Happenings on the Hill, p.3

Published for friends of Western Maryland College, Westminster, Maryland

veryday from 8:30 to 4:30, you can find her sitting behind her desk in he psychology department. But that's probably the only time you'll see her sitting down. Sandy Waldman is always on the move

Secretary to an office of five psychology professors, she is constantly busy answering phones, scheduling appointments, typing manuscripts-the jobs most secretaries are expected to do. But what's special about Sandy Waldman is her work with Western Maryland's deaf/blind program.

'Doing" sums up Sandy's major contribution to the program. She is a natural go-getter and she likes it when things are going her way.

'I get an idea and I want it done then and there. It's hard for me to be patient. I think it's the only way things get done-by doing it, by trying it," says Sandy.

Since arriving at Western Maryland two years ago, Sandy has given much of her own free time to better understand deaf/blindness and what the college's program is trying to accomplish. Last February, she and Jan Coleman, the education department secretary, spent a weekend at the Helen Keller Center for the Deaf/Blind on Long Island to learn more about the special handicap. They were given a tour by Julia van den Bovencamp, '82, a graduate student in the deaf/blind program at Western Maryland.

It was my first time observing a group of deaf/blind students living and learning together and seeing the ways the institute helps them to adapt. It was a real eye-opener.' Sandy said.

Sandy has also taken it upon herself to learn sign language. While most secretaries use their hands to type, Sandy Waldman also talks with hers.

Tye studied sign language for five years. taking courses at Western Maryland and in the Hanover (Pa.) area. It's something I've always been interested in; it fascinates me because it's so beautiful to watch. So when I decided to return to work, I thought it would be meaningful to use my sign language at Western Maryland, and everything has fallen into place," she says

Sandy gets plenty of practice using her sign language with her work in Western Maryland's deaf/blind program. The two-year-old program is still in the toddler stage at the college, and because it is such a new program, it is still on probation. Western Maryland is the only college in the world with a master's program to teach professionals to work with the deaf/

blind population. Sandy recognizes the program's uniqueness

Western Maryland's deaf/blind program is special and I believe in it. Through my work I've met many deaf/blind people who don't let the double handicap hinder them; they have overcome their disability and go on to help others-it's very inspiring and stimulating." says Sandy.

Besides being an avid supporter of the program herself, she has directed other people and organizations to Western Maryland's deaf/blind program. She and her husband, Carl, are members of the Lioness and Lions Clubs in Hanover and have encouraged these two clubs and many others to support the program.

"Lions and Lioness Clubs have always been supportive of programs for deafness and blindness, and because of the existing tie I thought it would be great for the Hanover Lions to become involved with Western Maryland's deaf/blind program. When I took it to my club, they were most receptive, and suggested we also take it to the men's club. Since then it has snowballed; clubs throughout Maryland and Pennsylvania have joined in to help," she explains.

Lions Clubs in the area have raised over \$15,000 for Western Maryland's deaf/blind program. But Sandy doesn't take all the credit

Not myself alone—Dr. Vernon, Dr. Prickett, eryone—this hasn't been a one-person thing," she says.

Along with Dr. Hugh Prickett, director of the deaf and deaf/blind programs, and Dr. McCay Vernon, professor of psychology, Sandy has spoken about Western Maryland's deaf/blind program to Lions, Lioness, Kiwanis and Optimist Clubs throughout Maryland and Pennsylvania. Alumnus Herman "B" Beck, '43, has vorked closely with her encouraging Lions' involvement in the program.

Aside from the people directly involved in the program, Sandy gets most of her strength from the support of her family.

"I attend many evening meetings and there has never been an objection or a problem from Carl. My family encourages me to do this and sometimes that's dangerous-you give me a little and I'll take a lot," she says.

Secretary Jan Coleman has also been a great help to the program. "Jan would never hesitate to help. When something needs to be done, she often gets to it before anyone has a chance to ask. She's always there, willing to cooperate-to go above and beyond. Without Jan, the program couldn't be a success,' says Sandy.

Besides all of her other duties, Sandy is also an undergraduate student at Western Maryland College. She has earned 12 credits and hopes to major in either American studies or literature

She is now taking a liberations course with Dr. Ira Zepp, professor of religious studies. Dr. Vernon jokingly says that Sandy doesn't need the course-she's liberated already.

But Sandy doesn't mind the joking that goes on between her and the psychology professors because she knows she has found her place at Western Maryland College, and she is happy. "I have an ideal work situation, I think very

few people find that and I am very grateful. she says. "Everything has fallen into place-my sign language, my Lioness affiliation, working here in the psychology department with the deaf/blind program, as though it were predestined. Dr. Vernon laughs at me when I say that, but it really is true.

How does Sandy Waldman find the time and energy to handle five demanding roles-fulltime secretary, mother, wife, volunteer for the deaf/blind program and student?

"I don't know and I really haven't thought about it," says Sandy. "It just all fits together. I think it is because of the support and the encouragement I get. If you really want to do something and you have people supporting you, you can do it."

Laura Cole is a junior communications major. She has been working in the office of public information and writing for The Hill since freshman year.

William McCormick, Jr. 1935-1983

During his ten years as the college's vice president and dean of academic affairs, Bill McCormick consistently affairs, Bill McCornick consistently invoked leadership for the liberal aris noncept of learning held by Western Maryland College. He can be cited for developing the January Term and ex-gram.both of which encourage students to broaden their areas of interest and to develop their capacity for independent study. Also within those ten years basic liberal arts requirements were ex-panded, and new major programs In-cluding business administration, social work and studies in communications work and studies in communications added

On May 20, Bill died after a brief bout with cancer. He is remembered by col-leagues and former students as one of the college's finest educators, one who has left his mark on the Hill. He was also a humane individual who cared

about his family, his church and his fellow man, and his humaneness was

reflected in his daily work. He was a graduate of Indiana and Case Western Reserve Universities. Prior to coming to Western Maryland College, he was the assistant professor of economics and business administration at Baldwin-Wallace College in Berea, Ohio, and associate professor of business administration at William and Mary College

Dr. John to Retire

Dr. Ralph Candler John, the sixth president in the 117-year history of Western Maryland College, announced on April 27 his decision to retire at the end of the 1983-84 academic year.

In a letter to Board of Trustees Chair man Robert E. Bricker, Dr. John stated that he will have completed 12 years as president of the college and will have reached the normal retirement age of 65, adding that his decision will give the Board ample time to seek hiss is successor. Dr. John became president of Western

Maryland College in 1972. During his term of office two new facilities were constructed including the Avenue Apartments and the Decker College Center. This spring another facility was added to this list when the \$6 million capital campaign was launched to finance the construction of the Physical Education Learning Center slated for completion in spring 1984. Several facilities were also renovated

for other uses. These include Alumni Hall, the Winslow Center, the Scott S. Bair Stadium and a new athletic track.

Bair Stadium and a new athietic track. At a time when colleges and uni-versities nationwide are redefining curricula to meet vocational career objectives, Western Maryland College has maintained its core program of liberal arts. A crowning achievement of Dr. John's presidency came in 1980 when the college received its charter from Phi Beta Kappa to establish a local chapter. The stature of Phi Beta Kappa, the most prestigious honor society in the U.S., is in itself an indication of the high standard in liberal arts set and achieved by Western Maryland College. Dr. John was born in Prince Fred-

erick, Maryland, and is the son of the Rev. and Mrs. Bryon W. John of Roanoke, Virginia. He grew up in Maryland and Virginia and attended Randolph-Macon Academy in Virginia. He came to the Hill from the presi-

dency of Simpson College in Indianola, Iowa. Prior to that he was dean of the College of Arts and Sciences of Ameri-

WMC Breaks Tradition

The Saturday morning class was not a typical one for religion professor Ira Zepp. He was teaching a course on issues in Christian education, but the students in the classroom were ministers and church school teachers, members of the local community taking advantage of courses offered by the college on the Hill.

Western Maryland College is seeking nontraditional students.

To some the idea of being classified as "nontraditional" may be unsettling; to others it is probably rather appealing.

In higher education, a "traditional" student is 18 to 22 years old, and goes straight from high school to four years of college. Most WMC students are "traditional." But recently the college has increased its commitment to providing services and programs for the continuing education of the nontraditional student.

Last year, following a recommendation from the college's long range plan, Dr. Joan Coley, professor of education, was named director of the office of continuing education. The plan called for a "program in continuing education in keeping with the college's overall philosophy and facilities."

Emphasis was focused on recruiting new nontraditional students for regular campus programs and better meeting the needs of nontraditional students already enrolled in the college: providing information and education services to area business and industry; and helping to fulfill the educational needs of the community.

The fledgling program has had three main concentrations in its first year of development: a second bachelor's degree program; non-credit mini-courses; and courses and workshops provided for area business and industry.

Nan Nelson is the kind of nontraditional student for whom a second bachelor's degree is the perfect option. Originally educated to be an art teacher, the mother of two is now interested in pursuing a career in public relations or personnel. "Using the credits that I earned for my first degree to fulfill the general requirements," Nan explains, "instead of the usual 120 credits I only need to take 30 credits to get my second degree." Nan hopes to complete her B.A. in communications by the end of next summer, the full course will take her one year, working both summers.

The program is designed to give students added breadth in their education by offering studies in a new field. In today's dynamic society, where most people can expect to change jobs four or five times during their working career, the program offers the chance to more easily expand career interests, or prepare the unsatisfied worker for a new job opportunity.

The continuing education program's second focus, non-credit mini-courses, grew from the college's desire to provide educational services to the community. As a quality institution of higher learning in Carroll County, WMC is eager to help fulfill the educational needs of the community. "In addition to asking the facuity what courses they'd like to teach in the program, we went straight to the community." Coley notes. "We went to community groups and asked them what types of courses they'd like to see offered to them through the college."

Some of the results have been a week-long piano workshop for piano teachers; Dr. Zepp's workshop in Christian education; and a seminar on brain and language relationships designed for specialists in the field of communication disorders.

"What we are trying to do is target our audience and have courses for specific groups rather than smorgasbort types of things." explains Coley, who as director was recently named associate dean of academic affairs. Some of the mini-courses have not attracted enough participants to be carried out. "but interest is growing, and the more the community learns about what is available, the more these courses will be filling up." The final dimension of the continuing education program is courses and workshops offered to employees in local business and industry. The attempt is to bring expertise from the college and share it within the community. The college is not only providing for the education of local citizens, but it also identifies itself and its faculty as sources of information available to the community.

Several such courses have been offered in the community in the past year. Associate professor of economics and business administration, Dr. Ethan Seidel, instructed ten employees of Carroll County Bank In a noncredit summer course tailored to bank employees. Plans are underway for a communications workshop for local Random House employees and a session on physical fitness for executives at Black and Decker.

This program provides a service to the community—often to business and industry that in their way broadly support the work of the college—while acquainting area employees with the programs and courses available at the college. Once familiar with WMC's curriculum, they may be interested in enrolling in credit earning courses.

After a year of hard work, these new programs are well under way. Success can be measured in Western Maryland's effort to support the nontraditional students, and Coley is continuing to encourage them to "treat yourself" to the variety of programs and opportunities available on the Hill.

News From The Hill

can University, where he had been a member of the faculty and dean of students.

of students. Dr. John is a graduate of Berea College, Kentucky, received the S.T.B. and S.T.M. degrees In 1944 and 1945 from Boston University, and was awarded the Ph.D. in public administration at American University in 1950. He received the honorary doctor of humane letters from Iowa Wesleyan College in 1969 and honorary doctor of letters from Simpson College in 1972.

Seventh President Sought

Following Dr. John's retirement announcement. Chairman of the Board of Trustees Robert E. Bricker, '42, formed a Presidential Search Committee. The committee will work together to represent all of the college's constituencies in selecting a candidate to serve as the college's seventh president. "We are looking for an individual to continue the effective leadership role that Dr. John has provided the college for the last 12 years."

Mr. Bricker named Wilbur D. "Woody" Preston, Jr., '44, as chairman of the search committee. Other members include: Mary B. Bryson, '35, trustee: William B. Dulany, '50, trustee: Mary Ellen Elwell, faculty, Eloise C. "Chip" Payne, '38, alumni; Robert W. Schaefer, trustee: Ethan Seidel, faculty, Eloisabet Siegenthaler, student: and Dolores J. Snyder, '63, trustee.

Preston emphasizes, "We will be looking for input from everyone interested in the future of Western Maryland College." Suggestions and nominations are welcomed and should be directed to

Gagnon Named Dean of Admissions

Martha E. Gagnon has been appointed dean of admissions and financial aid, taking responsibility for managing and coordinating all areas of student re-cruitment for Western Maryland.

Gagnon is the former director of admissions at Loyola College in Baltimore, a position she held for eight years. Prior to that she held the position of prior to that she need the position of assistant director for two years. Her priority in this new position is to focus on undergraduate enrollment trends and plan recruitment activities.

A decline in the number of high school graduates and the rising cost school graduates and the rising cost of college tuition have created an aca-demic buyer's market. "Today, college admissions offices rely on marketing techniques for a competitive edge. This market-oriented approach has been successful in increasing student appli-cations without sacrificing academic integrity," says Gagnon. "Admissions

is the door to excellence at Western Maryland College." Prior to her career in college admis-sions, Gagnon taught in the Baltimore City public school system. She holds a B.S. degree from Towson State College and M.Ed. from Loyola College. She is a resident of Ellicott City, Md., and married to Robert M. Gagnon, a 1971 graduate of Western Maryland.

Our Gospel in Intercollegiate Athletics By Ralph C. John

A fresh statement of philosophy and goals is always helpful. The National Collegiate Athletic Association (NCAA) has performed this service for its Divi-sion III institutions, which include Western Maryland College. There is a clear understanding on the Hill about what we aspire to achieve through intercollegiate athletics for men and women. This is not so evident, however. off-campus among some of

men and women. This is not so evident, however, off-campus among some of our friends. This being the case, it seems appropriate to publish the NCAA manifesto in this issue of *The Hill*. It is as follows: Colleges and universities in Divi-

sion III place highest priority on the overall quality of the educational experience. In so doing, they seek to strengthen the integration of objectives and programs in athletics with academic and developmental objec-tives, and to assure the integration of athletes with other students.

athletes with other students. To that end, the college places spe-clal importance on the impact of ath-lettcs on the participants rather than on spectators, and greater emphasis on the internal constituency (stu-dents, alumni and special friends) than on the general public and its emterialment needs.

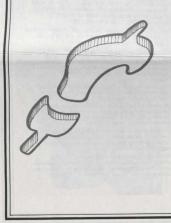

The athletics program is charac-terized by the following: 1. Participation is encouraged by maximizing the number and vari-

ety of athletic opportunities in var-sity, club and intramural sports.

 Participants receive the same treatment as other students. They have no unique privileges in ad-mission, academic advising, course selection, grading, living accommo-dations or financial aid. Similarly, athletes are not denied rights and opportunities that would be avail-able to them as non-athletes.

Www restern Maryland's business major is coming into its own. The college has developed a program that reflects its liberal arts philosophy, avoiding the over-specialization that characterizes many college business programs. During a period of rapid change in the business and economic community, it is imperative that programs such as the one offered at WMC keep pace with the changing needs of students who will be entering that business world.

Following are comments from faculty, staff, graduates and students; they feel that WMC is taking a path that will serve its students to the fullest, and prepare them for the challenge that today's world presents.

Dr. Alton D. Law, professor, economics and business administration.

Keeping Step

Dr. Law came to Western Maryland in 1966 and is now head of the department of economics and business administration. He has seen the evolution of the program from a few business courses offered by the economics department to a distinct, well developed business major.

"We will maintain our business major with a good liberal arts flavor," Law explains. "We re not trying to duplicate what you can find in a business school ... we have neither the resources nor the desire to offer such a curriculum." Instead, Law says, they will maintain a rigorous program that includes some business specialization. "but students will also be required to complete courses outside the business and conomics department, courses that will be extremely useful to them in the business world." He believes that the college is offering a "quality program that will effectively prepare students for careers or graduate school in business."

Dr. Law also emphasizes the importance of the newly established business minor, which gives students in other disciplines the chance to pursue a structured business curriculum as a minor field of study. Th telps pre pare them for the business world which they will become a part of, directly or indirectly."

Dr. Ethan Seidel, professor, economics and business administration. Ethan Seidel has been instrumental in

Ethan Seidel nas been instrumental in guiding the department along its new course. "Back in the '70s we didn't have the resources for a stand-alone business major, so we offered economics with some business preparation included."

But the demand for a structured business program grew, and the college has worked to meet that demand. In 1971 there were 48 economics majors at Western Maryland; in fall 1982, 334 students were pursuing majors in economics, business, or both.

Seidel highlights the flexible nature of the new business major, "our flexibility sets our program apart from the rest." He believes that by maintaining a liberal business curriculum—with business and non-business courses, internship opportunities, independent studies—the college is producing students who can be flexible in the marketplace.

Seidel was recently granted a Leavey Foundation Award for Excellence in Private Enterprise Education. The award was given for a course he developed that provides business students with the opportunity to learn firsthand how our economic system works by working side by side with volunteers from the business community as advisors to Junior Achievement companies. It is the first course of its kind in the country.

"Teaching the private enterprise system to a group of high school students has proven to be an excellent learning experience for these college students turned teachers," Seidel notes, "and the old adage that the best way to learn is to teach has been reconfirmed."

Barbara Llewelyn, '80, supervisor of a data processing group, USF&G.

A 1980 graduate, Barbara was active in Dr. Seidel's JA program. "It was that practical experience and the exposure I gained through special studies projects that have helped me most."

Barb joined USF&G immediately after graduation from WMC and has been there for three years. Beginning with the three-month training session it has been a challenge, "though the experience with computers that I'd had at Western Maryland helped." Barb completed a special study in computer applications in business.

"I came into the program with some people who had much more computer and data processing experience than I had, but I was able to hold my own and learn quickly."

News From The Hill

3. The athletic program is controlled, financed and staffed through the same general procedures as other departments of the college.

4. Sports for men and women are given equal emphasis and the desired quality of competition is similar in all sports. Participant interest will be one factor considered in the determination of the level of support provided by the college to each sport.
5. Students are supported in their

 Students are supported in their efforts to reach high levels of performance by providing them with adequate facilities, competent coaching and appropriate competitive opportunities with students from similar institutions.

6. Primary emphasis is given to in-season competition, but exceptional teams and individuals may be encouraged through post-season championships.

be encouraged through post-season championships. The purpose of the NCAA is to assist its members in developing this approach as the basis for consistent, equitable competition and to do so in ways that minimize infringement on the freedom of individual institutions to determine their own special objectives and programs.

This is our gospel in intercollegiate athletics. It both complements and is a part of our educational philosophy.

'83 Grads March On

The rain didn't dampen the spirits of Western Maryland's 1983 graduates as they happily walked across the stage to receive their degrees at WMC's 113th Annual Commencement, held on Saturday, May 2. As one parent noted. "The rain only made us feel closer as families to our graduating children."

to our graduating children." This year's graduation, held under the tent in the campus quadrangle, marked the last time that weather will be a threat during the ceremony. Next year's graduating seniors will be the first class to receive their diplomas in the new physical education complex, which will seat 3,000 people.

Which will act available C. John presented diplomas to the recipients of 268 bachleor of arts. 55 master of education, 11 master of liberal arts and 3 master of science degrees. He also presented four honorary degrees at the ceremony: the doctor of laws to Robert Young Dubel, 48; the doctor of humane letters to Science degree. Friedberg; the doctor of science to Millard Lee Rice. 48; and the doctor of letters to commencement speaker Ernest Thompson.

An oscar-winning playwright and author of On Golden Pond, Thompson addressed the graduates and their families with a speech entitled, "The Small Universe." Thompson grew up in Westminster where his father, the late Dr. Theron Thompson, was a faculty member of WMC. He wished the graduates good luck and offered them some candid views of today's world. He ended his words saving:

his words saying: "I hope you all win Oscars, and have comets named after you. I hope you streak across the sky and brighten the world. I hope you conquer the huge universe. But most of all, I hope you figure out the small one. I hope you learn to see what's around you, and to feel it, and to move yourself forward an inch at a time."

Business Student Learns By Doing

Excerpted from an article by Tom Zarfos for the Carroll County Edition of the Evening Sun.

Theresa Denion, '83, learned about business from behind the scenes.

business from behind the scenes. As part of a new intern program at WMC, she worked at several businesses in Westminster.

She was working at the Green Gator in Locust Mall, Bobby's Hobby Lobby and the J.C. Penney Co. She worked about 12 hours per week, and earned three credits.

Audrey Langrall (WMC, '53), revitalization coordinator in Westminster,

Barb feels that the diversity of her program at WMC has helped her progres through the ranks of USF&G. She is now in a management position supervising computer programmers and analysts. "I'm sure that my knowledge of the fundamentals combined with my ability to think on my feet made me a good candidate for a management position. My work at Western Maryland prepared me for both those aspects of business.

With Cha

Dr. Daniel K. Rees, associate professor, sociology and social work.

Another feature of WMC's business major is its interdisciplinary nature. Along with business courses, students are offered business-related classwork in other departments.

Professor Dan Rees teaches sociology. But "a lot of what I teach applies directly to those working in business." Dan teaches a course called Human Relations in Supervision and Management; it is a sociology course for business majors.

We study relationships between workers and supervisors, among middle managers ... at all levels. We consider the dynamics of these relationships, at an individual level and in the team or group model." Along with a study of the organizational aspects of supervision and management, Dan Rees' class learns the interpersonal skills involved in this complex subject. "We learn it and we do it," says Rees. "We do case studies and role playing. We learn how to deal with such human relations concerns as alcoholism, sexual harassment, stress and discrimination. These are problems that managers will meet, face to face, in the business world."

In addition to Rees' class, a number of other courses are cross-listed with other departments as part of the business curriculum. Dr. Herb Smith teaches courses in organizational behavior and public administration in the political science department; sociology professor Glen Ashburn teaches complex

organizations; Dr. Hartman in philosophy and religious studies presents a view of busines ethics; and Rick Dillman has developed an information systems program within the mathematics, computer science and communications department, Business majors are encouraged to take these courses as part of their business curriculum.

Kelly McDonough, '84, economics and business administration major.

A senior business major, Kelly is part of an increasing pool of women business students. Consistent with the nationwide trend. the numbers and percentage of women studying economics and business at Western Maryland is on the rise. Today an estimated 40 percent of the students enrolled in the department are women

Tm encouraged that they've hired two women to teach accounting and finance courses next year," says Kelly. "I think it's important that women be well represented in the faculty as well as the student body." "The program is a good one for me, it gives

ne a chance to take the business courses I need and still have time for other classes that interest me." Kelly has almost enough credits to declare Spanish as a minor. "To me the greatest aspect of WMC's business studies is the balance-I think it combines a blend of technical training and practical experience, and there's still time for interesting electives."

Joe Carter, '73, branch manager, American Bell.

Joe Carter completed his studies at WMC with a degree in history and political science. He worked for AT&T after graduation and is now employed by American Bell as branch manager for the state of Maryland. Joe, with Bob Jacobs, '73, teaches a marketing cours at the college.

"Ethan (Seidel) approached us with the idea of teaching the course. It gives students a broad exposure to marketing from a large corporation's standpoint and from a small business point of view.

Carter, who admits he chose his major by default-"it allowed me to take courses in almost every discipline offered!"-sees the benefit of a program like Western Maryland's.

To begin with, students often aren't sure which direction they want to pursue when they're 18 years old." A multi-disciplined approach, he feels, give them exposure to a range of areas. "And the students come out with other skills-reading, writing, communications-that are valuable to an employer."

As an employer, Joe looks for prospective employees with a broad foundation. "Sure I need someone who has the technical skills but I also need someone who has strong interpersonal skills, someone who can talk to our customers." He's convinced that the broadbased kind of education a WMC student receives is ideal for breaking into the work force, especially in "people-intensive" fields.

Dr. Georgia Royalty, director of counseting and career services (WMC). Everyday Dr. Royalty sees students who are planning their education and careers. She feels that the college's business administration program prepares students well for either path-graduate school or employment.

"The program has been changing to meet students' needs-society's needs," she notes. "Our program still offers the traditional background and theory that a sound business education requires. But it's important to remember that students also need solid grounding and practical business experience. Western Maryland's program has been changing to meet that need."

came up with the idea. "The opportunity for hands-on ex-perience is important," Langrall says. You can sit in the classroom and learn the theory, but until you put it in prac-tice: the full impact doesn't hit you." So Langrab began talking with mer-chants and found they were interested in having interns. One point to the willingness, she said, is the good repu-tation WMC has, another is that the merchants are interested in what goes on at the college. Denion is exposed to every aspect of

Denion is exposed to every aspect of benion is exposed to every aspect of business: advertising, marketing, mer-chandising, display, sales, exploring new ideas and buying inventory. "The experience broadens," Langrall says, as Theresa moves to the bigger stores. Denion says she felt fortunate to get

into the internship. She appreciates the experience especially because it will directly apply to her future work.

After graduation, she plans to get some on-the-job training, then get her master's degree before looking for a man-agement position with a corporation. She also says she enjoys Westminster because of its friendly and relaxed atmosphere. She has gone to meetings and met many of the merchants. She says they are close-knit and have their

says they are close-knit and have their own solidarity. Audrey Langrall says the program will be evaluated at the semester's end to determine if it will continue next year.

If Theresa Denion's opinion counts, the program is sure to continue. "I think the internship program is a good idea, and hope they continue it for the benefit of others," she says.

Changes on The Hill

College President Ralph John an-nounced the appointment of Dr. Melvin D. "Del" Palmer as vice president and dean of academic affairs for the college, effective July 1. Dean Palmer will serve as the second ranking officer of the college and the chief academic officer supervising the college's educational program. Specifically he works with the

faculty for the development of educa

tional policies and program and the administration of academic affairs. Dr. Palmer joined the faculty of Wes-tern Maryland College in 1965 as an assistant professor of English. He holds assistant professor of English. He holds a bachelor's, master's and Ph.D. from the University of Maryland. Prior to joining the WMC faculty, he taught at Harford Junior College, Eastern Ken-tucky State College and the University of Maryland. At Western Maryland he has served as chairman of the compar-tive literature department and more recently as chairman of the dramatic art department and coordinator of the master of liberal arts program and master of liberal arts program and studies in communications undergraduate major. As a professor of English Dr. Palmer's

interest is in European literature and creative writing and he has published creative writing and he has puolished numerous articles on comparative poetry and sports in literature. In 1970 and 1979 he was the recipient of the Distinguished Teaching Award, presented annually by the Sigma Sigma

Tau alumnae chapter.

Dean Palmer succeeds Dr. William McCormick Jr. who served as vice president and dean of academic affairs from 1973 until his death this past spring. (See *McCormick*, page 1.)

Also announced were the appoint-ments of Dr. Joan D. Coley and Dr. Esther M. Iglich as associate deans. Dr. Coley will provide leadership in continuing education and other special programs while teaching part-time in the education department. Dr. Coley holds her Ph.D. and M.Ed. from the A SALUTE TO MR. WMC

ho else would list WMC among his hobbies in his resume? Who else could be cited by the college president as the "most askedabout person in the college community"? Who else would think that getting the game ball from the 1977 Green Terror football victory over Johns Hopkins was "one of the nicest things that ever happened to me""

Robert Joshua Gill loved Western Maryland College as perhaps no one else ever has. It was in his family: it was in his blood. His enthusiastic support for his alma mater continued until his death on June 22, 1983-his 94th birthday.

Robert Gill's parents, the Reverend John M. Gill and Emma Yingling Gill, both attended WMC, and his aunt, Anna Yingling, was a member of the college's first graduating class. His grandfather, Joshua W. Yingling, was a charter trustee of the college.

Graduating summa cum laude as the Class of 1910 valedictorian, Bob Gill left his mark on WMC. He had served the college well as literary editor of WMC Monthly, and as captain of the football squad and the basketball team.

Following graduation from WMC, Gill went on to receive his law degree from the University of Virginia, where he was elected to Phi Beta Kappa. He returned to Baltimore as an attorney, specializing in corporate law.

He enlisted in the Maryland National Guard as a private, but when the U.S. entered World War I he went overseas as a captain.

During the course of the war. Gill attracted the attention of division commander Douglas MacArthur, and was appointed to the general's staff. Many years later Gill noted with a smile, "I've been accused of being General MacArthur's pet, and I confess it was true. He gave me every promotion it was legal to give." He left the service at the end of the war as a lieutenant colonel, having been awarded a Croix de Guerre with palms from the French government.

In 1942 he returned to active duty, and was made chief of the prisoner of war division in the European theatre. He was later tapped to become executive officer to Supreme Court Justice Robert H. Jackson, the chief prosecu-tor at the Nuremberg war trials. Gill was made a brigadier general with the appointment.

After the war Gill again returned to Baltimore. He resumed his law practice and his

loyal and constant support and encouragement of his alma mater.

In 1925 he had become a member to the WMC board of trustees, a position he would hold for 43 years. He was chairman of the board from 1963 to 1978.

In the '30s, Gill was instrumental in bringing Richard Harlow from Colgate to coach the Green Terror football team. Harlow coached the 1934 squad to an undefeated season; the team was ranked in the top ten in the country. Through Bob Gill's support and determination, Dick Harlow had come to Westminster and put Western Maryland College and the Green Terrors on the map.

In 1939, the cornerstone for the new gymnasium-the Robert J. Gill Gymnasium was laid.

Although WMC remained General Gill's greatest interest, he was also involved in the development and life of Baltimore. He was a real estate developer, recognized for his contribution to planning and establishing the lovely Baltimore community of Stoneleigh, and he served as a member of the board of directors for the Baltimore Orioles organiza tion. General Gill was renowned for his expertise in contract bridge-he served as president and chairman of the board of the American Contract Bridge League-and he was known internationally as a collector of fine stamps, serving as vice chairman of the board of trustees of Philatelic Foundation.

But for the tall stately gentleman with a quick wit and warm smile, Western Maryland College was his first love. In 1947 the college presented General Gill with the honorary doctor of laws degree, and in 1968 he was named WMC Alumnus of the Year. To many, he was Mr. Western Maryland College. He had a tremendous influence on Western Maryland through his vision, his leadership and his caring.

General Gill, with all his successes and accomplishments, once pointed out that he'd never had the courage to marry." But he was, indeed, a very important part of the Western Maryland College family; a family that remembers him fondly and will miss him deeply. We thank you, General Gill, Mr. WMC, for the pride and care you took in helping Western Maryland endure and work toward a strong future.

University of Maryland. A reading specialist, Coley has co-authored a col-lege reading text and published numer-

ous articles in professional journals. Dr. Iglich will coordinate programs in student retention, freshman advising faculty development and initiate an honors program colloquium. She will continue to teach part time in the bi ology department in her specialiti tion, ecology, population genetics and botany

Coley

Six faculty members received promotions in rank effective with fall semes-ter 1983. Dr. F. Glendon Ashburn, Dr. Joan D. Coley and Dr. Robert H. Hart-man have been promoted to professor from associate professor.

Ashburn, in sociology, earned his Ph.D. at Florida State University, his M.S. at the University of North Carolina at Raleigh and his B.A. at Western Maryland College. He has been on the WMC faculty since 1971. Dr. Ashburn is the former director of the Planning and earch Division of the Baltimore Police Department. He has published numerous articles concerning the study and practice of law enforcement.

Hartman, a member of the philoso-phy and religious studies department, earned his Ph.D. at Northwestern Uni-versity, an S.T.B. at Boston University of Theology and his A.B. at Oberlin College. He joined WMC in 1969.

Dr. Margaret W. Denman-West, Mr. C. Roy Fender and Dr. Ronald K. Tait have all been promoted to associate professor from a sistant professor.

Denman-West has been a member of Denman-West has been a member of the education department since 1977. She earned her Ph.D. at Texas Woman's University, an M.S.Ed. from Central Missouri State University and a B.A. from the University of Oklahoma. At Western Maryland, Dr. Denman-West eventuates the medical/brary science coordinates the media/library science program.

program. Fender received his B.A. from Color-ado State University, and the M.S. in art education and the M.F.A. in ceramics from Ohio State University. He joined the art faculty at Western Maryland in 1971.

Tait, in sociology, earned his Ph.D. at the University of Maryland and the M.A. and B.A. at the University of Delaware. He has been on the faculty at WMC since 1968 and serves as campus liaison for the area's Big Brother and

Big Sister organizations. Two members of the faculty, Dr. Denman-West and Dr. Kathy S. Mangan of the English department, received tenure faculty appointments also effec-tive this foll. tive this fall.

WMC was recently honored for its active participation and support in the develop-ment of the Big Brother/Big Steare program in Westminster and Carroll County. A branch office of Big Brothers and Big Sis-ters of Central Maryland was opened on June 3 in Westminster. The non-profit or ganization works with youngsters 8 to 14 years old from single-parent homes. Big Brothers and Sisters provide special adult friendship to children from all social. Ji-nancial and ethnic backgrounds.

From the Alumni President

by Eloise "Chip" Payne, '38

As warm weather wanes our thoughts and activities shift in a different direction, let's look at what's going on in our association. Our chapters continue to be very active in many ways such as Sunday brunches, after noon and evening meetings, short cruises and theatre parties. Many of us enjoy being together with our college friends.

college friends. Did you help with recruitment? Our college enrollment will be down for a few years and we want you to know your efforts to recruit students will be appreciated.

Our spring reunions were great. My class enjoyed refreshments at Harri-son House under a tent on the front yard before going to Old Baker to rec-ognize those who are no longer with us, then on to the President's dining room where we were served a nice meal. The banquet that evening held some nice surprises and was very well attended. Alums, the banquets are getting better all the time. Coming up are many activities. First

of all, the popular Sports Hall of Fame banquet will be held in November. banquet will be held in November. Read more about it in this issue. Homecoming will be another red-let-ter day in Cetober when the Alumnuss of the Year Award will be presented at halftime at the football game. Come early that day and join us in McDaniel Lounge for our Alumni Association semi-annual meeting. Reports from all committees are presented. A lot of information is given in a short period of time!

information is given in a short period of time! By now we have all heard about the campaign to raise money for the new Physical Education Learning Center. You'll be pleased to know the goal is in sight as well as the building. With your help the financial goal will be reached. Some alumni have already been quite active in the campaign. All will be involved in some manner during the 1984 year. Many physical

during the 1984 year. Many physical activities are being planned already. We would like those of you who spend winters away from your per-manent address to give usy our winter address. Various alumni activities take place in winter vacation spots and we want to be sure you are in-formed. Please call (301) 848-7000, ext. 295. or mail a card to notify the Alumni Affairs Office of your tempo-Alumni Affairs Office of your tempo-rary winter address.

rary winter address. The Board of Trustees has appointed a Search Committee to find a replace-ment for President Raiph John. He will be leaving our college for retire-ment, much to our regret. Your pres-ident is a member of this Search Committee and it provises to be a Committee and it promises to be

Committee and it promises to be a very difficult task. Our college continues its high rating according to the Middle States Asso-clation Evaluation Committee who completed their in depth survey in March. We are not surprised but pleased to have such a good rating. Won't you continue to support our college in every way you can? Keep in touch with us through chapter activities, trips to the Hill, attendance where possible to our banquets. Home-coming, reunions, etc. Till later, think of us often as you are one of us.

are one of us

New Press Time

Due to continuing budget constraints. News from the Hill will now be published three times a year rather than on a quarterly basis. The Hill will be coming to you in Fall, Winter and Spring Issues—in September, February

The editorial staff of The Hill hopes in this way to maintain the quality and integrity of the alumni publication in the face of current budget constraints. As always, we welcome your comments and ideas

Honors Abound

Alumni, students and guest speaker Dr. Catherine Strateman Sims, dean and professor emeritus at Sweetbriar College, were honored at the Senior Investiture and Honors Convocation held on May 1.

Phone For The Fun Of It!

Each year, alumni dread the call from a classmate asking them to par-ticipate in a phonathon in Baltimore. Potomac or Westminster. But they re-luctantly agree to call. They show up on their assigned evening dreading on their assigned evening dreading the thought of making a phone call. A cup of coffee, a drink, some sand-wiches, the training and then...the call. Slowly, the once quiet room be-gins to fill with conversation calls to gins to fill with conversation calls to classmates. Then the cow bells begin to ring, laughter and smiles fill the room. Dollars begin to add up. Before they realize it, two and a half hours have passed. They can't believe the night is over. They've done a good job, even talked to some old friends, rekindled friendships, shared some memories and helped WMC. They leave and want to do it next year. Just ask anyone who has called at a phonathon in the past. That's right, a

Anniversary Gift

In June 1977, on the occasion of the 50th anniversary of their graduation, the Class of 1927 established a memo-rial in honor of their deceased class-mates. This memorial consisted of a fund to be used for the purchase of books for the WMC library, and an honor roll (that hangs in the library) which contains the names of all class mates who have passed away, and which is updated each year.

In order that this memorial be per-petual, the \$1,365 in the fund has now been put into an endowment, the annual interest from which will be used to purchase library books.

used to purchase library books. Tax deductible contributions in honor of loved ones, the Class of 1927, or just interest in the library may be sent at any time to the 1927 Memorial Library Fund, WMC, Westminister, Md. 21157,

Blanche Ford Bowlsbey, '27

and find where their lives have taken them. If these people still have a warm spot in their hearts for their alma mater. It's a good opportunity for them to remember WMC." Bobby Jacobs, '73, Sherwood Forest, Md.

73. Sherwood Forest, Md. Tenjoy participanting, I could talk to people I hadn't talked to in years. Igot a pledge and rang the bell. Dottie Flavin immediately got a pledge and rang the bell. The bells started ring-ing up and down the aisle. It was contagious! I went home and looked through my yearbook to reidentify to call in the future." Helen Sear-borough, '50, Timonium, Md.

If you would like to have some fun at a phonathon, call the Office of Annual Funds at the college. You can select a night from any of the following dates: November 13-17, 20-22, 27-30, 1983.

Annual Fund Goal Set Annual Fund Falls At \$600,000 For '84

Sights have been set for an un-recedented \$600,000 goal for 1983 84 Annual Fund. The potential for reaching this goal is there if alumni, parents and friends all take part, but success will depend on the degree to which participation in the fund is increased and the number of increased gifts attracted.

help achieve this goal, alumni and parents can expect different pro-grams throughout the year. New and creative mailings are being designed to "educate" donors about people and programs at WMC and additional phonathons are being scheduled by alumni, parents and students in order to reach more people on a one-toone basi

Jon Myers, National Alumni Fund Chairman, cited one concern that he foresees as a challenge to his new position. "There was a total of \$39,652.22 in uncollected pledges in 1982-83. If all of the money had been collected, we would have far surpassed concreted, we would have far surpassed our goal. We plan to 'beef up' our efforts to collect this money. Once a pledge is made, a donor is removed from further solicitations. But it is important that the donor complete the pledge, if at all possible. We will rely on our alumni, parents and friends now more than ever to achieve this ambitious goal."

The goals for individ	lual funds are:
Alumni Fund	\$305,000
Parents Fund	\$42,000
Faculty/Staff	\$8,000
Business/Friends	\$245,000
Total	\$600,000

Day Student Reunion

The annual Day Student Reunion was held at the home of May Snider Clagett, '39, near Hampstead on Tues day, July 5, 1983. The group then had Oay, July S. 1983. The group then had lunch at the Piney Branch Golf Club. The following attended: Julia-Berwager. 39: May Snider Clagett. 39: Ruth Snider Cummings. '36: Margaret Harman Fleming, '37: Ethel Ensor Foresman. 29: Ruthetta Lippy Gligash. '40: Mazel Beard Guyer. 41: Louise Leister Hallkey. '39: Nancy Getty Hallky. '39: Mildred Baumgardner Jester. '40: Ina Rakes Langlon. '41: Dorothy Harman LeFever. '39: June Lippy, '42: Thelma Yohn Lockard. '39: Mary Berwager Loui.' 36: Mary Emergination Markey, '8: Ethel Gorsuch Schneider.' 36: Bitzabeth 'Berty'' Shunk Rohten. '39: Ethel Gorsuch Schneider.' 36: Mabel Wentz Shaffer. '33: Kathyn Wentz Sieverta, '36: Idona Mehring Teeter, '46: Miriam Shroper Wallace. '42: Ethel Erb Wilhide.' 42: and Amelia Weishaar Yingling.'39. All WMC dow students are cordially inch at the Piney Branch Golf Club. Yingling, '39.

All WMC day students are cordially invited to attend future reunions. For information call (301) 848-7000, ext. 297

Octoberfest Homecoming

This year's Homecoming, on Satur-day, October 8, will mark reunion years for the classes of 1963, 1968, years for the classes of 1965, 1966, 1973 and 1978. The Class of 1983 will celebrate its 100-days reunion. Several other special events have been planned throughout the day for

attending alumni. Lunch for all alumni will be available on the football field. During halftime, Wilbur D. "Woody Preston, Jr., '44, will be presented th ited the 1983 Alumnus of the Year award. After the game, an Octoberfest reception. соп plete with a "Little German Band' will be held at Harrison House. A buf-fet dinner-dance has been arranged by Bill McCormick, 1973 class presi dent, at the local VFW hall.

dent, at the local VFW hall. An added Homecoming attraction this year is the first Annual Run sponsored by the Sigma Phi Epsilon fraternity in conjunction with the class of 1963 reunion. The run is open to all alumni. For further information, call (301) 848-7000, ext. 255.

Short Of Goal Surpasses 1982 Goal

A total of \$534,266.39 was raised for the 1982-83 Annual Fund. The bad news is that it is \$15,733.61 short of the \$550,000 goal. The good news is that it is \$20,525.31 more than was raised last year and participation has increased.

are sorry not to have hit our target but are encouraged to see an increase in dollars and donors over last year. The economy certainly played a role in the short fall. It was felt the hardest through the solicitation of local business," says Jim Ridenour, vice president for development. "The Alumni Fund was down by \$4900 but alumni participation increased. In all. 33 percent of WMC alumni contrib-uted to the Alumni Fund. That's quite impressive when the national average is only about 20 percent."

Parents are also taking a more active art in the Parent's Fund. Over the last nine years, the Fund has raised more than \$230,000; this year realized \$38,203. Many parents continue their support once their son or daughter has graduated.

has graduated. The tuition paid by parents covers only 89 percent of the total cost of an education. The remaining 11 percent comes from the support of alumni, parents and friends, keeping the tui-tion increases to a minute. tion increases to a minimum

1979 5th Reunion Palkovitz, Baltimore, Md. - Mr. Jeff

terests at WMC, responses note a high interest in theatre historically devel

interest in theate historically devel-oped among graduates, and a recent upswing in interest in-travel and dance. Of particular note, was the extent to which reading for pleasure durderged as a result of the WMC upstimum about skills developed at WMC, and those needing more em-phasis, showed a clear judgment that writing, reading, problem analysis, developing personal relationships and using research facilities were skills that had shown development through the years of college work. The major the years of college work. The major need for greater emphasis seemed to be in the area of effective speaking.

In response to questions about the overall quality of the Western Maryoverail quality of the Western Mary-land education, alumni responded to the statement, "As a student I received a well-rounded liberal arts education." with a resounding approval rate that started at 87 percent for those grad-uating prior to 1930, and rose to 97.5 percent for recent graduate. percent for recent graduates.

In the months ahead a wealth of information will be extracted and interpreted from the results of the survey by various segments of the college community. Anyone interested in learning more about the survey and the res ults may contact the Office of Alumni Affairs

Juniata (Oct. 8) and Franklin and

A nine-game schedule awaits the 1983 edition of the western Maryland College football team bigins on the Hill. The Green Terrors, along with editysburg, Dickinson, Franklin and Marshall, Ursinus, Swarth-more, Muhlenburg and Johns Hopkins, are members of the saw Centennial Football Conference

Marshall (Oct. 22). In compliance with a policy administered at the league's member colleges, Western Marymember coneges, western wary-land College will prohibit the pur-chase, possession, consumption and transport of alcoholic bever-ages by all spectators at varsity or ages by all spectators at varsity or junior varsity intercollegiate letic events. Individuals or groups campaign on September 17. Four home games are scheduled

letic events. Individuals or groups, drinking or possessing alcoholic beverages at athletic events will be asked by the college security personnel to immediately dispose of the alcoholic beverage or leave the event. This policy is effective with the 1983-84 academic year.

8

Enriching Education

In a Very Special Way

It began 110 years ago with \$500. and today has grown to over 88,000,000. In 1873, Mrs. Tamsey Reese, a friend

of the college, put \$500 in trust to be used as an endowment fund for the of th financially struggling Western Mary land College. She felt that this would maximize the benefits of her gift and enrich education at Western Maryland enrice education at western Maryland in a meaningful way; the principal of her gift would perpetually generate interest to provide vital revenue. During the past decade, \$3,488,143

have come to Western Maryland through bequests. An additional \$4,979,067 was recorded as future bequests to the college and \$547,846 was placed in trust or annuity ar-rangements. These deferred gifts are currently providing income for the donor or a specified beneficiary. When all income rights terminate, the re-maining principal will be added to the endowment.

A gift to the Western Maryland endowment is a personal investment that continues to provide income and can result in meaningful tax rewards, while also yielding great per sonal satisfaction.

In 1977, Mrs. Laura Panebaker Darby, '19, created a Charitable Gift Annuity. In addition to a helpful in-come tax deduction that year, the gift annuity provides a secure financial resource during her years of retirement. She is also gratified by the knowledge that the remainder of her gift will establish a scholarship fund for Carroll and Frederick county stude

Dr. and Mrs. Thomas F. Marshall friends of the college, recently estab-lished a Charitable Gift Annuity which will ultimately benefit Western Mary land's endowment fund. "We feel thi income for ourselves, while at the same time being assured that college education for future generations will continue on the Hill." Dr. Marshall, a former English faculty member, and Mrs. Marshall have designated that their unrestricted gift be used by the college as needed.

Mather family, founders and The long-time proprietors of Westmin-ster's Mathers Department Store, has long held an interest in the growth of Western Maryland College. Several family members have attended WMC. among them Bessie Ober Herr. 1896 ad Bill Mather, '32, wife and son of T. W. Mather, Jr. Mr. Mather, Jr., found that a life-income agreement with the college would act as a valuable tool in his long-range financial planning. In 1961 he used securities to establish a trust. Income from the trust later went to his surviving spouse and now to his son. Bill Mather has maintained

the family's expression of confidence in WMC by naming the college as a beneficiary in his will. For Eileen Henze, Class of 1938, the

decision to make a gift to the college through her will meant that something she cherished during her life-time would continue for the benefit of others. The 1938 Aloha describes Eileen as an "enlightened conversationalist who sincerely loves litera-ture"; she became the head of English departments in two Baltimore high schools, and after retirement continschools, and after retirement contin-ued working with the books she loved in a branch of the Carroll County library. In the fall of 1981, monies from her estate were placed in the Elleen C. Henze Memorial Fund to be used for the "uplift and penefit of the English department" of Western

Maryland College. Since July 1, 1982, the college has received close to \$100,000 from bequests, \$30,000 has been placed in trust and annuity arrangements, and \$392,000 has been recorded in new wills.

Supporting the Western Maryland College endowment can play a very important role in the financial plans of the donor as well as those of the college. If you would like more information on life-income gifts or bequests, you may contact the Director of Planned Giving at the college.

Hollywood screenwriter George Gipe. '56, (Dead Men Don't Wear Plaid, The Man (Dead Men. Don't Wear Plaid, The Man With Tuo Brains) was the speaker at the Alumni Banquet held on the Hill on May 28 At the banquet, Martha E. Manahan, '23. Phyllis Cade Gruber, '43. They were just in time to see the newly opened Wax Work and meatures. In the source of Queen Victoria's regio.

Mrs. Erich F. Meitzner (Virginia Merrill) 124 N. Lynnwood Ave Glenside, Pa. 19038

I just reread the account of our 50th reunion which was last May. I am sure that all of us who were there would love to live through that experience again. But of course, a 50th reunion is a once in a life time event. And it was great. Since my last newsletter, I have received

ittle news from our 32ers. MARY LEE SHIPLEY BURBAGE keeps of -April to Miami and a Canadian tour was very little

MARY the go-April to Miami and a Canadina to the go-April to Miami and a Canadina to the go-April to Miami and the go-April to Miami and the go-April to Miami and the go-April to the set with a set of the set with a birds was build and with all the set birds was ball and with a birds was and a health and the set birds and a set of the set

infedievable" WINNIE BUSH GIBSON has had a health problem since our meeting last May, However, her riends, neighbors and her fantastic husband have been most supportive and Winnie is nch improved. GiBERT spends some time in FIDELIA GIBERT spends some time in on with family unsoftloodes. At present she is so

FIDELIA GLIENET speines some tous on Ohio with family members. At present she is planning a trip to Bangladesh. MARGARET LEE NELSON TAWES stays close to Cristifeld. Her great musical talent keeps her quite involved. From all reports, her chunch choir during the Easter season did a superb presentation. This is always true when Margaret Lee directs a musical event. At present, she is organizing a chorus for AAPD which she will

Main Street Westminster

Generations of Western Maryland College students have memories of downtown Westminster that are as poignant as those memories of campus activities. Students in the late 1800s arrived in Westminster on the train that for decades pulled into the center of Westminster.

It was John Smith, one of Western Maryland's first rustees, who as president of the Western Maryland Railroad granted free passage to all persons wishing to attend the ceremony of the laying of the cornerstone of the Main Building in 1866.

Within walking distance of the college, Man Street Westmisster offers churches, specially shops, drugstores, department stores, a community library, restaurants and banks to campus residents. The historic buildings and interesting city architecture are most appealing to many of today's college students—students who grew up in "plastic" shopping malls.

For Audrey Langrall, Class of 1953, Main Street is more than history and specialty shops. Employed by the City of Westminster as the Revitalization Coordinator, it has been her job to initiate the downtown merchant's support to rehabilitate the old downtown retail shopping area.

"Downfown businesses have been hurt by the 1950s trend toward shopping centers and malls, but more people are returning to downtown shopping where they find the 'one-ofits-kind' gift items, handmade products and personalized service." says Audrey.

Audrey brings 12 years of experience to this position having worked

with her husband. Bob, in his marketing/public relations business. In a marketing survey she conducted of 12 downtown businesses Audrey found that 42 percent of business came from out of-town shoppers. These visitors, largely from Baltimore County and metropolitan Washington D.C. were attracted to the lower prices in the specially shops. Audrey shares the marketing information with the retail merchants association and encourages them to establish mailing lists of shoppers and broaden advertising by direct mail.

Audrey has also used her Western Maryland contacts and coordinated internships with students from the Hill (See story, page 4).

Alumni returning to the college may wish to stop downtown and notice the facelifting of Westminster. "In the near future Westminster will have clothing outlet stores, restaurants and additional specialty shops in the renovated Sherwood Distillery," says Audrey.

TheHill

Western Maryland College Westminster, Maryland 21157 Address Correction Requested

Western Maryland College admits students of any race. color. religion. sex. and national or ethnic origin regardless of handicap to all the rights, privileges, programs and activities generally accorded or made available to our students. The College does not discriminate on the basis of sex. as required by Tule IX of the Education Amendments of 1972 and the regulations of the Office of Civil Rights of the Department of Education. Second-class Postage Paid Westminster, MD, and additional offices.

FIRST LADY AND FRIEND

riends are welcome through the back kitchen door of Dot John's house. One doesn't have the feeling of entering a pretentious forbidden "president's house." And all who enter are Dot John's friends.

When the Johns came to the Hill in 1972 after nine years in the presidency of Simpson College in lowa, Dot John was already well versed in "how to be a college president's wife." And to be sure, she does it *her way.*

Sure, she does it *iter trag.* At Western Maryland College one doesn't speak of President and Mrs. John—it's Ralph and Doe Dot's indeed her own person, and she has taken care to remain so, never hidden in the shadow of her husband, the President.

"The Hill is a friendly place to be, and I've made some wonderful lasting friendships here," Dot says as she reflects on her years at Western Maryland, "When we retire in July we will be leaving a special place and some very special friends. I'm certain we will keep very close touch with these dear friends."

Members of the college community, when asked about the president's wife, are unanimous in their reply: "Dot John is a friend."

"Dot is a genuine friend to everyone," says Bernice Beard, who has served as Dr. John's administrative assistant during his term on the Hill. "She is kind and thoughtful with everyone, and she treats each person as the individuals they are," says Joyce Muller in the college's office of public information.

Walking through the Decker College Center, which she thinks marks the biggest (and best) change in the releven years on campus, or walking from the President's House to Elderdice Hall, Dot John stops to speak with everyone she passes.

She doesn't just chat. She remembers previous conversations and always remembers to ask about your new baby, your recent vacation with your and the remembers your name. "I want to know who I'm talking to." She used to pour over yearbooks to learn the names of each and every student and faculty member. "When seniors graduated and were invited to our home for a reception, I knew each of them by name."

Friends will tell you that she's gotten Dr. John out of a pinch or two with her knack for remembering names. "He'll say 'Who's this walking toward us?' and I'll tell him 'Just give me a minute and I'll tell you.' Sometimes I have to think of where we knew them—college days. teaching. Simpson, Western Maryland? I can usually place the name and face if I can give it some quick thought."

Ralph and Dot John met as students at Berea College in Kentucky where Dot was studying elementary education. They were married and raised three sons, Douglass, Byron and Randy, on various college campuses as Dr. John pursued his academic career.

Dot John's sons are a source of great joy to her, and she speaks proudly of them, their wives and her two grandsons, Josh and Morgan. "I hope Ralph and I will have more time to visit with the boys when we retire and move to Ocean Pines (Md.)."

What is Dot John's role in the "partnership of the presidency?" "I honestly don't think she thinks of herself as the 'president's wife, " says Wray Mowbray, who has been the John's nextdoor-neighbor and friend for the last eleven years. "She is a mother and a wife, and I think those roles are very important to her."

Those who are around them know that Mrs. John provides a great deal of unfaltering support to her husband. "But she's more of a Bess Truman than an Eleanor Roosevelt or Jackle Kennedy." notes Donna Sellman, director of alumni affairs. "I don't make the business of the college my business. I am happy to fulfill my social responsibilities as the president's wife, but I stay strictly out of college affairs," says Dot.

But Mrs. John can always be counted on to be smiling at Dr. John's side at faculty dinners. honors convocations. Homecoming ceremonies, and alumni recentions.

"She's a tireless traveler—we've traipsed all over Florida, five stops in six days, and she joined us for a whirtwind Pennsylvanta Roundup (confounded by the air traffic controllers strike) and she's always smilling, lively and kind with all the alumni and friends we meet," notes Sellman.

And there's probably not a bigger Green Terror sports fan on campus. "I like to go to the art exhibits and 1 really enjoy the college choir and band concerts. But I just love going to the students' games." Mrs. John is a reliable fan for Terror players: she's a particularly vocal fan for the women's volleyball and men's basketball teams."

"Mrs. John has been a loyal fan for years," says volleyball coach Carol Fritz. "She always made it a point to come to our games, sometimes making her way across campus through the ice and snow." Dot John's positive attitude means a great deal to the students. "Even when we lost she was positive," says Fritz. "She'd tell the girls 'You really tried hard, you worked so well together, you looked great.' Her support was unending."

Off the Hill, Dot John has made a mark on the Westminster community in her own right. She is an active member of the American Association of University Women (AAUW) and the Westminster United Methodist Church, and she has been very involved in the Women's Club of Westminster, serving as president two years ago.

"TII miss Western Maryland College and living in the midst of all the college excitement . . . what others call the 'students' noise' has always been a welcome part of our lives and our home."

Asked what advice she has for the new First Lady of WMC: "Be yourself and enjoy it. The Hill is a wonderful place and there are many great people to meet and get to know."

The Presidential Search A Student's View

By Elisabeth Siegenthaler

ast summer, as I drove to Woody Preston's Baltimore office for the first meeting of the Presidential Search Committee, little did I realize what a tremendous learning experience was ahead for me. Even less could I foresee that Mr. Preston's office would, during the week we conducted interviews every evening, become my off-campus home-away-from-home. I was about to participate in the selection of Dr. John's successor—from the initial planning of how the committee itself would operate to the final task of recommending a candidate for approval by the Board of Trustees.

Being the only student on the 11-member committee was a unique opportunity to gain first-hand insight into the workings of WMC's corporate structure, something unmatched by what can be learned in the classroom. I worked as an equal with the faculty, alumni and trustees on the committee. Throughout the process I became increasingly convinced that my voice, reflecting the concerns of students, was a very im-portant one; if it were not for students, WMC would not have a reason to exist. Over the next few years, as the number of college-age students declines, Western Maryland must be able to offer a quality education that can satisfy many needs of students. As future alumni, students must also be concerned with Western Maryland's reputation; after all, we carry a degree from WMC throughout our lives

The new president, therefore, must be someone with a very positive vision for the future of Western Maryland. That person must be dedicated to making the necessary moves toward putting Western Maryland on the map as a topnotch liberal arts college. Many of the candidates we interviewed were surprised that WMC is so relatively unknown; more than one referred to the college as a "well-kept secret."

As I participated in the dozen interviews we held with those candidates, I felt my enthusiasm grow for what it means to be a part of a liberal arts college. Although what we learn in classes is important, the education we obtain expands far beyond the rooms of Memorial and Lewis; it takes place every day. Participating in extracurricular activities, especially in the governance of the college, is an excellent way to develop that out-of-class education. Helping to select Western Maryland's seventh president led me to appreciate even more how important it is for students to participate in the decision-making processes that affect our college.

Working on the search committee definitely required a major time commitment. Before the interviews were held and long before the top candidates visited campus, we had, literally, hundreds of resumes to read and discuss. I won't receive any credit hours for that time, but the trade-offs involved were more than worthwhile. The experience allowed me to synthesize much of what I've learned throughout my years in college.

Today's future quickly becomes tomorrow's history. Always aware that our choice of a president would soon have its impact on WMC's present, I sought to make that decision a responsible and well-informed one. The purpose of many of my questions was to find out how comfortable the candidates would be working directly with the student body, as well as how they would go about improving the overall living/learning environment of Western Maryland. In addition to learning from their answers. I also learned much about Western Maryland from their questions.

Economically, I was forced to learn how to deal with the problems of time allocation. The opportunity costs of participating in the search were

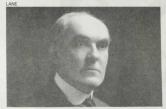

less studying, less socializing and less sleep. I en-Joyed observing the dynamics of the interrelations between trustees, administration, faculty and students, and discovered how a president fits into the network. In my new role as interviewer, I was able to develop and refine my own skills of articulating questions and comments, all of which will be extremely valuable when I must interview for law school or for a job. Also, I have to admit that it was *fun* to have the tables turned regarding who asks the questions!

The interviews were held in Baltimore, so the many hours of commuting left me with much time for philosophical self-contemplation. As a future attorney, wife and mother, how would I go about balancing the various roles? During that week my neighbors on first floor Blanche Ward saw only fleeting glimpses of me as I jogged off to classes in skirt and pumps I i hought and talked about little else than the search. Would my future mate be comfortable with someone who had so many commitments? How does one maintain a healthy balance between work and home life? Although many questions presented themselves to me throughout the semester, my role as a member of the search committee helped me to discover one answer: I will commit myself in the tallenges of a career.

Overall, participating in the presidential search was the best experience I've had at Western Maryland. I was able to work as an equal in the making of an important decision, as well as learn much about myself throughout the process. Western Maryland must be commended for encouraging student input in the college's governance. I truly hope that more students will have the opportunity to share my experience in the future.

Liz Siegenthaler, a senior economics and business administration major, is the president of the Student Government Association.

SCHOLARSHIPS Financing A Future_

Maurice Unger: "intelligent . . . a man of vision . . . dynamic and forceful, loyal to his profession, his family, friends and church." The Carroil County educator's renown lives on in the WMC scholarship that bears his name.

Baker. McDaniel. Ward. Decker. Gill. These are familiar names on the Hill. They are the names of alumni and friends of the college who have helped build classroom buildings, residence halls and recreational facilities on campus.

But there are many others, many whose names you might not know, who also provide valued support to Western Maryland College's development as a quality institution. What about Grove, Jenkins, Helfrich, Herr and Unger? These too are alumni, parents and friends of Western Maryland College who have helped build scholarships for current WMC students, about 80 percent of whom receive financial aid each year.

In 1878, the Maryland State Legislature gave Western Maryland College \$2,800 to provide two years of full tuition to 26 students and \$5,200 to pay for their board and books from *The Forpays for their board and books from the Forpays for their board and fuel costs for two students* one female and one male—from each senatorial district. Today, the state's \$7,800 bill for equivalent costs for those same 26 students would exced \$410,000.

This year WMC students received more than \$1.75 million in scholarships, grants and work opportunities to assist them in financing their education. About \$400.000 comes from the federal government, \$300.000 from the state of Maryland, \$50.000 from independent outside sources such as local service organizations and \$230.000 from Army ROTC scholarships.

The largest share, however, comes from sources within the college-about \$680,000 a year. These funds are available in the form of special scholarships from the college; much of this is money raised each year to help the college provide financial assistance for students. The alumni fund and the sustaining fund are important sources of these dollars.

The second largest source of funds granted through the college each year is endowed and annual scholarships. This is where the Groves and Jenkins and more than 80 others help sustain the college's ability to help its students pursue a quality education; this year 120 WMC students benefited from endowed and annual scholarships. Here are some examples of how alumni and friends are continually helping the college and its students.

In 1956, the will of Eleanor DeForest Boteler of Baltimore established a WMC scholarship in the name of renowned Carroll Countian, Maurice Unger. The scholarship, to be granted annually to Carroll County students who "have financial need and show strong moral character." was established in recognition of Unger's instrumental participation in the development of the Carroll

Punky Barnes received the Meritorious Service Award in 1977. Presented by the Alumni Association president Frasier Scoti '43 the award recognized her ''youghty to the college and gracious hospitality to classmates." Her loyalty and graciousness live on in the Barnes Schlarshitz.

County school system. Since 1977, about 15 county students each year have received aid from the Unger Scholarship.

Senior chemistry major Michael Armacost has been the recipient of Unger scholarship funds for all four years of his Western Maryland education. "I appreciate the support I get from the college," says Armacost. "I'm proud to be selected as an Unger scholar... knowing that I was chosen based on the scholarship's criteria spurs me on to work hard and live up the college's expectations of me."

M. J. Grove has established two endowed scholarships at Western Maryland—one in honor of his mother. Anna Forsyth Grove, who attended WMC, and one in memory of his maternal grandparents, Arthur Pue and Amanda Clark Forsyth. Grove has designated that the awards go to Frederick and Howard County residents, the homes of his mother and grandparents. The awards are to be made on the basis of

The awards are to be made on the basis of academic achievement, good character and financial need; preference goes to qualified students who may work at the college to defray costs. Mr. Grove says, "When I went to college I received scholarships, and I hope it means as much to today's students as it did to me." The Grove and Forsyth scholarships are awarded to students in comparative literature. American studies, business and economics, English and foreign languages. "I believe liberal education is what students need today, so I have requested that the funds be awarded to students in these disciplines," explains Mr. Grove.

Vivian Englar "Punky" Barnes, Class of 1921, endowed a scholarship for students who pursue studies in the education of the deaf. A long-time Westminster resident, Punky Barnes was a loyal supporter of her alma mater: she joined a brother, aunts and uncles, and "dozens of cousins" in attending WMC. A Meritorious Service Award presented in 1977 noted that Punky "displays an unusual enthusiasm for life and a devotion to tradition ... a bastion for preserving the past, she has devoted her life to safeguarding our heritage." In endowing the WMC scholarship, she does indeed safeguard the college's heritage of providing a quality education for qualified students.

Junior Laura Cole has been awarded the Barnes Scholarship for two years: "It means a lot to know that Mrs. Barnes cared so much about Western Maryland that she left money so future students could attend. Her generous decision makes it possible for students like myself to come to Western Maryland and benefit from the type of education that she valued so highly."

The Baltimore Chapter of the Alumni Association has also established an annual scholarship fund. Each year the group holds a fund-raising event—a wine and cheese party, dinner theatre, fashion show, silent auction—proceeds from which provide for their annual scholarship for a Baltimore area freshman.

Charles A. Skirnen, Inc., a Carroll County real estate firm, donates proceeds from an annual holiday poinsettia sale to the Skirnen scholarship for WMC students. Jun LSG-kinavo and Mary Garrish hope that this year's sale will help provide a \$1,000 scholarship for the college.

WMC parents Philip and Doris Jenkins established a scholarship after their daughter, Cathy, graduated in 1974. The unrestricted scholarship helps five to ten students with their college finances each year. "We feel that the small college has a valuable place in the educational system," remarked Mr. Jenkins. "Our daughter, Cathy, got a lot out of her Western Maryland years, and we hope the scholarship can help other students take advantage of all the college has to offer."

Until this year, all scholarship money given by the college has been awarded based on the financial needs of the students. This year scholarships will also be available to students on a merit basis. The first merit scholarships will be offered to incoming freshmen for September 1984. More than \$100,000 has been allocated for the merit scholarship program.

Martha Gagnon, dean of admissions and financial aid, notes, "There has been a great deal of interest in scholarships based on merit": the move puts Western Maryland in step with other colleges and universities faced with declining enrollments and spiraling costs. According to *Tune* magazine (May 2, 1983), this year about 900 schools are offering merit scholarships to attract students, compared with 420 in 1977.

Under the minimum requirements for the merit scholarship, high school graduates must have a 3.5 grade point average, based on a 4.0 scale; combined SAT scores of 1100; a potential for leadership as exhibited by participation in extracurricular activities, employment or community associations; and a recommendation from the high school principal, guidance counselor or teacher.

The three levels of merit awards, all renewable annually, are the Trustee Scholarships, which cover all tuition costs (86,175 in 1984-85); the Presidential Scholarships, which carry a \$2,500 award; and the Dean's Scholarships, for \$1,500. The college Admissions and Standards Committee will evaluate candidates and make the award decisions.

Gagnon says. "We hope to continue to attract bright students to Western Maryland College. Through this new measure we can compete with other colleges in recruiting strong, qualified students." She adds, "these new scholarships will not detract in any way from scholarships already awarded based on financial need."

As Dr. Ralph John notes, "The scholarship budget has grown substantially over the last decade in our attempt to meet the steady increase in demand. The decision to add this series of merit scholarships will further stretch our resources, underlining the importance of endowed and annual scholarship gifts to the college."

A page from a scrapbook in the Ward family could just as easily be a page from a WMC yearbook. When Scott Ward began his freshman year on the Hill last fall, he continued a rich family tradition. He joins his great-grandparents, his grandparents. his parents and his aunt and uncle as part of the Western Maryland College family. Share with us a glimpse from the pages of the WMC/Ward family photo ablum.

Determination And a Smile:

A Blind Student Adjusts to Life on the Hill

blind student giving directions around campus? Not if you went to Western Maryland College. Here, Donald Combs, a freshman from North East, Maryland, is a roving map of the college.

Getting around the Westminster campus is no small feat. With its 35 main buildings and 160 acres of rolling hills, it is a challenge for any newcomer. Donald, who has been blind since he was eleven, had to learn every curb, corner and crack in the sidewalk, so he can make his way around campus every day.

This task was simplified by arranging for Donald to come to campus two days ahead of the other freshmen. During the 48-hour period. Donald and a WMC graduate student from the college's dea/Dhind program walked the campus until Donald feit that he could find the buildings in his sieep. He knew this intense drill had paid of when on the third day, with his white cane guiding him to familiar landmarks, Donald surprised himself and others by giving directions to another new and confused classmate.

Donald likes the small college atmosphere. "People take the time to get to know you— it's really friendly here. People are always offering to help and even if I don't need the help it's nice to know that someone cares."

"But no one pampers me," says Donald about his adjustment to college life. With a determined smile he adds, "I love the independence here. I get a sense of real accomplishment knowing that I've done something by myself. I even feel good when I do the laundry on my own!"

Donald admits that it was a little bit rough at first. "I think the hardest part was getting my textbooks transcribed into braille or tapes. I needed to have them as quickly as possible."

By Moira Coe

Another challenge for Donald was exams. At first his tests were read aloud to him. But this method proved to be too difficult. "There is so much information in each question that you have to be able to analyze the question and above all, take time with it. Even when the question is repeated again and again, it's just not the same. Reading a word, a phrase, even the spelling of a word can trigger something." Donald readily praises Dr. Donald Rabush. associate professor of education, and his individ-

Donald readily praises Dr. Donald Rabush, associate professor of education, and his individual professors for ironing out his problems and making his adjustment a happy one. He notes that Dr. Rabush, his special advisor, has been instrumental in helping with transitional adjustments. "He's always been very encouraging and willing to listen. Whenever I'm discouraged I can talk out my frustrations with him. We've been working together to overcome hurdles which will always arise in a sighted environment."

Together, Donald and Dr. Rabush have been tackling new problems and finding creative solutions. Donald's tests are now being typed into braille and his books are recorded. A taped text he couldn't order is being recorded by a volunteer in the Westminster community. "We're handling each problem one at a time." says Donald. "It's a learning process for both of us. There are plenty of things we're going to know not to do next time and things we're going to know how to do a lot better! But that's what learning is all about."

He feels that the tapes are no different from the text and are equally effective in preparing him for his classes. "I feel comfident that I know the material as well as my classmates." He records all of his lectures, "The tape recorder takes the notes I am not able to and leaves me free to participate in class. It sure beats taking notes!" And his perseverance and determination have paid off. With a grin he announces that he received an A on his first braille biology exam. No small accomplishment.

Donald knows that there is more to school than tests and lectures, and he looks forward to spending time away from studies with his friends. To be sure, Donald has an ever increasing circle of friends. 'I really like the people here. It's so easy to make friends. I can recognize all my friends' voices and everyone who passes me always say 'Hil' '' He is hoping to expand his

social life further by getting involved in some of the wide variety of clubs. "I'm looking forward to getting involved in everything the college has to offer me. It's just a matter of time."

Ten years ago it may not have been possible for a variety of handicapped persons to attend any college. But Section 504 of the Rehabilitation Act, and more importantly the regulations implementing 504, guarantee handicapped students entrance into colleges and universities as well as their participation in the program as a whole. According to this law, it is the college's obligation to provide reasonable adaptations so that the student can fulfill the requirements of the education.

As 504 Coordinator for Western Maryland College, it is Dr. Rabush's job to see that the college adheres to the code. For years Western Maryland College has been well known for its education of the deaf program, and more recently the deaf blind program. Rabush is now forming an ad hoc committee to further the college's efforts to meet the needs of the handlcapped. "This committee: all handlcapped students are different hey during all handlcapped students are different hey during to have different needs." Rabush points out that "as high schools are becoming better equipped to educate handlcapped students, colleges in turn will have to be able to accommodate the growing number of these qualified students enrolling in their programs."

The committee, headed by Dr. Rabush and consisting of five other faculty members, will be addressing some important issues: developing organizational structures for the student, working with the faculty to increasingly adapt the classroom for the handicapped, and investigating what other colleges are doing to accommodate their handicapped students.

Both Dr. Rabush and Donald have a bright outlook for the future of handicapped students attending Western Maryland College. Donald can't conceal his confidence and optimism when he adds that, "Graduating from Western Maryland College will be a big accomplishment for me. Graduating from high school was my first goal, this one is going to be a lot tougher, but I know I'll make it."

Moira Coe, a freshman biology major from Bowie, Maryland, is a college work-study student assisting in the Office of Public Information.

Sam Case, center, in Washington with members of his marathon training class.

Coach Fritz discusses game strategy during afternoon practice.

Colts Return to WMC

he thrill and excitement of professional football makes a triumphant return to Westminster this summer with the return of the Baltimore Colts to Western Maryland.

After a nine-year association with Goucher College, the Colts have reached agreement with college officials to move their summer pre-season training camp to the Hill.

In a press conference held at the Colts complex in Owings Mills, Colt General Manager Ernie Accorsi waxed nostalgic about the club's return to WMC. "For nearly 20 years, summer trips to Western Maryland College became a way of life for Baltimore Colts fans. Three of those years. Worst ensure that the groundwork for nostalgic return to Western Maryland Ching sear and hope Baltimore area fans again will plan day trips to the campus and enjoy outings at our training camp."

"I went up there with Ernie back in September," said Colts Head Coach Frank Kush. "The facilities are first-rate and the campus is beautiful. If we can have as much success there as the team did before, it will be great."

While the Colts trained at WMC from 1953 to 1970, the team won three World Championships-in 1958, 1959 and 1971. The club also appeared in the National Football League championship game in 1964 and in Super Bowl III in 1969.

WMC President Ralph C. John is equally enthusiastic about the Colis' return. "Western Maryland College enjoyed its special relationship with the Colis in the years prior to 1972. From all indications, we have missed each other through the intervening years. Now we at WMC are looking forward to the return of this fine organization for its summer training eamp."

The Colts summer camp is a five to six week session beginning in mid-July and running to the end of August.

Marathon Training Class

Imagine back to the days when you were an undergraduate at WMC. Your professor tells the

class that to pass his course, all you have to do is complete a little run. A little run of 26 miles, 385

Well, maybe that class was not offered when you were at Western Maryland, but physical education professor Sam Case offered a marathon training class during the fall semester that attracted seven hearty souls.

The class trained for about nine weeks, and had the final exam on November 6 when members ran in the D.C. Marine Corps Marathon in Washington. The first WMC runner across the finish line was juntor Ken Fahrny who covered the distance in three hours and 50 minutes. Second was juntor John Kennedy who ran a 3:58 while Dr. Bill David of the political science department ran a 4:12. Senior Robin Garland and junior Helen Nolan led the women with times of 4:30 while junior Linda Spring ran a 4:58. Unfortunately, the other member of the class, senior John Nist, was ill the day of the race and ran in a subsequent race.

And where did the professor finish? Outdistancing all but one of his students, Case hit the tape in a time of 3:55.

"These people were just super to work with and I'm extremely proud of each and every one of them," stated Case afterwards.

Does this mean they all received A's?

Volleyball Team Reaches NCAA's; Fritz Captures 300th Victory

Question: What Western Maryland College athletic team has been most successful over the past four seasons?

It has not been the football team. Nor is it the men's basketball team. Women's swimming is a good guess but incorrect.

If you answered the WMC volleyball team, you know your athletics at Western Maryland.

The Green and Gold received its third consecutive bid to the NCAA Division III Championships this season after completing the regular season with a 38-8 slate. The Terrors defeated the University of North Carolina-Greensboro in the first round before succumbing to the #1ranked team in the nation, the University of California-San Diego, in the regional semifinals.

ORENSTEIN

The Terrors have compiled a record of 152-30 during the past four seasons for a winning percentage of .835. And since its inception as a varsity sport, Western Maryland has a record of 316-64. How does a school with an enrollment of 1.300 that does not give athletic scholarships continue to compete on the national leve? The credit goes to Head Coach Carol Fritz.

Fritz has been the mentor of the Terrors since 1968 when the sport was recognized on the varsity level. Since then, Western Maryland has captured five Middle Atlantic Conference championships and made three trips to the national Division III fournament. The schedule has been belaware and Bucknell. The 1968 team played five matches. The 1981 squad played 54.

What is it that makes Fritz such a successful coach?

"She pushes us to our limits, both on and off the court," states senior tri-captain Donna Mummert. "We are not the best athletes," adds tricaptain Becky Bankert, "but she is able to get the most from us."

"There are a lot of diverse personalities on this team, but she pulls us together as a unit," concluded tri-captain Missy Wagner.

After 16 seasons of coaching not only volleyball but also basketball and softball, one might think that it would become harder for Fritz to communicate with her players, but assistant coach Becky Martin '80, says that isn't the case.

"She always has the right words. She has the ability to reach out to the players and get the very best from them. It is more than just knowing the athlete's physical capabilities. You have to know which ones need a pat on the back and which ones need more."

"Off the court, she is someone we can turn to," said freshman Karen Miles.

"But she is all business on the court," Martin added. "It's never enough with her. You can always give more."

News From

College Trustees Elect New President

At a special meeting of the Board of Trustees held Tuesday, January 10. Dr. Robert Hunter Chambers, III, was elected president of Western Maryland Colleg

elected president of western Maryiano College. Dr. Chambers will succeed Dr. Rahph Candler John who retires June 30, 1984, after 12 years as president. Assuming presidenti at reponsibilities on July 1, 1984, Dr. Chambers will be the seventh president in the 116-year history of the college. He comes to Western Maryland Col-lege of Arts and Sciences at Bucknell University, Lewisburg, Pennsylvania. The newi-elected president is a pro-fessor of English and a widely pub-lished autor on educational policy and the works of the contemporary South-ern writer Robert Penn Waren. You Can Whip Any Adversary With **Good Education** By Debble McDani

Education, Parren Mitchell said, is

like a gun. "Once you've got that gun in your hand, nobody stops you," said Mitchell, a Democratic congressman who has represented Baltimore City's Seventh District since 1970.

His audience was 190 minority high school students from Washington, D.C., Baltimore City and Howard County schools visiting Western Maryland College. The attitude that "I'm poor, there

The attitude that "I'm poor, there-fore I'm socially and economically dis-advantaged," or "I'm Black, therefore I'm socially and economically disad-vantaged," is a cop out, he said. "I'm the greatest thing that ever happened to Washington," the 61-year-old congressman said. He urged stu-dents to follow his example, by study-tor the bact of white and black cultures?

ing the best of white and black cultures' literary, artistic and musical talents, for example.

"I'm not disadvantaged," Mitchell said. "I'm super advantaged."

suid. "I'm super advantaged. Armed with knowledge, students can fight racism and poverty, right wrongs and silence opposition, he said. Mitchell's speech on "The Impor-tance of a College Education" was spiced with personal anecdotes, poetry and quotations.

spiect with personal anecodors, poetly and quotations. His appearance came at a time when Western Maryland College is seeking to expand its minority population through programs such as this second annual "Winter Open House." Minority stu-dents at the college now number about 40, said Martha Gagnon, dean of ad-missions and financial aid. "There's been a new "slippage" in civil rights gains, said Mitchell. RacIsm till exists but it is not as visible as in the past. "It's a slick smooth racism," he said. But until minority groups gain economic power, the y can't reach political power, he said.

political power, he said.

Deaf Grad Coaches Netters

Terror volleyball has gained a loyal and enthusiastic following; classmates, teachers and friends are always on hand to cheer the netters on to victory Imagine for a moment what it would be like to have helped create this ex-citement and yet not be able to share in it completely. WMC's setter coach Heather Gibson

has been deaf since birth. Raised in Ontario, Canada, she is the only non-hearing coach of a hearing collegiate athletic team in the United States. For Heather Gibson the usual volley

ball coaching methods are not always enough. She also uses sign language and sheer determination to break the communications barrier. Two students in the education of the deaf program, Lisa Julich and Beth Lauriat, help Heather overcome the challenge by acting as interpreters for her. "The team is so willing to work hard with me," Heather notes happily. "It's great to meet people who have learned to sign and aren't afraid to communicate with me.

Gibson received her undergraduate degree in physical education from Gallaudet College in Washington, D.C. Raised in a hearing environment, she chose Gallaudet because "it is the only college in the world that accepts only non-hearing students." In an environ-ment focused on the non-hearing, Heather was able to participate in both an active academic life and an active athletic one that included volleyball, swimming, basketball, and track and field.

Upon completion of her undergraduate studies at Gallaudet, and with eye on returning to Ontario to teach physical education to deaf children, Heather came to Western Maryland to pursue advanced studies in education of the deaf. "WMC's program has a fine reputation among educators." notes prompted her coaching career. As a sistant volleyball coach for the girls'

team at the Model Secondary School

team at the model secondary School for the Deaf in Washington, D.C., she coached deaf girls age 15 to 18. While playing volleyball for Gal-laudet against Western Maryland, Heather was spotted by WMC's head coach Carol Fritz. After beginning her graduate studies on the Hill, Fritz invited Gibson to join the Terror coaching staff.

Difficulties which may arise having a deaf coach for a hearing team are quickly offset by the many advantages that Heather brings to the liberal arts college's players, "We cause a stir wherever we go," says Fritz, "People are surprised to see a deaf coach and many stop what they are doing to watch her. It's fascinating to watch an individual with such determination work so hard and succeed."

Heather feels she is having a real im-pact on the players. "Working with a non-hearing coach gives the women the experience of being around a deaf person and having to communicate -They have to learn to express them-selves in new and different ways, an they learn to feel open and more cor fortable with their creative expression they may have with deaf people.

PASSING New Students 'My salad days, When I was green in judgment."

William Shakespeare's quote de William Snakespeare's quote de-scribes the college freshman who, in his transition from high school to col-lege, is often ill prepared for the rigors of college-level academic study. Fre-quently, by the time students discover the reasons and find help for their aca-demic failures it's no lafe. demic failures, it's too late.

Without frequent academic advis ing students often cannot recover and improve a low grade point average," says Dr. Esther Iglich, associate dean of academic affairs, who is charged with seeking solutions to the problems of student retention.

'We see students who, early in their college career, suffer academic failure and may consequently drop out of col-lege by junior year. Empirical studies tell us that it is the first six weeks that are the most critical in establishing a pattern of success and that effective academic counseling takes place outside of the classroon

Beginning next fall a structured program, PASS, Peer Academic Support Services, will involve undergraduate students and the faculty in an extraordinary effort to promote academic success among new students. Three student support groups will

direct attention to various problems experienced by new students. The first PASS subgroup composed of trained peer student advisers will be in dividually assigned seven to eight new student advisees. Specifically, they will help advisees with study scheduling, study skills, personal advising and referrals.

PASS II subgroup of students will PASS II subgroup of students win monitor and counsel the academic progress of four to five students. These advisors will coordinate with Dr. Georgia Royalty, director of counseling and career services, guiding new stu-dents through problematic leaves, as

a week. The study center offers tutorial service in specified academic areas. These student peers will help students not only with course content material. but also with general study skills.

The support of peer advising frees up time for the faculty to focus on per-sonal and career developmental coun-

seling," adds Dr. Iglich. Further assistance will come from the graduate program in counseling as and graduate program in counseing as master's degree candidates will test and analyze undergraduate students to identify areas of weaknesses, i.e., learn-ing disabilities.

Publications Earn Praise

The WMC Office of Public Information received four awards in November at the Tenth Annual Awards Competi-tion sponsored by the Baltimore chap-ter of the International Association of Business Communicators. The awards were given for excel-

lence in several aspects of publication production. *News From the Hill* took first place for excellence in print communication. The office also won a secmunication. The office also won a sec-ond place award for excellence in writing for the article "A Salute to Mr. WMC," in the September 1983 Hill. Awards for excellence in print communication and design were also given to the office for the special develop-ment "Do You Know?" project.

"Flashdancing" On Campus

"Take your passion and make it happen!" Nancy McGinn's passion is dancing and she is making it happen at WMC. Ms. McGinn joined the col-lege's faculty last semester to bring more dance to the campus and its sur-rounding communities. rounding communities. Her class, Musical Theatre Perform

ance, a two-credit course aimed at pre-paring students for voice and dance paring students for voice and dance audition, is the only performing class available on campus. In the class, the students learn not only how to dance, but why people dance. But perform-nances aren't limited to the classroom: Nancy takes her students out into the work its regression.

Nancy takes ner students out into the world to perform. "There is nothing more gratifying to a performance-oriented class than be-ing allowed to perform-nothing moti-vates a group better than an upcoming performance," says Nancy.

The group's first performance was at Alumni Dinner in Wilmington, Del.,

an Alumni Dinner in Wilmington, Del. in November. The program's theme. "Dance in America," included a square dance from "Oklahoma," a medley of dances from the "20s era and a modern jazz piece from the movie "Flashdamce." "I chose the piece "What a Feeling" from "Flashdance" because the tyroin have captured my soul, "assidancer in the midst of a group. That's where it must start—in each public until the en-tire group has caught and the en-tire group has caught and the en-tire group has caught and of the Ma. McGinn, agana toured with three dance companies while in col-

three dance companies while in college. After receiving her B.A. in music she continued dancing in several ballet and drama productions.

Nancy encourages schools and organizations to invite the class to per-form for their groups. She believes that dance has a message to teach, to both the performers and the audience. Nancy encourages schools and

the performers and the audience. "The purpose of art is to make a statement. It's nice to be entertained by song and dance, but it's also impor-tant that the observer go home more enlightened or enriched than he or she came," believes Nancy. Area alumni groups and community organizations are invited to contact wheches for more information about here

McGinn for more information about her classes or to arrange for performances.

ORENSTEIN

Cadet Commended

Audrey Adams, a senior ROTC cadet at Western Maryland, received the Legion of Valor Bronze Cross from the Legion of Valor of the United States. The first WMC cadet to ever receive the honor, Adams was presented with the medal by LTC Julius Duvall, professor of military science, at a brief ceremony on campus last fall.

The award, which is presented an-nually to stimulate development of leadership, is given for achievement of scholastic excellence in military and academic subjects. The award is made to one cadet in every one thousand in the First ROTC Region. This year five Legion of Valor awards were given in the region which comprises all East Coast states, from Maine to Florida. Adams, who carries a 3.99 grade

point average and a 4.0 g.p.a. in ROTC, has also received the Academic Merit Ribbon (maintaining a 3.0 grade average) and the Academic Achievement Wreath (top 10% of ROTC class) for four years. She was named Superior Cadet by the Department of the Army during her junior year, and this year, as the top member of her class, she serves as Cadet Battalion Commander. Adams has continually excelled i overall performance aspects of the ROTC program. LTC Duvall, the Western Maryland

ROTC detachment commander, re-marked that the four-year scholarship student has been a tremendously positive influence on the college's ROTC program during her four years on cam-pus. "She is cheerful and friendly, and she is genuinely sincere about wanting to do well and work hard. Her effort and enthusiasm have been real assets to our program.

Lights Out!

It's finals week, and the last thing It's finals week, and the last thing you need is distractions. But that's just what students got at the end of first semester. The distraction? On Tuesday night of finals week the lights went out on most of WMC's diligent studiers. From Tuesday night until after Wednesday's last exam, students pressed through the week with the power out in most of the major campus buildings. Students were shuffled to new exa locations in buildings which still had electricity or had adequate natural lighting.

The power outage, caused by water in the campus' main transformer, virtually paralyzed many administrative offices and kept students and the regis-trar's office hopping trying to keep up with schedule changes. In the post office staff members sorted mail in the dark, and students were treated to a steak dinner prepared for them on grills behind Decker College Center (right).

Power returned to campus, and exams proceeded as normal Thursday and Friday.

Jamies Proctor, senior social chairman for Alpha Gamma Tau, hands a check for §212 to Carroll County Food Sunday representative Linda Tully. The money was earned by the members of Alph Gamma Tau by selling hot dogs at football games this fall. of Alpho

ALUMNI NEWS

Homecoming 1983 was again a joy-ful reunion for friends and classmates on the Hill. The day was filled with fun and excitement, including a 20-7 win over the Indians of Juniata.

Celebrations included the Homecoming parade down Main Street complete with floats, bands and fire trucks, and the crowning of Homecoming Queen Beth Dorrian and King Jim Francis and court by Dr. and Mrs. John. Alumni president "Chip" Payne pre-sented the Alumni of the Year Award to Wilbur Day "Woody" Preston, Jr., '44

Memorial Gifts

The October issue of Scoreboard, which listed gifts made in memory of alumni and friends of the college in 1982-83, omitted the following names. The Development Office and the editorial staff regret the error.

The "Forties" Annual **Carousel Reunion**

Once again this year, for the eleventh time, the WMC "forties" group met at the Carousel in Ocean City, Md. It was another great occasion filled with another great occasion inter with laughter and talk. This year we had 36 alums and friends gather together, in-cluding: Klein '43 and Mary Lee Leister; Paul Brooks '43; Bill Vincent '42; Guy cluding: Aleff 43: Bill Vincent' 42: Outy 41 and Ceclia Windsor, Inv '44 and Mark Ceclia Windsor, Inv '44 and Mark Ceclia Windsor, Inv '44 and Mark Ceclia Windsor, Inv '44 and Jean Dieffenbech' 44 Smith, Jack '43 and June Rawlins; Harry 'Bud'' 42 and Edna Bandor' 42: Ricker: Geneviewe Spry '44 and Jennings McGee: Mary Dixon '36 and Hal Phillips: Marty Hodgson '43 and Don '41 Honeman: Nelson' 47 and Anne Wolfsheimer; Margaret Smith Cassell' 44; Joe '43 and ET Elliott: Vernon' 43 and Shirley McPherson '47 Wiesand; Francis' 43 and Jeannie Eckhard' (44 McWulliams)

and Jeannie Eckhardt '44 McWilliam We were particularly sorry that Janith Horsey '43 and Bink Collin, Eloise Wright '42 and Bob Morrison, and Pearl Bodmer '43 and Lee '43 Lodge were unable to join us because of illnesses in their families.

Our reunion, filled with singing, stories, birthdays (Mac, Paul and Neil), anniversaries (Jack and June's 40th) and ice skating brought members of our WMC group from Pocomoke City, Cambridge, Baltimore, Westminster, Indianhead and Salisbury, Md., from Laurel and Seaford, Del., and from York, Pa. Now you know, for a small college, that is a grand record.

Alums Help Guide Student Careers

"Internships have long been an important feature of certain college programs," according to the college's long range plan's discussion of internships and their practical application to the college's educational programs. While the plan recognizes that such internship experiences as student teach-ing are "ancient institutions," it concludes that guidelines must be developed to allow full use of internships in all disciplines

Academic Dean Del Palmer has asked Joan Coley, associate dean, to examine current internship opportunities and develop strategies for increas-ing the number and variety of internship experiences available to students

One avenue Coley is pursuing is alumni involvement. "We will be contacting alumni to determine whether

tacting alumni to determine whether they would be interested in sponsoring internships for WMC students in their particular fields and businesses." surger to the student of the students of the we can generate interest among college alumni, and then we will publicize the opportunities throughout the college." Students will apply for positions, selec-tions will be made by the sponsor/ employer. employer.

"It's a great opportunity for alumni get involved in Western Maryland today," says Coley. "It's a chance for students to explore career choices and learn more about business opportuni-ties in their fields. Alums who have an interest in the college and its students an help the students out by sharing with them glimpses of the working world-glimpses they probably wish they could have had as students." Anyone interested in learning more

about the college's January Term internship program may contact Joan Coley in the Office of Academic Affairs.

In Memoriam

SPENCER

October 22 was Carroll County Day on the Hill. Life-long Westminster resident Mike Eaton was pre sented with a Community Service Award for his volunteer efforts in enhancing town-gown relation:

From the Alumni President

by Eloise "Chip" Payne, '38

Our association becomes more active as time marches on. We have more members to be active also. Our annual open Board meeting was most rewarding because so many attended. We had presidents of chapters, committee chairmen and members, facuity members, alumni administrators and staff present. After all, it was our big Homecoming weekend.

coming weekend. It's a known fact that student admissions are down at our college. We are calling on all alumni to help by referring students to our college. You as receive a referrad cavity which watere the application fee for a student. Look for a student to give it to who is interseted in our college. Our new Dean of Admissions is out there determined to increase enrollment, but she needs our help.

Sports Hall of Fame is becoming more popular each year. What a thrill for our inductees and families to hear their careers reviewed and see pictures of their lives on campus, as well as receive the award that goes with such an honor.

By this time reunions for 1984 should be organized. If you know of a class that needs assistance, or if you want to serve on a reunion committee contact Donna Seliman, Director of Alumnt Affairs, who will be happy to handle the structure.

The November 1983 Sports Hall of Pame banquet inducted seven new members. Accepting the honors user, I-r. Baurice W. "Augle" Roberts '36 and Dorothy Roberts Etaler '29, son and daughter of the late Winfer R Roberts '03. 'Une E. Lippy 42. Stanling Benjamin' 38. Robert II. Stropp 40. Thomas J. Ponteorov '38. Ellem Tourisend, uslaav of the late Nicholas W. "Nick" Campofreda '36. Ronald F. Athey 27. Raiph C. John, college president.

Some of us take a vacation in the winter. If you plan to be in Florida the week of February 17 to 25, a gathering of WMC alums will take place. Send your address to the Alumni Office if you would like to meet some WMC friends.

Last, but not the least, our Constitution has been revised to include an award and committee for young alumni. A young alumnus is one who has been graduated within the last ten years. It will be known as "Young Alumnus Service Award," given to those who have been outstanding in their service to WMC.

A date to remember—Alumni Reunion Weekend—June 1, 2, and 3. Want to have some fun? Come to the Alumni Banquet on Saturday, June 2. 1984. Your college needs you, give some thought as to how you can serve!

Summer Theatre Lineup

The producers of WMC's Theatre on the Hill have announced the 1984 schedule. From July 5 through August 5 the company will be performing "Jesus Christ Superstar," 'Cole," a musical about the works of Cole Porter: and the play "Beauty and the Beast." Auditons for the plays will be held in early March.

Tickets for each production will be \$6; season tickets are also available. For further information call the college's drama department at (301) \$48-7000, ext. 599.

The 1983-84 Parents Board: L-r. Row J: Vice Chairmen Gerald Spivey and Joyce Spivey. Roderick Wagner, Margaret Wagner, Jennue Heck, Donald Heck, Ann Goodnow, Chandler Goodnow, Rida McDonough, Mike McDonough, Row 2- Chairmen John Case and Beborah Case. George Berson, Pat Berson, Sheita Berman, Melvin Berman, Jane Dunne, Bill Dunne, Genevieve Muir, John Muir, Mimi Mules, Paul Mules, Bill Tanner, Lucretia Tanner, Row 3: Kenneth Glauber, Marilym Glauber, Ann Wren Moessbauer, Row 4: Shirley King, Barbara Brenton, George Brenton. Row 5: David Moessbauer, Becky Leonard, Marilyn Thomas, George Thomas. Row 6: Bob Leonard, John Novoini. Not Jeitured: David King, Clyde Magbee, Mary Magbee.

1916

MINNIE ADKINS JONES, 701 Lakeside Drive, Salisbury, Md. 21801, wrote the fol-lowing note to Alumni Office on October 10, 1983 "I have enjoyed the baseball season and am boding forward to the Ordios win-ning the World Series. I spent a week in Ocean City with my daughter and several of her Western Maryland classmates."

1925

Dear classmates, I want to thank so many of you for answering the cards I sent out. I really enjoyed hearing from you. CHARLIE BISH was in the hospital in the fall for an infection. He still has steel bars in the leg that was broken. He keeps basy in the Presbyterian Church, is treasure of the com-munity council of Montgomery County Asso-ciation and is a member amount of the cation and is a member amount of the con-munity council of Montgomery County Asso-ciation and as a lawny that doesn't generate much news. He is proud to have become a grandparent.

grandparent. ELLEN WHEELER EDWARDS was slowed

⁶ ELLEN WHEELER EDWARDS was slowed down by an eye problem in '85 but she now has her first successful eye implant. Her son and family are now living in Honduras and she has visited them. She now lives five months in Florida each year. In September Harry and I visited with FRANCES MERICS and Roscoe HULL. They are considering a retirement home nearby but I tried to laik lower home on because with yeautiful orange and grapefruit researches are both well. es. They are both well. PAUL KELBAUGH is now retired from the

poultry business. His son, Duncan, heads the Brunswick Nurseries of which Paul is the proud vice president. He and his wife like to spend time in Barbados, which is his favorite place in the sun.

FRANCES TERRELL LONG flew to Melbourne, Fla., last year and spent a week with ROY CHAMBERS '29 and his wife. Outside of that her life has been rather quiet. She finds that checking records with a group from the

that there inc mass been trainer quiet. Site indus-that checking records with a group from the local historical society is very interesting. Consequence of the second second second second or consequence of the second second second second rest years that the Sad been in failing iterative in a year but that the Sad been in failing iterative and the second second second second second was the graduation of her grandstanghter. CARGLE JANE SANDERS'S Show WACC. CARGLE JANE SANDERS'S Show WACC. Terport-Mac has made quite an extensive study of classical music since he rettred. He has also studied composers' lives, works and critical writing. They have grandly increased their record collection and only the free day, mosity for exercise, any Certuide. Sho does a great deal of volunteer work for the Historical Society, the Farm Museum. Heart Association, the church and Meals-on-Wheels.

In the last decade Western Maryland College has increased its endowment for college scholarships spiraling education costs, we must work to continue to build our endowment.

There are three ways alumni and friends of the college can support and provide scholarships for WMC students: One Gifts in cash, securities and property. Two Planned gifts through annuities and unitrusts Three Bequests by will.
For more information about "Feeding a Good Idea," call the Development Office at (301) 848-7000, ext. 250.

MIRIAM STRANGE is living with her sis ter. She has some problems with eyesight and navigation and would enjoy hearing from and navigation and would enjoy nearing from classmates: 793 A Fairview Ave., Annapolis, 21403, In my note to KATHERINE RICH-ARDS TILLMAN I mentioned having a pic-ture of her handsome grandson, who was about three years old. Now, five years later, she wrote that this dear child had to have a sne wrote that this dear child had to have a malignant growth removed from his brain in June. She said he is the bravest little fellow even though he is taking radiation and chemotherapy. He hopes to return to school in January. Pray for him. They are quite well but have their names on a retirement home near their sons.

near their sons. Harry and idd not go anywhere special World for which we thought two days were enough. MARY "Bille" BERVARD ELINE tells us that the Elines are still going strong—55 years of marriage coming up in February, three sons, inne grandchildren and a great-grandson. Billy and her husband. Ed. con-tunue to travel some. On August 3 at the Sheraton Inn in Frederick, Md., the Elines, along with MARTHA "Pat" FORLE BROCK. HART and her husband Brook, LAURA HUTCHINS JUBB, ROSELDA TODD. MAY, BELLE RINEHART BAKER, and KITTY BRYAN STONESFER helped HELEN BAKER BOYMAN and Sam celebrate their 50th wed-ding anniversny.

BOWMAN and Sam celebrate their outs wea-ding anniversary. In October AL ALBRIGHT and his wife, VELMA RICHMOND '27 ALBRIGHT enjoyed a visit with MAE MILLS LAMEERTSON in Seaford, Del. They also enjoyed their visit with ARNEM '27 and FRANCES RAUGHLEY '30 ROBERTS in nearby Rehobeth Beach. BETTY NORMAN BURNETT, now living BUMbingtion, Del. frequently continues to

In Wilmington, Del., frequently continues to see classmates BETTY DAVIS STEPHENS, ROBERTA SENTMAN BRYSON and EDITH UNCH KIERTZ as mail several LYNCH KURTZ as well as sorority sister ROBERTA ROWE SHERWOOD '29. The two ROBENTA ROWE SHERWOOD '29. The two Bettys take courses together at the Academy of Life-Long Learning in Wilmington. Last spring Betty Burnett's son and family took her on a fantastic trip to Jamaica.

ALICE FREENY GILLIS of Palm Harbor. ALICE FREENY GILLIS of Palm Harbor, Fla., regreted having to miss our 55th re-union because of some health problems. She writes, "Florida is still lovey and LeKoy and I love it." She sends her best regards to all. A short while ago, LOUISE BAUS HOP-KINS, who lives just down the street from me, called to tell me that her son, Lou, his wife

called to tell me that her son, Lou, his wile and daughter, Sara, who live in Tempe, Ariz., visited her this past July. Sara and her brother, Douglas, are both students at Ari-zona State University from which Douglas will be graduating in June. Bausie continues to be extremely happy living at Pine Bluff Vil-ter a whoth the state of the sta lage, which is a very attractive retirement complex that commands a magnificent view of the beautiful Wicomico River.

ELSIE HELD NACLERIO of West Hemp-ead, N.Y., writes: "Since our 55th reunion, stead. N.Y., writes "Since our 56th reunion, which I enjoyed so much, our routine has been much the same as in the past—a sum-mer vacation in Maine, visits to family and friends, outings for bird watching and further explorations of our Long Island area." In the fall Elsie and her husband, Tom, toured the Blue Ricge Parkway to the Great Smoky Na-tional Park. The Naclerios hope to go to Charleston and Savannah in 1984 to sayor the Old South's charm, particularly the archi-tecture, which is one of Tom's interests. LEOTA KOLB HOWES has long wanted to visit both Europe and Hawaii again but

visit both Europe and Hawaii again but thinks it unwise to travel alone that far; but dinus it dinuse to tave able that far, but she does expect to go to Florida again. Leota writes, "I shall continue to see the world through books. Addicted to reading since childhood, I confess to be incurable." From Walkersville, Md., Leota sends regards to those present and not present at our 55th.

MABLE BARNES WILKINSON just met my October 22 deadline by calling me from Ocean City where she was spending the weekend. Mable continues to be showered with honors. She received the Prince George's County citation as Outstanding Senior Citi-zen for 1983. Also in 1983, the Cancer Society of Maryland awarded her a pin for 30 years of service. A third honor was bestowed years of service. A third nonor was bestowed when Mabel was chosen to fill out the unex-pired term (from August 1982 to January 1983) of a member of the Maryland House of Delegates from Prince George's County. This was the first time that three members of one family-Mabel, her husband, Perry, and son Perry, Jr -- had served in the Maryland House of Delegates.

Everyone will be glad to establish contact once more with MARGARET WILSON GIBBS. once more with MARCARET WILSON GIBBS, whose address for some stringer reason, was always reported as "unknown." Margaret with the second string of the second string and sounds. We moved here about four years ago after Ferry retired from the indisity. Our two children an ethy as they can. Ferry recently baptised our first great grandson." As Margaret indicated that it would be nice to hear from some WWC friends, here is her ad-dress: Mrs. Ferry L. Gibbs. P.O. Box 5229. Burlington, NC 27215. In October JOHN REINECKE wrote from Florida. "I enjoyed secing so many of our classmates at he renunor. We're just re-turned from a tip our through the Berkshires

classmates at the reunion. We've just re-turned from a trip up through the Berkshires and the Green Mountains. We drove up as far as Stowe, Vt.; the colors were spectacular. We stayed at little old inns that were built in the 1800s. A delightful trip!

stayed at little old imms that were built in the stayed. Ad elightful trip!" stayed. Ad elightful trip! MRTHA "Fat" ENGLE BROOKHART's furtheresting account of a trip to China and Japan Just made the deadline. She writes, "Brook and I returned from a three-week trip to Japan and China yesterday. We spent five try to Japan and China yesterday. We spent five try to Japan and China yesterday. We spent five try to Japan and China yesterday. We spent five try to Japan and China yesterday. We spent five try to Japan and China yesterday. We spent five try to Japan and China yesterday. We spent five the spent of the source of the

will be a powerful nation." Our sincere sympathy gees to OWINGS STONE, whose wife Margaret Simpson Stone died on February 23, 1983. Margaret was a graduate of the Maryland State Normal School in Towson and had taught at Emmits-burg and Frederick, Md. The Stones, whose home is Barrington, R.I., were married in 1931.

From GLADYS HAMM's sister we learned that Gladys died very suddenly on May 10, 1983, just a few days before our 55th re-union. We extend our sincere sympathy to members of her family.

I'm sure you will remember the interest-ing news of DON PHILIPS, Sr., which has appeared from time to time in our class notes, so it was with a sense of shock that I received the following communication from DON Sr., died on Septem The RF. Don Philips, Sr., died on Septem The RF. Southern New Jersey Conference of the United Methodss Church. He was years ahead of his time in Jersey Conference of the United Methodist Church. He was years ahead of his time in wedding the worn, evangelical heart with a dynamic, fearless social conscience. He and his wife Gwladys both donated their bodies to medical science which has encouraged many others of us to do the same. HENRY "Reds" PHILLIPS '27 and his wife, Louise, attended the memorial iribute at Matawan, N.J., in the church that Don built." To the entire Phillips family goes our deepest sympathy.

I received a somewhat belated notice of the death of a former member of our class, GEORGE S. BENNETT, who died on July 16, 1982, in Frederick, Md. His wife had died about three months earlier.

In June 1983, I organized and conducted a four-day trip to Boston and vicinity. The fol-lowing WMC alumni were members of my lowing WMC alumni were members of my tour group: DOROTHY HOLLIDAY GRAHAM '30, HELEN DENNIS HANCOCK '29, and VIRGINIA HOLLAND NICOLL '29. We en-VIRGINIA HOLLAND NICOLL '29. We enjoyed sight seeing in Boston and Cambridge, and an all-day trip up the coast of Massachusetis, New Hampshire and Maine. A high light for me was the opportunity to see at Rye light. For mer was the opportunity to see at Rye and in NH, two friends from Tchran days and in NH, two friends from Tchran days and in NH, two friends from Tchran days and in NH, two friends from the NH and the NH and

some islands in the Pacific in November. In order not to miss an interesting trip called "The Burma Road," I postponed the New Guinea trip and a few days after I malled the copy for this *HIII* i started on a five-week jount the lincluded sixteen days in China, six days have a more and a week in Thailand, Although I aware the May 1896, this trip dupli-cated only the May 1896, this trip dupliwas in China in May 1960, this trip dupil-cated only three days and included a visit to Yunnan Province and other places in China's southwest, where few tourists go. A special three-day tour to the Bridge over the River Kwai and several days in Chinang Mai were highlights of my week in Thailand. The members of the class of 1928 were saddened to hear of the death of CLARENCE BENNETT on December 18. Here are dates that everyone of us should mark in big letters on our calendar. June 1, 2, 3. Reason? It's our 50th Reunion at WMC. McDaniel Hall Lounge will be set aside for most of our functions. On June 2 at 12:30 pm., we will have a luncheon at JANE TWIGG '35 and EUGANE "Stoney" WILLIS's hone. As further plans materialize, you will he informed.

I want to thank those of you who re-sponded to my request for news before Thanksgiving. I thought surely I dg to 100%, returns since this is our last column before our reunion, but only 35 of our class replied. ROSE LEE WATHEN is still working at

the Veteran's Hospital at Perry Point. On the side she enjoys playing golf, but "not too

HAZEL HORCHLER BEEVER writes.

HAZEL HORCHLER BEEVER writes. "I keep busy with activities that I enjoy-travel, volunteer work, my family, and my home." HOWARD RATHBUN reports. "I retired in 1979 after 40 years at Baltimore City Hos-pitals amid flattering Appolonian ceremonies and Dionysian revels." Howard is now emeritus associate professor of internal medicine

tus associate professor of internal medicine and laboratory medicine at the Hopkins Medi-cal School and holds similiar positions and titles at Battimore City Hoppitals. WILLIAM "BIII" STEWART's card came from Spokane, Wash. He says that it has been a quiet year for him and adds, "Seems the olicited energy is made and they are." Bill bettered energy is made and they are they are." is now monalighting in the same works as be-fore her tritered. He also seems to be entomore is now moonlighting in the same work as be-fore her erticed. He also seems to be enjoying life in the West, having recently returned from a salmon lishing trip where he took third prize with a 20 lb. beauty. Bill's two sons live in Sextle, and he and his wife make frequent trips to see them and their families. ELIZABETH HUMPHREYS MAHONEY Reports, "All is well with me. I read, grand-mother, and gad about a bit." "Looking for-ward to our reunion." Hump says, "It will be

both interesting and fun to see what 50 years has wrought and brought. Hope we will all recognize each other."

SARA FADELEY STEVENS and her husband, Ben, are also looking forward to our 50th, and they are most anxious to see every-body. In August, they will celebrate their body. In August, uney will celebrate their 50th welding anniversary: Congravitations to both This past summer Saily and Ben traveled over 5000 miles in their new Volks Campmobile-from Venice, Fla., where they live, to Maryland, West Virginia, Michigan, northern Wisconsin, and ended their trip with a month's stay, in Hendersowella. with a month's stay in Hendersonville, N.C. They were vacationing from July to September!

Septemberi Well, well, well We have a brand new bridegroom among our classmates. MAURICE FLEMING got married on October 29 to Ann Parker Bennett, a graduate of Salisbury State College with B.S. and M.Ed. degrees. Before their marriage. Ann was employed in the human services. We welcome Ann into our class. Maurice, we will have the rice ready at the reunion!

ELIZABETH LANDON is fast becoming our #1 world traveler. In September Libby spent a most interesting three weeks in India and Nepal. For five days she and three friends enjoyed the relaxed comfort of their house-boat at Sringgar and riding on the lake in boat at Shaaga and hang on the take in shikaroo (light tax) boats). She claims that the Taj Mahal is even more beautiful than you thought it would be. Libby also made jungle excursions on elephant back at Tiger Tops. Nepal, but the highlight of her trip was the

Nepal, but the highlight of her trip was the "flightseeting" scurvison over the roof of the world for a close-up view of Mount Everest. AL SADUSKY and his wife, Irene, travel a lot too. They winter at Fort Lauderdale and summer in Maryland. In addition, this past mean seni some time in Indiana and year they spent some time in Indiana and Ohio with relatives and friends. Along with Ohlo with relatives and friends. Along with KER RHODES and Mary, they spent a week in Puerto Rico. While there, they saw LEASE BUSSARD. Al writes, "Lease and his write, Jean, went out of their way to show us around and make our trip one to be long re-membered." In August Al was back in Penn-sylvania for a get-together with all the coustins for a big time at Lakewood Park on Lithmanian Day. And in September they at the spanish Main in Ocean Ciner meter, he says, he renewed friendhilps and remi-niseed about good times on the Hill. "I saw friends I hadri seen since leaving achor." RUTH GILLELAN ELDERDICE and

LLOYD '33 are again back in Florida for the winter. Their Thanksgiving was spent with their son and family there. Christmas they spent with their daughter and her family in Maryland. Then back to Florida again and a return in June for our reunion. Our class surely has a lot of winter/summer

Florida commuters! ELSE KALB CHAPIN and Mott have returned to Longboat Key, where they are busily engaged in making pottery. During Thanksgiving they went to M ico. They too will be on hand for our Ju

volunteer work at the Springfield Hospital Center. He and Mary flew to Florida in May, rented a car, and toured the state. Recently they returned from a trip to Nova Scotla, Prince Edward Island and New Breton. The

Prince Edward Island and New Breton. The Sweadners have four grandchildren, the new-est being born this past Palm Sunday. FRED FOWBLE replies that he doesn't have any additional info to write about, but he says he certainly does appreciate reading the tidbits from those he knew at WMC. He too, is looking forward to our big June reunion

LOUIS NEEDY GOSHORN enjoys living in LOUIS NEEDY GOSHORN enjoys living in Pinehurst, N.C., where she keeps busy serv-ing on the Library Board and the Community Relations board of their local hospital. John and Louise have four children and eight grandchildren, Louise writes, "Since the area known for its many golf courses, we man-ge to play as frequently as we can." HELEN WHITCRAFT DIXON and her age t

husband moved in September from Manches ter, Md., to the Carroll Lutheran Village located near Westminster, off the New Wind r Rd. She is hoping to see everyone of us in June. ADA BEALL POOLE reports she has no

news-"everything is the same with me, but adds, "I do hope to attend the 50th."

"My interests are many and diverse. There is still so much to learn and to see. Travel gives me real pleasure (before, during, and after). I am truly blessed with a loving family, good friends, health, and few worries," writes MARY PARKS SPRAGUE.

PAUL "Buddy" MYERS brings us up to date on himself since he left the Hill. He first went to work for International Harvester in Baltimore. Then in 1941 he was called to active duty, serving stateside at Camp Lee, Va., and later overseas on the island of Thian in the Pacific. He returned home in 1945 and had been with the Monumental Life Insur-ance Co. until he retired. Buddy has been widowed since 1974.

DOROTHY HULL SCHUCHARDT says LOROTHY HULL SCHUCHARDT says that after five years of globertotting as a single, she and Jim are confining their travels to the USA. In the savimeer they live inter-tings that the savimeer they live inter-tings that from. they disk limitly and the traps to and from. they disk limitly and the traps to and from. they disk limitly and "Everytaxy." Dot says, "we manage to bike 10-15 miles and swim in the Atlantic or the Guilt, sail, dance, etc." They are also active in church, music, theatricals and community

church, music. theatricals and community affarcterisment from the Army in 1962. EUCENR "Stoney" WILLS became director of the physical plant at WMC. In 1975, here retired from that position and next served as sioners of Carroll Co. for over five years, resigning in 1983. Stoney says that he hopes to stay retired, certainly through June 3 while he works with class officers and men-activities for our get-together. As you know Stoney and his wife, Jane, are looking for-ward to having classmates and guests at the luncheon at their home. They plan to have the luncheon at their home. They plan to have the luncheon at professor and Mars. Burt will ac-ted by N° Car", Pofessor and Mars. Burt will ac-ted in Longenson and any Einsteinding Bobby, 11, David 7, and Any Einste

tend the luncheon as well as all our other class gatherings. WILLIAM "BIII" WRIGHT says. "Rettre-ment life has fallen into a beautifui routine". from May-November at Lake Tahoe: from November-March. In the trailer in Yuma, Ariz., with side trips into Mexico. April is spent at Lake Havasa, Ariz., or traveling through California to visit his wife's family. Wherever he and Mary 60, Bill says. "Life consists of hiking, biking, golfing, fishing, and bios of socializing."

Consists of making, brang, goinng, risning, and lots of socializing." KEN RHODES reports this has been a life of trips for him and Mary. Along with Al Sa-dusky and irene, they visited San Juan, Puerto Rico, during Easter week. Also Ken and Mary Rico, during Easter week. Also Ken and Mary took a two-week cruise on the *Rotterdam*, go-ing through the Canal and ending with ten days in L.A. and San Francisco. They later took a 20-day trip through the British Isles. Scotland, and Wales. "A two week cruise to the Caribbean on the Volendam hasn't helped me keep my weight down," he asya. The little spars time that is left Ken devotes to chairing the Hollywood-Rivera Scholarship Committee, which raised \$25,000.

Finally, the barrier has been broken and we have word from CARL EVERLY, who writes, "After nearly a half century it is time to break the silence." Carl says that after To break the attence." Card says that after graduation from WMC, he obtained a position as chemistry and physics teacher at Oukland High School in Garrett Co. He remained there until the summer of 1942 when he entered the Armed Forces for a four-year tour of duty with the Corps of Engineers. After discharge, he returned to his former teaching assign-ment. Two years later, upon the consolida-tion of the local school system, became an until July 1976, when, because of serious ill-nees in the family. he returned from education ness in the family, he retired from education. After the death of his wife, two years ago, Carl managed to do some traveling, mostly along the East Coast, West Virginia and Ohio. Last winter he spent several weeks in sunny Cali fornia. Most of his leisure time is spent in his tornia. Most of his leisure time is spent in his woodworking shop, constructing and refin-ishing various projects. Carl is looking for-ward to our 50th and plans to be on hand. He adds, "The welcome mat is always out at Mountain Lake Park (219 D St.) to any WMC alumni who may be passing through, or who may be spending some time in what has been termed 'Maryland's Best Kept Secret.' ''

Once again the schedule for reporting alumnin news has changed. Each class will now have a column once a year. Ours will be in February with a copy deadline in early December. So save up your news and send it when you hear from me in the fall of each year. year.

year. WMC has received word of the death of ROBERT LEISINGER M.Ed. in Sept. 1983. He had retired in 1981 as a driver education teacher at Milford Mill H.S. BEA ACKERMAN SHERRILL is working BEA MARKERMAN SHERRILL is working

BEA ACKERMAN SHERRILL is working one day a week in a quilt shop in Bel Air, while her husband, Richard, teaches social studies at C. Milton High. Rence, 17, is looking at col-leges; she wants to be a physical therapist. Bonnie, 15, and Heather, 12, are busy with

school and extracurricular activities. Through genealogical research in West-minster and WMC, BETH BUTLER DENTON is finding that she has a lot of roots in Carroll Co. Beth, Fred, Kerry and Lori, ages 8 and 4, took a trip to Europe this past summer. In

England they rented a canal boat for 200 miles and 100 locks in two weeks and then headed for the Inner and Outer Hebrides for

ANN WELLER NORVELL writes that Bill. 21. is in the Navy stationed in Norfolk, Va., on the USS Nashville. Both Jim, 19, and Sue, 18, are students at Mount St. Mary's College

18. are students at Mount St. Mary's College in Emmitsburg. Ann teaches 6th grade at Sylesville Middle School, and J.D. is in county jaanning and zoning. In addition to teaching at Colorado Col-lege, MIKE BIRD is serving in the Colorado House of Representatives. He is on the Finance and Appropriations committees. Chris is in his first year at Colorado State U., and Andrea is in the first year of high school. She was a tennis doubles player in Colorado Isateyrearies was No. 1 ranked in the 16 at year und der girls. The WALKLING family has two sports

minded adolescents: Sarah in cross country and Richard in soccer. CAROLYN POWELL WALKLING still teaches educable mentally retarded children while Doug is at McNeil Labs. They "fly off" when they can-in 1982 to the Virgin Islands and Switzerland, and in

1983 to ride mules in Bryce Canyon. Weddings were the 1982 feature for NANCY ANTHONY SCHMIDT's twins. Jennifer and Terri were married within 5 months of each other. Nancy says that her two partof each other. Nancy says that her two part-time jobs of substitute teaching and book-keeping in her husband's office add up to more than one full-time job. Summer 1983 found them in San Diego, Calif., for a month. JAN ALEXANDER KLEIN is director of York Alcohol and Drug Services in York, Pa. Her husband is LANCE '63, and children are Chris, 13, and Jessica, 9 When ANN PHERIGO WHEELER wrote

her card from Bristol, Vt., on Oct. 29, it was snowing. (It's hard for a northern transplant like me to remember snow!) Ann enjoys her Job at Middlebury H.S. Her girls' ensemble re-cently performed for the Vermont Music Educators Association, and in February, Ann will go to Baltimore for the American Choral

Directors Assn. Convention. From Hawaii, JERRY BLUEHDORN writes that he has a sweeping view of Hono-lulu from his 30th floor condo on the slopes of Punchbowl. He is single and is the deputy director of data processing at the intelligence center Pacific. Still enjoys scuba diving, ten-

center Pacific. Still enjoys scuba diving, ten-nis, jogging and just taking in the sun. In 1977 BARBARA HOLLAND became Barbara WiLSON. She is chairman of the reading dept. at Delaware Tech/Community College. Her husband is chairman of the human services dept, there. They recently moved into an 'old' home in Salisbury and enjoy adding collectibles and antiques to it. Their daughter, Beth, is a sophomore in high

ville High. Ron, DOTTY HOLLAND and Ron, Jr., MONARK have adjusted to the conservative mid-west, having moved to Cincinnati sev-eral years ago from Clearwater, Fia. Ron, Jr., is busy with college applications, while Dotty

is working on her master's degree in com by working on her master's degree in com-puter education-very leisurely so it won't interfere with family activities, travel and tennis! In June they sailed around St. Lucia and St.

d St. Vincents on their 46-foot Morgan. MARY STEIN is the vice president for stu-ent services at Mount St. Mary's College in Emmitsburg. She has been there since 1976, starting as associate dean of students and becoming dean of students in 1978. She has

becoming dear of students in 1978. She has held her present position since June 1982. JIM MATOUSEK continues to work as Employee Relations Superintendent at Remington Arms Co.-Sporting Firearms Manufacturing, in Mohawk, N.Y. Their oldest son, Jim. is a student at the U. of Tennessee, is married, and on October 1, 1983, became the father of Jim, the Fourth. Robby is in high school, and the Matouseks look forwa another winter of snowmobiling and cross country skiing

WALT MAHAN and family recently moved back to the D.C. area and a close group of WMC friends. TONY and RHEA IRE-LAND WILES helped them find a house, and JOANNE MOFFATT '62 and KEN GILL kept their son Jay so he could attend South Lak H.S. while their house was completed. Mark is a sophomore at Geneva College searching for a major

SYLVAN DOGOLOFF M.Ed., retired June 30, 1983, as assistant director of institutional research at Community College of Baltimore; however, he is assisting them two days a

CHARLIE MITCHELL has a new position CHARLIE MITCHELL has a new position with AT&T as public relations director for regional public relations. He is also respon-sible for AT&T's Olympic sponsorship of the 1984 Los Angleis Games. His organization will organize and manage the 1984 Olympic will organize and manage the 1994 Oympic Torch Relay which will reach all 50 states. BONNIE WURDEMANN '62 continues her responsibilities at home. Laura will graduate in the spring from Wake Forest. Lindsey, 16, has appeared in several national TV commercials and is auditioning for Broadway. Mike, 12, is an athlete and plays football for the town team. The Mitchells have a new home in Berkeley Heights, N.J.

From Belgium (Antwerp area), GEORGE VARGA writes that he still works for General VAROA writes that he still works for General Electric as managing director-structured products-Europe. His son, George. is a high school junior, and Judy still paints. The Vargas traveled to WMC in Nov. 1982, when George was inducted into the WMC Sports Hall of Fame. JUDY KERR is program coordinator for Faith United Methodist Church in Fargo, N.D., and has the opportunity to preach sev-eral times a year. She has taught effective-ness training and has been a member of

N.D., and mas the opposition, year. She has taught effective-ness training and has been a member of Bread for the World. Armosely International systems for the taught of the system of the system volves in the Upper Room's Academy for Spattual Formation which meets five skys-tic approach to life-body, mind and spirit. Her husband, Wally Steer, continues to enjoy teaching muth at Monthead State. Us and bird-Green and MERNETTE FOUR LEFEW are back in Florida. Chuck retired from the Army in dan. 1983, and is manager of secu-ly services at Rennedy Space Center for EdGeG. Doug is a freshman at Texas Chris-tian and the sorking and enjoying the anabline.

WILLIAM W. WOLF M.Ed., has retired from the Florida Education System and is employed in Japan teaching in the Depart-ment of Defense schools.

ment of Defense schools. From the community of Link, Term., SUE GARRETSON DANIEL writes that they have built an old-fashioned (Victorian) brand new farmhouse. Doug, 16, is a math/science whiz and also competes in the various Dressage (horse) competitions. Jenny, 13, wins blue riboban is instalum jumping and cross coun-try on her quarter horse, Blas. Tommy, 9, is abad. Up dref and likes soccer. Sue's hus-and, up dref and likes soccer. Sue's hus-curity disability caseleader RAPHBAP HOECT Environment and HOECT Environment.

BARBARA HORST FRINGER writes that BARBARA HORST FRINCER writes that she is teaching and that JACK 60 is enjoying his position at the World Bank. JULIE '64 will graduate from WMC this spring and is en-gaged. She is awaiting her Army assignment. Craig is a sophomere at Salisbury as a com-munications major. Scott is in high school with interests in soccer and marching band and barely time for academics.

and barrely time for academics. Hooray for LORENA STONE! She just passed her orals and will graduate in May 1984, with a Ph.D. In English education. Then she will be job hunting once again. Then she will be job hunting once again. With majors in mathrophung State College ence. Lorée spent her junior year of high school in Switzerland as an exchange student and is now at McDonogh H.S. taking four classes and also attending the community college at night. She will be off to college in the table of the NNY'S MNTU STURE STURENT of the Switzerland and an ANY'S MNTU STURENT of the student of the student and is now at McDonogh H.S. taking four college at night. She will be off to college in the student of the student and the student of the student of the student of the student and the student of the student of the student of the student and the student of the student of the student of the student and the student of the student of the student of the student and the student of the student of the student of the student and the student of the student of the student of the student and the student of the student of the student of the student and the student of the student of the student of the student and the student of the student of the student of the student of the student and the student of the student and the student of the stu

AL and NANCY SMITH STEWART are AL and NANCY SMITH STEWART are still living in N. Springfield, Va., where Nancy is with Fatriax County schools and Al is in the Army, working in D.C. Alan, Jr., is a co-op student at Va. Tech with an engineering job at FL Belvoir when not at Tech. He will grad-uate in June 1985, with an aerospace engi-neering degree. Bob is a sophomore business administration student at George Ma Univ. Brett is a freshman in high school. Mason

TONY WILES has his own consulting firm in Reston, Va., doing land planning. RHEA IRELAND is selling real estate. If you are moving into the area, call her for assistance. Kevin is a freshman at George Mason Univ.

and is a baseball player. Kelly is a high school sophomore and son, Jamie, is in 8th grade. SUSAN SINGER GRAHAM writes that Gina has been accepted at WMC for the fall 1984 semester. Sandra will graduate from St. Mary's College in May.

1984 semester: Sandra will graduate roots or Mary's College in May. Thope you saw the December McCall's magazine. The cookle project on the cover was done by JOANDE LAMB HAYES, She also designed three other cookle projects for the same issue. On Nov. 14, 1983, Joanne state of the same issue. On Nov. 14, 1983, Joanne to the faculty of the City University graduate Centee, starting in Expl. 1983, of the High School of Music and Ari, one of New York's specialized high schools. Claire will graduate from elementary school this spring. Tom and Joanne special August in Europe. Joanne did "research" in every bakery in southern Austria!

Class of 1965—60th remains. L in r, front row: Anne Berjamin Drenning, Janice Mooney Hoham, Janet Walker Gray, Becky Wright, Helen Offult Humphreg, Pris Ord, Barbara Earhart Shewinin. Dagmar Joeres Miller, Grager Rummery Ward. Sciend Tous, San Cosse, Marty Wirt Dasis seated: Sue Deluca Davers, Mardia Housey Billsernan, Mungara Joeres Miller, Grager Rummery Ward. Sciend Tous, San Casse, Marty Wirt Dasis seated: Sue Creamer, Judy Bethahrt Lanz. Third row: Allen Jones, Bert Fann, Judy Callahan Kitzberg, Belivaid Tous, San Casse, Marty Wirt Dasis seated: Sue Join Waga Hoe Warfield, Jill Pedolam Forter, King Smith, Alex Ord, Martha Barty, Jacob Statis, Jacob Statis, Jacob Statis, Les Algerstein, Join Waga Hoe Warfield, Jill Pedolam Forter, King Smith, Alex Ord, San Martha Barty, Jacob Statis, Les Algerstein, San Waga Hoe Dave Drobbs, Dave Humphrey, Harris Peldman, Ruj, Jacob Statis, Gery Richman, Land, Statis Deshedis, Eric Buckner, Bill MacDonald, Bruce Drenning, Len Biser, Dave Selfkoustz, Dick Yobs, Bob Manthey, Not pictured: Charles Walter.

GENEVA "Nicki" MORRIS CARLSTEN is serving her third year as president of the League of Women Voters. She also has a partjob as a test administrator for the o time of personal and management of the U.S. Government. The girls are in 10th grade, and Rolf is with the Social Security Administration in Enid, Ok.

CHARLEY REISENWEBER continues to CHARLEY RESISTIVEEER's continues to show his paintings and all skercen prints. In fall 1982, he participated in the Alumni Art Show at WMC. Exhibits in 1983 included the Tuttle Memorial Gallery, McDonogh School; That Frame Place in Baltimore; and South Charles St. Gallery, Baltimore.

College ties can ne'er be broken, but it's amazing how they can parallel each other. From our separate corners of the world, BAR-BARA "Bobbi" HASTINGS JUNG and I found we both took the CPA exam in May 1983; passed 3 of 4 parts; took the auditing part in Nov. 1983; and now are awaiting the fateful day carly in February when we find out if we have to try again in May 1984. But there the similarity ends. Bobbi will

be changing jobs because the plant where she has been a cost accountant is shutting down. Because of the demands of classwork, the only hobbies she has managed have been reading and needlework. Dana is a junior at reading and needlework. Dana is a junior at Gettysburg College majoring in economics. Scott is a senior in high school probably go-ing into computer science. Paul is with the EPA working with pesticides. The Jungs live in Bowie in Bowie.

in Bowie. I am working part time in accounting and bookkeeping. in June 1983, Roland was named manager at Eastern Associated Ter-minals, a phosphate shipping terminal here in Tampa. Whenever we can sneak a few moments of leisure time, we like to spend it suiling.

Mrs. Roland Halll (Jane Ernsberger) 8735 Hyaleah Road Tampa, Fla., 33617

1964

After a long hiatus from column writing (since our 15th reunion), I sent out postcards to all our classmates and then waited for the news to arrive. It was like Christmas in July as the postcards came in. I sent out 160 post-cards and received back 32. Not a good per-centage, but a start. Thanks to you classmates who took the time to write. The rest of youthis column and our upcoming 20th reunion might inspire you to share yourselves with the rest of us.

The near-20 years away from WMC have been filled with a variety of experiences for members of the class of '64. Now we are 40 and into the prime of our lives—and doing from these. great things! BILL CHASE wrote from Summerland

BILL CHASE wrote from Summeriand Key, Fia, where he fashes for lobster and crabs on his own boat in the Keys. His oldest son works with him, his young armerica, and his lobcar old daughter works on the boat as a low of daughter works on the boat as a low of daughter works on the boat as a low of daughter works on the boat as a low of the low of general, practicing general and perpheral vascular surgery. He writes that with his son, John Jr., 14, and daughter, Robin, 13, he is active in tennis, running and music.

John Ar., 14, and daughter, Rohn. 13, he is a active in tennis, running and masic. Several of our classmates are residing in the Atlanta, Ga, area, STAN SUNDERLAND and family (wife Nancy, son Trey and daugh-ter Kattel moved into a new home on Lake Lanter, near Atlanta. They are busy with water sports and learned to windsu'f last summer. Stan is also busy with a solo law practice. They see WILL and LINDA TRUITT WRIGHTSON frequently and toured London and Paris together in July. Linda received her B.Mas, in December 1981 from Mercer Uni-versity/Atlanta and currently is on the music B.Mus. in December 1961 from Mercer Uni-versity/Altanta and currently is on the music staff at First Methodist Church in Tucker, where they ive. Music was always Linda's strength. Will is still with Container Corpora-tion of America and with the Army Reserves -he's now a Lt. Colonell Their daughter Kristi is into dance and Kam keeps busy with the high school marching band. Another busy person is LOIS CHILCOAT MESZAROS, Lois works full time with the state of Maryand as assistant director of MRDDA. In addition, she has a private prac-tice in psychology and works part time for

MRDDA. In addition, she has a private prac-tice in psychology and works part time for Psychological Sciences institute. When Lols calls herself a workaholic she's not kidding! Her daughter, Shari, 17, graduated from Loch Raven Sr. High School and is now at Notre Dame University: her husband, Siteve, is doing real estate development in Ocean

City. SUSAN GORDON is another whirlwind. She's currently living in Los Angeles, Calif.

Sue lived in rural Costa Rica from 1973-79 teaching English at the University of Costa Rica's rural branch, then returned to the U.S. to attend UCLA, where she received an M.A. to attend UCLA, where she received an M.A. in folklore and mythology. Currently she is completing her Ph.D. with only her disserta-tion left to write. She spent the summer in Costa Rica and Nicaragua gathering data for it. She should be back in Los Angeles writing by now. Her dissertation will deal with the traditional narratives and narrators of the area. Quite interesting Sue ran into PRIS-CILA ORD '53 at the meeting of the Arneet CILLA ORD '63 at the meeting of the Ameri-can Folklore Society and now they see each other annually. She would like some informa-tion about Dr. Hendren if anyone has any. Write to her at 1721 Armacost Ave., #2, Los Angeles CA 90025

Other globe trotters include STU DEAR-ING and his wife, Emilie. Though they are based in Pairfax, Va., they spent last spring in the Philippines conducting seminars in crisis intervention and curriculum development, respectively. They didn't spend all their time working, however, for they climbed the rice working, however, for they elimbed the rice terraces, visited with flago natives, toured the President's palace and participated in a local town flesta. They both enjoyed the friendly people and delicious food in addition to "those sunsets on the beach." Fantastici NELSON SHEELEY spends half his time in Bolting Springs, Pa., and half in New York City. In Pennsylvania, Nelson is currently in the survently searn as mananified director of

his seventh season as managing director of the Allenberry Playhouse. For the last four winters he's directed operas in NYC with the Bel Canto Opera Company (two of which he translated). Allenberry's only 6 miles from Carlisle. Nelson invites everyone who comes through to visit him. TOM BOWMAN is also in Pennsylv

TOM BOWMAN is also in rennsylvania-in Hershey, where he is controller of the Her-shey Chocolate Co. (a sweet job)). His son, Tom Jr., is in his second year at Penn State,

and David is a sophomore in high school. Still living near Westminster and active in Still living near Westminster and active in the community is TRUDY HAIN SNADER. She and her husband, Rich, are 'enjoying the good life' on their farm in hew Windsor with their some, PH, 17, and Joey, 14. Trudy serves between the women's civit listorical minister, is PTA vice president, and still fluids time to enjoy all the boys activities. ried 16 years to his wife, Toby, and has four children: Jason; John; Jill; and Jamie. Another of our classmates practicing medi-cine in Florida is GEORGE "Bud" KNEFELY. He and his family (wife Cappy, son Mac, 9, and daughter Alison, 5) live in Pensacola. Bud's in internal medicine and is currently chief of internal medicine, PEP (a post gradu ate training program). Cappy is active in the Board for Episcopal Day School and in the Medical Auxiliary. Mac enjoys soccer and Ali, ballet

ballet: HELEN HOLMES and ROY '63 TERRY also reside in the Sunshine State. They live in Naples. Jour Jours south of Dinney World, High School, where it's a real family affat for the Terrys. Helen is secretary to a vice prin-cipal, Roy is head of the FE department and a cach, young Roy, 17, is a student and ath-let and Kathy 14, is a new 9th grade chees-leader. Helen is a scherel raber sponsor on top good lessons from their parents. Remember when Helen was leading cheers as Roy was running up the score on the football field? PHYLLIS BACH SMTH Is now living in York, NY, about 30 miles southers of Rochester. Affen having laught American his-munity College and a course for the New York State Education Department out of the SLWY College of Technology, she is now at the Uni-versity of Rochester as a stati member. He. Another tencher is HOWARD MOONEY: HELEN HOLMES and ROY '63 TERRY

Another teacher is HOWARD MOONEY, who is the department co-chair and athletic director at Milford Mill High School in Baltidirector at Millord Mill High School in Bait-more County. He coaches football and wres-tling there. As a reserve officer, Howard is chief of plans and operations, 97th ARCOM. He attended the Army War College last sum-mer. Howard and his family live in Ellicott City, His wife, Jane, has returned to school to City. His wife, Jane, has returned to schedule study computer systems management. Chil-dren Lauren, 9, Brian, 7, and Andrea, 4, keep them busy with gymnastics, swimming and other sports programs. They frequently see the WILLIS, BROADBENT, and QUINBY families

The Class of '64 turned out a number of hysicians, some of whom have already been mentioned. BARRY LAZARUS lives in West phys Inemodel: BARKI LEARKOS INVES IN VESS Hartford, Conn., and practices urology there. Barry and family (wife Fran, children Jeff, 14, and Kate, 11) have many other interests, though. They love to ski in Vermont, where they have a ski house. Tennis and jogging are two other family pursuits. Barry has run four

marathons. In addition to all that, Barry hopes to complete his master's degree in his-tory at Trinity College by May 1984. Talk out a busy man! DIANE SIMPSON KRELL writes from the

beautiful Pacific Northwest-Beaver Creek, Ore., to be exact. She has lived out there for Ore., to be exact. She has need out unter the the past four years and is learning about com-puters and word processing at her job with a photo saw manufacturer. Her daughter, chain saw manufacturer. Her daughter Chris, is in the 5th grade and enjoys gymnas

Chris, is in the 5th grade and enjoya gymnas-tics, awimming, piano and mowing the lawn. They plan to move back to Maryland when-ever houses decide to sell again. SANDY RIGGIN is in Salisbury, where ahe works as Eastern Shore Division Director for the American Heart Association. She Jogs three miles a day for exercise, and thinks as may be the only classmate who is still single (not swingin', as she says). JANET BROZIK BLES also still lives in Maryland, in Upperco. She still ovris as a programmer for Balti-BLES also still lives in Maryland, in Upperco. She still works as a programmer for Balti-more Gas and Electric in commercial busi-ness applications. She and her family have been busy with building projects on their home in NW Baltimore County, only 14 miles from Westminster. Both her children 4 miles from Westminster. Both her children 4 miles middle school and play in the band. They all enjoy their built-in swimming pool and trips to the ocean to visit TERRY and LYNDA ROB-SON ASTLE

JOHN "Jerry" MORSE spared no words when he wrote his postcard. "Married. At-torney. Practice law in Ellicott City, Md. Two vs, Scott and Adam, ages 10 and 8." EARL ARMIGER and his wife Mary are boys,

each in the development business. Earl is a land developer based in the Columbia/Howard County area. Mary is also with a development County area, mary is also with a development company. Their three children (two girls, one boy), who are rapidly approaching adulthood, are a constant source of pride and pleasure to the Armigers. Earl writes that he hopes to see many classmates at the 20th reuni

SHIRLEY STAUFFER SHARP lives in the Schutzer Staueren of the social science department at Nazareth College of Rochester. Her husband has a truck dealership. Their daughter, Mitty, (+1)

is 11. While many of us have grown or semi-grown children and many of us women have returned to careers outside the home. MARY accently A RICE is doing the opposite. She how the second child, now already the institute to become a full-time matcher action institute to become a full-time matcher action institute to become a full-time matcher action for 18-12 years at DHEW (now DHES) doing cancer research. Her husband is world recog-nized in transplacential carcinogenesis. Mary nized in transplacental carcinogenesis. Mary informed me that she is very happy in her new "career." She and her family live in Chase, Md.

KAY GOCHENOUR is still living in Dept KAY GOCHENOUR is still living im Dept-ford, N.J., and teaching high school English at Deptford Township High School. Kay is sponsoring the yearbook again after a five-year vacation from it. Her new hobby is golf. She writes that she took it up tow years ago and when it. It's a good substitute for travel-ant was a straight to be one of the two New Jensey WMC reunions and enjoyed seeing old friends and meeting new ones.

WMC retunions and enjoyed seeing old friends and meeting new ones. CAROL DAVIS BLANKNER's postcard was of uld offinormation I had to read around the edges to get all the news. She and her family have lived in Maryville. Term., for the past three years after having spent the year more had before that in Washington state. New of the the second state of the second going to be the best Her life has been a BETY-90-round trying in knewn an with all the going to be the Desti Her line has been a merry-goround trying to keep up with all the activities that are part of raising a family and "running the tax" for daughters Sherrod, 14, Abby, 11, and Joanna, 7. Carol has been a Girl Scout leader, volunteered with Welcome Wagon, and recently took a job as an aide in the kindeersteen as the second second second second Giri scoul teader, vonumerere with vertexase Wagon, and recently took a job as an aide in the kindergarten class at one of the elemen-tary schools. She really enjoys feeling profes-sional after 15 years. Her only regret is hav-ing to give up aerobic dance. Her husband, Leonard, is with TVA and is big into garden-ing, organ lessons and wood stoves. I'm tired just writing about all the activity this family is turoubed with. is involved with

is involved with. DAVID TAVLOR writes from Bordentown, N.J., that he is now working as a budget anal-ysif or the New Jersey Division of Taxation; he spends his extra hours working the law enforcement field. Other sparse-time hours are spent in historic preservation work for local groups. Dave has not been active in the MICHAEL JANNEY, who left WMC after MICHAEL JANNEY, who left WMC after

MICHAEL JANNEY, who left WMC after his freshman year, sent the following update: changed major and graduated in 1964 from George Washington Univ. with a BA in politi-cal science. Received a master's in education for Pepperdue University in California in California in California in California in in hospital administration, and pince working in hospital administration, and pince working estate investments. He's martied to the former Grace Whitehead from Rhode Island. estate investments. He's married to the former Grace Whitehead from Rhode Island. They have two adopted Korean children, ages 9 and 6, and live in Fort Worth, Tex.

I received a note from DAVID BLZZARD's ex-wife to let me know that Dave is now a Lt. Colonel in the Marine Corps and left for El Salvador in December. He's remarried to Shelia Balara and is living in Stafford, Ya. JAMES SMITH M.Ed. is retired from being a active retirement at Zellwood Coninty an active retirement at Zellwood Coninty Cubib nZellwood, Fla. Sounde delightfull CARL STRAUSBAUGH M.Ed. is teaching 8th grade Enclish at Sarting Growe here

Charl STRAUSDAUGH M.Ed. is teaching 8th grade English at Spring Grove Area Schools, Spring Grove, Pa., and is head of the English Dept. for grades 6-12. Carl and his beft Value have been abilitient Carl Alexand Wife Katle, have two children, Carl Alan and Sara Jane, who are students at Washington State and Lehigh University. A world traveler from our class is J. ALLEN MARTIN M.Ed. who is currently set-

tled in Hagerstown. He missed our gradua-tion because he and his family were on their tion because how a ne missed our gradua-tion because how a ne missed our gradua-way to Nigerta Africa, which were on their Nigerian government in the use of television in public school. From that time until 1972 he taught 10th grade schene via television over the Washington County Md., public school TV system. For the last 11 years he has been director of Washington County Planetarium, with classes for both schools and public programs. In between he studied Jo. has been director commission on Aging. Their daughters, Lyrnette Frederick and Jeannie Martin, both live in Los Angeles. Judging from this group, most of our classmates are involved in education and medicine, two vocations that occupy many

medicine, two vocations that occupy many WMC grads.

My life has been rather busy since I last saw some of you at our 15th reunion. Our family has lived in Lansing, Mich., since 1966. Currently I keep busy with a new job as executive director of the Michigan Commit-tee for the Prevention of Child Abuse, which tee for the Prevention of Child Abuse, which involves me in fund raising and other admin-istrative tasks. I spend a great deal of time as a member of the Lansing Board of Education, a position to which I was elected in 1981. Since 1978 I've been a part-time faculty member at Lansing Community College. This year I'm serving as president of Pioneer Civitian, a service club of which I'm a mem-ber. My husband BOB '83 left this position as the service of the serving as president of Pioneer Civitian, a service club of which I'm a mem-ber. My husband BOB '83 left has position as the service of the serving as president of the Analyses. Dept. of Man of Revenue and Tax Analyses. Dept. of Revenue and Revenue and Tax Analyses. Dept. Dept. of Revenue and Revenue awhile as the rest of us continue our activities in Lansing. Bob recently published a book en-titled Guide to College Basketball, A Com-puter Analysis-Midwest Edition. Our son, puter Analysis-Midueset Edition. Our son, Ted, 17, is a junior in high school and has dis-covered writing and the theater. Andrew, 14, is an eighth grader with an avid interest in golf. Amy, 9, a fourth grader, enjoys swim-ming, ballet, Girl Scouts and echool. Last September when 1 was in Baltimore for a conference, 1 ran into JetRY and FRAN SYBERT 65 BAROCH at a restaurant in the liner Harbox. Jerry and Fran were on a sail-iner Harbox. Jerry and Fran were on a sui-timet Harbox. Jerry and Fran Were and the fire-works that night on their box. We all had a

Invited my friends and me to watch the fire-works that night on their boat. We all had a nice time getting reacquainted. I'm looking forward to our 20th reunion and seeing as many classmates as can make it back. Until them-keep those postends coming. If any of you come to Michigan, please call and stop by. My number is 517(882-1995.

Mrs. Robert J. Kleine (Gall Allen) 3332 Christine Dr. Lansing, Mich. 48910

There is currently no class secretary for your class. Anyone interested in performing this service for the class may call the Alumni Office (301) 848-7000, ext. 297.

1972

After about five years of no news, it is hard to believe our class is having a second consecutive column. But here is some more inter-esting information about what our fellow

esting information about what our fellow classmates have been doing. MAROIE LEE KELBEL worked six years in Baltimore for the state Dept. of Human Resources, prior to being offered the position of administrative specialist with the state Dept. of Economic and Community Develop-ment in Annapolis. Saying she enjoys Annap-olis, Margie is involved in a local church as a

Managing Finances With Finesse

Tom Kimball has just completed his first eighteen months as the vice president of business affairs at WMC. As the chief financial officer he administers the college's purse in these tough, tight times. He has tackled the problems of inflation, conformed elimbing physical plant costs, and dealt with declining student enrollments. Some would label him a miser; but at the year's end he found the black ink to enter the bottom line to the fiscal year-end report.

Early on he made significant moves in the management of food services, computer center and physical plant operations, focusing on ways to reduce costs and increase efficiency. To improve food services, he employed a consultant to determine the cause of a high degree of student dissatisfaction identified in a 1901-82 marketing survey. The consultant's report led to the naming of the Marriott Food Corporation as the college's old service management team.

Throughout this process many students were consulted and a two-way conversation was maintained to ensure a successful solution. Already the college sees a positive change in student attitudes about food service and the staff meets regularly to share ideas.

This academic year saw the installation of new computer technology. Expanded capabilities are helping modernize administrative systems and more importantly, provide students up-to-date computer equipment. Changes are now near completion without any significant budget increases.

Tom credits the ability to effect these changes to an understanding faculty and the Marketing Task Force. "Involving these groups has helped provide information and keep the campus optimistic about the planned changes." He says.

Today colleges are stretching their dollars—serious problems face higher education generally, and small liberal arts colleges in particular.

"For now we will have to do more with less. At such a time it helps to not have any surprises and keeping everyone abreast of the situation helps us work together."

He is quick to point out the differences between business organizations and the nonprofit sector of higher education. "You find a more highly structured management in a business organization, with policies and decision-making flowing down from the top. Authority is limited to a few."

Kimball suggests that there exists a less rigid structure of management in the academic setting, one that's helpful and easily yields to change; "Participation comes from all levels." He appreciates the advantage afforded by a free exchange of ideas and often calls on this support . "In a cost containment program everyone must exercise control to make a budget work."

Commenting on what's ahead for the college Kimball forecasts that during the next decade dollars will continue to be tight and that this will require the college to manage itself differently than before.

"We need to more carefully consider priorities and look at programs adopting a zero-based attude." Cost adopting a zero-based attude." Cost allow for innovative programming as allow for innovative programming as dientified. One of the greatest challenges demands a frugal watch on auxiliary costs where the largest proportion of dollars are currently spent of that revenue is maintained at current levels for the educational program.

Despite the adverse conditions of the 1980s Kimball is not discouraged about his job at the college, but thrives on it.

"Internally Western Maryland College is very strong. A concept of total planning contributes to clear identification of fiscal priorities. There's a commitment by all personnel to be tough and meet the problems head on. We will not lose ground but should come out ahead by the end of the '80s."

Western Maryland College/Winter 1985/VOL. LXV/NO. 3

MMC. Inaugurates Chambers

Amid the splendor of academic regalia, music by Mahler and Brahms and scores of distinguished visitors, Western Maryland College inaugurated Dr. Robert Hunter Chambers III as its seventh president on Saturday November 10 in the college's new Physical Education Learning Center.

The ceremonies began with a processional of more than 300 academic professionals, impressively garbed in the dark robes and brightly colored hoods which signify the field of learning and the institution from which their degrees were conferred. Faculty members, trustees and invited speakers filled the stage, while more than 200 representatives from other colleges and universities were seated in the front rows of the audience. Hundreds more friends, Western Maryland College inductions, Students and visitors filled the auditorium.

Presiding over the event was Wilbur D. Preston, Jr., honorary chairman of the board of trustees of WMC. In his introduction of Susan Morrison, District Superintendent of the Baltimore Conference of the United Methodist Church, who gave the invocation, Preston recalled the college's many ties with the Methodist Church since WMC was founded in 1867.

Following a welcome to the assembled audience, Preston introduced Louis Goldstein, comptroller of the state of Maryland, who in 1973 was awarded an honorary doctor of laws degrees from Western Maryland, and who is chairman of the board of trustees for Washington College in Chestertown, a sister school to Western Maryland. Goldstein extended greetings from the state of Maryland and the governor and recalled approving the appropriation of matching fund grants for the new center in which the ceremony was held.

The inaugural address was given by Dr. Richard Warch, president of Lawrence University in Wisconsin, and was entitled, "Great Heavens, we ARE mad!" Warch has been president of the Wisconsin Foundation of Independent Colleges, director of the program for the National Humanities Institute and a consultant for the National Endowment for the Humanities. He received his B.D. from Yale divinity school and his Ph.D. from Yale University. In 1968, he was ordained in the United Presbyterian Church of the USA.

Warch and Chambers met in 1963, when they taught together at Yale, and have been close friends since that time. Chambers attended Warch's inauguration as president of Lawrence College four years ago. In his address, Warch explained the theme of his address as having originated from a Peter Arno cartoon, published in the New Yorker in 1947. He also quoted a leading business magazine, which presented students' choice of studies in the social political areas as radical and irresponsible, and the more vocational courses as wholesome and practical.

In the small liberal arts college, said Warch, the concentration is on the steadfast adherence to a set of educational objectives, not on the creation of a work preparation institution. He stressed that the core of colleges like Western Maryland is to offer the students the kind of learning experience which increases potential, and to equip them with the tools to determine the meaning of life and work. On a more personal note, he expressed the feeling that Western Maryland College had chosen the right man as its president. The ceremony of investiture was con-

The ceremony of investiture was conducted by Robert E. Bricker, chairman of the board of trustees at WMC, who was assisted by Melvin D. Palmer, dean of academic affairs, Jerome P. Baroch, president of the Alumni Association, and Peter Brooks, president of the Student Government Association. Chambers was presented with the charter of the college and the presidential medallion and chain.

In his inaugural response, President Chambers mentioned the history of the college, and praised the work of the small liberal arts college, often using the word "mission."

Quoting statesmen, social scientists, poets and historians, President Chambers defined that mission as providing an education which reveals and nurtures the many sides of the person; which teaches the student who he is and who he may become; to escape provinciality and offer permanent growth. The mission is to create a sense of man's identity, which is a strong and necessary ingredient in our national treasure.

Chambers also lauded as a teacher, Dr. Stuart Henry, a powerful teacher who in his junior year in college provided the kind of direction which set him on the course his life was to take.

Following Chambers' address was a presentation of special music, the Academic Festival Overture by Johannes Brahms, performed by the college band. This composition was Brahms' delighted response to receiving an honorary degree from the University of Breslau in 1881.

Honorary degrees were then conferred on three outstanding individuals selected by Chambers, in agondance with select tion for incoming presidents at Western Maryland. Each considents at western Maryland. Each consider was selected for his level of achievement in the active citizenship for which the college stands.

Kurt Schmoke, Baltimore state's attorney, was presented an honorary doctor of laws degree and was praised for his intellectual excellence and moral fortitude, as well as his rapid rise in his career. Schmoke was a student during President Chambers' tenure as dean of students at Yale.

Dr. James Tobin, Sterling Professor of Economics at Yale University, was cited as "the best this nation has to offer to a planet in economic trouble." Among his achievements were listed many articles, books and memberships in professional associations, as well as winning the Nobel geour

INAUGURATION—Dr. Robert Chambers III, second from right, receives congratulations from his predecessor, Dr. Ralph John, second from left, after being awarded the presidential medallion of Western Maryland College.

Prize for his work in economics.

In citing Tobin's "selfless and sharing efforts as a teacher," Chambers also noted that the honorary degree from WMC was the one remaining "essential credential" in a distinguished career.

Most famous of the recipients was Garry Trudeau, creator of the comic strip "Doonesbury," which directs the needle of satire to American political life. Cited as being "the first American cartoonist to have tossed a frisbee on the Great Wall of China," Trudeau was also praised by Chambers as a man whose cartoon characters reflect ourselves, with all our frailties and humanity, and who are a witness to, and a participant in, history.

After closing remarks by Preston, the college alma mater was sung and participants in the ceremony marched in a recessional played by the Western Maryland College Band.

A reception was held immediately afterward in the rear of the auditorium.

A luncheon honoring the new president was held following the inauguration for guests and members of the WMC faculty. staff and trustees.

Presiding at the luncheon festivities, at which guests were advised to "be brief, be light, be witty, and above all, be memorable," was Trustee Delores Snyder, who introduced the speakers giving welcoming messages to the new president.

Speaking for the college faculty was Eulalia B. Cobb, associate professor of foreign languages. She was followed by Suzanne Meadows, vice president of the Student Government Association, who, speaking for the student body, gave an amusing indoctrination from the "Students Handbook."

Joan Coley, associate dean of academic affairs, gave a "retirement tribute," which included such gifts as a college cap and pennant, and a raccoon coat and moneybelt.

Other speakers were Maryland Attorney

General Stephen Sachs; Richard Rogers, secretary of the corporation, New School for Social Research, speaking for the Friends from Yale University: Charles Watts, trustee and former president of Bucknell University, for the Friends from Bucknell; John Wheatcroft, presidential professor of English, Bucknell University for the "Colorado Four;" and Kurt Schmoke, speaking for the recipients of the honorary degrees.

Characteristic of the academic assemblage, the humorous remarks were interspersed with many literary allusions and phrases in Greek and Latin, in addition to references to the new president's past associations with the guests.

Having opened with an invocation by Ira Zepp, professor of religious studies, the luncheon was ended with remarks from Chambers and Delores Snyner.

OPOUT

Inaugural Address BY ROBERT H. CHAMBERS

Comptroller Goldstein, Attorney General Sachs, Chairman Bricker, Mr Preston, President Warch, colleagues, friends, and fellow laborers in the academic vineyard:

I am, of course, proud to assume this position and to accept the responsibilities that go with it. The responsibilities are great, but I happily shoulder them because Western Maryland College is founded upon two academic pillars I hold most dear-liberal education and strong teaching. The purpose of this inauguration is to celebrate their embodiment in an institution standing at the very heart of the American academic enterprise.

The private liberal arts college is the oldest of institutions for higher learning in America, having had its beginning with Harvard in 1636, William and Mary in 1693, and Yale in 1701. The private liberal arts college is, in fact, America's unique contribution to the world's higher educational system. This form monopolized higher education in the new world until the development of the Universitypublic and private-only about a century ago. Commonly church-supported and often struggling, the liberal arts college early on became and remains the powerful object of sentiment and nostalgia. Daniel Webster represented the affection of many when, in pleading a case for his alma mater Dartmouth before the U.S. Supreme Court in 1818, he noted that "It is, Sir, a small college and yet there are those who love it." Reportedly Chief Justice John Marshall wept at these

words, as did Webster himself-symbolic of the power of these small institutions to get in the blood, and stay there. As sociologist Burton Clark has aptly noted, "The private liberal arts college is the romantic element in our educational system.

And yet today the liberal arts college and what it represents is being severely tested-even threatened-by forces of all stripes. Students in vast numbers are abandoning liberal education for curricular programs they deem-wrongly I believe-to be more practical and marketoriented. And even many faculties have turned away from their original missions in response to what classicist William Arrowsmith has called "a gigantic scholarly cartel," the formidable and pervasive forces for research that, in Arrowsmith's view, erode the mission of teaching excellence for which the liberal arts colleges were originally founded. Such forces, says Arrowsmith, undermine the proper traditional relationship between teacher and student-the relationship of a committed Socratic pedagogue and an eager, hungry charge-a relationship based solidly on "the only profound motivation for learning, the hope of becoming a better man or woman." According to Arrowsmith, this sort of relationship between teacher and student is in precious short supply today.

But take heart! This very event in which we are participating is an indication that the liberal arts college is alive and well after all. Seated in the audience are representatives of scores of such institutions, and it has already been noted that this ceremony is a celebration of Western Maryland College and its proud heritage of 117 years of dedication to liberal education and strong teaching.

That century and more of dedication is the Western Maryland story. To borrow from Burton Clark again-it is the Western Maryland saga. According to Clark, academic institutions that are distinctive-that stand out from the rest-are almost always guided by a firm sense of mission. They are strongly purposive. And over time this commitment to mission is transformed into "an embracing saga."

Such sagas are generally initiated and then sustained by strong-willed individual leaders who give their institutions their early sense of direction. Once that mission takes hold, an element of belief in it develops until the institution's distinctive power becomes the proud possession of all her constituents-principally the faculty (as the day-by-day sustainers of the mission), but also the students, staff, alumni, and trustees. As faith in the mission grows, the institution and its supporters increasingly come to think of it and of themselves as special. And this specialness, in turn, is reflected over the years in buildings, paintings, statues, plantings, and legends about great eccentrics and great teachers who have had unique roles to play in the developing saga

In Professor Clark's view, relatively few colleges are so fortunate as to have

genuine distinctiveness—to have a saga. I believe that Western Maryland College is so fortunate—that it is distinctive and does have its own story to tell.

Strong leadership has been here from the very beginning, just after the Civil War. The Reverends J. T. Ward, T. H. Lewis, and Albert Norman Ward provided Western Maryland with its initial sense of direction and their successors-equally strong men-have sustained it. Fred Holloway, Lowell Ensor, and, most recently, Ralph John have built strength upon strength. The fervent labors of these six presidents have steadily been joined with a growing faith among all constituents in what Western Maryland stands for. Thus over the years, our saga has evolved into the institution we see today-a lovely 160-acre campus, blessed with a number of distinguished buildings, a superb faculty and staff, fine students, and alumni and trustees truly exceptional in their loyalty to the College.

The chief ingredient in this particular saga is Western Maryland's dogged adherence to liberal education over the years. Our strong sense of institutional identity has sustained us through good times and bad, and it has enabled us to resist the trends and fads of academic fashion. That sense of identity is rooted in the faith that what we are doing is *right*—right in terms of loyalty to our distinguished past, in terms of present academic realities, and in terms of our future prospects and possibilities.

possibilities We know that what we are doing is afght because we have remained steadfast in our adherence to liberal education and what it represents. We believe that the values and aims of the liberal arts tradition in America and the values and aims of Western Maryland College are one-andthe-same. Those classic values and aims are familiar to all of us, but it can do little harm if they are once again enunciated here today.

A liberal education is education for its own sake, not training for specific purpose. It is founded on the faith that, for many, a proper undergraduate academic experience should be an eye-and-mindopening one. The purpose of a liberal education is to liberate the mind—and the soul—from provinciality and prejudice. In place of these, we offer breadth, openness, and perspective—the long view rather than merely the fleeting glimpse.

The essential perspective provided by liberal education enables one to take harrowing current events in stride by placing them in context, by seeing them as variations on themes played out by men and women throughout the ages. What a liberal education reveals is the fundamental human being-that marvelous creature who, for good or ill, has dominated the world's stage for millenia. That creature is inventive, suspicious, loving, jealous, warlike, ambitious, peaceful, conniving, and heroic. Liberal education reveals all of these traits-and more-in the things the creature has done and made. In studying these, we find that, to parrot Walt Kelly's Pogo, the creature "is us." In coming to terms with these deeds and creationsthrough the study of literature, philosophy, art, music, the sciences-we come to terms with ourselves as well-and that, I would suggest, is the central purpose of

all academic endeavor. Integration of the self is, in fact, life's greatest challenge, and it is to this challenge that liberal education is dedicated—to the making of the whole woman and whole man.

3

Since the integration of the self is the proper task of liberal education, its every component is charged with this special purpose. As a result, liberal education provides the individual man or woman of today with practical tools for living life to its fullest. And in the process, that man or woman may also gain a taste for life's elegance, for its treasures, for its finer properties.

But how does liberal education do all this? What are its special goals?

One, certainly, is to put the student in touch with truth, beauty, and goodness. Pilate's question "What is truth?" echoes down through the ages, and the liberally educated man or woman is better equipped than most to wrestle with it. As for beauty, the liberally educated self learns how to seek it, to judge it, and, occasionally, how to create it-and the entire world is thereby enriched. While goodness, we all know, is as slippery a definitional slope as truth, it nevertheless is the obligation-and the gift-of the liberally schooled person to behave ethically-to relate thought to deed, education to action, to be able to answer the ethical question: "What ought I to do?" In the words of William Arrowsmith, in education "what matters is the integration of significant life and knowledge, of compassionate study and informed conduct."

But there is much more than even this to liberal education. It also steeps one in our heritage and in revealing from whence we have come provides invaluable clues to where we are headed, as individuals and as a nation. In studying our history-the core of liberal education-we learn who we are and whom we may become. And it is in such study that we escape our provinciality and gain our essential perspectives. The escaping of inbred boundaries sets one on the road to permanent growth and genuine maturity, and mention of this brings us back, inevitably, to the still center of liberal education-the discovery and molding of the individual self.

The road of permanent growth is, of course, the high road to self-discovery, to realization of full humanity. It is the road leading to personal identity-the resolution of the biggest question of all: "Who am I?" The question is one with which virtually every creative writer must struggle, and the varying definitions of humanity that we find in their novels, plays, and poems reveal the success-or lack thereof-that these writers have attained in their literary quests for identity. Their definitions range from a virtual denial of humanity to its near deification. Two of the most memorable span a wide spectrum-from the somber lament of the young T. S. Eliot, who, in "The Waste Land," defines man merely as "fear in a handful of dust" to Walt Whitman's far bolder assertion of identity in "Song of Myself": "I was the man, I suffered, I was there."

To be sure, some people attain identity, many more do not. I contend only that a strong liberal arts education is a mighty step in the right direction. It also can lead to self-assurance, to personal flexibility, and to a sense of the beauty of curiosity, a sense that can come from approaching the frontier of knowledge while working hand-in-glove with a professor in research. Such research is, for some, what the pursuit of truth is all about; in its bringing together of faculty member and student in fruitful enterprise, such joint research merits the applause of even so staunch a defender of teaching as Professor Arrowsmith.

Working closely with a faculty colleague, the student at a liberal arts college can experience de irious elation in academic discovery and in the process also develop critical powers that will serve for a lifetime. Here one can learn to embody the IBM logo-to THINK-and to think critically; to think critically is to decide, to determine, to lead. Leadership is also a product of the ability to communicate, and powers of communication are essential to those who would lead in any field, whether in accounting or law, animal husbandry or football coaching. Such communicative powers, we believe, come particularly from the kind of education offered by Western Maryland College and her sister schools across the land. And these powers-in combination with the many other benefits of a liberal schooling-admirably prepare our graduates for whatever uncertainties life's future may provide. We are confident, in short, that what we have to offer is the most practical and useful of educations.

When I speak of a Western Maryland education as practical, I do not have merely the marketplace in mind-though our students do very well, indeed, in that marketplace. No, I mean practical in a far more profound sense. A liberal education of the sort we provide can kindle a desire to make learning a life-time process. This is the path to selfhood and freedom. A liberal education-in a word-liberates the soul as well as the mind, setting both free for continual exploration of the glories that lie all about us. What is most pragmatic about a liberal education is its devotion to exploration and discovery-discovery, perhaps, of the greatest prize of all, the individual self not yet recognized. As a more mature Eliot, later in his career, put it so eloquently in one of his Four Quartets:

We shall not cease from exploration, And the end of all our exploring Will be to arrive where we started

And know the place for the first time. My argument, then, is that the liberal arts college remains a strong and necessary ingredient of America's educational, cultural, and psychological well-being. It is, in fact, a national treasure and should be recognized as such. Yet the liberal arts college will remain strong only so long as good teaching stands at its heart. Our claim to stature rests on just this-the power of our teachers and the lasting impact they can have on our students. One of our goals, indeed, is to teach our students to be teachers themselves, for in going into positions of leadership they will invariably find themselves to be instructors; regardless of their professions, they will be called upon to show, to correct, to lecture, to demonstrate, and to inspire.

Inspiration comes rarely, and truly inspiring teachers are not often found. But when they are encountered, an entire life can be changed, and I am an example of that. If you will forgive my closing on a personal note, I'd like to share with you a story that some of you have heard before. It bears repeating, for it demonstrates how powerful a gifted teacher can be.

When I was a junior in college and foundering in a major that was not for me. I learned after registering for my five Spring courses, that a celebrated professor in the Duke Divinity School was going to offer in that same term a course on literature and religion, a course rarely offered to undergraduates and one legendary in its impact. With more than a little fear and trembling. I approached this lofty personage-Stuart Henry by name-to beg entrance into the course I knew was already closed. After much beseeching on my part-and after I had been sharply told that many others had already been turned away-Dr. Henry relented, probably just to get me out of his office. "Come to class this afternoon." he said, "and if there is an empty seat, it's yours."

Well, I went, again with fear and trembling, and watched what seemed to me a hoard of already accepted students filing into the classroom. It was not possible. I knew, for there to be an empty seat, but out of some sense of self-flagellation. I nevertheless held my ground at the back of the room. Then, as the class hour began, a miracle happened—it was almost as if a brilliant beam of light shown down from above—upon the one empty desk remaining!

-4-

I do not blush when I say that the experience was for me very nearly a religious one (if you will forgive the pun). Yet I still had the presence of mind to seize that sole desk as my own and entered upon the most powerful educational experience of my life. Here was a teacher-a man who demanded an outrageous amount of work, but one who gave generously of himself in return. Dr. Henry introduced me to Homer, Virgil, Dante, Machiavelli, Dostoyevsky, and Faulkner, among others. He gave me a severe case of writer's cramp three times each week. but I still treasure every note I took as if it were scripture. By the end of the term, Dr. Henry became my mentor and friend for life, and I am proud to say that he will be here to take part in tomorrow morning's service of worship in Baker Chapel. a service to which you are all invited.

Stuart Henry showed me what powerful teaching can do. I have been trying to emulate him for some 23 years now. Whatever success I may have had, he has been the main engine behind the career I have followed. He embodies, for me, what the art of teaching and liberal education are all about. Such a teacher has the power of bestowing power, and the liberal arts college is where a teacher of this stamp is apt to be most at home. It is such people that make our liberal arts colleges the wonderful institutions they are. Western Maryland College is precisely such an institution, and I am honored to be a part of it. Thank you.

Robert H. Chambers, III President

November 10, 1984

114th Commencement at W.M.C.

Dr. Ralph C. John, sixth president at Western Maryland College, spoke at the college's 114th Commencement on Saturday, May 26. Dr. John delivered a speech entitled, "From the Threshold," to the 377 graduates. Beginning a 2 p.m., the ceremonies were held for the first time in the new Physical Education Learning Center.

Approximately 270 undergraduates received bachelor of arts degrees and another 109 students received master of education, master of liberal arts, and master of science degrees.

During the ceremony three honorary degrees were awarded. Julia Elizabeth Garraway, executive director of the Maryland Independent College and University Association (MICUA), received a doctor of laws degree. Garraway is recognized as one of the best state lobbyists and a leader in the National Association of Independent Colleges and Universities. A doctor of humane letters degree was awarded to Dr. David Lee Carrasco, elass of 1967 and associate professor of religious studies at the University of Chicago. Dr. Carrasco is one of the brightest young scholars in the U.S. in the field of history

Pictured are (1.-r.) Dr. Ira Zepp, professor of religious studies; Dr. David L. Carrasco; Robert E. Bricker; Donald Clarke, college trustee; Dr. Herbert Smith, assoc. professor of political science; and J. Elizabeth Garraway.

of religions and the only U.S. scholar allowed at the Great Temple archeological site in Mexico City.

A doctor of have degree was also conferred upon Robert Edwin Bricker, chairman of Western Maryland College's Board of Trustees. An alumnus of the college, Bricker is the executive vice president of Henkels & McCoy, Inc., of Blue Bell, Pa.

This commencement culminated the presidential tenure of Western Maryland College's Dr. Ralph C. John. Dr. John retired at the end of June after serving 12 years as college president. Prior to becoming the sixth president of WMC. Dr. John was president of Simpson College (Iowa) from 1963-72, and served as Dean of the College of Arts and Sciences of The American University from 1949-62. Dr. John is a graduate of Berea College (Kentucky), received the S.T.B. and S.T.M. degrees in 1944 and 1945 from Boston University, and was awarded the Ph.D. in public administration at The American University in 1950.

During his term of office two master's degree programs and several new undergraduate majors have been added to the curriculum. Physical facilities were largely improved including the new physical education facility, site of this year's commencement.

The crowning achievement of Dr. John's presidency came in 1980 when the liberal arts college received its Phi Beta Kappa charter. Western Maryland College is one of only eleven academic institutions nationwide to receive a charter establishing a chapter during the past decade. Twentyone students and one alumna were inducted into Phi Beta Kappa this spring and were recognized at the ceremonies held on May 6.

News The Hill

Physical Education Center Opens Doors

The dedication of the Physical Education Learning Center was held on Saturday, October 13, in the plaza of the Center.

The ceremony was hosted by the Chairman of the Board of Trustees, Robert E. Bricker, and included remarks from WMC President, Dr. Robert H. Chambers, and Bill Keigler, National Chairman of The Physical Dimension campaign. The dedication was part of the

1984 Homecoming celebration and preceded the Western Maryland foot-ball victory over Dickinson College (22-10)

The entire day was filled with

Homecoming festivities, WMC alumni, arents, and friends toured the Art Galleries to view work by a number of WMC alumni. While many were enjoy ing the alumni artwork, the Western Maryland College Board of Governors met in Harrison House to discuss up-coming events and to hear reports from standing committees on campus. Several hundred alumni gathered to share lunch together under the tent on Harrison House Lawn and others followed a popular WMC tradition and had tail-gate picnics before the start of the football game.

The honored guests for Homecom-ing Day were Katherine Blazek Wright, '74, recipient of the Young Alumnus Service Award, Dr. Daniel Welliver, '50, WMC Alumnus of the 11 Year, and the members of the Homecoming Court.

Alumna Recognized

Mildred Ohler Ecker, mathematics teacher at North Carroll High School (Hampstead, Md.), has been named the first recipient of the Distinguished

High School Teacher Award by Western Maryland College. This award was presented at the college's Com-mencement on May 26. North Carroll High School alumni

comprised the largest number of stu-dents from any single high school in the College's senior class of 270 students. These students when asked to nominate a teacher who best fulfilled their ideal of an outstanding teacher and also who best prepared them for success in college submitted the name of Mildred Ecker.

A teacher for 34 years, Mrs. Ecker began her career at the former Hamp-stead High School, moved in 1962 to

the North Carroll High School in Greenmount, and has taught at the new North Carroll High School since new norm Carron ringn school since 1977. She teaches college preparatory mathematics courses including algebra, trigonometry, calculus, and introductory analysis. She is chairper-son of the of the mathematics depart-ment and advisor of the school's Math-Club, which has commercial both state. Club which has competed both state wide and regionally.

Ed Davis, principal of North Carroll High School, added that Mrs. Ecker is a nominee for the statewide competi-tion for the Presidential Award for tion for the Presidential Award for Teaching. "She is very involved in school activities and much respected by all of us." Mrs. Ecker will retire at the end of the school year. Mrs. Ecker was graduated from Western Maryland College in 1948 with a major in mathematics and bi.

with a major in mathematics and biology and earned her master of education degree in 1965.

Kathy S. Mangan, assistant profes-sor of English at Western Maryland College, received the Distinguished Teaching Award presented by the Bal-timore Alumnae Club of Sigma Sigma Due Secularity of the colleged projection Tau Sorority at the college's Investi-ture and Honors Convocation held on May 6 This year's presentation marks the 24th annual award made to an out-standing member of the faculty as

voted by representatives of the under graduate student body. Dr. Del Palmer, dean of the college and vice president of academic affairs, preented the award.

Dr. Mangan was graduated from Denison University (Ohio), in 1972 She pursued graduate studies at Ohio University where she earned a M.A. degree in creative writing in 1974, and a Ph.D. in American literature in 1983. Her dissertation was an original manuscript of poems entitled, "Solo."

A noted young poet, Dr. Mangan ublished a chapbook of her poems, Ragged Alphabet, in 1978. In 1979, Dr. Mangan received Western Maryland College's Faculty Author Award for this work and in 1983 she was presented the Faculty Creativity

Award for subsequent works. Her poems have been published in numerous anthologies and magazines including The Antioch Review, The Southern Review and The Georgia Review

Her talent has been nationally recognized and she has been granted residencies at the well-known Mac-Dowell Colony for artists and writers in New Hampshire. Her most recent residency was at The Virginia Center for the Creative Arts where she worked on her poems in January, 1984. She was one of 200 artists ac-cented for this program which cepted for this program which receives more than 1,000 applications

receives more than 1,000 applications annually. She has appeared to read her works at The Folger Shakespeare Library in Washington, D.C., and was a featured poet in the New Peet Series in Baltimore and on WBJC-FM's 'In Other Worte'. Other Words'

A resident of Baltimore city, Mangan teaches poetry, creative writing, American literature and journalism.

Dr. Melvin Palmer presents award to Mrs. Mildred Ohler Ecker.

Distinguished Teacher Award Presented to Mangan

New Trustees Named at WMC

The Board of Trustees at Western Maryland College appointed five new members at its annual meeting last April

The Executive Committee of the Board named Jon M. Files of Columbia, Md., Philip E. Hixon of Chevy Chase, Md., Marjorie A. Lippy of Hampstead, Md., Frederick S. Ni Nicoll of Ocean City, Md., and Linda M. Ryan of Mt. Airy, Md., to three-year appointments.

Files, a graduate of the University of Maryland, is the vice president of Management and Staff Services for the Baltimore Gas and Electric Com-pany. He has served as the corporate gift chairman for the \$6 million Physi cal Education Learning Center cam-paign. Files is a member of the American Institute of Industrial En gineers, the American Society for Per-sonnel Administration, and the American Management Association. He and his wife, Gloria, live in Colum-bia and have two children.

Hixon, a graduate of New York University, is the president of the Board of Disclosure of the National Standards Association. He received his M.B.A. from Long Island University in 1968. Hixon and his wife Helene, live in Chevy Chase and have three children.

Lippy, a graduate of Towson State University, is a prominent Carroll Countian. Recipient of her master's degree from Western Maryland College in 1978, Lippy is active with the

Carroll County Arts Council, Carroll County Symphony Society and the Wesley Methodist Church. She is also the chairperson of the Speakers Bureau for Baltimore's Radio Reading Service. Lippy and her husband, Edward, live in Hampstead and have two children

Nicoll, a graduate of Western Maryland College, is president and owner of Frederick S. Nicoll & Associcity. He was the founder and director (1972-83) of the Atlantic National Bank and served as president of the Coastal Board of Realtors in 1970.

Nicoll, recipient of the U.S. Army Commendation Medal in 1964, is a member of the Ocean City Chamber of Commerce; Maryland Board of Realtors; and attends Atlantic United Methodist Church. He and his wife, JoAnn, also a Western Maryland graduate, reside in Ocean City with their children Tracey, a freshman at Western Maryland College, and William James a junior at Worcester Country School in Berlin, Maryland

Ryan, a graduate of Towson State University, is a former director of the Carroll Haven Activities Center for retarded adults. She is currently concluding her term on the Maryland State Planning Council for Develop-mental Disabilities and is a member of the National Tuberous Sclerosis Association. Ryan is a part-time instruc-tor in special education at Western Maryland College and Howard Com munity College. She and her hus-band, James, live in Mt. Airy and have four children.

New members of the Board of Trustees are (l.-r.) Jon M. Files, Philip E. Hixon, Frederick S. Nicoll, and Marjorie A. Libby. Not pictured is Linda M. Ryan.

Reynolds Grant Supports Graduate Programs in Deafness

A \$247,800 grant from R. J. Rey-nolds Industries, Inc. of Winston-Salem, North Carolina, has been awarded to Western Maryland College to support the graduate programs to train professionals in the fields of deafness and deaf-blindness. This grant, the largest corporate grant received by the College in its 117-year history, will provide funds for instructional materials, library acquisitions, program personnel, and student scholarships over the next four years

scholarships over the next four years. The R. J. Reynolds grant is a major step toward the college's new coopera-tive program with Towson State Uni-versity (Towson, Md.) to offer students a dual certification in education of the deaf and speech pathology or education of the deaf and audiology.

The certification program will combine the knowledge and expertise basic to each field and bridge the philosophical gap between these two disciplines whose professionals have long served the deaf community of over 16 million people in the United States.

Since its inception in 1967 Western Maryland College's program in deaf-ness has recognized the importance of deaf teachers teaching the deaf. West-ern Maryland College was the first in the country to establish a program preparing teachers at the secondary level and to enroll both *deaf* and hear ing students. The program was also the first in the country to utilize "to-tal communication" as the mode for instruction

This concept relies on communication-in all forms-among and be-tween the deaf and hearing people,

including sign language, "oral" speech reading or cued speech. Total communication has been attacked vi-ciously by "oralists": audiologists and clously by "oralists": audiologists and speech/language pathologists who be-lieve in teaching the profoundly deaf child to adapt to the "hearing world" by using only speech and speech reading. Expanding public awareness and acceptance of the use of sign language has been demonstrated by the utilization of interpreters on television and at public events. Recently, the fields of speech/language pathol-ogy and audiology have become less focused on a totally oral approach to educating the deaf.

The R. J. Reynolds grant will also support Western Maryland College's program to teach persons to work with adults who are both deaf and blind. This program, the only one in the world, is in conjunction with the Helen Keller National Center For Deaf-Blind Youths and Adults on Long Island, New York. It is estimated that the 30,000 to 50,000 deaf-blind adults in the U.S. will eventually benefit from In the U.S. will eventually beliefs from the standard program to train professionals in services necessary in cop-ing with this severe disability. In addition, the 6,000 children born deafblind during the 1963-67 rubella epidemic are now entering adulthood. Deaf-blindness is expected to more than quadruple from diseases such as

Ushers syndrome. Following a recent survey of 8,500 teachers of the deaf, Western Mary-land College ranked as the second largest provider of teachers of the deaf in the country. The program's strength is the faculty who include strength is the laculty who include Dr. McCay Vernon, nationally recog-nized research psychologist in deaf-ness, and Dr. Hugh Prickett, respected deaf educator and coordinator of programs in deafness

"Western Maryland Stronger Than Ever"

An interview with Ralph C. John, President Emeritus. Introduction by Del Palmer, Professor of English and Dean of Academic Affairs

hen the Johns first came to campus, this magarine published a picture of them holding up a quitt for display, it had been put together piece by piece by their colleagues and friends at Simpson Col-lege. Here are informal people, I thought, down to earth. The little pieces of Johric that constituted the quitt-though vari-colored and diverse in their individual designs-meertheless made a quilt, a single thing, unfiled in its diversity. It wasn't tong before this symbolism started to en the Johns first came to campus,

It wasn't long before this symbolism started to

It take real shape. Item: In an early meeting of "constituencies of the College." Raiph John noticed a big omtssion and said. "Where are the students? Aren't they involved in this?" To this day, he brings students

twolved in hits?" To this day, he brings students into the work of the College. Item: Also early in Ralph John's tenure at WMC, I found myself among the first of the faculty elected as visitors to the Board. The chance for faculty and trustees to deliberate together was something few of us had even hoped for. And then there we were, proving to each other that the stereolypes were not true.

Item: Development was not much more than a name when Ralph John came. Now, as a result of his emphasis in that area, we faculty have found ourselves part of a larger network of people in the community, and especially the College's alumni– people whom we had rarely seen before.

The diverse pieces of this enlarged WMC quilt were not stitched together without tension and at times some anxiety—but true democrat that he is, Ralph John risked tension with an abiding faith that it is necessary for growth. He brough to campus the hands of a professional quiltmaker, and he has challenged us all to add our own colors and designs to the ensemble

What are the significant changes that have taken place at WMC since 1972?

You may be surprised to know that I believe the freeing up of relationships between constituencies of the college is one of the most important changes during my years on the Hill. Historically there h been a close relationship between students and faculty, one of the primary values of the WMC ex-perience. In 1972, however, students, alumni, trustees, parents and administrators as segments of the community were practically unknown to each other. For example, trustees and faculty seldom met. Through various programs these people now such closer. In other words, the level of collegiality has been raised.

Inere is reason for satisfaction, too, in changes in the educational program. By the end of 1983-84 academic year the general education offerings will have been reevaluated twice with significant changes. New makers the twice with significant There is reason for satisfaction, too, in change changes. New majors have been added, the minor restored, and we have two master's degree offerings that were not in place in 1972: the master of libthat were not in place in 1972: the master of *ib* eral arts and the master of science. In 1979 Phil Beta Kappa granted Western Maryland a charter, which made this one of the four colleges in the State of Maryland accorded this recognition. While this was a total institutional achievement, with the faculty in the lead, way with when the overlast my faculty in the lead, you will have to excuse my great pride in the fact that this event occurred dur-ing my administration. Winning a Phi Beta Kappa charter comes close to being the ultimate imprima-tur for a liberal external state. tur for a liberal arts college.

Then there are the more conspicuous things which many are inclined to cite. These are the cap-ital projects that have been completed. Western Maryland was undertooled from the standpoint of facilities in 1972. So we have built apartments, renovated Alumni Hall, built a college center, a new athletic field, renovated Winslow and the Library and now the new PE facility is completed. All of these things have taken inordinate energy and time, so that here, as at Simpson for the same reason. I tend to be typed as a development presi-dent. This suits me fine, except that I do want the other more fundamental things recognized.

What type of change would you predict in the next decade?

The focus of the next decade probably will be on maintaining viability and quality under more difficult circumstances. There will be lively competition for students at the undergraduate level among colleges and universities both public and private. This will be aggravated by escalating costs in real dollars to the families of students.

There will be increasing insecurity among faculty and staff, numbers of whom probably will be released in organized retrenchment programs in many places. Already there is a national malaise which is having negative morale consequences

The strong colleges will have to focus on endow-ments for special chairs, drives to maintain and in-crease the compensation of professionals in higher education, and funds to underwrite improved programs.

Actually our society has insisted upon the exploitation of educators at all levels in laying heavy requirements upon them without comparable emol-ument. Western Maryland, for example, ranks well among institutions of its type but, even so, the average of all 1983-84 faculty salaries is under \$25,000. Think of this in relation to all of the Ph.D.'s from prestigious universities on campus and the years of service that have been accumulated. In almost all instances there have to be two incomes in the family for the faculty person to remain in the field. It is impossible in our world to forecast ten years out, but in my ludgment an emphasis in the support of people and educational programs. "This will be true for this campus, and for the nation.

How did students change during your presidencies?

There is a sense in which students as late adolescents and young adults do not change. In the clutch they are in many respects the same. On the other hand, there are important respects in which I have lived through eras of change in the characteristics of students.

My first appointment was a member of the faculty at The American University in 1949. This was toward the end of the World War II veteran's bulge and on the threshold of the gray flannel suit era of the 1950's. Then Greek organizations rode

era of the 1950's. Then Greek organizations rode high, the geniteman's C was in style and social ac-ceptance through conformity tended to be a basic pattern. Undergraduates delighted in antics as swallowing goldfish and staging panty raids. Then came the 1960's, the most revolutionary period in the history of American higher education. Prompied by the Vietnam War and racial issues, students establishment rankings. Any revolted of grades, and they ceased to be accepting of parti-of raides, and they ceased to be accepting of parti-oler notes and beyon the scale of the scale of the scale of mides. Minorities and women became self-ingenesing constituencies and began to march: hao-menscings constituencies and began to march: haoconscious constituencies and began to march: hap-pily winning more equitable places for themselves

on campuses as in the larger community. Those of us who lived through the period remem-ber Peoples Park, the Wisconsin math building

ber Peoples Park, the Wisconsin math building bombing, the burning of ROTC buildings and many other similar happenings. In my judgment, the consequences of the skrites were positive, the resultant reforms overdue. As difficult as the times were, and I was the president of another college during that period. this in many respects stands out as the most exciting and fulfil-ing of my career. Surface phenomena aside, I had considerable sympathy for the basic thrust of the time.

Generally during my years at Western Maryland, Students here and nationally have settled back into a recognition of the importance of formal academic a recognition of the importance of formal academic achievement. They compete with each other for grades—want them—and are oriented toward gradu grades—want them—and are oriented toward gradu ate or professional school placement and positions in establishment-type institutions. This does not mean that they are like students of the 1950's. There are not many, if any, true reversions in his-tory. The student today, while less confrontational tory. The student today, while less confrontational in aspiration or style, takes for granted the changes achieved by predecessors in the earlier period. I have enjoyed and been frustrated by students in each of these cras. This situation always will main-ter the greating and will never be complete the

The generation gap will never be completely tain bridged.

How have faculty members changed? All of us involved in higher education, in one degree or another, have changed along the same

lines as students. After all, these movements are not just campus phenomena but reflect undulations of the total society. Faculty members are much more deeply involved

in the life of academic institutions presently than in previous periods. The concept of "participatory democracy" has established itself firmly in academic governance systems. This I have supported

and take to be a positive development. For 300 years of our history, figured from the founding of Harvard in 1636, there was a latent resource, the energy of which was not significantly appropriated. This was the resource of faculty strength in the identification of educational goals, planning, evaluation, and recommendations in all areas of the life and work of the American college If you will allow me a boast, it is that I think I have been successful in providing mechanisms for faculty participations in the total programs of the two colleges of which I have been president. If this is true, I am proud.

Faculties have much stronger academic qualification tions than used to be the case. Professional stan-dards have become clearer, mostly because of the sistence of faculty members themselves, and there are mechanisms through which these standards are administered relative to promotions, tenure and perquisites. The professoriate at Western Maryland has never been as strong as presently, something which tends to be true in higher education generally. There inevitably is a degree of tension between

the faculty and the administration. Many times I have wished this were not the case, but it is in the nature of the creature. The trick for a president in his leadership is to attempt to direct this tension in generative, creative ways. The relationship between the president and the faculty is a dialectical one: one of checks, balances and mutual stimulation that can inure to the benefit of the college.

that can inure to the benefit of the college. This administration/faculty relationship is never completely tidy, though it is one that I have always respected as a person who came to administration over the adversarial frame of mind that has drock-oped as a result of the collective bargating move-tification barriers. Happing weake of values, a stification barriers. Happing we have less of the ad-versarial neurosis at WMC than at most other places. places

How do you assess the relationship between Westminster and WMC?

The relationship between Western Maryland College and the city of Westminster is one that I have appreciated. It is different from the relationship beween the college that previously I served and the town in which it was located.

The other college was located in the center of the city, which is approximately the same size as West-

clly, which is approximately the same size as West-minster. The local citizenty heid the college under much closer surveillance and reacted more directly, pro and con. to things that happened on campus. This, again, was in the 1960's when things were more polarized than presently. In attempting to describe town-gown relation-ships here the term that always comes to mind is that of mutual respect. Westminster and the col-lege suppowen up together, depending in many generously supports the college financially and participates in many programs on camous, and the generously supports the college financially and participates in many programs on campus, and the college is conscious of its responsibility to provide cultural opportunities to the community. Viewing each other, we live and let live. Better than that, we are a part of each other and, recognizing our mis-sional differences, we are firends and attempt to eiter and Carroll County government have been wonderfully cooperative in handling the inevitable problems that periodically outcrop from a college com-munity, something which we genuinely appreciate.

How will the trend toward careerism affect private, liberal arts colleges? As with most movements, there are both lasting and faddish elements in the current emphasis on careerism in American higher education. Histori-cally liberal arts colleges, which were practically the only option, have had students who should not have been in them. As in the instance of the tech-nical institutes in England and Europe, these students should have been in this other kind of place. Community colleges, a relatively new creation, in some degree provide the other alternative, which I consider to be a good thing. Careerism, however, has reached into four-yea

programs. In my judgment the pendulum, if it has not aiready begun to do so, will swing against this trend. In a hi-tech society it is still important to have hi-touch persons who are competent in verbal and quantitative skills, have refined reasoning

capabilities, are oriented to values and see things in perspective. It is in the liberal arts college th these latter characteristics are much more prob-ably developed.

As we like to say at Western Maryland, the liberal arts experience for the long run is the best kind of career preparation. In whatever degree technical competencies are deficient at the time of gradua-tion, these can be picked up through graduate or professional studies, in-service training in business and industry or even through self-study and discipline. For example, many of us who never had a course in the field during our formal preparation for professional responsibilities are becoming computer literate on our own or through contin education programs.

There is a tragic dimension to over-dependence upon narrow career preparation too. Technologies are moving so rapidly that frequently by the time the student develops a skill, the state of the art (trade) has outstripped him or her, and the promised employment is denied. These, too, tend to be the category of employees who are first affected by swings in the business cycle.

A study was done not long ago which identified the frustration of minority groups and female graduates of vocational programs because of the fact that they had turned to career education as a way of moving up into the mainstream. This was done at considerable sacrifice and with high expectations. Then came the first downturn of the economy, and these were the first persons to lose jobs. Needless to say, the result was disillusionment.

The liberal arts college, freestanding or as a unit in the comprehensive university, will remain the vital center of quality undergraduate education.

What do you see as the role of the president at WMC, and what are the rewards of your presidency?

The role of the academic president has changed over the last three decades. Here again the 1960's have had lasting influence.

have had lasting influence. The president no longer is a monarchical authority figure who exercises near absolute con-troi over the academic community. The individual international states and the individual internation of the individual states and the individual but at the same time it is necessary that he or she live and work in sensitivity to the values and tradi-tion overriding introv. Specific reference is smale to the overriding introv. Specific reference is smale to teaching and research, respect for colleagues as professionals and the importance of collegial sysprofessionals and the importance of collegial systems of governance. It is sometimes difficult for people on the outside to understand these things, the interpretation of which is a major presidential responsibility. I have scars from this front.

The president today has to approach his responsibilities more as a leader than as an administrator with formal authority. He constantly thinks about the total configuration of his college, evaluates it in his mind, works at keeping goals and policies clear, arbitrates differences, seeds in ideas (something arbitrates differences, seeds in ideas (something that usually has to be done subty), organizes ad hoc units (i.e., marketing, long range planning, cap-ital campaigns) to meet the shifting needs of the institution, and attempts to coordinate and main-tain in a creative relationship among all the ele-an impossible and wonderful job. While I have not enjoyed every minute of it. I have been tremen-dously fulfilled and feel good about my 21 years at the task. the task

I firmly believe that the academic presidency re-mains an important office. In general, where there are strong presidents there is survival, even prosperity, and where there are weak ones things anguish

What rewards of your presidency will you take with you? Dot and I will carry many treasures from our 12

years on the Hill. The first will be in the form of friendships both personal and professional. We Trendships both personal and protessional. We know that whatever has been accomplished could not have happened without the goodwill and sup-port of hundreds of people on and off the campus. Some of the things accomplished in the period of our service already have been cited. The bottom line is that we have the satisfaction of believing that Western Maryland College is a stronger place than when we came. This fact, again, reflects more than achievement on our part. It is the result of the efforts of a college community that fell together around specific goals, many of which it was able to achieve. There of course have been failures and deficiencies. These are endemic to the human situ-ation. On balance, however, we feel we have had productive years at WMC.

Ralph C. John

The Professor Remembered: Dr.James P.Earp

"Give me your tired, your poor, your huddled masses yearning to breathe free, the wretched refuse of your iteeming shore, send these, the homeless, tempest tossed, to me: I lift my lamp by the golden door."

-Inscription on the Statue of Liberty

I never called him "Jim." Almost everyone who knew him at all, did-colleagues, former students, county commissioners, state legislators, friends, relatives, and even casual acquaintances. They all called him "Jim" because that was his name and because he was the kind of person one could easily call "Jim". But to me, he was always "The Professor."

Dr. James Pearsall Earp came to Western Maryland College as assistant professor of sociology in 1938 and began an active academic career that was to continue for thirty-four years. With an undergraduate degree in mechanical engineering from the University of Pennsylvania, a Master of Arts in Sociology from Columbia, and the Ph.D. under Melville J. Herskovits at Northwestern University. Dr. Earp came well-prepared for the task of beginning and heading up the new Department of Sociology at Western Maryland College. For many years Dr. Earp uses the Sociology Department-the chairman, the didn'i like chaipperson, the faculty, the student advisor and confidant, the secretary, and the personality. Ah, yes! There we have it—the personality I it was the personality that began to draw the students over the years, not only to his classes, but back to the campus long after graduation inquiring, "and how is D. Earp" I it was the personality, metaphorically in keeping with the above quotation, that recognized and responded to the need of the student in search of a major, or the student who just had a trajc love affair, or who needed a job after graduation, or who just plain needed ao the Earper to seed" usually found their way to Dr. Earp's office, the "broom closet" in the basement of Lewis Hall. The 'lamp' was always there.

ways there. Dr. Earp's interests and activities extended far beyond the classroom. "Family" was always important to him (perbase most important social institut the second second second second second of the second second second second second second of the second second second second second second far the second sec In 1971, Dr. Earp was retiring "gradually" from teaching and became the first Director of the Economic Development Commission for Carroll County: And why not? By this time, he knew practing veryone in the county and who hey were compath and long' road, cross-road, dich and compath and long' troad, cross-road, dich and instant recall. I once asked him who memory anit instant recall. I once asked him who memory anit mew" job. He replied that he "did not do muchmes" in truth, he did a lot, and hecause of his efforts several new industries found their way to Carforts several new industries found their way to Carforl County. And along with it all. Dr. Earp's interest in people continued unabated. On his final retirement from the college in 1973,

On his final retirement from the college in 1973, Dr. Earp wrote to President John: "... The years have been fruitful with pleasant memories, friendships, accomplishments and associations with those in the academic field." Anyone who has ever known the man can testify to that his has been a most fruitful and rewarding life.

known the man can testify to that: his has been a most futiful and rewarding life. Dr. Earp maintained his interest in the college and in the Sociology Department up until the time of his passing. In later years, he took some pride in knowing that it now takes six full-time and two part-time faculty members to handle the work that he once carried alone. He never missed an opportunity to remind us of this fact. His single course in social work is now a nationally accredited undergraduate program. Criminology has now become a sequence of courses involving juvenile delinquency. Iaw enforcement, penology and corrections, and sociology "interms" still "goin to the field" for practical experience to complement the theoretical knowledge of the classroom. The foundation laid by the "master cralisman" back in 1958 is still being constructed by the present generation of sociologists and social workers in the department, two of of our efforts will be as successful. The "master cralisman" has indeed let his mark on this collegethis community, and the many students who have passed this way.

Tike to remember him just as he was the last time I saw him. I had dropped by for one of our afternoon visits and, as I was backing out of the driveway, he stood on that little side porch of the house he himself had built on "Windy Hill," waving a "goodbye" with his cane, (or was he shaking it at me?). Carlously, now as I reflect upon it, it was more than a mere "goodbye." It was more like a pointing of direction, an urging me to "get on with it," to move on the next challenge life has to offer-this man they all called "Jim," but whom I remember only as "the Professor" and one of the finest human beings I have ever known.

-Franklin Glendon Ashburn, '53

Dr. Earp came to the Hill in 1938 to establish the Sociology Department. It was my privilege to be in one of his first classes, that being, the course he made famous, called "The Family." My wite, Miriam Shroyer Wallace, 1942, and my daugher Rebecca West, 1968, also took "The Family" course, we all enjoyed it. At Dr. Earps Memorial Celebration quite a few of his former students were in attendance. The secret word was "The Budget"-they would ask each other. Are you still on a budget? Some were, some were not. When I was asked the question, my reply was, "how did you expect a Methodist Minister to keep a budget?" With all of his joviaitty he had a deep concern for his students. He lifted the family up as a basic institution of society. His students will remember him for the emphasis he put on the family.

-Charles I. Wallace, Sr., '39

Dr. Earp was certainly an important part of my experience at Western Maryland College in the 1960's. After a difficult freshman year, he helped to provide my first measure of success in his sophomore level classes in Sociology. My confidence grew as I learned to apply his theory of learning in other subject areas. In graduate school today, his theory is still relevant. Dr. Earp, as an educator, was more concerned with the how and the experience of learning than in the number of facts we retained. He would introduce a theory, and be interested in our understanding and use of an idea, rather than our ability to parrot its content. We would develop lists of explanations for social events in class, and write original critiques of articles assigned. He was encouraging us to think for ourselves. To further our total education, he cultivated

To further our total education, he cultivated community contacts reflective of our study areas. Organizations such as Springfield State Hospital, Montrose School and even the city of Westminster opened their doors to various short term volunteer positions for WMC sociology students, jointly supervised by Dr. Earp and a professional from the agency. Memories of standing in the middle of Main Street counting cars as they turned, remain as examples of the kind of learning Dr. Earp advocated. I'm sure sophisticated mechanical devices perform the same job today, and I remember trying to invent one while we counted, but our efforts saved the county the expense of hiring someone to do the same study, and provided us with a unique educational experience at the same time.

Wy fondest memories of Dr. Earp were apart from the classroom. He was a devil, and teased us all constantly about our social lives. For someone who met her future husband during freshman year, his teasing became dependable; his interest in our varlous relationships considerate and reassuring in a parental way. He remained interested in our extracurricular activities unlike most professors, andencouraged us to make the most of our time at WMC. He correctly surmised that much of our growth in college would be social, and our intellectual growth would continue all our lives. He and Mrs. Earp extended their hospitality to my husband and mywelf, and even asked me on occasion to help the conversion and enjoy Mrs. Earp's meals, and feel a part of a family for a little while.

Dr. Earp's thoughtfulness continued throughout the years. Our Christmas correspondence was always a delight for me, and I enjoyed hearing his Grandpa tales, as much as I enjoyed telling our Mama and Daddy ones. He was interested in his students as people first, and one of his largest priorities was keeping in touch. That is a lesson I've never forgotten (my mother is a great advocate, too) and it has held me in good stead. Asking him for a recommendation for graduate school after 13 years of being out of school was an easy task. He thought I was crazy, but his reassurance was comforting and inspiring. I'm still pretty adept at coming up with reasonable explanations for events:

... you don't marry a person, you marry his kinship group ... (Aloha, 1966)

Dr. Earp with his daughter, Ellen (Aloha, 1946)

from the mishaps of an eighteen-month-old to the causes of suburban migration in the 1950's for an urban politics course. I have Dr. Earp to thank for the ability. I'll miss you, but you'll be with me always

-Amy Lewis King, '69

Any tribute to Dr. James Earp must include some thoughts about the way he influenced the lives of his students. By example and teaching he demonstrated his unique capacity for caring. He approached his students with compassion, knowledge and an eagerness to guide them toward mean-ingful life choices. He was dedicated to giving; his own academic excellence was evident in his class preparation and he shared countless hours outside the classroom with his students. The message to students was to select goals with potential for themselves and others (always others to be consid-ered), and to pursue these goals with dedication and honor. Dr. Earp didn't ignore the context of human frailites, and he was ever ready with en-couragement. Students received both hope and workable solutions from bin. A three here ever the classroom with his students. The message to workable solutions from him. A three hour course with Dr. Earp could easily be expanded into years as he continued to keep abreast of the accomplish-ments of his students, even into the next generation. My own daughter expressed well the spirit of Dr. Earp's life and work when she said "He gave us so much of his time, care and insight into life. We must now be prepared to share and carry on what we have been privileged to learn."-That is the Earp tradition

-Mary Jane Munson, Lee, '55

"From my first move (to WMC in 1961) to my most recent move (the 11th in 1982), 669 Windy

most recent move (the 11th in 1982), 669 Windy Hill Drive in Westminster has been an anchor home away from home. Graduate work and four state educational pro

gram development for retarded, learning disabled and emotionally disturbed children stemmed from the days Dr. Earp encouraged me to spend in study and observation at Montrose. For the past six years, "social work" has been in developing new educational programs to meet small business needs

During the past 23 years Jim and Florence shared with me graduations, marriage, births of daughters, cross country moves, career changes divorce and remarriage counselling. A profound ef-fect on my life? Yes, and also a constant one.

My last letter from Jim was dated February 4. 1984. Within its pages he wrote "wish I could see you and the children again but I don't expect to be around much longer." Well, we won't see each other again but surely Jim realizes that he'll al-ways be "around" for those of us who knew and loved him.

There m st be something intangibly special about the Earps because Jim is the only professor or teacher I have retained a long and close relation ship with on a personal, as opposed to professional, level. Jim and Florence were a team in the purest sense of the word

-Marjorie Engel Siebert, '65

Summer on the Hill, '43 Summer Session, a "Family Sociology" course, an Earp strawberry picking party, all formed the nucleus of a joyful friendship between Dr. Earp, his family and mine

Guotations of classroom professors seem to fade or become antiquated as years pass, but with one notable exception, those of Dr. Earp. Majors outside the Sociology sphere, like myself, flocked into "In-troductory Sociology" and further courses as the Earp mystique spread. Simultaneously, he became our mentor and friend, a rare phenomena on today's campuses

October 22, 1943 was a special day, for the class October 22, 1943 was a special day, for the class room chalkboard read from end to end, 'It's a boy, announcing the birth of Edwin Lee Earp (Lt. Col. E. L. Earp, US. Army) who joined his sister Ellen. We Earp banby-sitters were charmed by the entire Earp family! Teaching former students led the Earps to our Sutton, Surrey, England home in '67 where we were joined by alumni from Mauritius in a most memorable Indian tea.

Earp's teaching and personal relationships Dr

molded our futures as well as those of our children whose lives he also monitored with advice and caring.

Western Maryland College was indeed privileged to have this rare man among us, and we, his stu-dents, acknowledge a tremendous vold in his pass-ing; we loved Dr. James P. Earp.

-Catherine Schumann Kiddoo '46

Editor's Note: The Western Maryland College commu-nity was saddened to learn of the passing of several emerit faculty in 1984. Dr. James P. Eary died Feb. 15. Professor Joseph C. Willen died July 31. 1983. Dr. Clyde A. Spieer died April 2. Professor Oliver K. Spangler died April 26. and Dean Samuel B. Schofeld died Oct. 27. Dr. Eary Joined the faculty in 1938 as a young sociolo-gist and, over the years. Ied that department to its present status as one of the strongest in the College. Joseph C. Willen, associate professor of modern langu-ages emeritus, was a member of the College faculty since 1933. "Herr Willen," as the students referred to him, received his A.B. at Columbia University and the A.M. at the University of Pennsylvanta. He retired in 1966. 1966

1966. Dr. Spicer was professor emeritus of mathematics and chairman of the Mathematics Department for many years. He joined the faculty in 1929 and retired after teaching 40 years. He held an A.B. degree from the Uni-versity of Richmond and his M.A. and Ph.D. from Johns Hopkins University. At his retirement the Maryland Beta Chapter of Kappu Mu Epsilon established the Clyde A. Spicer Award in his honor.

Spicer Award in his honor. Ollver Spangler was known to music lovers of West-minster and to alumni for his excellent direction of the College Choir and College Singers, and to his plano and organ students, he was a dedicated and patient treacher. Professor Spangler held the A.B. and B. Mus. degrees from Otterbein College and the M.Mus. degrees from Rea-body Conservatory of Music. He joined the faculty in 1898 and retired in 1973 as projessor of music emeritus. ment head, and dean of administration during his 47 years at Western Maryland and is known to us as the author of "The Formative Years," a history of the

ALUMNI NEWS

Welliver-Alumnus of the Year

Each year, as a part of Western Maryland College's traditional Home-coming activities, the award for Alumnus of the Year is presented at halftime of the Homecoming football

On October 13, the halftime cere-mony honored Daniel I. Welliver, '50. The award honors Welliver for his enthusiastic and abundant service to Western Maryland College; his years of service to church and comm unity: inence and distinction and his pron he has achieved in the medical profession

"Dan" is a past president of the Maryland State Board of Medical Ex-aminers and Licensure, a past presid-dent of the Carroll County Medical Society: a past president of the Maryland Academy of Family Prac-tice: and author of professional arti-cles published nationally. He presently merse on the Board of Directors for serves on the Board of Direct ors for the National Federation Licensing and Examination Board.

Welliver has served as a Class Agent for the Class of 1950 and has worked for the Centennial Expansion Emer gency Program at the College. In 1976 he received the Meritorious Service Award from the WMC Alumni Associ-ation. He currently is serving as chairman of the Carroll County Spe-cial Gifts Campaign for the Physical Education Learning Center. Welliver lives in Westminster with

his wife, Mary Ada Welliver, Their son, Paul, is the new athletic trainer at Western Maryland College.

In addition to Welliver's award, the Alumni Association presented a Young Alumnus Service Award to Katherine Blazek Wright, '74. The award honors Wright for a decade of continuous loyal service to her class, to the Young Alumni of Baltimore, to the Alumni Association and to the

College Wright has served as class secretary for the Class of 1974; a member of the Young Alumni Committee; and as treasurer of the Baltimore Young Alumni Chapter

ORENSTEIN

Samuel B. Schofield 1898-1984

Samuel B. Schofield died on October 27, 1984, in Salisbury at the age of 86.

The College is indebted to Dean The College is indebted to Dean Schoffeld for singular devotion to his Alma Mater, for much that gave it strength and stability in its past. He was Professor of Chemistry. Depart-ment Head, and Dean of Administra-tion during his forty-seven years at Western Maryland. He impressed upon students the need for care and logic in their work. Faculty and staff remember bis phenomenal memory remember his phenomenal memory and his ability to carry out adminis-trative duties with meticulous detail.

During retirement, Dean Schofield worked voluntarily to organize the historical papers of the College and became its first Archivist. His pain-staking, handwritten notes of information garnered from diaries of former presidents served as the basis for The Formative Years, an outstanding history of the College that he co

uthored with Marjorie C. Crain. In 1979, Dean Schofield was awarded the honorary degree of Doc tor of Laws at Commencement. In addition to being recognized as organizer of the College Archives in the Hoover Library, Dean Schofield was cited for 65 consecutive years of attendance at commencements of the College, a record possibly unequalled in higher education. We are all grateful to Dean Schofield for his legacy of loyalty to and pride

for his legacy of loyalty to and pride in the college. Our heartfelt sympathy goes to his wife, Julia Corinne Troy Schofield, and to his daughter, Corinne Schofield LesCallette.

Five Inducted into Sports Hall of Fame

Five former Western Maryland College athletic greats were inducted into the College's Sports Hall of Fame at a banquet in their honor on October 27 The featured speaker was Julian L. Dyke, Jr., Assistant Chief Scout Exec-utive of the Boy Scouts of America. Hugh Barnette Speir, '22, was a

three-sport standout in football, bas-ketball and tennis. He served as captain of the tennis team and class basketball squad and received the John A. Alexander Medal at gradua-John A. Alexander Medal at gradua-tion. symbolic of the class' most out-standing male athlete. He continued to serve his alma mater after gradua-tion serving as head basketball and tennis coach, assistant football coach, intramural director and athletic direc-tions and the service of th tor. He presently resides in Silver Spring, Md.

Joseph Franklin Bona, '26, was a Joseph Franklin Bona, '26, was a two-sport star in football and basket-ball on the Hill. A Little Ali-America selection as guard in football. Bona was the 1926 recipient of the Alex-ander Medal. After graduation, Bona coached at Swedesboro (N.J.) High School for 35 years (football, baseball track, basketball). He was a past-president of the New Jersey Inter-Scholastic Athletic Assection and the scholastic Athletic Association and in 1970 was selected to the New Jersey Football Coaches Hall of Fame and in 1980 to the South Jersey Coaches As-sociation Hall of Fame. He is being honored posthumously.

Mary Ellen Senat Dixon, '33, was

the leading force behind the introducthe leading force behind the introduc-tion of field hockey at Western Mary-land College. An All-Philadelphia choice on the scholastic hockey team, Dixon also participated in basketball on the Hill. President of the Women's Athletic Association, she received the "M" monogram for excellence in the sports program at WMC. She cur-

10

rently resides in Anniston, Alabama. Michael Phillips, '47, was a three-sport athlete at Western Maryland College. He was a lineman in football, a pitcher on the baseball squad, and a pitcher on the baseball squad, and also played varsity golf. He played professional football for the Baltimore Colts (1947) and the Richmond Rebels (1948-50). He was captain of the 1942 Green Terror football squad and was named All-Maryland by the Baltimore Sun in 1941 & 1942. He is currently ab Insurance salesmon recidence far an insurance salesman residing in Bon Air, Va.

Linda E. Van Name, '74, was a three-sport captain in field hockey, basketball and lacrosse. She was named to several All-Region field hockey teams in 1971 and 1972 in the Baltimore area. She led the Western Maryland women's basketball team in scoring during her four sea sons and currently stands third on the all-time scoring chart with 773 points. In addition to receiving the Most Valuable Player award for basket-ball, Van Name was the 1974 recipient of the Women's Alumnae Athletic Award. She is currently a health in-structor in the Harford County Schools and resides in Havre de Grace, Md. ORENSTE

New inductees to the College's Sports Hall of Fame are (I-r): Linda "Lin" Van Name, '74: Hugh B. Speir, '22: Mary Ellen Senat Dixon, '33: Michael "Mike" Phillips, '47; Marion Bona, widow of Joseph F. Bona, '26.

From the Alumni President by Jerome P. Baroch, Jr., '64

We pass through many changes during our allotted time, and how we prepare for and accept these changes frequently determines how well we cope with the future. Western Marycope with the future. Western Mary-land College is going through one of those periods when change plays an increasingly important role. As an ob-server of the college for many years, it has comforted me to see WMC adapt so well to the many changes it confronts. Some changes are easier to absorb than others. The change from the old Gill Gymnasium to the new Physical Education Learning Center. the physical

Education Learning Center, the physical cal improvements to the quad and Albert Norman Ward residence hall, Albert Norman ward residence hail, and the increased recognition and ac-tive involvement of the Young Alumni Association are certainly good, wel-come changes. The starting of the new academic year contains a striking

new academic year contains a sirtikin change for the new students and fac-ulty and a familiar change for those returning again to the college. Other changes may be more diffi-cuit to accept. When we think about changing to a new College President, after the always comforting and able presence of Dr. Ralph C. John; a new presence of Dr. Ralph C. John; a new Vice President of Development, after the congenial, dedication of "Jim" Ridenour; and a new Alumni Associaridenour; and a new Andmin Associa-tion president, after the energetic, strong leadership of Eloise "Chip" Payne, we must have confidence that change is necessary in the grand de-sign, regardless of a comforting statu

Change is going to take place whether we want it or not; and the mark of a good, growing and continuing college is how well it prepares for and makes changes. Although the test of time must be met by the new incumbents, the preparation and selec-tion processes have been thorough.

All alumni join me in welcoming Dr. Robert H. Chambers and his fam-Dr. Kobert H. Chambers and his fam-ily to the College Presidency. Among Dr. John's, Jim Ridenour's and Chip Payne's many accomplishments must be included the ground work they have laid to ease the turnover process for those of us following them. Cer-tainly, are must they be the factors tainly, we must thank them for the high standards they established in their jobs, standards which make the transition a challenge for the new comers.

I would be remiss in not mentioning another charge that is difficult to make. Mrs. Dot John has been a real delight to know. Her involvement, con-geniality and interest in so many col-lege and alumni activities has endeared her to us all and she will be missed

Finally, there is one constant I hope Finally, there is one constant I hope we are all looking foward to -AlumnI Weekend, May 3I, June 1, and 2. As I take over as President, and Katherine Kaiser Frantum, '45, takes over as President-lect of your Alumni Associ-ation, we want to encourage you to come back to the Hill on Alumni Weekend. We want alumni to see many of these observed to me any many of these changes I've mengood feeling that no matter how many changes take place the campus still retains the same, consistently friendly atmosphere you remember.

Meritorious Service Awards

Five Meritorious Service Awards were presented during the Alumni Banquet at the College on June 2. The Meritorious Service Award is

given on the basis of unusual service in the form of faithful and continued effort in maintaining class or other alumni organizations; active participa-tion in alumni or college affairs; or as-sistance in expanding the usefulness. influence and prestige of the college. Recipients of the 1984 awards are:

James E. Lightner, '59; Raymond S. Mathews, '24: Eugene Willis, '34: Richard W. Kiefer, '34: and Theodore G. Neil, '59.

Jim Lightner, a native of Frederick, Md., has been a friend and advisor to the Western Maryland College com munity for many years. Professor of mathematics and education at WMC he served as treasurer of the Alumni Association for 10 years, chairman of the Undergraduate Relations Commit-tee in 1972. A frequent speaker at alumni gatherings from Boston to Hawaii, he presently serves as the sec-retary of the Delta of Maryland chap-ter of Phi Beta Kanpa at the College ter of Phi Beta Kappa at the College

and is a permanent member of the Class of 1959 reunion planning

Ray Mathews, a resident of Lookout Mountain, Tenn., has carried out the responsibilities as chairman of the Class of 1924 for more than a decade He organized both the 55th and 60th reunions and his leadership and dedi cation made both events a great success. He has also been an untiring organizer and campaigner for annual Alumni Fund drives and served as

Class Chairman for the 1980-81 drive. Eugene "Stoney" Willis, a long-time resident of Westminster, has established a long and creditable record of service to Western Maryland College. In 1963, he co-led the successful Westminster Centennial Expansion Program and he has served as Chair man of the Harlow Memorial Commit-tee. Director of the Physical Plant at WMC from 1962-75, Willis has partic-ipated in many Alumni Fund activi-ties and as President of the Class of 1934 helped put together a very suc-cessful 50th reunion. Richard Kiefer, a resident of Catons-

ville, Md. and senior partner of the law firm of Hooper, Kiefer and Cor-nell, has provided talented leadership and untiring devotion to his alma

Students Inducted into ØBK

Twenty-one Western Maryland Col-lege students and one alumna were inducted into the college's chapter of Phi Beta Kappa on May 6. Phi Beta Kappa, the national Phi Beta Kappa, the national

liberal arts, established the Delta Chapter of Maryland at Western Mary land College in 1980. The purpose of the honor society is to recognize and encourage scholarship, liberal culture and good character. Students are elected by resident members of Phi Beta Kappa and are recognized at in duction ceremonies held in Baker

The fifth induction of students into the Delta Chapter of Maryland of Phi Beta Kappa was held in "Little Baker" Chapel on Sunday, May 6. New mem-bers are (L-r.) row 1: Chris Beyers, Krystie Adams, Sherry Cook, Audrey Adams, Chris Soto, Liz Stegenthaler, Ken Schaefer, Linda Franklin, Kevin Clawson, and Mike Armacost. Row 2: Daniel Krolikowski, Jeff Leiken, Linda Myers, Linda Block, Ann Blizzard, Scott Scroggs, Sherri Bennett, Michele Hutschenreuter, Stacey Pfelfer, Lestie-Ann Yarrow, and Jim Francis.

Hagen and Nygren Honored proposals for the Office of Education at Honors Convocation

Elizabeth P. Hagen and Edward J Nygren, of New York, N.Y. were awarded the Trustee Alumni Award for distinction and service to the community and the college at the 1984 Investi-ture and Honors Convocation on May 6.

ture and Honors Convocation on May 6. A 1936 graduate of Western Mary-land College, Hagen is a widely recog-nized scholar in the field of educational measurement and evaluation. She is coauthor with Robert L. Thorndike of the placest text Measurement and the classic text Measurement and Evaluation in Psychology and

Education. As a frequent consultant in her field, Hagen has since 1965 been con-sultant and field reader of research

Corrections to the Alumni Directory

proposals for the Office of Education and the National Science Foundation on measurement, evaluation, curricu-lum, and learning. She has been a member of the Ad Hoc Advisory Com-mittee to Health Manpower and Edu-cation for the National Institute of Health and has served as a member. Health and has served as a member of an NIH advisory committee. She has also been consultant to the Engle-wood, New Jersey, school system on evaluation of educational innovations and quality of educational programs 1966

Dr. Hagen is a member of the New Dr. Hagen is a member of the New York Academy of Sciences, American Psychological Association, American Educational Research Association and Sigma XI. In 1979 she was appointed to the Edward Lee Thorndike Profes-sorship in Psychology and Education

at Teachers College/Columbia Univerat Teachers College/Columbia Univer-sity where she taught as a professor of psychology and education for 26 years, retiring in 1981. Professor Hagen is a graduate of Western Maryland College (A.B) and Teachers College/Columbia University (M A and Pb D)

(M.A. and Ph.D). Edward J. Nygren, a 1947 graduate of Western Maryland College and a native of Westminster, has devoted his career exclusively to the medical care of disadvantaged populations. He has volunteered his services in underde-veloped countries and was a Peace Corps volunteer in Africa in 1962–64. Nygren has visited and worked in a number of areas including Niger, West Africa, Brazil and Nicaragua.

Nygren served as the medical direc-tor of Project Hope in Leon, Nicaragua,

Akolac, Inc. and a resident of Sykes ville, Md., has served his alma mater with his participation and leadership in many activities. In 1968, he served as vice president of the Baltimore Alumni Chapter. He has also served with the Alumni Association Reunion Study Committee in 1975 and the Alumni Awards Committee and has assisted in the planning of the past four reunions of the Class of 1959.

Meritorious Service Award recipients are (l. to r.) Dick Kiefer '34, Jim Lightner '59, Ray Matthews '24, Ted Neil '59, and Stoney Willis '34.

The students inducted into Phi Beta Kappa include: Audrey Adams (Severn, Md.), Krystie Adams (Severn, Md.), Michael Armacost (Hampstead, Md.), Sherri Bennett (Salisbury, Md.), Md.), Sherri Bennett (Salisbury, Md.), Chris Beyers (Columbia, Md.), Ann Blizzard (Baltimore, Md.), Linda Block (Owings Mills, Md.), Kevin Clawson (Westminster, Md.), Sherry Cook (Luret, Md.), James Francisci (Rock-Md.), Michele Hutschearteuiser (Olien Arm, Md.), Daniel Kroilkowskir (Md.), Michele Hutschearteuiser (Olien Arm, Md.), Daniel Kroilkowskir (Md.), Ken Schaefer (Ellicott City, Md.), Scott Scrozys (Rockwille Md.), Lir Site Otto Scott Scrozys (Rockwille Md.), Lir Site (Md.), Ken Schaefer (Ellicott City, Md.), Scott Scrozys (Rockwille Md.), Lir Site Scott Scroggs (Rockville, Md.), Liz Siegenthaler (Adelphi, Md.), Chris Soto (Kensington, Md.), and Leslie-Ann Yarrow (Rockville, Md.).

mater. He has been a member of the

Board of Trustees since 1967. He has also served as Chairman of the Balti-

more area Centennial Expansion Pro-

gram (1967), Chairman of the Class of 1934 Reunion Fund Committee and

as a member of the Alumni Awards

Western Maryland College in 1978.

Ted Neil, personnel manager at

Committee. He was awarded an honorary doctor of laws degree

The new alumni member is Dr. Caryl Ensor Peterson, class of 1958, who resides in Timonium, Md. The daughter of the late Dr. Lowell S. En-sor, fifth president of Western Maryland College, and Mrs. Eloise En sor Parker, Dr. Peterson is an associate professor of biology at Towso State University. She earned her master's degree in biology from Bryn Mawr in 1959 and a Ph.D. in anatomy from the University of Maryland in 1977. While a student at Western Mary-

land College, Dr. Peterson was edit of the yearbook, president of Beta of the yearbook, president of Beta Beta Beta, a biology honor society, and was a member of Trumpeters, a leadership honor society. She was also named to Who's Who Among Stu-dents In American Colleges and Uni-versities and was graduated from Western Maryland College as class

Mrs. Carl G. (Barbara Brower) Mueller, '46

Mr. Ted Mudgwick

for:

This has been a sad year for the Class of '27 between illnesses and deaths among its members. We are saddened to announce the members. We are saddened to announce the death of WALTER R. SMITH who died of cardi-ovascular disease on August 24, 1983. Our sympatry goes out to his wife and to his son and daughter. "W.R." had served as superin-tendent of schools from graduation until 1955 in Glen Cove, N.Y. His daughter was graduated from WMC in 1955 with honors.

It is with sadness that we report the death of DAVE PRICE. His wife, Inez, reported his sudden death on the third of March. Our sym-pathy is expressed to Inez and their six chilpathy is expressed to the and then six chil-dren, the youngest of whom is a graduate of WMC. Dave never missed a reunion, and we wished we had known Inez, too. We shall remember Dave as the big hunter, everything from moose down.

week later. Gil was retired from both the Vir-ginia Power Company and the U.S. Army. He was buried with full military honors in Arlington National Cemetery.

ton National Cemetery. The second sec

cently. JOE REINMUTH writes "life today may not be as exciting as when LIB BEMILLER and 1 took off every year for those 'far away places with strange sounding names: But it certainly isn't boring or lacking in activity. Currently. I'm busy with lawn work, with the fond hope Init boring or tacking in activity. Currently, I'm busy with lawn work, with the fond hope pounds I piled on during holiday and winter entertaining. I low creating goodles' for my guests, and of course, sampling them). Your round, I'm up to my easi' nchurch work. When something needs organizing, they just cate it is the Chief Flein'. There's the as-sembly line production of the sewing group to keep moving (Harsh takkmaster)! hope not, There's the teaching staff of the Women's Bible Class to be coordinated. (Of course, I tak sight IS ince vision limitations have preven-to Westminister, I must heed the phone com-pany's admoniton. Reach out and touch someone-Liba of course. But today is a red let-ter day! A friend is taking me to visit my

someone-Lith of course. But today is a red let-ter day! A firend is taking me to visit my favorite classmate." HAZEL BRATT wrote that she is still and avid Oriole fan. The highlight for her was at-tending the world series championship games as the guest of Edward Bennett Williams, own-er of the Orioles and noted lawyer. Fun con-tinues in going to the Atlantic City casinos but haven't yet hit the jackpot. ELIZABETH WARREN writes that she. John. Josephime, their cats, and their dog live quiet, uneventful, but happy lives cruising down the Pocomoke River or picnicking from their gracious home near Snow Hill.

served as a nurse for 50 years at the Anne Arundel Hospital. MARY CARROLL BOES-SELL's husband died in 1983 (he had at-tended our 60th reunion). Mary Martin, wife of GILBERT MARTIN, died January 30, 1983. We extend our deepest sympathy to the fam-ily of ADA LEITCH. To MARY CARROLL BOESSELL and GILBERT MARTIN, you classmates extend their sincere sympathy. Please send me any news that would be of interest to our classmates. Do keep in touch

Miss Martha E. Manahan 143 East Green Street Westminster, Md. 21157

1926

Summer '83 was a hectic one in Ocear City. After 17 years in a small downtowr trailer park the land was solid and now 55 trailer park the land was solid. We spent almost being built. We spent almost 40 years in the area of bay inlet and ocean. Our trailer was aging—our third. The first was a small one to travel the USA, the second for the beach which was too small for grand children

The highlight of our last 15 days in Ocean City: WMC Alumni met. FRED NICOLL '62 and wife JOANN CARSCADEN '64 enterand wife JOANN CARSCADEN 64 enter-tained Lower Shore Chapter at their Spanish Main Motel on Sept. 17. After a social hour we went to Phillips Crab House followed by a pro-gram given by DR. SAMUEL CASE '63. He is a promoter of physical fitness in communities. No one from '26, but other alumni were very chapter of the social sectors of the social sec

pleasant. In June LLEWELLYN and SERENA DRY In Julie LES WELLT A unit Distant of the DEN ASHBURN were in Heathville, Va., at the home of his sister. Their son, DR. WILLIAM ASHBURN '55, flew with them from home in Carlsbad, Calif., to Washington, DC. They drove to Milford, Del, to visit Serena's sister, MIRIAM DRYDEN CARPENTER who has not MIRIAM DRYDEN CARPENTER who has not been well for some time. The Ashburns spent several weeks in Virginia while their son was attending meetings in DC. Liewellyn had not been well after a slight stroke followed by surgery to clear his right carotid. However hie was able to drive some while vacationing which he had not been able to do previously.

which the had not been able to do previously. In my last correspondence with VIRGINA WHEELER HAMLI'NO of Sacramento Call. I learned she has three grandchildren in col-lege. Dation and I expect to spend some weeks in May and June at Pt. Ord near Monterey. Call of our 17-year-old grandfangther Year 1982 was a sad one for DOROTHY ROBINSON GREER of Belair, Md. Her hus-band, Garland, died Dec. 4 after a long strug-gie with cancer which meant months of hospitalization. She was with him everyday even when also forgitation to remove the and PRESTNO. She was with the every and the mean structure of Anzlo Beahr. I hear form relatives of Preston's with, RESS HA/-MAN GRACE 2 There in town, that he is not very will.

REV. CHARLES SUBOCK died July 30. 1983. His widow, who sent the notice, is at Gaithersburg, Md. Methodist Home. I sent a

ELIZABETH LEIZEAR, of Bethesda, Md. ELIZABETH LEIZEAR, of Bethesda, Md., writes that she was in Georgia two weeks in August visiting the family of her deceased sister. She has been to Sykesville, Md., to the retirement home of RUTH LENDERKING WORMELLE and her husband, Curtis. Dur-ing Thankegiving and Christmas she spent

13

VELMA RICHMOND AND AL '28 write that they keep busy with church work, Senior Citizen's club and Women's Club. A special project is making afghans which are distributed directly to an orphanage in Pusan, Korea. They take great happiness in their family. Their oldest grandson will be a junior at Duke University this fall.

HORTENSE PETTIT's sisters Madeline HORTENSE PETTIT's sisters Madeline and Mae Mason gave her an 80th birthday party on May 4 at Wackapreagne Club. The club is on the water and the view was beauti-ful. The Pettitis have a good routine of living. Hortense tries to have the meals ready when her sisters come home from work. She con-tinues to be proud of the roses they grow. The Pettits are busy at present freezing strawberries and peas

BESS HAYMAN and PRES GRACE '26 are finding much joy in their family. Pres' health is still precarious and Bess is kept busy look ing after him. Of Lucy Ann and Bill, she writes "They are proof of what a family should be." Lucy Ann's Chip will be a junior at Penn State and Susan a junior in high school. Bill's Laurie will be in the School of Forestry at Virginia Tech, while Lisa will be a sophomore at Davidson College in North Carolina. A very beautiful and consoling

A very beautiful and consoling letter reaches me personally from ANNE LAUDER LOGSDON. She and her husband are present-ly visiting their daughter who is a family con-sultant in Human Resource Management, in heaton, Ill. CATHERINE SPONSELLER THOMAS had Wh

considered moving to Florida, but decided she loved her home in Silver Springs too much to leave it. Her son, Tommy, is in building and likes it

ESTELLA ESSIG YINGLING wrote me a beautiful comforting note. She enjoys a rather quite life in her town of Taneytown, having re-tired from most of her musical activities.

From her Victorian home in Virginia MARTY RICE writes that she has found researching her Maryland antecedents very re-

researching her Maryland antecedents very re-warding, especially her relationship to Lady Baltimore ne Jane Lowe. It was a joy to get a letter from Frances Barnes, BLI's (BERNARD IRWIN) widow. She had always attended reunions with BLI Frances now lives in Charlotte, NC. to be near her daughter. LEW WOODWARD, always writes a very

oling letter, the kind I need just now Thank you. Lew.

GEORGE and Elma SULLIVAN engage in a great amount of travel for pleasure, for favisitation, and for AARP 55 Alive Mature Driving Program. They have visited various towns in Florida. Attended various confertowns in Florida. Attended various confer-encess and a convention. They entertain their older grandson, his wife and their children at their little place in the Black Mountains of North Carolina. Their granddaus will also visit in North State and the second state of the Black and the month. The Sullivans have Florida and are getting ready to go to Obern-Florida solid ergeting ready to go to Obern-Germany, and Switzerland. BLANCHE FORD BOWLSBEY wrote: "April 29th we left for our tour of Egypt where we

29th we left for our tour of Egypt where we found the architecture and art positively mind-boggling. Last summer we visited the three large Scandanavian Capitals: Copenha-gen, Stockholm, and Oslo. In July, I plan to do Finland, Lapland, the Fjiord Country and gen. Stockholm, and Osto. In Juty, I plan 10 do Fhaind, Lapind. the Fjord County una North Cape. My year's accompt of London 1 to hankoy of the Bowlsbey family, which is documented back to 1552. Now I'm trying to do the same thing for my own family, the Fords, and am helping write the history of my church–Sand Mount. United Methodist Church. In May, Michele Fiesher the talented arits, who devised our class memorial Jonned me in the sad duty of updata with a now en-nomed has reached \$2,165, which provided approximately \$150 per year for books. Con-tributions can be made at any time to the Class of 1927 Library Memorial Fund–either as a gift or "in memory" How good it is to know that this fund will exist to help WMC students long after we have all passed on "The JOHN WO, 12 will be Apt. 400, 201 st.

The JOHN WOODEN's announce their new address after July 12 will be Apt. 400. 201 St. Mark Way, Carroll Lutheran Village, Westmin-ster, MD 21157 where the latchstring will be out as it was at 32 Fitzhugh Ave. Young FRED 64 moved back to Westminster after the tragic death of his wife, Angela. He and his son, Michael, now live on a farm with horses, near Manchester

The WILLIAM "Reds" and Louise PHIL LIPS are now adjusting to the Arizona style of living. Reds will be celebrating his 80th of living. Reds will be celebrating his 80th birthday on July 12. His eldest son, of Craw-fordsville, Indiana, is planning a party for him in San Diego. Calif. They had earlier driven to Rediand, Calif. to attend their granddaughter's performance in her high school play. Later she performed in the tour of the Beaverbook Cho-rus in Chicinnati.

I have fond memories of Cat Lab. This course was designed for Pre-Med and Science major students. Dr. Bertholf was the new

professor of biology. His philosophy of teach-ing was to provide the assignment, retreat into his office, and provide help as needed. Only one of our cats turned out to be sufficiently preserved for use, so before long a division of labor was established. BILL HAHN '28 (de d) became expert at dissecting and ar ceased) became expert at dissecting and ar-rived regulary in class with scalpel and surgical gloves. SUE BOYER and I with our usual curiosity found our niche in identifying the individual parts of the cat. GEORGE "Bake" BAKER Mad a Knack for recording in clear drawing what we had seen. PHILENA FENBY, SAM BRIANT 28 (deceased) and KATHERYNE GLIEBERT 29 completed our workers. I imagine LEW WOODWARD took Workers I imagine LE w WOODWARD took Cat Lab the year before. Our assemply line worked fine. What happened to this group? Bill Hahn became Professor of Anatomy at University of Maryland School of Dentistry Sam Bryand practiced dentistry for many years. Sue Boyer and I taught biology for over 40 years each. Philene taught a couple of years, married a minister and raised four sons. Kathryne Gilbert married and later became a medical technician. Lew Woodward spent a medical technician. Lew woodward spent many years as Chief Surgeon for the State Department. George Baker became a neu-rosurgeon at Mayo Clinic. A rather success-ful group of alumni, don't you agree? LOUISE HUGHLETT JOHNSON still loves

LOUISE HUGHLETT JOHNSÖN still loves her hom: "Treetops" narz cambridge. Her family are now living in Dover. Delaware. Her granddaughter "Liz" is working on her master's degree from Nale and has a fail time ef from the University of Maryland School of Law and will practice law in Maryland. Grand-daughter, Kate, entering Juniov year at Loyda says the classes are dealing with "Grandman". Louise says it makes her feel like 100 years. SUB DOTER: manhers graduation day SUB DOTER.

when she teetered along in her cap and gow in black patent pumps with outrageously hig heels on the sidewalk in front of McDanie Hall. She still enjoys gardening in spite of her new arthritic joints. Thank you for your personal messages, Sue. SADIE "Tut" ROSENSTOCK and NATE

WEINSTOCK continue to enjoy life in the Sun-shine state. Tut is engaged in various volumsome state. But is engaged in various volum-teer activities, Nate is busy as president of their condominium. Susan recently visited her parents, arranging the Miami visit of the Leaf Gallery. Judi and her husband. Bob, have a daughter, Sharon, who will enter Tufts University this fall. Tut's oldest daughter, Helen, is busy as a mother of four and grand-mother of three.

mother of three. ARNEM and FRANCES RAUGHLEY '30 ROBERTS write that 'we are rapidly moving into the stage of limited involvement, watch-ing the tourists go by, and from our rocking charse counting our age in frends, not years' The Roberts missed attending the banquet at which Dr. John was honored. Their son, Don '55, however, was happy to participate in the collease abelt. college choir.

note and enclosures from HILDA

The note and enclosures from HLDA BLOOMQUIST BYERS were beautifully con-soling, Thank you so much Hilda. Thank you. EMILY PICKETT BROWN for your encouraging letter. Emily writes that abe lives quietly in the little village of Poplar Springs, Md. She continues her activity in her church, and we remember her helping young people when she was a school counselor. VIRGINIA WLSON SHOCKLEY writes

"Remember who we all cried as we sang 'God Be With You Till We Meet Again' at our graduation? Perhaps our class never met again in its entirety, but just remember how our class has held together and communicated for 57 has held together and control that she has recently yisited MIRIAM "Mims" ROYER BRICKETT's brother CARROLL in the Salisbury General Hospital and met his wife, Mary. Wilmore Hospital and met his wife, Mary. Wilmore Shockley had eye surgery at the Wilmer Eye Institute. He has found it frustrating to get used to reading with one eye. Do you remem-ber the fun we shared two years ago when we were inadvertently locked in our apartment?

Thank you for the opportunity of letting be your class secretary for these many me h years. It has been a real joy and pleasure

Elizabeth G. Bemiller

Editor's Note:

th Graham Bemiller of Westmin Elizab ster, died August 1 at Westminster Nursing and Convalescent Center after an extended illness

Born in Westminster, she was the da of the late Wesley and Sara Conner Bemiller

miller. She taught biology at Westminster High School for 44 years. A graduate of Western Maryland College, she was class secretary for 12 years. She did graduate study at Columbia, Indiana and Rutgers universities and the University of Maryland. She was life member of Grace Lutheran

Church and active in many church organiza-tions. She was a member of the Retired Teachers Association, the National Association of University Women. and the Carroll

County Historical Society. She was also a member of the original Westminster Players. She was named Woman of the Year in 1962 by the Westminster Soroptomist Club.

Blanche Bowlsbey announces that contributions to the Elizabeth G. Bemiller Memorial Fund are still being accepted. Donations may be sent to the Alumni Office designated for the fund

1928

14

The Rev. KARL H. WAREHEIM and wife Louise are living at Carroll Lutheran Village and are enjoying the fellowship of the resi-dents of that retirement home located in the beautiful hills of Carroll County. It is good to know that both Karl and Louise are also enjoying good health. Their address is 201 St Mark Way, Apt. 114 Westminster, Maryland Way, Apt. 114, Westminster, Maryland

ANN REIFSNIDER also lives in Westmin at 48 Westmoreland Street. Ann writes that she is getting along fine. She doesn't drive unat she is getting along mine. She doesn't drive now so she sold her car. Her little four-legged friend, Nellie, is a source of great enjoyment to Ann. When any of you are up Westminster way. Ann hopes that you will drop by to see

JACK MEARS who continues to live in New York City, had hoped to attend our 55th reun-ion, but unfortunately he had a broken leg at the time. Jack writes that that has all been the time. Jack writes that that has all been repaired with no residual defect. He still has a heart problem and is required to have his pacemaker checked once a month, usually by telephone. Jack says. "Otherwise I'm in great shape considering my youth." He spends all his time in New York except for occasional visits to Piorida, where for the most part he visits to Piorida, where for the most part he Work. He says that so far this type of life desart seem wrve excitting or adventurous, but he seem very exciting or adventurous, but he does keep busy with friends and enjoys not doing too much.

Although ALICE FREENY GILLIS of Palm Harbor, Florida, did not send in a news item, I saw a picture of her in the Salisbury Daily Times, taken when she returned to Mardela Maryland, as one of the teachers who attend ed the 50th reunion of the Mardela High School Class of 1934.

From MARY ALEE BENNETT BROWN'S From MARY ALEE BENNET'T BROWN's son William came the sad news that his mother has had Almemer's Daesau have been been been and how of weather been have been been and how of the same of the same lowed and would write if ahe could." On May 17, 1984, LOUES BAUS HOP(INS) and I drove up to Seaford to meet ROSELDA TODD for a most enjoyable huncheon and get-together at MAE MILLS LAMEBERTSON's there was much hildrift as are remnisered used

there was much hilarity as we reminisced well late afternoon.

A year or so ago. I was delighted to the opportunity to see BETTY PHILLIPS BAIRD, who was with the class of 1928 during our freshman year. Through a friend, I contacted Betty and recently received from her a most interesting letter. She wrote, "I was her a most interesting letter. Sne wrote, 1 was thinking this morning that sixty years ago (1924-25) you and 1 were freshmen at WMC-just the age of my grand-daughter Anne Waters, who is a freshman there now and very happy there." Betty enjoyed receiv-ing copies of the *HII* occasionaly from her late T WINIFRED PHILLIPS BELOTE, '21. Betsister WINIFRED PHILLIPS BELOTE. '21. Bet-ty transferred to the University of Maryland, was graduated, and taught at Wicomico Senior High in Salisbury. She has one daugh-ter. Elizabeth Meyers Waters, a graduate of Bucknell University, and one grandbaughter, Anne Elizabeth Waters. Betty's husband, An-drems Board on the states. Betty's husband, Andrew Baird, died this past June on their 45th

The WMC Alumni office passed on the information that it had received about ANN RAWLINGS, who was a former member of our RAW birds, who was a former memory of our class. Her sister wrote the following: "My dear and only sister baptized Ann Mariah Rawlings died on June 10, 1963. After Western Marydied on June 10, 1963. After Western Mary-land, she attended the University of Rochestr and was graduated from there. Later she studed at Columbia University and at the University of Heidelberg, in Heidelberg, Ger-mary. She studied and lived for a year in Amary. She studied and lived for a year in Amary. She studied and lived for a year in Amary. She should have a studied at the University of Heidelberg in Heidelberg, Ger-mary. She should have a studied at the Heidelberg and the sheat librarian at William Howard Taft. High School in New York City." From BETTU DAVIS STEPHENES comes

Howard lait High School in New York City." From BETTY DAVIS STEPHENS comes the following: "BOBS" ROWE SHERWOOD '29. ROBERTA SENTMAN BRYSON, BETTY NORMAN BURNETT, EDITH LYNCH KURTZ, and I are an alumnae association of WMC's senior citizens. I'd love to see all the others, but I can't drive a car and my grandchildren wouldn't approve of my hitch-hiking. "Write to Grace, you all. You must have something interesting to tell us." Thanks, Betty, for the news and for those last two sentences! As for me, I'm still travelling around. In

March, 1984, I took a delightful seventeen-day trip to Morocco sponsored by the Smithso ian Institution. One can hardly briefly describe Morocco better than is done in Smithsonian's tour literature: "Morocco is a land of mountains, desert, medieval cities, nar row streets, souks, and mint tea; a place of haunting beauty inhabited by people of fierce was indeed an enjoyable and varied one-In June I organized and promoted an annual trip sponsored by Beta Chapter of Delta Kappa Gamma Society. This year we took a delight-ful six-day trip to New England and a part of New York State. Among those who were in the tour group were SUE BROMLEY POWELL '29. WILSON DUNCAN, SR., M.Ed. '64, DOROTHY HOLLIDAY GRAHAM '30, MARY HUM-PHREYS '32 and CAROLE UNKART SIELING '63—In August, one of my long-time goals, a trip to Ladakh in northern India didn't materialize. I got as far as Kashmir where I came down with a cold so had to delay the trip (by jeep) for a day or two. Then came a landslide. Jeep) for a day or two. Then came a landslide. necessitating flying to Leh, the capital of Ladakh, which is located at an altitude of 10,000 ft, and the guide refused to let me fly. I eventually flew to Brussels and took a week's cruise through Beigum and Holland–Armong the many rewards of my three post-retirement jobs in Phran, fran, and Southern Pines, made there. During the first two weeks of November. I traveled by bus and train in North Carolina and Virginia for brief visits with some of those friends, including my former assistant those friends, including my former assistant librarian at Tehran American School. It was just great to see those friends again, to reminisce about the pre-Revolution days in Iran, and to catch up o on the latest news of the North Carolina Sandhills area.

Miss Grace H. Jones 514-K Georgia Avenue Salisbury, Maryland 21801

1929 Rereading all the cards and notes I received

in reply to my quest for news, I'm convinced that many of us count as best times either travel or meeting with old friends and acquaintances. Makes me think I'll probably see lots of you in June before this column is published.

ublished. I went last September to a regional alumni function at the Spanish Main Motel in Ocean City with LUCILLE HALL MALONE '53 where we saw DOT ROBERTS ETZLER and her husband. Dot has had a full year-a delightful trip to Western Maryland for the Sports Banquet where her father, Rev. Dr. WINIFRED P. ROB Where her lattner, key, Dr. whith Kebr F. Ros-ERTS '03 was inducted posthumously into the WMC Sports Hall of Fame. The award was ac-cepted by his son MAURICE "Augie" '36 and cepted by his son MAURICE "Augie" '36 and his daughter, our Dot, who were only two of the 18 family members present of whom four nicces and a grandaughter were WMC grad-uates. That was November. By December yhen Dot and Norman planned another yanket to Hawaii to visit their daughter, she was instead hospitalized for a triple-by-pass. She must have made a marcelous recovery phone in March and halfed to her on the to Hawaii for April 10, and fully expected to get to the reunion in June.

get to the reunion in June. Until recently I had heard very little of Until recently I had heard very nute or elderhostel programs but they must be great. DORIS HOFFMAN LAKE tells about going with her sister "Tobst" (MARGARET HOFF-MAN RICHARDSON '31) to Taos, N. Mex-where they were lodged in Mabel Dadge Luhan's unique adobe house and 'delved into 'the "the minima and materias of Pueblo Inthe life, culture, and customs of Pueblo In dians." KEN BROWN says he and his wife after going to Fred Waring's Music Workshop the past two summers, have signed up for a three-week Elderhostel program in England

Unce week Elderhostel program in England this summer. "It's a great experience to go back to college," says he. Doris had a great Christmas '83 too as she went with her daughter's family (six Mac Dougalds) to Madrid to visit a grandaughter who is an exchange student at the University of Madrid. They went also to Grenada and Seville and ended up in Tenerife, Canary Islands

My eldest grandson also visited Grenada-a different Grenada on a different mission as he was with the 82nd Airborne on invasion day in the Caribbean. He returned safely but his short war was not all the excitement of the past year. He and his wife presented me with my first great grandchildren—a pair of iden-tical iwin girls named Heather and Ashleigh. A letter from SAMUEL "Juggs" DOWNER EXpressing his enthusiane for our 55th fe

expressing his enthusiasm for our 55th re-union gave a summary of his travels before his retirement 14 years ago. "Our first cruise was on a French ship to the Caribbean where we fell in love with Barbados and have returned

twice for vacations," says he. "We covered Europe, Mexico, Central America, South America, Africa, South Pacific and Asia. Most of our time mention and the same set of the sa America, Ameri, South Facine and Face average of our trips were two months or longer as was the Around-the-World/Jour." Can you imagine? He says he has been "subdued" lately—his last summer's trip was to Tilghman Island. This spring he expected to go turkey hunting in northern New Jersey. He says he has a worknormern New Jersey. He says ne has a work-shop where he makes various articles of wood and repairs electrical tools and appliances and is a general handyman for his neighborhood. A letter from DOT GRIM WILSON says for a set is a clubesting of her 77th birthdows

A letter from DOT GRIM WILSON says after a gala celebration of her 75th birthday in November they had a very bad winiter-"ice-olated"—so her husband had to feed the cattle by going on foot and her lane completely closed by ice. They thaved out in time to win best-of-show honors for his honey at the 40th best-of-show honors for his honey at the 40th uses of show nontropy of the American Beckeepers Federa-tion in Minneapolis. She enclosed an interest-ing article telling a bit about their experiences as aplarists dating back to days before the Bay Bridge was built when they had to take their bees for pollinating experiments on the shore via the old ferry where they were allowed to transport their bees only on the last boat over at 2 a.m.

MARY "Polly" MACLEA says the highlight

MARY Polly MACLEAR says the ingmatter of her year was her annual trip to Texas to visit her two children and six grandchildren. JOHN KROH who plans to be at the re-union wants it all over by June 6 as he and his wife are leaving then for a tour of the scandinavian countries. He says that after teaching 40 years he has toured the U.S., Canada and Mexico, and has been to Europe three times.

A phone call from EVELYN BRADLEY TRICE said she and OTIS '30 are planning on the reunion after they return from a trip to Arizona.

MABEL SMITH is off to Myrtle Beach, S.C.

MABEL SMITH is off to Myriel Beach. Sc. and reports that the varied betr routine by go-ing north for two weeks to Nova Scotla. Prince Edward and New Brunswick Islands. Another MABEL SMITH CORSON '25 and her husband, Harry, were hosts to ANNETTA YATSS in Engleweed, Fla. Annetta says she has spent winters with them for the past 12 years but will be home in plenty of time to get to the reminon. By COLSBOOK claims to be managemented during the cold winter but she composite the state of the state of the state of a broken male state. The state of the state of a broken male state and some bones in the reflexion of a broken male state and some bones in the reflexion of a broken and south bones in the neglet leg, she sounds optimistic. She keeps in touch with BETTY SPICER. Remember her? She

with BETTY SPICER. Remember her? She stayed at WMC only a short time before taking off to get married. Less cheerful news from MILDRED DOUB

HAMMOND whose poor health precludes her coming to the reunion. She says her husband has been dead nine years but she lives with a grandson and has four sons, one daughter. fourteen grandchildren and nine great grand-children to come to see her.

Even more distressing was a note from Joyce Kaetzel who is the daughter of KATH-ERYNE GILBERT KAETZEL. She enclosed a

Joyce Raetzel who is the daughter of KATH-ERVNS GULBERK (KATZELS). She enclosed a picture and a newspaper account of a celebra-tion of hera parentis Softh wedding antiversary. Dod you ian for Dr. Lealle Caya at Johns Hopkins Hooptian? Site is now a resident at the Reder's Memorial Nursing Home and is quite III but, tear daughter awys, she enjoys news and pic-tures from her WMC days. A welcome letter from OERTRUDE KEL BAIGH earne just this morning. She won't make the reunion but she news the hore the unbild of 77 and has lived since then in a day how the since the soft and the report. She unbild of 77 and has lived since then in a right how with relegated her to a wheelchair. But she asys she "goes specing along in tu and finds it convenient and comfort. In beford and se warm friendly atmosphere of her home.

I had the good luck to get to an alumni meeting in Oxford when MARY RUTH HGLT HANNOLD (who divides her time between Maryland and New Jersey) and DOT HOOPER BOYLE were there and I'm hoping to see both in June. Dot was looking forward to a trip to California for the wedding of her forward to the As I write: this angest sont in May and look-ing hockward to a delightful trip with ROBERTA ROWE SHERWOOD to Cape May last summer where our hostes was the

15

RUDERIA ROWE SHERWOOD to Cape May last summer where our hostess was the wonderful KATFARINE 'Kappie' GRUMBINE WHITEHEAD who I'm hoping will be along in June. Hope you were watching the Olym-pics when Roberta's Kitty Carruthers and her brother, Peter, won the Silver medal for them pices when koberus shuty carruntes and new bordher, Peter, won the silver medal for figure skating at Sarajevo. She will be at Robertás house this summer but after September you will have to see the Ice Capades when it is near you as they are turning pro and beginning to earn their living with their art.

VIRTUE SHOCKEY CLOPPER and her husband went to Washington state and later

in the summer to Alaska via Sun Prince cruise. When Virtue is not traveling. her four grandsons keep her busy. Last fall LOUISE SCHAEFFER visited

Last fall LOUISE SCHAEFFER visited KATHERINE LEDY UNGER in Hanover, N.H. They toured the New England area. This in-cluded a tour of the Dartmouth campus where Katherine's husband had been a professor. ELIZABETH ROE NOBLE spent some time

in Florida this winter. In April, she is going to Greece. Some of the highlights of her trip will be Mt. Parnassos, Mt. Olympus, Palace of

Galerius, etc. I called MARGARET LEE NELSON TAWES the day after the severe storm and flood in Crisfield. She lives on Main Street where there were white caps in the street. In the wellknown restaurant, Captain's Galley, there was three feet of water. It was a scary experience, I am sure. But Margaret Lee and John came a am sure. But Margaret Lee and John came out safely. Margaret Lee's big interest is her music. She directs the church choir and the glee club for AARP. She is secretary for D.A.R., belongs to the bridge club and the belongs to the bridge club and takes an active part in the Retired Teacher's Associations—

county, state and national. MARY HUMPHREYS wrote that she had dinner in Ocean City with ELLA WEIR

dinner in Ocean City with ELLA WEIR QUEEN, her husband and grandson. CHARLES FORELINES' note told me that he had had a slight heart attack in December, but he is fine now. He also told me that HENRY CAPLE had not been too well. THOMAS OTTO's message was not a happy one. His wife died June 25, 1983. For the past year. Tom has not been feeling 100%. We hope that when The HIII reaches you, you will have improved. May your next note have better news. better news.

And now on the brighter side, CATHERINE HITCHENS STALLINGS MARVIL was married to Dr. James Marvil on September 10, 1983. We wish you and James much happiness. Luckily for us, they are living in Lewes, Del., so Catherine will still be able to meet with us for our Dover reunions. And now I must end our letter with

And now I must end our letter with some sad announcements. AMRAGARET MYERS TUCKER's husband died on Nov. 13, 1983. We had met Margaret's husband. Albert, at our reunions. We send you our sympathy. Since our lass letter, we have lost five of our classmates: BRADLEY BOWMAN died March 26, 1983; WINIFRED BUSHARE KARPER died August 18. 1983; WINIFRED BUSH GIBSON died Janu-1983; WINIFRED BUSH GIBSON died Janu-

ary 21, 1984; OMA LONGRIDGE NEFF died May 11, 1984; LOUIS E. TUCKERMAN died August 18, 1984.

And when you hear from me again, I hope that all of my news will be good news.

Mrs. Clarence J. Sullivan (Sara Robinson) Box 35 Fallston, Md. 21047

1933

we or friendship can ever cros ath without affecting us in some way forever Mauriac.

Mauriac. I am writing this on the eve of the "glori-ous fourth" and it will be read in February. I wrote to all our classmates, but only 34 re-sponded. Anyway, here goes—KITTY MER-RITT BELL traveled to Europe this summer. RITT BELL traveled to Europe this summer. and is now back in Rhode Island awaiting vis-itors. As you know Kitty lost her husband. Boh, last year and we sympathize with her. Had a great letter from POLLY PHILLIPS BEST, she is enjoying her granddaughters. (Enjoy now because they grow up too fast). She mentioned that she was expecting CLEO BRINSFELD REED for a visit soon, also that the Phillips had a summer date with the HRINSFIELD REED for a visit soon, also that the Phillips had a summer date with the WESTS. Now this is good news. HELEM NUL-LINIX BENDER, who has been ill, is now at home recuperating. Polly sees MARY HOBBS PHILLIPS now and then for lunch get to gethers. One of the fringe benefits of this job is corpresponding with many of you. For even gethers. One of the fringe benefits of una sys-is corresponding with many of you. For exam-ple LIB BUCKEY BIXLER keeps me in touch with the college with loads of clippings which I promptly send to others. Lib is enjoying their lovely farm this summer. The MILTON BORCHERS are fine and went to Saratoga. Calif., this past summer for the wedding of their first granddaughter, Amanda. RAWLEY BROWN is back in Maine for the summer-BROWN is back in Maine to the sammet had a good winter in Florida with a side trip to Bernuda. The Browns attended an Alum-ing athering in Florida meeting AL and Irene SADUSKY '34 among others. MARY EL SENAT DIXON and HARRISON '32 have been dividing their time between

³² have been dividing their time tween Pennsylvania, Alabama and New Jersey. Cur-rently they are at the shore where their daugh-ter recently visited. In August they expect their son and his wife, Mary El's mother has then soft and ms whe mary Lts mother has been ill and the Dixons keep nearby. Keep in touch, Mary El. Best news from FLOYD "Goose" DOUGHTY and Ella is Megan Scott "Goose" DOUGHT I and End is megan Scott Doughty, their new granddaughter. Ella and Goose are celebrating their 47th wedding an-niversary this summer. By the way did you

w that Goose is training for the Olympic LLOYD and RUTH GILLEIAN ELDERDICE returned to Maryland from Florida for Ruth's 50th class reunion. Also on June 16, they celebrated their 50th wedding anniversary. Congratulations! EZRA EDMONDSON says no Congratulations: EZRA EDMONESON says no news except keeping healthy, that is news from this vantage point. HELEN DOENGES ENGLE has been on the high school reunion circuit. While attending a 50th class reunion she met Cleo Reed who had been a high school teacher in Cambridge too. Helen also is enjoying a new little granddaughter. ANN JOHNSON ETZLER reported that she and Bob spent a lovely weekend with ANN WOL VERTON LAYTON and Gordon. They all at nded a Del.-Md. Alumni reunion seeing ALICE EVANS WALTER, '32 and husband, BRANCHE PHILLIPS and wife, and of course our DONNA SELLMAN '45. HENRIETTA LIT-TLE FOUTZ attended husband CHARLIE's '29 55th reunion at WMC. They had a great winter in Stuart, Fla. Henny, we have a friend there, a deputy sheriff, Francis Hey. Look him up, you'll like him. He is from Rhode Island natch. VIRGINIA HELSTETTER GOODMAN has moved to Catonsville—said they tired of weeding and mowing. I feel the same way I've had some great letters from ELMER HAS-SELL. In his capacity as minister he has so SELL: In his capacity as minister he has so many anecdotes. One, for example, consoling a 95-year-old lady near death and her two daughters visiting her. They were all so hap-py in his explanation of death that there were hugs and kisses all around. Nice. I have writ-ten to ELIZABETH ANDREWS HERBST ten to ELIZABETH ANDREWS HERBST about calling my son when she visits Colora-do in August. Andy recently visited Vegas and came back \$100 richer. JANE WINE and GEORGE "Bunk" HUNTER were given a surprise 50th anniversary party in June by their children. Some of us contributed pictures and letters which daughter Janie placed in an album. Their granddaughter graduated from Wells and their oldest grandson, a great ath-lete, is entering Clark this fall. WENDELL "Dick" JUNKIN reports his grandson is enter-ing Millersville State this fall. Dick and Carol have been visiting in South Carolina and North Carolina. They are planning to visit New Hampshire later this summer. Dick loves to Hampshire later this summer. Dick loves to fish and New Hampshire is great for that. Lots of news from the KIEFERS, SUE COCKEY and DICK '34. In May they spent a week in Ger-many, Back home to a National Council of Boy Scouts meeting in Salt Lake City, where Libby Hunter, Jane and Bunk's daughter, showed them around. Then the 50th reunion of Dick's class at WMC. They attended the many farewell parties for Dr. John as did the Bixlers. well parties for Dr. John as did the Bixlers. The Kriefers planned to visit summer theater at WMC. In addition they are celebrating their dath welding anniversary via Antrusk to NYC to see "Cats." TED LANDIS keeps so biase/haspeneded 33 times and maght bi-bic classes 40 times since last Jan. J. BY LIN. Zhaw not good. Herb has been 11 and we hope at this reading he is better. MARGARET "Syturak" ERB MANN and JIMMY '31 had a good winter, we stitut tight this summer good winter, were sitting tight this summer and expected to travel in the fall. Have not heard directly from EMILIE BROWN MORheard directly from EMILIE BROWN MOR-GAN, but indirectly you all will be pleased to know that she is much much better. TROY HAMBSCH MeGRATH is recovering from a presky back problem. Glad all is ok. Troy. I am deep in "And ladles of the Cuby Tawey ou read it? Long, 1176 pages! I had a clever reply from LLLAN MTERS. It was a verificable travelopure describing the wonders of Wass and some difficult of folk festival about 5 Swiss community on the

Tavel and Leisure (a Swiss community in the Tavel and Leisure (a Swiss community in the West Virginia Alpa). TOIVO PURO "passed," he is now the proud possessor of a Computer's Programmer's Certificate. His next hurdle is Computer Science. He and Mae are going to visit a Finnish festival in Massachusetts and visit a Finnish festival in Massachusetts and from there on to Newfoundland and Labrador. KATHLEEN MOORE RAVER was one of those attending the Reunion weekend at WMC. She mentioned seeing the Kiefers, Wests. Bixlers, Hurts, Whitfields, and Mrs. Spiter. In the spring the Ravers visited the Island of Mattera for an international music fewers, begine were and the Island the music. flowers, begine were and the Island the music. Rowers, begine were heavenly. From New Jersey came a delightful letter from TESSIE COX RIEWE, she has 2 acres of land which she has turned into a paradise. She sent a picture and I wish you all could see it. It looked like the Harvard Arbore-tum. Tessie and her son and his children visou all ited Europe this year to seek out her mother's birthplace in Austria. She found it! Then on to Switzerland. Tess had a card from New Mexico from BLANCHE HURD MORISON Blanche's son is a minister in Seattle. BILLY ROBERTS visited his 90-year-old sister in Bal timore only to "find" her literally on the floor with a broken hip. He rushed her to a hospi tal where she is now fine. She is an alumnae of WMC. Billy also told me about all the changes in Allegany county. They have cleaned up the rivers and creeks making them swimmable and fishable. That's progress. Now to save the Bay! LIB McBRIDE SHAW is feeling so much better and so

grandchildren, especially the music who will graduate from Eastman in '85. Lib corresponds with SUSAN STOW who writes me too. Susan loves the rolling hills around Carlisle. Susan is working on some reminiscences of her travels for the younger members of her family. A copy for me, Susan, when finished. From SALLY MILLS TAYLOR comes a gardener's delight, she has all sorts of vegetables growing, including some new var-ieties. Says her "monster" veggie is zucchini, teles. Says her "monster" vegge is zucchini, he's taking over Saily keeps busy with her church and social work. According to Saily, "Every day is an adventure." GLADYSE TOMASELLO nee SOMERS was spared the spring floods in Ulah. She spent some time in Williamsburg, Va., and found the East pretry nice alert all. ESLE BOMEN TYDINOS reported that they were spending the summer between children in Maryland and West Vir-glinak. The plane or main the Camp and Lucille are still not landinbers per set. Les, even now, is chaperoning a trip through the Scandinavirus countries and Scoland. He Scandinavian countries and Scotland. He plans to take just LUCILLE to England in the fall. MIRIAM FOGLE WEST says "nothing ex-citing," but I don't believe it. The Wests are tak-ing in summer theater and Miriam had a busy year as co-chairman for the Maryland House and Garden Tour in Carroll County. Life goes on as usual for us, this is the first unencum bered (no grandchildren) summer for us in 14 years and we are enjoying it. I swim a lot, even now am waiting for high tide. Hal keeps so busy, currently compiling a book on football enjoying USFL, impatient for the fall URI foot enjoying USFL, impatient for the fail URI foot-ball to start. He sagain taking the JV job and the radio slot that I have previously men-tioned. URI have established a scholarship fund in his name. (We are proud of that.) It is do-ing great too. There are so many things we want to do bat don't have time. Do you all find it that way too'P for one thing, no club chair-manships for me this year. I'm going to take more than the size of the size of the size of the size New no weight this mission on Tereview at

my knitting like some others do. Now to wind this missive up. I received a letter from my roommate MILDRED BUR-KINS CONNELLY '34 telling me a lot about the 50th reunion of '34. Sue and Dick wrote the 50th reunion of '34. Sue and Dick wrote as did Lloyd and Ruth. Ruth and Dick were of '34. Mrs. Harlow, gracious lady, attended some of the festivities. STONEY '34 and JANE TWIGG WILLIS '35 hosted the class lunchon at their home. Dick and Sue entertained a group the night before. LILLIAN FREY DEX TER '34 was given a surprise award at the banquet for compiling albums for the '34 class correspondence over the 50 year period. LEW RANSOM '35 preached the memorial service. RANSOM 35 preached the memorial service. Remember how our class missed a lot of money? We thought no class would even one weak of the service of the service of the man, that he learned at the feet of the master-man, that he learned at the feet of the master-tains. Heading the group were DICK MEFER 31 classics of the MEFER 31 of the heart of Thesize DICK MEFER 32 of the feature DICK MEFER 31 of the heart of Thesize DICK MEFER 32 of the feature DICK MEFER 32 of the heart of Thesize DICK MEFER 32 of the heart of Thesize DICK MEFER 33 of the heart of Thesize DICK MEFER 34 of the heart of Thesize D

also on the Financial and Development Com-mittee. Many issues were resolved, lots of "Do you remembers," of course a "Happy Hour," good food, good weather, good lodging, and good friends

good friends. Those attending were Dick and SUE COCKEY KIEFER, '33, JOE and Betty KLEIN-MAN '33, HAL and JUNE COOLING KOPP '33, RAWLEY '33 and Jean BROWN. '33, RAWLEY '33 and Jean BRC GEORGE and JANE WINE HUNTER Whith the exception of Dick '34, everyone else represented class of '33. Three sets of roommates were noted, Sue and Jane, George and Joe, Hal and Rawley.

Plans were made to try this again a wonderful!

A card came from Mrs. Chandler telling of the death of HAROLD H. CHANDLER on De-cember 18, 1983. We extend our deepest sympathy to his family

at had a long phone call from JOHNNY GEORGE, apologizing for his tardiness. We discussed health, politics, everything, John is feeling ever so much better—I was so glad to talk to him.

1934

For those of you who attended part or all of our great 50th Reunion, it was a memorable occasion. For those of you who were una ble to make it, you were missed by your classmates and you indeed missed out on a

wonderful time

Our outdoor Saturday luncheon held in the garden of the beautiful home of EUGENE "Stoney" WILLIS and wife JANE TWIGG WILLIS '35 was very well attended not only by members of our class and their spouses but by friends from the classes of '33 and '35. In addition, Dr. Whitfield, Professor Hurt, Mrs. addition, Dr. Whitfield, Professor Hurt, Mrs. Harlow, CHARLIE HAVENS '30, LEW RAN-SOM '35 (who preached such a fine sermon for our class on Sunday). CHARLES FORLINES '32 (who played the organ for us on Sunday), and HUGH BARNEY SPEIR were on hand, we extended an over buetweet on sunday, and nUGH BARNEY SPEIR were on hand. We extended an open invitation to as many of our professors as we could contact, and those who were unable to come sent localy sentilovely replies and asked to be remembered to

everyone. The Alumni Banquet on Saturday evening found over half of our class in attendance. We were a happy and proud group when it was announced that "the Class of 1934 had raised \$22,024.50 in the annual fund drive." This is more than any class has previously raised. and a big THANKS goes to each of you who contributed. Our fund drive chairman, RICHARD "Dick" KIEFER, is to be congratu-RICHARD "Dick" KIEFER, is to be congrau-lated for the outstanding job he did in coor-dinating this project through his many letters, phone calls, and follow-ups to classmates. "Stoney", our president, kept us well in-formed at all times about our reunion and cer-

tainly was instrumental in getting so many of ther.

Each classmate in attendance at the reunion received a 1934-1984 Yearbook, published by the Alumni Office. Time has really brought changes in our pictures before and after. We

all look younger now!!! Since the reunion I have heard from many of you. LAURLENE STRAUGHN PRATT has or you. LAURLENE STRAGENT PRATT has retired as Director of Theater Hopkins, where for the past 15 years she did a superb job. The Baltimore papers carried excellent articles praising her work and dedication. Her daugh-ter Suzanne is now the Director. Runs in the family eh?

SARAH FADELEY STEVENS says she is SARAH FADELEY STEVENS says she is still talking about how wonderful the reunion was. This past August, Sally and Ben cele-brated their 50th wedding anniversary at a dinner party with children and grandchildren. All of us are saddened by the recent loss

of HOWARD RATHBUN, who passed away August 23, 1984.

You might be interested in knowing that as your class alumni secretary. I have kept all your letters, cards, and other material ab our class in a scrapbook (now three volumes our class in a scrappook (now three volumes) since 1934. It is an historical record of our class since graduation. At the reunion ban-quet I presented these volumes to Dr. Ralph John for pluster the Western Maryland Archives. Whenever you are on campus, be sure to go to the library and read what your classmates have written about themselves during the past fifty years. Now I'm starting on the next fifty!!! Please continue to send me information. A letter from KEN RHODES this summer

revealed that he and AL SADUSKY and their wives had traveled west. While in the vicinity of Lake Tahoe, they tried to locate BII WRIGHT but were unsuccessful. Bill, plea contact Ken and Al. BILL

One of our former classmates, HARME-LINE VONEIFF KENNEY, returned for the re-union. "Bootsle" (as we knew her) left WMC before we graduated, but we still lay claim to her. She wrote that she was "fascinated by all the activities during our reunion weekend" and continued by saying, "I had a ball." After the reunion Bootsie went on a tour of Europe.

the reunion Bootsie went on a tour of Europe. Many pictures were taken at the reunion, and the "HIII" should carry some of them. In addition, the scrapbooks in the Archives con-tain several pages of "informal shots." If you would like any, I will have the negatives and will be glad to have a print made for you. Before closel I want to thank WMC and

before closing I want to thank WMC and those instrumental in giving me that "Unsung Hero Citation" at the Banquet. It was quite a surprise and I am deeply appreciative. Keep your news coming in.

Lillian Frey Dexter (Mrs. Edward B. Dexter) 3726 Lochearn Drive Baltimore, MD 21207

any thanks to those of you who returned

and unarks to those of you who returned cards to me which I penned in February while vacationing in Clearwater, Fla. An interesting article from the Belair Ae-gis tells of DR. LEWIS FANSOM's recent in-duction to the Oldtimer's Baseball Association Hall of Fame. Lew, a former minister of the Be-lair Methodist Church, had a baseball career that extended over many years, chiefly in high school, college and amateur and semi-pro leagues. He received an athletic scholarship to Indiana and later transferred to WMC upon his decision to enter the ministry. Last fall he was inducted into Calvert Hall's Hall of Fame for his personal, academic and athletic con-tributions. Congratulations. Lew! FRANK CLARKE is adjusting to the loss

of his wife in October. He keeps busy with his hobby of making Kentucky rifles and is fre-

noopy or infaking hentucky rules and is ne-quently invited to do special reports on Egyp-tian water resources for the State Department. DR. SAM "Barney" FLEAGLE retired from Penn St. University (1983) where he had been Athletic Team Physician for the Nittany Llons for 18 unset Microffe algo a physician retired for 18 years. His wife, also a physician, retired at the same time and with five grandsons says they have no trouble keeping busy. LOUISE OREM HART lives in Sun City.

Ariz., but spends June and July in Logan Utah, a cooler university town. She travels a Utah, a cooler university lowing difficulty find-ing compatible traveling companions. She al-ways issues an invitation for classmates of stop and see her. Thank you, Louise. EMILY DASHIELL LECKEY is enjoying

cruises. She and her husband had just returned from a Trans-Canal Cruise. They try to do one annually. ALBERT "Terp" WARD writes from Phoe

ALBERT "Berg" WARD writes from Phoe-nk City, Ale., exaiming over retirement and traveling far and wide visiting their family. He and his wife spent Christmas and New Year's in Hawati with their son, MIKE '68 and fam-ity. They had planned a trip to Germany in May to be with another son. COL. ALBERT "Erro" III '61 and be present for their grand-daughter's graduation from high school. Another son, loc. (USMA '74) is stationed in Germany, so they looked forward to a family reunion. The Wards have a grandson, Al at The Wards have a grandson, Al, at

reunion. The wards have a granuson, an ar-the University of Maryland and Scott, a fresh-man at WMC. A very nice family, Terp. LAMAR BENSON and his wife planned to spend May in Paris and a trip to the South Pacific this fall. They spend their winters in Na-ples, Fla., and their summers in Maryland.

MARGARET FREDERICK SHANK does volunteer work-Meals on Wheels, Hospice and local churches. She travels widely-Europe and Passion Play this year and trips to California, Texas and Florida. She prefers

Here's hoping we all stay healthy and hearty

17

so we can have a great reunion! Does anyone know the whereabouts of BETTY HOUCK?

Our class extends sympathy to the fami-lies of the following classmates: FRANCES TULL POOLE died October 20.

1984. WM. WILSON BRATTON, died February

17, 1984. Bill was our class president.
 ANNA E. KEAN, died October 3, 1983.
 WAYNE V. STRASBAUGH, died April 1,

1983. WALLACE NORRIS, died February 12, 1978. I have included this in case it has not been in *The Hill* before.

Muriel Waltz Kable 38-1/2 West Green Street Westminster, Maryland 21157

1937

Our class alumni news will be published in the February issue of *The Hill* after this ublication. You shall hear from me in the fall.

Perhaps you will get a nostalgic feeling, after reading this column, that I received after reading the responses—50 of 80 correspond-ing members. The positive and cheery tone was overwhelming. This year's exchange end-ed on a note of contentment. The Class of 1937 is scattered far and wide

over the United States but there are some characteristics common to all of us: love of family, service to the community and a pen-chant for travel. Almost all are in retirement Certainly our activities say something for the golden years. What joys you non-retirees will have in the future!

Witty remarks are always welco are some of the comments from the canvas ROWLAND "Army" ARMACOST pitches one in my bunker, "You didn't excel in penman-ship at WMC." Dr. JOHN RALPH "Dale" LAMship at WMC." Dr. JOHN RALPH "Dale" LAM-BERT says of a trip to European opera houses. "I must say walking on cobblesiones is hardly my forter, i all hybridize doyler. The same set must be a same set of the same set of the same most of the gardening is now limited to crawi-ing on hands and kness." ARLENE HUDSON MÄRVIL.noise "I keep busy in Delmar gross apparent the same set of the same set of the manore set of a same treem," The set of the MARKIN. One bachelor son lives in San Francisco; she visits him oc casionally and once in a while goes on a trip with him. They have been to Europe, New Zealand and Alaska. MADALYN BLADES Zealand and Alassa. MADALIA DIADAS ANGEL writes of her latest trip: "Our lives continue to be enriched by our travel. We have seen the world's wonders, its splendors, its people, its beauty by ship, plane, train, donkey.

camel, dog sied and junk.... Seeing the terra cotta army in Xian was a thrill for me and so was cruising on the Grand Canal, the Yangtze and the Li among those lovely, lovely Karst

Here are some of the excerpts from cards and letters to give you some impressions of class members activities. Dr. CHARLES WIL-LIAMS is a medical officer for the National Se-curity Agency at FL Meade. He is an active salior and is president of the SAR in which canacity the was recently a delegate to the salor and is president of the SAR in which capacity he was recently a delegate to the French celebration of the signing of the Treaty of Paris of 1783. He has two children and four grandchildren. LOUISE SHIPLEY FILLION began volunteer work in the public library. Farm Museum and Westminster Methodist Church after retirement in 1982 as a librarian of 42 years. Last summer she and her sister visited ber denother and formity [p Wommin. of 42 years. Last summer site and her inster-visited her daughter and family in Wyoming. Then with her grandson and granddaughter she traveled through Colorado, Utah. Arizona and Mexico. VIRGINIA GILL GRIGGS married and Mexico VIRGINA GULL CIRICOS married Harry Griggs. At present she is active in choirs, church work, round dancing and golf at Cumberland. There is a married aughter and four grandchildren. She has traveled ex-tensively and spends winters in Samason, Fa. ARLINE HUDSON MARVIL, who taught French LD-Camber Grangert relationship. HELEN BOUCHTON PERRY has resided in Califorma since 1943 and loves i. She is bhuw HELEN BOUGHTON PERRY has resided in California since 1943 and loves it. She is busy keeping up with her children: Sandy is a doc-tor in 19th Century English Lit, June is a public administrator and Chris is a percuspublic administrator and Chris is a percus-sionist with the Oregon Symphony Orchestra. Helen is also active in Episcopal church work as president of the Episcopal Church Union. She and Ed celebrated their 40th on August 31st. To celebrate the event they traveled to England and Scotland.

STANLEY DODSON has been a teacher of math-science at Charlotte Hall Academy, Sun-day School Superintendent of Gatch Meth-odist Church, cashier at Sears Roebuck, and odist Church, eashier at Sears Roebuck, and is now doing tutorial work in parochial schools He was married in 1944 and has three churden and three grandchildren whose growth and accomplishments he watches gridtly His son was married in January and Stanley baked the cake (one of his hobbies) for 175 guests. He is anxious to get hack to WAC for the 50th. ARTHUR HOFFA has been a manager of coal mining operations and of farms in Western Marylund. He are than the wave means and the source of the source of the source for the source of the source of the source of the source farms in Western Marylund. He are the source the source of the source of the source of the source for the source of the source for the source of the source of the source of the source for the source of the source for the source of the source for the source of the sour time! He now lives on a farm in retirement. MARIE LAFORGE BURNS is living in the mountains near Thurmont with deer all about for company. For several years she has re-searched the early history of Frederick County and is now working on the history of early in-dustries in the erae. ROBERT MCKENZE from Küllingsworth. Conn., "After WMC 1 became a printer in my father's business... in 19671 sold it and went to work for the New in 19671 sold it and went to work for the New nountains near Thurmont with deer all about In the sprinter in my father's business. In 1967 1 sold it and went to work for the New Hauer Register. When the Register went mod-ern I became a human anachronism and so I retured. Now I am gardening, cutting wood and grass, fishing and enjoying the family? THOMAS PYLES lived in Maine for seven years after retirement as an administration in the Mary Mitchester to be closer to his two children. ETHEL LAUTERBACK SELLAMN taught 33 years in Harford County. Now abe and her husband enjoy service clubs and fraternal activity. Both of her disugitors are teachers and a granulanter. De, FREDBEICK YTRELL, har retured from college teaching and administration, currently he is doing community volunteer work and developing a marketing program in Wheaton. III. SOPHIM MEERDITH LIBMAN is especially bely and trister pating. MARCARET HOSHALL BURCH's activities center on her four children and nine gandchildren, S.P. Musis Methodist Church, St. Mary's Acutis Methodist Church, St. Burger, Tenners hum 1997 and acrister to bard. Schertherd and the spring of the owner. Her hobbies include fower arrangement. sewing and aerobie danc-ing. CHARLES DB IBRCH remarks than 1997 ahe lound time to work. Her moules include flower arrangement, sewing and aerobic danc-ing, CHARLES D. BIRCH remarks that 1987 will be the clumax of his return to WMC every five years. PHYLLIS HOLCOMB ALM writes from North Bend, Waah. Infa she is a com-plete westerner and that she still corresponds with PARVIS ROBINSON LISH. She and her with PARVIS ROBINSON LESH. She and her husband have retred. DOROTHY HULL BROWN, since the death of her husband in 1981, lives on a farm with her three daughters and their families. She was in charge of a branch library at Waldorf for 15 years. She sees MARGARET HOSHALL BURCH fre-quently. Dr. "Date" LAMBERT, despite his physical limitation, is teaching one section of a course in the history and philosophy of science, chiefly to afford opera tours to Europe. In 1982 it was Prague, Budapest and Vienna.

In 1983 it was Brusels. Lyons. Paris and Geneva. His son and two grandchildren live in nearby Raleigh and so does GEORGE NEEDHAM, whom he sees frequently. "Army" ARMACOST is still at professional golf. Re-member his beginnings when he had three wooden clubs? Well, now he is a golf course manager and superintendent at Williams-town, Mass. His latest venture, coming up soon, is to plut he earliest of all golf courses in Schmädnich et all golf and the source of the end taward Lewlands. He has two children not taw grandchildren, CLAIR HOLLINGER In 1983 it was Brussels, Lyons, Paris and Geneva, His son and two grandchildren live Highlands and Lowlands. He has two clindren and two grandchildren. CLAIR HOLLINGER is a cabinetmaker associated with antique dealing. Sounds like he is busy. He inquired about WALT TAYLOR. MARGARET HARMAN about WALT TAYLOR. MARGARET HARMAN FLEMING likes cooking, collecting, church and fraternal work and lady day at WMC. Her days are brightened by a daughter and two grandchildren. She and her husband retired two years ago on two acres near Manchester. She has a large garden and does a lot of can-ning and treezing BERNIECE ROBBINS. ning and freezing. BERNIECE ROBBINS FORTHAM has stopped working because of a disability. She was a psychiatric social worker for 20 years after graduation from U. of Pa, Puffy died in 1968. Dr. EVERETT POGLE has been a general practitioner for 31 wears in Martinsburg, W. Va. He has trans-mitted his skills to two sons, both of whom are surgeons, one in Richmond and one in Blue-surgeons one in Richmond and one in Bluesurgeons, one in Richmond and one in Blue-field. ISABELLE MCWILLIAMS DRUGASH field. ISABELLE MCWILLIAMS DRUGASH still reads and plays bridge. Her greatest bless-ings are husband, son, daughter and two grandchildren. All live in the same town. JANET SMITH WAMPLER is retiring with her JANET SMITH WAMPLER is retiring with her husband from the home furnishing retail business in Westminster which has been in her husband's family for 75 years. Now she hopes to travel and see her son in Miami more form NET UE MORTHAN ANALY hopes to travel and see her son in Miami more often. NELLE HOFPMA ILANTZ has returned from the New Windsor State Bank after 35 years. She travels whenever whe can JANE MURPHY LEDNUM divides her time between Veitco Fila, and Ocean CIV Golf is her game. She has three married daughters and seven grandchildren. She is not a globe trotter and hopes to make it to the 50th. ED WATERS rettred eight years ago. He is a widower, has two sons and four grandchildren. He travels. Jayas golf and tennis. He said he didn't see me at the 40th and 45th but expects to see me at the 50th. Inder van Jayas her the travels. at the 50th. I told you I was in hibernation Ed. LOUISE NICKELL HORN has been a docent at the Smithsonian for nine years. She has at the Smithsonian for nine years. She has many musical activities including church choir, directing a handbell group and practic-ing the piano. She has two children and three ing the plana. She has two shiddren and three grandchildren. Her son lives in California. She visits him frequently, Last year she joined him in Paris for a two-week visit to the City of Lights and the Lotre. COLONEL RALPH LUMAN has had an extensive, varied and auc-teriation of the state of the state of the state of the in 1961 as an Army Colonel of Miltary inseli-gence. In 1941 at F. Berning and Patron's 2nd Armored Division, he worked on the planning for the African Inwaitra. Africe to 30 at Army Hdga, where he helped plan the Sicily and Southern France invasions. After the war, he was sent to Army Intelligence School then to Korea for 20 months. Then came a delightin a.s pinermit at an planning and intelligence with Canada and Mexico followed by three years duty in Honolulu in a major command headquarters. His is a carer assignment was at Holabird where he worked in research and development. Here herwäuten--hon ly one in use today by our forces. After retirement he worked as a son and daughter in Baitimore He all sign in chora Budh Sherman Jones Worke in the assign in chorar and the Sherman Jones Worked as a in chorar for the state years ago. He has a son and daughter in Baitmore He all sing in chorar Budh Sherman Jones WOR MYER's retired from the army and evid Durham, N.C. ELANNE FERNEL WOOD has grandchildren. Her son lives in California. She school, one at Northwestern and one at Durham, N.C. ELAINE FENNELL WOOD has Durham, N.C. ELAINE FENNELL WOOD has two soms. When http://countyfield. http://www.som.operiod. Someon: She planes for extre and travel soon. ELOISE NOCK SADOWSKI and her husband. Frank '38, lead a busy life at their farm in Af-ton, Va. She does spiritual studies-received her Practitioner's Certificate in November 1983. She teaches a Spiritual Science Class. Early American decontion prank farms and well as theorem and the studies. They hope to go to Ger-araty with WCG alumnt this summer. There are three grandsons whom they miss because they live in Colorado and Missouri. Dr. LILLIAN MOORE BRADSHAW wrote from Dalas about her career. Beginning as a LILIAN MOORE BRADSHAW wrote from Dallas about her career. Beginning as a librarian after grioduation from Drexel Univer-sity with a library science degree, she has been active in state, national and international affairs. She served as president of the Texas Library Association and the American Library Association and has worked on international groups. In 1978 Drexel awarded her an here Association and has worked on international groups. In 1978 Drexel awarded her an hon-orary degree of Doctor of Letters. In June 1982 she retired as director of the Dallas Library System. Then she became special assistant to

the City Manager of Dallas. She will be in the City Manager of Dailas. She will be in charge of Dailas participation in the Republi-can National Convention in August. COLO-NEL GEORGE SKINNER "Had to give up softball at 59 but now 1 can't even bowl. It's hard to get old. I would enjoy retirement exhard to get old. I would enjoy retirement ex-cept for aches. But 1 do enjoy the sunshine in Tucson. I can sit in the backyard with 70° in the winter and look at the mountains and snow. I didn't know you were a doctor, Carter until I compared your handwriting to my pre-scriptions. Best to all of the 37s." He wanted scriptions. Best to all of the 37s." He wanted to know about "Rosy" Luman. "Sam" Baxter and "Loule" Lassahn. HELEN MCCARDELL SLICER worked 38 years as a social service case worker in Cecil County. She has retired. Her only child. Edward. Ilves in her home. He is director of Cecil County Parks and Recrea-tion. Department. JOSEPHINE THORNE BEAM writes, that abe just returned from Hawaii and Florida. She lives in Nebraska where she moved after retirement from SEC to be near her daughter and grandchildren. to be near her dagitter and grandermioren. Her son-in-law is a family doctor in Kearny. SUE SMITH WINGATE was pleased to hear of forthcoming news of our class. She has three children-a lawyer, a social worker and a medical school student, plus three grandsons and a retired DuPont chemist husband who is now an author. MARGARET YOUNG HAP-PEL has been a widow since 1978 but family, friends, church and travel keep her busy. Her travel plans for the immediate future include four weeks in the Orient, two weeks in Europe and a trip on the QEII to Paris and London She will be accompanied by her daughter and granddaughter. Then she looks forward to the rocking chair. GEORGE SPIEGEL, our class president, wrote a long letter. He said he had not given any information to WMC publications since graduation. His career began in 1938 with his going into the U.S. Army at Ft. Howard with the 12th Infantry. Toward the end of that year he transferred into flight train-ing but that didn't prove successful so he took employment with Glen Martin Ca. until Januemployment with Glen Martin Co. until Janu-ary 1941, then he was called to duty as a First Lieutenant at Ft. Benning. After a basic refresher course he pursued a series of train-ing assignments ending as a Lieutenant Colonel commanding the 2nd Bat. part of the 100th Inf. Div. at Ft. Bragg. He fought in the ETO with that division and was away rded the Silver and Bronze Stars and Oak Leaf Cluster He was relieved from active duty in 1945. From that date until 1947 he sang with the Little Theater Operetta doing Gilbert and Sullivan. By March 1947 he was back in the ser-vice. He served in Japan until 1952, PMST at Li of Illinois 1952-57, Korea Military AG. J. 2010. Con US-55-57, Korea Military AG. Avisory Group 1957-58, advisor to the Illinois National Guardi 1985-1961 when he retired 1985-1961 when he retired to the sixth grade the continued his studies securing a master of education degree and anismiton. Once again he retired in 1979. Now George is very, very bay about the house, playing golf and with daily workouts at the YMCA. He feels great despite the major surgery. Georgés address is 1008 W. Healey St., Champaign, Ill. 61821. ETHEL KING BOWEN died this past November. She had ben alumni class sector. U. of Illinois 1952-57, Korean Military Ad-

November. She had been alumni class secre tary since we left Western Maryland. Some other deaths occurring in recent years are CLAUSE ADAMS, JANE COCKRAN AN CLAUSE ADAMS, JANE COCCARAN AN DREWS, REV. DEWITT DICKEY, LEONARD ELLER, NAOMI ENFIELD MATHER, MADE-LINE MELBA MESSLER FAIR, BEV HARRI-SON ZIMMERMAN, MARY ROCKWELL MASON, PROCTOR MESSLER, CLINTON WALKER, BILL WILLOUGHEN, ELIZABETH

WALKER, BILL WILLOUGHBY, ELIZABETH TERRY, JOHN SIMS, JANE WHITE BLAIR. We regret their loss. Inquiries about GEORGE KOHLER can be only vaguely answered. He was last heard from in 1980, before that in 1976. On both occasions he was in the Veterans Hospital at Bay Pines, Fla. However, the VA will give no infor-mation about him.

mation about him. Our 50th reunion is three years away. Put it on your calendar as a must. Everybody would like to see all of the others. As Dr. EVERETT FOGLE said, "Get ready for the 'derring do." Keep in touch with me. Thanks for all of the warm correspondence.

er Riefner 316 St. Dunstan's Road Baltimore, Md. 21212

1938

Our 45th reunion last May 1983 has been called a tremendous success. I was heart-broken to miss it, but have heard from various sources that all of the careful planning resulted in a lovely event. HENRY RECKORD and committee are to be commended. All seemed to enjoy being back on the college campus. First, the social hour at Harrison House with brightly colored tent on the lawn

to give added zest and protection to those renewing old ties. Then the impressive memorial service planned and presented by MARTHA WILMER FORTHMAN in "Little MARTHA WILMER FORTHMAN in "Little Baker Chapel" (We have 40 deceased). After-ward, on to the President's Dining Room in Decker Center, I've been told the lunch was MALDER and liant our class president, FRANK MALDER and Liant our class president, FRANK MALDER and Liant our class president, FRANK MALDER and HAND. Bettendorf, Iowa, and EUGENE CRONIN, Annapolis, attend for the first time. If was told Virginia looks hardly a day addet). Jim Ridenour and DONNA along with several of our forsal members. DUVALL SELLMAN '49, WMC stail members, added that special sparkle to it all. Dr. and Mrs. Alfred W. de Long, Dr. JOHN '25 and Mrs. GERTRUDE JONES' 25 MAKOWSY, Dr. Theo-dore M. Whitfield, Mr. and Mrs. CHARLES W. HAVENS' 30 attended the lunchcon with Dr. and Mr. Object. Sector Science S

HAVENS '30 attended the tuncheon with Dr. and Mrs. Clyde A. Spicer and Prof. Frank B. Hurt were at the reception. Frank Malone had gleaned biographical data from information sent in by 31 class members. Teaching and military carcers dominate: 45% have advanced degrees—10 doctorates. 65 masters: there are 15 teachers. 4 college level, others secondary: 2 housewives 4 college level, others secondary: 2 housewives Williary are recently deesawed), 31-eral, 6 Coloneth, ione recently deesawed), 31-colonels, 2 in top positions at the Peniaeno eral, 6 Colonels, ione recently deceased), 3 Lt. Colonels, 2 in top positions at the Pentagon, 1 in Office of Naval Research, a comptroller at FL Detrick and 2 serving in other capaci-ties while 4 were killed in WWI. In business careers we have: Chairman of the Board in a bank: Director of the Chesapeake Biology Laboratory and Research program: Senior V.P. Suburban Progene Gas Corp.: Senior V.P. Suburban Progene Gas Corp.: Senior V.P., Suburban Propane Gas Corp.: Senior Business Analyst. Endix Field Engineering Corp.: Metailurgist for Armco; plus 2 lawyers. WMC has presented in later years: 2 honorary doctorates: 2 Meritorious Service Awards: 1 Alumnus of the War (who at present is presi-dent of the WMC Alumni Association and a college trustee): 2 WMC Ahletic Hall of Fame members. And, as families, we have 63 chil-dens. 6] grandchildren, and 1 great/grand-tens, 6] and child to WMC. Not a had record! Thanks for your response to the questionnaire. to the questionnaire. There is other news from cards, letters, and

news clippings. These are delayed as some ar-rived after last writing, but are still of interest. L. EUGENE CRONIN smiles at me from a news clipping from the Baltimore *Evening* Sun. He's looking great, probably because we in Maryland have decided to clean up the

In Maryland have decided to clean up the Chesapiseke Bay, Genc has spent a lifetime telling us to do this and we are finally listen-ing the heads the Chesapiseke Bay Research and the Chesapiseke Bay Research ReELI SIMMONS of New Jersey write: since retiring from the Army, Jerry continues to teach mathematics and play tennis. He and Anne play doubleate bridge when time allows Anne play doubleate bridge when time allows Anne play doubleate bridge when the malbow Wita where their daughter, her husband, and 2 boys area? B months, and 8

2 boys, ages 28 months and 8 months, reside. ALICE SCHNEIDER LARSON of Eugene, Ore., writes that she and her husband debated Ore, writes that she and her nussand debated for another year whether to move to Oregon where their two sons, Jay and Jon, and their families live. Finally they sold their nice home in Linthicum, had four yard sales, packed umpteen things to ship, and trailered 2,990 umpleen things to snip, and trainered along miles across the country in 11 days to Eugene, arriving May 15, 1982. They rented a lovely house with garden; are enjoying clean scenic beauty between mountains and ocean; also families with 4 grandchildren. No moments

STANLEY BENJAMIN, Greenfield, Ma STANLET BENGAMIN, Greenheit, mass, writes that he has been happly married for 42 years to Barbara and has one son, three daughters, and seven grandchildren. Retired from teaching and coaching in 1975; cur-rently scouting for Houston Astros. In the fail 1983. Straw was inducted into the WMC from teaching and coaching in 1970; cur-rently scouting for Houston Astrons. In the fail of 1983, Stan was inducted into the WMC Sports Hall of Tame. His records shows that at college he lettered in four sports: football. beginned Baseball and track. In 1984 he was beginned to the managed H Little World Series and Cleveland Indians for 13 yelphin Brillies and Cleveland in Indians. The seven of yelphin coached on high school and collegiate level for 30 years. Has also headed up several organi-zations in his court of an class. Every sport came and the teef our class. Every sport came and the teef of our class. Every sport came and the standard on the Yian Mhos chait again with a headauc older Sian whose Sports Hall of Fame Banquet and to see and chat again with a handsome older San whose beautiful family were all around him. When the relatives were asked to stand, two little granddaughters almost "popped." I faith anne way too. A well deserved honor. Dr. DONALD BOND, San Francisco, Calif. Wrote a newsy letter of particular interest to Ray and me. He grew up near New Windsor

and we have a mutual interest in this Metho dist historic area. As he reminisces he is tempted to return east. LEONARD "Bill" GRAtempted to return east. LEONARD "Bill" GMA-HAM. Elitoci CIty, Md., writes of the years since graduation. Bill aught English, history, and coached at Princess Anne High School (along with BERT GOSNELL and SHER-WOOD "Jerry" BALDERSON, He was in ac-tive military duty for 5 years: manager of Rec's Bakry, Baltimore, 4 years patient VA. hospital (TB), 1/1/2 years, Bendix Field Englneering Corp., Columbia, Md., retiring as Senior Business Analyst after 26 years; now house husband, 5 years. "Jane, my rock, is house husband, 5 years, Jane, my rock we still executive secretary to the plant manager of General Electric, Columbia, Md. She proves the old adage 'If you can't marry them rich, marry them young and pretty.' " They have marry them young and pretty." They have two children. Jan, a graduate of William and Mary College, lives on West Coast with hus and band Kevin, a Lt. Comdr. assigned as exec. of-ficer on the USS ROANOKE. Their son, Bob, attended Drezel Univ. and has returned to Baltimore where he is now in home repair and remodeling. The Grahams have visited Jan and Kevin in Seattle, Wash., and taken delight-ful weeks cruise to Alaska to celebrate 35th

Then too I must write of the passing of fellow classmates and others dear to us. Some fellow classmates and others dear to us, our deaths have been made known to us just re-cently. Ned G. Crooke, husband of MARIE PARK CROOKE, died in Seattle, Wash., Nov. and Distributors Corp.; survived also by son

ROBERT GUTELIUS died in 1950. CLARENCE G. MORROW died March 21

1979

WILLIAM MARSHALL HOOD, April 6. 1983. "Marsh" or "Hoodie" was a longtime friend. Our families were close and we went

friend. Our families were close and we went through publics school and college together. He was a good student and had fine singing voice. He and his will, Jane, had four children. They moved to a different area and 1 lost contact. Rev. MALCOM F VRIGHT, Gathersburg, died Oct. 17, 1993. I had a nice note from Lee, his wife, prior to this. She explained that Mac was completely disabled with multiple sclerosis for 18 years. Their son. Douglas, was to be married Oct. 16 in Epworth U. Meth. Church in Gathersburg. built in 1964 when Church in Gaithersburg, built in 1964 when Mac was minister there. Daughter Susan, an accountant, was living at home and helping to care for her dad.

LOUISE NICOLAI OBERMUELLER, died Jan. 23, 1984. Louise had been back to sev eral reunions. We were aware that she was not in good health. She is mourned by good in good health. She is mourned by good friends in our class. ALICE SCHNEIDER LAR-SON. ALLE MAY MOXLEY BUXTON. and tacted me i shall quose the latter. Loss-works as fondly of "NiCH" who had taugit verses and had 3 children and 4 grandchil-dren. She had spent several hours with her back at WMC in Sept. 38. They relived their student days as roommates in "Old Main" cubicles, then McDaniel Hall and finally in Blanche Ward Hall. Both were waitresses in Blanche Ward Hall. Both were waitresses in Blanche Ward Hail. Both were wattesses in dining hall under direction of Mrs. Hamerick. "This friendship was a most important part of both our lives." And that is what it is really all about, isn't it? I shall write again in April

Mrs. Vernon R. Simpson (Helen Leatherwood) 208 E. Church St. Mt. Airy, Md. 21771

1939

xy-Sexagenarians" of the class of "39 had a ball at our 45th reunion. Everything was beautiful-the day, the arrangements, the program, and most of all, the people. We all looked treat looked great! The fun started with the wine and cheese

The lun started with the wine and cheese party held under the tent at Harrison House. The cheese and fruit table was enhanced by the macadamia nuts JAY MOWBRAY brought from Honolulu. They were delicious and spe-cial just like seeing him was. He made JEANNE LANG LEDOUX's day when he greeted her with "ileanne you haven" GEANNE LANG LEDOUX's day when he greeted her with "Jeanne, you haven" changed a bit." It was his and MILES LEFFERT's first reunion and we hope not the last. Eyebrows were raised when Julia (Hall of Famer) BERWAGER and GEORGE GRIER came up the driveway together, but they had only parked their cars alongside each other in the parking lot. Glamour entered our midst when BETTY SHUNK RHOTEN appeared. Looked fabulous!

Looked fabulous! Some of our class spent the weekend at the college and really enjoyed being close to every-thing. Woody and KAY RUDOLIN REEDY and Wort and CAROLYN PICKETT RIDGELY stayed at Lee's Motel and along with DOT CO-HEE HARRIS, FRANCES STOUT TAYLOR. CAROLYN THMMONS SUIT and LUCILLE FERTIG HAYES who stayed in an apartment

on campus attended the picnic on Friday night held at Harvey Stone Memorial Park. Had a great time: fried chicken was the best

They had ever tasted. From the wine and cheese party, we walked over to Little Baker Chapel where CHARLE WALLACE held a short and lovely CHARLE WALLACE held a short and lovely memorial service for those no longer with us. Of those whose pictures are in the Aloha, there were 19. When we include extrainon students and non-granduates, the number is 29. After the service, it was picture taking time. The photographer was very patient. Then on to lunch. It was held in the Presi-dent's Dining Room and we felt especially ho-nored to have as our guests. Mrs. Sarp. Mrs. Spierer, Miss Manahan and Prof. Delong. Thirty-four of us were at the luncheen and with our four of us were at the luncheen and with our

four of us were at the luncheon and with our spouses and friends, we were a party of 51. Looking up and down the tables we saw ROYAL '53 and MAX SNIDER CLAGETT, MARGARET REINDOLLAR TAYLOR, WIL LIAM "Pip" McWI LEISTER HAIFLEY. McWILLIAMS, and LOUISE

LEISTER HAIFLEY. Prof. Delong tried to spirit DOROTHY HAR-MAN LEFEVRE, THELMA YOHN LOCKARD, CHARLIE WALLACE, and LOUISE JAMESON HIGHBY for his Alumni choir but we had to hold him up until Jamie had a chance to present her reunion song she had composed just for us. It was to the tune of "September In the Rain" and so reminiscent-Margaret and Earl's forbidden to freshmen girls: the mourner's bench; back campus; Levine Hall and the promenade of men down the fire es-cape for showers, etc., We all loved singing it. Thank you Jamie for a real treat. AARON Thank you Jamie tor a real treat. ArMow SCHAEFFER's program was another high-light of our day. We really did have quite a few of them. His wit is still sharp and his presen-tation with special facial expressions was hilarlous. His "roast" of FRANK SHERRARD and his remarks on HELEN FREY HOBART kept everyone in stitches. Helen wanted a copy of the script so she could show it to her som and daughter who are both WMC graduates. Frank Sherrard graciously offered to take us up in his plane which he flew down in, but we all decided it was too windy. Our reunions would not be the same with-

out Charlie Rechner, ELIZABETH CRISP RECHNER's husband. Although he is a JHU graduate, somehow he really has become a graduate, somehow he really as a sonational part of our class. They came with Vernon and BEULAH KING SOUTH. It was so good to see them and Reid and ALLENE WILLIAMS HUTCHINS who came up from Prince Frederick. They were spending the weekend with Martin and NOSA prevyme to their home in Prince Frederick for a can b feast on August 26. Hope the crabs are running. LARRY and MARGARET QUARLES STREW '40 MoRG very well and ROSA BARROW TOWNER was her usual effersement of the sonate s her usual effervescent self. No wonder she is president of the Elections Board in Harford County. HOMER and CATHERINE STULLER MY-ERS ware the structure of the structure o

president of the Elections Board in Hannou County, HOMER any CATHERINE STULLER MY. HOMER any CATHERINE STULLER MY. HOMER any CATHERINE STULLER MY. Carousel WMC'ers Annual Get-together August 6, Reunion June 1 1984

Report to the "40's" from Phyllis Cade Gruber, '43

from Phyllis Cade Gruber, '43 We had another good time at the WMC dim-ner. It was the largest one weye had. There were 47 present: and if they all had come we would have had 55. Hwy bout that?. Of those present, PMU, BROOM They are going to Ginger were there, ha- and they on TV with his content in the failt way are going to CR GROWE. 43. who has returned from teach-ing and now living in Baltimore: IKV. '44, and NELDA KALAR. '14. IBASI are still in the cat-tle business during the summer, and playing golf in Florida in the winter, JACK. '43, and June RAWLINS were in North Carolina this spring and visited JOE WORKMAN, '43, '43, took a much needed wastion alter Chris-mas and vacationed in Williamsburg DONNA DuYALL. '45 and RUSSELL SELLAMN. '44 celebrated with us and also UNTT. '43, telis me celebrated with us and also visited includes in the Keen-Wik area; JOE ELLIOIT, '43, tells me that he and his wife are anxiously waiting a new grandchild; Mary Lee and KLEIN LEISTER, '43, went to Las Vegas this spring LEISTER, 43, went to Las Vegas this spring and will have ago at their second son's wed-ding in October: BENJAMIN "BUD" SMITH, 43 has turned to politics. He's running for northeastern district governor of Kiwanis (good luck). LEE, 43, and PEARL BODMER LODGE, 43, have been having "solrees" at their second home "RAVENDOOD." so leif everyone take a sleeping bag and visit them: fail is a good time; oh, the cabin is in the CatOBER, 43, internded a convention in Port-iand, Oregon and met with MAYK MILLER ENGESSER, 43, Rev PAUL HENRY, 44, and HAPPY 40, and MARIE CRAWFORD LOW. HARRY, '40, and MARIE CRAWFORD LOW HARKT, 40, and MARIE CRAW ORD DOW ERY, '43, Seattle. The great Northwest will never be the same. JEAN ECKHARDT, '44, and CLARENCE "MAC", '43, McWILLIAMS

and CLARENCE "MAC" 43. MeWILLIAMS and CLARENCE "MAC" 43. MeWILLIAMS are leaving for Europe in September to get together with some of their WWI II Army doc-tor finds. This group has been meeting ev-ery 5 years in different parts of the world. For those that do not come to the dinner other i want to say that there were some that could not make it. They were: JANTHE HORSEY 43, and Bink COLIENT George "ZERE" JAMSIER, 43, and LEE BECLIN. 47, SCOTT BILL MEWILLER AS BECLIN. 47, SCOTT BILL MEWILLIAMS, 39, SARA LEE LARMORE. 50, and DON, 48, BRO-HAWN; MARCARET SMITH CASSELL, 44, DORIS HIMLER MARKLEY, 44, BILL VIN-CERT 42; and BOR 43, and EDNA "PERK" HALLER, '46, BECLIN.

1941

Thanks for this tremendous response to the postal cards, proving that we have a need to keep in contact.

The popular contact. Congratulations. DR. RUTH MANS-ECORE SHEARER was awarded the honor-ary Doctor of Humanities degree from Alderson-Broaddus College where she has been a professor of education as well as wife of the president for 33 years. She and her hus-band received formal citations from both houses of the legislature and the governor of West Virginia for heir outsamding contribu-tions to reducations where West GenHARDT RANNER. Mil-mathew West GenHARDT RANNER. Mil-

tions to education: MLD/RED GEBrateful the the Ped Asiate-National Championabips in Law Vegas last November. She won a silver medial after only one year of balinoom dancing lessons. Luck-ity, Arnoid enjoys dancing to 3: 3 HORE-Weatminister, DL Little's old home-great view of the town-only 5 minutes to the college-the occasion was to honor BOB '40 and BETTY BROWN STROPP after Bob's induc-tion into WMC Sports Hall & KATHLERN-"Fake" COE WALTERS, BLLL and MAR-GARET "Mikey" REYNOLDS' 42 ADOLFH-LESTER "Bobo" and NORMA NICODEMUS

ing on the Board of Directors is an honor, but those endless meetings are so tiring and allow no time for sight-seeing. I am sorry to report the following deaths during the year: WINFRED MASENHIMER HOUCK, December 1988; ELZABETH ARM-STRONG BARLOW, Pebruary 1984, Betty had retired 18 months earlier from DuPont after 30 years as a secretary. BRADY C. BOUNDS member 1983. He had recently been elected President of the Lower Delmarva Genealogical Society. Our sympathy also goes to CATHERINE COUNCELL CHERRY whose husband, Elwood, passed away last summer. I hope to hear from all the rest of you next year

Mrs. Stanley E. Skelton (Elinor Cuiligan) 3910 Larchwood Road Falls Church, Va. 22041

1944

This time I'll start with a letter from SABRA MACDORMAN KITTNER to all of you. To the class of '44: "Those of you who were unable to be with us at the 40th reunion were missed. Like the 40th anniversary of D-Day, missed, Like the 40th antiversary of D-Day, we feit this meeting was our most important and many put forth a great effort in a letter campaign to entice you to come. I wish to thank TOM BUSH for the decora-tions which set the festive mood. Tom spent

To such as the feature mode Tom spent mary hours in preparation Tom spent trips from Balled the room and caterre SCHAFE magging the form and caterre which it with the decorations and donated the monately or uniortunately. Dotthe has a toll free line to certain sections of Baltmore City and Carroll County. She acted as the relay person for dozens of calls, many many thanks. Each member of the committee had a special job. KITTY CLEMSON TURNER-the class pic-ture: JEANNE BCHARDT MW/LLIAMS-the flyers, and EMILY BILLINGSLEA WIRTH -the alimptortant money for the luncheour the flyers, and EMILY BILLINGSLEA WIRTH — the all-important money for the luncheon. All of them wrote a special note to you. Others who helped in the letter campaign were: ANN MEETH KLINGAMAN, ANN RICE_JETT, ANN MOORE MILLER, BETTY BILLINGSLEA SCOTT, RUSSELL SELLMAN, JEAN DIEN FENBACH SWITH, TOM TERESHINGEN a. ullof DICK HAUSLER. My sincere thanks to all of

you: They came from near and far. California to New Hampshire and south to the Carolinas. For some, coming was a great effort. Some are payshald, some thinner/thicker, and some have remained the same. But for a brief mo-ment, we remembered how we had shared the best of times in the worst of times. We thought about you who did not come, we talked about you, we looked at your priester on the bits.

about you who due not come, we talked about you, we looked at your picture on the big screen. We were together again. Life is a series of goals. Let your next long range goal be: To be at WMC on the first Satur-day in June 1989. Let us break bread together one more time. Take one sentimental journey home.

The reunion really was great-the Commit-

ANNE MOORE MILLER gave me some news of herself. She left WMC in 1943, mar-ried, followed Air Force (1st LL John W. Miller). has 3 children-Robert, now working for Department of Defense in Japan for the past nus 3 cniuren-exoter: now working for Department of Defense in Japan for the past 6 years. Frun has taken over his new duties. Alse a correction on my last column about PHOERE JOHNSON RUTHERFORD. I re-ported that she had been awarded the Tus-tees Alumni Service Award at the May 1983 convocation. This award actually went to another Phoebe in another class. The alumni offlee gave me this news item and have since squared things with both gifts. I hope. My apple to response for the next column will be as great as this one.

Mrs. Joseph Maloney, Sr. (Bertha Hall) 11541 Cedar Lane Kingsville, Md. 21087

1945 Reunion June 1

I made a promise during the summer of '83 edition of *The Hill* that I would reach all of our classmates before our big 40th in 1985. With a very few exceptions (addresses unknown). I believe I fulfilled my promise. So

unknown), I believe fuilfilled my promise. So here goes! From Irvine, California, THELMA YOUNG FRIEDEL: writes that when able let Ridge re-ture after thirty years with the Insurance Com-pany of North America, they started their "new lide" together by touring Europe. She in-sists she haan't retired from her active life in civic groups, volunteer projects, and wedding consulting. Thelma says abs eall threemothers our "innit-reunion" in '71. You bet we can do it again! it again!

it again! Coming from the Midwest, news from DR. WILLIAM E. SMITH, of Columbus, Ohio, is ex-cited about our reunion. Along with his trav-els to Israel and Germany, he attended the

General Conference of Methodists in Balti-more in April (Did you get to WMC, Bill?) He and Mary Lou are proud of their daughter, Janet, who finished her Master's in Interna-tional Relations at Ohio State in Dec. '83, tional Relations at Ohio State in Dec. 83, which prepared her as a staff member of Con-gressman Hopkins of Kentucky. By the way, Bob Harrison, Bill says you'd better get things moving as our Proxy! May '85 is almost here.

moving as our Proxy! May '85 is almost here: MARCARET WAUGH StEMON, from sum-ny Lake Worth. Florida, catches us up on her and Boh. 43, their five children and spouses, and the eight grandchildren. Their daughter graduates from Emory University this sum-er. Bob is past president of the National Office Products Association and still is active as chairman of the Industry Committee dealas chairman of the industry Committee deal-ing with electrical transmission. How nice to hear the "roomies" of old Blanche Ward Hall still get together! GALE LODGE THIELE vis-ited the Siemons during the past year. That Gale does get around. She and I had a lovely Penna-Dutch weekend last fall.

Heading up the east coast, we can catch o n DR. EARL MOREY, JR. and his wife up on DR. EARL MOREY, JK. and his wile BETTY LITTLE '48, who reside in Richmond, Va. where he has been pastor of St. Giles Pres-byterian Church since 1960. Their two mar-ried daughters and one married son have blessed the Moreys with five grandchildren blessed the Moreys with five grandchildren. But it hasn't been all babysitting in Virginia; for some years Earl and Betty have spent three months each year teaching and preaching in Europe, Asia, South America, and the Far East

st. The State of Virginia also claims res for two other of our classmates. ADELE TENNY GALLOWAY and her husband Frank-TENNY GALLDWAY and her nusband rame lin share their retirement in Fredericksburg. Their older daughter Jeanie is a pre-elementary teacher while their thirty-year-old twins, Ralph and Alice went separate ways in their career choices. Ralph, working for a scientifie firm, found time to present his parents with a granddaughter. But listen to this: Alice, a state manager for the American Ballet Ance, a state manager for the American Berry Theatre, only has time to work with and for Mikhail Baryshnikov. Alice in Wonderland, huh? ANNE LASSAHN WALKER of McLean just sent her special notice that she's looking ward to the '85 reunion.

Two of our classmates were interrupted by WWII and were so pleased to think they hadn't been forgotten. WILLIAM BURGESS, JR. of been lorgotten. WILLIAM BURGESS, JK. 01 Wilmington, Delaware, graduating from Le-high in '48 has worked himself up from CPA at Coopers and Lybrand in Baltimore to entrepreneur of his own company now. He and treprepeut of his own company now. He and has with Jean have reard four sons: one just graduated from Boston University. Bill states "the most important event in my lide years that have been been been been been been been build been been been been been been been that Buzz? In site a member. STANLEY ROSENSTOCK reports from Bill were. STANLEY ROSENSTOCK reports from Bill with a have that his wife a Executive Worle plentm a have a multi-owned corporation that manufactures children's clubes.

WINIFRED GILLIKIN YORKE, formerly of Berkeley Heights, New Jeney, now living in Stocha, commercial and exciting career of her social, commercial and social and social and building, decorating, and furnishing homes. But she wan't alone. Her husband, Charles, a consultant engineer, shared careers, world-wide travel, and a son who is a doctor, null Charles died suddenly in June '82. Winnle has Joined several other WMC widows. Late condolences, dear friend, CONNE HARRIS HAWDSHUCH, a former WAVE, formed her own travel agency in 1949, married in '55, bore two sons Craig and Social, and widowed in '81. Connie is still active as president of Travelways, New Jeney, Connie, can we WINIFRED GILLIKIN YORKE, formerly of in '81, Connie is still active as president of Travelvays. New Jersey: Connie. can we charter a plane for our '85 party? Another neighboring New Jerseyite HELEN STONER DETTBARN of Vincentown for the past four years fills us in with travels to the Mediterra-near and five grandchildren. While 'Doc' is busy with his platelas. 'Stoney' is a golfer, secretary of a garden club, a church worker, another retried couple of four grown children, the 6d Taits-ANNE WINTERS TATT-enjoy all the cultures of nearby New York City. It's good to hear these Golden Agers say there isn't enough time in a day. enough time in a day.

New England claims two of our colleagues. ELIZABETH FAY MacDONALD TRASK of Halliston, Mass. has retired from teaching Home Ec and was honored to have had the '84 yearbook dedicated to her. Did she quit working? No. she's part-time activity director at a rest home, along with assisting her husband in his church work. They did get away in Oc-tober to visit son Bil in Hawaii. On up in Greenville, Maine, ANNA AVERS HASTINGS Greenville, Maine, ANNA AVERS HASTINUS writes labeling herself as a "small-town wife." but busy with theatre, church, cultural and craft fairs, and food co-ops. Retired Don likes the slower pace, but they enjoyed a jaunt to Germany and Switzerland avear ago. Son Bill is active in Youth for Christ in Defiance, Ohio.

Heading down "near home," let's stop off in Malvern, Pa. to see MARTHA KRATZ

SHUCK, the widow of DICK SHUCK, '43. She's busy as Promotional Materials Secretary for an Educational Institute. Two of her sons live in California; the other two reside in Pa. Mar-tha would love to hear from anyone in the area. tha would love to hear from anyone in the area. And we can't miss dear "Fuze"-FRANCES BROWN CRAWFORD in Hanover, Pa. who is also retired with her husband and loving ev-ery minute of their "Flexible schedule." "Fuzz" can't believe our 40th!

Our travels bring us back to goo bd old Md Our travels bring us back to good old Md. CECILIA BUCKNER BOUMA of Beltsville misses her regular visits to the campus since their daughter graduated in '82. Son John is at University of Md. and husband John will soon reitre from USDA. Inn Frederick, CAR-ROLL DOGGETT is completing his 4th year as Sr. pastor of Calvary United Methodist Church where wife NAN AUSTIN '47 directs the Christian Ed. In Taneytown, MARY THO-MAS BATTEN, loves her big farm, but hubby MAS BATTEN, loves her big farm, but hubby Hugh and she traveled in '83 to Australia to visit son Hugh, Jr., wife, and three grandchil-dren, stopped off at Japan and other Far East countries then on to Berlin and Zurich. Son Chris and family 'cowsat'. Their next tip will be to Alaska where son Bruce lives. Daughter Mary Is a computer programmer. PEC CARTER WELKGS of Rocktalae, still

PEG CANTER WELKOS of ROCKARE, SUI teaching kindergarten in Baltimore City, plans to join her retired husband Hilt and enjoy their children and grandchildren. Steve, age 36 (a high school classmate of my oldest son George), has two boys: Sue is a microbiologist many sensor casamare or my oncess and corregel, has two boys. Sue is a microbiologist at Fort Detrick; Sherry-like mother-isals for Casmewile community College at home. Peg's old pal CHARLOTE: "MAC" MACCON-NEY HALL responded how great it was to hear from me. I just know." MaC will be at our re-union. Right? Former columnist MADELINE MYERS HIATT of Westminster says she's busy with her "ordinary housework". But if you call teaching an adult Bible class, serving on daughter Mary Elizabeth at Hopkins, and most of all "putting up with" husband Bill, who is media specialist at Hopkins, and patter of her dusting and cleaning? Also in Westminster we find RUTH LEISTER Westminster we find RUTH LEISTER SNYDER, who has retired to Carroll Lutheran SNYDER, who has retired to Carroll Lutheran Village after years of nursing for the state. Ruth deserves many years of contentment, for she has certainly had much trauma. She has survived two dear husbands and a son. Dr. Harry Sponseller. Harry's twin is a patient at Rosewood Center. Ruth's oldest son is an em-

narry Sponseller. Harry's twin is a patient at Rosewood Center. Ruth's oldest son is an em-ployee at Social Security. Ruth, you'l be very close to help with out security. Ruth, you'l be well and the security of the theory well and some close the security of the theory well deep respect and affection for our alumni con-stituency in the loyal support in both funding act entry. The loyal support in both funding act entry is a support of the security of BUR and the security of the security of the security of the loyal support in both funding act entry. The loyal support in both funding act entry is a summic espectately when work-ing with the 50th year classes. So Madame Director, this date. Sat. June Ist, should eer-tahly be priority for the class of '4b. Donna, we are all provide of you for being a major 'tog in the wheel' that has made the word "Jummi" extra special. Finalith High in Reistenstorn who can't seem to see "The End" 'Mapte I juid todn't want to break away. Who knows, maybe '85 will be a refirement year, too!

For those of you who did not respond, ase get in touch with me for Reunion News. And thanks to all who so enthusiastically an-swered my post cards. This column is *not* a chore; it's fun. I love hearing from you all.

husband Ed. Dottic continues to be an active WMC supporter. It is with regret we learn of the death of BERNARD R. RIDGELL, who died January 21, 1984. Robert, son of Bernard said his father died after a lengthy liness. The family appreciated the alumni office "thoughtfully including" their father in the various college activities. We extend our sympathy to the fam-ily of Bernard R. Ridgell.

ily of Bernard R. Ridgell. This is the Big One-our 35th Reunion. CARMELLA COX DAVIS and I are writing to each member of the class to invite total pareach member of the class to invite total par-ticipation in the reunion activities. We have received a good response from many of you and will look forward to hearing from many more. This is a good year to up-date all of usl AL and Barbarna BRIGHT elebrated their 30th anniversary. Daughter Amy graduated from Penn U. and son David from Brown U. David is completing his M.B.A. at NYU in '85. Al awas the 'wave, have been good in them

Al says the "years have been good to them with the usual ups and downs—mostly ups." CLELIA BOUSHEE BULLARD, resident of

CLEIA BOUSTADE DOLLARD Reaching 6 Forida for 24 years retired from teaching 6 years ago. Currently involved in Meals-On-Wheels and hospital auxiliary work. Cleila has been treasurer and president of St. Luke's Hos-pital Auxiliary. She has 4 daughters 3 mar-ried and nearby. Number 4 daughter is resolution a materia in number 4 daughter is receiving a masters in nursing from Univ of Florida, May '85. Grandchildren ages 4 and 2 with 2 on the way. Husband Ray is assistant vice president of Seaboard Railroad.

vice president of Seaboard Railroad. HARRY BUSH hopes to return for reunion activities. Still teaching history and English and coaching football at Ridge High School in Basking Ridge, N.J. Wife Sally is the director of a local art association. Oldest daughter, Karen, is a lawyer in California. Son, Steven is a college football coach at Springfield College Second daughter, Sarah, is a junior at U, of Second daughter, Sarah, is a junior at U. oi Mass, and currently studying in England. Youngest daughter, Laura is a senior in high school. Laura, an honor student, swimmer and goale of the number one field hockey team in the state.

SUE HALL COONS from Somerset County is involved in tree farming with husband Barl. Also grow brollers for Perdue. Sue is on County Library Board and involved in reno-vation and expansion of the public library in Cristleid. Son Hall. CFA., works in a public counting firm and attending graduate hool at Wake Forest, N.C. JOHN D. COSTLOW, Professor and Direc-

JOHN D. COSI ILOW, Professor and Direc-tor of the Duke University Marine Laboratory in Beaufort, N.C. John plans to attend reunion activities. He received the Ph.D. degree in 1956 in zoology. Married Ann Elizabeth O'Rourk, formerly an assistant professor at WMC in the Biology Dept. They had 2 children, Jane and Beth. John has been Mayor of the town for 2, 2-year terms. Also Senior Vice President of the 2-year terms. Also Senior Vice President of the Beaufort Restoration, organist and vestry member of the St. Paul's Episcopal Church, member of the Architectural Review Board and involvement with the Historical Associa-tion. Tragedy struck in 1979, Ann had brain cancer and died in 1980. John remarried in 1982 and introduced his new wife to a world of travel—Egypt. Spain and London, England to attend scientific meetings. Daughter Jane, received a James B. Duke Fellow to Duke University, graduating with a major in language, 1976 and received a Ph.D. in Slavic Literature at Yale University. Jane is now in Lenningrad, Moscow, U.S.S.R. as an IREX/Fulbright Fellow, Daughter, Beth, graduated from Guilford Col-lege, N.C., major in administration of justice, lege. N.C., major in administration of justice, served 2 years as a Deputy Clerk of Court and went on to be a paralegal for a local attorney. Two years ago signed as an agent for Naval Intelligence Service and lives nearby. John fondly remembers Dean Free, Professor of Mathematics as well as Dean of Men. He never hears excerpts from "O livet to Calvary" with nears excerpts nom of near out thinking of Dean Free and his "magnifi-cent baritone voice." CARMELA COX DAVIS most graciously assisted me in writing to you about this important year. Daughter, Melissa, in Oregon with 3 sons. Son. Stephen, is in the Army, studying Arabic at language school. Stephen will graduate from Presidio of Mon-terey. Stephen also has a son. Carmela is busy with volunteer work-sceretary and on the Board of the Susquehanna Symphony, also on Board of the School Concerts Committee of Harford County, assists at the information desk in county court house, sings and plays the piano, and assists the music therapist at Perry Point Veteran's Hospital, Carmela says she is "finally using something she learned from Papa DeLong." In her "spare time" she plays the organ, does needlework, works on stamp collection and cooks foreign recipes.

If The Hill ever gives an award for WMC's Most Conscientious Correspondent, a top con-If The Hill ever gives an award for WMC's Most Conscientious Correspondent, a top con-tender would have to be DOLLY DALGLEISH DARIGO. Seven cards and three phone calls from Dolly since our last column! In Septem-ber, a picture postcard from Colondo Springs where Dolly spent a week visiting daughter Stam who runs the copy center at Denver U David an mentioned working again as a example that the teacher of Faher Case. her even-ing program on Lewis & Clark, and her nature hike. Diane, her husband, and their baby live in Krinsville. Me te caches physiology at Os-teopathic College there. "It's not easy to find another WMC grad in the midwest!" A card in November from Booker T. Washington Na-tional Monument, Lexington, Na, described Dolly and Carl's trip east to visit family: It in-cludes a day at Altantic City with brocher Dave and the family ("No gambling-just rode the and and muttor). "Had tunch with JANE BIRCH WILLOW. The set on the reindows of the right hand and was wearing a cast. But she looked

the same!" Christmas week, Dolly and Carl celebrated their 30th anniversary by taking AMTRAK to New Orleans, the city where they'd gone on their honeymoon. Then Jan 5, Dolly and her their honeymoon. Then Jan 5, Dolly and her sister-in-law, Loreta, liew to San Diego and we had a chance to visit together. Daughter Mancy, a geologist for Getty Oil in Ventura, Calif., came down with her fiance, Paul Stout, who's getting his PhD at Scripps, and so "Some Like H Hoil", no less Leaving San Di-eso. Delly and Bhert, continued un the coasi ego, Dolly and Rhett continued up the coa ego, boliy and knett continued up the coast to Monterey; Hearst Castle; Catalina Island; slept overnight on the Queen Mary; visited Santa Barbara Mission; Joshua Tree Nat'l Park; Desert Garden in Phoenix; etc.

Not much news to report, says JACK NAU, except that his youngest son was married in May. "Practically everybody in Reisterstown went to Cancun, Mexico last winter; only Lou and I had the only rainy week they ve known. The Mayan ruins of the Yucatan were the best part of the trip—so you know it really rained. See, life is really dull—must be getting old." See, life is really duil-must be getting the A matter of perspective: now, here in San Die-go, a little rain would be exciting. In 1980, MARY RUTH WILLIAMS retired

In 1980, MARY RUTH WILLIAMS TOTAL from the Army, finds that she really enjoys re-tired life. Travel, fix-up projects on the house, yard work, church/choir, bicycle riding and lots more keep her busy and happy. Mary Ruth has lived in her Bladensburg, Md., house lines 1027 and ner Bladensburg. since 1973 and appreciates not having to move as often as she did in her early Army days. "Hope all is well with you, Pat, and the Pret of the chart of the second rest of the

DOUG BIVENS is entering into his 33rd year of education, currently serving as Direct tor of Personnel Services in Calvert Co., Md. and doing a bit of part-time teaching at Bow State College. Last fail he traveled to Salvador and Rio; in the spring he visited schools in Stockholm, Oslo and Copenhagen; and by the time you read this, Doug will be en route down the Amazon.

Last January, JEAN DENNISON SMART's husband, Edison, retired—just in time to start remodeling their oldest son's home to accom-modate his family of five children. Their youn-modate his family of five children. Their younmodate his lamily of five children. Their youn-gest son lives at home and works for the Navy In Crystal City, Va. "Much time spent caring for my parents, also," writes Jean from Them-ple City Hills, Md. "We hope to do some more traveling, camping and batting—haven't been maker club and church activities keep them basy the rest of the year." In 1980, CICORCE McCIRW moved from a great deal (domestic and overseas), but in two and da spend winters in their towhouse in Bradenton Fla Bidgest news this year was the Students of the year.

Bradenton, Fla. Biggest news this year was the expected arrival of their first grandchild, com-

pliments of their son in Florida. From Mt. Kisco, N.Y., PHIL SACK writes that son Bill passed the Massachusetts Bar and is practicing outside Boston, and daughter Nancy is living and working in Jerusalem "I can't believe she'll be 30 on her next birth day. How come our children are getting so old and we're not." Phil's still at the Chemical Bank. He'd like to retire and play golf, but he's about \$1,000,000 short (1) Aren't we all. LINCOLN and RoseMarle JUSTICE are be-

LiNCOLV and KONSMITE OUTDOWNED AT UNCLEASE UP coming involved again in the life of a local church as Pastor and are still living in their carth shelter home. They are active in the Preeze Campaign to end the arms race and the threat of nuclear destruction. "Also would love to see some friends from WMC. Doesn't any-one event readel through Nebrask2. Free one ever travel through Nebraska? Free lodging-good food! Just call before you come (402) 423-3444. For those who are rusty on

(402) 423:3444. For those who are rusty on geography. Nerbaska is just half way between New York and California." In January, Gary and MARTY BUCHMAN BRAUNNO were presented with their first granddaughter by Gary II and wife Kate Weighting in at 9 lbs. Serah Anne should be Weighting in at 9 lbs. Serah Anne should be Bugghter Jane and hushand deff are expec-ing in September, so Marty and Gary antici-pate plenty of help on the farm. ROLAND "Mole" LAYTON reports that both his children are grown, one in Kentucky.

pare pierty of help on the farm. ROLAND "Mole" LATON reports that both his children are grown, one in Kentucky, one in Fjordia (both had enough of the Lake Eric Snowbelt). He himself took a group to Russia again last December. April. Then a sudden transfer (and fine pro-motion) for Doug to one of the three regional managers of the Star Rubber Subsidiary of Kelly resulted in a move July 1, 1985 to the house of their dreams. Star Rubber head-quarters is in Richmond, so the Paulsens are now near Doug's company fineds and Jan's family in Baltimore, and also nearer to Nancy and Dr. Doug. Jan won a battle for full certifi

aminy in Builtmote, and also have that interrig-and br. Doug Jan work ability in a new school and br. Doug Jan work ability in a new school and prench I and Vy In another. Doug had gail hadder surgery in the winter of '83, has fully recovered and is raring tog again. "Come see us." Jannie urges. "We do love it heret" It grieves me to report that JM CULHANE died on September 7, 1983 in a Salem. Van-bospital. Jmh adbeen a verena of the Korean War, and had been a verena of the Korean War, and had retired as plant manager of the American Fackaging Company. Our sympa-thy goes out to RITA GATTENS CULHANE, Jim's wife and our classmate, to their two child-dren and his family. If you'd like to contact Rith. her address is 5025 Keithwood Dr. SW, Roanoke, Va. 24018.

A little late, but we just received word of the loss of another classmate, ROBERTA HOLLENSHADE ROBERTS (Mrs. William F.) on Feb. 6, 1981. We appreciate her daughter's calling from Cockeysville to let us know. FRANK KRAUSZ retired January 1983

from the Federal Government with over 33 years total service. He lives on the water in Centreville, Md., and his main interests are his Centreville, Md., and his main interests are his garden, fishing, and four grandchildren.

The end of May brought the following from ED and DOTTIE FRIZZELL TODD: "Seem to stretch ourselves each year from Florida to Maine. Just returned from a 12-day sail on a sloop thru U.S. and British Virgin Islands, sloop thru U.S. and British Virgin Islands. stopping at primitive Islands. visiting caves. celebrating Jourvert at Carnival Time in St. Thomas. We'll be leaving for Maine soon to continue building our place on the ocean-it sits in the middle of an old blueberry farm—the seals swim by every day-lots of lob-setr to eat. clams and crab meat. too. Soon as

ster to cat, clams and crab meat, too. Soon as we're finished, we're open for visitors! We're 1 hour north of Bar Harbor". Bill and BETTY DUVLLL RIGOLI still have a waterfont home near Annapolis but are cur-rently boatless. Betty's still on board as edi-tor of *Chesopeake Bay Magazine* and keeping bays. Their youngest, Sitev. turred 21 in March, so time marches on. "Husband Bill is even gone as fin as getting a passport, but don't see toor much travel ahead yet. Did see DOM's JOHER HANCOCK and BILL 's east from Tueson. Seemed like old times as we picked up where we'd left of years ago. No picked up where we'd left off years ago. No grandchildren vet; none in sight.

BOB KETTELL's wife Doris is still teach ing high school in Norristown, Pa. Their kids are scattered: STEVE '73 in Chicago, Ann in Rochester and Bob in Tallahassee. The four grandchildren are growing up too fast-unfortunately Bob and Doris see them only a couple times a year. Bob's still a Division Claims Service Manager for Liberty Mutual Ins. Co. and travels the mid-Atlantic states. He enjoys golf, church and people. "We're healthy happy and have much to be thankful for." I'd like to add that Bob was shocked to read of Jim Culhane's death in The Hill and sends condolences to Rita.

"BOB is still working—retired from the Army in 1971," writes BARBARA "Babs" PAYNE WILSEY from Salisbury. Md. "I'm retired from teaching, though I teach an oc retired from teaching, though I teach an oc-casional course at Wor. Wic, Tech and Com-munity College. I'm president of the local branch of the Amer. Assoc. of Univ. Women and vice president of Deers Head Center Volunters, ao Luepanalapert and the conten-tion of the analysis of the analysis of the teach the analysis of the analysis of the analysis of the present set Myrtle Beach, SC. See a few old WMC grades. Still lowe the Eastern Shore am-biance after 30 years here—lots of lazy and pleasant living." pleasant living." DODIE ARNOLD CALLAHAN informs

DODIE ARNOLD CALLAHAV informs us that with both son and daughter grown and away on their own, she and husband Bill divide their time between Catonsville and a condo in Ocean City where they see MARY LOU SCHANZE ST. LEGER regularly and meet with LEN '50 and ANGELA CROTHERS Lock with LEN 'So and ANCELA CROTHERS ZAWACKI. Dodle works part-time as a city four guide for Baltimore Rent-AFbur (the com-pany that does the insomial cours). "I abo-lutely love it—as my friends say. After all these years of telling everybody where to go and what to do. she's inally getting paid for it? No kidding, though, it is great to ablow of our city to visitors—I'm so in BLL. SIMPSON in Lynn. Mass. He has married again: "A lovely young lady, i.e., young like myself!" Last year Bill re-tired from school counseling and now gives fuil-time to the church. The Greater Lynn Council of Churches asked him to serve as its

full-time to the church. The Greater Lynn Council of Churches asked him to serve as its presiding officer, a task he really enjoys. Bill says he's still making use of the fine musical training he received at WMC. And he promises to attend our next retunion 1983 was a great YMC and BAR-BARA FLOUTZ LATHROUM, and 1984 was

child #3 in June; 2nd son was married in the fall; 3rd son and 1st daughter both working ("Imagine that!"); and 2nd daughter returned from Spain for her 4th year at WMC. "Leo and I can literally (finally) pack up our tent and steal away (from Baltimore) to Shad Landing State Park, Outer Banks, Myrtle Beach, etc.

even better. One son and his wife had grand

God is so good! He's brought us a long way." "I had a good winter ('83/'84)", writes CHARLES LEE LEONARD from his home in CHARLES LEE LEONARD from his nome in Crownsville, Md. "I went to Austria for 2 weeks, skiing. Came back and went to Utah for a week, then to Sun Valley for a week. Christmas time I was in Greek Peak, N.Y. I am still single, and work for the Dept. of Com-

merce in Annapolis." Wow!! Things are a bit better for Sid and JO KOH-NER ZUKAV in Rockville, Md. Sid is making progress with his recovery, can now go stairs and use a walker. They drove up to W stars and use a warker. They drove up to which last winter and enjoyed seeing the campus. Middle daughter Barbara had a boy on March 1, so the Zukavs are grandparents for the se-cond time. Jo says she talks to EVIE HOYLE HIGBIE occasionally.

No news of any excitement in the Big Ap-ple, BILL SCHEDER insists, so he came to San Diego in July to attend the National Hospital Personnel Administrator Convention and Seminar. Then on to Yosemite. Bob's nephew

is graduating from WMC this year. From Baltimore comes word that all three of Bill and PAT MOORE RUTH's children were married within 12 months of each other! Now that Bill and Pat are two again, they figure it's time for life to take new directions. Still dream ing about buying a small farm . . . HARRIS . HARRIS Ing about ouying a small arm ... FIARNOS LEFEW has been Public Relations Mgr. of Westvaco at Luke, Md., for 26 years and still enjoys it thoroughly. Harry and wife Janet live inn Westernport, Md. Two of their sons gradu-ated from WMC; a third is a senior at West Virginia U. Harry reminds us that our next class reunion will be in the spring of 1986. See you

reunion will be in the spring of 1986. See you there! Mini-mentions: Life in Carlisle, Pa., con-tinues to be busy for NANCY WINKELMAN. Her work on the WMC annual fund drive brings her to Westminster now and again. VIRGINIA 'JIM' ENGLE HAZEL signed in from Fairfax, A., to say no special news, but it's been a busy and wonderful year. Colf en-from Fairfax, A., to say no special news, but it's been a busy and wonderful year. Also his own business is growacpartment. Also no own business is grow-ing. Bonnie is still working as a private scrub nurse for a plastic surgeon. Their son, David is attending pre-school full time and enjoying the Bouvier des Flandres that Mom and Dad bought and plan to begin showing in a few

ANNE SWOPE WILLIAMS remarried in January 1983, and is expecting another child in April. Anne and Don live in Millersville with Anne's two step children, Tom, 15, and Susan, 13, and Anne's children, Harvey, 7, and Carla, 5. Anne is the administrative aide to the vice president of M. Ambach & Co., which is an institutional textile and contract furnishings wholesaler. John and DOTTIE HITCHCOCK KEENE

moved to Raleigh one year ago when John was promoted to a management position in IBM. Dottic remained at home until Julie was 6 months old and then returned to IBM May 1983.

1983. CAROL HOYLE has a new house (in Hamp-stead) and a new job. After 9-12 years with Maryland Rehabilitation center. Carol has ac-cepted a position in the cooperative education she is also working toward her masters' degree at University of Maryland. In June. 1985, BOB 75 and DONNA

HERBST WATSON relocated from New Hamp shire to outside Philadelphia. Donna is a free lance writer, working for two area newspapers and a Philadelphia magazine. Bob is manager of financial analysis for Challenger Elec-tronics, formerly a part of GTE. Their daughter, Hana, will be 3 in June. DAVID and KAREN BIRKMAIER ERMER

have joined a German folk dancing group called "Wendelstein" which they are enjoying very much. They perform folk dances of Bavaria and wear the traditional clothes dur-ing the performances. Their children, Elsa and Kyle, are enjoying watching their parents

Kyle, are enjoying measures practice! The JOHNSTONS have survived another Midwest winter! Ian is in his third year of teaching at Northwestern College where he is involved with faculty committees, specials studies with two seniors, as well as his regular teaching duties. L/2 remains buy with their two gifta—Sarah, 5, and Jennifer, 2—and does science in their church. It's been a diffutwo gram-suran, p, and Jenniter, 2—and does some typing for their church. It's been a diffi-cult year for all the Johnstons since they dis-covered in June 1983 that Sarah had leukemia. After two hospitalizations in Omaha and much chemotherapy, she is in remission and all seems to be going according to the doc-tors, nan.

tors' plan. The co tors' plan. The cold winter also effected BARBARA BROWN VOLLMAR and her family. They live in Festus, Missouri, on a 35-acre farm which keeps them very busy. Joe. 2-1/2, and Nick, 1, helped Barb plant some lettuce, radishes

and spinach this spring. KAREN GEORG QUILLEN, her husband, Bert, and their three children—Bert, 7, Andy, Bert, and their three children-Bert, 7, Andy, 5, and Kelly, 2-are still living in Taneytown. Karen is director of a 5-days-seweek nursery program at Thinly Lutheran Church where she is also organist. Bert is in the nursery busi-ness, too-ahrubbery thought MARIA PETRUCCI has been a doctor of chiropractic medicine since November 1983, in Glendale, Calif, but hopes to move back to Maryland by June. She has been enjoying working out in a gym and doing aerobic exercising.

ROBERTA SCHROM has moved to Reston. Va. and is presently working as a member of the engineering staff for Sperry in the flight simulation division. She left MCAIR after 3-1/2 ears since they wanted her to move to St

Louis! NELLIE ARRINGTON and husband, Bob, have joined the rest of us in the wonderful world of home improvement. They have diligently been working on an addition to their home which included a master bedroom suite and involved some work on their kitchen and dining room. Both are enjoying their jobs and have found them to be a Monday oasis from

finish carpentry! MARY WRIGHT DODSON wrote a newsy letter to catch us up on her life. Mary worked for a credit union and attended worked for a credit union and attended Catonsville Community College after gradu-ation. In January 1977, she married David Dodson, a Baltimore County policeman, and ten months later they had their first daughter, Carolyn Christina Ruth. In 1983, the Dodsons moved into their home which they had started building in 1981, in Freeland. By then their building in 1981, in Freeland. By then their second daughter, Rebecca Marie was born. The second daughter, Rebecca Marie was born. The second second second second second second garden and grow evergreens and fruit trees. Box SELLERS also wrote for the first time and gave in a capsule review of the past ten years of his life. After graduation, he pursued

years of his life After graduation, he pursued a career as a professional musician. From 1974, 1976 he was a studio musician, writing and recording commercials, jingles, film 1976-1980, he was with the Jim Sellers Band, they put out an album and toured the coun-ty to excellent reviews. In 1980, he entered the University of Baltimore and graduated in 1983. He bas new anond his care, has office the University of Baltimore and graduated in 1983. He has now opened his own law office in Towson. KEN BATES is presently an assis-tant vice-president and commercial loan of-ficer for Carroll County Bank and Trust in Westminster which he really loves. DEBBIE HUFFER '76 has gone back to school and is working toward her certification in teaching with the hopes of possibly directing a day care center in the future. Their son, Nathan, is 3-1/2 years old and attending a day care pro gram. I was pleased to see that KENNY and IAN MACFAWN worked on the 10th Reunion Fund Campaign this year and found it a very enjoyable and worthwhile experience. Ian enjoyable and worthwhile experience. Ian writes that everything is going very well for him. He is enjoying his son, his Job at Westminster Veterinary Hospital and life. JEANNE MATHIAS JOINER was promoted

to assistant planning director for Carroll County Department of Planning and Development in January. She began working in the Planning Office while a student intern at WMC and has been employed there full time for over nine years. Jack and Jeanne and their children Matthew, 5, and Jacqueline, 2, live Westminster area.

JODY BAKER-GILLESPIE remarried in March: her husband, stepdaughter and she live in a beautiful ocean town south of Boston (Duxbury). Jody has temporarily retired from

CRAIG MERKLE '78, and SCOTT GINGE-RICH '77. In September 1982, Harry became engaged to Debike Rasch. a LI (Field Ar-a. 1981) grad from the University of Missouri. Debike and Harry were marifed the first time in December. 1982 by mail from Ge-DAVID REINECKER was elected president of the executive committee of the Adams County Agricultural and Home Economics

County Agricultural and Home Economics Extension Association.

NANCY SHEPHERD writes that she has en teaching French at Severna Park Senior High School. She saw JEFF HUNT at a con cert at the Capital Center. Jeff had recently started a private tour bus business which was doing well. He had won a trip to Acapulco for s insurance successes. ELDON WATTS completed his mast

gree in social work and has been working at Spring Grove State Hospital with severely disturbed patients.

I am still working for the General Electric Space Systems Division as Technical Editor. My family is doing well and growing up quickly.

As you can see, I do not have a lot of class news. Even though *The Hill* is only printing our news once a year, please be encouraged to keep writing. Your news will be printed.

Donna Armstrong Gicker 15548 Peach Walker Drive Bowie, Md. 20716

1978

Thanks for your great response to the eneral mailing! As always it was good to hear rom you, and I'm happy to be able to pass on our good news to other class of '78 alums. ur good news to other class of '78 alums. SALLY KECK and CARL GOLD, HELEN

KIEFERT and DENNIS PETERS are to be con gratulated on their efforts for the 5th year union!

Peunion! .AVID FAE was able to enjoy the final four NCAA basketball championships in Seattle. He's a firing battery commander at Fort Lewis. France. After returning to Iran after gradua-tion, she ran into great difficulties during the revolution. She worked for a while helping deaf people, but nothing lasted very long. She was married in 1980 and now has a daugh-ter, Sada. With she and her husband trying to continue their educations, they had severe problems with the people in charge in Iran. After two years they decided to leave the coun-try. Since they could not leave legally, they were forced to hike into Turkey.

The government of Turkey was not sym-pathetic to Iranian refugees and many were sent back to Iran to face execution. Maryam, her husband, child, and brother-in-law were able to find friends to get them out of Turkey. They could not get visas to the U.S. so they went to France after a six-month sity. All is well with them now and they are es-

tablishing themselves in France and going to school. She would love to hear from classmates so I'm enclosing her address: CSCS de Laon; Le bois du Charron, 02000 Laon, FRANCE.

Write anytime you have news. Believe me, I keep everything until the column is printed, which is now, once a year. Thanks for the news

1981

Well Class of '81, this is it—my final column. Yes, your faithful scribe has had to retire due to a move approximately 3,100 miles from Westminster. My husband has blood the American three were FOIC still. miles from Westminister. With heaty active Joined the Army for a three year ROFC stim-and Uncle Sam sent us to Gradient West Germany. Ireally feit homes right into SHARI BULLARD 83, which was a straight into SHARI BULLARD 83, which is the straight is the straight into ST62:055. The pays intigrates, but I have had a good time with it. Weddings are once again in epidemic proportions. BARB PORREY and JEFF WAILLBINK 80 have set the date for No. of '84, RUSSELYN "Lyn' KEENER will say 'I do'

in December but ELLEN SPIVA will beat them in December but ELLEN SPTVA will beat them both to the aliar as as he is taking the big dive with prospective hubby Albert Chitard (did I spell it right?) in October. Ellen is still in in-terior decorating while Lyn remains with Miles and Stockridge as a paralegal. Barb is continuing to reach out and touch us (albeit with higher prices) at C&P. JANE GARRITY will also take that long walk down the alse with Billy Plantholt. Jame is working at the College of Notre Dame teach-ing sports and is the youngest laculy men-

ing sports and is the youngest faculty mem-ber on the staff-at least you're not at ing sports and the staff-at least you're not an Washington & Lee!! Finally we have another Bachelor taking the plunge. I understand form sources that Alpha Gamma Tau's own BRUCE FRICK has done the dirty deed al-ready! Congrats to Bruce and his new wife Wordy.

Never ones to let the Bachelors get ahead of them, I understand that the Betes also have a member of their ranks who will stand in front of the altar. RICK MORANI and GINNY BROWN are finally getting married!! Halle-luiah!! Now I can sleep at night! To my knowledge. Rick is the only Bete getting married-you guys still haven't changed. KRIS MILKER was recently married to

RNIS MILKER was recently mainted to Robert Brockman. Kris is an admissions coun-scior at Mary Baldwin College. Bob also works in Admissions—although at Bridgewater Col-lege. The Brockmans are now residing in Staunton, Va. LAURIE MORSTEIN, who still loves New

York (is she crazy?) will also be getting mar-ried. She met a fellow New Yorker and fell in love-Laurie, you really should do a New York commercial because you're the only person I

commercian because you re the only person 1 know to fail in love in New York! After weddings come baby announce-ments (a natural progression). HELEN WROE and RALPH KLINE are expecting their first child in November. DEE TAYLOR POPE and her husband, Jim, are expecting their child in September. Best of luck to all!

In September, best of new data Dee Pope informs me that she sees a lot of PATRICIA "Trish" GRIFFITHS and JAY HOLTZMAN. She also stays in contact with NANCY SAXION. Sorry I don't have anymore info. on these guys, but at least we know

into on Infese guys, out at reast we know they're alive: BARB BALLOY has finished the graduate barding and the standard and now has a job teaching hearing impaired children in Baltimore after finishing graduate work in Arizona. She is in rehabilitation at Simal Hospital in Balti-owiching as a social sworker in South Carolina and has married. Her new name is Mrs. Steve and the standard statement of the statement of the state of the statement of the statement of the statement and has married. Her new name is Mrs. Steve Gunn. Congrats to you guys!

JEAN ELLIOTT is now assistant director of Sports Information at Brown University in Providence, I understand that Jean's selfdesigned major has helped her to get right where she wants to be. I should be congratuated because I got her letter the day of my wedding and remembered all this! Seriously

wedding and remembered all this Seriously Jean, that's great! When was the last time Brown won an Ivy League title? CONNIE THOMPSON and ROB BOWMAN, fellow Army vagabonds, have moved to a new camp. They are now located at Fort Devens outside of Boston. I understand that baked beans have it all over the Louisiana swamps!

beans have it all over the Louisiana swampel Comite has found a job close by in the public relations field. MARY LEE FONES is close by in Nantucket. Mary Lee is working at chan-nel 3 right on the island... I understand that LAURA McGINTY and Frank KOBOLA took a European tour this summa as of this writing their litnerary is not complete but I hope that one of their stops will be in Gragenwork. West Germany!! JEFF VINSOM promised to keep me in-formed on his whreabouts so that he could ged to this column. Jeff, you didn't do a very good job. I'm sure you're out their marching inname, JOHN ARMSTRONG has moved to New York. I understand he last't far from NANCY CASEY. Nancy is doing very well in her insurance job but even better on the New her insurance job but even better on the New York bar scene! Nance, didn't you go to Har-vard Business School?

vard Business School? During the past year I have been to many weddings but two of the wildest were BART STOCKSDALE's in December and COLLEEN KELLY's in April. Bart and his new wife, Carol. ELLY's in April Bart and its new while, Catol, reated us all to a lovely evening. Also in at-endance were ELLEN SPIVA, EILEEN LYNN, ED KILCULLEN, WOODY ENSOR nd ED MOORE. Woody is working for a com-FLYNN. and ED MOORE. Woody is working for a com-puter firm. Colleen, a real prankster, really surprised us all by announcing her betrothal to Gene Protzko. After the shock had subsid-ed, the wedding plans were quite fun. Walk-ing down the aisle with Colleen were LEAH COX, JANET BUTTS '80, CAROLYN BERRY COX, JANET BUTTS 80, CAROLYN BERRY '82 and myself. Helping Gene to the altar was his brother and best man, JOE PROTZKO '83. And the top story of this column has to do with NANCY HEINBAUGH. Nancy, our first corporate president, has since changed jobs. There was an explosion in her building which sent her and many co-workers to the hospital on one of her first days at the new job. Oh well.

Nancy always was one to start things off with a hang

Thank you all for the support over the last three years. The column has been fun and if linsuited anyone along the way please accept my apologies. If you ever find yourself in Ger-many, look me up and come visit!

Leslie Mosberg Heubeck HQ, 1st Armored Division Grafenwoehr Law Ctr. APO, New York 09114

1982

Happy New Year everyone! I hope 1985 finds you all healthy and happy. The ranks of our class who are newly nuptialed grew in 1984. GILLIAN DAVIES married JOHN 1984. GILLIAN DAVIES married JOHN SPRINGER '84 in Junc. HERBERT and Ray Fornton. Sule is cultured a very happy apprentice wearer. ELLEN SCHAFERE married Ken Salins in March. Ellen is a part time housing coor-dinator for the deaf, and attends Univ. of Maryland School of Social Work and Com-munity Planning, working toward her M.S.W. JOHN WORTROP recently married Mary Rigger, and is an electrical apprentice at Gill-

Simpson, Inc. LINDA DOENGES and RON ANTLITZ '82

LINDA DOENCES and RON ANTLITZ '82 are married and living in Beeryk Mass. north of Boston, Linda teaches in a nursery school, and Ron attends school full time. MOLLIE KING writes that she is seeking new employment, but keeping wryb buy sing-ing with the Southern Maryland Choral So-ciety, auditoning for summer theatre, and dating an undisclosed number of men. Shocking!

City, advantage of the second second

As for me, I am also seeking new employment that will require the use of at least s of my brain. I try to keep in touch with my friends in Alpha Nu Omega and the WMC drama department, and I'm currently dating a waterbed salesman, if anyone is in the market for one. I hope for a bit more excite-ment in my life by this time next year. Please keep those cards and letters coming!

Beth White 3489 Salem Bottom Rd. Westminster, Md. 21157

1984

So how are you all doing? Things are go-ing just "swell" for me and I had a lot of fun gathering all this gossip. We have a lot of news so I had to cut things down to just the bare facts-sit back, relax, and I hope you enjoy our first class letter

GLEN ARNOLD says he is doing fine, presently unemployed, and plans to attend Wesley Theological Seminary in Washington.
