On the Cover: Central to this design is the stained-glass window representing Astronomy, one of seven decorative windows in Hoover Library symbolizing the seven traditional liberal arts. The seven liberal arts as a course of instruction were originally developed in ancient Greece in the fourth and fifth centuries B.C. by humanists who rejected a study of the world based solely on myth and religion, and introduced a systematic study of the world based on a harmoniously united, well-rounded and complete educational curriculum known as the *paideia*. These windows allude to the ultimate unity of all fields of knowledge, as well as to our modern aspiration not only to study the heavens, but also to journey to them.

The liberal arts may be regarded as one of the central and controlling elements in human thought.

The premise of the dignity of the individual person, the freedom of the human will and the belief that we live under some kind of superhuman power is safeguarded by the treasures of this heritage.

The ideal of the liberal arts embodies what is good, beautiful and reasonable.

The liberal perspective places less emphasis on knowledge than wisdom, less on self-interest than the rights of others.

It rests on the principles of prudence, compassion, justice and an openness to

what is transcendent and vibrant. A disciplined encounter with the liberal arts in the fields of philosophy, literature, history, theology, science and the arts offers the opportunity to seek and face answers to underlying personal and social questions.

The familiarity with the liberal arts takes us to the heart of the ethical dimension of our lives. It lets us see the consequences that make us responsible for our actions. It enhances the capacity for the development of personal qualities, the enjoyment of things of an aesthetic nature, a sympathetic understanding of varied points of view and the pursuit of a life of growth and critical judgment.

The important thing is not to stop questioning.
Curiosity has its own reason for
existing. One cannot help but be in awe
when he contemplates the mysteries of
eternity, of life, of the marvelous structure
of reality...Never lose a holy curiosity.

Albert Einstein (1879-1955)
Swiss-American Physicist

The liberal arts challenge us, therefore, to consider the presence of human character and will in moral life.

Although it is difficult to be conversant with the complexity of thought carried over from earlier centuries, the substance and nuanced discourses of the liberal arts afford an opportunity to cement the foundations of personal character, public duty and a commitment to intellectual values that temper knowledge with creative wisdom. Perhaps the greatest challenge derives from attempts to preserve and perfect the means to adapt values to purposeful work, a sense of power over our mental equipment and the fostering of moral stamina.

The value of the liberal arts does not rest on utility, but the enlargement and cultivation of reason and wisdom. The liberal discourse strengthens cultural fibers that articulate our society and provide access to one another's minds. While the emphasis on skills and mechanical techniques may appear to be a necessary requirement, to rest on this assumption might introvert the liberal tradition as the nemesis of history.

The ethical dilemma of our times suggests that there is a continuing need for contemplation of the values of the liberal arts. The challenge relies on attention to prospects that provide the opportunity to live wisely, richly and decently.

Western Maryland College believes that liberally educated men and women think and act critically, creatively, and humanely. They take charge of their lives and develop their unique potentials with reason, imagination, and human concern. Western Maryland accepts the challenge to provide an academic and social environment that promotes liberal learning. ● We strive to place students at the center of a humane environment so that they may see and work toward their personal goals while respecting others and sharing responsibility for the common good. ● We provide a foundation of knowledge about the past and present so that students may be informed about the world. ● We provide various approaches to knowledge and personal achievement so that students can think critically about, respond creatively to, and form sensitive, intelligent decisions concerning the world and its future. ● We provide instruction in fundamental skills so that students can express themselves for their own satisfaction and to the larger community. ● We provide solid and respected professional programs for the committed student, and, more important, we provide a liberal arts education as an integral part of professional training so that students will be more flexible, more successful, and happier in the world of work. ● In the classrooms, in the residence halls, in the laboratories, on the playing fields, and in the lounges, Western Maryland College works to disseminate these First Principles.

COLLEGE HISTORY

12

Shortly after the Civil War, Fayette R. Buell, a Westminster teacher, embarked on his dream of founding a small private college. He purchased a tract of land—a hill overlooking the town—and issued a prospectus in search of support for his dream. Although financing was slow to materialize, he did receive generous support from two of the community leaders: the Reverend J.T. Ward of the Methodist Protestant Church, who would become the College's first president, and John Smith, president of the thriving Western Maryland Railroad and a resident of nearby Wakefield Valley.

Mr. Smith, who became the first president of the College's board of trustees, suggested that the College be named after the railroad, which maintained an important terminal in Westminster. On the day in 1866 that the cornerstone was laid for the College's first building, free rail passage was

granted to everyone who attended the ceremonies. Eventually, the Western Maryland Railroad became extinct, after merging with another company. But the College that bore its name continued to grow.

The first building on the Hill was completed in September 1867; 37 men and women were enrolled in eight areas of study. Already, the new college was in many ways ahead of its time. In the original *Charter*, the founders and the first board of trustees clearly reflected their intentions that Western Maryland be an innovative and independent institution.

Western Maryland College shall be founded and maintained forever, upon a most liberal plan for the benefit of students without regard to race, religion, color, sex, national or ethnic origin, which students shall be eligible for admission to equal privileges and advantages of education and to all social activities and organizations of the college, without requiring or enforcing any sectarian, racial, or civil test, and without discrimination on the basis of sex, national or ethnic origin, nor shall any prejudice be made in the choice of any officer, teacher, or other employee in the said college on account of these factors.

Not only was Western Maryland the first coeducational college south of the Mason Dixon line, but one of the first coeducational colleges in the nation. Since its inception, it has been an independent liberal arts college with an autonomous board of trustees. A voluntary fraternal affiliation with the United Methodist Church existed from 1868 to 1974; today there are no ties to any denominational body. Control and ownership are fully vested by the *Charter* in the trustees, under Maryland state law.

In its 128-year history, the College has had only seven presidents: Dr. Ward, Dr. Thomas Hamilton Lewis (1886-1920), Dr. Albert Norman Ward (1920-1935), Bishop Fred G. Holloway (1935-1947), Dr. Lowell S. Ensor (1947-1972), Dr. Ralph C. John (1972-1984), and Dr. Robert H. Chambers (1984-present). Under their guidance, the College has assumed a place among the quality liberal arts colleges in the nation, developing programs and material and physical assets that fulfill the vision of its founders.

COLLEGE PROFILE

13

College Profile

Western Maryland College provides an ideal location for learning which brings together students from 23 states and 19 countries. Its picturesque campus is situated on a hilltop in historic Westminster, just a short drive from two of the nation's major metropolitan centers, Baltimore and Washington, D.C. Western Maryland was one of the first coeducational colleges in the nation and has been both innovative and independent since its founding in 1867.

The tradition of liberal arts studies rests comfortably at Western Maryland which has exemplary teaching as its central mission, both at the undergraduate and graduate levels. The faculty is engaged in research and professional writing; they are involved at the highest levels of their respective professions; they are sought after as consultants in many spheres, but their primary mission is teaching. Enrollment of 1500 undergraduates enables WMC to care about students in a personal way, to provide individual guidance, and to be responsive to the needs of students. Graduates leave Western Maryland enriched not just because of their classwork, but because of their meaningful interactions with one another.

A flexible liberal arts curriculum stresses the ability to think critically and creatively, to act humanely and responsibly, and to be expressive. WMC is fully accredited by the Middle States Association of Colleges and Secondary Schools and is listed as one of the selective national Liberal Arts Colleges by the Carnegie Foundation for the Advancement of Teaching. WMC is internationally recognized for its graduate program in training teachers for the deaf.

Location

Thirty miles northwest of Baltimore's Inner Harbor and 56 miles north of Washington, D.C., Western Maryland College overlooks historic Westminster, Md., Carroll County's largest town and county seat. Within walking distance students enjoy gift boutiques, book and music stores, art galleries, and restaurants which line one of America's longest main streets. Both nearby metropolitan cities offer students opportunities for learning and leisure—art and history museums, internships on Capitol Hill, Baltimore Orioles and Ravens games, and bayside seafood and nightlife.

Academic Facilities

Among the forty buildings on the 160-acre campus are the recently renovated Hoover Library, with access to materials from rare books to CD-ROMs to E-mail and Internet accounts, and including an audiovisual media and microcomputing center; Hill Hall, featuring the Writing Center and multimedia presentation classrooms; Peterson Hall, which offers a modern photography lab, a graphic arts computer classroom, and art gallery for the College's permanent collection as well as visiting exhibitions; and Alumni Hall, home to the performing arts and summer repertory Theatre-on-the-Hill program. Construction of a new \$13 million biology and chemistry lab building is scheduled to open in Spring, 1999.

Faculty

Faculty members—90 full-time professors, 95 percent of whom hold the most advanced degrees in their fields—devote themselves to classroom, lab, and studio teaching. Many conduct research; most involve students in their work. Professors teach a maximum of three courses each semester, allowing them ample time to spend with students outside of the classroom helping them plan academic programs, arrange internships, and prepare for careers. An average class size of 20 students encourages discussion and learning is collaborative rather than competitive. WMC's president, provost, dean of students, and financial vice president all teach undergraduate courses. Faculty members also serve as advisers to many student organizations.

Academic Program

WMC's flexible curriculum enables students to acquire a broad base of knowledge in the areas of humanities, natural sciences and mathematics, and social sciences and also to pursue learning in depth in one or more of the 60 fields of study. The program links wide-ranging educational experiences with strong career preparation through an extensive internship program. A total of 128 credit hours is required for graduation.

First-year student seminars provide students with a unique opportunity to become better prepared for many facets of college life. Limited to 15 students, these courses on a variety of topics emphasize important skills—writing, oral presentation, study skills, critical thinking, and time management.

Faculty advisers offer guidance across the curriculum and work closely with their advisees as they

make decisions about course and major selections and planning strategies. Students may also request help from the Center for Career Services, which offers vocational testing, counseling, and guidance.

During the College's January Term—a three-week-long term between the fall and spring semesters, students and faculty are encouraged to explore new areas and expand their intellectual horizons. Students choose from specially designed (unconventional) courses offered often at special locations. Some students take advantage of January Term for independent off-campus study or join one of the popular international study tours.

Majors and Degrees

The educational programs serve students who enter with firm choices of majors or career ambitions and students who are undecided. All students take at least 90 percent of course work in the liberal arts: humanities, natural sciences and mathematics, and social sciences. The bachelor of arts degree is offered in 23 major areas of study: art, art history, biology, business administration, chemistry, communication, economics, English, exercise science and physical education, French, German, history, mathematics, music, philosophy, physics, political science, psychology, religious studies, social work, sociology, Spanish, and theatre arts. Students may choose a dual major or design their own major if their academic interests and goals take them beyond an existing program. In addition, most departments offer minor programs or particular courses to help students focus on or achieve specific goals.

The College also offers certification programs in social work and in elementary and secondary education (Maryland certification includes reciprocity with more than 35 other states), 3-2 programs in engineering and forestry, and preprofessional programs in dentistry, law, medicine, the ministry, and museum studies. The College also offers an Army ROTC program.

Off-Campus Arrangements

WMC offers opportunities for off-campus study through American University's Washington Semester and Drew University's Semester on the United Nations and Semester on the European Community. Many overseas study programs are available.

Honor Societies

In addition to Phi Beta Kappa, the national honor society which recognizes liberal arts scholarship of

a high order, there are 19 other honorary societies on campus. Two oriented toward general accomplishment are Omicron Delta Kappa, a national society recognizing leadership qualities; and the Trumpeters, a local society honoring senior students dedicated to service. (See Honor Societies page 43.)

Social Life

At WMC, the key is involvement. Ninety percent of students live on campus; 40 percent compete on one of 21 athletic teams, and 100 percent enjoy activities sponsored by 80 diverse student groups including an active Greek system.

Costs

WMC keeps its fees within the reach of students coming from families with moderate incomes while offering a liberal arts education of outstanding value. Tuition charges are comprehensive and includes Student Health Service fees and Student Activities fees. Tuition for 1997-98 is \$16,850, room and board are \$5,350, and personal expenses (including books and transportation) are estimated at \$600 per year.

Financial Aid/Scholarship

WMC supports a program of financial aid to eligible students on the basis of both need and merit. Nearly 80 percent of WMC students receive financial assistance. Students who have been accepted by the College and can demonstrate financial need as required by the federal government may be eligible for assistance in the form of scholarships, grants, loans, and opportunities for student employment. Typically an award is a "package" of these four resources tailored to the student's needs.

Academic scholarships covering partial to full tuition are available for qualified students, based on their academic record, SAT-I or ACT scores, and extracurricular involvement. First-year students should apply by February 1; transfer scholarships are competitive and preference is given to students who apply before March 15. The College also offers partial and full ROTC scholarships.

Athletics

Athletic teams compete in Division III of the NCAA and the Centennial Conference, a group of 11 national liberal arts colleges and universities. Eleven sports for men: baseball, basketball, cross-country, football, golf, lacrosse, soccer, swimming, tennis, track, and wrestling. Ten sports for women: basketball, cross-country, field hockey, lacrosse, soccer, softball, swimming, tennis, track, and volleyball.

STUDENT LIFE

An important element of the education at Western Maryland is the opportunity to exchange ideas and share interests outside the classroom.

When students live together in a residential setting, these opportunities are greatly enhanced, not only by daily contacts in living quarters and the dining hall, but also by ready access to campus activities.

After becoming accustomed to the rigorous demands of their academic schedules, most students decide to become involved in other aspects of campus life. With entertainment, cultural events, and a constant calendar of student activities available on campus, students can soon choose to fill their time to whatever extent they wish.

The diverse interests and needs of Western Maryland students are reflected in the wide-ranging and continuously evolving selection of activities. There are more than 70 organizations, and campus events are largely planned and organized by students. The College Activities Office is responsible for coordinating and scheduling events, reserving facilities, and advising student groups. Many organizations and publications have office space in Decker College Center.

College Regulations

Every community has traditions and rules that its members are expected to follow. At Western Maryland, we treat students as adults, and as such we expect individuals to respect the rights, property, safety, privileges, and obligations of others. Since the College believes that liberally educated men and women think and act humanely and in a responsible manner, our regulations give students considerable freedom.

In addition to areas of academic honesty addressed by the Honor Code, College regulations cover the use of alcohol and drugs; behavior which impedes the educational process of individuals or the institution; legal access to students' records, such as grades and billing; and other matters, including those affected by state and federal laws. These regulations are detailed in the *Student Guide and Datebook*, a copy of which is given to each student at the beginning of every academic year.

Student Government

All students are automatically members of the Student Government Assembly (SGA), which is the student body's central governing and coordinating organization. It consists of two main parts: the Executive Council, elected by the student body at large; and the Senate, composed of representatives from the classes. The SGA is active in campus life, bringing influence to bear on a variety of matters, and serving generally as a voice through which students participate in the affairs of the College.

Students hold full voting membership on most policy-making College committees, serving with faculty members, administrative staff, and trustees in dealing with institutional concerns such as curriculum, academic policy, athletics, calendar, schedule, admissions, and financial aid. There are three student visitors to the Board of Trustees, two student representatives on most Trustee committees, and six students serve on the Trustee Committee on Student Affairs.

Also, each class at Western Maryland is organized as a unit, and officers are elected to supervise the administration of class activities. In addition to responsibilities as a class officer while a student, the senior class president assumes guidance of certain activities after graduation, such as organizing class reunions.

CAPBoard

CAPBoard, the College Activities Programming Board, sponsors various entertainment opportunities for WMC students. CAPBoard is a very active, student-governed organization, comprised of more than 70 members, subdivided into five committees. CAPBoard fulfills a vast array of students' entertainment interest. The areas are: Films, Mainstage (major performers, bands, and dances), Second Stage (comedians, duo and solo singers/musical performers), and Performing Arts (plays, theatre trips, music festivals). The fifth committee, the Promotions committee, uses great enthusiasm and creativity to keep students aware of CAPBoard's events. From adventure movies and concert trips to classic rock singers, CAPBoard and its jam-packed calendar of events are fully committed to providing quality entertainment for the WMC campus.

Publications and Media

Students interested in writing and publishing may work with three publications edited and published by students: *Phoenix*, the official student biweekly newspaper; *Crossroads*, the College yearbook, a pictorial collage of campus life; and *Contrast*, a literary magazine published yearly. A new organization in 1997, *Cabal* publishes cartoons in a magazine format.

In addition students operate WMCR, the College radio station, and UPLINK, a cable broadcast channel.

Cultural and Special Interest Organizations

There is a substantial number of organizations which offer students the opportunity to become knowledgeable and involved in a field of particular interest.

Examples of these are: Black Student Union, Bacchus, Commuter Student Organization, Equestrian Club, Forensics Team, Gay, Lesbian and Bi-sexual Alliance, Pom-Pon Squad, Ranger Platoon, and Student Safety Watch.

The Arts

While cocurricular activities offer students majoring in the various arts fields numerous opportunities to extend their specific interests, all students, regardless of academic major, are encouraged to take part in Western Maryland's many musical, dramatic, and artistic activities. Musical organizations include the College Choir, Gospel Choir, College Concert Band, College Jazz Ensemble, and Madrigal Singers. Those interested in dramatic arts may participate in both the technical production and performing aspects of several major plays and musicals planned by the Theatre Arts Department and in less formal presentations of dramatic scenes. The Art Club, which is involved in a number of creative ventures in addition to staging exhibits, is open to all.

Community and Service Groups

Several organizations are designed to expand the experiences of the WMC student and to encourage participation in community projects. The Black Student Union, and the International Relations Club work to enhance social interaction and understanding between people from diverse backgrounds. Several organizations work with elemen-

tary school children in Westminster, individuals with developmental disabilities, and individuals with other disabilities. There is an active Circle K organization.

Religious Life

Six active student religious organizations on campus represent Catholic, Jewish, Protestant, Baha'i, and other faiths. There are two chapels, Baker Memorial Chapel, which is a prominent landmark, and Baker Chapel, a lovely 100-year-old stone chapel which dates back to the early days of the College. The Ecumenical Chapel Committee organizes various worship services. Students are also welcomed at the many houses of worship in Westminster. There is a meditation room in the lower level of Baker Memorial Chapel.

Reserve Officers' Training Corps

The Reserve Officers' Training Corps offers an academic military science program through which selected WMC students can qualify at graduation for commissions as officers in the United States Army. Through a cooperative program with the University of Maryland at College Park, Air Force ROTC is also available to WMC students. Additional information may be found under Military Science and Financial Aid.

Social Fraternities and Sororities

There are eight national and local fraternities and sororities on campus. The fraternities are Alpha Gamma Tau, Gamma Beta Chi, Phi Delta Theta (national), and Sigma Phi Epsilon (national). The sororities are Alpha Nu Omega, Phi Alpha Mu, Phi Mu (national), and Phi Sigma Sigma (national).

Approximately 25 percent of the students join the Greek letter social organizations. Students with at least a 2.0 average are eligible beginning in their sophomore year. Members of organizations may apply to live together in a section of a residence hall designated by the College.

The Inter-Greek Council works in cooperation with the Student Affairs Office to make rules for such activities as rushing, bidding, parties and special events. Western Maryland College prohibits hazing either on College property or off campus by any College organization.

Athletics

Western Maryland College considers participation in sports and fitness activities an integral part of the total educational program. Toward this end, the College supplies facilities and opportunities for participation in a full range of team and individual athletic and fitness programs. The Gill Center provides opportunities for a wide variety of programs in both Physical Education courses of study and recreational opportunities. With the opening of the Blumberg Fitness Center in 1993, modern facilities are available for aerobic, weight, and fitness training.

The following facilities are available to students for participation in formal or informal group activities or as part of individual conditioning programs or recreation:

- Swimming pool
- 9-hole Golf course
- 6 outdoor Tennis courts (2 indoor)
- Volleyball courts
- Basketball courts
- Track
- Gymnasium
- Cross-country trail
- Baseball field
- Badminton
- Stadium
- Squash court
- Raquetball
- 2 Saunas
- Fitness center
- Fencing room
- Dance studio
- Table tennis
- Rappelling facility
- Whirlpool

Intercollegiate Sports

The College is committed to offering a balanced and varied program of intercollegiate athletics for both men and women. Schedules in varsity and junior-varsity sports are maintained not only for the talented athletes but also to serve the needs and desires of as many students as possible. The College does not designate sports as major and minor because it believes all are of equal importance to the students participating in them.

Teams for men include baseball, basketball, cross-country, football, golf, lacrosse, soccer, swimming, tennis, track, and wrestling. Teams for women include basketball, cross-country, field hockey, lacrosse, soccer, softball, swimming, tennis, track, and volleyball.

Western Maryland is a member of the National Collegiate Athletic Association and competes at the Division III level. WMC competes in the all-sports Centennial Conference, a group of 11 national liberal arts colleges and universities which include Dickinson College, Franklin and Marshall College, Gettysburg College, Johns Hopkins University, Muhlenberg College, Swarthmore College, Ursinus College, Haverford College, Washington College, and Bryn Mawr College. The school colors are green and gold.

Intramural Sports

Intramural programs for both men and women are extensive and provide for a wide variety of competitive events. Coeducational tournaments and competitions are also held.

Beyond the Campus

In addition to the many restaurants, shops, film theaters, churches, and other attractions in Westminster, there are many recreational destinations within easy reach by car. In 35 minutes, students can reach the Catoclin Mountains for picnicking, hiking, swimming, and canoeing, and there are several skiing facilities in nearby Pennsylvania. Gettysburg National Military Park and other historic sites are also nearby.

Baltimore's theaters, concert halls, museums, libraries, and major league sporting events are about 40 minutes away . . . as is the Inner Harbor shopping and recreational showplace, which includes the National Aquarium, Maryland Science Center, and the Pier 6 Concert Pavilion. Washington's world-renowned galleries and museums, libraries, national monuments, governmental centers, and other extensive cultural and recreational resources can be reached in about an hour and 15 minutes. Visiting other campuses is easy, too, as there are over a score of colleges and universities within 70 miles.

STUDENT SERVICES

21

The management of residential halls, extracurricular activities, and various student services is coordinated by the Office of Student Affairs, which is located on the upper level of Decker College Center. The Dean of Student Affairs and staff members are readily available to talk with individual students and groups; the goal of Student Affairs staff is to help students make the best use of the College's and students' own resources and opportunities.

Residences

A student's residence experience is often an important facet of attending college, and the residence hall is far more than a place to sleep. Learning to live in close proximity with others, making new friendships, and becoming aware of the rights and responsibilities of all concerned are important steps toward acquiring a liberal education. Students who request campus housing and make a nonrefundable deposit are assigned rooms.

Housing

The College offers a variety of living arrangements. There are three traditional residence halls, in which men and women are separated by floors. These are Albert Norman Ward Hall, Blanche Ward Hall, and McDaniel Hall; they contain single, double, and triple rooms, and, in some instances, suites. Daniel MacLea Hall is designed for suite-style living. Students may apply to live on study floors where extended quiet study hours are enforced. Other areas are reserved for members of a particular fraternity or sorority to live together as a group. Freshmen, sophomores, and juniors are required to live on campus unless they live with their parents, or are over age 25. Exceptions are made by the Residence Life Office. Freshmen live on campus in two single-sex residence halls. Upperclass students may live in the Garden Apartments, each of which is shared by four students and has its own kitchen, or in the Pennsylvania Avenue College-owned houses that border the campus. All rooms are wired for campus-based cable TV and have a telephone.

Resident Staff

The Residence Life program is directed by four professional staff members and 20 Resident Assistants (RAs). An RA is a qualified and trained

undergraduate whose job it is to live with students and be available to oversee the quality of life in his or her area. Resident Assistants are responsible for advising individuals, assisting in health or safety emergencies, communicating campus policies to students, and reporting student concerns to administrative staff.

They also provide educational and social programs in the residence halls. The Director of Residence Life, an Assistant Director, three full-time professional Area Supervisors, two graduate Head Residents, and the RAs are responsible for the daily operation of all residence facilities. The Residence Life staff, along with the entire faculty and staff, assist in facilitating an environment of challenge and support. You will be challenged by your out-of-the-classroom experiences as well as by your academic experiences.

Roommates

Roommate preference forms requesting information about smoking or non-smoking, study habits, musical tastes, and other considerations are circulated to new students prior to arrival on campus. The Residence Life staff then uses the results in matching potentially compatible persons as roommates. Students may room with friends of their own choosing, but only mutual roommate requests will be honored.

Commuting Students

While 85 percent of the undergraduate students live in the residence halls, commuting students are a welcome and growing part of the Western Maryland student body. Many live with their parents or guardians within reasonable driving distance. However, a growing number of students are either resuming their college education after a pause of a number of years, or beginning their studies at a later stage in their lives than do more typical freshmen coming directly from secondary school. Some students are seeking a second undergraduate degree. The College urges all of these commuting students to visit the Office of Student Affairs to meet the commuter coordinator and to learn about the services on campus tailored to their special needs. Commuters are particularly encouraged to participate in the many extracurricular activities on campus. (See also Nontraditional Students in the Admissions section and Continuing Education, page 21-23.)

New Student Orientation

During the week prior to the start of the fall semester, an orientation program is scheduled for all new students. In addition to being assigned faculty advisers at this time, students are introduced to the layout of the campus, registration procedures, programs of study, student government, student activities, student services, residence hall facilities, and, in general, a host of people ready to assist new students in settling into campus life successfully. Placement tests are given during this period. There is also entertainment and a picnic at Harvey Stone Park. On the day new students arrive on campus, they and their parents or spouses and other family members are invited to attend the Introduction Convocation and a reception in Memorial Plaza.

Dining Service

All residential students other than those living in the Garden Apartments and Pennsylvania Avenue houses are required to subscribe to the meal plan in Englar Dining Hall. Meals are served seven days a week and include continental breakfasts for students who prefer to eat later than the scheduled breakfast hour. Dining services are managed by the Sodexo Corporation, and menus include many alternate selections for the diet conscious. Commuting students, parents, and visitors are welcomed to purchase meals.

The snack bar on the middle level of Decker College Center is open seven days a week, with extended evening hours on weekends.

Health Services

Student Health Services located in Smith House provides free confidential medical and health-related services for acute problems and health maintenance. This includes office visits, a limited number of medications for the treatment of common ailments, and certain lab tests. Also, students with chronic conditions may arrange for routine care, such as administering prescribed allergy medication. Each student must complete a Medical Record Form before entering. Health Services are coordinated by a registered nurse; the College physician visits the Center daily during the week. There are no overnight accommodations.

More comprehensive and specialized care is available at Carroll County General Hospital in Westminster. Students who choose to go to a hospital are responsible for payment for all services at the hospital, including emergency room treatment. The College does not assume financial responsibility for any hospital services, nor for such services as visits to doctors' offices, consultation with specialists, laboratory tests, prescription drugs, x-rays, or immunization shots.

Many parents and guardians carry health insurance that covers their students while at the College; most nontraditional commuting students also have access to health insurance. If not, Western Maryland has made available a comprehensive health insurance program; information about this program is circulated to all students. The College requires that the health of every student be insured.

Counseling Services

Counseling Services are free, voluntary, and confidential. It offers a variety of services to help students adjust to college life, cope with the environment, and plan for the future. Services include short-term personal and group counseling, consultations, referrals to special programs, workshops to educate and improve skills (coping with college life, etc.). The center also offers pamphlets and books on topics of interest to you as a college student (stress management, relationships, etc.).

Career Services

The Career Services Office assists students with career planning and job placement needs throughout their undergraduate experience. Students can meet with a counselor to discuss academic major selection, career choices, employment opportunities, and job search strategies. Resources available to students include: VISIONS, a computerized career decision-making system; a complete career library; an alumni connections network; information on part-time and summer job opportunities; internship listings; and career-related workshops and seminars. As students

approach graduation, they may take advantage of on-campus recruiting, career fairs, credential file service, monthly job bulletins, mock interviewing, and résumé reviews.

Conveniences

Western Maryland maintains several services for the convenience of students and faculty in Decker College Center. An Automatic Teller Machine (ATM) provides services for those holding accounts with Carroll County Bank or other banks

in the MOST system. The College Store sells textbooks and other books, general college supplies, imprinted sports clothing, health aids, CDs/tapes, greeting cards, gifts, and many other items. The Post Office supplies each student with an individual mailbox; stamps may be purchased, and packages mailed and received. The Campus Safety Office is also located on the lower level.

ADMISSIONS

Western Maryland College welcomes applications from men and women who desire the lifelong personal and professional benefits of a liberal arts education and who eagerly enter the partnerships necessary to achieve it. Every year the College enrolls approximately 400 first-year students. Among their number are international students and students beyond traditional college age. In addition to entering first-year students, the College welcomes applications from students wishing to transfer from community colleges and other four-year colleges and universities.

Campus Information

Western Maryland College invites prospective students to visit its campus. Touring the campus; speaking with students, faculty, and administrators; and perhaps eating in the College's dining hall (as guests) can add valuable perspective on the College. Western Maryland College regularly holds Open Houses that include formal and informal presentations of information on academic programs, student life, financial assistance, and other pertinent topics.

A wide variety of information about Western Maryland College can be found in the College's various publications.

Prospective students may request College publications and material as well as schedule campus visits and receive information about Open Houses and other special admissions programs by writing to:

The Office of Admissions

Western Maryland College

Westminster, Maryland 21157-4390

phoning toll free 1-800/638-5005,

or by faxing 410/857-2757 or through

Admissions E-mail: admissio@wmdc.edu. Personal interviews and campus tours are available Monday through Friday from 9:00 a.m. to 4:00 p.m. and Saturday by appointment.

Secondary School Background

Prospective applicants should pursue a broad secondary school program. Sixteen high school units are usually considered the minimum preparation for college. Western Maryland College recommends that high school programs include four years of English, three years of social studies, three years of a foreign language, three years of work in laboratory sciences, and three years of mathematics. Whenever possible, students should carry more than the minimum academic load and participate in enriched or accelerated high school courses.

Admission Evaluation

Western Maryland College evaluates the potential academic success of each candidate by considering the following:

- Secondary school courses and grades, with special consideration given to accelerated courses;
- Aptitude and achievement tests;
- Personal traits, goals, and motivation;
- Recommendations and evaluations by principals, counselors, and teachers; and,
- Participation in nonacademic activities.

All candidates for admission must take either the College Board Scholastic Assessment Tests (SAT-I) or the American College Testing (ACT) Assessment Test. Students should take one of these tests at the end of their junior year so results will be available for completing college applications early in the fall of their senior year. Those who wait until their senior year should take the test early in the fall. High school counselors can advise students about the dates, times, and locations for these tests. The WMC Code is 5898.

The Application Process

A complete application for admission to Western Maryland College consists of the application form, official secondary school and college (if any) transcripts, official scores from the SAT or ACT tests, recommendations, and a \$30 nonrefundable application fee. Deadlines for receiving completed applications are December 1 for Early Action, February 1 for Academic Scholarship consideration, and March 15 for regular admission. Early Action applicants will be notified by December 30; all other applicants for the entering class will be notified beginning on March 1. Applications from transfer students will be accepted until July 1. Complete applications along with a \$30 nonrefundable application fee, should be sent to:

The Office of Admissions
Western Maryland College
2 College Hill
Westminster, Maryland 21157-4390

Applications will also be accepted over the Internet, (www.wmdc.edu).

Western Maryland College accepts the Common Application in lieu of its own form and gives equal consideration to both. Students may obtain copies of the Common Application from their high schools.

The College's Admissions Committee may request additional high school grades, test scores, admission interview, and recommendations.

Transfer Application

Each year, about 20 percent of Western Maryland College's new students have transferred from two- and four-year colleges and universities. Western Maryland grants transfer credit for courses that are standard liberal arts courses or that compare to the offerings of WMC if the institution is accredited; no grades of D will be approved for transfer.

To transfer to Western Maryland College, students should:

- submit a completed application along with the \$30 application fee,
- have official transcripts sent from all secondary and postsecondary institutions attended,
- have official SAT or ACT scores sent unless 30 credits have been earned at an accredited institution,
- have the Dean of Students of the previous college complete and send a statement of good standing.

Nontraditional Students

Western Maryland College encourages applications from adults who have not begun or who have interrupted their college educations. They may enter Western Maryland as either full- or part-time students and are eligible for financial assistance. Annually the College enrolls a significant number of these nontraditional students and makes efforts to be sensitive and responsive to their unique academic situations and needs. The Office of Academic Affairs and the Nontraditional Students Organization both provide advice and support for adult students who return to college; and in addition to their regular academic advisers, two members of the faculty serve as special advisers to nontraditional students.

International Students

Western Maryland College has enrolled international students since 1890. The College continues an active commitment to the broadest educational and social experience particularly in bringing together students from diverse cultures. Western Maryland College invites and welcomes international students to enrich our campus; the College strives to provide them with an outstanding American education. In this respect, the College is committed to the principles of international education as defined by the National Association of Foreign Student Affairs: Association of International Educators.

In practical terms, the College:

- seeks students with appropriate preparation from all over the world;
- awards academic scholarships to accepted international students who have demonstrated need and have outstanding academic ability;
- provides international students not only with all services available to American students (academic advising, career and personal counseling, orientation, etc.), but also makes available services to meet their special needs, including special sections of English composition and reading for non-native speakers, an International Student Adviser who serves as liaison with the U.S. Immigration and Naturalization Service, and separate international student orientation;
- responds to the special dietary and housing needs of international students;
- has access to the many religious and cultural centers of Baltimore and Washington, D.C.; and
- considers international students in its institutional planning.

In addition to the usual application materials listed above, international students must submit official copies of their scores on the Test of English as a Foreign Language (TOEFL minimum score of 550 accepted), and results from any and all secondary school, university, and national examinations; copies of diplomas and certificates (translated in English) are also required. International students must also submit a Certificate of Finances form. A limited number of scholarships is available to qualified international students.

The European Program

In October 1993, Western Maryland College in Westminster, Maryland, U.S.A., established a branch in Budapest, Hungary. This special program will educate young men and women from Europe and other parts of the world who are interested in preparing for careers in the new global marketplace. Located at the "crossroads" of central Europe, WMC-Europe, in cooperation with College International Budapest and International Studies, Inc., offers a four-year undergraduate program in business administration and economics, communication, and political science leading to the award of a bachelor of arts degree. This prime geographic location, as well as recent political and economic changes in the region, led to the decision to launch this program. It will fulfill newly born European needs by combining American "high-tech" business principles with student-centered liberal arts study tempered by both European and American intellectual traditions.

Students accepted into the WMC-Europe program spend two years in Budapest and two years at Western Maryland's home campus in the United States. The initial two years in Budapest feature Western Maryland courses taught in English by highly experienced faculty who have lectured both in the United States and Europe. Successful completion of the entire four-year program will result in the awarding of a B.A. degree from Western Maryland College.

The Honors Program

Western Maryland College's Honors Program features specially designed courses each semester from freshman through junior year and a senior seminar. Honors students may live in special housing, participate in special out-of-class activities, and attend informal discussions with guest speakers. Enrollment in the Honors Program is limited and is by invitation only. Questions regarding the Western Maryland College Honors Program should be addressed to the Admissions Office or to the Director of the Honors Program.

Advanced Standing and Placement

Western Maryland College makes decisions on advanced placement in specific academic areas, excluding the Basic Liberal Arts Requirements, based primarily on the student's high school program and potential major. Although College Board achievement tests are not required for admission, they often assist in determining placement.

Advanced Placement Test

The Advanced Placement Test (APT) scores are normally accepted by Western Maryland College on the following basis:

Test Score

- 5 or 4: Student may receive advanced placement plus eight hours credit (except Calculus AB and Computer Science AB receive 4 hours credit).
- 3: Student may receive advanced placement plus four hours credit (except Calculus AB receives credit as determined by the Mathematics and Computer Science Department).
- 2: The department concerned determines placement, but generally no advanced placement is given. No credit is given.
- 1: No advanced placement or credit given.

College Placement and Credit by Examination

In addition to granting college credit based on Advanced Placement Test results, Western Maryland College grants to enrolling students college credit for Liberal Arts subject areas based on the results of the College Level Examination Program (CLEP). Placement and credit will be granted to those whose CLEP scores are equal to or above the American Council of Education's recommended minimum scores. These scores are listed in the College Board's publication *College Placement and Credit by Examination*.

Credit in Escrow

Credit for college courses taken while a student is still enrolled in high school is determined by the same standards used for granting transfer credit.

International Baccalaureate (IB) Diploma

Western Maryland College recognizes IB-level work and grants a maximum of one year of credits (32 hours) for examinations in higher level courses only. Credits are awarded as follows:

Test Score:

- 5 or higher: Student will receive eight hours credit.
- 4: Student will receive credit at the discretion of the appropriate department.
- 3 or lower: Student will not receive credit.

IB credits may be counted toward Basic Liberal Arts requirements, major or minor requirements, or electives in the same manner as Advanced Placement credits. Students should confer directly with departments to determine exact placement in departmental courses.

Special Students

Secondary school students, students from other colleges, and nontraditional students are welcome to enroll for specific classes without completing the regular admission application or enrolling as degree candidates. Special students may take a maximum of eight credits before seeking admission to the College. The progress of special students is monitored by the Office of Academic Affairs. Registration forms for special students are available from the Office of the Registrar.

Students with Special Needs

Western Maryland College makes programs and activities on its campus available to every enrolled student and is committed to offering a campus environment free of discrimination and bias in matters affecting individuals with disabilities. The College admits qualified students and believes that no one should be barred from an education because of a disability. Program accessibility is assured by means of reasonable learning activities offered by the College; the Academic Skills Center/504 Office provides services to students with disabilities enrolled at Western Maryland College. As stated in Section 504 of the Rehabilitation Act of 1973, it is the student's responsibility to make his or her disabling condition known and to request academic adjustments in a timely manner. Educational testing is required and should be no older than two years. In some cases, the ASC Coordinator will call the high school or the professional who performed the testing in order to gain a broader understanding of the student's abilities.

FINANCIAL AID

24

Western Maryland College supports a program of financial aid to eligible students on the basis of both need and merit. The College is able to do this through its endowment, gifts, and grants, and through cooperation with certain government programs and other resources for student aid. Over 75 percent of the current student body receives some form of financial assistance. A family's total financial resources and obligations are considered in awarding aid; it is expected that students and their families assume as much responsibility for educational expenses as they are able. The family income of students presently receiving financial aid ranges from low income to high middle income. Students are admitted to the College based on academic and other nonfinancial criteria prior to consideration of their applications for financial aid.

Students who have been accepted by the College and can demonstrate financial need as required by the federal government may be eligible for assistance in the form of grants, loans, and opportunities for student employment. Frequently an award is a "package" of these resources, plus any awarded academic scholarships, tailored to the student's needs. Aid is also available from many other sources, both public and private. Many awards carry provisions for annual renewal for students who do well academically and whose financial circumstances remain unchanged. To find out if you are eligible for financial aid, you must apply.

Note: All non-need-based scholarships provided by the College are limited to one per student.

The Application Process

Students must submit a completed Free Application for Federal Student Aid (FAFSA) to the U.S. Department of Education's Federal Student Aid Program. WMC's code is 002109. FAFSAs are available at secondary school guidance offices and from the Western Maryland College Financial Aid Office. In addition, students must submit a Western Maryland College Institutional Aid Application directly to the College. These applications are mailed to all applicants for admission or may be obtained by calling the Financial Aid Office.

Students are strongly urged to submit the FAFSA by March 1 (it cannot be submitted before January 1). The Western Maryland College Institutional Aid Application should be submitted by March 15. Awards are generally announced after March 15. Students are required to submit copies of their and their parent(s) federal tax returns for the previous year, and the College reserves the right to adjust an award based on this information. Students are urged to submit these copies as soon as they are available. The Financial Aid Office is the only College office empowered to make offers of financial aid.

Since the total amount of College financial aid available in a given year is limited, it is to a student's advantage to apply for financial aid as soon after January 1 as possible. Applicants must be accepted by the College for admission before financial aid is awarded.

Each student is urged to contact his or her high school counselor regarding state and local sources of aid to supplement potential aid from the College.

Financial Aid Counseling

Parents and students who desire assistance and information on financial aid are encouraged to visit the Financial Aid Office in Elderdice Hall. The Financial Aid staff reviews a student's eligibility for aid of various types, describes applicable alternatives, and explains the process involved.

A financial aid brochure containing detailed information about how to apply for aid is available upon request from the Offices of Admissions or Financial Aid.

NOTE: Students must apply for financial aid by the appropriate deadline prior to each academic year in order to have their financial aid renewed. Renewal students receive their financial aid awards in June. Western Maryland students who were initially not eligible for financial aid or who have never applied for financial aid may do so by submitting the required forms. Students whose financial circumstances change should be aware that financial aid can change accordingly.

Academic Scholarships

Western Maryland College awards more than \$900,000 each year in scholarships to academically talented students. The renewable awards include scholarships which range in value amounts from \$2,000 to full tuition.

First-Year Students

In order to be eligible for the scholarship awards, the student must check off the Academic Scholarship box on the admission application, be a high school senior with an outstanding academic record, and have SAT scores well above the national average. Information concerning Academic Scholarships is available through the Office of Admissions.

Transfers

In order to be eligible for academic scholarships, a transfer student must have completed at least one year of college work with a grade point average of 3.2 or higher. Transfer Scholarships are awarded on a competitive basis and preference is given to those students who apply before March 15th.

In order to renew the Academic Scholarships, a student must maintain a stipulated grade point average in their Western Maryland College course work.

College Grants

A substantial number of grants valued from \$100 to \$12,000 are awarded to students each year based upon their financial need. Endowed and special scholarships that are a portion of these need-based awards are listed beginning on page 132.

Family Tuition Reduction Grant

Western Maryland offers families with more than one immediate family member at WMC a special tuition reduction grant. The grant is \$2,000 and is listed on the second family member's financial aid award and bill. The grant will continue each year as long as there are two family members enrolled full time in our undergraduate program. If more than two members attend WMC simultaneously, the tuition reduction will apply for each additional person.

Carroll County Grant

Western Maryland College offers residents of Carroll County, Maryland, who are enrolled full time a \$1,500 renewable tuition grant. In order to receive this grant, the student must be a resident of Carroll County at the time of application for admission to the College. The residence of a dependent is determined by the residence of their custodial parent/guardian. A student does not have to demonstrate financial need in order to qualify. The grant is renewable annually by signing and returning the financial aid award letter.

Eagle Scout/Gold Award Scholarship

Eagle Scout and Gold Award recipients are eligible for a \$2,000 renewable tuition scholarship. In order to receive this scholarship, students should be full time and have at least a 2.50 GPA and a minimum SAT-I combined score of 1000. They are required to send a letter of recommendation from their troop leader and a copy of their certificate. The deadline for application is February 1.

Junior Achievement Scholarship

Western Maryland College offers a \$2,000 Junior Achievement tuition scholarship to high school students participating in Applied Economics with at least a 2.50 GPA in school and 1060+ on the SAT-I. The scholarship is renewable for all four years, and students must write a letter to the Admissions Office stating they are interested in applying for the scholarship. The deadline for application is February 1.

AFS—American Field Service Scholarship

Western Maryland College offers a maximum \$2,000 tuition scholarship to two AFS returnees who have a minimum 2.5 GPA and at least a 1000 on the SAT-I. The deadline for application is February 1.

Federal Grants

Federal Pell Grants are based solely on need. The amount of the grant is established by the U.S. Department of Education, based on a formula using family income and assets. The amount of the award may vary from year to year depending on changes in family income or federal regulations.

To receive a Federal Pell Grant, a student **must** be enrolled as at least a half-time undergraduate student and **must** be a citizen or permanent resident of the United States. Every student interested in financial aid must apply for a Federal Pell Grant. Application is made by completing the FAFSA.

Maryland State Grants

Any Maryland resident who intends to apply to the College for financial aid must apply for the Maryland State Scholarships and Grants. The FAFSA must be filed by March 1. Applications may be obtained from high school guidance offices or the Western Maryland College Financial Aid Office. Maryland students should also contact their state delegate and senator for scholarship consideration.

Other State Grants

Other states which have grant reciprocity with Maryland include: Connecticut, Delaware, Maine, Rhode Island, and Washington, D.C. Some of these states require a separate application while others use the FAFSA. The applicant should check for his or her state's application deadline.

Loans

The Federal Perkins Loan enables the College to assist many needy students. The typical student loan granted is in the range of \$500 to \$1,500 per year. The Federal Perkins Loan carries an interest rate of 5 percent, starting at the time of repayment of principal and interest which commences for new borrowers nine months after the student ceases to be enrolled at least half time in college. A new borrower is someone whose enrollment period began on or after July 1, 1987, and who did not have an outstanding Federal Perkins Loan. For students who did have an outstanding Federal Perkins Loan on July 1, 1987, the grace period is six months.

The Federal Robert T. Stafford Student Loan Program (formerly called Guaranteed Student Loans) also makes low-interest loans available to students. A separate application is required for the Federal Stafford Loan and can be obtained at banks or credit unions. The maximum loan amount per year is \$2,625 for a student's first-year

status, \$3,500 for a student's second-year status, and \$5,500 for a student's third- and fourth-year status. The maximum amount that an undergraduate student may borrow is \$23,000. For students who currently have a Federal Stafford Loan, the interest rate on an additional Federal Stafford Loan will continue to be the same. For new borrowers, the interest rate is variable, but cannot exceed 8.25%. For subsidized loans (based on financial need), the federal government pays the interest that accrues while the student is enrolled in college. For unsubsidized loans (generally not based on financial need), the student is responsible for paying all the interest that accrues on the loan.

Federal Work Study

Many students hold part-time jobs on campus during the academic year. Jobs are available primarily for students who have been awarded financial aid packages which include Federal Work Study. Students participating in these opportunities may earn between \$500 and \$2,000 a year. New students are mailed a list of job openings in August. In addition, job openings are listed on the Financial Aid Office bulletin board or at the individual departments.

Typical student employment includes positions such as library aides, dining hall workers, and assistants in the offices of Admissions, Public Information, and other administrative areas. Many students work in Decker College Center at the Information Desk, in the College Store, managing the game rooms and lounges, and in the College Activities Office. Jobs in the Athletics Department range from lifeguarding at Harlow Swimming Pool to managing admission at varsity events.

Satisfactory Progress Standards

All students receiving financial aid must meet Western Maryland College's academic satisfactory progress standards in order to continue receiving aid each year. The U.S. Department of Education mandates that standards of satisfactory progress be set and maintained by all students receiving federal funding.

Students not making satisfactory progress will be notified and placed on a one-semester probation. If the standards are not met following the one-semester probation, financial aid will be withheld.

Students with extraordinary circumstances may appeal in writing to the Director of Financial Aid. Students who have been denied assistance based on unsatisfactory progress must successfully meet the satisfactory progress standards before being reinstated on financial aid.

Students who have earned greater than 150 credit hours and wish to receive financial aid should provide documentation with an appeal to the Director of Financial Aid demonstrating why they have not yet received a Bachelor's degree.

Army ROTC Scholarships

The Army Reserve Officers' Training Corps program at Western Maryland College offers four-, three-, and limited two-year scholarships to qualified applicants. Army ROTC scholarships are awarded by a national board based on academic merit and leadership potential. These scholarships can cover up to full tuition, textbooks, laboratory fees, and other purely educational expenses, plus \$150 per month for up to ten months of each academic year. In addition, high school seniors receiving three- or four-year ROTC scholarships will receive a WMC grant which covers full room charges. This award is renewable annually, contingent on the student maintaining a minimum 2.50 cumulative grade point average. These scholarship recipients will be considered for a WMC scholarship as well through the College admission application process. Four-year scholarship applications must be submitted by November 1 of the year prior to college entry. Information and applications may be obtained from high school guidance offices, the Military Science department at the College, or by writing to Army ROTC Scholarships, Fort Monroe, VA 23651.

Air Force ROTC Scholarships

Air Force ROTC is available to students at Western Maryland College through an agreement with the University of Maryland at College Park, MD. Western Maryland students are eligible to compete for all Air Force ROTC scholarships. The two-, three-, and four-year scholarships cover tuition at both institutions and all required textbooks. They also provide \$150 per month subsidy,

and pay for pilot and navigator training programs. Students who are interested in Air Force ROTC should contact the Military Science department at the College or write to Air Force ROTC, Det. 330, Cole Fieldhouse, Room 2126, University of Maryland, College Park, MD 20742-1021.

Veterans Administration Benefits

Veterans or their dependents who are eligible for veterans' educational benefits should contact the Office of the Registrar for certification of enrollment. Veterans' Administration regulations require students receiving benefits to enroll in courses that lead to a degree or certificate and to maintain satisfactory progress.

Monthly allowances, paid directly by the Veterans' Administration to the veteran, are based on the students' total credit hours per semester. Student tuition and fees are paid to Western Maryland College by the student.

Installment Plans

Western Maryland makes available an installment plan for convenience in paying college expenses; the College also provides information on commercial tuition payment plans. (See College Expenses: Payment of Bills.)

This financial aid information was correct at the time this catalog was written. Changes in required forms, filing dates, amounts of money and other matters, many beyond the control of the College, are constantly taking place. Because of possible changes, financial aid applicants should contact the Office of Financial Aid for current information.

Western Maryland has always attempted to keep its fees within the reach of those students coming from families with moderate incomes while offering a liberal arts education of outstanding value. The success of this effort has been recognized by Edward B. Fiske, education editor of the *New York Times*: Western Maryland College is one of 220 colleges featured in Fiske's book *The Best Buys in College Education*, Times Books, 1987.

The regular academic year for undergraduates consists of a fall semester, the January Term, and a spring semester. Students enrolling for 12 or more credit hours in the fall and spring semesters are charged tuition as full-time students. Students enrolled for more than 20 credits are billed \$330 for each credit hour over 20. Students enrolling for less than full time will be charged at the part-time rate. Full-time undergraduates are entitled to enroll in one January Term without paying additional tuition. For information concerning our January Term, please refer to the January Term catalog.

Tuition and Payment of Bills

The College attempts to make the tuition charge comprehensive; thus, it includes Student Health Service fees and Student Activities fees. The tuition for part-time and special students is \$528 per credit hour. Students who are at least 24 years of age and are seeking an undergraduate degree are eligible for a reduced tuition rate. Students who meet these criteria qualify to enroll for the first 12 undergraduate credits at 1/2 the regular tuition rate.

Nondegree-seeking students who meet the aforementioned criteria and who additionally have no previous college credits are eligible to take one undergraduate course (4 credits) tuition free and are required to pay a nonrefundable \$30 deposit. To apply for these grants, students should contact the Admissions Office.

The College divides basic charges into two half-year billings, the first payable by August 15, 1997, and the second by January 16, 1998. An additional charge (late payment penalty) of 1-1/2% a month

on the unpaid balance or \$25, whichever is greater, will be added if payment is not received in the Bursar's Office on or before the payment due date and on the unpaid balance of each succeeding month throughout the session. The proceeds of a Federal Stafford Loan or Federal Supplemental Loan are exempt from the late payment penalty provided a completed application is received by the Financial Aid Office at least two weeks prior to the first day of the semester. Additional bills for miscellaneous fees, library fines, property damages, etc. are mailed as charges are incurred. Checks should be made payable to Western Maryland College and mailed to the Bursar's Office. No student will be permitted to enter class, receive grades or transcripts, advance from one class to another, or be graduated until all financial obligations are met. The student is responsible for attorney's fees and other costs necessary for the collection of any amount due.

Students normally preregister for the following semester during assigned periods as outlined in the Registrar's *Courses of Instruction* booklet.

Students may receive their class schedules and complete their registration prior to the first day of the semester. A \$35.00 late registration fee will be charged to students completing their registration on or after the first day of the semester.

For the convenience of parents desiring monthly payment arrangements, the WMC Tuition Contract and the WMC Direct Payment Plan are available; there are also several commercial tuition payment plans. Information describing these plans is mailed to parents annually and may be obtained from the Bursar's Office upon request.

A schedule of tuition and fees follows:

The Garden Apartments and Pennsylvania Avenue houses are equipped with kitchen facilities.

All students living in College-owned housing will be charged full-time tuition.

All students desiring College housing must make a deposit of \$200 in the spring before room assignment will be made for the following fall. This is subsequently credited toward the room charges when billed.

Board Fees

Several meal plan options are available to resident and commuter students. Students living in the residence halls must select the 20, 17, or the 15 Meal Plan; however, freshmen may only choose the 20 or 17 Meal Plan. Students failing to declare a meal plan option will be placed on the 17 Meal Plan. To change meal plan options, students may submit the application located in the *Allcard* Dining Plans brochure. Residents of the Garden Apartments and Pennsylvania Avenue houses and commuters may select any meal plan option by submitting the application in the *Allcard* Dining Plans brochure.

Students with meal plans have their ID cards activated as *Allcard* debit accounts. Commuter students also have debit card capabilities. Please refer to the *Allcard* Dining Plans brochure for more information. The card is used to gain access into the Dining Hall; purchase books, supplies, and clothing at the Book Store; purchase meals and snacks at the Grille and Pub; or pay telephone charges. The ID cards of ALL students have vending debit card capabilities for the soda and snack machines, washers, dryers, and the Hoover Library copier. Please refer to the *Allcard* Dining Plan and Vending brochures for more information. The meal plans and the semester costs for 1997-98 are as follows:

WMC Meal Plans include *Allcard* Debit Account Dollars and Dining Hall Guest Meal Passes at 50% of the Normal Door Charge.

20 Meal Plan—\$1,455.00 per semester. Breakfast, Lunch, and Dinner, Monday through Friday. Continental Breakfast, Brunch, and Dinner on weekends, plus activates \$50.00 in Debit Account and entitles 5 guests to dine in Englar Dining Hall for 1/2 price.

17 Meal Plan—\$1,405.00 per semester. Offers any 17 meals served, plus \$50.00 in Debit Account and entitles 4 guests to dine in Englar Dining Hall for 1/2 price.

15 Meal Plan—\$1,365.00 per semester. Offers any 15 meals served, plus activates \$50.00 in Debit Account and entitles 3 guests to dine in Englar Dining Hall for 1/2 price.

10 Meal Plan—\$930.00 per semester. Offers any 10 meals served, plus activates \$50.00 in Debit Account and entitles 2 guests to dine in Englar Dining Hall for 1/2 price.

5 Meal Plan—\$490.00 per semester. Offers any 5 meals served, plus activates \$50.00 in Debit Account and entitles 1 guest to dine in Englar Dining Hall for 1/2 price.

For more information on any of the meal plans, contact the Bursar's Office.

Health Insurance Fees

A Student Health Insurance fee of approximately \$295 is charged to all students each academic year. Waiver forms are included with the billing information and must be submitted by the due date to the Bursar's Office to cancel the charge. Information concerning the insurance and waiver forms may be obtained from the Student Health Center.

Refund Policy

The College must make financial commitments to its faculty, staff, and service contractors on an annual basis. It is assumed a student will not withdraw from the College during a semester. Should withdrawal become necessary because of prolonged illness or similar unusual circumstance, the following refund policy will prevail:

Tuition refund in event of withdrawal:

First week	80%
Second week	60%
Third week	40%
Fourth week	20%
After fourth week	no refund

Room

There will be no refund unless the room can be occupied by a nonresident student. If the room is filled, the refund will be prorated from date of withdrawal.

Board

A pro rata refund will be made from date of withdrawal. For students enrolled in the *Allevard* Meal Plans, there is no refund of monies deposited in the plan except upon official withdrawal from the College. A \$20 administrative fee will be charged.

The effective date of withdrawal is the date upon receipt of the Withdrawal Form in the Office of Academic Affairs. Should a credit balance be generated due to a reduction in tuition or other charges when a student withdraws, policies regarding refunds to federal aid programs will take precedence. Any remaining credit balance will be mailed to the billing address at the end of the academic semester.

It may happen that financial aid postings may exceed the cost of tuition, room, and board. If this occurs, a credit balance will appear on the billing statement. The College will maintain the credit and apply other cost-of-attendance charges such as books, supplies, transportation, miscellaneous personal expenses, or other institutional charges incurred at the student's discretion. The student may rescind this procedure at any time. The student may request a refund of the credit from the Bursar's Office at any time.

ACADEMIC PROGRAMS

Western Maryland College offers the undergraduate degree of Bachelor of Arts, which is generally earned in four years. The College also offers two graduate degrees: the Master of Liberal Arts and the Master of Science.

Requirements for the Bachelors of Arts degree allow students to acquire the skills and body of knowledge traditionally the benefit of a broad liberal arts education, and also to undertake concentrated study in one or more specialized areas in preparation for graduate or professional school or for post college employment. They include the structured flexibility of the College's Basic Liberal Arts Requirements, and academic majors, dual majors, minors, pre-professional programs, and student designed majors. Although each student is solely responsible for the selection of an academic program that meets the requirements of the College and fulfills his or her educational objectives, academic advisers as well as a career counselor, peer advisers, and other members of the College are available to facilitate this process.

The College's educational programs serve students who enter with firm choices of majors or career ambitions and students who are undecided. Students who enter college with clearly defined majors or career ambitions can immediately begin a specific course of study to achieve their goals, and these studies will be augmented by the College's Basic Liberal Arts Requirements.

It is, however, neither necessary nor always advisable for students to commit themselves to a particular major early in their college careers. Students who enter college undecided about a major or a career, as well as students who discover during the course of their studies that their initial choice of a major or career is no longer appropriate, can benefit from the exposure to various disciplines offered by the Basic Liberal Arts Requirements. In addition to their broader educational role, these requirements provide students with fresh perspectives on established areas of interest, with opportunities for new experiences in previously unconsidered subjects, and with insights that will assist them in making an informed choice when choosing an academic major.

Western Maryland College reserves the right to change any provision or requirement at any time within your period of residence. However, if a change is made, you have the option of following the requirements in the catalog in effect when you first matriculated at WMC.

Requirements for the Bachelor of Arts Degree

Students must meet the following requirements to graduate from Western Maryland College with a Bachelor of Arts degree:

1. Completion of at least 128 credit hours, the last 32 of which must be taken at Western Maryland. (The 32 hour WMC requirement does not include student teaching for the Education minor.) The 128 credit hours are distributed among major requirements, basic liberal arts subjects, at least one January Term course, and electives.
2. Completion of the Basic Liberal Arts Requirements and competence requirements as outlined below.
3. Completion of at least one of the academic majors offered by the College with an overall 2.00 GPA in the major.
4. Completion of at least one January Term.
5. A grade point average of 2.00 ("C") or above in all work taken at Western Maryland. (See Grades and Educational Records on pages 45).

All undergraduate students take 30 percent of their course work in the liberal arts: humanities, the fine arts, mathematics, and the natural and social sciences. A 4-1-4 calendar features a January Term, three weeks of intensive study during which students pursue special topics.

Transfer students and others seeking advanced placement should consult with their academic adviser, a faculty representative of their major department, and the Office of the Registrar to determine applicable requirements.

Basic Liberal Arts Subjects

Given the First Principles of the College and its orientation to the liberal arts, the following basic requirements must be completed by every student. Except where indicated, no one course may be used to satisfy more than one liberal arts requirement, and each must be at least a four-credit course.

A student may not carry courses to meet basic liberal arts requirements under the Credit-Fail option.

A. Heritage Sequence (HS)

This two-semester sequence must be chosen from the following:

- HISTORY OF WESTERN ART I and II (Art History 1113 and 1114);
- GREAT WORKS OF THE WESTERN WORLD I and II (Comparative Literature 2219 and 2220);
- HISTORY OF SCIENTIFIC THOUGHT I: Ancient to 1500 AD and HISTORY OF SCIENTIFIC THOUGHT II: 1500 AD to Present (General Science 2203 and 2204);
- WESTERN CIVILIZATION, Origins to 1700, and WESTERN CIVILIZATION, 1700 to the Present (History 1105 and 1106);
- WOMEN IN WESTERN CULTURE I and II (Interdisciplinary Studies 1107 and 1108);
- MUSIC OF THE WESTERN WORLD I and II (Music 2203 and 2204);
- HISTORY OF ANCIENT AND MEDIEVAL PHILOSOPHY and HISTORY OF MODERN PHILOSOPHY (Philosophy 1113 and 1114);
- CLASSICAL POLITICAL THOUGHT and MODERN POLITICAL THOUGHT (Political Science and International Studies 2221 and 2222);
- THEATRE OF THE WESTERN WORLD I and II (Theatre Arts/Comparative Literature 2225 and 2226).

Courses used to fulfill the Heritage Sequence can not be used to satisfy any other general college graduation requirement.

B. Distribution Requirements

Distribution requirements may be satisfied or reduced by scores on Advanced Placement (AP), or College Level Examination Program (CLEP) tests, International Baccalaureate (IB) work, or "A" level exams. These results will be determined on an individual basis by the Office of the Registrar and will be made known to the student and his/her adviser.

The designations for courses which satisfy the various Distribution and Competency requirements can be found in the Courses of Instruction section of this *Undergraduate Catalog* and in the *Courses of Instruction Booklet*, available from the Office of the Registrar prior to the enrollment period for each semester:

Global Perspective (GP)

All cross cultural studies courses fulfill this requirement as does any other course so designated by the faculty. Global Perspective courses are indicated in the catalog.

Courses designated as fulfilling the Foreign Language (FL), Humanities (HU), and Social Science (SS) requirements, and which are cross-listed as Global Perspective (GP) courses, may be used to satisfy BOTH the Global Perspective Requirement AND all or part of another distribution requirement.

Humanities (HU)

Three courses, from three different categories, among the following: Art History; History; Literature (American, British, Comparative, French, German, Latin, Spanish, and EPE 3345); Cinema Studies; Interdisciplinary Studies; Music History or Appreciation; Philosophy; Religious Studies; Theatre History or Appreciation.

Natural Science and Mathematics (NSM)

Two courses, from different categories, among the following: Biology; Chemistry; General Science; Mathematics; Physics; and EPE 2230 and 3325.

Social Sciences (SS)

One course from Economics, Political Science and International Studies, Psychology, or Sociology; and Communication 2202.

C. Competence Requirements

English Composition (EC)

With the exceptions noted below, all students must demonstrate competence in English composition both by passing English 1101/1105 and 1102 and by passing the English Competence Test administered as the final examination in English 1101. Students who do not pass the writing exam the first time will be given additional opportunities to do so prior to their graduation.

Students who have received grades of 4 or 5 on the Advanced Placement (AP) Test have satisfied the requirement and will receive 8 additional credits. Students who have received a grade of 3 on the Advanced Placement (AP) English Test are exempt from the ENG 1101/1105 portion and the departmentally administered exam only and will receive 4 additional credits.

Incoming students who have received grades of 670 or higher on the Verbal portion of the Scholastic Aptitude Test (SAT) will be exempted from ENG 1101/1105 and the departmentally administered exam, but will not receive any additional credits.

Students who have received a grade of "C" or better for courses comparable to English 1101/1105 and 1102 prior to their enrollment at Western Maryland are not required to take the departmentally administered writing exam.

Exercise Science and Physical Education

With the exceptions noted below, all students must present evidence of an acceptable level of knowledge and competence in courses involving (PEF) fitness (EPE 0001-0055 and EPE 1101-1155) and (PES) skill (EPE 0066-0099 and EPE 1166-1180). The requirement includes the completion of four such courses, with at least one coming from each category.

Students may reduce all or some of this proficiency requirement by acceptable performance on departmentally administered proficiency tests or by participation on one or more of the teams in the College's intercollegiate athletic program. Evidence of such performance or participation must be certified by the Exercise Science and Physical Education Department Chairperson.

Foreign Language (FL)

One or two courses of college level instruction in a foreign language. Those students who have taken fewer than three years of a foreign language or who wish to begin a new language are required to take two courses, unless their performance on the foreign language department's placement test places them above the 1101 course in that language. Those students with three or more years of

a language, and who wish to continue in that language, are required to take one course, based on placement, at the 1102 level or higher.

International students whose native language is not English are exempt from this requirement.

Mathematics

All students are required to demonstrate competence in both arithmetic and basic algebra.

Beginning with the Fall, 1995, semester, students will have two methods to satisfy this requirement.

1. The College will continue to administer proficiency tests in arithmetic and basic algebra during the summer guidance days and four times during the academic year—in September prior to the start of classes, in November, at the end of the January Term, and in April—for all enrolled students. Students who pass these examinations will also receive placement into various mathematics courses and will be eligible to enroll in various classes, in a variety of programs, for which these tests are prerequisites.

2. Students may also enroll in the non-credit workshops in Arithmetic (MA 0001) and Basic Algebra (MA 0002), either as preparation for taking and passing the proficiency tests or as an alternative method for demonstrating competency in these subjects by performing at a satisfactory level during the semester-long workshops.

Major Requirements

Each major offers a basic program, involving up to 50 credit hours of required course work within the discipline and sometimes from supplementary disciplines. No more than 52 credit hours in any one discipline may be counted toward the 128 hours required for graduation. A student must have a 2.00 or better average (on a 4.00 scale) in courses required for the major. A description of each major is given in the Courses of Instruction section of this *Undergraduate Catalog*, with additional information available in the *Guidance Bulletin*, available from the Office of the Registrar.

In addition to the basic major, many departments offer additional programs that involve particular courses to help students focus on or achieve specific goals. Consult the *Guidance Bulletin* for further information.

Dual Majors

Many departments offer students the option of combining work from two or more disciplines to achieve a program with a broader perspective. Usually a dual major requires more hours than a basic major in a single department. For dual majors, the student will be required to have a 2.00 GPA for all courses required by each separate discipline. The available dual majors are listed below.

Student-Designed Major

A student-designed major is an option for students whose academic interests cannot be served by an existing program. It provides for those students an opportunity to investigate several branches of knowledge in some depth. Such a program is designed by the student, with the help of a faculty adviser, to attain his/her particular goals and must be as comprehensive, as well-integrated, and as far-reaching in some discipline of thought as a conventional major. The initial proposal should be submitted to the Curriculum Committee in the sophomore year. More detailed instructions for student-designed majors can be found in the *Guidance Bulletin*. The necessary forms are available in the Office of the Registrar.

Examples of some recently approved Student-Designed Majors:

Art in Deaf Culture

Bio-Cultural Anthropology

Classical Civilizations

Criminal Psychology

Medical and Biological Illustration

Public Relations and the Performing Arts

Sports Journalism

Theatre Arts Management

Minor Programs

Many students have strong secondary interests and elect one or more minor programs in addition to their primary commitment to a major program. This option not only gives students a format for exploring secondary areas, it also gives recognition on a student's transcript that the student has completed a significant amount of study in an area outside the declared major.

Most departments offer minors, various departments cooperate to sponsor interdisciplinary minors, and some offer vocational or career minors. Additional information and requirements for the various minor programs appear in the *Guidance Bulletin*.

Student-Designed Minors

A student-designed minor is also an option for students. Such a program is designed by the student, with the help of a faculty adviser to attain his/her particular goals and must be as comprehensive, as well-integrated, and as far-reaching in some discipline of thought as a conventional minor. More detailed instructions for student-designed minors can be found in the *Guidance Bulletin*. The necessary forms are available in the Office of the Registrar.

Pre-Professional Studies and Cooperative Programs

Students who have received early admission to graduate or professional schools may petition Western Maryland College to receive the B.A. degree after the successful completion of one year of graduate or professional study. In order to be awarded the degree, the student must have completed Western Maryland College's basic liberal arts requirements, have his/her total program approved by the major department(s), and have completed sufficient hours of course work at WMC and in the graduate or professional school to equal the 128 credit hours required for Western Maryland College graduation. The Provost and the chair of the major department(s) will determine whether these requirements have been met. Having met the requirements, the student will receive his/her degree and may participate in graduation ceremonies.

A broad liberal arts education is an asset for students who wish to pursue a professional education, and entrance examinations and admissions requirements for many professional schools favor individuals who have benefited from an undergraduate liberal arts education. For over a century Western Maryland has offered pre-professional education, and graduates of the College have proceeded to study and practice the learned professions with distinction. A recent survey of Ph.D. productivity during the period 1951-1980 found that Western Maryland ranks in the top 50 institutions in the country in the percentages of its graduates who went on to earn Ph.D.'s in the life sciences. The College currently offers the following programs:

- Pre-engineering studies
- Pre-forestry studies
- Pre-legal studies
- Pre-medical and health professions studies
- Pre-ministerial studies
- Pre-museum studies
- Teaching Certification

Advisers and suggested curricula assist students who aspire to post-graduate professional education. Pre-professional students should discuss

their goals with both their faculty adviser and the appropriate pre-professional program coordinator as early as possible.

Pre-Engineering Studies

Coordinator: Dr. Vasilis Pagonis, Physics

Students interested in becoming engineers can do so by completing three years at Western Maryland and two years at the University of Maryland at College Park; Washington University, St. Louis, MO; or another qualified engineering school. Successful completion of this 5-year program qualifies the student to receive both the Bachelor of Arts degree from Western Maryland and the Bachelor of Science degree in Engineering from the engineering school.

Pre-Forestry Studies

Coordinator: Dr. Esther Iglich, Biology

Western Maryland College participates in a cooperative program with the School of Forestry and Environmental Studies at Duke University. Through this 5-year program, students can earn both a bachelor's degree from Western Maryland and a master's degree from Duke. Students spend their first three years at WMC in a program which includes fulfillment of the basic liberal arts requirements, major requirements, the prerequisites for admission to Duke, and electives.

Pre-Law Studies

Coordinator: Dr. Charles Neal, Political Science and International Studies

Law schools give preference to students with high academic achievement and backgrounds of broad cultural and social education. A student may major in any department. The most useful courses are those which offer training in writing and speaking, literature, philosophy, history, economics, and political science.

Pre-Medical and Health Professions

(Medicine, Dentistry, Optometry, Pharmacology, Physical Therapy, Podiatry, Veterinary Science)

Coordinators: Dr. Michael Brown, Biology, and Dr. Carol Rouzer, Chemistry

Since 1874 men and women graduates of Western Maryland College have gone on to practice medicine and the other health professions. In addition to the science courses required for admission to professional schools, the College recommends a number of courses in other disciplines and an internship experience that allow the student to gain admission and to develop the knowledge and skills necessary for the study and practice of medicine and the other health professions. Professional schools expect that candidates for admission will achieve well-above-average grades in their undergraduate studies.

Pre-Ministerial Studies

Coordinator: Dr. Gregory Alles, Philosophy and Religious Studies

Students considering the ministry as a profession should consult with their religious bodies to determine precisely what educational preparation is required. Most religious bodies, but not all, will require special professional education after the B.A. at a denominational seminary or a divinity school. Such institutions have traditionally sought a well-rounded education in the liberal arts rather than a specific major such as religious studies. Courses in sociology, psychology, history, literature, communication, philosophy, and religious studies can all be helpful, as can others. Greek, Hebrew, or Latin will be indispensable to students with serious interests in studying the Bible. Spanish may be helpful for those interested in urban ministries or liberation theologies.

Pre-Museum Studies

Coordinator: Dr. Julie Badiee, Art and Art History

This program is for students planning careers in the areas of museum curatorship, management, public education, and administration. Students major in Art and/or Art History and complete a program which includes art history and studio art, business administration, foreign language study in German or French, and an internship.

Teaching Certification

Coordinator: Ms. Leslie Simpson, Education

Students who minor in education at Western Maryland College receive certification in either elementary education or one of the following secondary education fields: art, biology, chemistry, English, French, German, mathematics, music, physical education, physics, social studies, and Spanish. The Exercise Science and Physical Education program also offers a K-12 certification option.

Students should select a college major which is compatible with their teaching interests.

Maryland certification includes certification reciprocity with over 35 other states.

Students who desire certification to teach should contact the Education Department as early as possible for assistance in planning their programs. A minimum overall GPA of 2.50 and an interview are required for acceptance into the student teaching semester. A state qualifying score on the Core Battery, Professional Knowledge, and Specialty Area Tests (subject or level) of the National Teacher Exam (NTE) is also a program and state requirement.

Although work should be planned so that one semester of the senior year may be kept entirely free for student teaching, many students delay this experience until after their graduation. Teacher certification is addressed in detail in the *Guidance Bulletin*.

Military Science

Although no major is offered in this field, Military Science can be an integral part of a student-designed major or an elective supporting any major. The courses are designed to develop each student's leadership ability and to prepare the stu-

dent for commissioning as an officer in the Active Army, Army Reserve, or Army National Guard. Courses are open to both men and women. Students will find that Military Science provides instruction and practical experience which complement any undergraduate major.

Electives

The additional courses to total 128 or more credit hours for the baccalaureate degree should be selected with care and imagination in consultation with the academic adviser. It is here that the opportunity exists to balance and round out a college education, perhaps acquiring perspectives, information, and skills that will prove invaluable in many areas of life in the future.

January Term

The January Term has been an important part of the Western Maryland College curriculum since 1969 because it provides both students and faculty with an unusual educational experience. Breadth and depth, while vital components of a liberal arts education, should not constitute the only objectives of students or faculty in their common pursuit of learning. There is a third dimension in this pursuit – intensity – a dimension which the January Term experience is designed to provide. Students and faculty are encouraged to view January Term as a cooperative venture where all of those involved can explore new areas and expand their intellectual horizons.

The January Term takes several directions. For some students it is the opportunity to pursue independently, in an organized and guided way, projects or areas of study which deeply interest them. For others it is an opportunity to enroll in a course even though they have no previous background in the field. For others it means a time for exploration in an area of interest unrelated to their regular academic programs. For students interested in travel, it is a fine opportunity to join others in a study tour. For all, it is a period of concentrated study normally beyond the range of the more conventional course experiences. This flexibility and experimentation in learning, which is the special feature of the January Term, will supplement and enrich the pattern of course work in the two regular semesters.

The January Term may be envisioned as a time to cultivate special interests in depth; a time for creative work; a time for experimentation; a time for interdisciplinary dialogue; a time to explore art galleries, museums, and libraries in the area; a time to engage in special projects; a time for travel and study abroad; a time for study and reflection.

Students are required to complete one January Term program successfully and may choose to participate in additional January Terms for nominal tuition.

January Term courses are described in a separate publication available from the Office of Academic Affairs after September 1. Registration usually takes place during the third week of September.

Independent Studies

Independent studies courses provide students with the opportunity for individual study under the direction of a faculty member. The study, agreed upon by the sponsoring faculty member and the student, should be an experience not available within the regular college offerings. Students must apply for independent studies on forms available in the Office of the Registrar. Individual departments or programs may formulate additional policies for independent studies; they may also have additional guidelines on independent studies for candidates for departmental honors.

Gallaudet Visiting Student Program

One semester of study is available to juniors and seniors. The grades and credit hours received at Gallaudet are recorded on the Western Maryland College transcript. Residency on the Gallaudet campus is optional.

Contact: WMC, Academic Affairs, Dean Barbara Horneff, for inquiries.

Gallaudet University, Office of Admissions, Visiting Student Adviser, at 202-651-5355 for application forms and to inquire about the application and admissions fees.

WMC, Office of Financial Aid and Bursar's Office to complete appropriate forms for available aid.

WMC, Office of the Registrar, for transfer of courses.

Internships

The College conducts an active program of student internships through cooperative programs with government, business, industry, institutions, and individuals. Internships are generally arranged directly through the academic departments or programs of the College, and each internship must be sponsored by a member of the faculty. Students may apply for internships on forms available in the Office of the Registrar.

No more than twelve credit hours of internships may be counted toward the 128 credit hours required for graduation.

Internships are graded credit/fail ONLY.

Registration at Other Colleges

Students interested in enrolling in courses at other institutions must file a verification of transferability form in the Office of the Registrar. Each student is responsible for having an official transcript sent from the other institution for posting to their permanent record. PLEASE NOTE: transfer credits do not affect the student's WMC grade point average.

Undergraduates enrolling in Graduate Courses

Second semester seniors at WMC may apply to the Provost to enroll in a graduate course if they have a 3.20 grade point average. A maximum of two courses may be taken. These courses will count toward the student's undergraduate degree.

Special Off-Campus Semester Programs

Western Maryland offers several single-semester programs designed to enable students to pursue specialized interests. The Washington Semester Program administered by The American University enables students to study public affairs in the nation's capital. The United Nations Semester offers a limited number of students the opportunity to participate in the Drew University semester in New York. The Drew Semester in Brussels focuses on the politics of the European community. The Appalachian Semester, offered in cooperation with Union College in Kentucky, gives mature students an opportunity to study the Appalachian region.

WMC Europe Program

This special program educates students from eastern and central Europe and other parts of the world who are interested in preparing for careers in the new global marketplace. WMC-Europe, in cooperation with College International Budapest and International Studies, Inc., offers a four-year undergraduate program in Business Administration and/or Economics, Communication, and Political Science, leading to a Bachelor of Arts degree. Students accepted into the WMC-Europe programs, spend two years in Budapest and two years at Western Maryland's home campus. This program fulfills newly-born European needs by combining American "high-tech" business principles with student-centered liberal arts study tempered by both European and American intellectual traditions. Successful completion of the entire four-year program will result in the awarding of a B.A. degree from Western Maryland College.

Studying Abroad

Every year a number of Western Maryland College students choose to study abroad. Western Maryland has entered into formal association with several colleges and programs (see the Courses of Instruction section of this Catalog). Many other options for world-wide study are also available.

Students should start planning for study abroad early in their college years. While no definite commitments have to be made early, careful academic program planning is necessary. Study abroad information is available from the program coordinator, Dr. Martine Motard-Noar, Foreign Languages.

Continuing Education

Western Maryland welcomes the growing number of students who are choosing either to begin or to continue their college studies at a point later in their lives. Recognizing that these non-traditional students have special needs, they are assigned special advisers.

For information please contact the Office of Academic Affairs and see also under Admissions the entry on Nontraditional Students.

Second Bachelor's Degrees

The second bachelor's degree program at Western Maryland is designed to meet the needs of students who have completed an undergraduate degree in one field and wish to become proficient in another.

Students may elect any major offered at the College and must meet all academic requirements for that major. It is recommended that students consult with the department chair about requirements and course schedules. (A minimum of 32 credit hours beyond the first degree must be taken at Western Maryland; if the new major requires more than 32 credit hours, the additional credit hours must be taken before the degree is awarded.) A second degree requires a minimum grade point average of 2.00 in all work attempted at Western Maryland. The College's basic liberal arts requirements are assumed to be met, and 96 credit hours are automatically transferred from the original degree program. In some programs with prerequisites and/or requirements outside the student's discipline, it may take more than one academic year to complete the program. Tuition is reduced to the graduate rate per credit hour.

Applications for the second bachelor's degree and more specific policies and procedures for the degree are available from the Office of Academic Affairs.

ACADEMIC ACHIEVEMENT

Western Maryland College Honors Program

Students with outstanding academic records and standardized test scores are invited to apply for the WMC Honors Program. As members of the program, they may take specially designed courses together each semester, may participate in special activities together, and may reside in common housing.

Honors students who complete the Honors Program and earn a cumulative GPA of 3.40 or better receive certificates designating them College Scholars at graduation.

Phi Beta Kappa Society

Phi Beta Kappa was established in 1776 as a philosophical society. Eventually, it evolved into the paramount honor society for the liberal arts in America. Its major goal is to support, foster, and recognize the excellence of liberal arts scholarship in the institutions of higher education in America. There are presently 249 chapters in the United States; the Delta of Maryland Chapter at Western Maryland College was established in 1980. The chapter is sheltered by the College and consists of the faculty and staff members who are members of the Society. These members carry on the business of the chapter and elect the student members each year.

Student members are elected in the second semester of their senior year primarily on the basis of broad cultural interests, scholarly achievement, and good character. Eligible students must present a program including not less than 96 credit hours of liberal studies among the 128 or more credit hours required for the bachelor's degree. In addition, they must have completed at least three full semesters of work (48 credit hours) in residence at Western Maryland College and be fully registered, as a full time student, for the fourth semester. They must have obtained the minimum average grade point (at Western Maryland College) specified by the chapter. While this varies slightly from year to year, usually it is 3.7.

Liberal studies shall be considered to be those designed principally for knowledge or understanding or appreciation of the natural and social world in which we live. Grades earned in applied or professional work may not be counted in computing the liberal arts hours or the grade point average for eligibility. Applied and professional work shall be understood to include all training intended to develop skill or vocational techniques; this work often leads to licensure or certification. Such courses generally are taken by students who are preparing for a specific type of job. Examples of such courses would be those in business administration, accounting, education, journalism, library science, military science, applied physical education, speech, applied art, applied music, social work, applied communication, and computer science.

Weight will be given to the breadth of the program of each candidate as shown by the number and variety of courses taken outside of the major. Weight will also be given to the balance and proportion of the liberal arts in the student's degree program as a whole. Students shall also have demonstrated knowledge of mathematics and of a foreign language at least to the level of the basic liberal arts requirement for the Western Maryland College bachelor's degree. The students' character and campus citizenship will be certified by the Office of Student Affairs.

Students who complete their college studies at the end of the summer session, at the end of December, or at the end of January Term shall be considered for membership during the following Spring.

Election to membership in Phi Beta Kappa is wholly within the discretion of the local chapter, subject only to the limitations imposed by the Constitution and By-Laws of the Chapter. No right to election shall adhere to any student solely by reason of fulfillment of the minimum grade point average for election to "membership in course," and no reason need be given for non-election.

Honor Societies

In addition to Phi Beta Kappa, there are nineteen other honorary societies on campus. Two oriented toward general accomplishment are Omicron Delta Kappa, a national society recognizing leadership qualities, and the Trumpeters, a local society honoring senior students dedicated to service.

National and international honor societies which recognize academic accomplishment in specific fields are Beta Beta Beta (Biology), Phi Lambda Upsilon (Chemistry), Lambda Pi Eta (Communication), Omicron Delta Epsilon (Economics), Kappa Delta Pi (Education), Phi Alpha Theta (History), Lambda Iota Tau (Literature), Phi Sigma Iota (Foreign Languages), Kappa Mu Epsilon (Mathematics), Omicron Psi (Nontraditional Students), Phi Sigma Tau (Philosophy), Sigma Pi Sigma (Physics), Phi Sigma Alpha (Political Science), Psi Chi (Psychology), Pi Gamma Mu (Social Sciences), Phi Alpha (Social Work), and Alpha Psi Omega (Theatre Arts).

Dean's List

The Dean's List recognizes full-time (12 or more graded credit hours) undergraduate students with outstanding academic performances each semester on the following basis:

- Highest honors, requiring a semester grade point average of 3.80-4.00.
- High honors, requiring a semester grade point average of 3.60-3.79.
- Honors, requiring a semester grade point average of 3.40-3.59.

Students who receive a grade of "I" or "NR" in any of their courses are not eligible for Dean's List.

General Honors at Graduation

General honors citations are recognized at graduation and recorded on the diplomas and on the students' permanent records. These honors are:

- Summa Cum Laude,
for a cumulative grade point average of 3.80 or higher.
- Magna Cum Laude,
for a cumulative grade point average of 3.60-3.79.
- Cum Laude,
for a cumulative grade point average of 3.40-3.59.

Eligibility for general honors requires a minimum of 64 credit hours at Western Maryland College or affiliated programs such as overseas programs, the Washington Semester, the U.N. Semester, the Appalachian Semester, the Drew Semester in Brussels, and courses taken at WMC-Europe.

Departmental Honors at Graduation

Departmental honors are recognized at graduation and are recorded on the students' permanent records. To receive departmental honors, students must:

- Have a grade point average of 3.20 in all courses taken in the major.
- Satisfy any departmental requirements, such as engaging in a seminar or in independent study, submitting an essay, or passing with distinction a comprehensive examination in the major field.
- Be recommended by the department.

This option is also available to those students with student-designed majors.

Edith Farr Ridington Phi Beta Kappa Writing Award

The Edith Farr Ridington Phi Beta Kappa Writing Award was established by the College's Phi Beta Kappa Chapter to honor Edith Farr Ridington (Senior Lecturer, Emerita, until her death), long-time member of the faculty and charter member and historian of the Delta of Maryland Chapter of Phi Beta Kappa. The award goes to the graduating senior whose paper, written in consideration for honors in a major field, is judged to be the best of those submitted by the various departments or programs.

The Argonaut Award

The Argonaut Award, named for the College's original honor society founded in 1935 and superseded by Phi Beta Kappa in 1980, is given to the graduating senior or seniors with the highest cumulative grade point average in the class. For purposes of this award, the cumulative grade point average will be calculated based upon the student's entire transcript, using both transfer and WMC credits.

ACADEMIC REGULATIONS

44

For a full discussion of academic regulations and procedures, including information on academic loads, change of courses, change of academic advisers, minimum scholastic requirements, class absences, residence requirements, and related topics, please see the *Student Guide and Datebook* and the *Guidance Bulletin*.

Grades and Educational Records

For each course, the instructor determines the progress of the individual and the class by means of class work, tests, special assignments or papers, projects, conferences, and other procedures that might prove valuable.

Grading System

The scholastic standing of students is indicated by a system of grades designated by the letters A, B, C, D, F, CR, NR, and I. Plus and minus grades (e.g., an A- or a B+) may be assigned and will appear on the student's transcript. They do not, however, affect a student's grade point average (e.g., an A- is considered an A for calculating grade point average).

A, B, C, and D are passing grades, A+ indicating work of the highest rank, D- of the lowest. Students receiving the grade of F must repeat the course if they wish to receive credit for it.

Students receiving the grade of I (Incomplete) for a course must complete the course within one year from the date of record, unless a shorter time has been set by the course instructor or the Admissions and Standards Committee. If the work for which the incomplete was granted is not finished within one academic year, the instructor will determine the grade for the course or an "F" will be assigned. The granting of an incomplete is not an option for graduating seniors in their final semester.

NR (not reported grades) are given when no grade is reported for the student by the instructor. These grades will be changed to an "F" if they are not resolved within one academic year.

Qualified juniors and seniors may elect one course per semester under the Credit-Fail option. To receive credit (CR) for a course under this option, a student must attain a grade of C- or better, but the letter grade is not recorded on the student's record. Grades of "D+" or lower are converted to "F" under this option. Although a student must declare the Credit-Fail option prior to the end of the second week of class, he/she can request a change from Credit-Fail to regular grade prior to the end of the semester. Courses taken Credit-Fail will not count toward a major or minor, nor satisfy basic liberal arts requirements. All internships and some January Term courses are graded on a Credit-Fail basis only.

Repeat Policy

A student has the option to repeat and pass a course previously failed in order to gain credit hours towards graduation. The student will receive the quality points for the new grade, and the original failing grade, now changed to an R, will no longer be used to determine the grade point average. If a student repeats a course previously passed, he or she will not gain any new hours toward graduation. If the second passing grade is higher than the first, it will be used to determine the grade point average. If it is not higher, then the first grade will continue to be used. The grade not used will be listed as an R. In either case, there is no limit to the number of times a course may be repeated.

Grade Point Average (GPA)

The general quality of students' work is determined numerically and is called the grade point average (GPA). The GPA is calculated in two steps. First, letter grades are converted to numerical values on the following 4-point scale: A = 4; B = 3; C = 2; D = 1; F = 0. A student earns quality points for each course completed equal to the number of credit hours for the course multiplied by the point value for the grade. Then, the semester grade point average is calculated by dividing the total quality points achieved by the number of credit hours attempted in regularly graded courses. Thus, a student taking 4 four-hour courses (totaling 16 hours) who received one A, one B and two Cs would have earned a GPA of 2.75 for the semester. $(4 \times 4) + (4 \times 3) + (8 \times 2) = 44 \div 16 = 2.75$.

Similarly, an overall GPA for all work attempted at Western Maryland is calculated by dividing the total number of quality points earned by the total number of credit hours attempted. Transfer credit, AP credit, CLEP credit, and "credit" grades are not calculated in the College's GPA.

To maintain class standing, students must successfully complete the normal program of credit hours with at least a 2.00, or C, average. Any student's record whose cumulative grade point average is less than 2.0 will be reviewed by the Admissions and Standards Committee.

The standard rate of progress is 32 credit hours a year, but students should undertake programs they can handle successfully, no matter what the credit hour totals. The number of credit hours that each course carries is stated below its title in the section on Courses of Instruction.

Retention of Records

Transcript records are permanently held by the Registrar's Office. Documentation pertaining to the registration for each semester is held only for a period of five years. If any questions should arise regarding documentation of enrollment more than five years beyond registration for a course, it will be the student's responsibility to produce proper documentation to support any claim for a change to their record.

Academic Status

Western Maryland College ranks students according to the following credit criteria:

- 0 to 23 credits = freshman
- 24 to 56 credits = sophomore
- 57 to 84 credits = junior
- 85 or more credits = senior

Satisfactory Progress Standards (Academic)

At Western Maryland College, a student must successfully complete at least 75% of credit hours attempted, earn the required total credits, and maintain the required GPA for the semesters listed below:

Number of Semesters	GPA	Credits Earned
1.....	1.00.....	12
2.....	1.50.....	24
3.....	1.60.....	36
4.....	1.70.....	48
5.....	1.80.....	60
6.....	1.90.....	72
7.....	1.95.....	84
8.....	2.00.....	96

Successful completion of a course requires a letter grade of A,B,C,D, or CR for a non-graded course. Students not making satisfactory progress will have their records reviewed by the Committee on Admissions and Standards.

Auditing

An audit is entered on the record as "AU", no credit hours attempted, and no grade or quality points are awarded. The amount of participation required in the course is set by the professor. For a full-time student, there is no additional charge. For a part-time student, the charge is one-half the regular tuition. Students may elect to switch from audit to credit prior to the withdrawal date listed in the *Courses of Instruction Booklet*. Students who choose this option must complete course requirements as assigned, must have the instructor's approval to change from audit to credit, and must pay the price differential. While audited courses appear on student transcripts, they do not carry grades or credit. If the student does not meet the instructor's requirements, the instructor has the right to delete the course from the student's record. For further details on Audits, see the *Student Guide and Datebook* and *Courses of Instruction Booklet*.

Withdrawal

A student may withdraw from a course and receive a grade of "W" before the deadline specified for that term in the *Catalog*, *Courses of Instruction Booklet*, and *Student Guide and Datebook*. This course is not counted in calculating the student's GPA. After the stated date exceptions to this rule may be permitted only by an Academic Dean and only in cases of genuine emergency, such as protracted illness late in the semester. In such cases, a grade of "W" or "I" may be permitted provided the student's work was satisfactory ("C" or better) at the time of withdrawal. In the event of withdrawal from the College after the date specified, a student will receive a grade of "WP" (withdrawn passing for grades of "D-" or better) or "WF" (withdrawn failing for grades of "F").

Grade Reports

All students and their academic advisers are sent grade reports at mid-semester and at the end of each semester.

Academic records are reviewed each semester by the Committee on Admissions and Standards. A student may be dropped from the College when his/her scholarship record is so low as to justify such action. See the *Student Guide and Datebook* for more information.

Educational Records

Educational records are those records, files, documents, and other material directly related to a student and maintained by the College or any of its agents. Western Maryland College assumes an implicit and justifiable trust as custodian of these records. Access to and release of student records are determined by WMC policy, which complies with Public Law 93-380 (the Family Educational Rights and Privacy Act of 1974, often referred to as the Buckley Amendment). Copies of the Western Maryland College Policy on Release of Information About Students and of the U.S. Department of Education regulations implementing Public Law 93-380 are available in the Office of the Registrar. Students receive notification of the rights accorded them under the above documents at the beginning of each academic year. A more complete description of these policies appears in the *Student Guide and Datebook*.

COURSES OF INSTRUCTION

Key to Finding and Interpreting Course Descriptions

Departmental or Program Listings

The academic departments or programs are generally listed in alphabetical order. All courses are listed under the department or program which offers them. Courses which are cross listed will appear in more than one place.

Course Designations

Courses of instruction are designated by a system of four-digit numbers within each department. The first digit in the number indicates the class standing that a student must attain to be eligible for the course. To interpret the numbering system, you need to know that:

Courses generally for freshmen are numbered in the series beginning 1000. Freshmen may not register for any course numbered 2000 or above, except by placement or with the permission of the instructor. Similarly, sophomores may not register for courses numbered 3000 or above, nor juniors 4000 or above, with exceptions permitted only by the instructor.

Cross-listed courses are courses appropriate to more than one department or area.

The number of credit hours per course is indicated below the course title. Courses which can be taken for variable credit (applied music lessons, independent studies, internships, etc.) or which can be repeated for credit are so indicated.

Courses required for major, dual major, and minor programs are stated in full in the *Guidance Bulletin* published annually and available in the Office of the Registrar.

Courses which fulfill particular Basic Liberal Arts Requirements have the category(ies) listed.

Prerequisites for each course are so indicated following the description.

A sequence of courses where the first course is prerequisite to the second will be listed jointly, the numbers separated by a comma (e.g. English 1101, 1102 Composition and Reading I, II means that English 1101 is prerequisite to English 1102).

Special Topics, Internships, and Independent Studies courses are listed with numbers separated by semi-colons. These courses may be taken in any order.

The College reserves the right not to offer any particular course, however, when the demand is limited or instructional time is not available.

Art and Art History

Professors Badiee and Palijczuk; Associate Professors Bloom (Department Chair) and Losch; Lecturers Hankins and Van Hart.

Areas of particular teaching interest:

Professor Badiee: art history with emphasis on both Western and non-Western traditions; Professor Palijczuk: drawing, watercolor, life drawing, painting, sculpture, printmaking; Professor Bloom: drawing, photography, graphic design, computer graphics; Professor Losch: European art history, history of photography; Professor Hankins: ceramics; Professor Van Hart: jewelry, design.

Students majoring in art may plan their programs for graduate study in studio art, graphic design, art history, or museum studies, or for public school teaching. Many students add art to their course of study for personal enrichment and a desire for creative satisfaction.

There are six basic approaches to the art major: graphic design, art history, pre-museum studies, studio art, combined studio art and art history and medical or scientific illustration. Students should consult the *Guidance Bulletin* for details. The following combined studio art and art history program illustrates one of these approaches.

COMBINED STUDIO ART AND ART HISTORY MAJOR:

Basic Major:

Required Courses:

Art 1101, 1117, Art History 1113, 1114, 2240, and twenty additional hours of studio art and/or art history.

Other Educational Options in Art:

Teacher certification (middle/high school), medical illustration, and dual majors with history or communication.

Studio Art

Studio Art courses do not fulfill the Humanities requirement.

1101 DRAWING I 4 credits

A studio course concentrating on basic principles and variations in lines, texture, value, composition, and use of drawing skills.

1117 DESIGN 4 credits

An introductory investigation of two-dimensional design principles involving the elements of art in solving visual problems. Issues of consumerism and the development of a personal portfolio in a variety of media are stressed.

2201 LIFE DRAWING 4 credits

Drawing from live models to learn proportion and anatomy of human head and figure. Various drawing media and techniques are emphasized.

Prerequisite: Art 1101, or permission of the instructor.

2206 COMPUTER GRAPHICS 4 credits

A study of the fundamentals of computer graphics. Work will include paint and draw programs as well as photo manipulation and desktop publishing.

2211 SCULPTURE 4 credits

Clay modeling of the human head and figure, making of plaster molds and castings.

Prerequisite: permission of the instructor.

2214 JEWELRY 4 credits

An intensive study of problem solving in body adornment through historic and multicultural perspectives. Processes employed include piercing, forging, beading, fabrication, and repousse. There is an extra fee for materials.

Priority is given to art majors.

2215 PHOTOGRAPHY 4 credits

A study of the technical processes, aesthetics, and history of photography. The course requires a 35 mm camera with manual settings, and emphasizes the production of black and white prints. There is an extra fee for materials.

2216 GRAPHIC DESIGN I 4 credits

A studio activity stressing the importance of the imaginative and creative talents of the artist in today's commercial art world.

Prerequisites: Art 1101, 1117.

2219 CERAMICS 4 credits

A studio course investigating the coil, slab, and wheel methods of clay construction. Firing techniques and glazing procedures are introduced.

3306 PRINTMAKING**4 credits**

A study of the principles of printmaking, with emphasis on wood and linoleum printing, serigraphy, intaglio, and, in special cases, lithography. *Prerequisite*, Art 1101, or permission of the instructor.

3310 WATERCOLOR**4 credits**

Experimentation with at least ten different techniques of watercolor painting.

Prerequisite, Art 1101, or permission of the instructor.

3313 PAINTING**4 credits**

An introductory course in oil painting with emphasis on realistic or recognizable objects. The mixing and application of paint to the painting surface and at least five painting techniques are studied.

3318 GRAPHIC DESIGN II**4 credits**

A studio course dealing with the technical realm of advertising graphics, illustration, and informative and promotional art. Field trips to a variety of art agencies are included.

Prerequisite, Art 2216.

4492 PORTFOLIO PREPARATION**1 credit**

Preparation of a portfolio under the supervision of appropriate faculty.

**2265; 2266; 3365; 3366; 4465; 4466
SPECIAL TOPICS IN STUDIO ART****4 credits**

The study of a selected topic in the discipline. Different topics are chosen for each offering, based on students' interests and needs.

**2295; 2296; 3395; 3396; 4495; 4496
INTERNSHIP IN STUDIO ART****0 - 4 credits**

Supervised field experiences in appropriate settings, usually off-campus, designed to assist students in acquiring and using skills and knowledge of the discipline unique to the selected topic.

**2298; 2299; 3398; 3399; 4498; 4499
INDEPENDENT STUDIES IN STUDIO ART****0 - 4 credits**

Directed study planned and conducted with reference to the needs of those students who are candidates for departmental honors. Qualified students who are not candidates for such honors but who desire to do independent studies are also admitted with permission of the Department.

Art History

All art history courses consist of a survey of one or more stylistic periods. Students also engage in research and creative analysis of specific works and relate their studies where possible to other disciplines. Instruction includes field trips to museums each semester.

1113 HISTORY OF WESTERN ART I**4 credits**

A survey of painting, sculpture, and architecture from 15,000 B.C. to 1400 A.D. Included are Near Eastern, Egyptian, Greek, Roman, and Medieval Art. *Heritage Sequence, Humanities.*

1114 HISTORY OF WESTERN ART II**4 credits**

Continuation of the survey of History of Western Art I, 1400 to present. Emphasis is placed on the Renaissance, Baroque, Romantic, and Modern periods.

Heritage Sequence, Humanities.

2207 ARCHAEOLOGY OF GREECE**4 credits**

Introduction to the history of classical archaeology and to the current theories and methods of the discipline through study of archaeological sites and material remains from the Bronze Age to the fourth century B.C.E. The course also includes examination of architecture, painting and sculpture in their original private, civic, and religious context.

Humanities.

Cross listed with History 2207.

Offered in 1997-1998 and alternate years.

2222 ART OF THE MEDIEVAL WORLD**4 credits**

A study of the Early Christian, Byzantine, Romanesque, and Gothic Arts in Europe. *Humanities.*

2225 SURVEY OF AMERICAN ART**4 credits**

An examination of painting, sculpture, and architecture in America from Colonial times to the second World War with an emphasis on nineteenth and early twentieth century painting. All works will be discussed as visual reflections of the specific cultural and historical contexts in which they were created.

Humanities.

2229 ARTS OF INDIA, CHINA, AND JAPAN
4 credits

The development of painting, sculpture, and architecture in India, China, and Japan.

Global Perspective, Humanities.

Cross listed with Cross Cultural Studies 2229.

Offered in 1998-1999 and alternate years.

2235 ARTS OF THE RENAISSANCE, 1300-1600
4 credits

The development of European Arts from Giotto to Michelangelo in the south, and Van Eyck to Bruegel in the north.

Humanities.

Offered in 1997-1998 and alternate years.

2236 BAROQUE AND ROCOCO
4 credits

A study of the architecture, sculpture, and painting of the period 1600-1800. The masters Bernini, Caravaggio, Rubens, Rembrandt, Velazquez, and Watteau are included.

Humanities.

Offered in 1997-1998 and alternate years.

2239 ROMANTICISM AND IMPRESSIONISM
4 credits

A study of the major artists of the nineteenth century including David, Goya, Delacroix, Courbet, Manet, Monet, Degas, Van Gogh and Gauguin. Both European and American art are included.

Humanities.

Offered in 1997-1998 and alternate years.

2240 TWENTIETH CENTURY ART
4 credits

Painting and sculpture in Europe and America from 1900 to the present day. Emphasis is placed on emerging artistic trends.

Humanities.

2241 THE ARTS AND ARCHITECTURE OF THE AFRICAN CONTINENT AND BEYOND
4 credits

A survey of the ancient and traditional arts of the African continent, including North Africa. Works will be discussed as visual reflections of the specific cultural and historical contexts in which they were created. Some consideration will also be given to the influence of these varied artistic traditions on the art and architecture of the Caribbean, America, and especially the modern European artistic traditions seen in the works of such artists as Picasso, Brauer, Matisse, and others.

Global Perspective, Humanities.

Cross listed with Cross Cultural Studies 2241.

2242 ART AND CULTURE OF ISLAM
4 credits

An investigation of the architecture, painting, and other arts of the Islamic world. Areas covered include the arts of Syria, Iran, Turkey, Medieval Spain, North Africa, Central Asia, and Moghul India.

Global Perspective, Humanities.

Cross listed with Cross Cultural Studies 2242.

Offered in 1997-1998 and alternate years.

2250 NATIVE AMERICAN ARTS AND ARCHITECTURE
4 credits

An examination of the unique varieties of Native American cultures and the works of art and architecture that were created from ancient times to the twentieth century. While the course examines the arts from all the Americans, emphasis will be placed on the arts of the regions now referred to as the United States and Canada.

Cross listed with Cross Cultural Studies 2250.

3305 SACRED ARCHITECTURE
4 credits

A historical and systematic examination of both formal and symbolic aspects of structures built for religious purposes, along with their associated religious activities.

Global Perspective, Humanities.

Cross listed with Religious Studies 3305 and Cross Cultural Studies 3305.

Offered as needed.

4492 SEMINAR IN ART HISTORY
1 credit

An examination that involves writing essays concerning art pieces which constitute the basic core of art history knowledge.

2265; 2266; 3365; 3366; 4465; 4466
SPECIAL TOPICS IN ART HISTORY
4 credits

The study of a selected topic in the discipline. Different topics are chosen for each offering, based on students' interests and needs.

2295; 2296; 3395; 3396; 4495; 4496
INTERNSHIP IN ART HISTORY
0 - 4 credits

Supervised field experiences in appropriate settings, usually off-campus, designed to assist students in acquiring and using skills and knowledge of the discipline unique to the selected topic.

2298; 2299; 3398; 3399; 4498; 4499
INDEPENDENT STUDIES IN ART HISTORY
0 - 4 credits

Directed study planned and conducted with reference to the needs of those students who are candidates for departmental honors. Qualified students who are not candidates for such honors but who desire to do independent studies are also admitted with permission of the Department.

Biology

Professors Paquin (Department Chair), Alspach, Brown, Iglich, and Long; Instructor, Mitschler; Lecturer Schmall

Areas of particular teaching interest:

Professor Paquin: genetics (human and molecular), cytogenetics, immunology, bioethics; Professor Alspach: comparative physiology of vertebrates and invertebrates, marine biology, physiological ecology; Professor Brown: microbiology; Professor Iglich: ecology, evolution, botany; Professor Long: developmental biology, anatomy, cell biology, evolution; Professor Mitschler: parasitology, epidemiology.

Biology offers a major that provides the essential background for students who wish to pursue graduate or professional studies as well as those who wish to gain certification for secondary school (middle/high school) teaching. From its founding, the College and the biology department have prepared men and women to enter medical school and graduate programs in the life sciences.

Basic Major:

Required Courses:

Biology 1111, 1112; Chemistry 1103, 1104, 2217. One course from Biology 2203, 2210, 3311, 3366; one course from Biology 3309, 3316, 3323, 3324; one course from Biology 2204, 2205, 3307; one course from Biology 2209, 2217, 3321, 3334; one course from Biology 2220, 2222. Three additional Biology courses chosen from at least two groups; at least four courses must be laboratory courses.

Other educational options in Biology:

Through an added system of advising, internships, and suggested ancillary courses in a Pre-Professional Curriculum for the Health Sciences, the biology department assists those who wish to enter professional schools (in medicine, dentistry, veterinary science, optometry, nursing, etc). Additionally, the department offers a 3-2 program

with the Duke University School of Forestry and Environmental Studies, and a 3-2 program in biomedical engineering with Washington University (St. Louis). Students may also select a major in Biochemistry.

1111, 1112 PRINCIPLES OF BIOLOGY I, II **4, 4 credits**

Unifying concepts of species and adaptations of species to change. The first semester is an overview of cell biology including cell structure, cell metabolism, cell reproduction, enzyme action, DNA, protein, and genetics. Adaptations at the organismic level are investigated in the second semester with emphasis on maintenance and control systems as they evolved for organisms to live in various habitats. The laboratory emphasizes basic techniques and is an integral component of each semester.

Courses include laboratory.

Prerequisites, Biology 1111, Mathematics 0001 or 0003 for Biology 1112.

Natural Science and Mathematics.

1115 GENETICS, EVOLUTION, AND SOCIETY **4 credits**

Human genetics and evolution for the non-science major. Themes of the course include our own heredity, the technology of cytogenetics and genetic engineering that enables us to study and, in some cases, to manipulate genetic material, the genetic basis of evolutionary theory, and the assessment of such information that is reported to the public.

Prerequisite, Mathematics 0001 or 0003.

Natural Science and Mathematics.

1118 HUMAN BIOLOGY **4 credits**

The biology of people, including study of human evolution, human ecology, anatomy, physiology, and genetics. These topics are studied with a view toward the appreciation of scientific and medical research affecting all our lives.

Course includes laboratory.

Natural Science and Mathematics.

2203 GENETICS **4 credits**

A study of the concepts of classical and contemporary genetics. The action of genetic mechanisms at various levels of biological organization (molecular, cellular, organismal, and population) and in a variety of cells and organisms is included.

Prerequisite, Biology 1112, Mathematics 0001 or 0003, Mathematics 0002 or 0004.

2204 BOTANY **4 credits**

Ecology and evolution of plants. The morphology, physiology and genetic systems of plants are studied as adaptational responses set by evolutionary history and environmental constraints.

Course includes laboratory.

Prerequisite, Biology 1112, Mathematics 0001 or 0003, Mathematics 0002 or 0004.

2205 INVERTEBRATE ZOOLOGY **4 credits**

Structural and functional adaptations of invertebrate animals studied in relation to their habitats and evolution.

Course includes laboratory.

Prerequisite, Biology 1112, Mathematics 0001 or 0003, Mathematics 0002 or 0004.

2209 ENVIRONMENTAL HEALTH **4 credits**

The ecotoxicological effects resulting from environmental changes initiated of human origin. Both human and ecosystem health are studied.

Optional laboratory: Biology 2224.

Prerequisite, Biology 1112;

Pre- or co-requisite, Chemistry 1103.

2210 CELL BIOLOGY **4 credits**

The structure and function of cells with emphasis on energetics, transport processes, biosynthesis, and cellular dynamics.

Prerequisite, Biology 1112;

Pre- or co-requisite, Chemistry 1103.

2211 HUMAN PHYSIOLOGY **4 credits**

A study of the functions of the human organism: digestion, circulation, respiration, excretion, nervous control, endocrine regulation, and muscle action.

Course includes laboratory.

Prerequisite, Biology 1111, Chemistry 1103 or 1121.

2217 ECOLOGY **4 credits**

A study of the interactions between organisms and their environment and among organisms of the same and other species. Emphasis is on organismal, population, community, and ecosystems ecology.

Course includes laboratory.

Prerequisite, Biology 1112, Mathematics 0001 or 0003, Mathematics 0002 or 0004.

2222 MOLECULAR BIOLOGY LABORATORY **2 credits**

Principles and applications of recombinant DNA techniques including some of the following: construction and purification of recombinant DNA, southern hybridization, construction of a genomic library, the polymerase chain reaction, DNA fingerprinting, and restriction mapping.

Prerequisite, Biology 2203, Chemistry 1104.

2224 BIOLOGICAL RESEARCH: DESIGN TO PRESENTATION **2 credits**

A hands on laboratory which encompasses the theoretical and practical basis of experimental design, as well as appropriate application of statistical models using data spread sheets.

2250 BIOETHICS **4 credits**

A study of ethical issues in biology and medicine including health care policies, euthanasia, scientific fraud, and reproductive technologies. This course will explore these and similar issues and case studies and create a framework for ethical decision making based on philosophical principles.

Humanities. This course does not satisfy the Natural Science and Mathematics requirement.

Cross listed with Philosophy 2250.

3307 MICROBIOLOGY **4 credits**

A study of structure, metabolism, growth, and reproduction of microorganisms with emphasis on bacteria.

Course includes laboratory.

Prerequisites, Biology 1112, Chemistry 1104.

3309 ADVANCED GENETICS - HUMAN **4 credits**

A course whose major focus is human genetics. The course extends the general principles learned in Biology 2203.

Prerequisite, Biology 2203.

3311 ADVANCED GENETICS - MOLECULAR **4 credits**

A course whose major focus is molecular genetics. The course extends the general principles learned in Biology 2203.

Prerequisite, Biology 2203.

3316 ANIMAL PHYSIOLOGY 4 credits

A study and analysis of functional processes in animals and the involvement of these processes in homeostatic regulation. Topics include osmotic and ionic regulation, excretion, respiration, circulation, muscles, nervous communication, and hormones. This course is designed for students majoring in biology.

Course includes laboratory.

Prerequisites: Biology 1112, Chemistry 1104.

3321 EVOLUTION 4 credits

The evidence, the mode, and the implications of organic evolution treated in such a manner as to emphasize the function of evolution as the greatest general unifying principle in biology. Special attention is paid to the many recent contributions of research to this field.

Prerequisite: Biology 2203.

3323 DEVELOPMENTAL BIOLOGY 4 credits

A study of morphogenesis, including structural and biochemical changes during development and the mechanisms which control developmental processes. Control, patterns, and the mechanisms of the morphogenetic cell movements are considered in depth.

Course includes laboratory.

Prerequisite: Biology 2210.

3324 COMPARATIVE ANATOMY OF VERTEBRATES 4 credits

A study of vertebrate structure in relation to phylogeny, ontogeny, and function, emphasizing morphological adaptation for function. The laboratory investigation compares the detailed anatomy of a fish (shark), an amphibian (Necturus), and a mammal (cat).

Course includes laboratory.

Prerequisites: Biology 1112, Mathematics 0001 or 0003, Mathematics 0002 or 0004.

3334 MARINE BIOLOGY 4 credits

A study of organisms inhabiting marine and estuarine environments including structural and functional adaptations to these ecological regions. Emphasis will be placed on ecological principles involving marine organisms.

Course includes laboratory.

Prerequisites: Biology 2217, Chemistry 1103;

Pre- or co-requisite: Chemistry 1104.

2265; 2266; 3365, 3366 SPECIAL TOPICS IN BIOLOGY 4 credits

The study of a selected topic in the discipline. Different topics are chosen for each offering, based on students' interests and needs.

2295; 2296; 3395; 3396 INTERNSHIP IN BIOLOGY 0 - 4 credits

Supervised field experiences in appropriate settings, usually off-campus, designed to assist students in acquiring and using skills and knowledge of the discipline unique to the selected topic.

2298; 2299; 3398; 3399; 4498; 4499 INDEPENDENT STUDY IN BIOLOGY 0 - 4 credits

Directed study planned and conducted with reference to the needs of those students who are candidates for departmental honors. Qualified students who are not candidates for such honors but who desire to do independent studies are also admitted with permission of the department.

Business Administration

Professors Law (Department Chair), Claycombe, J. Olsh, and Seidel; Associate Professors Milstein and Singer; Lecturers Carter and McDonald.

Areas of particular teaching interest:

Professor Law: international economics, macroeconomics; Professor Claycombe: industrial organization, managerial economics; Professor Olsh: economic development, history of economic thought; Professor Seidel: money and banking; Professor Milstein: intermediate and advanced accounting; Professor Singer: auditing and taxation.

Students major in this department to prepare for careers in business and finance; for careers in government such as economic analysis, administration, and foreign service; and, by completing graduate study in a university, for professional careers in law, business, and economics. A student may also prepare to teach social studies in public secondary schools (middle/high school).

Basic Major:

Required courses:

Business Administration 1101, 1102; Economics 2201, 3303, 3320; Statistics 2215, 2216; four hours of mathematics; four hours from Economics 3304, 3310, 3319, 3326, 3327; four hours from Business Administration 2201, 2209, 2213, 2215, 3323, 3324;

four hours from Business Administration 2205, 2214, 2220, 3305, 3316, 3325; four hours from English 2203, 2208, 2212 or Communication 1110.

Other Educational Options in Business Administration:

Because of the substantial number of Economics courses required by the major, many students complete either a dual or double major with Economics which combines the advantages of both theoretical and applied disciplines.

**1101, 1102 PRINCIPLES OF ACCOUNTING
4, 4 credits**

Fundamental principles of accounting with emphasis on the preparation and interpretation of financial statements. Attention is given to the collection and reporting of pertinent information for creditors, management, and investors. The second semester includes the preparation of data for internal management purposes; the collection, presentation, and interpretation of information for the purposes of decision-making, cost control, and managerial planning.

Prerequisite: Mathematics 0001 or 0003.

**2201, 2202 INTERMEDIATE ACCOUNTING
4, 4 credits**

A comprehensive treatment of accounting theory and practice emphasizing accounting principles, techniques and procedures of evaluation, problem solving, and report preparation.

Prerequisites: Business Administration 1101, 1102.

**2205 THE LEGAL ENVIRONMENT OF BUSINESS
4 credits**

The nature of the court system, constitutional law, and legislation. Topics covered include law by judicial decision, law by administrative agencies, and the regulation of business and taxation.

Special attention is given to antitrust law and the law of employment and labor relations.

**2209 PRINCIPLES OF MARKETING
4 credits**

An introduction to the marketing function. The focus is primarily on "for profit" firms and their approaches to the marketing discipline. The course tests the student's mastery of fundamental marketing concepts, principles, and definitions. Several case studies supplement the required texts and lecture contents.

**2210 ETHICS AND BUSINESS
4 credits**

A consideration of some of the major ethical issues in business: the profit motive and the public good, social responsibility of corporations, environmental concerns, consumer and employee relations, the role of the state, advertising practices, conflict of interest and of obligation, and hiring practices.

Humanities.

Cross listed with Philosophy 2210.

Offered as needed

**2212 TAX ACCOUNTING
4 credits**

Theoretical and practical analysis of federal taxation under the current Internal Revenue Code as it relates to individuals, corporations, and partnerships. Includes preparation of federal tax forms.

Prerequisite: Business Administration 1102.

**2213 AUDITING
4 credits**

A basic study of the standards and procedures followed in the audit of financial statements.

Prerequisites: Business Administration 1101, 1102.

Offered in 1997-1998 and alternate years.

**2214 PRINCIPLES OF MANAGEMENT
4 credits**

An introduction to the management function, focusing on the theory and fundamental concepts of management including planning, organization, leadership, and control. The class reviews the evolution of management thought, function, and practice and stresses current approaches and emerging concepts. Several case studies and a research project supplement the required text and lecture contents.

**2215 COST ACCOUNTING: A MANAGERIAL
EMPHASIS
4 credits**

The role of accounting information in management decision making. Particular emphasis is placed on internal planning and control regarding such topics as manufacturing costs under job order, process, and standard cost accounting systems, variance analysis, budgeting, direct and absorption costing, and tax planning.

Prerequisite: Business Administration 1102.

2220 PSYCHOLOGY IN THE WORKPLACE
4 credits

An exploration of the principles of psychology as they are relevant to the work environment. Included will be a discussion of how psychologists can help improve the workplace and address organizational concerns. Topics include selection, training, personnel evaluation, and the characteristics of a variety of work environments. Discussions will also consider how these practices may affect organizational or individual effectiveness and attitudes.

Prerequisite, Psychology 1106.
Cross listed with Psychology 2220.

3301 ADVANCED ACCOUNTING
4 credits

A study of advanced topics in accounting, including partnerships, business combinations, consolidated financial statements, foreign currency transactions and translation, branches, governmental accounting, and nonprofit accounting

Prerequisite, Business Administration 2201, 2202.

3305 PUBLIC ADMINISTRATION
4 credits

An examination of the nature and development of public administration in the United States with attention to policies of organization, management, personnel, budgeting, forms of administrative responsibility, and governmental services.

Social Science.
Cross listed with Political Science 3305.

3316 COMPLEX ORGANIZATIONS
4 credits

An introduction to the structure, function, social systems and interpersonal behavior within complex organizations. Special emphasis is given to both gender and cultural differences in organizational interactions. Cross-cultural organizational norms provide the basis for exploring divergent cultural.

Prerequisite, Sociology 1103.
Cross listed with Sociology 3316.

3323 CORPORATE FINANCE AND FINANCIAL MANAGEMENT
4 credits

The management of business funds, with emphasis on the techniques of financial analysis, the financial environment in which firms operate, the sources and forms of external financing, and the allocation of funds to competing alternatives such as plant and equipment, working capital, and financial investment.

Prerequisites, Business Administration 1101, and Statistics 2215, or permission of the instructor.

3324 MANAGERIAL ECONOMICS
4 credits

The application of economic theory and quantitative methods to solve business problems. Emphasis is on analysis of demand, cost, and profit under conditions of imperfect information and uncertainty. Business pricing strategies receive special attention.

Prerequisite, Economics 2201, or permission of the instructor.

Cross listed with Economics 3324.

Offered in alternate years.

3325 MANAGING SYSTEMS IN A MACRO ENVIRONMENT
4 credits

The integration of concepts from human service organizations, culture, groups, and thinking styles with contemporary human relations issues in the American workplace. Ethnicity, changing societal norms, gender, and employee assistance programs are emphasized. Students work in small groups and do analytical study with private and public work organizations. Students will be involved in field experiences with community organizations.

Prerequisite, Sociology 1103.

Social Science.

Cross listed with Social Work 3325 and Sociology 3325.

4490 SENIOR THESIS
1 - 4 credits

Directed individual research and writing. Open only to business administration majors. Honors students are normally expected to register for 3-4 semester hours.

**4491; 4492 ECONOMICS AND BUSINESS
ADMINISTRATION COLLOQUIUM
1, 1 credit**

Readings and group discussions. Significant works in economics and business administration are read and analyzed.

This course is open to all senior business administration majors.

Prerequisite: Economics 2201, or permission of the instructor.

Cross listed with Economics 4491; 4492

**4494 SENIOR SEMINAR IN ECONOMICS AND
BUSINESS ADMINISTRATION
2 credits**

In written and oral form, students will integrate methodology and theory from various courses and focus upon specific business and economic problems of contemporary importance.

Cross listed with Economics 4494.

**2265; 2266; 3365; 3366; 4465; 4466
SPECIAL TOPICS IN BUSINESS
ADMINISTRATION
4 credits**

The study of a selected topic in the discipline. Different topics are chosen for each offering, based on students' interest and needs.

**2295; 2296; 3395; 3396; 4495; 4496
INTERNSHIPS IN BUSINESS ADMINISTRATION
0 - 4 credits**

Supervised field experiences in appropriate settings, usually off-campus, designed to assist students in acquiring and using skills and knowledge of the discipline unique to the selected topic.

**2298; 2299; 3398; 3399; 4498; 4499
INDEPENDENT STUDIES IN BUSINESS
ADMINISTRATION
0 - 4 credits**

Directed study planned and conducted with reference to the needs of those students who are candidates for departmental honors. Qualified students who are not candidates for such honors but who desire to do independent studies are also admitted with permission of the Department.

Chemistry

Professors Herlocker (Department Chair), Jones, and R. H. Smith; Associate Professor Rouzer; Assistant Professor Wladkowski.

Areas of particular teaching interest:

Professor Herlocker: preparation and properties of transition metal complexes; Professor Jones: computer applications to chemistry, chemical education, analytical and clinical chemistry; Professor Smith: computational and experimental studies in the mechanism of action of anti-AIDS and cancer chemotherapeutic agents; Professor Rouzer: biochemistry and pharmacology of cancer chemotherapeutic agents, DNA alkylation by endogenous agents; Professor Wladkowski: computational studies of enzyme reaction mechanisms.

The offerings in chemistry are intended to provide the essential background for students electing a major in the subject to qualify for graduate study, government and industrial work, and secondary education. When the offerings are combined with the appropriate courses in biology, students would be qualified for admission to medical, dental, veterinary, and optometry programs, as well as graduate programs in medicinal chemistry, clinical chemistry, biochemistry, environmental studies, pharmacy, pharmacology, and related fields. The program in chemistry meets the undergraduate professional standards of and is certified by the American Chemical Society.

Extensive use is made of off-campus internships and on-campus summer research assistantships to give students practical experience in their chosen profession.

Basic Major:

Required Courses:

Chemistry 1103, 1104, 2201, 2217, 2218, 2219, 3307, 3308, 4492*, and at least one additional four hour course; Mathematics 1117, 1118, or the equivalent; Physics 1101, 1102.

* This course fulfills the capstone requirement in chemistry.

Other Educational Options in Chemistry:

American Chemical Society Certified Chemistry Major, Biochemistry, Exercise Science, Pre-Professional Curriculum for the Health Sciences, Industry, Teacher Certification Secondary (middle/high school).

1103, 1104 GENERAL CHEMISTRY I, II 4, 4 credits

A study of the fundamental laws and theories of chemistry. The first semester is concerned with a study of matter in its various forms, with emphasis on bonding and structure. The second semester is concerned with the reactions of matter, with emphasis on equilibria. Molecular modelling experiments will be included during each semester's laboratory. *Courses include laboratory.*

Prerequisites: Mathematics 0001 or 0003,
Mathematics 0002 or 0004.
Natural Science and Mathematics.

1121 ESSENTIALS OF GENERAL, ORGANIC, AND BIOCHEMISTRY 4 credits

A study of the fundamental laws of chemistry, including atomic structure, chemical periodicity, reaction kinetics, equilibria, redox reactions, pH, and an introduction to organic and biochemistry covering nomenclature, reactions, and the major classes of biomolecules (carbohydrates, proteins, lipids, and nucleic acids).

Course includes laboratory.
Prerequisites: Mathematics 0001 or 0003,
Mathematics 0002 or 0004.
Natural Science and Mathematics.

2201 ELECTRONIC LITERATURE SEARCHING FOR THE CHEMICAL SCIENCES 1 credit

An introduction to searching the scientific literature using electronic databases (STN International). Specific instruction is given to the commands, techniques, and strategies used in electronic literature searching. The course specifically provides instruction in searching, but is not limited to, Chemical Abstracts On-Line and Biosis.

This course does not satisfy the Natural Science and Mathematics requirement.

2202 CHEMISTRY OF THE ELEMENTS 4 credits

A study of the synthesis, distribution, and chemistry of the elements. Emphasis is on the properties of important metallic and non-metallic compounds, their laboratory and industrial preparations, and their important reactions.

Prerequisite: Chemistry 1104.
Offered in 1997-1998 and alternate years.

2210 PHYSICAL CHEMISTRY FOR THE LIFE SCIENCES 4 credits

An introduction to the elements of thermodynamics, quantum mechanics, and chemical dynamics of life processes.

Prerequisites: Chemistry 1104, Mathematics 1117.
Offered in 1998-1999 and alternate years.

2217, 2218 ORGANIC CHEMISTRY I, II 4, 4 credits

A systematic study of the compounds of carbon based upon functional reactivity with emphasis on the physicochemical approach to reaction mechanisms. A coordinated laboratory incorporates classical techniques (recrystallization, distillation, and extraction), analytical methods (chromatography and spectroscopy), and molecular modelling. Qualitative analysis of organic compounds comprises half of the second semester laboratory.

Courses include laboratory.
Prerequisite: Chemistry 1104.

2219 QUANTITATIVE ANALYSIS 4 credits

Theory of titrimetric and gravimetric procedures; problems of and in sampling; statistical treatment of results for reliability; application and use of elementary procedures such as spectrophotometry (UV, IR, and Flame Emission), chromatography, and potentiometry. When possible the laboratory emphasizes clinical applications.

Course includes laboratory.
Prerequisite: Chemistry 1104.
Offered in 1998-1999 and alternate years.

3307, 3308 PHYSICAL CHEMISTRY I, II 4, 4 credits

A mathematical study of the laws of thermodynamics, equilibria, electrochemistry, chemical kinetics, and introductory quantum and statistical mechanics. Sufficient computer programming is introduced in the laboratory to allow treatment and interpretation of laboratory data.

Courses include laboratory.
Prerequisites: Chemistry 1104, Physics 1102,
Mathematics 1118, or permission of the instructor;
Chemistry 2219 is strongly recommended.
Physical Chemistry I is cross listed with Physics 3307.

3319 BIOCHEMISTRY I**4 credits**

An in-depth study of the structure and function of biological macromolecules, including techniques used for their isolation and characterization. The course provides an exploration of enzyme kinetics, mechanism, and regulation and an investigation of major catabolic pathways including principles of bioenergetics and membrane function. Studies will include an independent, extensive survey of the biochemical literature, and a written and oral report on a topic of interest to the student.

Prerequisite: Chemistry 2218; Biology 1111, 1112 and Chemistry 2201 are strongly recommended.

Credit may not be received for both Chemistry 3319 and 3321.

3321 BIOCHEMISTRY I (LAB)**4 credits**

An in-depth study of the structure and function of biological macromolecules, including techniques used for their isolation and characterization. This course provides an exploration of enzyme kinetics, mechanisms, and regulation and an investigation of major catabolic pathways including principles of bioenergetics and membrane function. The laboratory includes aspects of protein purification, enzyme kinetics, electrophoresis and blotting techniques, metabolic studies, and an introduction to the computerized molecular modeling of macromolecules.

Course includes laboratory.

Prerequisite: Chemistry 2218; Biology 1111, 1112 and Chemistry 2201 are strongly recommended.

Credit may not be received for both Chemistry 3319 and 3321.

3322 BIOCHEMISTRY II**4 credits**

Metabolism, including major anabolic pathways, followed by advanced topics in biochemistry, which will focus on the biochemistry of the cell-receptor function. Membrane receptor structure, the analysis of receptor-ligand interactions, and the enzymology of signal transduction will be included. Emphasis will be placed on use of the original scientific literature and the molecular modeling of proteins.

Prerequisites: Chemistry 2201 or permission of the instructor; Chemistry 3319 or 3321.

3326 ADVANCED ORGANIC CHEMISTRY**4 credits**

A study of physical organic chemistry (kinetics and linear free energy relationships) and topics selected from ^{13}C NMR, molecular rearrangements, photochemistry, and heterocyclic compounds, with emphasis on the content and use of current literature. Extensive molecular modeling will be used to answer chemical questions.

Prerequisites: Chemistry 2201, 2218.

Offered in 1997-1998 and alternate years.

4402 INTRODUCTORY QUANTUM MECHANICS**4 credits**

Origins of quantum theory, the Schrödinger equation, physical meaning of quantum mechanics, solutions of one- and three-dimensional problems.

Prerequisites: Chemistry 3308 or Physics 2204, 2211.

Cross listed with Physics 4402.

Offered as needed.

4406 INSTRUMENTAL TECHNIQUES**4 credits**

Theory and practice in obtaining chemical data with instruments, with emphasis on the quantitative aspects. Studies include electrochemical techniques such as polarography, stripping analysis, amperometry, advanced chromatographic techniques, NMR, Mass Spectrometry, X-ray, Laser usage, and laboratory computer applications.

Course includes laboratory.

Prerequisites: Chemistry 2219, 3307.

Pre- or co-requisite: Chemistry 3308.

Offered as needed.

4412 INORGANIC CHEMISTRY**4 credits**

A survey of topics which comprise the broad area of inorganic chemistry. The topics studied will include atomic and molecular structure, solid state behavior, elements of symmetry, acid-base theory, non-aqueous solvents, and structures and properties of transition metal and organometallic compounds.

Prerequisites: Chemistry 2218, 3307.

Offered in 1998-1999 and alternate years.

4492 CHEMISTRY SEMINAR 1 credit

Presentation of laboratory or literature findings on current topics of chemical interest by students, faculty, and visiting lecturers. This course is the capstone experience in chemistry and is required of all senior chemistry majors, bio-chemistry majors, and chemistry-exercise science majors. Juniors and non-majors may be admitted by permission of the department.

Prerequisite: Chemistry 2201.

2265; 2266; 3365; 3366; 4465; 4466 SPECIAL TOPICS IN CHEMISTRY 4 credits

The study of a selected topic in the discipline. Different topics are chosen for each offering, based on students' interests and needs.

2295; 2296; 3395; 3396; 4495; 4496 INTERNSHIPS IN CHEMISTRY 0 - 4 credits

Supervised field experiences in appropriate settings, usually off-campus, designed to assist students in acquiring and using skills and knowledge of the discipline unique to the selected topic.

2298; 2299; 3398; 3399; 4498; 4499 INDEPENDENT STUDIES IN CHEMISTRY 0 - 4 credits

Directed study planned and conducted with reference to the needs of those students who are candidates for departmental honors. Qualified students who are not candidates for such honors but who desire to do independent studies are also admitted with permission of the Department.

Classical Civilizations

Associate Professor D. Evergates

Areas of particular teaching interest:
Professor Evergates: Greek and Roman history, literature, archaeology.

No major is offered in this field. A minor in Classical Civilizations is available through the Department of History; see the *Guidance Bulletin* for required courses.

Communication

Professor Sapora; Associate Professor R. Miller; Assistant Professors Dillman, Kirschner, Lemieux, and Meyer (Department Chair).

Areas of particular teaching interest:

Professor Sapora: linguistics, film history and criticism; Professor Miller: acting, film analysis; Professor Dillman: systems theory and information; Professor Kirschner: critical theory and cultural studies, qualitative and interpretive research methods; Professor Lemieux: relational communication, persuasion; Professor Meyer: language and discourse.

The major program in communication deals with the process, function, history, and analysis of human communication. The program prepares students for graduate work in communication theory, interpersonal communication, and mass communication; and for professional careers in the many fields that require a knowledge of communication theory and the possession of effective communication skills.

Basic Major:

Required Courses:

Communication 1102, 1103, 1110, 2202; Statistics 2215; two courses chosen from English 2204, 2206 or 2207, 2208, 2212, Statistics 2216, Theatre Arts 1113, 3328; four additional four-credit courses at the 3000 level or above including at least one capstone course (internships do not apply).

Other Educational Options in Communication:

Minor in communication; mentoring programs in Systems Analysis and Film Production; dual majors in Art and Communication, English and Communication, Theatre Arts and Communication. See *Guidance Bulletin* for details.

1102 INTERPERSONAL COMMUNICATION 4 credits

A broad historical and theoretical introduction to the study of human communication in the context of face-to-face and small group interaction. Homework and classroom participation put a strong emphasis on writing and speaking.

1103 MASS COMMUNICATION**4 credits**

A broad historical and theoretical introduction to the study of human communication in the context of organizations and audiences. Homework and classroom participation put a strong emphasis on writing and speaking.

1110 PUBLIC SPEAKING**4 credits**

The practical application of basic principles and techniques of public speaking. This is an introductory course designed to prepare students to meet a variety of public oral communication situations.

1149 FILMMAKING: APPRENTICESHIP**1 credit**

The first step in the filmmaker's mentorship. Students will introduce fellow filmmakers to their favorite, life-forming films and begin to cultivate a filmmaker's journal. Also, students will assist advanced students, in the capacity of production assistants, with their upper-level film projects.

Prerequisite, permission of instructor.

2202 COMMUNICATION RESEARCH METHODS**4 credits**

The purposes and methods of formal research in the study of human communication. The main focus of this course is the communication research process. Quantitative and qualitative methods appropriate to the study of interpersonal and mass communication are introduced.

Prerequisites, Communication 1102, 1103 and Statistics 2215.

Social Science.

2249 FILMMAKING: PRODUCTION DESIGN**1 credit**

A continuation of the filmmaker's mentorship. Students will research, design, script, budget, and propose a film project for Communication 3349 First Production. Students continue to assist upper-level filmmakers with their productions.

Prerequisite, Communication 1149.

2291 SOPHOMORE SYSTEMS PROBLEM**1 credit**

The systems analysis mentorship. Under the direction of the instructor, students conduct a project that introduces them to the problem-solving frameworks of systems analysis. The normal output of the project is a written feasibility report.

Prerequisite, permission of instructor.

3306 APPROACHES TO THE STUDY OF LANGUAGE**4 credits**

An introduction to the principles and methods of linguistics. This course surveys the history of the linguistic enterprise (including the application of linguistic findings to teaching in the schools) and provides a linguistic analysis of the history of the English language.

Humanities.

Cross listed with English 3306.

3314 LANGUAGE AND DISCOURSE**4 credits**

An analysis of the rules of social interaction and the functions of language in discourse. Topics include the fundamental features of language, its scope and its acquisition, the structure of conversation, conversational rules, and conversational styles. The course provides instruction in research methods for conversation analysis and discourse analysis.

Prerequisite, Communication 2202.

3321 THE ORIGINS OF HUMAN**COMMUNICATION****4 credits**

The development of human communication by close examination of the evolution of modern humans. Students read about and discuss archeologists' continuing search for human origins, prehistoric cave art, the evolution of language, and the invention of writing. Particular attention is given to theories concerning how nonverbal communication first developed and how and why verbal communication evolved.

Prerequisite, Communication 2202.

3322 FROM ORALITY TO PRINT**4 credits**

The social, aesthetic, and psycho-dynamic consequences of the advent of manuscript and print cultures. Beginning with a survey of pre-literate oral cultures, this course explores the work of W. J. Ong, Roland Barthes, W. V. Quine, and other theorists.

Prerequisite, Communication 2202.

3323 THE AGE OF INFORMATION **4 credits**

The personal and institutional implications of the employment of electronic mediated communication systems such as the telephone, television, and internet. Particular attention is paid to current thought regarding the development of new communication technologies.

Prerequisite, Communication 2202.

3326 ORGANIZATIONAL COMMUNICATION **4 credits**

An examination of the communicative practices employed by organizations in their internal and external activities. Topics include: historical and current approaches to the study of organization communication; the development and application of theory to organizational communication problems; research methods used to evaluate organizations and their communicative practices. Students conduct on-site field studies and prepare written and oral presentations of their findings.

Prerequisite, Communication 2202.

3330 FILM ANALYSIS **4 credits**

A study of film history and aesthetics and the techniques of film analysis. This course traces the process of filmmaking from script to screen. The course includes a weekly three-hour film viewing session.

Prerequisite, Communication 2202.

Humanities.

3332 TELEVISION ANALYSIS AND CRITICISM **4 credits**

An introduction to analytical and critical theory in the study of television. Topics include analysis of television organization, content and structure, and critical approaches to television text. The course includes a weekly two-hour television viewing/discussion session.

Prerequisite, Junior/senior standing.

3333 FICTION INTO FILM **4 credits**

The process by which film adapts literary works. The course considers adaptations from short fiction, novels, and dramatic literature, exploring the formal traits unique to each individual genre, the formal traits shared by more than one genre, and the capacity of film adaptation to retain and transform narrative content. Students will write critical essays and a filmscript adapted from a piece of short fiction. The course includes a weekly three-hour film viewing session.

Prerequisite, Communication 2202.

Humanities

3334 SEMIOTICS OF PHOTOGRAPHY AND FILM **4 credits**

Notions of foundational semiotic thinkers in the context of still photographs and film passages. Students will attend especially to such issues as the arbitrariness of signs, iconic vs. symbolic representation, paradigmatic choice and syntagmatic appropriateness, codes, the variability of codes, the cultural and economic determinants of codes, and mythopoeia.

Prerequisite, Communication 2202.

Humanities

3349 FILMMAKING: FIRST PRODUCTION **1 credit**

A continuation of the filmmaker's mentorship. Students execute the proposal developed and approved in Communication 2249.

Prerequisite, Communication 2249.

3351 GENDER AND COMMUNICATION **4 credits**

Theoretical perspectives and current research on the relationships between gender and communication. This course explores the contributions human communication makes to the construction of gender and gender identity. Verbal and non-verbal communication are examined in a variety of context such as the family, educational institutions, the workplace, intimacy, and the mass media.

Prerequisite, Communication 2202.

3352 INTERCULTURAL COMMUNICATION **4 credits**

The influence of culture on communication processes. This course investigates the impact of values, languages, and nonverbal behavior on intercultural interaction. Topics include individualistic versus collectivistic cultures, high-context versus low-context cultures, proxemics, chronemics, verbal styles, and other aspects of cultural variability in communication patterns.

Prerequisite: Communication 2202.

3371 GENERAL SYSTEMS THEORY **4 credits**

An investigation of the fundamental principles that underlie this important way of thinking about the world. Topics include observation, definition, boundary, identity, relationship, process, stability, communication, information, and autopoiesis.

Prerequisite: Junior/senior standing.

3372 INFORMATION THEORY **4 credits**

Information theory and its implications in human communication. Topics include difference, pattern, data, variety, rule, code, noise, uncertainty, entropy, information, language and complexity.

Prerequisite: Communication 2202 or permission of the instructor.

3391 JUNIOR SYSTEMS PROBLEM **1 credit**

A continuation of the systems analysis mentorship. Under the direction of the instructor, students work in small groups to solve specific problems. The expected output of the project is a solution to the problem. During the course, students also develop their individual proposals for the senior systems project.

Prerequisite: Communication 2291.

4449 FILMMAKING: FEATURE PRODUCTION **1 credit**

The conclusion of the filmmaker's mentorship. Students who enroll in this course will complete the production of a feature film proposed in Communication 2249 and started in Communication 3349.

Prerequisites: Communication 3349 and permission of the instructor.

4491 SENIOR SYSTEMS PROBLEM **1 credit**

The conclusion of the systems analysis mentorship. Each student identifies and attempts to solve a problem. Project proposals are normally developed during the preceding spring, initiated in the fall, and completed in the spring of the senior year. The expected output is a public talk that describes the problem and presents its solution.

Prerequisite: Communication 3391.

4593 SEMINAR IN LANGUAGE AND DISCOURSE **4 credits**

A review of current thought in language and communication, focusing on sociolinguistics, discourse analysis, and conversation analysis. This capstone seminar requires each student to design, execute, and present a significant research project.

Prerequisite: Communication 2202.

4594 SEMINAR IN RELATIONAL COMMUNICATION **4 credits**

A review of current thought on the development and maintenance of private, organizational, and public relationships. This capstone seminar requires each student to design, execute, and present a significant research project.

Prerequisite: Communication 2202.

4495 SEMINAR IN COMMUNICATION MEDIA AND INFORMATION SYSTEMS **4 credits**

A review of current thought on the relationships among communication media, information systems and human communication processes. This capstone seminar requires each student to design, execute, and present a significant research project.

Prerequisite: Communication 2202.

2265; 2266; 3365; 3366; 4465; 4466 **SPECIAL TOPICS IN COMMUNICATION** **4 credits**

The study of a selected topic in the discipline. Different topics are chosen for each offering, based on students' interests and needs.

2295; 2296; 3395; 3396; 4495; 4496
INTERNSHIP IN COMMUNICATION
0 - 4 credits

Supervised field experiences in appropriate settings, usually off-campus, designed to assist students in acquiring and using skills and knowledge of the discipline unique to the selected topic.

2298; 2299; 3398; 3399; 4498; 4499
INDEPENDENT STUDIES IN COMMUNICATION
0 - 4 credits

Directed study planned and conducted with reference to the needs of those students who are candidates for departmental honors. Qualified students who are not candidates for such honors but who desire to do independent studies are also admitted with permission of the Department.

Comparative Literature

Professor Panek (Director); Associate Professor D. Evergates; Senior Lecturer N. Palmer; other faculty members from the departments involved.

No major is offered in this field. A minor in Comparative Literature is available through the Department of English; see the *Guidance Bulletin* for required courses.

1125 STUDIES IN HISPANIC LITERATURE IN ENGLISH TRANSLATION
4 credits

Spanish and Spanish American literature in translation. The topic changes each year.

Humanities.

Cross listed with Spanish 1125.

2209 AMERICAN AND JAPANESE FICTION IN THE TWENTIETH CENTURY
4 credits

A study of representative twentieth century novelists of Japan and the American South, with focus on the conflict between tradition and modernization.

Prerequisite: permission of the instructor.

Global Perspective, Humanities.

Cross listed with Cross Cultural Studies 2209.

2219 GREAT WORKS OF THE WESTERN WORLD I
4 credits

Representative masterworks of European culture from ancient times through the Renaissance.

Heritage Sequence, Humanities.

2220 GREAT WORKS OF THE WESTERN WORLD II
4 credits

Studies in dramatic literature, theatre practice, and performance theory since 1960.

Humanities.

Cross listed with Theatre Arts 2227.

Offered in 1998-1999 and every third year.

2255 TOPICS IN CLASSICAL LITERATURE
4 credits

A study of outstanding literary works of the classical world. Emphasis is on studying ancient authors and genres in their original context and analyzing them in the light of modern literature and criticism. Although readings will be in English, language students who have completed Latin 1102 may choose to study some texts in the original language and continue the study of grammar and composition at the intermediate level. Topics include poetry, comic and tragic drama, narrative, and the ancient novel.

Prerequisite: Latin 1102.

Foreign Language, Humanities.

Cross listed with Latin 2255.

3321 COMPARATIVE MYTHOLOGY**4 credits**

A study of the myth-making process and the major mythological types and themes.

Global Perspective, Humanities.

Cross listed with Cross Cultural Studies 3321 and Religious Studies 3321.

2265; 2266; 3365; 3366 SPECIAL TOPICS IN COMPARATIVE LITERATURE**4 credits**

The study of a selected topic in the discipline.

Different topics are chosen for each offering, based on students' interests and needs.

2298; 2299; 3398; 3399 INDEPENDENT STUDIES IN COMPARATIVE LITERATURE**0 - 4 credits**

Directed study planned and conducted with reference to the needs of those students who are candidates for departmental honors. Qualified students who are not candidates for such honors but who desire to do independent studies are also admitted with permission of the Department.

Computer Science

Associate Professor Eshleman

Areas of particular teaching interest:

Professor Eshleman: programming languages, computer architecture, numerical methods.

No major is offered in this field. However, computing can be included in a student's major in several ways. The program in mathematics with a concentration in computer science provides a solid foundation for a career in professional computing or for graduate study in computer science.

The College's computing facilities include public access microcomputer labs equipped with Macintosh and IBM microcomputers and a calculus *Mathematica* lab in the Department of Mathematics and Computer Science.

1101 INTRODUCTION TO COMPUTER-HUMAN INTERFACE**4 credits**

A study of computer systems as part of the larger social institutions and culture in which they are embedded. Basic content includes history, jargon, overview of computer architectures or systems, social and ethical aspects of computers, computing vs. information processing, some in-depth focus of computers in one "domain," reduction of

computer anxiety, and some development of hands-on mastery with one software or programming/design environment.

1105 INFORMATION PROCESSING IN THE LIBERAL ARTS ENVIRONMENT**4 credits**

An introduction to the use of microcomputers for liberal arts students. This course will provide hands-on experience with various techniques for information processing and retrieval. Included will be use of the software tools of word processors, databases, and spreadsheets, the Macintosh and DOS operating systems, and using network facilities for educational and research purposes.

1106 FUNDAMENTALS OF COMPUTING I**4 credits**

An introduction to standard computer programming techniques including problem analysis, algorithm design, program coding, testing and documentation.

Prerequisites: Mathematics 0001 or 0003, Mathematics 0002 or 0004.

1107 FUNDAMENTAL OF COMPUTING II**4 credits**

This course moves students into the domain of software design, introducing principles necessary for solving large problems and team programming techniques. Topics to be treated include abstract data types, specifications, trade-offs among different implementation strategies (such as lists vs. arrays), and complexity analysis. Basic data structures (queues, stacks, trees, sets, and graphs) and transformations (sorting and searching) are introduced as fundamental tools used to aid the software design process.

Prerequisite: Computer Science 1106.

2210 INTRODUCTION TO NUMERICAL METHODS**4 credits**

An introduction to numerical methods for solving problems from calculus and linear algebra, including the solution of a single nonlinear equation, the solution of linear systems, interpolation and approximation, differentiation and integration, and the solution of eigenvalue problems.

Prerequisites: Computer Science 1106, Mathematics 2218.

Cross listed with Mathematics 2210.

Offered in 1997-1998 and alternate years.

3301 COMPUTER ORGANIZATION **4 credits**

An Introduction to computer organization: memory, processors, input/output, virtual machines, and assembly language.

Prerequisite. Computer Science 1107.

Offered in 1997-1998 and alternate years.

3303 MODELING AND SIMULATION **4 credits**

Concepts of modeling and simulating systems and objects using software tools such as object-oriented or simulation languages. Representative example systems will be drawn from the natural and social sciences. Topics include system abstraction and analysis, discrete event representation, the problem of random number generation on a computer, result verification, and comparison of simulation environments. Basic statistical principles will be reviewed.

Prerequisites. Computer Science 1106, 1107.

Offered as needed.

2265; 2266; 3365; 3366 SPECIAL TOPICS **IN COMPUTER SCIENCE** **4 credits**

The study of a selected topic in the discipline. Different topics are chosen for each offering, based on students' interests and needs.

2295; 2296; 3395; 3396 INTERSHIPS IN **COMPUTER SCIENCE** **0 - 4 credits**

Supervised field experiences in appropriate settings, usually off-campus, designed to assist students in acquiring and using skills and knowledge of the discipline unique to the selected topic.

2298; 2299; 3398; 3399 INDEPENDENT **STUDIES IN COMPUTER SCIENCE** **0 - 4 credits**

Directed study planned and conducted with reference to the needs of those students who are candidates for departmental honors. Qualified students who are not candidates for such honors but who desire to do independent studies are also admitted with permission of the Department.

Cross Cultural Studies

Associate Professor Leahy (Coordinator); and faculty members from the departments involved.

No major is offered in this field. A minor in Cross Cultural Studies. Please contact Professor Leahy. See

the *Guidance Bulletin* for required courses.

1101 INTRODUCTION TO CHINESE CIVILIZATION **4 credits**

A study of the historical development of Chinese civilization through an examination of philosophies, religions, literatures, arts, politics, economics, and relations with foreign countries (especially Russia, Korea, Japan, Vietnam, and the U.S.). The role of Confucian ethic and Daoist naturalism in the formation of the Chinese value system is a focus of the course.

Global Perspective.

1102 SOUTH ASIAN CIVILIZATIONS **4 credits**

A general introduction to the civilizations of South Asia (the Indian subcontinent). The course deals with the heritage from ancient times to the present and includes a study of the history, religion, art, social conditions, politics, and economics of the area.

Global Perspective.

1108 CULTURAL ANTHROPOLOGY **4 credits**

A study of culture with material drawn from pre-industrial, complex, and developing societies. The course examines the increasingly complex social, economic, and political relationships between cultures and nations from both a historical and modern perspective.

Global Perspective, Social Science.

Cross listed with Sociology 1108.

1120 JAPAN: THE LAND OF CONTRAST **4 credits**

A study of Japan's synthesis of Eastern and Western cultures. The focus will be on the old and the new in philosophy, religion, literature, politics, and economics.

Global Perspective.

1123 THE FRENCH-SPEAKING WORLD **4 credits**

An examination of French-speaking countries outside of Europe—especially Africa and the Caribbean—prior to, during, and after the establishment of French colonial rule. Special attention is given to the ways different cultures have reacted, in economic, religious, sociological, artistic, and literary spheres, to the experience of French hegemony.

This course is taught in English.

Global Perspective, Humanities.

Cross listed with French 1123.

2202 ZEN AND CREATIVITY**4 credits**

A study of Zen's way of life through a close look at the Zen classics, Zen practices, and the poetry and paintings which successfully express the Zen attitude in life. The Zen view of beauty (both in nature and art) and Zen exercises such as Chinese calligraphy, meditation, and discussions of koan (paradoxes) will be included.

Global Perspective, Humanities.

Cross listed with Philosophy 2202.

A study of representative twentieth century novelists of Japan and the American South, with a focus on the conflict between tradition and modernization.

Prerequisite: Permission of the instructor.

Global Perspective, Humanities.

Cross listed with Comparative Literature 2209.

2212 WORLD MUSIC**4 credits**

Surveys in musical traditions other than those of the Western European-American stylistic periods.

Global Perspective, Humanities.

Cross listed with Music 2212.

2219 EAST ASIAN PHILOSOPHY**4 credits**

A study of the history and literature of the major East Asian philosophical schools, with emphasis on the presuppositions concerning man and nature. Schools of thought which will receive special attention include Confucianism, Daoism, Mohism, Yin-Yang, Neo-Confucianism, Zen, and Shinto. The course concludes with a comparison of the general characteristics of East Asian philosophy and Western philosophy.

Global Perspective, Humanities.

Cross listed with Philosophy 2219.

2221 GANDHI AND TAGORE: THEIR IMPACT ON TWENTIETH CENTURY INDIA**4 credits**

The influence on modern India of the lives and thoughts of two giants in politics and literature. Special attention is given to Gandhi's understanding of non-violence, to the varied literary output of Tagore, and to both men's contribution to Indian independence. Students will also develop a deeper understanding of the Hindu world-view.

Global Perspective, Humanities.

Cross listed with Religious Studies 2221.

Offered as needed.

2223 CULTURAL HISTORY OF LATIN AMERICA**4 credits**

Historical and contemporary culture of Latin America.

This course is taught in English.

Global Perspective, Humanities.

Cross listed with History 2223 and Spanish 2223.

Offered in alternate years.

2225 THE PHILOSOPHY AND PRACTICE OF TAI CHI**4 credits**

Theory and practice of a Chinese meditative exercise which is calisthenics, martial art, breathing exercises, dance, meditation, and prayer.

Interpretations and critiques of the writings of the Daoist masters such as Lao Zi and Zhuang Zi will be included. The complete Tai Chi sequence of 108 movements will be practiced. The course emphasizes understanding the Daoist philosophy at the level of intellectual cognition as well as at the level of affective penetration and concrete experience.

Global Perspective, Humanities.

Cross listed with Philosophy 2225.

2229 ARTS OF INDIA, CHINA, AND JAPAN**4 credits**

The development of painting, sculpture, and architecture in India, China, and Japan.

Global Perspective, Humanities.

Cross listed with Art History 2229.

Offered in 1998-1999 and alternate years.

2230 PERFORMANCE AND CULTURE**4 credits**

An examination of performance, performance history, and performance theory of non-Western cultures, including those of Asia, Africa, Native America, the Middle East, and South America. Intercultural performance will also be considered with an eye toward the global community.

Global Perspective, Humanities.

Cross Listed with Theatre Arts 2230.

2241 THE ARTS AND ARCHITECTURE OF THE AFRICAN CONTINENT AND BEYOND**4 credits**

A survey of the ancient and traditional arts of the African continent, including North Africa. Works will be discussed as visual reflections of the specific cultural and historical contexts in which they were created. Some consideration will also be given to the influence of these varied artistic traditions on the art and architecture of the Caribbean, America, and especially the modern European artistic traditions

seen in the works of such artists as Picasso, Braque, Matisse, and others.

Global Perspective, Humanities.

Cross listed with Art History 2241.

Prerequisites: Mathematics 0001 or 0003, Mathematics 0002 or 0004.

Social Science.

3303 MICROECONOMIC THEORY **4 credits**

The theory of demand, production, cost, and resource allocation in a market economy. Models of market structure are developed and various forms of market failure are analyzed. Also developed are models of risk and uncertainty and theories of factor pricing and income distribution.

Prerequisite: Economics 2201, or permission of the instructor.

3304 INTERNATIONAL ECONOMICS **4 credits**

Principles of international trade, exchange, and investment; problems of trade restriction, cartels, economic integration, balance of payments, multinational firms, underdeveloped areas of the world, commercial policies of countries of the world.

Prerequisite: Economics 2201, or permission of the instructor.

Offered in alternate years.

3310 MONEY AND BANKING **4 credits**

A study of the history of money and monetary policy, principles and structure of banking, monetary theory, and the international monetary system.

Prerequisite: Economics 2201, or permission of the instructor.

3319 PUBLIC FINANCE **4 credits**

Principles and problems of taxation; the theory, character, and trend of public expenditures; public choice; the sources and effects of public revenue and public indebtedness—national, state, and local.

Prerequisite: Economics 2201, or permission of the instructor.

Offered in alternate years.

3320 MACROECONOMIC THEORY **4 credits**

A study of the theory of national income determination. Monetary and fiscal policies of government and their management for the purpose of price level and employment stabilization are examined. Projects in national income forecasting are undertaken.

Prerequisite: Economics 2201, or permission of the instructor.

3324 MANAGERIAL ECONOMICS **4 credits**

The application of economic theory and quantitative methods for solving business problems. Emphasis is on analysis of demand, cost, and profit under conditions of imperfect information and uncertainty. Business pricing strategies receive special attention.

Prerequisite: Economics 2201, or permission of the instructor.

Cross listed with Business Administration 3324.

Offered in alternate years.

3326 ECONOMIC DEVELOPMENT **4 credits**

The theories of economic growth and development applied particularly to underdeveloped areas of the earth. The interrelationship of economic, political, sociological, historical, and technological factors in growth and development are examined.

Prerequisite: Economics 2201, or permission of the instructor.

Global Perspective, Social Science.

Cross listed with Cross Cultural Studies 3326.

3327 INDUSTRIAL ORGANIZATION AND PUBLIC POLICY**4 credits**

Study of structure, conduct, and performance of industry in the United States as they pertain to the goals and effects of public policy. Emphasis is on antitrust and regulation.

Prerequisite: Economics 2201, or permission of the instructor.

Offered in alternate years.

3387, 4487 READING LIST**1, 1 credit**

Open only to students declaring economics or business administration as a major. Reading is completed during the summer and tested by examination.

4405 THE HISTORY OF ECONOMIC THOUGHT**4 credits**

The development of economic theory from ancient times to the present; contributions of Greece, Rome, and the Middle Ages; major emphasis on mercantilism and nineteenth and twentieth century economic analysis.

Prerequisite: Economics 2201 or permission of the instructor.

Directed individual research and writing. Open only to economics majors. Honors students are normally expected to register for 3-4 semester hours.

Prerequisite: Economics 2201, or permission of the instructor.

4491; 4492 ECONOMICS AND BUSINESS ADMINISTRATION COLLOQUIUM**1, 1 credit**

Readings and group discussion. Significant works in economics and business administration are read and analyzed.

Prerequisite: Economics 2201, or permission of the instructor.

This course is open to all senior economics majors.

Cross listed with Business Administration 4491, 4492.

4494 SENIOR SEMINAR IN ECONOMICS AND BUSINESS ADMINISTRATION**2 credits**

In written and oral form, students will integrate methodology and theory from various courses and focus upon specific business and economic problems of contemporary importance.

Cross listed with Business Administration 4494.

3365, 3366, 4465, 4466 SPECIAL TOPICS IN ECONOMICS**0 - 4 credits**

The study of a selected topic in the discipline. Different topics are chosen for each offering, based on students' interests and needs.

Prerequisite: Economics 2201, or permission of the instructor.

Education

Professors Fennell (Department Chair), Coley, Macht, Pool, and Zirpoli; Associate Professors Behling, Coryell, and Reiff; Assistant Professors Dudley, Kerby, K'Olewe, Orza, Schlossberg, Stone, and Zwicker.

Areas of particular teaching interest:

Professor Fennell: elementary and middle school mathematics, curriculum, and assessment;

Professor Coley: diagnosis and remediation of reading disabilities, comprehension development;

Professor Macht: special education, non-categorical service delivery, behavior problems; Professor

Pool: elementary and middle school curriculum, educational psychology; Professor Zirpoli: behavior

management, TARGET Inc.; Professor

Behling: educational administration, psychology of education; Professor Coryell: deaf education-

theoretical and empirical basis, curriculum and instruction for deaf, hard of hearing pupils;

Professor Reiff: exceptional children; Professor

Dudley: curriculum and instruction, interdisciplinary programs; Professor Kerby: media/library

science, young adult non-fiction; Professor

K'Olewe: curriculum and instruction; teaching in secondary schools; Professor Orza: counseling psy-

chology, empathy and counselor education;

Professor Schlossberg: counseling psychology;

Professor Stone: bilingual, bicultural deaf education, special education administration; Professor

Zwicker: special education (deafness).

No major is offered in this field. Students desiring certification to teach in elementary or secondary schools complete a minor in Education. Students preparing to teach secondary school (middle or high school) select a major in their specialty area; students desiring certification to teach in the elementary school (grades 1-6) select any major, usually one which supports the field such as Communication, English, Mathematics, Sociology, or Psychology. Students receive certification in elementary or the following secondary education

fields: art, biology, chemistry, choral music, English, French, German, instrumental music, mathematics, physical education, physics, social studies, and Spanish. The physical education program also offers a K-12 certification option.

Maryland certification includes certification reciprocity with over 35 other states.

Students who desire certification to teach in the various programs offered should contact the Education Department as early as possible for assistance in planning their programs. A minimum overall GPA of 2.50 and an interview are required for acceptance into the student teaching semester. A state qualifying score on the Core Battery (Professional Knowledge, General Knowledge Communication Skills) and a Specialty Area Test (subject or level) of the National Teacher Exam (NTE) is also a state certification requirement.

All coursework should be planned so that one semester of the senior year may be kept entirely free for student teaching. Teacher certification is addressed in detail in the *Guidance Bulletin*.

Minor in Elementary Education

Required for certification in grades 1-6 (and the middle school):

Education 1141, 2240, 3312, 3314, 3325; Mathematics 1106, 1141; Exercise Science and Physical Education 0043, 1174; Psychology 1106, 2207; History 1108 or 2225; Education Semester: Education 3327, 3329, 4422, 4424.

Minor in Secondary Education

Required for certification in grades 7-12 (middle/high school):

Education 1141, 2240; Education 3340-3350 (choose the appropriate course for area of concentration); Psychology 1106, 3306; Education Semester: Education 3327, 3329, 4432, 4434 (Physical Education K-12 certification students must take Education 4442 and 4444).

Education Semester

During the education semester, all students take Education 3327, 3329 and 8 credits of student teaching at the appropriate level(s).

1141 LEARNING AND TEACHING IN A TECHNOLOGICAL ERA

4 credits

An overview of education in the United States, including identification of pupil characteristics at

all three educational levels: elementary, middle, and high school. The course includes psychology of teaching and learning, related educational foundations, and a research-based introduction to current issues in education. Observations of carefully selected videotapes and/or videodiscs and structured observations in elementary and secondary schools are included.

2225 AMERICAN SIGN LANGUAGE I

4 credits

An introduction to the grammar and structure of American Sign Language (ASL) as a second language learning experience for students with no knowledge of ASL. To immersion and interpersonal communication will be emphasized for class participation. Students learn grammar in the context of communicative activities. The *Signing Naturally* 1 units 1 through 6 will be covered. A brief introduction on Deaf Culture will be included.

2226 AMERICAN SIGN LANGUAGE II

4 credits

A continuation of American Sign Language I, with the expansion of conversational language skills as the medium of communication. The *Signing Naturally* 1 units 7 through 12 including additional cultural information will be covered.

Prerequisite: Education 2225 with a grade of "B" or above.

2230 INTRODUCTION: THE EXPERIENCE AND EDUCATION OF DEAF PEOPLE

4 credits

A general orientation to the life experiences of deaf people with emphasis on their educational experiences. An overview of the historical, philosophical, and social aspects of deaf education and the lives of deaf people in the United States will be included.

2240 PLANNING AND EVALUATING INSTRUCTION

4 credits

English

Professors Panek (Department Chair), Chambers, Mangan, Phillips, and Sabora; Associate Professors Dalton and Regis; Assistant Professors Bendel-Simso and Carpenter; Senior Lecturers S. Olsh and N. Palmer; Lecturer Spence.

Areas of particular teaching interest:

Professor Panek: Renaissance literature, popular fiction; Professor Chambers: southern American literature; Professor Mangan: creative writing, American literature, women's literature; Professor Phillips: colonial and nineteenth century American literature; Professor Sabora: Medieval literature, linguistics, literary theory; Professor Dalton: journalism; Professor Regis: seventeenth and eighteenth century literature, expository writing; Professor Bendel-Simso: Colonial nineteenth and twentieth century American literature and southern literature; Professor Carpenter: modern British literature; Professor S. Olsh: composition, southern literature and women's literature; Professor N. Palmer: comparative literature and mythology; Professor Spence: composition, English as a second language, linguistics.

Study of the English language and literature offers a basic liberal arts education that students may use in many ways. Graduates with the English major are pursuing careers in journalism, law, business, social work, and government service. A number have entered theological seminaries and schools of library science. Many teach in the public school system; others, after graduate work, join college faculties. Several students combine English with another subject in a dual major.

Basic Major:

Required Courses:

English and American literature surveys: 2221, 2222, 2223, 2224; six courses from among the following, chosen in consultation with one's advisor: Genre: English 3381, 3382, 3383, English/Theatre 2284; Major Figures and Groups: English/Theatre 2263, English 3360, 3363, 3364; Major Themes: English 2282, 2283; Special Topics: English 2265, 2266, 3365, 3366.

Other Educational Options in English:

Minors in English/American Literature, Writing, or Journalism. Dual majors with Communication, Theatre Arts, Political Science, or History; Teacher Certification: Elementary grades K-6, Secondary grades 7-12 (middle/high school).

English 1101 and 1102 or the equivalent or permission of the instructor is prerequisite to all other English courses.

WRITING AND LINGUISTICS

0001 WRITING WORKSHOP

0 credits

A workshop in composition for students who have taken but not yet passed the Writing Competence Test, which is administered as the final examination in English 1101.

1101 COMPOSITION AND READING I

4 credits

Instruction in how to write clear, correct, and effective expository prose; practice in careful, analytical reading of significant literature; training in research techniques.

1102 COMPOSITION AND READING II

Exercise Science and Physical Education

Professors Ober (Department Chair), Carpenter, Case, Clower, and Fritz; Assistant Professor Weyers; Lecturers Easterday, Keating, Lauret, Martin, Molloy, Nibbelink, and Seibert.

Areas of particular teaching interest: Professor Ober: biomechanics; Professor Carpenter: sport psychology; Professor Case: exercise physiology; Professor Clower: sport sociology; Professor Fritz: teacher education; Professor Weyers: adapted physical education.

Beyond the basic Exercise Science and Physical Education major, the department provides a variety of options for the major, including teaching certification in elementary-secondary school physical education. This K-12 certification program is approved by the Maryland State Department of Education.

Basic Major:

Required Courses:

Exercise Science and Physical Education 1211, 1245, 2230, 2240, 3222, 4492 and four activities beyond basic liberal arts requirements; Biology 1111, 2211; Chemistry 1121 or 1103, 1104; Psychology 1106.

Other Educational Options in Exercise Science and Physical Education:

Minors are offered in athletic training, outdoor education, sports coaching, sports journalism, sports management, and sports science. Teacher certification can be attained in elementary-secondary school physical education (K-12).

ACTIVITY

The College requires that each student demonstrate competence in activities that fall into two broad categories: fitness (courses numbered 0002-0055, 1141-1155, and skill activities (all other activities). Of the four activity competencies required, at least one must be from each category. This requirement may be satisfied by demonstration of competence or by successfully completing courses chosen from those listed below.

Many of the courses listed below will be offered each semester. A list of specific courses to be offered in a particular semester is provided at the time of registration.

Students who satisfy all or part of the physical education requirement through testing or participation may not enroll for credit in any activity in which competency has been demonstrated. A student may not receive credit twice for the same activity.

The College accepts no financial responsibility for injuries resulting from participation in physical education activities.

PHYSICAL EDUCATION ACTIVITY

0.5 credit

Instruction in the fundamental skills and basic knowledge of the activity named.

Each activity meets approximately fifteen hours and carries 0.5 semester hour credit.

Foreign Languages

Professor Deveny (Department Chair); Associate Professors D. Evergates, Henriette, Motard-Noar, and Williams; Assistant Professor Esa .

Areas of particular teaching interest:

Professor Deveny: Golden Age Spanish literature, Spanish cinema; Professor Evergates: Greek, Latin; Professor Henriette: Renaissance and eighteenth century French literature; Professor Motard-Noar: nineteenth and twentieth century French literature; Professor Williams: nineteenth and twentieth century peninsular literature, Latin American literature; Professor Esa: German, German Women Writers, Nouvelles, Proverbs, and Idioms.

Recognizing that the study of language is essential to liberal arts education, the department is committed to the goal of providing a sequence of courses leading to competence in a foreign language. Concentration in a language may take the form of a major, thus preparing a student for graduate work in the field, or it may be combined with education courses for secondary school teaching (middle/high school). Competence in a foreign language is increasingly important in

other fields as well and provides a desirable dual major in combination with areas such as economics/business administration, history, and political science.

Several opportunities to enrich the academic program are provided both on and off campus. Students are encouraged to explore the opportunities for the language houses in the affinity housing program, to participate in language clubs, and to take advantage of the many special events which focus on foreign cultures. The department requires students majoring in foreign languages either to live in language housing on campus for one year or to live abroad for one semester. January Term trips provide short-term study tours of major French-, Spanish-, or German-speaking countries. Western Maryland also grants full academic credit for a number of programs which sponsor a summer, a semester, or a year abroad. Information on such programs is available from the Study Abroad Adviser.

A student may elect a major in French, German, or Spanish; courses in Greek or Latin may count toward a minor in Classical Civilization.

Basic French, German, or Spanish Major:

Required Courses:

A minimum of thirty-six hours is required, including courses numbered 1101, 1102, 2211, 2212, 3301, 3302, 3320, and 4410. (4410 must be taken at WMC.) The total number of hours may be reduced by placement. In order to complete a major in French, German, or Spanish, students must either live for one year in the appropriate language house on campus or live abroad for at least one semester.

Other Educational Options in Foreign Languages:

Dual majors with another language, Economics, History, or Political Science; Secondary Teacher Certification (middle/high School). The department also offers minors in each of the major languages. Only one course in English may count toward the minor.

Mathematics

Professors R. Boner (Department Chair), Lightner, and Rosenzweig; Associate Professors Clark and Eshleman; Lecturer C. Boner.

Areas of particular teaching interest: Professor Boner: abstract algebra, combinatorics, graph theory, number theory; Professor Lightner: geometry, history of mathematics, mathematics education; Professor Rosenzweig: differential topology, set theory and logic, singularity theory; Professor Clark: dynamical systems and chaos, Markov chains, complex analysis; Professor Eshleman: applied mathematics, numerical analysis, programming languages.

The mathematics department is dedicated to providing each mathematics major with the highest level program that a student can manage, providing individual help and attention to each student. To accomplish this, in addition to regular courses, advanced courses are offered for one to four students who will benefit from a particular subject. Recent courses have included Differential Topology, Galois Theory, Set Theory, Tensor Analysis, and Chaos Theory and Dynamical Systems.

Every mathematics major who has applied to graduate school has been admitted to a highly ranked university and has received either a fellowship or a teaching assistantship. Alumni of our programs have gone on to do graduate work at such schools as Brandeis University, The University of California at Berkeley, Michigan State University, Washington University in St. Louis, Cornell University, The Johns Hopkins University, North Carolina State University, SUNY at Stony Brook, and University of Virginia.

Almost every graduate of our program is currently working in a professional position. Places of employment include IBM, Hewlett-Packard, the Pentagon, NASA, the National Security Agency, the Department of Defense, and various actuarial firms. Graduates of our mathematics education program are eagerly sought by school systems throughout Maryland.

Basic Major:

Required Courses:

Mathematics 1117, 1118, 1119, 2218, 2221, 3305, 3316, 3323; two hours of problem seminar; twelve additional hours chosen from Mathematics courses at the 2000 level or above; Computer Science 1106.

Other Educational Options in Mathematics:

Computer Science concentration; Operations Research concentration; Teacher Certification Secondary (middle/high school); dual majors with Biology, Economics, Physics, or other disciplines. A minor is available in Mathematics.

0001 MATHEMATICS WORKSHOP

0 credit

Review of the arithmetical skills of students whose proficiency in these basic quantitative skills is below standards acceptable to the College. Topics include whole numbers, fractions, decimals, percents, proportions, and basic geometry.

0002 BASIC ALGEBRA WORKSHOP

0 credit

Review of the algebraic skills of students to a basic functioning level. Topics include operations with polynomials, factoring, solutions of equations, graphs, and word problems.

Prerequisite: Passing the arithmetic section of the mathematics proficiency examination, or permission of the instructor.

1106 FINITE MATHEMATICS WITH APPLICATIONS **4 credits**

Insight into the way mathematicians approach problems in other disciplines, through the study of the following topics with applications: lines, matrices, linear programming, counting techniques, discrete probability, graph theory, and game theory.

The course is designed primarily for non-mathematics majors.

Prerequisites: Mathematics 0001 or 0003, Mathematics 0002 or 0004.

Natural Science and Mathematics.

1107 COLLEGE ALGEBRA AND TRIGONOMETRY **4 credits**

The basic concepts of algebra and trigonometry needed for the study of calculus. Included are properties of exponents; solving equations and inequalities; graphing; properties of polynomial, exponential, logarithmic, and trigonometric functions.

Prerequisites: Mathematics 0001 or 0003, Mathematics 0002 or 0004.

Natural Science and Mathematics.

1117 CALCULUS I

4 credits

Initial study of limits, derivatives and integrals; review of trigonometric functions; differentiation techniques and formulas applied to rational and trigonometric functions; applications of derivatives including curve sketching; extrema and rate problems; definition of the integral; elementary applications of integrals.

Prerequisite: Mathematics 1107, or placement by the department.

Natural Science and Mathematics.

1118 CALCULUS II

4 credits

Further study of the trigonometric, exponential, and logarithmic functions and their derivatives, methods of integration; parametric equations; polar coordinates; sequences, infinite series, and power series.

Prerequisite: Mathematics 1117, or placement by the department.

Natural Science and Mathematics.

1119 CALCULUS III

4 credits

A study of functions of several variables. Topics include partial derivatives, directional derivatives, multiple integrals, the structure of Euclidean n -space, E^n , functions from E^m to E^n , line and surface integrals, Green's and Stokes' Theorems.

Prerequisite: Mathematics 1118, or placement by the department.

Natural Science and Mathematics.

1141 MATHEMATICS FOR ELEMENTARY SCHOOL TEACHERS

4 credits

An introduction to selected topics in mathematics, including sets and set operations, number and numeration systems, arithmetical operations and algorithms, measurement, reasoning and problem solving, and the basic concepts of algebra and geometry.

This course does not count toward the major in mathematics, and is open only to those students preparing to teach in the elementary school.

This course does not meet the Natural Science and Mathematics requirement.

Prerequisites: Mathematics 0001 or 0003, Mathematics 0002 or 0004, Mathematics 1106.

2207 APPLIED COMBINATORICS AND GRAPH THEORY **4 credits**

An introduction to combinatorial problem solving and applied graph theory. Topics include arrangements and selections, generating functions, recurrence relations, graph isomorphisms, graph models, planar graphs, Euler and Hamiltonian circuits, and graph coloring problems. Additional topics are chosen from inclusion-exclusion formulas, trees, and network algorithms.

Offered in 1998-1999 and alternate years.

2210 INTRODUCTION TO NUMERICAL METHODS **4 credits**

An introduction to numerical methods for solving problems from calculus and linear algebra, including the solution of a single nonlinear equation, the solution of linear systems, interpolation and approximation, differentiation and integration, and the solution of eigenvalue problems.

Prerequisites, Computer Science 1106, Mathematics 2218.

Cross listed with Computer Science 2210.

Offered in 1997-1998 and alternate years.

2218 LINEAR ALGEBRA **4 credits**

A study of the theory of finite-dimensional vector spaces, linear transformations, matrices, determinants, inner products, and eigenvalues.

Prerequisites, Mathematics 1117 or 1118, or placement by the department.

Natural Science and Mathematics.

2221 FUNDAMENTAL CONCEPTS OF ALGEBRA **4 credits**

An introduction to modern algebraic theory; emphasis on the nature of the structures of algebra including groups, rings, and fields; selected topics from elementary number theory and polynomial theory.

Prerequisite, Mathematics 2218, or permission of the department.

Natural Science and Mathematics.

3304 DIFFERENTIAL EQUATIONS **4 credits**

Linear differential equations with applications in the physical, biological, and social sciences; series solutions; systems of linear differential equations; approximation methods; the Laplace transform; Fourier series; the heat equation.

Prerequisite, Mathematics 1118.

Offered in 1998-1999 and alternate years.

3305 INTRODUCTION TO MATHEMATICAL ANALYSIS **4 credits**

A rigorous treatment of the theory of elementary calculus including functions, limits, sequences, series, uniform continuity, derivatives and Riemann integration, topological properties of the real numbers.

Prerequisite, Mathematics 2221.

3310 HISTORY OF MATHEMATICS **4 credits**

A study of the development of mathematics from primitive counting systems to modern mathematics, with particular emphasis on the seventeenth century.

Prerequisites, Mathematics 1117, 2221.

Offered in 1998-1999 and alternate years.

3312 REAL ANALYSIS **4 credits**

A rigorous study of the convergence of sequences and series of functions; polynomial approximation; interchange of limit processes; the Lebesgue integral.

Prerequisite, Mathematics 3305.

Offered as needed.

3316 COMPLEX ANALYSIS **4 credits**

An introductory course in the theory of functions of a complex variable; properties of analytic functions, classical integral theorems, Taylor and Laurent expansions, and applications.

Prerequisite, Mathematics 1119 and Mathematics 3305 are recommended.

3322 FUNDAMENTAL CONCEPTS OF GEOMETRY **4 credits**

The foundations and evolution of geometry; selected topics from Euclidean and non-Euclidean geometries, projective geometry, affine geometry; studies in the nature of proof and famous geometric problems.

Prerequisites, Mathematics 1117, 2221.

Offered in 1997-1998 and alternate years.

3323 PROBABILITY **4 credits**

A study of sample spaces, counting techniques, discrete and continuous random variables and related moments; binomial, Poisson, normal and other probability distributions; Chebychev inequality, central limit theorem.

Prerequisite, Mathematics 1118; Mathematics 1119 is recommended.

3324 MATHEMATICAL STATISTICS

4 credits

A systematic treatment of statistics from a theoretical point of view; sampling distributions, decision theory, estimation, hypothesis testing, modeling, and applications.

Prerequisite: Mathematics 3323.

Offered as needed.

3328 OPERATIONS RESEARCH

4 Credits

A survey of topics from Operations Research: linear programming, computer applications using the Simplex Algorithm, dynamic programming, inventory control, queuing problems, network analysis, game theory.

Prerequisites: Computer Science 1106, Mathematics 3323; either Mathematics 3324 or 3335 is strongly recommended.

Offered as needed.

3335 STOCHASTIC PROCESSES

4 credits

A study of Markov Chains, stable distributions for regular chains, absorption probabilities, computer simulations, Poisson process, birth-death process.

Prerequisite: Mathematics 3323.

Offered as needed.

3336 NUMBER THEORY

4 credits

An introduction to the theory of numbers: divisibility, primes, unique factorization, congruences, Euler's phi-function, Fermat's and Wilson's theorems, quadratic reciprocity, perfect numbers and applications to Diophantine equations.

Prerequisite: Mathematics 2221.

Offered in 1998-1999 and every third year.

3391; 3392; 4491; 4492 MATHEMATICS PROBLEMS SEMINAR

1 credit

Consideration of problems chosen from diverse areas of mathematics and mathematical ideas outside of a course context. The problems considered vary from year to year.

4406 ABSTRACT ALGEBRA

4 credits

A rigorous presentation of the theory of groups, rings, and fields through a study of topics selected from: homomorphisms, isomorphisms theorems, Lagrange's theorems, the Sylow theorems, principal ideal domains, Euclidean domains, unique factorization domains, polynomial rings over a field, construction with straight edge and compass, and finite fields.

Prerequisite: Mathematics 2221.

Offered in 1997-1998 and alternate years.

4409 TOPOLOGY

4 credits

An introduction to the basic notions of topological spaces, which are the foundation for analysis and calculus. Topics include basic set theory, the axioms and specific examples of topological spaces, connectedness and compactness, separation axioms, continuous function, homotopy theory.

Offered as needed.

4494 CAPSTONE EXPERIENCE IN MATHEMATICS

1 credit

All senior mathematics majors will read an expository paper in one of the mathematics journals and make written oral reports on the topic discussed in the article. The article will be chosen in consultation with a member of the Department of Mathematics and Computer Science.

2265; 2266; 3365; 3366; 4465; 4466 SPECIAL TOPICS IN MATHEMATICS

4 credits

The study of a selected topic in the discipline. Different topics are chosen for each offering, based on students' interests and needs.

2295; 2296; 3395; 3396; 4495; 4496 INTERNSHIPS IN MATHEMATICS

0 - 4 credits

Supervised field experiences in appropriate settings, usually off-campus, designed to assist students in acquiring and using skills and knowledge of the discipline unique to the selected topic.

2298; 2299; 3398; 3399; 4498; 4499 INDEPENDENT STUDIES IN MATHEMATICS

0 - 4 credits

Directed study planned and conducted with reference to the needs of students who are candidates for departmental honors. Qualified students who are not candidates for such honors but who desire to do independent studies are also admitted with permission of the Department.

Military Science

Major Doyle (Department Chair); Captains Baldree, Burke; Master Sergeant Gobeil; Sergeant First Class Hull; Sergeant Weeks.

No major is offered in this field. However, Military Science can be an integral part of a student-designed major or an elective in any major.

The Army Reserve Officers' Training Corps program, offered at Western Maryland College since 1919, is a means by which both men and women students, when they receive their college diplomas, also are commissioned as Army officers with the rank of Second Lieutenant. Students can be guaranteed part-time service as an officer with the Army Reserve or Army National Guard, or can compete for full-time positions in the Active Army.

Courses are open to both men and women. Freshman and sophomore students can enroll in the program without obligating themselves to service as an Army officer. Freshman courses meet for one hour each week and sophomore courses for two hours. Junior and senior courses are designed for cadets selected by the Professor of Military Science who have completed the freshman and sophomore courses or who have received constructive credit for them.

The total number of elective credit hours which can be earned for Military Science courses is 19 (plus 2 if a January Term course is taken).

Military Science can be an integral part of a student-designed major or an elective in any major. The courses are designed to develop the leadership ability of each student.

Cadets attend a weekly one-hour leadership laboratory which provides practical training in skills such as rifle marksmanship, first aid, rappelling, dismounted drill, radio communications, and war survival.

Other optional activities are available for Army cadets. These include helicopter rappelling, mountaineering, parachuting, winter survival training in Alaska, and temporary assignments in active army units throughout Korea, Europe, and the United States. The Ranger Platoon, which specializes in adventure training (rappelling, patrolling, mountain operations, and river operations), is a student organization open to all Army cadets.

Freshman and sophomore students can compete for Army ROTC scholarships. These merit scholarships pay \$12,800, \$9,000, \$5,000, or \$2,550 toward tuition, plus educational fees and expenses. Scholarship recipients also receive a substantial book allowance (\$450.00 per year) and \$150.00 per month during the academic year; the College waives room costs for all Army ROTC scholarship recipients.

Western Maryland College likewise supplements the Army's scholarship benefits for all students who enter the college as Army ROTC scholarship winners as a result of their participation in the nationwide Army ROTC scholarship competition for high school seniors. These scholarship recipients are considered by the College to receive the remaining tuition plus free room for all four years.

Non-scholarship cadets entering the junior year and choosing to do so sign a contract with the government. Like scholarship cadets, they receive \$150.00 per month during the academic year, plus pay for attending Advanced Camp (six weeks of training during the summer between their junior and senior years), and agree to complete the Military Science course of instruction and to accept an officer's commission if tendered. Officers serve in a variety of fields, including aviation, medical, personnel, armor, finance, communications, management, infantry, law enforcement, and engineering.

1101, 1102 THE ARMY AS AN INSTITUTION 1.5, 1.5 credits

First semester: An introduction to the U.S. Army, including small unit organization, weapons systems, and the traits and principles of leadership. Second semester: An introduction to using a map and compass to navigate cross-country.

One class period and one practical leadership laboratory period a week. Voluntary adventure training, tactical field training, and weapons firing off campus each semester.

2211, 2212 SELF/TEAM DEVELOPMENT AND TACTICS

2.5, 2.5 credits

First semester: Learn/apply ethics-based leadership skills that develop individual abilities and contribute to effective team building. Develop skills in oral and written communication, group coordination and first aid. Second semester: Introduction to individual and team military tactics in small unit operations. Includes use of radio communication, making safety assessments and methods of pre-execution checks.

3301, 3302 APPLIED LEADERSHIP

2.5, 2.5 credits

Theory and principles of small unit leadership and practical application; the principles of war; the chain of command and the roles of the officer and non-commissioned officer; small unit tactics; advanced land navigation; physical and mental conditioning. Emphasis is placed on teamwork and mission accomplishment, and prepares the cadet for success at Advanced Camp.

Prerequisite, permission of the department head.

Two class periods and one practical leadership laboratory period per week. At least one weekend field training exercise each semester.

4401, 4402 RESPONSIBILITIES OF OFFICERSHIP

3, 3 credits

A study of officership as a profession and of the ethics associated with the profession; the Uniform Code of Military Justice; command and staff functions; the Army training management system; written and oral communications; Army personnel management systems.

Prerequisite, permission of the department head.

Two class periods and one practical leadership laboratory period per week. At least one weekend field training exercise each semester.

Music

Associate Professor Boudreaux (Department Chair); Assistant Professors Armstrong and Caldwell; Senior Lecturer Kreider; Lecturers Bachman, Barrett, Barron, Baxter, Connell, Crowder, Eckard, Engler, Hooks, Horneff, Jenkins, Kirkpatrick, List, Seligman, and Tippet.

Areas of particular teaching interest:

Professor Boudreaux: choir, music history;
Professor Armstrong: music history, early music;
Professor Caldwell: theory and composition, sin-

gle reeds; Professor Kreider: piano; Professor Eckard: jazz; Professor Kirkpatrick: band, flute, chamber music.

The Music Department provides opportunities for both the major and non-major student to develop their musical talents by offering courses for both disciplined growth and creative development. Recitals and concerts are performed each semester by faculty, students, and such organizations as the College Choir, Band, Jazz Ensemble, and various other performance ensembles.

College policy limits the number of credit hours taken in vocal and instrumental ensembles such as Music 1101-1105, 1110-1122 to 8 of the 128 hours required for graduation.

Basic Major:

Required Courses:

Music 1131, 1132, 2201, 2202, 2203, 2204; four additional hours in music history at the 2000 level; four additional hours at the 2000 level in Music History or Music Theory, part or all of which may be special studies; 8 hours of applied music lessons, at least 6 credits on one major instrument. Majors other than piano must study 2 credits of piano at the discretion of the music faculty; majors must give one public recital. (The final 3 semesters of private study before the senior recital must be in the major instrument.) Majors must participate in a department musical performance group each semester in residence and must attend 5 department-sponsored recitals per semester.

Other Educational Options in Music:

The department also offers a minor in music, certification in Music Education (middle/high school, either choral or instrumental), concentrations in Music Theory and Composition, Music History and a dual major in Musical Theatre.

Applied Music courses do not fulfill the Humanities Distribution requirement.

0001-0024 APPLIED MUSIC-PRIVATE INSTRUCTION

0.5-2 credits

Private instruction in voice, piano, guitar, orchestral and band instruments. Lessons are generally offered in half-hour periods (0.5 credit) or hour periods (1 credit). An extra tuition fee is charged for lessons.

Prerequisite, permission of the instructor.

Consult the department for proficiency evaluation and major requirements for Applied Music Instruction.

1101 COLLEGE BAND**0-1 credits**

All-college wind and percussion ensemble that performs compositions from all periods of musical history. At least two public concerts are given each year.

1102 COLLEGE CHOIR**0-1 credits**

All-college choral ensemble that performs compositions from all periods of musical history. At least two public concerts are given each year.

1103 MADRIGAL SINGERS**0-1 credits**

A select ensemble of singers which explores unaccompanied choral music from diverse stylistic periods. Public performances are given throughout the year.

Prerequisite, permission of the instructor.

Corequisite, participation in the College Choir.

1104 MUSICAL THEATRE WORKSHOP**0-1 credit**

An opera and musical theatre performance class. Performances of scenes from the opera repertory and the American musical theatre are partially staged; at least one public performance is given.

Prerequisite, permission of the instructor.

Offered each year in the spring semester only.

1105 GOSPEL CHOIR**0-1 credit**

All-college choral ensemble that explores the sacred musical styles of the African-American traditions. Public performances are given throughout the year.

Prerequisite, permission of the instructor.

1106 ORCHESTRA**0-1 credit**

The orchestra provides students and members of the community the opportunity to play with the full complement of orchestral sounds, including strings. The orchestra, actually a community endeavor, is focused on the needs of young players.

Prerequisite, permission of the instructor.

1107 COLLEGIUM**0-1 credit**

Students and community members join together to sing and play replicas of Medieval and Renaissance instruments. Music written before 1700 is performed in a variety of settings both on and off campus.

Prerequisite, permission of the instructor.

1109 JAZZ CHOIR**0-1 credit**

A select ensemble of singers which explores a variety of jazz vocal styles. Public performances take place throughout the year.

Prerequisite, permission of the instructor.

Corequisite, participation in the College Choir.

1110-1122 CHAMBER ENSEMBLES**0-1 credit**

A comprehensive survey by performance of the ensemble literature of diverse origins and styles for each of the ensembles listed. Public performances are given.

Prerequisite, permission of the instructor.

1111 FLUTE CHOIR**1111 FLUTE QUARTET****1112 WOODWIND QUINTET****1113 SAXOPHONE QUINTET****1114 JAZZ COMBO****1115 CLARINET CHOIR****1116 BRASS QUINTET****1117 STRING ENSEMBLE****1118 STRING QUARTET****1119 ELECTRIC BASS ENSEMBLE****1120 JAZZ ENSEMBLE****1121 PERCUSSION ENSEMBLE****1122 KEYBOARD ENSEMBLE****1131, 1132 MUSIC THEORY****4, 4 credits**

Basic knowledge of musical materials, written and keyboard harmony through the dominant seventh chord, sight singing, melodic and harmonic dictation. Some aspects of orchestration will also be included.

1134 MUSIC APPRECIATION**4 credits**

A study of music through its elements, rhythms, melody, harmony, form, timbre; a survey of various musical styles. Increased listening perception in all types of music is the course goal.

Humanities.

1141 PIANO LAB I**2 credits**

A study of basic keyboard skills with emphasis on reading, transposition, fundamentals of music theory, and the necessary physical skills to play simple pieces. This is a beginner's course which is not intended for those students who can already read music at the keyboard.

**1142, 1143, 1144 PIANO LAB II, III, IV
2, 2, 2 credits**

A continuation of Piano Lab I at progressive levels of proficiency.

Admission and placement is based on the instructor's evaluation of the student's ability.

**1145 GUITAR CLASS I
1 credit**

A study of basic guitar skills with emphasis on classical style, reading, fundamentals of music theory, and the necessary physical skills to play simple pieces. This is a beginner's course which is not intended for those students who can already read music at the guitar.

**1146 GUITAR CLASS II
1 credit**

A continuation of Guitar Class I.

Admission and placement is based on the instructor's evaluation of the student's ability.

**1148, 1149 VOICE CLASS I, II
1, 1 credit**

An introduction to the correct use of the voice in singing, including breathing, articulation, enunciation, expression, and various types of vocal literature.

**1153 STRING PEDAGOGY
1 credit**

An analysis of the principles and practices current in the teaching of string instruments.

Prerequisite, permission of the instructor.

One year of music theory.

Offered as needed.

**1154 WOODWIND PEDAGOGY
1 credit**

An analysis of the principles and practices current in the teaching of woodwind instrument.

Prerequisite, permission of the instructor.

One year of music theory.

Offered as needed in the spring semester only.

**1155 PERCUSSION PEDAGOGY
1 credit**

An analysis of the principles and practices current in the teaching of percussion instruments.

Prerequisite, permission of the instructor.

One year of music theory.

Offered as needed.

**1156 BRASS PEDAGOGY
1 credit**

An analysis of the principles and practices current in the teaching of brass instruments.

Prerequisite, permission of the instructor.

One year of music theory.

Offered as needed.

**1157 VOICE PEDAGOGY FOR SINGERS
1 credit**

An overview of comparative vocal methods for the future teacher primarily concerned with vocal and choral instruction. Emphasis is placed on the International Italianate School (Bel Canto method).

Prerequisite, permission of the instructor.

At least two semesters of applied voice or voice class.

Offered as needed.

**1159 VOICE PEDAGOGY FOR
INSTRUMENTALISTS
1 credit**

An overview of comparative vocal methods for the future teacher primarily concerned with instrumental instruction. Emphasis is placed on the International Italianate School (Bel Canto method).

Prerequisite, permission of the instructor.

Offered as needed.

**2201, 2202 ADVANCED MUSIC THEORY I, II
4, 4 credits**

The continuation of Music 1131, 1132 through the use of remote harmonies, twentieth century compositional styles, counterpoint, and form. Special emphasis will be given to analysis.

Prerequisite, Music 1132, or permission of the instructor.

**2203, 2204 MUSIC OF THE WESTERN
WORLD I, II
4, 4 credits**

A survey of music in the Western World from the earliest rhythms and songs to the complex subtleties of the twentieth century, observed against the backdrop of cultural history.

Heritage Sequence, Humanities.

**2205 HISTORY AND LITERATURE OF THE
PIANO
4 credits**

A survey of literature for harpsichord, clavichord, and piano; a study of the development of these instruments and the history of piano technique and performance.

Humanities.

**2208 MUSIC IN THE UNITED STATES
4 credits**

A survey of the cultivated traditions of American music, from colonial times to the present.

Humanities.

Offered in 1997-1998 and alternate years.

2210 HISTORY OF JAZZ**4 credits**

A survey of the stylistic transformations that have taken place in jazz since 1900, with a study of the social and political conditions that have exerted a powerful influence on jazz artists.

Humanities.

Offered in 1998-1999 and alternate years.

2212 WORLD MUSIC**4 credits**

Surveys in musical traditions other than those of the Western European-American stylistic periods. *Global Perspective, Humanities.*

Cross listed with Cross Cultural Studies 2212.

2214 MASTERS IN MUSIC**4 credits**

A study of one major composer's life and representative composition.

Humanities.

Offered as needed.

2216 HISTORY OF MUSICAL THEATRE**4 credits**

A survey of musical theatre from its beginning to the present, studied in relation to its historical, literary, and cultural background. Included is study of such musical theatre forms as opera, operetta, ballad opera, and musicals.

Humanities.

Cross listed with Theatre Arts 2216.

Offered in 1997-1998 and alternate years.

2217 LYRIC DICTION FOR SINGERS**1 credit**

A one semester, highly condensed study of English, Italian, and German lyric dictions for singers. The IPA (International Phonetic Alphabet) system of phoneticization will be used.

Prerequisite, at least two semesters of applied voice or voice class.

2220 FUTURE MUSIC**4 credits**

An exploration of different types of composition in the 20th century including art musics such as chance, minimalism, and serial composition, as well as jazz, pop, and crossover strains. It considers the diverse influences on today's composition, such as Chinese philosophy, commerciality, African drumming, and music of India.

Humanities

Offered in 1997-1998 (fall semester) and in alternate years.

3309 COUNTERPOINT**4 credits**

Study of 18th century counterpoint with an emphasis on both analysis and composition.

Prerequisites, Music 1132 and permission of instructor.

Offered in 1997-1998 (spring semester) and in alternate years.

3310 FORM AND ANALYSIS**4 credits**

Detailed study of the structural principles and forms of tonal music.

Prerequisites, Music 1132 and permission of instructor.

Offered in 1998-1999 (spring semester) and in alternate years.

3311 INSTRUMENTAL CONDUCTING**4 credits**

An analysis of the principles and practices of instrumental conducting, development of conducting pattern skills, score analysis, rehearsal procedures, and program development.

Prerequisites, Music 1132, 2202, basic keyboard skills, and permission of the instructor and the department chair.

Co-requisite, participation in the College Band.

Offered each year in the fall semester.

3313 CHORAL CONDUCTING**4 credits**

An analysis of the principles and practices of choral conducting, development of conducting pattern skills, score analysis, rehearsal procedures, and program development.

Prerequisites, Music 1132, 2202, basic keyboard skills and permission of the instructor.

Co-requisite, participation in the College Choir.

Offered each year in the spring semester.

3333, 3334 METHODS FOR TEACHING PIANO**2, 2 credits**

Methods of teaching piano to beginners of all ages; a survey of suitable teaching materials for all grades, including discussion of the technical and musical problems involved. One class period and one period of supervised teaching a week.

Prerequisite, permission of the instructor.

Offered as needed.

2265; 2266; 3365; 3366; 4465; 4466**SPECIAL TOPICS IN MUSIC****4 credits**

The study of a selected topic in the discipline. Different topics are chosen for each offering, based on students' interests and needs.

2295; 2296; 3395; 3396; 4495; 4496
INTERNSHIPS IN MUSIC
0 - 4 credits

Supervised field experiences in appropriate settings, usually off-campus, designed to assist students in acquiring and using skills and knowledge of the discipline unique to the selected topic.

Prerequisite: permission of the instructor.

2298; 2299; 3398; 3399; 4498; 4499
INDEPENDENT STUDIES IN MUSIC
0 - 4 credits

Directed study planned and conducted with reference to the needs of those students who are candidates for departmental honors. Qualified students who are not candidates for such honors but who desire to do independent studies are also admitted with permission of the Department.

Philosophy

Associate Professors Alles (Department Chair) and Wu; Assistant Professor Jakobov.

Areas of particular teaching interest:

Professor Alles: religions of South Asia and the Mediterranean world, history and/or methods of the study of religions; Professor Wu: contemporary philosophy, East Asian studies, philosophy of science; Professor Jakobov: nineteenth and twentieth century continental philosophy.

Philosophy has been called the queen of sciences because it deals with basic questions concerning our world and ourselves, the underlying ideas upon which the more specialized disciplines are based. Because its methodology is one of rigorous and critical thinking, students find it a valuable preparation for such fields as law, medicine, business, literature, history, and religion, to mention a few. Courses are offered in both the historical and contemporary perspectives, with many of them being issue-oriented.

Students may plan their programs for general liberal education, for graduate study, or for special objectives in related fields.

Basic Major:

Required Courses:

Philosophy 1101, 1102, 1113 and 1114; one course from Philosophy 1105, 2210, 2250; four hours from Philosophy 2265, 2266, 3365, 3366; Philosophy 4492; 20 hours of additional Philosophy courses.

Other Educational Options in Philosophy:

Dual major in Philosophy and Religious Studies, and special programs combining Philosophy and other disciplines.

1101 BASIC QUESTIONS
4 credits

A study of selected thinkers dealing with basic epistemological, metaphysical, and ethical questions. The course may include issues such as theories of knowledge and reality, the relationship of philosophy to daily life situations, science, and religion.

Humanities.

1102 CRITICAL THINKING
4 credits

A study designed to improve the student's critical thinking and reasoning skills. This course will examine different styles of informal and formal reasoning found in a variety of contexts. Emphasis will be placed on identifying and avoiding common fallacies and forms of pseudo-reasoning, uncovering hidden assumptions and evaluating the relative merits of rational arguments and decision-making procedures.

Humanities.

1105 CONTEMPORARY ISSUES IN ETHICS
4 credits

An introduction to the major ethical theories including Aristotle's Theory of Happiness, Kant's concept of duty, Act and Rule Utilitarianism, Pragmatism, Ethical Egoism, and their contemporary versions; and to the major issues of our day such as abortion, euthanasia, the rights of animals, racism and sexism, professional conduct, capital punishment, war and peace, civil disobedience, law versus conscience, and environment and biological topics.

Humanities.

1113 HISTORY OF ANCIENT AND MEDIEVAL PHILOSOPHY
4 credits

An introduction to philosophy from an historical approach. The course includes the writings of Homer and Hesiod and the early myths, the Pre-Socratics, Socrates, Plato, Aristotle, the Late Classical Period including the Stoics, Epicureans, Sceptics, and Neo-Platonists, and the thought of the Middle Ages with emphasis upon Augustine, the Mystics, Thomas Aquinas, Roger Bacon, and William of Occam's "Nominalism."

Heritage Sequence, Humanities.

1114 HISTORY OF MODERN PHILOSOPHY**4 credits**

A study of 17th- and 18th-century philosophy, the period from Bacon and Descartes to Rousseau and Kant. This course investigates the philosophers' attempts to deal with radical religious, political, and scientific upheavals.

Prerequisite: Philosophy 1113.

Heritage Sequence, Humanities.

2202 ZEN AND CREATIVITY**4 credits**

A study of Zen's way of life through a close look at the Zen classics, Zen practices, and the poetry and paintings which successfully express the Zen attitude in life. The Zen view of beauty (both in nature and art) and Zen exercises such as Chinese calligraphy, meditation, and discussions of Koans (paradoxes) will be included.

Global Perspective, Humanities.

Cross listed with Cross Cultural Studies 2202.

2209 EXISTENCE, ALIENATION, AND THE SEARCH FOR MEANING**4 credits**

A study of thinkers and schools that deal with the nature and meaning of human existence, the threat of modern anonymity and collectivism, and the search for meaning and value in an absurd world. The course will begin with the roots of existentialist thought in the Greek and Hebraic-Christian traditions, continue through such thinkers as Blaise Pascal, Dostoevsky, Kierkegaard, and Nietzsche, and concentrate on 20th-century thought including Kafka, Heidegger, Jaspers, Sartre, Camus, and American writers such as John Barth, Walker Percy, and John Updike.

Humanities.

2210 ETHICS AND BUSINESS**4 credits**

A consideration of some of the major ethical issues in business: the profit motive and the public good, social responsibility of corporations, environmental concerns, consumer and employee relations, the role of the state, advertising practices, conflict of interest and of obligation, and hiring practices.

Humanities.

Cross listed with Business Administration 2210.

Offered as needed.

2217 CONTEMPORARY PHILOSOPHY**4 credits**

A study of the major philosophical figures and movements of the 19th and 20th centuries. This course will consider the critical and radical changes in thinking about history, religion, morality, society, and the nature of human existence that occurred in this period. Thinkers will include Schopenhauer, Marx, Nietzsche, Brentano, Wittgenstein, and Heidegger.

Humanities.

2218 WOMEN AND PHILOSOPHY**4 credits**

A survey of the relationship of traditional philosophy to women and the development of feminist philosophical movements: liberal, Marxist, existentialist, radical, and postmodern. Themes will include the myth of woman, male/female relationships, and gender ethics.

Humanities.

2219 EAST ASIAN PHILOSOPHY**4 credits**

A study of the history and literature of the major East Asian philosophical schools, with emphasis on the presuppositions concerning man and nature. Schools of thought which will receive special attention include Confucianism, Daoism, Mohism, Yin-Yang, Neo-Confucianism, Zen, and Shinto. The course concludes with a comparison of the general characteristics of East Asian philosophy and Western philosophy.

Global Perspective, Humanities.

Cross listed with Cross Cultural Studies 2219.

2225 PHILOSOPHY AND PRACTICE OF TAI CHI (TAI JI)**4 credits**

Theory and practice of a Chinese meditative exercise which is calisthenics, martial art, breathing exercises, dance, meditation, and prayer.

Interpretations and critiques of the writings of the Daoist masters such as Lao Zi and Zhuang Zi will be included. The complete Tai Chi sequence of 108 movements will be practiced. The course emphasizes understanding the Daoist philosophy at the level of intellectual cognition as well as at the level of affective penetration and concrete experience.

Global Perspective, Humanities.

Cross listed with Cross Cultural Studies 2225.

2233 ELEMENTARY LOGIC**4 credits**

An introduction to formal logic, propositional and predicate. The study of various forms of inference, theorems, derivations, and proofs.

2250 BIOETHICS**4 credits**

A study of ethical issues in biology and medicine including health care policies, euthanasia, scientific fraud, and reproductive technologies. This course will explore these and similar issues and case studies and create a framework for ethical decision making based on philosophical principles.

Humanities.

Cross listed with Biology 2250.

2291 DIRECTED READINGS IN PHILOSOPHY AND RELIGIOUS STUDIES**1 credit**

A close reading of a major text in philosophy and/or religious studies. Students will also become familiar with selected critical studies of the text. Course may be repeated up to four semesters for credit.

3302 CLASSICAL INDIAN PHILOSOPHY**4 credits**

A rigorous introduction to the classical Indian tradition of philosophical thought, from its roots in the Vedas and Upanishads to its systematization in the six orthodox (astika) schools. Attention is also given to the "heterodox" views of the Buddhists, the Jains, and the "materialists."

Global Perspective, Humanities.

Cross listed with Cross Cultural Studies 3302 and Religious Studies 3302.

Offered as needed.

3311 PHILOSOPHY OF RELIGION**4 credits**

A study of the rationality of religious beliefs and an examination of the traditional philosophical arguments for and against the existence of God.

Humanities

3318 PHILOSOPHY OF SCIENCE**4 credits**

A critical analysis of science as an enterprise which produces knowledge. The course examines the conceptual structures and methods used in scientific investigation and discovery, focusing on the role of scientific laws and theories in the explanation and prediction of phenomena. The relationship between the physical and the social sciences as well as selected issues between philosophy of science and epistemology will be discussed.

Offered as needed.

Humanities.

4492 THESIS IN PHILOSOPHY**4 credits**

A directed project of research and writing a major paper on a topic agreed upon by the instructor and the student. The project extends over two semesters, but with four credit hours given with the completion of the thesis for both semesters' work.

Prerequisite, permission of instructor.

2265; 2266; 3365; 3366; 4465; 4466 SPECIAL TOPICS IN PHILOSOPHY**4 credits**

The study of a selected topic in the discipline. Different topics are chosen for each offering, based on students' interests and needs.

2295; 2296; 3395; 3396; 4495; 4496 INTERNSHIPS IN PHILOSOPHY**0 - 4 credits**

Supervised field experiences in appropriate settings, usually off-campus, designed to assist students in acquiring and using skills and knowledge of the discipline unique to the selected topic.

2298; 2299; 3398; 3399; 4498; 4499 INDEPENDENT STUDIES IN PHILOSOPHY**0 - 4 credits**

Directed study planned and conducted with reference to the needs of those students who are candidates for departmental honors. Qualified students who are not candidates for such honors but who desire to do independent studies are also admitted with permission of the Department.

Physics

Associate Professor Pagonis; Assistant Professor Guerra (Department Chair).

Areas of particular teaching interest: Professor Pagonis: solid state physics, microcomputers, archaeological dating; Professor Guerra: laser based systems in environmental studies.

Physics deals with the most basic aspects of the natural world and is characterized by its emphasis upon the analysis and solution of those problems that the study of nature presents.

The Physics major is designed to provide students with knowledge of and experience in the basic concepts and methods used in physics. This background is appropriate for further study in a variety of areas, including law, medicine, teaching, the social sciences, engineering, mathematics, computer science, and the natural sciences (astronomy, biology, chemistry, geology, meteorology, oceanography as well as physics itself). By a judicious choice of electives, the student with an undergraduate major in physics can prepare for entry into graduate and professional study in any of these fields.

Basic Major:

Required Courses:

Physics 1101, 1102, 2204, 2211, 2212, 3311; four hours from 3307, 3309, 3312, 4402; Chemistry 1103, 1104; Mathematics 1117, 1118; and four hours from Computer Science 1106, or Mathematics 1119, 2218, 3304.

Other Educational Options in Physics:

Dual major with Mathematics, Pre-Engineering, Professional major, Teacher Certification Secondary (middle/high school).

1101, 1102 GENERAL PHYSICS I, II 4, 4 credits

An introduction to the fundamental phenomena, concepts, and theories of physics. The first semester deals with mechanics, special relativity, and heat. The second semester deals with electricity and magnetism, wave phenomena, and quantum physics. Courses include laboratory.

Prerequisite, Mathematics 1107, or permission of the instructor.

Natural Science and Mathematics.

1103 APPLIED ELECTRONICS AND COMPUTERS

4 credits

An introduction to electronics with emphasis on laboratory applications of electronics. The use of microcomputers for data collection and analysis is emphasized. Topics include analog and digital electronics and uses of the microcomputer in the science laboratory. No previous experience with electronics is necessary.

Course includes laboratory.

1111 INTRODUCTORY ASTRONOMY

4 credits

A study of the stars and stellar evolution, the solar systems, galaxies, and cosmology, with emphasis on contemporary topics.

Natural Science and Mathematics.

Cross listed with General Science 1111.

2204 INTRODUCTION TO MODERN PHYSICS

4 credits

Quantization, wave and particle aspects of matter, elementary quantum mechanics, atomic and molecular structures, solids, and nuclei.

Course includes laboratory.

Prerequisites, Physics 1102, Mathematics 1118.

Offered in 1997-1998 and alternate years.

2209 OPTICS AND WAVES

4 credits

Geometrical and physical optics, with emphasis upon the latter; study of wave phenomena such as polarization, interference, diffraction, and scattering; comparison of electromagnetic and mechanical waves.

Course includes laboratory.

Prerequisites, Physics 1102, Mathematics 1118.

Offered in 1998-1999 and alternate years.

2211 MATHEMATICAL PHYSICS

4 credits

The application of mathematics to physical systems. Topics studied are techniques of integration, vector calculus, Fourier analysis, complex algebra, and some matrix methods.

Prerequisites, Physics 1102, Mathematics 1118.

2212 INTERMEDIATE MECHANICS

4 credits

Newtonian mechanics applied to the motion of particles and systems, conservation laws, motion of rigid bodies, central force problems.

Course includes laboratory.

Prerequisite, Physics 2211.

3307 PHYSICAL CHEMISTRY I**4 credits**

A mathematical study of the laws of thermodynamics, equilibria, electro-chemistry, chemical kinetics, and introductory quantum and statistical mechanics. Sufficient computer programming is introduced in the laboratory to allow treatment and interpretation of laboratory data.

Course includes laboratory.

Prerequisites: Physics 1102, Mathematics 1118, Chemistry 1104, or permission of the instructor.
Cross listed with Chemistry 3307.

3309 TOPICS IN QUANTUM MECHANICS**4 credits**

Intensive study of one or two areas of contemporary physics such as atomic physics, elementary particle physics, molecular physics, nuclear physics, quantum statistical mechanics, and solid state physics.

Prerequisites: Physics 2204, 2211.

Offered in 1997-1998 and alternate years.

3311 INTERMEDIATE ELECTRICITY AND MAGNETISM**4 credits**

Electrostatics in free space and in dielectric media, magnetostatics in free space and in magnetic media, scalar, and vector potentials, electromagnetic induction, introduction to Maxwell's equations.

Course includes laboratory.

Prerequisite: Physics 2211.

Offered in 1998-1999 and alternate years.

3312 ADVANCED CLASSICAL PHYSICS**4 credits**

Advanced topics in mechanics, and in electricity and magnetism. Included are Lagrangean and Hamiltonian formulations of mechanics, Maxwell's equations, electromagnetic waves, and relativistic dynamics. Other topics will be chosen to meet the needs of the students enrolled.

Prerequisite: Physics 2212.

Offered as needed.

4402 INTRODUCTORY QUANTUM MECHANICS**4 credits**

Origins of quantum theory, the Schrödinger equation, physical meaning of quantum mechanics, solutions of one- and three- dimensional problems.

Prerequisites: Physics 2204, 2211, or Chemistry 3308.

Cross listed with Chemistry 4402.

Offered as needed.

4491, 4492 PHYSICS SEMINAR**1 credit**

Study of advanced topics in physics, emphasizing each semester one matter of particular importance to contemporary physics. Students are required to present material relevant to the topic.

2265; 2266; 3365; 3366; 4465; 4466 SPECIAL TOPICS IN PHYSICS**4 Credits**

The study of a selected topic in the discipline. Different topics are chosen for each offering, based on students' interests and needs.

2295; 2296; 3395; 3396; 4495; 4496 INTERNSHIPS IN PHYSICS**0 - 4 credits**

Supervised field experiences in appropriate settings, usually off-campus, designed to assist students in acquiring and using skills and knowledge of the discipline unique to the selected topic.

2298; 2299; 3398; 3399; 4498; 4499 INDEPENDENT STUDIES IN PHYSICS**0 - 4 credits**

Directed study planned and conducted with reference to the needs of those students who are candidates for departmental honors. Qualified students who are not candidates for such honors but who desire to do independent studies are also admitted with permission of the Department.

Political Science and International Studies

Professors Weber (Department Chair) and H. Smith; Associate Professors Leahy and Neal.

Areas of particular teaching interest: Professor Weber: international law, American foreign policy, political gaming and simulation; Professor Smith: state and local governments, public administration, national and Maryland elections and campaigns; Professor Leahy: comparative politics of Western Europe, developing nations and communist nations, methodology of comparative politics; Professor Neal: judicial process, political theory, American political behavior.

The curriculum in political science is directed towards an understanding of National and International Studies with particular emphasis on preparing students for the study of law, for graduate school, and for responsibilities in political, administrative, educational, and social fields.

Opportunity is afforded to a limited number of students to participate in off-campus programs—the Drew University Semester at the United Nations or in Brussels, the Washington Semester at The American University.

Basic Major in Political Science:

Required Courses:

Political Science 1101; 2221 or 2222; 4492; four hours from Political Science 1198, 1199, 2298, 2299, 3398, 3399, 4498, 4499; twelve hours from Political Science 2201, 2202, 2207, 2216, 3305, 3308, 3319; twelve hours from Political Science 2203, 2204, 2213, 3307, 3310, 3317.

Other Educational Options in Political Science:

Dual majors with Economics, English, a Foreign Language, History; Pre-Legal; Teacher Certification in Secondary (middle/high school) Social Studies. Minors are also available in Political Science and International Studies.

1101 INTRODUCTION TO POLITICAL SCIENCE
4 credits

A survey of political systems with an emphasis on theoretical principles of government and the citizen's relationship to the state. The course will also examine the methodology of the discipline of political science, including various aspects of the political and governmental process.

Social Science.

2201 AMERICAN POLITICAL INSTITUTIONS
4 credits

An examination of the organization of the American government and its relationships to political life. Such topics as the constitutional context, the importance of interest groups, the influence of the media, voter behavior, and the executive, legislative, and judicial branches will also be considered. Sustained attention and special focus is directed to the development and growth of the modern Presidency.

Social Science.

2202 STATE AND LOCAL GOVERNMENT
4 credits

A comprehensive survey of state, county, and urban politics and administration with emphasis on the evolving federal relationship, the development of strong governors, and the emergence of professional state legislatures. Special attention is given to Maryland problems, prospects, and policy dynamics as well as to the politics of public education.

Social Science.

2203 INTERNATIONAL LAW AND ORGANIZATION
4 credits

An inquiry into the nature and scope of international law, with emphasis on jurisdiction, nationality, territory, international agreements, state responsibility, force, and war.

Social Science.

2204 WORLD POLITICS
4 credits

A study of the patterns of political interaction between international actors, the nation-state system, causes of war, conflict resolution, and some global issues such as hunger and environment.

Social Science.

2207 AMERICAN PUBLIC POLICY
4 credits

An examination of the major theoretical, conceptual, and practical issues in the study of public policy and the policy process, with examples drawn from current issues in American policy. These may include education, civil liberties, political economy, welfare, and energy.

Social Science.

2213 COMPARATIVE POLITICS OF WESTERN EUROPEAN POLITIES: THE UNITED KINGDOM, FRANCE AND GERMANY
4 credits

A comparative methodological analysis of the Western European governments of the United Kingdom, France, and Germany with an emphasis on systems analysis, political culture, structural-functionalism, and elite analysis. All three polities are members of the European Union which is also analyzed with relation to the regional integration of Europe.

Social Science.

2216 UNITED STATES CAMPAIGNS AND ELECTIONS
4 credits

An examination of the development of American election campaigns from party-based to candidate-centered and media-oriented. The course features in-depth coverage of the role of public opinion polling and its various strategic and tactical uses in campaign politics. Among the topics related to survey research will be sampling, question wording, questionnaire design, and analysis of the results.

Social Science.

Offered as needed.

2221 EARLY WESTERN POLITICAL THOUGHT **4 credits**

A survey of classical political thought from the ancient Greeks through the medieval period. The course will emphasize the concepts of natural law, Roman law, church-state relations, and other topics relating to the political ideas of the period.

Heritage Sequence, Social Science.

2222 MODERN WESTERN POLITICAL THOUGHT **4 credits**

A survey of the ideas of the great political thinkers from Machiavelli to the present. The course will examine the political ideas embodied in liberalism, the reformation, conservatism, and various contemporary ideologies.

Heritage Sequence, Social Science.

3305 PUBLIC ADMINISTRATION **4 credits**

An examination of the nature and development of public administration in the United States with attention to policies of organization, management, personnel, budgeting, forms of administrative responsibility, and governmental services.

Social Science.

Cross listed with Business Administration 3305.

3307 UNITED STATES FOREIGN POLICY PROCESS **4 credits**

A survey of U.S. foreign policy since World War II. American approaches to such issues as containment, detente, arms control, deterrence, international law, and third world economic development will be discussed. United States foreign policy formulation, including the roles of the public, congress, and the president in the process, will be included.

Social Science.

Offered as needed.

3308 AMERICAN CONSTITUTIONAL LAW **4 credits**

Introduction to the study of the principles of constitutional law as related to the changing political, social, and economic problems of the United States; the role of the Supreme Court in the political process.

Social Science.

3310 POLITICS OF DEVELOPING AREAS **4 credits**

An examination of the political, social, and economic problems of "third world" development with Latin America as the regional area of focus. The models of corporatism, bureaucratic authoritarianism, civil-military relations, and dependency theory are applied to case studies in Argentina, Brazil, Cuba, and Peru. An examination of the role of women in development as well as environmental development politics are also included.

Global Perspective, Social Science.

Cross listed with Cross Cultural Studies 3310.

3317 COMPARATIVE POLITICS OF COMMUNIST AND POSTCOMMUNIST POLITICAL SYSTEMS **4 credits**

A comparative exploration of the historical, cultural, social, political, and economic similarities and differences of the two largest and most influential Marxist models, the former Soviet Union, and the People's Republic of China. Both systems are compared in terms of their departures from Orthodox Marxism, Marxism-Leninism, Marxism-Leninism-Maoism. Theoretical paradigms that attempt to predict the future of these regimes are also analyzed.

Global Perspective, Social Science.

Cross listed with Cross Cultural Studies 3317.

3319 AMERICAN CIVIL LIBERTIES **4 credits**

A study of the First Amendment and the Fourth Estate with an emphasis on the major Supreme Court decisions on freedom of speech, press, communication law, assembly and the law of mass media. This course involves students in classroom simulations and visits to courts.

Social Science.

4492 SENIOR SEMINAR **4 credits**

An analysis of various topical or recurring problems in the area of either domestic or international politics. This course serves as a focal point for an integration of methodology, theory, and substantive problem areas.

4493 HONORS PROJECT **4 credits**

An independent research paper for students who are candidates for departmental honors.

2265; 2266; 3365; 3366; 4465; 4466
SPECIAL TOPICS IN POLITICAL SCIENCE
4 credits

The study of a selected topic in the discipline. Different topics are chosen for each offering, based on students' interests and needs.

2295; 2296; 3395; 3396; 4495; 4496
INTERNSHIPS IN POLITICAL SCIENCE
0 - 4 credits

Supervised field experiences in appropriate settings, usually off-campus, designed to assist students in acquiring and using skills and knowledge of the discipline unique to the selected topic.

1198; 1199; 2298; 2299; 3398; 3399; 4498; 4499
INDEPENDENT STUDIES IN POLITICAL SCIENCE
0 - 4 credits

Directed study planned and conducted with reference to the needs of those students who are candidates for departmental honors. Qualified students who are not candidates for such honors but who desire to do independent studies are also admitted with permission of the Department.

Psychology

Professor W. Miller, Associate Professors Colyer (Department Chair), Hughes, and Orenstein.

Areas of particular teaching interest: Professor Miller: abnormal behavior, adulthood and aging, psychotherapy, clinical neuropsychology; Professor Colyer: learning, cognitive behavior modification, behavior analysis and developmental psychology; Professor Hughes: industrial psychology, organizational behavior, psychological assessment, social psychology; Professor Orenstein: human memory, psychophysiology of sleep, perceptual learning.

Psychology is a pluralistic discipline with alliances in the natural sciences, the social sciences, and the humanities. This department reflects the diversity in the field. The course offerings focus on behavior in the broadest sense and are intended to provide the background for students electing a major to qualify for graduate study in psychology and related disciplines, to work in human service agencies (day care centers, rehabilitation departments, mental health clinics, youth service agencies, etc.), to prepare for social work through certification in social work, or to teach via certification in Elementary Education.

The department urges all interested and qualified students to pursue Departmental Honors via Special Studies in Psychology. This program encourages independent study and research.

Basic Major:

Required Courses:

Psychology 1106, 2201, 2211, 2223, 2224; four hours from Psychology 3329, 3330, 3340; and sixteen additional hours of Psychology.

Other Educational Options in Psychology:

Teacher Certification-Elementary (1-6), Tracks in Behaviorism, Brain/Behavior Relationships, Clinical, and Industrial/Organizational concentrations. The department also offers a minor in psychology.

1106 CONTEMPORARY PSYCHOLOGY **4 credits**

An introductory course designed to develop an understanding of the basic principles governing behavior, with emphasis on the scientific method of studying behavior. Intelligence, motivation, emotion, perception, learning, personality, work place issues, and social factors that influence the individual will be considered.

Social Science.

2201 PSYCHOLOGY OF LEARNING **4 credits**

Overview of the fundamental principles of learning and memory and their applications for the understanding of behavior. Empirical and theoretical issues are examined. Students conduct laboratory experiments designed to illustrate principles and issues.

Prerequisite, Psychology 1106.

2202 BEHAVIOR MODIFICATION **4 credits**

The study of the basic principles governing human behavior with emphasis on procedures for eliminating and acquiring behaviors through cognitive behavioral and behavioral interventions. Special emphasis is placed on behavioral analysis. Students perform laboratory and field exercises designed to illustrate principles.

Prerequisite, Psychology 1106.

2204 SOCIAL PSYCHOLOGY **4 credits**

A study of group behavior and cognitions as they can be explained through psychological principles and phenomena. This course provides a survey of how what people think, believe, or do is altered by the presence of other people. Topics include attitudes, attitude change, social perception, social influence, altruism, and group dynamics.

Prerequisite, Psychology 1106.

Cross listed with Sociology 2204.

2207 CHILD DEVELOPMENT **4 credits**

A critical survey of research problems and theories pertaining to child behavior; review and application of principles of learning in early childhood.

Prerequisite, Psychology 1106.

2211 PSYCHOLOGY OF ABNORMALITY **4 credits**

The incidence, causes, treatment, and prevention of abnormal behavior of persons; focus on adult populations.

Prerequisite, Psychology 1106.

2220 PSYCHOLOGY IN THE WORKPLACE **4 credits**

An exploration of the principles of psychology as they are relevant to the work environment. Included will be a discussion of how psychologists can help improve the workplace and address organizational concerns. Topics include selection, training, personnel evaluation, and the characteristics of a variety of work environments.

Discussions will also consider how these practices may affect organizational or individual effectiveness and attitudes.

Prerequisite, Psychology 1106.

Cross listed with Business Administration 2220.

2223 PSYCHOLOGICAL METHODS I: MEASUREMENT AND ASSESSMENT **4 credits**

An introductory course on measurement within the field of psychology. Students will learn how psychological variables such as personality, abilities, and interests are translated into psychological measurement techniques. This course will explore the fundamentals of assessment including descriptive statistics, reliability, and validity, and will examine a variety of assessment techniques. Students will acquire hands-on experience in using assessment tools including the use of statistical programs to understand and evaluate test results.

Prerequisites, Psychology 1106, Mathematics 0001 or 0003, Mathematics 0002 or 0004.

2224 PSYCHOLOGICAL METHODS II: RESEARCH DESIGN AND ANALYSIS **4 credits**

A current treatment of the philosophy and methodology of the scientific method. Topics include experimental design and the analysis of research using the computer. The laboratory is designed to acquaint each student with procedures, techniques, and apparatus used in psychological investigations. Statistical tests studied include t-tests; analysis of variance for between-groups factors, within-groups factors, and combinations of such factors; correlation; and non-parametric tests.

Prerequisites, Psychology 1106, 2223.

3303 PSYCHOLOGY OF PERSONALITY **4 credits**

An overview of the major theories of personality and assessment strategies. Emphasis will be on the normal personality in a diverse world with some attention to disordered personalities.

Prerequisite, Psychology 1106.

Offered in 1998-1999 and alternate years.

3305 HEALTH PSYCHOLOGY **4 credits**

An introduction to the foundations and practice of health psychology. A biopsychosocial perspective is applied to the promotion and maintenance of health and the prevention and treatment of illness. Behavioral components of health risk factors and improvement of the health care system are addressed.

Prerequisite, Psychology 1106, Biology 1111 or 1118.

3306 ADOLESCENT DEVELOPMENT AND BEHAVIOR
4 credits

A critical survey of research problems and theories pertaining to adolescent development; review and application of principles of learning to adolescent behavior.

Prerequisite, Psychology 1106.

3307 PSYCHOLOGY OF THE EXCEPTIONAL CHILD
4 credits

An overview of the psychological effects of major exceptionalities including giftedness, deafness, blindness, mental retardation, brain injury, speech defectiveness, mental illness, and orthopedic problems, with the emphasis upon children and on the treatment, rehabilitation, and educational techniques available to serve persons with these exceptionalities.

Prerequisite, Psychology 1106.

3308 ADULTHOOD AND AGING
4 credits

Psychological and personality changes from young adulthood through old age; adult socialization and the age status system; changing concomitants of family relationships, employment, leisure, and retirement; health issues, psychopathology, and death.

Prerequisite, Psychology 1106.

Cross listed with Sociology 3308.

Offered in 1998-1999 and alternate years.

3329 PHYSIOLOGICAL PSYCHOLOGY
4 credits

An analysis of the basic physiological mechanisms underlying human behavior with emphasis on the brain and central nervous system. Topics include genetics, behavioral development, sensory systems, emotion, learning, and memory.

Prerequisite, Psychology 1106.

3330 PSYCHOLOGY OF PERCEPTION
4 credits

An in depth analysis of contemporary issues in perception. Topics include signal detectability, selective attention, taste perception, figure formation, illusions, visual stability, memory, and space, time, and motion perception.

Prerequisite, Psychology 1106.

3335 HELPING RELATIONSHIPS/COUNSELING
4 credits

An overview of psychological counseling with emphasis on a flexible, broadly based approach to the development of helping skills with a diversity of clients.

Course includes a 15-hour practicum experience.

Prerequisites, Psychology 1106, 2211.

3338 LABORATORY IN HELPING RELATIONSHIPS/COUNSELING
4 credits

Supervised externship experience in a human service agency designed to facilitate the use of skills unique to the helping professions (counseling/behavioral intervention). Course includes on-campus seminar sessions on special populations and off-campus supervised practice with clients served by the agency. Placement may include youth service programs, group homes, mental health organizations, geriatric centers, programs for the developmentally disabled, etc.

Prerequisites, Psychology 2202 or 3335 and permission of the instructor.

3340 MIND/BRAIN: CLINICAL NEUROPSYCHOLOGY
4 credits

A study of the behavioral correlates of brain dysfunction in adults with focus on neuropsychological assessment.

Prerequisite, Psychology 1106.

Offered in 1997-1998 and alternate years.

2265; 2266; 3365; 3366; 4465; 4466
SPECIAL TOPICS IN PSYCHOLOGY
4 credits

The study of a selected topic in the discipline. Different topics are chosen for each offering, based on students' interest and needs.

2295; 2296; 3395; 3396; 4495; 4496
INTERNSHIPS IN PSYCHOLOGY
0 - 4 credits

Supervised field experiences in appropriate settings, usually off-campus, designed to assist students in acquiring and using skills and knowledge of the discipline unique to the selected topic.

2298; 2299; 3398; 3399; 4498; 4499
INDEPENDENT STUDIES IN PSYCHOLOGY
0 - 4 credits

Directed study planned and conducted with reference to the needs of those students who are candidates for departmental honors. Qualified students who are not candidates for such honors but who desire to do independent studies are also admitted with permission of the Department.

Religious Studies

Associate Professors Alles (Department Chair) and Wu; Lecturer Maxey.

Areas of particular teaching interest:

Professor Alles: religions of South Asia and the Mediterranean world, history methods of the study of religions; Professor Wu: contemporary philosophy, East Asian studies, philosophy of science.

In Religious Studies, students are encouraged, by exposure to a variety of religious expressions and beliefs, to develop attitudes and convictions of their own while gaining an appreciation for the meaning of religion in the lives of people throughout the ages and across cultures.

Fundamental to our approach is the comparative study of world religions, which includes historical and phenomenological methods. While we engage in the academic study of religion as an empirical dimension of human life, we do not espouse one single religious tradition.

The departmental curriculum is divided into historical/interpretive courses, e.g., Religion of the Ancient World and Sacred Architecture and ethical/critical courses, e.g., God and the Holocaust and Liberation Movements and Human Freedom.

Basic Major:

Required Courses:

Religious Studies 1101 or 1102, 2240, 4492; 8 hours from Historical-Interpretive Religious Studies; 8 hours from Ethical-Critical Religious Studies; 4 hours from Religious Studies at the 2000 level or higher, 8 hours from History 1105, 1106, 2213, 2214, 3315.

Other Educational Options in Religious Studies:

Special programs combining Religious Studies with other disciplines.

Four hours in Religious Studies or permission of instructor are prerequisite for all courses numbered 3000 level or above.

1101 WAYS OF BEING RELIGIOUS 4 credits

The nature and meaning of religion as a dimension of human life. A general overview of the significance of myth, symbol, ritual, and the sacred is followed by emphasis on pilgrimage, initiation, and the priestly and prophetic modes of religion. Historical, phenomenological, and comparative methods will be used.

Humanities.

1102 RELIGION AND CULTURE 4 credits

An introduction to religious studies that examines the various ways religion is implicated in human culture. General topics include culture as a vehicle for religious expression, religion as a critique of culture, and the place of religion in American public life. The course presents case studies drawn from the world's major religions as well as major, contrasting theoretical perspectives.

Humanities.

2204 WOMEN AND RELIGION 4 credits

An examination of the contributions women have made to the world's religions, and of the ways in which religions have affected women's lives, positively and negatively.

Humanities.

Offered as needed.

2212 MARTIN AND MALCOLM: THEIR LIVES AND THOUGHT 4 credits

The examination of the contributions of Martin Luther King, Jr., and Malcolm X to American society. Special attention will be given to the subjects of Christianity and Islam, religion and politics, the Civil Rights Movement, and Black Nationalism.

Humanities.

Offered as needed.

2213 HEBREW BIBLE 4 credits

Social Work

Associate Professor Rees; Assistant Professor Galambos (Department Chair).

Areas of particular teaching interest: Professor Rees: human relations in the work place, family; Professor Galambos: gerontology, human behavior, professional ethics, social policy, and long-term care.

The primary purpose of the Social Work Department is to prepare social work students for an entry level generalist social work practice. The department supports a basic understanding of various client systems including individuals, families, groups, organizations, and communities, and the various helping roles assumed by social work students in an effort to enhance quality of life within client groups.

The social work program prepares students for the practice of social work. This program is nationally accredited by the Council on Social Work Education. Graduates of this program can move directly into social work positions or may enter graduate schools of social work with advanced standing. A limited number of students qualify to participate in off-campus programs such as those available in American urban centers, Appalachia, and abroad.

The department respects the diversity of client populations and lifestyles and strives to achieve an effective balance between these factors and social work practice. The development of an understanding of the bio-psycho-socio-cultural components within the person/environment equation is supported in social work courses.

The uniqueness of all students and the growth and development of their professional self is encouraged throughout the curriculum.

Basic Major:

Required Courses:

Social Work 2202, 2214, 2217, 2218, 3322, 3325, 3349, 4409, 4415, 4416, 4417, 4418.

DIRECTIONS TO CAMPUS

MILEAGE

From Baltimore	31 miles
From Columbia	36 miles
From Gettysburg	24 miles
From New York	218 miles
From Northern Virginia, Fairfax, Arlington	70 miles
From Philadelphia	136 miles
From Washington	56 miles
From Wilmington	100 miles

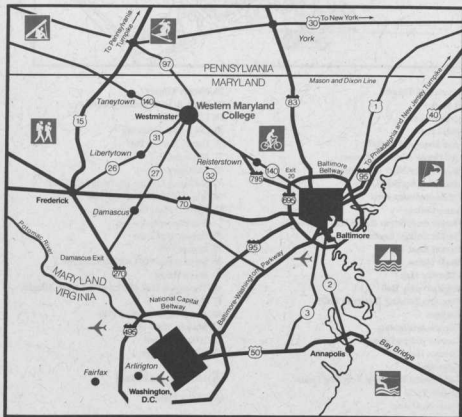

Both Washington, D.C., and Baltimore, Maryland, are served by major airlines and Amtrak. Westminster is a short drive from both cities.

DIRECTIONS TO CAMPUS

From Baltimore: Take I-695 (Baltimore Beltway) to Exit 19 onto I-795 (Northwest Expressway), continue to its completion. Follow signs to Westminster via Route 140 North around Westminster, and turn left exiting onto Route 31. Drive 1/4 mile (WMC golf course is on your left) and turn left at the second light — onto Uniontown Road. Drive 3/10 of a mile and turn left into Admissions Visitor Parking. The Office of Admissions is located in Carroll Hall, the Victorian-style red brick building.

From Washington D.C.: From the Washington Beltway (I-495) exit onto I-270 North toward Frederick, then onto Route 27 East/Damascus (Exit 16A). Take Route 27 North to Westminster. Turn left at the intersection of Routes 27 and 32, and drive 1/2 mile. Bear left at the forked roadway and turn right into Admissions Visitor Parking.

From the North: From U.S. 15 at Gettysburg, exit onto Route 97 South. Follow 97 to Route 140 North, and follow it around Westminster. Exit left onto Route 31 and go 1/4 mile (WMC golf course is on your left) and turn left at the second light — onto Uniontown Road. Drive 3/10 of a mile and turn left into Admissions Visitor Parking.

Printed on recycled paper.

Since 1988 there has been a strong student-led environmental movement on the Western Maryland College campus. The College Advisory Committee on Environmental Matters was formed the following year to review environmental practices, educate the community about environmental concerns and to expand the campuswide recycling program. Every effort is made to use supplies made from recycled materials, and to recycle in our classrooms, residence halls and offices. This catalog and other publications are printed on recycled paper. You can help too, by passing this along to any of your friends who may be interested in the educational opportunities WMC offers.

Located on pages 2-7 is an excerpted essay by Dr. Frank Benjamin Hurt, who spent most of his teaching career at Western Maryland as a professor of political science. This essay in its entirety was first published in *The Ferrum Review*, Fall 1984. "Pappy" Hurt, as he was affectionately called by his students, not only was a devoted teacher but for three decades coached tennis. He died in February, 1992.

Western Maryland College, in compliance with Federal and State laws and regulations governing affirmative action and non-discrimination, does not discriminate in the recruitment, admission, and employment of students, faculty, and staff in the operation of any of its educational programs and activities as defined by law. Accordingly, nothing in this publication should be viewed as directly or indirectly expressing any limitation, specification or discrimination as to race, religion, color or national origin, or to handicap, age, sex, sexual orientation, or status as a disabled Vietnam-era veteran. Any inquiries regarding the above may be directed to the Director of Affirmative Action, 410/848-7000.
