LOCATION

The College occupies an eminence at the west end of Westminster, nearly one thousand feet above tidewater, affording a view of town and landscape rarely equaled for beauty. The elevation, good water, and mountain breezes all contribute toward making summer work here a pleasure.

Westminster is a city of about five thousand inhabitants, thirty miles northwest of Baltimore and fifty miles north of Washington. It is on the Western Maryland Railway and is accessible from all points by good roads.

BUILDINGS

Science Hall, Lewis Hall, Levine Hall, and the Library will be open for instruction. Dormitories will be open for the first time on Sunday afternoon, June 19. The first meal to be served in the College Dining Room will be breakfast, Monday, June 20.

STUDENT'S OUTFIT

It is necessary for each student to bring the following articles: bed linen, pillow, blankets, towels, and personal articles. Commercial laundries will do student work at a nominal cost.

ADMISSION

The same rules of admission will apply as for the winter sessions. In general, this means that the student must show evidence of ability and willingness to do college work as evidenced by high school grades, personality ratings, scores on standard tests, and recommendation of the high school principal. Transfers will be accepted from other accredited colleges upon the submission of a satisfactory transcript of record.

Graduate students must submit a transcript of the record of their undergraduate work. Matriculation examinations for graduate students are given in Westminster in February and July.

Students from other colleges who do not wish to matriculate for a degree at Western Maryland College but who wish to carry summer courses here should submit a statement of good standing from the registrar of the institution they are attending.

REGISTRATION

All students must register for the first term on or before Monday, June 20, unless previous arrangement is made because of late graduation from high school or other unavoidable circumstances. Registration for the second term must be made on or before July 25. Registration may be made by mail; write for blanks.

STUDENT LOAD

The summer session consists of two five-week terms. During each of these terms, a student completes a semester's work in the courses selected. Because of the intensive work required by such a program, the student load is limited to six semester hours during each term.

GRADES

The scholastic standing of a student is indicated by a system of letter grades: A, B, C, D, passing; E, conditioned; F, failed; Inc., incomplete. Students who withdraw before the end of the course receive a grade of Withdrawn Passing or Withdrawn Failing. Numerical values are not assigned to these letter grades.

MASTER OF EDUCATION PROGRAM

Western Maryland College offers programs leading to the degree of Master of Education to selected students interested in a fifth year of combined internship teaching and graduate study and to selected teachers in service who are interested in meeting requirements for renewal of certificates or for additional certificates through part-time and summer session courses.

Specialists from the United States Office of Education, from the Maryland State Department of Education, and from the city and county school systems will assist the resident and visiting faculty in workshop problems in reading, community study, core curriculum, education of the slow learner, supervision, and administration.

For further information relative to this program, write to the Dean of the Faculty.

ABSENCES

No unexcused absences are allowed. All work missed through unavoidable absences must be made up. No week-ends will be permitted where absences from classes are involved.

BOOKS

The required textbooks may be purchased at the College Bookstore. However, all charges must be paid at the time of making the purchase; no books or supplies may be charged in the summer session.

COURSES OF INSTRUCTION

Courses are designated by numerals, a three digit system being used. The hundreds digit in the numerals indicates the classification the student must attain to be eligible for the course. Courses numbered 100 to 199 are offered to freshmen; 200 to 299, to sophomores; 300 to 399, to juniors; 400 to 499, to seniors and graduate students; 500 level courses to graduate students only.

Courses marked with asterisks (e.g., *101, 102) are designated as introductory courses in relation to major and minor requirements.

If there is not a sufficient registration for any particular course, the College retains the right to withdraw that course from the summer curriculum.
