Western Maryland College Bulletin  
May, 1955

Edward P. Smith

## COVER STORY

Here is what might have been a typical picture on hundreds of college campuses across the nation when at Commencement, senior ROTC men emerge from graduation clutching both diploma and commission in hand, the proud possessors of two gold bars.

In the case of the Western Maryland campus, Edward P. Smith, '55, of Cambridge, Md., is having his "pinned on" by a very special coed, Miss Marilee Hodsdon of Glen Burnie. Although he will not actually receive his commission until June, this is what it "may" be like when he does.

But this is more than just another campus activity with Mr. Smith; it may possibly be the beginning of a career, for he is the only man in the senior class receiving the Regular Army commission. Contrary to what it may seem, college ROTC programs provide more officers for the Regular Army than West Point.

"Eddie", as he is popularly known around campus, is the Executive Officer of the Corps this year. In receiving the Distinguished Military Student Award last year, he became eligible for the commission of 2nd Lieutenant in the Infantry of the Regular Army. His appointment is subject to the nomination of the President and confirmation by the Senate of the United States.

This year he received the Reserve Officers Medal as one of the 3 outstanding members of the senior class. But unique is his position of being the last man to receive a Regular Army commission under the Infantry Training Program here. Since he entered Western Maryland, a General Military Science Program has replaced it. This en-

titles our reserve officers to enter any branch of the Army for which they are qualified.

"Eddie's" activities have carried him into many fields at college. The most important has been his job for four years as Student Director of Sports Publicity, an assignment he has handled very well. During the second semester of 1954, he was President of the Gamma Beta Chi fraternity. He has also been men's sports editor for the Aloha and a former writer for the Gold Bug. In his sophomore year, he was President of his class.

He is the brother of two former Western Marylanders, Dr. Russell P. Smith, ex-'41, Mayor of Cambridge, and Mrs. A. Edward Dougherty (Grace Smith, '41) of Lewes, Del.

The immediate future for Eddie is with the Airborne Infantry at Fort Benning. However, he is hopeful that somewhere in the future a law degree will be added to his B.A. in History.

It is with a feeling of distinct pride that your editors introduce to you the future Lt. Edward P. Smith, featured on this month's cover.

## The Living Endowment Fund

Charles T. Holt

friends have contributed a total of \$9916.90 to the Fund.

In terms of increase, it is significant to note that since the Living Endowment program was adopted by the Alumni Association in 1946, never have so many given so much. This is consistent with our thinking under Mr. Holt's leadership that greater class participation is the answer to increased totals.

As he has said, "Have you given thought to making a contribution to the Living Endowment Fund? We are determined to leave no stone unturned in trying to prevail upon every friend of Western Maryland to make some contribution—no matter how small.

Are you willing to invest in the future of your alma mater to the extent of \$1.00, \$5.00, \$10.00 or perhaps \$50.00 a year? The amount is for you to decide but it would be wonderful if we could get every former student of the College to acquire the habit of contributing yearly to the Living Endowment Fund. Can we count on you?"

This year the average gift per donor has increased by \$1.39 to bring the average gift to \$17.09 at this writing.

Gifts this year range from 50 cents to \$1000.

With this in mind, it seems that somewhere within that magnificent range lies the answer to a giving program suitable to the pocketbook of any Western Marylander whose name is not already on the Living Endowment honor roll.

In the summer bulletin, a complete report of the 1955 Living Endowment Fund will be given including names of donors (but not amounts) unless requested to be kept as anonymous.

With Charles T. Holt, '25 as Alumni Fund chairman this year, the Living Endowment Fund campaign has raised its sights all along the line.

## NEW DORM NAMED

The College Board of Trustees agreed unanimously on the naming of the new Men's Dormitory announcing their decision at the April meeting: The Daniel MacLea Hall.

This name was chosen in memory of the late Daniel MacLea who served as Chairman of the Building and Grounds Committee of the College Board of Trustees from 1928 to 1942.

He was the former President of the MacLea Lumber Company of Baltimore and had been a trustee since 1924.

During his tenure as Chairman of the College Committee, six buildings were erected on campus. They were: Science Hall, 1929; the Power House and revision of the central heating system, 1934; Blanche Ward Hall, 1935; Albert Norman Ward Hall, the Gill Gymnasium, and Levine Hall was extensively remodeled, 1939; Service Building, 1948; The Thompson Infirmary, 1950.

Throughout the period of these constructive achievements, Mr. MacLea gave wise leadership and counsel, spending endless time in their planning. Besides he was extremely liberal both in financial gifts to these enterprises and frequently providing certain needed materials.

Two years before his death he resigned as Chairman of the Building and Grounds Committee and his son, Carlyle, WMC '22, succeeded him, but Mr. MacLea continued as a member of the committee until his death.

Although construction of MacLea Hall was delayed somewhat during the winter months when masonry work was impractical it is expected to be complete and ready for residence when College opens in September.

Vol. XXXVI      May      Number 2

Western Maryland College Bulletin, Westminster, Maryland, published monthly during the school year from January to November and July-August, except May, June and September, by the College.

Entered as second class matter, May 19, 1921, at the Postoffice at Westminster, Md., under the act of August 24, 1912. Accepted for mailing at special rate of postage provided for in section 1103, act of October 3, 1917.

Miss Gesner

## MISS GESNER RETIRES

"Won't you come in?" With these oft-repeated words Miss Gesner has invited friends, students and visitors into her most charming studio for the past many years. And for those who have known or studied under Miss Gesner, there are many regrets connected with her retirement.

However, Miss Gesner personally talks happily about her plans. She will return to her home in Oregon, and, when her sister retires after one more year of teaching, they will spend two years leisurely touring Europe. And if Miss Gesner does what she does in Baltimore, in Washington, in New York and in every city she will spend many hours in the great museums, art and book houses and, of course, in cathedrals.

Upon entering her studio, a student sees immediately how and where Miss Gesner spends much time. Everywhere there is evidence of her interests—beautiful prints of Gothic-type art, the Madonna and Child, elegant figurines, a small Chinese vase, an archangel, books beautifully bound and arranged according to their appearance, books on every subject. In essence; culture.

Miss Gesner has influenced many of her students. She has done more than teach Music, History, Analysis, individual piano lessons and other courses. You don't just listen to music, you actually

begin to understand how to listen, what to hear, and sometimes even what to expect to hear. In her classes students are amazed by her mercy of anecdotes about great artists and often times her sense of humor in relating them. Ever hear her story about de Pachmann? Recent students have regretted the fact that Miss Gesner did not perform, and were justly impressed when in class periods she played illustrations and accompaniments to group work. Every generation of music majors in the past few years have said the same thing: "I wish I could have heard Miss Gesner give a concert". Many students have stood quietly on second floor Levine Hall when they heard Miss Gesner practicing downstairs. Her interpretation of Schubert songs!

Her piano students have reaped the benefits of her periodic study with Harold Bauer, until his death, and Elizabeth Quaile. Miss Gesner did her graduate study at the New England Conservatory of Music, but has never stopped studying. She was head of the Music Department for more than thirty years.

It is with a deep sense of loss that the College announces Miss Gesner's retirement. Everyone who knows her hopes that she will enjoy every bit of her retirement living, travels the distances she plans, and especially travels back to Western Maryland College.

## The Education Dept.

Dr. Joseph R. Bailer, head of the Education Department on the Hill, received his Doctor of Philosophy degree from New York University on February 18, 1955.

Alumni who have known Dr. Bailer since his coming to Western Maryland in 1949 will welcome this news. They have known him to be a "school man" of many years. His background is full of "education" on both the secondary school and college-university level. His most recent teaching, prior to coming to our college, was as Professor of English at the American University of Cairo, Egypt.

There were 45 students in this year's senior education class. The department trains students for teaching in the secondary schools. This year's students have accepted teaching positions in South Carolina, Indiana, New Jersey, Pennsylvania and Maryland.

Under Dr. Bailer's direction the Master of Education program has grown to a membership of approximately 250.

The winter program encompasses extension courses in York, Hagerstown, Towson, Waynesboro, Stemmers Run, Chambersburg and on the home campus. For this year's summer session, Western Maryland has been specially chosen by state groups to teach such specialized courses as Conservation Education and Driver Training.

The Esso Safety Foundation chose Western Maryland to offer the Driver Training Education this summer to high school teachers. We are the only college in the Maryland, Delaware, Virginia and West Virginia area to receive the grant from the Esso Foundation in this training program. (See picture)

The master's program offers work leading to the degree of Master of Education, teacher certification and the renewal of teacher certificates.

Dr. Bailer is a graduate of the University of Pittsburgh and has done advanced study at Columbia University and Cambridge University. His doctorate work was done at New York University. His dissertation was entitled "Semiotic and the Language of Questions".

## WESTERN MARYLAND ACADEMIC-WISE

Richard F. Brenneman

A year has passed since an article in a previous Alumni Bulletin raised the question of how Western Marylanders compare academically with alumni of colleges and universities all over the United States. It gave partial proof of our high academic achievement by citing honors won by our students and professors on a national basis. Again this year the College is proud to announce that one of its 1955 graduates has been awarded a Fulbright Scholarship.

Richard F. Brenneman of Stewartstown, Pa., has received notice of the award for a year's study abroad. "Dick" was a history major and plans to study Protestant Theology at Westphalian State University, Munster, Germany, during the 1955-56 academic year. "Dick" was an active campus citizen serving as president of the Pi Alpha Alpha fraternity, vice-president of the college chapter of Alpha Kappa Alpha, national honorary philosophical society and editor of the society's national publication, *Philosoph*. He has been an Argonaut and active in the Student Christian Association.

Another 1955 senior has made an outstanding academic record—in the National Graduate Record Examination. Although many seniors, in several departments, rated very high in this national testing program, none achieved the "second-to-none" score that "Tom" Englar did. Dr. Spicer announced that in the Math Graduate Record exam Thomas S. Englar, Jr. placed in the 99th percentile.

Dr. John D. Makosky, in *The Gold Bug*,

wrote on the overall tests results. "Returns from the Graduate Record Examinations, taken by all seniors in April, are highly creditable for both individual students and the class as a whole.

The entire class achieved a "gross mean average" of 65th percentile. Such a performance probably places Western Maryland in the top quintile of colleges administering the Advanced Tests to entire senior groups, though no general distributions of this sort are published about the Graduate Record Examinations."

Fourteen students scored in the highest decile in the following departments: Biology, Chemistry, Economics, French, History, Literature, Mathematics, Music and Physics.

Western Maryland was honored to have the American Ambassador to Czechoslovakia, U. Alexis Johnson, as its Commencement speaker this year. Ambassador Johnson is a career diplomat, having been connected with the United States State Department for the past twenty years. He is a native of Glendale, California, and a graduate of Occidental College in 1930. To add to his B.A. he studied at the graduate School of Foreign Service, Georgetown University.

The honorable U. Alexis Johnson is a specialist in Far Eastern Affairs. During World War II he was an assistant to General Douglas MacArthur in affairs of state. Following the war he served as Consular General in Yokohama, Japan. In 1948 he was assigned Deputy to the Assistant Secretary of State, Walter Robertson. In 1953 he was sent on his first

U. Alexis Johnson

European assignment for the State Department, American Ambassador to Czechoslovakia.

Ambassador Johnson's daughter Judith Ann, is a member of the 1955 graduating class.

## OUR DEAN OF WOMEN

Dean Howery

Our Dean of Women goes to England this summer.

Dr. Helen G. Howery has been accepted to study Shakespeare and Elizabethan Drama at the

Shakespeare Institute of the University of Birmingham at Stratford-upon-Avon, England. Only 80 students are accepted, all must be postgraduates, and they must be representative of the universities of America, Europe and the British Commonwealth. Usually twenty or more nations are represented in the summer session of the Shakespeare Institute.

The course will be taught by distinguished scholars and authorities in the field of Shakespeare and Elizabethan Drama from several universities such as Oxford, Durham and Glasgow in addition to the University of Birmingham. The School will include lectures, seminars and excursions. Playgoing is an important part of the School. Sir Lawrence Olivier and Vivien Leigh will star in four Shakespearean plays to be presented at the Shakespeare Memorial Theatre during the 1955 Festival. Students of the School see the plays several times and make a close study of the production methods and acting. The 1955 season repertory will include *Twelfth Night*, *All's Well that Ends Well*, *Macbeth* and *The Merry Wives of Windsor*. It is also planned for students to visit the Birmingham Repertory Theatre and to attend a performance of *Richard III* at Warwick Castle.

Dean Howery will sail on the "Mauretania" on June 14 and return on the "Queen Elizabeth" on September 13. She also expects to travel on the Continent in June and to attend the Edinburgh Festival of Music and Drama in August.

*Pillar of Fire*, a novel by Frank Carwin.

Western Marylanders between the years of 1932-1942 who read this currently popular book will recognize references not only to many of their former teachers, but perhaps even themselves. The author taught courses in Economics to many Alumni.

Frank Carwin is the *nom de plume* of former Professor Edwin R. Schempp, who was Assistant Professor of Social Science at Western Maryland from 1932-1942.

This first novel is autobiographical and includes a section which deals with his years as a faculty member at Western Maryland College.

Following many years of work in the business world and teaching, Dr. Schempp became Frank Carwin in the literary world and since 1953 has devoted all of his time to writing. At the present time, he, his wife and three year old son divide their time between a summer place in New Hampshire and their home in Beverly, Mass.

Miss Arleen Heggemeier, Assistant Professor of Music, recently completed work for her degree of Master of Music at Oberlin College. Miss Heggemeier, an accomplished pianist, joined our faculty in 1950.

A new course was begun this year under Miss Heggemeier's direction. The course, Methods of Teaching Piano, proved to be such a success that it will be part of the curricular offerings for advanced students in the music department.

Miss Heggemeier plans to spend her summer studying and then return to Western Maryland to work with our students in September.

## SPOTLIGHT ON A QUEEN

Meta Justice

Regally speaking, Meta Justice is well qualified to wear crowns. Seldom in the history of Western Maryland's royalty has one coed worn two crowns in one year. But such was the case this year when Miss Justice was twice chosen a Queen. She reigned over the Homecoming Court and was Queen of the May.

Regality in her senior year at Western Maryland is not the least of her accomplishments in beauty, popularity and talent, for two years ago she was chosen to represent the State of Maryland in the Miss America Contest at Atlantic City.

Even before entering college, Miss Justice started on her queenly career, having been named the Crustacean Queen down on her native "Shore." Her home is Crisfield.

Beauty is but one of her attributes. In the past four years many have become familiar with her lovely soprano voice. Perhaps she is best remembered for her artistry in this field in her title role in "The Lowland Sea," an operetta performed here and in Baltimore two years ago by the Music and Dramatic Art Departments.

# SPOTLIGHT ON SPRING SPORTS

Wray Mowbray and Henry Taitt

## TENNIS

Tennis and track were the outstanding sports on the Hill this spring, both teams boasting near perfect records.

In his 21st year as coach of the tennis team, Professor Frank Hurt came up with another fine team of veterans supplemented by two freshman hopefuls which posted a 12 and 2 record with two matches rained out. Only Loyola, this year's Mason-Dixon champions, defeated the Terror courtmen.

Senior Henry Taitt and freshman Wray Mowbray, both from Cambridge, teamed together for a startling pace in first doubles to remain undefeated in 12 consecutive matches in both Mason-Dixon and Middle Atlantic competition.

Professor Hurt rates Taitt as "among the best I've ever had." He is definitely one of Western Maryland's all-time tennis greats. Prospects for his doubles partner, Mowbray, are as promising.

Other veterans on the team were seniors Ray Davis, Alvin Bopst, and sophomore Sam Reed. Completing the roster were junior Hugh Howell and freshman, John Gunderson.

This season marks one of Coach Hurt's better years, certainly the best in the past several years. His team's all-time record stands at 178 victories against 102 defeats.

## TRACK

Dick Harlow's track team won their five dual meets but because of a relatively small squad, found the Conference Meet rough sledding.

They bested Washington College, Loyola, Mt. St. Mary's, Gettysburg and Catholic U. Probably the closest test was with G-Burg, our fleet-foots edging them 55-50.

Outstanding members of this year's team were John Hort, hurdler from Arlington, Charlie Clarke, dash man from Baltimore and Bob Butler, 440 and relay ace from Frederick.

## BASEBALL

Coach Jim Boyer's baseball team had ten reversals in fifteen starts. A pitching weakness seemed to be the biggest handicap. Bill Clem, right-hander from Walkersville and the number one hurler from last year's team, came up with a sore arm and never did get into top performance with the ball club. Walt Sanders, veteran southpaw and Andy Tafuri, both juniors, carried the major hurling chores for the club this season.

Charles "Buck" White, catcher, finished up his athletic career with the Terrors this spring. In the past four years, he has been a triple threat man, an outstanding competitor in all three sports, football, basketball and baseball.

## GOLF

Charlie Havens mentored the Golf Team this year, his linksman closing the season with a 3 and 7 record. Placing last in the annual Western Maryland Invitation Tournament, they pulled the season out of the bag by finishing in second place in the Mason-Dixon Tournament.

The shining light throughout the season was senior "Dick" Hill. Two other seniors who have dropped the last putt for the Green Terrors are Jim Marshall, a four year man on the team, and Tom Mabry, who joined the club for the first time this year.

---

Too late for the last bulletin, it was learned that Dennis Harmon, high-scoring sophomore center-forward on the Terror Soccer Team, was elected to the All-American Soccer Team last fall.

# ALUMNI CLUBS

## Washington County

Several dozen Washington Countians turned out for their annual dinner at the Rose Bowl Party House in Hagerstown on Wednesday, April 13.

Victor R. "Dick" Martin, '33, Vice-president, wielded the gavel in the absence of Chapter President Barbara Sowers Thomas, '49, who had just become a mother.

Official hostess for the evening was Miss Sarah "Sally" Adams, '27.

For the program, Dr. and Mrs. Thomas Marshall told of their experiences in Greece where Dr. Marshall taught last year at the University of Athens on a Fulbright professorship. Mrs. Marshall showed beautiful kodachrome slides.

New officers are: Peter Callas, '49, President; Leroy Carter, '48, Vice-president; Mrs. Emily Linton Carnochan, '42, Secretary; and Rebecca LeFew, '53, Treasurer.

## Metropolitan New York

For the first time in five years, the New York Alumni Club moved its meeting place to Whyte's Restaurant in the City where twenty-eight alumni turned out for the annual dinner on Saturday, April 16.

Classes present represented a fifty-four year span in Western Maryland history. Anchor man was Arthur G. Woodfield, class of '97 from Union, N. J. Sitting beside him was Dr. Paul C. Whipp, '04, while Ann Smutny of 1953 represented the most recent class to graduate.

Dr. and Mrs. Fred G. Holloway were special guests of the evening.

Dr. George Thomas Croft, '48, was elected President of the Club following "Jack" Mears, '28, who has done an admirable job of sparking the Club in the past two years.

## Metropolitan Philadelphia

The Philadelphia Alumni Chapter met on Thursday, April 21, at Shoyer's in Philly where nearly 40 Western Maryland graduates, wives, husbands and friends had a very successful reunion.

Mrs. Gertrude Veasey Strayer of the Class of '93 took honors as the member of the oldest class present. However, the bulk of the group graduated in the last ten years. Geographically, a wide area was covered with Jay Eggly, '51 from Ocean City, N. J., to Thomas D. Shanahan, '25 from Bethlehem, Pa.

Martha Libis, '47, President, arranged a delightful musical program including talent from the club membership, Donald R. Makosky, '52, baritone and from the Hill, Charlotte Ridgely, soprano and Anne-Marie Summers, pianist.

President Lowell S. Ensor addressed the meeting on a "State of the College" theme.

## Cumberland

A new club is in the formative stages at Cumberland serving the Allegany and Garrett County area.

A dinner and organizational meeting will be given on June 9.

Those working to bring the new club into being are Harry Baker, '42, Rev. John B. Jones, '41 and August T. Brust Jr., '39.

## Carroll County

An election of officers at the Mid-winter meeting following group attendance at a home basketball game finds John W. Manspeaker, '36, as new President of the group.

## HOMECOMING

### NOV. 5

# Personals from Alumni

1885

John H. Cunningham, Westminister, recently arrived at his seventieth year in the banking business, making him the dean of Maryland bankers. Now chairman of the board of the Carroll County National Bank, Mr. Cunningham is also the oldest active alumnus of WMC and the only living charter member of the Maryland State Firemen's Association. # OVER THE TOP ....

.... with the 1955 living endowment fund

**N**O ACTUAL goal was set for the Living Endowment Fund this year, however, those who worked with it were hoping that contributions would total \$10,000.

Those hopes became reality when on June 2nd, the Fund had grown to \$10,163. Since then, a cushion has been added and as we go to press with the results of the 1955 Living Endowment Fund, 673 donors have contributed \$10,722.40.

## Never have so many given so much!

This is the kind of axiom we would like to guarantee a permanent berth in reporting results of the Annual Alumni Fund.

On a national basis, \$20,883,548 was contributed to 1955 Alumni Funds in colleges and universities across the country. Of this total, \$7,846,280 was given by 277,025 alumni donors in private coeducational institutions, with an average gift of \$28.32 per donor.

The statistical report of the American Alumni Council 1954-55 fund survey shows that 352 colleges participated.

As a point of comparison for our own Fund, you may be interested in the results of a few colleges which have approximately the same number of alumni as Western Maryland, and have reported currently expendable alumni gifts in the Survey.

College	No. of Donors	% Effectiveness of Alumni Solicitation	Total Contributions
American Univ.	229	63.8	\$ 3,254.00
Bates	3331	51.2	21,675.00
Bethany	290	66.3	8,791.00
Dennison	2439	38.2	50,084.00
Gettysburg	1319	17.3	17,821.00
Gonzaga	432	68.4	5,923.00
Juniata	1049	23.3	18,009.00
Lebanon Valley	801	21.7	13,996.00
Roanoke	308	66.0	4,867.00
Upsala	250	65.7	2,218.00
W. Va., Wesleyan	378	68.3	6,939.00
Whittier	864	12.9	7,366.00
Western Maryland	673	13.5	10,722.40

Although some topped our total by proportionately larger sums, few doubled the total of the previous year as we did. In achieving this position, alumni and friends who contributed have proven Chairman Holt's observation that increased individual participation is the smoothest road to increased totals. There were over 300 more donors this year than in 1954. Much of the success of increased participation relates directly to Class Chairmen and their agents who personalized the appeal and to Charles T. Holt, '25, Fund Chairman.

Over 13 percent of our alumni contributed this year, doubling last year's effort in this category. Although this percentage leaves room for expansion, a simple arithmetic progression illustrates the potential which lies ahead.

Significant also is the size of the average gift per donor, \$15.91 as compared with \$15.11 last year.

The sum contributed this year actually represents the income the College would have received from approximately \$263,000 in fixed endowment at a 4% rate of return, or about one-fourth the amount the College now receives from its Endowment Fund. This one factor serves to emphasize the importance of Living Endowment contributions and the impact they have in a single year on the college budget.

This expression of confidence in your Alma Mater will mean increased services for the college community, faculty salary increases, improvement and advancement for Western Maryland.

At the same time, you have answered the big question put to us by business and industry in response to requests for aid to higher education in the independent colleges, "What Are Your Alumni Doing To Help?" (see page 5.)

Orchids for individual accomplishments go this year to the Class of 1922 whose chairman, George A. Meyls, Jr., brought his classmates into the winner's circle with a total of \$710, highest total for a single class.

To the "youngsters", the Class of 1951 chairmaned by Robert G. Kettells, go orchids for having produced the greatest number of contributions—37—from a single class.

Dick Kiefer's class, 1934, ran a close second with 30 donors, higher than '51 percentage-wise in considering participation as a class.

Our last bouquet is thrown to the Class of 1901, whose chairman, Col. T. K. Harrison can claim for his classmates a second to none ranking—the highest percentage class participation—63 percent; a distinction they have won two years running.

As you may note, 1887 was the oldest class participating, and there was an unbroken succession of class contributions from 1893 to 1955.

Here also are listed the men and women who acted as Class Chairmen. With the aid of class agents, they and you put us "over the top".

Presidents of Independent College Association discuss plans with Paul Smith, President Potomac Edison Company; L. to R., President Ensor, Mr. Smith, President Gibson, Washington; President Truxal, Hood; President Weigle, St. John's.

IN THE LAST few years there has been a growing interest on the part of business and industry throughout the country in giving financial support to independent liberal arts colleges. This has been stimulated by the organization of state and regional associations of colleges whose chief purpose has been to make known to industry the financial problems facing most of our colleges and to solicit their assistance. It has not been difficult to demonstrate that American industry, which thrives under a system of free enterprise, has much at stake in the maintenance and well being of our independent colleges as a part of our American program of higher education.

In line with this growing movement, the Association of Independent Colleges in Maryland Inc., was organized in the fall of 1953 with the following member colleges: Hood, St. John's, Washington and Western Maryland. President Ensor has served as president since its organization until his replacement by President Gibson of Washington College at the annual meeting in June. Most of the solicitation has been done by the Presidents of the four member colleges, who usually work in pairs, calling on the chief executives of many of Maryland's

corporations, and the local branch managers of national corporations.

This article with the accompanying list is printed in this issue of the Alumni Bulletin as a means of expressing Western Maryland's appreciation to these corporations who through contributions to the Association of Independent Colleges have given tangible support to Western Maryland. We also believe our alumni and friends will be interested in knowing what companies are among those who have demonstrated their confidence in Maryland's colleges.

Some companies are making contributions on the basis of matching gifts to college alumni funds of alumni whom they employ. They are: General Electric who pioneered this type of giving, Portland Cement and the Scott Paper Company. As a result General Electric this year has matched donations of two of our alumni who contributed to the Living Endowment Fund.

In addition to those listed below who have contributed to the Association, the following corporations have made contributions directly to W.M.C. during the current fiscal year: Koontz Creamery, U. S. Steel Foundation and Alwine Brick Company.

## THE COVER

Ward Arch is probably one of the most photographed spots on campus.

Whether all of the 4992 students who have graduated from the College have walked beneath its broad limestone facade would be hard to determine, yet one would chance a guess that all, graduate and non-graduate have admired it.

As the seasons change, Ward Arch takes on a variety of moods; which the lovelier, is a matter of personal choice.

In choosing to show the Arch once again on the bulletin cover, it seemed that picturing it in a snow scene was most appropriate for the Christmas season.

From the College we send greetings and thoughts of good cheer for the new year.

## CAMPUS DEVELOPMENTS

### BUILDINGS

FOLLOWING THE CHRISTMAS vacation about 130 men students will be moving into the new dormitory, Daniel MacLea Hall now being readied for occupancy.

Unable to complete all sections of the new dorm for the opening of College in September, it was decided to house the men in Old Ward (1895) and McKinstry (1907) Halls until MacLea Hall was completed.

When *Moving Day* comes, the doors of the old dorms will be closed permanently, for all resident men will be housed on the East side of campus in the new quadrangle formed by MacLea and Albert Norman Ward Halls and the Gill Gymnasium.

Although architecturally similar to ANW, several differences will be noticed when you visit the new dorm. For instance, the interior is more attractively decorated. Inside walls are of cinder block or brick with the exception of a centrally located reception room which is paneled in mahogany, a gift of the MacLea family.

Corridors in the central sections are two-tone, willow and gulf green; in the other sections, cocoa brown and cream. Floors throughout the building are of asphalt tile.

Rooms facing the northeast side (towards Albert Norman Ward Hall) are painted a pale green. On the opposite side of the building, ivory.

All residence rooms are equipped with built-in wardrobes with sliding doors. Most of the rooms are planned for two-man occupancy with the exception of the fourth floor where larger dormer-windowed rooms will accommodate three. Bathrooms are tiled in green.

In the basement are some additional dormitory rooms and two fraternity clubrooms. The southeast elevation is above ground level. Gamma Beta Chi fraternity will move into the clubroom on the east end of the Hall where the floor has already been laid in red and blue tile, the fraternity colors. A special feature of this room is an inlaid shuffle board tile.

On the opposite end of the lower floor, the *Preachers* will have their clubroom. Heating plant and utility rooms complete the picture on this floor.

Parking space has been provided on the southeast side of Gill Gym where excavation dirt was moved and graded.

As President Ensor's November letter to Alumni indicated, the Baker Memorial Chapel, planned to seat over

900, will be built on top of the Hill, a portion of which is now occupied by the Military Building (Old Yingling Gymnasium).

During the Christmas vacation, the Military Department will be moving into new quarters in the central sections of the basement of Albert Norman Ward Hall. Before the Chapel can be started, the old gym will have to come down.

### WINDFALL

A surprise gift of \$181,900, was announced in a telegram to Dr. Ensor early in December.

The money was part of \$500,000,000 to be distributed by the Ford Foundation all over the country in the largest series of grants by a private foundation in history.

The announcement said that the colleges' grants are to be in the form of ten-year endowments. During the next ten years, the income from the grants is to be used exclusively for teachers' salaries. After ten years, the colleges may use the money as they see fit.

Western Maryland was one of fifty-six institutions in Maryland to receive this unexpected grant from the Ford Foundation.

## CHOIR WITH SYMPHONY

For the second year, the College Choir, directed by Alfred deLong will appear with the Baltimore Symphony Orchestra under the baton of Massimo Freccia in a concert version of Franz Lehar's *Merry Widow*.

Last year, the Choir did the chorus work with them in a Rogers and Hammerstein program and later repeated with the National Symphony Orchestra in Constitution Hall to a capacity crowd.

The first performance of the *Merry Widow* is slated for Alumni Hall on Friday, January 6, at 8:15 p.m. The following evening, the Choir moves into the Lyric in Baltimore for an 8:30 p.m. performance.

Soloists are Helen George and Mary Jane Kemp, sopranos and tenors Andrew McKinley and Joseph Laderout of Baltimore and New York. Singing several minor roles are two college students Harry Loats and Hugh Howell.

Knowing that this concert was in the picture as early as last summer, director deLong brought his choir back to campus before college actually opened in September. Ever since then they have been hard at work preparing for the January dates.

Early in December, Maestro Freccia (who incidentally likes to work with young voices) travelled to the Hill to listen to the choir and

work out score variations with Mr. deLong. The night before the first performance, Freccia will be back on the Hill to run through the entire score with the choir in a piano rehearsal. The Alumni Hall performance will be the first with full orchestra.

Behind the scenes, as with any polished performance, there has been much preparation. Especially this is so when an amateur and professional group must blend abilities in perfect coordination. For instance, Mr. deLong must spend much time training his choir to sing the various tempi the orchestra director may choose. Further, he must prepare them psychologically before turning them over to the orchestra conductor. He must feel certain that in the performance they will be able to step out of amateur status into that of the professional. He must inspire them with self-confidence to make this adjustment.

From the moment the curtain opens and the conductor lifts his baton, orchestra, choir and soloists must become a unit if the concert is to be a success. Unlike the coach of an athletic team who can make substitutions for off-beat performers, once his choir is on the stage, the director must sit on the sidelines hopeful that he has prepared them to meet every situation with assurance. The fruits of his labor will be judged by audience reception.

Judging from last year's performance, Director deLong will have his choir in top condition when he turns them over to Maestro Freccia again this year.

Director deLong and Maestro Freccia

## NEW FACULTY

Professor Gerald E. Cole, Chairman of the Department of Music, succeeded Miss Gesner this year. Mr. Cole is a native of Topeka, Kan., and is a candidate for the Ph.D. degree at the Eastman School of Music.

He received his Bachelor of Music degree at the University of Kansas and his Master's from Oberlin. Coming to the Western Mary-

land faculty from the University of Western Ontario where he was professor of music, Mr. Cole is teaching Harmony and Organ. In London, Ont., he was formerly organist and choir-master of St. Paul's Cathedral (Anglican). Before going to Ontario, Professor Cole had been Head of the Department of Music at Tarkio College in Missouri and of the Organ and Theory Departments, Phillips University, Enid, Oklahoma.

Miss Nancy E. Lindborg another new member of the Music department received her

Master of Arts degree in Music from the Eastman School of Music, Rochester, N. Y. She is a native of Omaha and did her undergraduate work there at the U. of Omaha. She succeeded Evelyn Smith Hering, is directing the Girls' Glee Club in addition to teaching music history, theory and special studies.

Dr. Karl L. Lockwood is the new assistant professor of Chemistry. He followed Dr.

Edward Arnett who left the College last year to continue chemical research at Harvard. Dr. Lockwood came to us from Cornell University where he received his doctorate and was a graduate assistant. He is a graduate of Muhlenberg College.

Dr. Richard B. Hovey, assistant professor of English, filled the position left vacant by the resignation of Dr.

Thomas F. Marshall, now Head of the English department at Kent U. Dr. Hovey received his doctorate at Harvard where he was also holder of a Ford Fellowship in 1955-52. He is a native of Cincinnati and did his undergraduate work at the University there. Dr. and Mrs. Hovey are living in Westminster on Ridge Road. Mrs. Hovey, born in Warren, Pa., graduated from Allegheny College and has an M.A. in English from the University of Pennsylvania where her husband was teaching before coming to Western Maryland.

Mr. Eugene M. Nuss joined the Education department this year when Mr. DeCourcy left the Hill to pursue his

doctorate at N.Y.U. Mr. Nuss was the former Principal of the Rising Sun School. His earlier experience in public school work includes a Principalship in the Chesapeake City Schools and as teacher at the North East Jr.-Sr. High School. Mr. Nuss is a graduate of Bloomsburg State Teachers College and received his M.A. from Temple. He and his wife and three children live in Westminster.

Miss Frances M. Russell joined the Economics department following the unexpected

death of Capt. Thomas A. Thornton, USN, Ret. Her native state is Maine where she is a graduate of the State University and from which she will soon receive her M.A. in Economics. Prior to coming to Western Maryland, Miss Russell taught in Winchester, Va., and Towson.

Mr. Richard W. Kiefer, '34, Baltimore Attorney at Law, comes back to the Hill regularly once a week as a special instructor in Economics this year, teaching Business Law.

# Students And Visitors From Foreign Lands On Campus

## FOREIGN STUDENTS

Almost every year the College has one or more students from foreign countries. This year there are five men—three Koreans, an Arabian and a Filipino, and a young woman from Tel-Aviv, Israel.

Ki Jun Ohm wanted to study Political Science at a small college in America; one of his teachers in the Seoul H.S. recommended Western Maryland. He is twenty-two, attended the Chosen-Christian University for two years before coming here. His father runs a hotel in Seoul where the war left his family and home intact.

It was through contacts with Ohm's family that Kenneth Chang became interested in Western Maryland. His father is the Deputy Assistant to the Ministry of National Defense for the Republic of Korea government. Kenneth (whose Korean name is Kong Sub) was born in Seoul where he went to school as a youngster before the War forced his parents to flee southward as refugees. Later in Pusan, he graduated from high school.

For Wesley Pang, coming to Western Maryland was a unique coincidence. His older brother, who lives in Baltimore, had applied for the entrance of a younger brother who was in Korea. Following his acceptance, the younger Pang found it impossible to come to America; however, Wesley, who had been in California for two years was accepted in his place. Pang's father, a Methodist minister had been captured by the Communists and even now Wesley is not certain that he is living.

L. to R.—Futaih, Pang, Chang, Ohm, Ramirez, Seated: Miss Faigenberg.

Our Arabian student, Abdul Futaih, is in the United States with two other countrymen (not at WMC) on scholarship from the Yemen government. Although Abdul had been away from his native land since he was fourteen, having spent some time in Egypt before coming here, he plans to return after his college work is completed. He is doing pre-engineering work here and will eventually return to Arabia with an engineering degree in geology. His plans are to help develop some of his country's natural resources. A transfer student from R.P.I., Abdul felt he might better his chances of learning English on a small college campus at the same time continuing his studies.

From the Philippines, Ernesto Ramirez came to Western Maryland; is now in his third year of pre-med work. Seventh in a class of 375 at Cagayan high school (Tuguefarao) he is living up to his unusually fine record having maintained a "B" average here. Ernesto sings in the College Choir and is a member of the Gamma Beta Chi fraternity.

Johanna Faigenberg, resident of Tel-Aviv, Israel, came to the Hill through a friendship between her father, an attorney and Gen. "Bob" Gill. Johanna was born in Poland

where her parents were confined in one of the many concentration camps. At age six, they were free to go to Tel-Aviv. She seems to be enjoying her new experience on a small American college campus.

## EXPERIMENT IN INTERNATIONAL LIVING

More than twenty years ago, Donald B. Watt of Putney, Vermont, had come to the conclusion that *people learn to live together by living together* and the best place to practice *living together* is in a family—the heart of a nation.

In the summer of 1931, Mr. Watt was one of three Americans sent to Geneva by the Paine Fund of New York as an observer at a conference of young people from all over the world who had gathered to study problems of international government.

Even in those days, Mr. Watt was thinking on a universal scale, for he believed that the possibility of war and international suspicion could be greatly diminished if national boundaries were spanned by enough lines of personal friendship.

So, in 1932 Donald Watt founded The Experiment In International Living to build up in all countries groups of people—Experimenters—who are interested in learning to live together.

Since its beginning, The Experiment has been making it possible for young people to live abroad for about a month with selected families who have young members of comparable age and interests.

For the second year, Western Maryland participated in the Experiment by bringing to its campus this year six young British subjects who attended summer school for two weeks in August as a part of the Experiment.

Last year, a group from Sweden visited us.

During the two week Educational Project, the English visitors attended classes, lived in the dormitories, mingled with teachers and students and learned something about this phase of life among American students in the summer.

L. to R.—Wimala Abeysckera, Shirley Banes, Don Dwyer, Hilary Banes, John Harrison, Glyndwr Jenkins.

Among the group, the oldest of which was 38, the youngest 19, were 3 students, a master mechanic, an electrical engineer and a stenographer. They were all strangers when they began their trip in England.

Wimala Abeysckera, a Ceylonese and graduate of the University of Ceylon was on leave from the University of London where he is a Law student.

Two sisters were the only girls in the group. The younger, Hilary Banes had just finished a year at the Sorbonne and was planning to do more studying on her return to England. She and her sister, Shirley live with their parents in Finchley, a suburb of London.

Donald Dwyer, leader of the group, a resident of Guilford has hopes of returning to the U.S. His occupation, master mechanic, fits him well for work in this country and his Homestay family in Mid-dletown, N.Y., have offered to sponsor him should "Don" care to return for citizenship papers.

Youngest of the men was John Harrison who is studying at Oxford to be a poet.

Glyndwr Jenkins, oldest of the

group, makes his home in Tylors-town, a coal mining town in South Wales. "Glyn" is an electrical engineer, who like Mr. Dwyer, gave up his job to come to America.

It was through the effort of Dr. Joseph Bailor, Head of the Education department here that the two groups in The Experiment have come to the campus. Of course, Americans can also participate in the exchange; in fact, last year over 160 went to England, Turkey, India and other countries. It provides an inexpensive way to visit other countries, to live and learn to live with peoples of many lands.

Although nothing definite has been established to date, Western Maryland may possibly have a similar visitation again next summer.

# FALL SPORTS Soccer Team --- Mason-Dixon Champs

**W**ESTERN MARYLAND won the Mason-Dixon Soccer title this year with no league defeats and but one tie in the Mason-Dixon Soccer League which started in 1941.

Going into the final game with Johns Hopkins on November 19, at Homewood, the team needed a clean win to clinch the title; a tie would have relegated them to second place, putting Baltimore U. and Towson in a tie for first place.

Field conditions were bad for both teams. Several inches of snow blanketed the field as the game started. Snow continued to fall throughout the game. Despite the weather and the memory of similar conditions in last year's game which ended in a 2-2 overtime deadlock, the Terror pitchmen were determined to win.

And win they did—blanking Hopkins 2-0!

Scoring a goal late in the first quarter, Western Maryland's All-American center forward, Captain Dennie Harmon, got his team off to a lead which was never overcome. It

was his 17th goal of the year scored on a beautifully placed penalty kick which ripped past the shivering Jay goalie.

In storybook fashion, Bob Crush, senior goalie, staved off a possible tie game with a tremendous "save" on a penalty kick thrust at him by a Jay booter. Deftly batting the ball to the ground with his left hand, Bob pounced on the ball before a host of onrushing Hopkins hopefuls.

The climaxing offensive push came late in the third period when senior right wing Andy Tafuri slipped one past the Blue Jay net keeper for the clincher of the 2-0 rout. No one was happier than Andy on this goal, his first in three years of college soccer.

The deep defense of seniors Bill Clem and Jack Turney bolstered by the accurate kicking of junior Sam Reed, added tremendous strength to the goal line stands made by Crush. In fact every green and gold striped jersey whether on the field or on the bench was in there every second fighting for the victory. In the

accompanying picture, you will see all those who can claim an equal part in it.

For seven Western Maryland soccer players, this was their final game. Beside those mentioned above, Don Seibel, left wing; Phil Jackson, left halfback and Walt Sanders, fullback complete the list.

The wild confusion in the locker room which followed 88 minutes of grueling play was sobered by one thought only. With this first M-D Championship had come the culmination of a huge effort and great spirit of all the W.M.C. soccer teams who had strived for this day to come. It was a glorious victory.

### ALUMNI-VARSITY GAME

The Third Annual Alumni-Varsity Soccer Game was played on the morning of Homecoming, Saturday, November 5.

About fourteen alumni (not all of whom arrived in time for the picture) put up a strong stand against a heavily favored varsity but had to settle for one goal as they went down to defeat 6-1.

In an effort to save time and preserve the youth of the veteran alumni players, periods were shortened to 12 minutes. As some remarked, longer periods may have proved something; just what we are not sure. However it was great fun and we hope to continue the game in years to come.

### VARSITY FOOTBALL

Hampered by a continuous stream of injuries and some pre-season losses from academic ineligibility, the varsity football team finished the season with 2 wins in 8 starts.

For Coach Charlie Havens, in his seventeenth year as Head Coach, injuries so riddled his squad that in no two games in a row could he field the same starting line-up. At the same time, the Terrors faced some very stiff opposition from teams like undefeated Drexel who handed W.M.C. its first Homecoming defeat in history, and only once defeated Gettysburg and P.M.C. However, the crippled Green and Gold gridmen came within an ace of beating the 1955 Mason-Dixon Champs, Randolph-Macon in a tight contest here on Hoffa Field which ended 14-13 in favor of the Virginians.

With approximately 14 freshmen coming up from Vic Makovitch's Junior Varsity, Havens is looking to a more encouraging season in 1956. In addition to the above mentioned coaches, Bruce Ferguson and "Dick" Harlow completed the football coaching staff.

### UNDEFEATED JV

Things were brighter for Vic Makovitch's Junior Varsity which while posting an undefeated season in four games, had only two touchdowns scored against them.

They opened the season at home by defeating Baltimore Junior College 8-0. Traveling to Carlisle, the JV next blanked Dickinson 13-0. At home against Bainbridge Naval Prep, the Junior Terrors chopped out an impressive 32-7 victory over the sailors a week before climaxing the undefeated season at Homewood by clipping Hopkins 7-6.

The squad was loaded with potential varsity material. Barring injuries and other handicaps next year, they should provide a boost to the senior team.

## NEW YORK ALUMNI CLUB

Alumni in the New York City area turned out for an Alumni Dinner in the Social Hall of Rev. Fred Eckhardt's (WMC-'48) Church in Greenwich Village on Saturday, October 15. Twenty-four were present including Dr. "Tom" Croft, '48, who presided and Charlie Havens, '30 from the campus.

During the meeting, the subject of future meetings was introduced. One of the difficulties of the metropolitan area club is to draw more of the nearly 300 Western Maryland alumni who live in or near New York City or in nearby Jersey. It was suggested that the regular spring dinner meeting next year be held at an attractive eating place in Chinatown. This idea met with an enthusiastic response from those present. This would include not only the dinner but possibly a limited trip around Chinatown, one of the most interesting areas around the great city of New York.

No doubt many of the alumni in metropolitan New York have other ideas concerning a yearly get together. Tom Croft, President, would be interested in hearing your comments. Write him at 230 Mt. Vernon Place, Newark, N.J.

## BALTIMORE ALUMNI CHAPTER

The Friday Luncheon is now being held at the Southern Hotel Cafeteria where there are no delays and a full range of food, 12 Noon to 1 p.m. every Friday.

On February 18, the Inter-Sorority Dance will be presented by the Western Maryland Alumnae Chapters at Edmondson Village Hall, Baltimore, from 9 p.m. to 1 a.m.

Rudy Killian's Orchestra will provide the music. Admission will be a \$3.00 contribution per couple. Proceeds will go to the Western Maryland College Living Endowment Fund as usual.

Everyone is invited to attend. Come on out and make it a gala evening with your Western Maryland friends.

**Editor's note:** At the request of the Women's Army Corps and through the suggestion of our Military Department on the Hill, we are including this release from the Second Army.

The Women's Army Corps each year is offering a limited number of direct commissions to outstanding college graduates and alumnae who would be interested in following a military career. In order to uphold the highest tradition that the Women's Army Corps has had for the past 13 years, young women with foresight and vision possessing the proper qualifications may now serve in the capacity of an officer along with her fellow servicemen in the United States Army.

As the Women's Army Corps desires above all else quality rather than quantity, the following qualifications are necessary: for a commission as a 2nd Lieutenant the young woman must be between the ages of 20 and 28; possess a four year Baccalaureate Degree from an accredited college and be of physical, mental and moral fitness and aptitude. If she is between the ages of 28 and 33, she may then be commissioned as a 1st Lieutenant. After successfully completing a 20-week course at the WAC Training Center, Fort McClellan, Ala., she is given her first assignment in the field.

Further information may be obtained by writing to WAC Officer Procurement Officer, Headquarters 2021st SU, Second Army Recruiting District, Fort George G. Meade, Maryland.
