## GENERAL INFORMATION

The summer session of Western Maryland College has come to be an integral part of the college year. The session is somewhat shorter than a regular semester in length (ten weeks) and its schedule differs from a fall or spring semester in that it is divided into two equal terms, during each of which a student completes full semester courses. He carries six semester hours of work at a time but works at this twice as intensively as in the regular semesters.

## VALUES OF SUMMER STUDY

The summer session has a distinct value for several types of students. There are those, for example, who wish to accelerate and thus complete graduation requirements at the earliest possible date. Attendance at both summer and winter sessions makes graduation possible in three years. The summer session also makes it possible for high school graduates of the June class to enter college immediately and thus avoid any waste of time. There are others who have already attended college but who need extra work to improve their class standing. These often find that the concentration of attention on a few subjects, as allowed in the summer session, makes such improvement easier than in regular semesters. There are still other students who are working for degrees but are unable because of their employment to attend winter sessions. The summer session enables these to continue their progress toward the degree.

## LOCATION

The College occupies an eminence at the west end of Westminster, nearly one thousand feet above tidewater, affording a view of town and landscape rarely equaled for beauty. The elevation, good water, and mountain breezes all contribute toward making summer work here a pleasure.

Westminster is a city of about five thousand inhabitants, thirty miles northwest of Baltimore and fifty miles north of Washington. It is on the Western Maryland Railway and is accessible from all points by good roads.

## BUILDINGS

Science Hall, Lewis Hall, Levine Hall, and the Library will be open for instruction. Dormitories will be open for the first time on Sunday afternoon, June 20. The first meal to be served in the College Dining Room will be breakfast, Monday, June 21.

## STUDENT'S OUTFIT

It is necessary for each student to bring the following articles: bed linen, pillow, blankets, towels, and personal articles. Commercial laundries will do student work at a nominal cost.

## ADMISSION

The same rules of admission will apply as for the winter sessions. In general, this means that the student must show evidence of ability and willingness to do college work as evidenced by high school grades, personality ratings, scores on standard tests, and recommendation of the high school principal. Transfers will be accepted from other accredited colleges upon the submission of a satisfactory transcript of record.

## REGISTRATION

All students must register for the first term on or before Monday, June 21, unless previous arrangement is made because of late graduation from high school or other unavoidable circumstances. Registration for the second term must be made on or before July 26. Registration may be made by mail; write for blanks.

## MASTER OF EDUCATION PROGRAM

Western Maryland College offers programs leading to the degree of Master of Education to selected students interested in a fifth year of combined internship teaching and graduate study and to selected teachers in service who are interested in meeting requirements for renewal of certificates or for additional certificates through part-time and summer session courses. For further information relative to these programs write to the Dean of the Faculty.

## ORIENTATION

A brief orientation program for new students will be held on Monday evening, June 21, at 7:00 p. m. This will consist of announcements and explanations and in the taking of tests. Additional orientation features will be included in the first convocation exercise.

## ABSENCES

No unexcused absences are allowed. All work missed through unavoidable absences must be made up. No week-ends will be permitted where absences from classes are involved.

## COURSES OF INSTRUCTION

Courses are designated by numerals, a three digit system being used. The hundreds digit in the numerals indicates the classification the student must attain to be eligible for the course. Courses numbered 100 to 199 are offered to freshmen; 200 to 299, to sophomores; 300 to 399, to juniors; 400 to 499, to seniors and graduate students; 500 level courses to graduate students only.

Courses marked with asterisks (e.g., \*101, 102) are designated as introductory courses in relation to major and minor requirements.

If there is not a sufficient registration for any particular course, the College retains the right to withdraw that course from the summer curriculum.
