faculty to carry out fully the intention of the Act of the Legislature providing for these scholarships it is highly important that the School Commissioners of the several districts should be careful to appoint students prepared to enter at least the Freshman Class. If, however, any of the candidates selected are deficient in preparation, they will be received in the Preparatory School of the College, but no student under fifteen years of age will be received.

## STUDENT GOVERNMENT

The Men's Student League and the Women's Student Government League are organized for the purpose of taking charge of the discipline of the school. Upon registration all students become members of these organizations. The governing bodies are composed of boards of student representatives and of a faculty member for each board.

## MILITARY TRAINING

In 1919 the War Department authorized the establishment of a Senior unit of Reserve Officers' Training Corps at this college. All the men who are physically fit are required to become members of the corps upon registration, and they must satisfactorily complete the first two year's work therein before they can graduate.

Uniform, less shoes, and necessary equipment is supplied by the War Department to each man while a member of the corps.

Third and fourth year students whose work in Military Science has been satisfactory up to that time, may elect the last two year's of training. In electing this advanced work, the men sign a contract in which they agree to complete the last two years work and attend one summer camp of six weeks duration at the end of their third year.

The college allows a total of twelve credits for this advanced work in Military Science out of the total of 128 required for graduation. The War Department, in addition, pays these men commutation of rations at a per diem rate fixed each June by the Secretary of War. (For the collegiate year 1921-1922 this rate was 40c per day.) In connection with the camp above mentioned, each man has his transportation there and back paid at the rate of 5c per mile; he receives gratis while there, quarters, uniform, equipment, food and medical attention, and in addition he is paid at the rate of \$1.00 per day while in attendance thereat.

In summary, attention is called to the fact that a man taking advanced Military Science receives valuable instruction, makes himself eligible to receive a commission in the Reserve of the United States Army, receives a total of 12 college credits of the 128 required for graduation, receives uniforms for two years, and in addition receives over \$250.00 in pay and commutation of rations from the War Department.

Throughout all four years, stress is laid on proper military bearing, courtesy, physical drill, and discipline within the corps. Students in the R. O. T. C. are not in the Army, and are not subject to call for military service. The object of the training is to provide a reserve of trained men to serve as officers in the event of war. Upon graduation, selected students who have completed the advanced work are offered commissions as Second Lieutenants in the Officers' Reserve Corps of the United States Army, but no obligation is assumed by any student in taking the course.

## BUILDINGS

1. **THE MAIN BUILDING.**—This building, erected in 1866, is the central and original part of an edifice that now has five wings, with front and flanking towers, with an extreme length of two hundred and eighty feet and a depth of one hundred and thirty-eight feet. The central portion is four stories high, and has on the first floor various administration offices and a large reception parlor; on the second and third floors the apartments of teachers and students.

2. **OWINGS HALL.**—This is a wing of the main building. It was erected in 1871, and named for Miss Lottie A. Owings, for many years preceptress. It extends back from the main building fifty-five feet, and is four stories high. The fourth floor is divided into small rooms for piano practice; the third and second floors contain rooms for female students, and the first floor is the infirmary. In the basement is the steam laundry.

3. **SMITH HALL.**—This wing was built in 1887, and is named for Mr. John Smith, the first President of the Board of Trustees. It is a front extension of the main building on the east side. In the basement is the dining-hall, capable of seating at table two hundred and fifty persons; on the first floor are the assembly room, where morning prayers are held every school day and where the students meet for public academic exercises, and the school room and private study for young ladies. The second floor contains sleeping rooms for young ladies.

4. **HERING HALL.**—Another wing erected in 1890, and named for Dr. J. W. Hering, the first Treasurer of the Board, and afterwards its President. This building is a front extension of the main building on the west side.

5. **WARD HALL.**—This wing, built in 1895, to take the place of a smaller building erected in 1882 by contributions secured by Dr. J. T. Ward, the first President of the College, is named for Dr. Ward. It is a rear extension to Hering Hall, three stories high, and is fitted up as a modern home for male boarding students. The rooms are large, each lighted by two windows and open to the sun. In the basement are private studies for male students.

6. MAMIE McKINSTRY HALL.—Another wing to the main building was built in 1889 as a rear extension to Smith Hall, corresponding to Ward Hall. It provides in the basement the kitchen, bakery and pantry; on the first and the second floors are additional sleeping rooms for the young ladies. An extension to this hall was added in 1907 to provide for more sleeping rooms, and by action of the Board of Trustees the hall was named for a graduate of the class of 1879, deceased, who designed that the College should have a bequest from her estate.

7. YINGLING GYMNASIUM.—This building was erected in 1889 and given to the College by the late Miss Anna R. Yingling, of Westminster, Maryland, a graduate of the class of 1871. A new two-story brick structure was erected in 1904 to take the place of the old Gymnasium, which had become too small. On the first floor are the men's lockers, toilets and baths, with abundance of hot and cold water. The main floor is a clear space forty by sixty-two feet and eighteen feet high to the square. A gallery five feet wide around the four sides with an inclined floor furnishes an admirable running track. As the Gymnasium is intended for both sexes, the ladies have access to it from their bath rooms in Owings Hall by means of a covered bridge, and exclusive use of it at fixed hours under the direction of a lady instructor.

8. THE PRESIDENT'S HOUSE.—This is a stone and frame structure, built in 1889, and given to the College by Daniel Baker's Sons, of Buckeystown, Md.

9. LEVINE HALL.—Erected in 1891 partly by a mortuary contribution from Dr. Charles Billingslea, of Westminster, Maryland, as a memorial to his son, James Levine. It was intended at first for the Primary Department, but when that was abolished in 1899 it was greatly enlarged and fitted up for the Preparatory School. It contains sleeping rooms for all male students not in the College classes, and recitation rooms, Principal's office, library and bath rooms.

10. Y. M. C. A. HALL.—Erected in 1893 and devoted to the work of the Association. It has a well furnished audience room and a committee and reading room.

11. **BAKER CHAPEL.**—This is a stone structure built in 1895 by a contribution from Mr. William G. Baker, of Buckeystown, Maryland, "to the glory of God and in grateful recognition of the mercy that spared the life of a beloved son." The students assemble there on Sunday morning for Sunday School, and on Sunday evening for a preaching service conducted by the President of the College.

12, 13, 14, 15 and 16. **PROFESSORS' RESIDENCES.**—One for the Professor of Mathematics, built in 1896, and another for the Professor of French, built in 1899, another bought and improved in 1901, another in 1903, and another built in 1919.

17. **ALUMNI HALL.**—This is the largest and most expensive structure which had been built at the College up to the time of its completion in 1899. It has two stories and a basement, with extreme width of eighty-three feet and a depth of one hundred and nine feet. In the first story are the assembly, the committee and banqueting rooms of the Alumni Association and the halls of the Webster and the Irving Literary Society. The second story contains an auditorium, with main floor and balcony and stage, capable of seating twelve hundred persons.

18, 19 and 20. **RESIDENCES.**—Owned by the College and occupied by the Chief Engineer, Butler, and Watchman.

21. **LIBRARY AND ADMINISTRATION BUILDING.**—This structure, completed in 1908, is the most ornate of all the College group. It is built of Indiana limestone and gray hydraulic pressed brick, the design being free Roman Doric, showing massive engaged stone columns. It has a frontage of sixty-five feet and a uniform depth of fifty feet, and is three stories in height. The main floor provides offices for the President and Treasurer, a Faculty and Board Room and a Museum. On the ground floor are excellent halls for the Browning and the Philomathean Literary Society. The entire second floor is devoted to the Library, the Reading Room being thirty by sixty feet, with a twenty-two foot ceiling; and the adjacent stack room, twenty by sixty feet, with a mezzanine floor, has a capacity of twenty-five thousand volumes. All the rooms are finished in high panel work of English white oak and are enriched with stucco pilasters and cornices.

22. LEWIS RECITATION HALL.—This is a modern education building, erected in 1914 on the site of what was called "Science Hall." Although simple in design, it is an imposing structure, built of red brick faced with Indiana limestone, is one hundred and twenty-three feet long, sixty-three feet wide and three stories high. It is connected with Hering Hall by a covered brick corridor. Each story has running through its entire length a hall twelve feet wide, on either side of which are the recitation rooms and laboratories. There are twenty of these; seventeen recitation rooms lighted from one side, each twenty-three by twenty-five feet, with teachers' private rooms connected; and three laboratories, the Chemical on the third floor, twenty-five by seventy feet, the Biological on the same floor, twenty-five by forty-six feet, and the Physical on the first floor, twenty-five by forty-six feet. Connected with the laboratories are dark rooms and store rooms. The whole building is fitted up in a modern way, ventilated by the air-flue system, and supplied with the usual apparatus for scientific work. The trustees named the building for Dr. Thomas H. Lewis, then president of the College.

23. THE COLLEGE FARM.—The Geiman farm, containing sixty-five acres and lying directly to the west of the college campus, has been purchased and will be conducted in the interest of the college dining room. The farm will be conducted as a model farm, and the college will be supplied daily with milk and provisions. This farm is regarded as one of the best farms in Carroll county.

24. THE ATHLETIC FIELD.—The new Athletic Field, which has been in process of construction since last spring, is nearing completion and will be dedicated at Commencement 1922. It is being constructed at a cost of \$35,000.00, not including the cost of the land. It will be one of the most complete and up-to-date athletic fields in the eastern part of the United States. The field contains over five acres, properly drained, with 9000 feet of agricultural tile-drained and concrete gutter; a quarter-mile running track, fourteen feet wide, with a hundred yard straightaway; proper watering facilities; and ample space is provided for tennis courts. The field will be fully equipped for all branches of sports, including foot-ball, base-ball, soccer, push-ball, dodge-ball, and the like, providing for both men and women.

McDANIEL HALL—New Dormitory for Girls

25. MCDANIEL HALL.—Ground was broken in January of this year for a new dormitory for girls. It will be built at a cost of approximately \$150,000.00, and will furnish accommodations for 125 students. It will provide offices for the Dean of Women, a Social Parlor, an Infirmary, and rooms for the Home Economics Department, and will be fitted out with every modern convenience. It will be named in honor of Dr. William R. McDaniel, Vice-President of the College, and for many years head of the Departments of Mathematics and Astronomy.

### EQUIPMENT

LIBRARY.—In the large and well lighted rooms of the Library Building the College has placed about eleven thousand carefully selected volumes, nearly all of which have been purchased in recent years with the view to meeting the special needs of students in supplementing the instruction of the various departments. A librarian is in charge, and the Library is open from 9 A. M. to 5 P. M. for the use of all students. The Preparatory School has a library of about one thousand volumes in Levine Hall. In the College Library are also to be found a good mineralogical collection, a cabinet of curios and charts, maps, etc. In addition to the reading designated in the departments of study, the professors are always ready to assist students in matters of research of especial interest to them.

LABORATORIES AND APPARATUS.—The Chemical Laboratory is fitted up with the usual modern arrangements for individual work—separate tables and cabinets supplied with gas and water, and a good collection of working apparatus. Similar provision is made for the Department of Physics. Apparatus is provided for illustrating the course before the class and for individual work, which all students are required to do. The Biological laboratory is equipped with all the regular apparatus necessary for doing thorough work in morphology, embryology and histology. It includes compound and simple microscopes, a microtome, paraffn bath and the usual accessories of glassware, re-agents, etc. There is a working collection of several hundred zoological specimens, representing the important classes of vertebrates and invertebrates. The Department of Mathematics

and Astronomy has a telescope made by Saegmuller, which is a refractor with five-inch object glass, equatorially mounted and driven by clock-work, and a very complete engineer's transit, also made by Saegmuller. The Department of Music is provided with fourteen pianos for practice, all recently purchased new, a Chickering Concert Grand used in recitals, a Chickering Parlor Grand, and a two-manual pipe organ made by Brown.

**PHYSICAL CULTURE.**—A large part of the eighteen acres belonging to the College Campus is devoted exclusively to outdoor sports, while the gymnasium, fully equipped with the best modern apparatus, furnishes ample provision for indoor exercises and physical development. The usual sports are baseball, football, and tennis. Parents who objects to their children engaging in any of these sports should make known their objection to the Faculty, who will see that their wishes are respected.

**DOMESTIC.**—The home life of students is provided for in a modern and comfortable way. Each room is intended for the occupancy of two students, and is large enough to serve as sleeping room and study. There are also a few single rooms. They are all furnished. A large steam plant in a separate building provides heat for each room through its own radiator. An electric light plant also provides light for each room. Thus the minimum of danger from fire is secured. Bathrooms, with hot and cold water, are located on the second floor of Smith Hall for the young ladies, and in the gymnasium for young men. All students who do not live in Westminster are boarded at the College. The kitchen, pantries and dining rooms are fitted up with the best facilities for serving meals, so as to make the service as free from objection as possible. There is a large steam laundry, with the latest appliances. For students living in Westminster, besides the general study halls, where accommodations are free, there are separate study rooms, which two or more students may occupy for a small fee.

## Conditions of Admission

## Admission Requirements

Address all Communications concerning admission to College to the Registrar.

Applicants for admission to Western Maryland College must furnish:

1. A certificate of character from the principal of the school in which they did their preparatory work and one from another person not a relative or guardian.

2. Evidence of satisfactory preparation for college. This may be:

a. A certificate of graduation from an accredited four-year high school, or from a preparatory school approved or accredited by the Department of Education of the state in which the school is situated.

b. The passing of a satisfactory examination in the five high school subjects as follows:

English, three units.

History, two units.

Mathematics, Elementary Algebra, and Plane Geometry.

Science, two units elected from General Science, Biology, Chemistry, Physics.

Language, two units of an Ancient or of a Modern Language.

These examinations will be given in September of each year as scheduled and will be sufficiently comprehensive to cover the equivalent of a four year high school course and sufficiently broad, permitting electives especially in English, History and Science, to allow for individual differences in preparation.

c. The passing of the examinations of The College Entrance Examination Board with a grade of 60 per cent. These examinations are given in the larger centers including Baltimore, usually in the fourth week in June of each year. Students must make application on proper forms at least four weeks prior to the examination date. A list of places and dates of the examinations is published about March first.

The Forms may be obtained from the Secretary of the College Entrance Examination Board, 431 W. 117th Street, New York, N. Y. A fee of \$6 is charged for this examination.

A candidate for admission without examination will obtain from the college a form, which he will have the principal of the high school properly fill out and send direct to the Registrar. This form will show the units which the candidate offers for admission. A unit accepted for admission is one-fourth of one year's work in an accredited high school. Fifteen units of high school work will be accepted as meeting the entrance requirements when distributed as follows:

The six units required are Algebra 1, Geometry 1, English 3, and History 1.

The remaining nine units may be elected from the following: History 2, Foreign Languages 6, Physical Geography 1, General Science 1, Biology 1, Zoology 1, Botany 1, Chemistry 1, Physics 1, Solid Geometry one-half, Plane Trigonometry one-half, Domestic Science or Manual Training one, Agriculture 1, and from approved Commercial work 4.

A student may enter conditioned to the extent of one unit. Entrance conditions not otherwise removed during the Freshman year will be satisfied by deducting four semester hours from the college credits of the student, at the end of the Freshman year.

Students who are prepared to enter the Freshman Class may enter the Preparatory School where a full four-year high school course is offered. The courses offered parallel closely those courses in first-group Maryland High Schools which prepare for college. (See pages 83-84.)

Both male and female students are received in the College and Preparatory School. They are taught by the same teachers and, excepting Military Science and Home Economics, pursue the same courses of study.

## Courses of Study

## Groups of Studies Leading to the Degree of Bachelor of Arts

The courses of study which lead to the degree of Bachelor of Arts are largely elective. The basic requirements are:

	Semester Hours.
English, 1, 2, and 3.....	12
Social Science; History 1, and Economics 1.....	6
A Foreign Language; two courses, unless three units are offered for admission.....	12
Science; Biology 1, or Chemistry 1.....	6
Biblical Literature, 1 and 2.....	6
	<hr/> 42

### THE MAJOR GROUP

Each student must indicate in writing to the Registrar on or before the first of June of his Freshman year his choice of a subject in which he will do his major work. In addition to the 42 semester hours of basic requirements given above he must do 18 semester hours of work in his major department and 12 hours in related subjects, approved by his major professor. The remaining 56 semester hours may be elected more freely. In order to assist the student in electing the subjects best adapted to his individual needs, the groups on the pages following are suggested.

### ADVISERS

Upon entering college each student is assigned to a member of the faculty as his adviser. The student with the help of his adviser selects his studies for the Freshman year, and chooses the department in which he will do his major work. Beginning with the Sophomore year his major professor becomes his adviser. The student should feel free to consult his adviser upon any matter concerning his work or his life in the college.

With the consent of the adviser and the Committee on College Studies a student may drop a subject or make a new election during the first two weeks of a semester. A subject dropped after the two weeks permitted for change of election stands on the college records as incomplete; and if not completed within a year is marked a failure.

#### CLASS STANDING

Students may not pass to the next higher class conditioned more than 6 semester hours. That is, a student is classed freshman until he has 26 semester hours of college credit clear of all entrance conditions, and a sophomore must have 58, and a junior 90 semester hours before he can come up for promotion.

EDUCATION.—Students who wish to qualify as high school teachers and receive the state certificate must elect during the junior and senior years at least 12 semester hours of work from the education courses. (See pages 49-50.)

Students who wish to prepare for elementary school teaching and supervision will major in education, and in addition to the above will be assigned 3 to 5 hours of special work during the sophomore, junior and senior years.

## College Courses of Study

### ASTRONOMY

Professor McDaniel

1. This course is intended to supply that amount of information upon the subject which may fairly be expected of every liberally educated person. It gives an orderly statement of astronomical facts, the methods of arriving at them; treats of the great underlying principles of the science, and supplements all this with a considerable amount of observation work. Students have the benefit of a five-inch refractor equatorially mounted in a revolving dome, a small transit and other instruments.

*Three hours weekly. Elective for Seniors of all groups.*

### BIBLICAL HISTORY AND LITERATURE

Professor Stephens

1. OLD TESTAMENT HISTORY: A historical survey of the beginnings and development of the Hebrew People. Their political, social and religious life and institutions. Their relation to the other great civilizations of the ancient world, the Babylonians, Egyptians, Hittites, Canaanites, Phoenicians, Assyrians, Persians, Greeks and Romans.

*Sophomores three times a week, first Semester.*

2. OLD TESTAMENT LITERATURE: The Hebrews and their later prophets. Prophetic Literature, Devotional, Wisdom, and Apocalyptic writings. Old Testament Apocrypha. The Maccabean Period, and Pre-New Testament Times.

*Sophomores three times a week, second Semester.*

3. LIFE OF CHRIST: Studies in the Life of Jesus based on the Harmony of the Gospels. Collateral readings. Assigned papers. New Testament Times and Historical background. Jesus the Light of the World.

*Juniors, two times a week, first Semester. Elective.*

4. TEACHINGS OF JESUS: Individual and Social Teachings of Jesus. Jesus and the Problems of Modern Life.

*Juniors, two times a week, second Semester. Elective.*

5. APOSTOLIC AGE AND LIFE OF PAUL: The beginnings of the Christian Church, Apostolic labors and achievements. Paul's conversion and missionary activity, and New Testament Literature. Early persecutions and spread of Christianity.

*Seniors, two hours a week, first Semester. Elective.*

6. HISTORY OF THE BIBLE: The ancient Manuscripts, Scripture Canon, and History of the English Bible.

*Seniors, once a week, second Semester.*

## BIOLOGY

Professor Woodhead

1. This course is designed to serve as an introduction to advanced work in Biology. The course aims to study the animal and plant kingdoms with a view to their relations and development.

*Two Lectures and one Laboratory weekly. Freshmen—Three hours throughout the year.*

2. BOTANY.—Offered as an elective for all students. The course deals with the morphology of algae, fungi, mosses, ferns and flowering plants. A feature of this course is field excursions when weather and season permit.

*Sophomores—Three hours throughout the year.*

3. ZOOLOGY.—A systematic study of the animal kingdom with the work of the second semester devoted to the comparative anatomy of the vertebrates accompanied by dissection of selected types.

*Juniors—Three hours throughout the year.*

4. EMBRYOLOGY AND HISTOLOGY.—This course is designed to meet the needs of those students planning to enter first class medical schools. Lecture work covers the cellular structure of organisms and the development from the egg to the adult. Laboratory work includes an introduction to histological technique with reference to the chick and pig.

One lecture and two laboratory periods.

*Seniors—Three hours throughout the year.*

5. BACTERIOLOGY.—This course is offered to give the student an elementary course in bacteriology and meet the requirements of the course in Home Economics.

Two Laboratory periods per week.

*Three hours a week—second Semester.*

6. PHYSIOLOGICAL CHEMISTRY.—A course intended to fit into the course in Home Economics and to give medical students a knowledge of the chemistry of the body.

*Three credit hours, second Semester.*

## CHEMISTRY

Professor Schofield

1. GENERAL.—A systematic study of the elements and their principal compounds with the fundamental laws and theories of chemistry. Two hours of recitation and one period of laboratory per week throughout the year. *Credit three hours.*

2. QUALITATIVE ANALYSIS.—Basic and acid. Mainly laboratory work with occasional lectures. During the second semester the work includes the

analysis of dry salts and commercial products. Three laboratory periods of three hours each per week throughout the year. *Credit three hours.* Prerequisite, Chemistry 1.

3. QUANTITATIVE ANALYSIS.—Gravimetric, volumetric, and electrolytic. Chiefly laboratory work with occasional lectures and problems. A special feature is the analysis of commercial substances. Two laboratory periods of three hours each throughout the year. *Credit three hours.* Prerequisites, Chemistry 1, and Chemistry 2, unless taken parallel.

4. PHYSICAL CHEMISTRY.—An elementary course, designed with special reference to medical school requirements. The course includes a study of gases, liquids, and solids, solutions, colloids, absorption, chemical equilibrium, the law of mass action, and hydrolysis. Two hours of recitation and one period of three hours of laboratory per week during the first semester. *Credit three hours.* Prerequisites, Chemistry 1, Chemistry 2, and Chemistry 3, unless taken parallel. Omitted in 1923-24.

5. HOUSEHOLD CHEMISTRY.—A course designed for students majoring in Home Economics. This course substitutes for second semester of Chemistry 1. Two hours of recitation and one period of laboratory per week during second semester. *Credit three hours.* Prerequisite, first semester of Chemistry 1.

6. ORGANIC.—A systematic study of the compounds of carbon and their applications to the arts.

*Seniors—Three hours throughout the year.*

7. ORGANIC SYNTHESIS AND ANALYSIS.—All laboratory work, consisting of the preparation of typical organic compounds, qualitative testing for the ordinary elements and organic groups, and the quantitative determination of carbon, hydrogen, nitrogen and the hologens. Open only to those who take or have had courses 3 and 6.

*Seniors—Three hours throughout the year.*

## ECONOMICS

Professor James

ECONOMICS 1.—An introductory course, intended to familiarize the student with the simpler facts and the frame of economic science, preparatory to later study of the principles of economics. The course will be complete in itself and of sufficient scope to meet the needs of those who may not care to pursue their studies further. So that, while elementary as regards the further economic work of the section, it will suffice for a general understanding of the subject.

*Freshmen—Three hours per week, second Semester.*

ECONOMICS 2.—A course in the organization of modern society, with the great facts of wealth-getting and wealth-using developed in the light of industrial experience, and in a manner to afford the student the basis for a true judgment in respect to the contemporary principles and problems of economic life.

*Juniors—Three hours per week, first Semester.*

ECONOMICS 3.—The history of economic theory in the light of present day problems will provide the material for this course, and will answer the needs of those who want to know how to estimate the value and bearings of outstanding matters that make complex and difficult industrial society, as well as meet the needs of those who have a wider range of inquiry.

*Juniors—Three hours per week, second Semester.*

## EDUCATION

Professor Isanogle

Miss Linthicum

To students who expect to teach, this department offers the more important courses in education. The State Board of Education approves this department, and issues to students who do creditably 12 to 15 units of their A. B. work in these courses a certificate which entitles them to teach in the public elementary or high schools of Maryland.

1. HISTORY OF EDUCATION.—A brief review of the origin and development of educational theory and practice and of the distinctively American features which these assumed when transferred to our shores. A study of the progress of education in the United States, especially of the growth of public education during the last half century.

*Juniors, first Semester, three hours.*

2. PRINCIPLES OF EDUCATION.—A study of the aims and values of education, of the principles governing the educative processes, and of the application of these principles to the solution of some of the problems which education in the United States today presents.

*Juniors, second Semester, three hours.*

(Psychology and Educational Psychology.—See Department of Philosophy.)

3. ELEMENTARY SCHOOL ORGANIZATION.—The organization and management of the elementary school and its relation to the high school. The nature and function of the junior high school in rural communities. School law, especially as it relates to duties and qualifications of principals and teachers. Curriculum and program problems.

*Juniors, second Semester, two hours.*

4. EDUCATIONAL SOCIOLOGY.—A study of the social aspects of teaching, of the principles of sociology with which education is most concerned, and of the existing agencies and activities for improvement in urban and rural communities.

*Juniors and Seniors, first Semester, two hours..*

5. PRINCIPLES OF HIGH SCHOOL TEACHING.—A survey of the development of public elementary education and a course in the elements of general and special methods of teaching in the junior and senior high schools. This course includes supervised observation of high school teaching in subjects which the student will later teach.

*Seniors, first Semester, two hours.*

6. HIGH SCHOOL ORGANIZATION AND CONTROL.—A course in high school administration and class-room economy and in the organization and control of extra-curricular activities of high school pupils.

*Seniors, second Semester, two hours.*

7. PRINCIPLES AND METHODS OF THE ELEMENTARY SCHOOL.—A general course in elementary school practice, which aims to do for those who wish to teach in the elementary school what the above courses, 5 and 6, plan to do for those who will enter the high school field. The West End School, Westminster, Md., is the demonstration school for those taking this course.

*Seniors, first and second Semester, two hours.*

8. SUPERVISED OBSERVATION AND DIRECTED PRACTICE.—Observation of elementary and high school teaching is followed by practice in teaching. The observation and practice work is done in the department in which the student expects to teach. For the demonstration work, students are permitted to use the Westminster High School. The College Preparatory School is used for observation and practice teaching and is organized as a high school in which the classes are limited to 25 students. Each candidate for a state certificate is required to observe ten periods and to teach twenty periods.

*Seniors, two Semester hours.*

9. EDUCATIONAL TESTS AND MEASUREMENTS.—A course in the practical use of standard tests in the measurement of class-room products of both the elementary and high school, and the use of group intelligence tests and their function in modern school organization. (Students will furnish material used in this work.)

*Seniors, second Semester, two hours.*

## EXTENSION COURSES FOR TEACHERS IN SERVICE

Courses in Education, except course 8, including Educational Psychology, will be offered on Saturdays at hours convenient to classes. A course will not be given to a class with an enrollment of less than ten.

College Courses in subjects other than education will be offered on Saturdays governed as above.

Extension Courses in Education will be given at one or more centers in Carroll County from which the Saturday classes are inaccessible. The course, place of meeting, day and hours, 4 to 9 P. M., to be arranged as convenient to class and teacher.

Thirty two-hour periods of this work will be accepted by the State Department of Education in lieu of one session of summer school work.

College credit will be given for this work, counting toward the A. B. degree on the same basis as for regular college work.

Tuition for Extension Courses, \$20 per course per year.

## DEPARTMENT OF ENGLISH

Professor Warfield

1. RHETORIC AND COMPOSITION.—The rhetorical principles and methods of thought development. The paragraph, the sentence, diction and exposition, argument, description, and narration. Although all matters of correctness receive attention, yet emphasis is laid on effectiveness in organization and expression.

Shorter and longer themes and readings illustrative of effective practical composition are required. Also a library cultural course in reading is included.

*Freshmen, three hours a week, both Semesters.*

2. HISTORY OF ENGLISH LITERATURE.—An outline course in the history of English literature, supplemented by readings illustrating periods and types.

*Sophomores, three hours a week, first Semester.*

3. THE NOVEL AND THE SHORT STORY.—Growth of the English novel and the reading of representative novels and short stories, to illustrate the leading principles and tendencies of the art of fiction.

Shorter and longer themes continued.

*Sophomores, three hours a week, second Semester.*

4. SHAKESPEARE.—A critical and appreciative study of selected plays, with attention to characteristics of the Elizabethan age and dramatic types and to the art of Shakespeare.

*Juniors, three hours a week, first Semester.*

5. THE MODERN DRAMA.—The reading of selected American and foreign plays, with emphasis on the dramatic art of today and the views of life presented.

*Juniors, three hours a week, second Semester.*

6. ENGLISH PROSE OF THE NINETEENTH CENTURY.—The reading of such authors as DeQuincy, Carlyle, Ruskin, Arnold, Newman, and Emerson, with special attention to thought and style. Lectures and reports are part of the work.

*Seniors, three hours a week, first Semester.*

7. ENGLISH NON-DRAMATIC POETRY.—Spenser, Milton, Pope, Wordsworth, Shelley, Keats, Tennyson, and Browning studied with reference to individual art and the age to which the author belongs.

*Seniors, three hours a week, second Semester.*

NOTE.—Every Junior and Senior, whether taking English or not, will prepare one essay or oration in each semester, one of which will be delivered in Smith Hall. Besides careful preparation, the student will be required to submit to the instructor a bibliography of readings on the subject used.

## FRENCH

Professor Bonnotte

1. This course is intended for Freshman entering without French and completes Frazer and Squair's Elementary French Grammar. Pronunciation using the phonetic system. Drill in regular and irregular verbs. Reading.

*First and second Semesters. Three times a week.*

2. This course is intended for Freshmen having had two years of High School preparation. Study of idioms, dictations, memorizing, and elements of conversation. Reading of modern plays.

*First and second Semesters. Three times a week.*

3. Composition, dictation and conversation. During this year reading of XIX Century Prose writers as Daudet, Merimee, Maupassant, Halevy, etc., is pursued.

*Sophomores, first and second Semesters. Three times a week.*

4. Original compositions and business letters; as much as possible the course will be conducted in the French language. This year will be entirely devoted to the study of scientific and historical treatises as a preparation for post-graduate courses. During the second semester, a systematic course in grammar and pronunciation will be given for students intending to teach the language.

*Juniors, first and second Semesters. Three times a week.*

5. A special study will be made of dramatic poetry including authors of both Classical and Romantic schools, such as Corneille, Racine, V. Hugo, and Moliere. During the second semester a course of lectures delivered in French will be given on French Literature and social life.

*Seniors, first and second Semesters. Three times a week.*

## GEOLOGY

Professor Schaeffer

1. ELEMENTS OF GEOLOGY.—This course is designed for those students who wish to have an acquaintance with the chief events of the earth's history. It includes a discussion of earth features and their meaning and an outline of the past history of the earth. Lectures, recitations, and assigned readings upon which reports are made. The course is illustrated by maps and the rich collection of specimens which the college possesses.

*Three hours weekly throughout the year. Elective for Seniors of all groups.*

## GERMAN

Professor Bonnotte

1. Grammar. Reading, covering about 100 pages.

*Sophomores, first and second Semesters. Three times a week.*

2. Composition and reading of modern prose writers such as Heyse, Meyer, Keller, Fulda, Suderman, and including during the second semester Dippold's German Scientific Reader.

*Juniors, first and second Semesters. Three times a week.*

3. The whole year will be devoted to the study of Goethe, Schiller and Lessing.

*Seniors. Three times a week.*

## GREEK

Professor Yount

1. FIRST YEAR GREEK.—A beginners' course for students who have not offered Greek at matriculation. The especial aim is mastery of a vocabulary, of the forms and of syntactical principles. During the second semester use is made of Greek reader containing interesting stories of ancient Greek life. Writing exercises.

*Four hours for the year. Credit: six Semester hours.*

2. SECOND YEAR GREEK.—Xenophon's *Anabasis*, two or three books, and selections from Homer's *Iliad*. Writing exercises. (Because of the students' greater maturity it is of course expected that in Courses 1 and 2 much more will be accomplished than in the same amount of time in the high school).

*Three hours for the year.*

As a rule only one course of Courses 3-7 is given each year. Each course includes a special topic, as designated, with reading in English. The prerequisite for each one of these courses is Courses 1 and 2.

3. ATTIC GREEK.—Lysias, *Orations*; Xenophon, *Memorabilia*; Plato, *Apology* and *Crito*; Homer, selections from the *Odyssey*. Socrates' life and times. Composition.

*Three hours for the year.*

4. HERODOTUS and THUCYDIDES, selections. The Greek state. First Semester.

DEMOSTHENES, selected orations. Greek oratory. (Either semester may be taken separately.) Second Semester.

*Three hours for the year.*

*Three hours for the year.*

8. GREEK ART.—No knowledge of Greek or Latin is required. Open to Juniors and Seniors. The object is, by a study of Greek archaeology and of the development of Greek art down through the Roman empire, to form some setting for the study of Greek and Latin literature, and to build a background for the better understanding of the history of later and more modern art and architecture. Not given in 1922-23.

*One hour for the year. Credit two Semester hours.*

## HISTORY AND POLITICAL SCIENCE

Professor James

1. MEDIAEVAL HISTORY.—This is a course in European History and covers the period from the Roman Empire to the Renaissance, ending with the discovery of America. The Christian religion in its bearings upon the barbarian peoples in the course of their conquests, the development of the states of Europe, the basis and nature of the conflicts between ecclesiastical and secular claims, together with the associated facts and characteristics of medieval society and institutions are studied in chronological and topical order.

*Freshmen, three hours per week, first Semester.*

2. ENGLISH HISTORY.—The industrial, social, and constitutional history of England is followed with particular regard for the associations of

the several factors in the evolution of the Anglo-Saxon type of civilization. The student is thus provided with the materials for a clear understanding of the structure and development of the kind of social and political society found in both England and the United States, close attention being paid the great instruments of Anglo-Saxon liberties.

An individual feature of this course is the emphasis laid upon woman in the facts of legal rights and industrial opportunity, together with her emergence in literature and the arts, as a background for an understanding of the factors of progress for the sex to the equality of status that has been attained. The study will be of an institutional rather than of a feminist nature, and will be found to be fundamental to a right understanding of present day political and industrial society in England and the United States.

*Sophomores, three hours per week, throughout the year.*

3. MODERN EUROPE.—A course in the political and constitutional history of Europe from the close of the Napoleonic wars to the present time. The overthrow of the principle of legitimacy and the growth of the principle of nationality, with the creation, generally, of constitutional government is followed with particular regard for the types of modern democratic states, and in the light of the causes and issues of the World War.

*Juniors, three hours per week, throughout the year.*

4. AMERICAN HISTORY.—American history is studied with a view to a clear understanding of the events that lead to the discovery and settlement of the New World, and the circumstances under which the thirteen colonies came into a sense of the community of interests that led to their revolt against the home government. The period of experimental and then of federal association of the states is considered, with especial regard for the outstanding men and measures.

*Seniors, three hours per week, first Semester.*

5. PROBLEMS IN AMERICAN HISTORY AND GOVERNMENT.—The object in this course is to take up the great governing topics in American history in order that by such stepping stones the student may find his way through the devious windings of the stream of American political progress. The tariff as a formative influence in American political life, the facts as to sectionalism, the course of federalization in the light of the civil war and after, American diplomacy and world obligations, war footing and peace ideals, American party government, immigration, policies of presidents in relation to progress, are some of the subjects that may be considered.

An aim of the course will be to exercise the student in powers of research, looking to a right understanding of the nature of a thesis, its construction, the bibliography, and writing.

*Seniors, three hours per week, second Semester.*

## HOME ECONOMICS

Miss Troy

Western Maryland College offers a four-year course in Home Economics which prepares women for teaching the subject, for administrative positions requiring a knowledge of the domestic arts and sciences, or for the management of households.

## CLOTHING

*Three hours for the year.*

## MATHEMATICS

Professor McDaniel

Assistant Miss Hart

### 1. ADVANCED ALGEBRA.

*Freshmen, three hours per week, first Semester.*

### 2. TRIGONOMETRY.—Plane and Spherical.

*Freshmen, three hours per week, second Semester.*

3. **ANALYTIC GEOMETRY.**—Location of points by Cartesian and Polar coordinates; the straight line, circle, conic sections and higher plane curves, their tangents, normals and areas.

*Sophomores, three hours per week, first Semester.*

4. **ELEMENTS OF CALCULUS.**—This course aims to give a good working knowledge of the fundamental processes of both branches of the subject, the differential and the integral.

*Sophomores, three hours per week, second Semester.*

5. **DIFFERENTIAL AND INTEGRAL CALCULUS.**—The theory of limits, fundamental formulae of differentiation with applications, including maxima and minima and rates, series and expansion of functions. The definite and the indefinite Integral; applications including areas and volumes.

*Juniors, three hours per week, throughout the year.*

6. **APPLICATIONS OF CALCULUS.**—Differential equations. Mechanics.

*Seniors, three hours per week, throughout the year.*

## MECHANICAL DRAWING

Professor Schaeffer

1. PRACTICE IN ELEMENTS OF MECHANICAL DRAWING.—Use of instruments, lettering, making finished plates in pencil and ink tracing.

*Two periods of three hours each, weekly, first half year. Seniors of Group VII. Elective in other Groups.*

2. ELEMENTS OF DESCRIPTIVE GEOMETRY.—Problems relating to points, lines and planes, intersections and developments, projections, etc.

*Two periods of three hours each, weekly, second half year. Seniors of Group VII. Elective in other Groups.*

## MILITARY SCIENCE

Captain Smith

Lieutenant Farrar

Sergeant Rice

1. INFANTRY DRILL REGULATIONS and Interior Guard Duty.  
Required—All Freshmen Men.

*First Semester, five hours per week.*

2. INFANTRY DRILL, continued and Rifle Marksmanship.  
Required—All Freshmen Men.

*Second Semester, five hours per week.*

3. MAP READING AND SKETCHING and the Automatic Rifle.  
Required—All Sophomore Men.

*First Semester, five hours per week.*

4. MUSKETRY, the Bayonet, Grenades and Sanitation and First Aid.  
Required—All Sophomores.

*Second Semester, five hours per week.*

5. FIELD ENGINEERING.  
\*Elective Junior Men.

*First Semester, five hours per week, three credits.*

6. MILITARY LAW, the Machine Gun, the 37mm. Gun and the Trench Mortar.

\*Elective Junior Men.

*Second Semester, five hours per week, three credits.*

7. MINOR TACTICS.  
\*Elective Senior Men.

*First Semester, five hours per week, three credits.*

8. MINOR TACTICS, continued, Military History and Administration.  
\*Elective Senior Men.

*Second Semester, five hours per week, three credits.*

\*Only those students who in the judgment of the Commandant have successfully completed M. S. 1-2-3 and 4, will be allowed to elect M. S. 5-6-7 and 8.

Selected students electing M. S. 5-6-7 and 8 must sign an agreement to complete all four courses and attend a summer camp for six weeks at the end of the Junior year, in order to receive the pay for these courses.

## PHILOSOPHY AND PSYCHOLOGY

Professor Stephens

1. GENERAL PSYCHOLOGY.—A general introduction to the study of normal adult conscious life. Neural and physiological basis of mental processes. Sensation, attention, perception, association, memory, imagination, the concept, and higher rational activities of judgment and reason; the emotions and volitional expression. Self and self-realization.

*Juniors, three times a week, first Semester.*

2. EDUCATIONAL PSYCHOLOGY.—A study of the fundamental facts and general principles involved in the learning process. Instincts and habit formation; control in the field of sensations and perceptions; pedagogical significance of imagination, memory, association, attention and interest, and development of the higher thought processes. Problems as developmental agencies in the educational program.

*Juniors, three hours, second Semester.*

3. LOGIC.—The general principles of formal deductive and inductive logic: the training of the mind for careful thinking. The place of the scientific method in the search for empirical truth. Stress on accurate and fruitful methods in study.

*Seniors, three hours a week, first Semester.*

4. THEORY OF THOUGHT AND KNOWLEDGE.—A study of the laws of thought and mental procedure in acquiring knowledge, and an inquiry into the nature and validity of human knowing, with some reference to metaphysics. (This course given in alternate years with course 3, Logic.)

## PHYSICS

Professor Schaeffer.

1. GENERAL PHYSICS.—Mechanics, heat, electricity and magnetism, sound and light.

*Three hours weekly throughout the year. Sophomores of Group VI. Elective in other Groups.*

2. GENERAL LABORATORY PHYSICS.—A course to accompany course 1. (Excepting in special cases courses 1 and 2 must be taken together.)

*Four hours weekly throughout the year.*

3. THEORETICAL MECHANICS AND THERMODYNAMICS.—Presentation of theory by lectures and recitations together with the solution of problems.

*Three hours weekly throughout the year. Juniors of Group VI. Elective for those who have taken Physics 1.*

4. PHYSICAL MEASUREMENTS.—Laboratory course in mechanics and heat measurements. This is a continuation of Course 2 and is designed to accompany Course 3.

*Four hours weekly throughout the year.*

5. PHYSICAL OPTICS, ELECTRICITY AND MAGNETISM.—This Course is in the mathematical theory of the subjects, one half year being given to each.

*Three hours weekly throughout the year. Seniors of Group VI. Elective in other Groups.*

6. Laboratory work and exercises to accompany Course 5.

*Four hours weekly throughout the year. Seniors of Group VI.*

## SPANISH

Miss Stephens

1. De Vitis' Spanish Grammar and drill on regular verbs. Special exercises in pronunciation.

De Vitis completed: study of irregular verbs. Reader (de Haan and Morrison, Cuentos Modernos.

*Juniors, first and second Semesters. Three times a week.*

2. Composition and business letters. Reading from Alarcon, Galdos, Ibanez, Moratin, Bazan, etc.

*Seniors, first and second Semesters. Three times a week.*

## THE LIBRARY

Miss McDaniel

In addition to the class-room work outlined in the preceding courses, students are expected to do a stated amount of reading and research work in the College Library collateral to each of the courses.

A list of books for such reading will be furnished by the professor in charge and students must report to him on the books read.

So important a part of the work of this department is this collateral reading that no student will be passed in his class-room work until all required Library work has been satisfactorily done.

The College Library has been pronounced the best working library in the state outside of the city of Baltimore. It contains 15,000 volumes and is kept up to date in the several departments. It is commodiously and conveniently housed in the new Administration Building, second floor, and is kept open for students from 9 A. M. to 5.30 P. M., and from 7 to 9 P. M.

## Supplementary Courses

### DEPARTMENTS OF MUSIC AND SPEECH

The courses in Music and Speech are arranged to meet the needs of the students who desire to study them at the same time they are pursuing the regular course. Such students are of two classes—those who wish to pursue a full course and secure the certificate of one of these departments, and those who desire simply to gain such proficiency as may be possible in limited time. For all students taking these supplementary courses an extra charge will be made, according to the schedule of rates published on page 76. It is not advisable for a student to attempt more than two of these studies at the same time. College credit will be allowed these special subjects as follows: Two semester hours for each of the Freshman and Sophomore years, and four semester hours for each of the Junior and Senior years.

#### PIANO

Miss Gesner  
Miss Harris

Miss Lewis  
Miss Musgrave

Students are divided into grades and carried through a progressive course of studies intended to take them from the rudiments of Music and the first principles of pianoforte playing to enable them to interpret and render the best classic music. Piano may be studied by those who do not desire a full course, and, for such, a selection from the course will be made suitable to their ability and the time they can give to it. But those who desire to graduate in the department must take the entire course, and, in addition, a course in Musical History at least one year, and three years in Theory. For these no extra charge will be made.

The course in Theory is begun in the Freshman year. It includes ear-training, sight-singing, written and keyboard harmony, analysis, and form.

As all lessons are given individually, the pupil's progress is limited by no condition of time. A student may require two years to complete one of these grades, or two of them may be

completed in one year, all depending upon the student's talent and diligence. Upon completion of the course students receive a certificate of graduation in the department.

PREPARATORY.—Czerney, Opus 636 or 821; Sonatinas by Kuhlau, Kullak, Clementi; Album for the Young by Schumann.

FIRST YEAR.—Czerney, Opus 299; Heller, Opus 47; Sonatas by Hadyn and Mozart.

SECOND YEAR.—Czerney, Opus 740; Heller, Opus 45; Bach, Two Part Inventions; Selections commensurate with these studies from classic and modern composers.

THIRD YEAR.—Czerney, Opus 740; Bach, Three Part Inventions; Beethoven's Sonatas; Concert Pieces from old and modern masters chosen for improving dexterity and expression.

FOURTH YEAR.—Czerney, Opus 740; Gradus ad Parnassum; Bach's French and English Suites; Chopin's Etudes; Concert Pieces from the great composers.

ADDITIONAL.—Technical work consistent with the above studies will be given each year. Students desiring the certificate of the department must in the last three years take two years of Harmony and one year of Musical History.

HARMONY.—Thorough knowledge of intervals, scale formation, chords and their resolutions, sequences, cadences, etc. Modulation and ability to harmonize a figured bass and a given melody.

MUSICAL HISTORY.—Baltzell's History of Music. This course illustrates the rise of music—the music of ancient Greece, Rome and Jerusalem, the early Christian church and Gregorian music—the great composers and their influence, and the chief points which tended to evolve the music of the present.

## PIPE ORGAN

Miss Harris

Instruction in Organ playing is given to pupils sufficiently advanced in music to take up this study. The works of Bach, Handel, Rink, Merkel, Kullak and other classical composers, as well as those of standard modern writers, are carefully studied, special attention being given to church music. Harmony is continued throughout the course, and everything pertaining to a thorough and artistic rendering of the music devoted to this instrument is carefully considered.

The College has a fine two-manual organ, with water motor, giving students ample opportunity for practice.

## VOICE

Miss Dorst

The course includes four grades, and the completion of the work entitles the pupil to a certificate stating this fact. But a year's study of the piano or organ and two years of Harmony will be required of all graduates.

FIRST YEAR.—Elements of notation—Respiration; Vowel Formation; Articulation; Pronunciation; Placing Tones; Anatomy and Physiology of the Vocal Organs; Seiber's Elementary Vocalises.

SECOND YEAR.—Exercises for increasing Flexibility of Voice; Phrasing; Vaccai; Lutgen, Book I; Songs by Classic and Modern Composers.

THIRD YEAR.—Exercises for Flexibility, continued; Lutgen, Book II; Songs in French, German and Italian; Panofka's Harmony.

FOURTH YEAR.—Advanced Vocalises by Aprile; Bordogni; Marchesi; Arias from Operas and Oratorios; Songs by Schubert, Schumann and other classic writers; Harmony; History.

There will also be exercises in Concerted Music; Chorus Practice and Sight-Singing.

## SPEECH

Miss Lease

The aim of this department is to train the voice and body to become easy and effective agents of expression in conversation and in public speaking. Realizing the influence of cultivated speech in every day life, and of oratory in shaping the public mind, Western Maryland College desires to put within the reach of its students such training as will enable them to take their place with men and women of culture and action. In order to accomplish this students may elect the courses of the Freshman and Sophomore years, receiving academic credit. Should students desire to equip themselves for teachers of expression, for professional careers, or for purely cultural ends, they may elect the course prescribed during the remaining two years, receiving credit toward the academic degree. No credit will be given during Junior and Senior years if course is pursued for one semester only.

## COURSE OF STUDY

Freshmen	I. Evolution of Expression. <i>One hour, two Semesters.</i>
	II. Technique of Speech and Gesture. <i>One hour, two Semesters.</i>
Sophomore	Evolution of Expression (concluded.) <i>One hour, two Semesters.</i>
	III. Philosophy and Criticism of Speech and Gesture. <i>One hour, two Semesters.</i>
	IV. Recitals.
Junior	V. Literary Interpretation. <i>One hour, two Semesters.</i>
	VI. History of Oratory. <i>One hour, one Semester.</i>
	VII. Extempore Speaking. <i>One hour, one Semester.</i>
Senior	VIII. Dramatics. <i>One hour, two Semesters.</i>
	IX. Forensics. <i>One hour, one Semester.</i>
	X. Bible and Hymn Reading. <i>One hour, one Semester.</i>
	XI. Recitals. Private Lessons.

1. EVOLUTION OF GESTURE.—A series of steps in expression leading the student by natural laws of growth toward forceful and effective delivery.

2. TECHNIQUE OF SPEECH AND GESTURE.—Principles of voice production and exercises for placing and developing freedom of voice and action. This seeks to train the ear and eye to principles of grace and beauty in public speaking and in conversation.

3. PHILOSOPHY AND CRITICISM OF SPEECH AND GESTURE.—Students appear before the class for criticism and suggestions in testing their mastery of the laws of artistic action.

4. RECITALS.—This course is designed to give the Sophomores practice in public speaking. The students come before the school with short readings and receive one short private lesson in their preparation for it.

5. LITERARY INTERPRETATION.—A critical study of masterpieces of literature, emphasizing principles of Evolution of Expression in prose and poetry, aiming to develop greater skill in expression and a keener appreciation of literature.

6. HISTORY OF ORATORY.—A brief survey of orators from the time of Pericles, considering their lives and their chief works.

7. EXTEMPORANEOUS SPEAKING.—Brief discussions on subjects of general interest, viz., current events, topics from history or biography, science, etc.

8. DRAMATICS.—Beginning with the elements of stage deportment the student applies the technique of the stage in modern and classic drama, choosing one act plays or scenes from longer plays.

9. FORENSICS.—A few of the greatest orations of the world are reviewed and portions of them memorized, with the desire to impress the student with the style of the orator and the principles employed by those who have succeeded in reaching the highest in oratory.

10. BIBLE AND HYMN READING.—A comparison of the styles of literature of the Bible and the spirit in which sacred writing should be communicated.

11. RECITALS.—The Senior year offers opportunity for public appearance in the form of readings or plays. Private lessons may be arranged for if the student desires extra time.

## LECTURES

The work of instruction is done mainly in the class-room and by recitation, but in the Collegiate Department the text-book is supplemented by frequent lectures as a part of the regular work.

Besides the above, a course of lectures is delivered to the whole school in Smith Hall, which gives the students an opportunity of hearing various literary, scientific and historical subjects treated, not only by members of the Faculty, but also by distinguished speakers and specialists not connected with the College.

One hour is given every Friday to a public assembly in the Auditorium, where an exercise of a different kind is held every week; Senior Orations and Disputations, Junior Themes, Sophomore Readings and Recitations, Musical Recitals and Lectures alternate in pleasing variety, and offer unusual facilities to broaden the student's culture.

## Physical Training

**B**ESIDES the opportunities afforded by an extensive campus for outdoor exercise in an air exceptionally pure and bracing special attention is paid to the physical development of the students. Female students are required to exercise daily under the instruction of a regular teacher. These exercises are all performed to piano music, which stimulates to more vigorous effort and renders the drill in every way more attractive and beneficial. This training gives the body grace, beauty and health.

A large portion of the thirty acres of land belonging to the College is devoted exclusively to outdoor sports, while the gymnasium furnishes ample provision for in-door athletic training. The students are required to exercise daily under the superintendence of a director, who assigns to them the kind of exercise most needed in each case; and no student will be graduated who fails to comply with this requirement.

Special stress is laid upon corrective exercises.

In connection with the gymnasium lectures will be given on personal hygiene, including talks on breathing, circulation, bathing, clothing, drink and food; and on how to exercise to obtain the best results.

The prime object of the course in Physical Training is to strengthen the vital organs, thus making the student healthy and keeping him so; and training him in the habit of caring for his own body to the best advantage.

Outdoor athletics, including tennis, basket-ball and other open-air exercises are provided for women.

The new Athletic Field will be in operation at the beginning of the next school year, and will mark a new era in athletics in the college.

## Grades and Awards

### EXAMINATIONS

**E**XAMINATIONS of all the classes are held at the close of each Semester. The results of these examinations are combined with the daily recitation marks to make up a student's grade for the Semester. If a student shows marked deficiency in any study, the professor in charge may require him to take a special examination at any time during the Semester to determine whether he shall continue with the class.

### GRADES

The scholastic standing of the students is determined by a system of grading, the scale of which is from 1 to 10. A student who makes a grade of seven or over, in a department for the year or the part of the year in which the studies of the department are pursued, is passed. The general average of a student is found by adding the grades for the year in each department and dividing by the number of departments.

The grades are recorded in figures, but are not so reported. The scholastic standing of students is reported by letters. Those making an average between 9.5 and 10 are reported "A", and are doing very superior work; those between 9 and 9.5, "B", and doing excellent work; those between 8 and 9, "C", and doing good work; those between 7 and 8, "D", and doing work below average; those between 6 and 7, "E", and are conditioned; and those below 6, "F" and are not passed.

Every unexcused absence from class reduces the student's final semester grade three-tenths. If the absence is properly excused the student may make up his work; in case the work is not made up the absence stands unexcused.

A student who obtains a semester grade of "E" in a study is permitted to remove the condition at the discretion of the head of the department and with the sanction of the Committee on College Studies.

A condition not removed within one year from the time imposed shall thereafter have the effect of an "F", that is, complete

failure. A student who makes a semester grade of "F" must repeat the subject in order to receive credit.

### REPORT TO PARENTS AND GUARDIANS

At the end of each academic month a report is sent to parents and guardians showing the scholastic standing of students and the character of their deportment. This is done in order that parents and guardians may co-operate with the College in keeping students from falling behind in their work.

### DEGREES AND COMMENCEMENT HONORS

At the Annual Commencement Honors are awarded in accordance with the following requirements:

The degree of Bachelor of Arts is conferred upon all who complete 128 credit hours of study to the satisfaction of the Faculty; and who present a graduating thesis, worked out under the direction of one of the professors and approved by the Faculty. A credit hour is the equivalent of one weekly exercise for one Semester.

Honorable mention is given to those students making a grade of 9 or over in each course of the full curriculum of their respective classes or a general average of 9.4.

In the Senior Class the students receiving the highest grade for the Senior and Junior years receives the honor of the Valedictory; the next the Salutatory. Six speakers are chosen for Commencements Parts on their grades for the preparation and delivery of the essays and orations of the Junior and Senior years. All students who receive Honorable Mention in the Junior and Senior years, or in the Senior, Sophomore and Freshman years, are graduated Cum Laude, and all students who receive Honorable Mention in the four years of the course are graduated Summa Cum Laude.

In the Junior, Sophomore and Freshman Classes gold medals are awarded to the student making the highest general average, provided he is entitled to Honorable Mention.

Gold medals are also awarded to graduates doing the best work in Instrumental Music, Vocal Music and Expression.

## PRIZES

The following prizes have been founded and are annually bestowed at Commencement:

The Merrill Trophy, presented by the late Professor A. H. Merrill, Professor of Elocution in the College, is a silver emblem suitably framed to hang in the rooms of the Literary Society winning the Annual Contest between the Irving and the Webster Society.

The Newell Trophy, presented by the late Professor M. A. Newell, State Superintendent of Education in Maryland, is a silver emblem suitably framed to hang in the rooms of the Literary Society winning the Annual Contest between the Browning and the Philomathean Society.

The Norment Prizes, founded by the late Samuel Norment, Esq., of Washington, D. C., are Gold Medals given to the students of the Sophomore and Freshman Classes excelling in Expression.

The Bates Prize, founded by Edward Bayley Bates, '98, in memory of Rev. Lawrence Webster Bates, D. D., is a gold medal awarded to the member of the graduating class who has made the best record during his undergraduate course as a College man.

The John A. Alexander Medal, founded by the Class of 1917, in memory of John A. Alexander who died in the Great War, is a gold medal awarded to the member of the graduating class who has made the best record in athletics.

The Mary Ward Lewis Medal, founded by the Browning Literary Society in honor of the wife of the second President of the College, is a gold medal awarded to the member of the graduating class who has made the best record during her undergraduate course as a College woman.

## HONOR CONDITIONS

1. No honors will be bestowed on any student who has been guilty of any flagrant misconduct during the year, nor will such student be allowed to compete in any contest during Commencement Week.

2. No student may compete in more than one contest at Commencement.

3. No student may compete in any contest at Commencement unless he is taking the full course of study and has passed in each subject.

### REGULATIONS FOR GRADUATING THESES

A Committee consisting of the Vice-President, Professor of English, and the professor in each department in which subjects are chosen for any one year, approves the subjects and passes on the theses when completed. But no thesis can be approved by the committee until it has been approved by the professor in charge.

No student may choose a subject which he has not pursued during his Junior or Senior year. The preparation of the thesis shall be under the direction of the professor in whose department the subject is chosen, and he may require reports of progress at his discretion. But no student shall be invested unless the professor reports to the Faculty at the close of the second term that satisfactory progress is being made.

Subjects chosen for the thesis must be presented on a form to be obtained at the office and handed in at the office before 3 P. M. on the Friday following the Spring recess of the Junior Year.

Theses shall contain not fewer than three thousand nor more than four thousand words. They shall be typewritten on approved thesis paper on one side only, with approved cover and fastening. In addition to the discussion they shall contain a complete outline with page references, page footnotes, and full bibliography at the close. A copy of each approved thesis shall be placed in the College Library.

## Expenses

## Expenses

**T**HE Collegiate year consists of thirty-six weeks, and is divided into two Semesters of eighteen weeks each. The first Semester begins on the third Monday in September. The second Semester begins on the first Monday in February.

### SCHEDULE OF CHARGES

Extra practice for each additional hour daily, per term \$3.00.		
Speech, two lessons a week of forty minutes each in classes of four.....	25.00	25.00

### TOTAL EXPENSES FOR THE YEAR

The charges for board, furnished room, laundry and tuition aggregate \$400.00 for the year. This amount is payable in installments at the beginning of each Semester; viz., \$200.00 in September, and \$200.00 in February.

For those who occupy rooms in McDaniel Hall, the New Dormitory for Women, a charge in addition to the above will be made of \$12.50 a Semester.

A Registration Fee of \$10.00 will be charged each boarding student at the time application is made. This fee will be credited on the bill for the first Semester.

The charge for laundry includes twelve plain pieces besides the bed linen. All above this will be done at the expense of the student.

The charge for room means that two students are to occupy the same room.

## ADDITIONAL FEES

## Chemistry Laboratory.

Chemistry 1 .....	\$10.00
Chemistry 2 .....	15.00
Chemistry 3 .....	12.00
Chemistry 4, for Semester.....	6.00

Home Economics 4, 5, 11, each.....	10.00
Home Economics 6.....	7.50

These fees cover the use of apparatus and materials for the year.

Each student doing laboratory work must be provided with a breakage card costing \$5.00, from which breakage will be deducted, and the remainder will be returned at the close of the year.

Students working extra hours in laboratory will be required to pay for the same.

Male students pay an Athletic Fee of \$15.00 and female students of \$10.00.

## EXTRA EXAMINATIONS

If a student is absent from the regular examinations for the Semester, he will be given an opportunity to make up the examination, provided his excuse for absence is accepted by the Faculty. A charge of one dollar will be made for each examination.

## ROOM AND DAMAGE DEPOSIT

All students who board in the College are required to deposit \$10.00 with the Treasurer on receiving the keys of the room. Town students will be required to deposit \$5.00. This money is returned at the close of the year, with any charges for injury to College property deducted. In case of damages due to disorder, where the responsibility cannot be directly traced, the cost is assessed on the whole school.

### TEXT-BOOKS

Students provide their own books and stationery. The College will order these for students if they desire, and furnish them at publisher's rates.

### DEDUCTIONS FOR ABSENCE

When a student is absent more than three weeks, a reduction will be allowed for board and laundry, that is, he will be charged at the rate of nine dollars a week (for these two items) for the time he is present. There will be no reduction from the charge for furnished rooms for the semester. If a student is present less than half a semester, he will be charged for tuition for one-half a Semester. If he is present more than half a Semester, no reduction for tuition will be allowed.

### TIME OF PAYMENT

All bills are presented at the beginning of each semester for that semester, and are due when presented, and must be paid within ten days. Checks should be made payable to WESTERN MARYLAND COLLEGE.

## The Preparatory School

### ORGANIZATION

WESTERN Maryland College has always had a Preparatory Department, but an entirely new departure was recently made in this direction by removing the department from the College Campus. This was done because the department had grown too large for the rooms the College could spare for it, and especially because it was found desirable to separate students of such different ages so as to put into effect regulations that were desirable for younger students, but could not be enforced while they were associated with older students. A new building was erected, and all its appointments are first class and designed for special use of this school. The building is so near the College that students take their meals at the College dining-room, being, in fact, only about three hundred yards distant, but yet the students are entirely separate as to organization and discipline.

### STUDENTS ADMITTED

The school accepts both boys and girls, but the girls have their rooms at the College and are under the care of the Dean of Women. They go to the Preparatory schoolrooms for their recitations where they are in charge of the Lady Principal.

### STUDENTS' ROOMS

The rooms for boys are in the Preparatory Building, and are furnished but not carpeted. Each room has single beds, is heated by steam, lighted by electricity, and well-ventilated. Each room is intended to be occupied by two students.

### SCHOOL ROOMS

The school admits students of high school grade. Each class is provided with a large school room, well ventilated and lighted. Each room has a teacher constantly in attendance, and the students study in this hall during the day. At night they study in their own rooms.

### FRANK HURLEY LIBRARY

A special gift by one of the friends of the College, Mrs. Ulie Norment Hurley, of Washington, D. C., enabled us to provide at once an excellent assortment of books especially selected for boys' readings. About 600 volumes now fill the cases, and more will be provided as they are needed. These are placed in a large room, which is open daily to the students.

### GOOD SURROUNDINGS

The school is under the immediate direction and control of Western Maryland College, and the students take their meals in the College dining-room, and have all the advantages of collegiate associations, while their own work is removed from immediate contact with older students and under regulations which have to be different in matters of discipline. All the lectures and entertainments at the College are open to the students of the Preparatory School, and the libraries at the College are also at their disposal.

### GOOD MANAGEMENT

The President of the College has the responsible oversight and control of the school, and while he does not teach any of the classes he yet maintains a careful government of the whole course of instruction. The teachers have been selected with special reference to their ability to teach and manage young people.

### GOOD ORDER

The whole school is ordered with a view to carrying forward the discipline and care of the home. No student is allowed to leave the building at night without special permission, and then only when the Principal regards it as prudent. Students are made to keep their engagements with teachers in the classroom, and every effort is made to get indolent students to form habits of study. If they will not, they are removed from the school. No profane language or use of tobacco or spirituous liquors is allowed.

## EXPENSES

Expenses in the Preparatory School for board and tuition are the same as in the college. (See page

## COURSES OF STUDY

The aim primarily is to prepare students for college, but many students come who do not expect to enter college. For these the school offers what is sometimes not available at home—a good high school education. The work follows the Academic Course of the accredited four-year high school.

## Admission Requirements

**A** CERTIFICATE showing the satisfactory completion of the work of the seven grades of the elementary school admits to the preparatory school. Those wishing to enter classes above first year must present a certificate showing the high school work done. The certificate in each case must be signed by the principal of the school in which the work was done and sent direct to the President.

### FIRST YEAR

**ENGLISH.**—Review of grammatical construction. Practice in oral and written composition.

**LITERATURE.**—American poems and stories.

The English in each of the four years combines a study of the Language and the Literature with constant practice in oral and written composition. The two courses are given five hours a week through the year.

**SUPPLEMENTARY READING.**—Each pupil is required to read three or more books each term, the titles to be chosen from library list furnished by the teacher. Reading notes and class reports will be asked for. This work will continue, the list growing more difficult through the upper classes.

**HISTORY.**—Elementary Economics and Community or Social Civics, or General Science.

**LATIN.**—Beginners' Latin. Easy reading.

**MATHEMATICS.**—Elementary Algebra.

**SCIENCE.**—General Science.

Elect either Science or Latin.

## SECOND YEAR

ENGLISH.—A drill in sentence structure with attention to the correct and facile use of English.

LITERATURE.—A class study of Silas Marner, Ivanhoe, The Lady of the Lake, Gray's Elegy, and Merchant of Venice.

HISTORY.—World History to about 1789.

LATIN.—Review Latin constructions and read Nepos and Caesar.

MATHEMATICS.—Elementary Algebra completed.

SCIENCE.—Hygiene, one-half year, and Physical Geography one-half year.

English and Mathematics are required. Elect two other subjects.

## THIRD YEAR

ENGLISH.—The work of the preceding year is continued. A study of the paragraph is begun with the aid of a good text. The principles are applied in theme practice.

LITERATURE.—Washington, Farewell Address; Webster, Bunker Hill Oration; Gauss, Democracy Today; Addison, The De Coverey Papers; Palgrave, The Golden Treasury; Shakespeare, Julius Caesar; and Goldsmith, The Deserted Village.

HISTORY.—World History since 1789.

LATIN.—Cicero, grammar and prose composition.

FRENCH.—Grammar, pronunciation and reading.

MATHEMATICS.—Plane Geometry completed.

SCIENCE.—Chemistry or Physics.

Latin, French, Mathematics and Science are elective. Elect two.

English and History are required. Elect two other subjects.

## FOURTH YEAR

ENGLISH.—The study of the four forms of composition with the aid of a good text. Constant theme practice.

LITERATURE.—Shakespeare, Macbeth and Hamlet; Masefield, the Mob; Burke, Conciliation; Macaulay, Essay on Johnson; and selections from Coleridge, Milton and Masefield.

HISTORY.—United States History and Government.

LATIN.—Vergil and Composition.

FRENCH.—Grammar, easy composition, reading and pronunciation.

MATHEMATICS.—Algebra and Geometry reviewed. Plane Trigonometry.

SCIENCE.—Physics or Chemistry.

English and History are required. Elect two other subjects.

## Enduring Investments

No forms of beneficence exceed in importance gifts to education. Educational institutions are not money-making institutions—their dividends are in character building and in mental development. The tuition students are able to pay meets only one-third of the actual costs; the remainder must come from endowment and annual gifts. We desire to call the attention of our friends to the important work Western Maryland College is doing in the field of higher education, and to make the suggestion that the college offers an opportunity for beneficence where most satisfactory results may be obtained. Nearly three-quarters of a million dollars have been expended in this institution in buildings and endowment. The success of this college has been phenomenal in many respects, but its success makes it imperative that a much larger endowment and a more extensive equipment must be secured if the college is to go forward in the most efficient way.

With this end in view a campaign to raise one million dollars for buildings and endowment will be projected in the near future. The friends of higher education are respectfully asked to consider the claims of this institution and to join in making possible the complete success of the enterprise projected.

In addition to the above consideration is asked for the following items:

1. \$1,500.00 will establish a tuition scholarship in the Departments of Voice, Speech, or Piano.
2. \$2,500.00 will endow a tuition scholarship in the Academic Department.
3. \$8,000.00 will endow a scholarship that will provide both board and tuition for one student.
4. \$50,000.00 will endow a full professorship.
5. \$50,000.00 to \$100,000.00 will erect one of the new buildings projected in the plans adopted for the re-grouping of the college buildings.

Gifts in any amounts will be applied to the purposes indicated by donors.
