

Western Maryland College

Westminster, Maryland

1967 Summer Session

Date _____
Inclosed is my \$6.00 preliminary registration fee. I plan to attend the summer session at Western Maryland College

_____ first term only _____ second term only _____ both terms
as a _____ boarding student _____ day student

I plan to enroll for _____ undergraduate credit
_____ graduate credit

I am interested in the following courses:

First Term

Second Term

1. _____ 1. _____
2. _____ 2. _____

Name _____

Address _____

If you wish to make a preliminary registration for summer work at WESTERN MARYLAND COLLEGE, fill in this card, detach it, and mail it to the Registrar, Western Maryland College, Westminster, Md. 21157, with the \$6.00 preliminary registration fee not later than June 15.

Registrations submitted after June 15 for the first term (or after July 20 for the second term) should be accompanied by the regular \$10.00 registration fee.

Thirty-sixth Summer Session

FIRST TERM, June 22-July 26

SECOND TERM, July 27-August 30

1967 SUMMER CALENDAR

JUNE

22, Thursday,	8:30 A.M.—12:00 M.	Registration for first term
	1:00 P.M.	Thursday morning classes meet
23, Friday,	8:00 A.M.	The regular daily schedule of the first term begins
	10:00 A.M.	Convocation
26, Monday,	8:30 A.M.—10:30 A.M.	Registration for N.S.F. Institute in Biology and Chemistry

JULY

1, Saturday,	8:15 A.M.	National Teacher Examination
26, Wednesday,	4:00 P.M.	First term closes
27, Thursday,	8:30 A.M.—12:00 M.	Registration for second term
	1:00 P.M.	Thursday morning classes meet
28, Friday,	8:00 A.M.	The regular daily schedule of the second term begins

AUGUST

4, Friday, ---Biology and Chemistry Institute closes
30, Wednesday, 4:00 P.M.---Second term closes

THE SUMMER SESSION AT WESTERN MARYLAND COLLEGE

The Summer Program

Western Maryland College offers both undergraduate and graduate courses during its summer session, which consists of two five-week terms. During each of these terms, a student completes a semester's work in the courses selected. Because of the intensive work required by such a program, the student load is limited to six semester hours during each term, unless permission to add an additional semester hour is granted by the Dean of the Faculty.

Undergraduate Program

The program for undergraduates allows them to accelerate their education and graduate in less than the customary four years; it provides opportunities to carry courses which either are not offered during the regular semesters or are impossible to schedule at those times; it makes it possible for students to repeat courses with which they have had academic difficulties in the regular school year.

Graduate Program

The graduate program is in the field of Education and leads to the degree of Master of Education. Students interested in securing this degree should obtain the graduate catalogue and further information relative to this program from the Director of the Graduate Program.

Location

Western Maryland College is located in Westminster, Maryland, a city of about six thousand inhabitants. It is accessible from all points by good roads. It is about an hour's drive from Baltimore or Gettysburg, and about two hours' drive from Washington.

The College occupies an eminence at the west end of Westminster, nearly one thousand feet above tidewater. The temperature on the Hill is usually several degrees lower than temperatures of surrounding areas.

Instructional and Resident Facilities

Memorial Hall, Lewis Hall, Carroll Hall, the Library, and the Language Laboratory will be open for instruction.

Students will be housed in Albert Norman Ward Hall and Daniel MacLea Hall. These dormitories will be open for occupancy on Wednesday afternoon, June 21. It is necessary for each student to bring the following articles: bed linen, pillow, blankets, towels, and personal articles. Commercial laundries will do student work at a reasonable rate.

All undergraduate students must reside in the dormitory unless they are living at home or with relatives or have the permission of the Dean of Students to live off-campus.

The first meal to be served for summer school students in the College Dining Room will be breakfast, Thursday, June 22.

Summer school students may purchase a special membership to the College nine-hole golf course from the Physical Plant Director at a fee of \$5.00 per term. Free use of the College tennis courts is provided.

Language Laboratory

The College has a thoroughly up-to-date electronic language learning laboratory. The beginning courses in languages will emphasize the conversational approach with particular attention to work in the language laboratory.

Courses in French, German, and Spanish will be available during the 1967 summer session if there is sufficient demand.

Honor Code and Honor System

Western Maryland College students subscribe to and support in all academic matters an Honor Code. It assumes that all students who join the college community will share the values, goals, and responsibilities inherent in an honor system and the pride which it engenders.

Admission

Students in good standing at Western Maryland College or at another accredited college are admissible to the summer session. A statement of good standing as of the beginning of the summer session must be submitted from the registrar or dean of the institution the student is attending.

Students who wish to begin college work in the summer must meet the standards of the Admissions Committee and have their application approved by that committee.

Matriculation examinations for graduate students are given in Westminster in February and July. Students who wish to enroll for graduate courses without necessarily matriculating for the Master's degree here should consult with the Director of the Graduate Program as to eligibility for the desired courses.

Registration

All students should make preliminary registration by Thursday, June 15. Official registration will take place Thursday, June 22, between 8:30 a.m. and 12:00 noon. The regularly scheduled morning classes will be held that afternoon.

Preliminary registration for the second term should be made by July 20; official registration on July 27.

Preliminary registration may be made by mail.

Students are expected to attend all classes. If an unavoidable absence occurs, the student must make up the work missed.

Grades

The scholastic standing of a student is indicated by a system of letter grades A, B, C, D, passing; F, failed; Inc., incomplete. Students who withdraw during the first three weeks of the course receive a grade of W; students who withdraw after July 12 (after August 16 in the second term) receive a grade of F. Numerical values are not assigned to any of these letter grades.

EXPENSES

All charges must be paid in full before a student may attend classes.

For summer work, there is a registration fee of \$10.00. When this fee is paid in preliminary registration, the charge is \$6.00.

Tuition is charged at the rate of \$30.00 per semester hour of credit. Students who wish to audit a course are charged at the rate of \$15.00 per semester hour of credit for the course.

Board and room charges, two in a room, are \$150.00 per person per term. An additional charge of \$10.00 per term is made for single occupancy of a room. (Linens are not furnished for summer session students.)

It is assumed that a student will not withdraw from the College during a term. In the event that such a withdrawal is necessary after the first three class periods in a course, refunds for tuition, fees, and room will not be allowed. A pro-rata refund for board will be made.

The required textbooks may be purchased at the College Bookstore. All charges must be paid at the time of making the purchase.

1967 SUMMER INSTITUTE

June 26 - August 4 -----SUMMER INSTITUTE IN BIOLOGY AND CHEMISTRY

A summer institute for junior and senior high school teachers has been made possible at Western Maryland College by a grant from the National Science Foundation. Registration will be limited to forty students.

The institute is designed for teachers in junior and senior high school whose background training is weak or insufficient in biology and chemistry.

Offerings for institute participants will include a study of basic modern concepts of biology and an elementary study of chemistry. Special field trips and lectures have been arranged. Participants will enroll for eight semester hours credit.

For further information on the institute program, write to Dr. Harwell P. Sturdivant, Summer Institute Director, Western Maryland College, Westminster, Maryland.

COURSES OF INSTRUCTION

Courses are designated by numerals, a four-digit system being used for graduate courses. A three-digit system is used for undergraduate courses; the hundreds digit in the numerals indicates the classification the student must attain to be eligible for the course. Without special permission, freshmen may not register for any course numbered 201 or above; sophomores, 301 or above; juniors, 401 or above; seniors, 501 or above. No credit toward the baccalaureate degree will be given for courses numbered for graduate study. In some advanced undergraduate courses, graduate credit may be arranged.

Courses marked with asterisks (e.g., *101) are designated as introductory courses in relation to major requirements.

If there is not a sufficient registration for any particular course, the College retains the right to withdraw that course from the summer curriculum.
