

THE ANNUAL OF THE SENIOR CLASS OF WESTERN MARYLAND COLLEGE

WESTMINSTER, MARYLAND.

DEDICATION

To

GEORGE STOCKTON WILLS, A.M.

Head of the Department of English, whose scholarship and captivating personality have inspired his students to strive for more worthy attainments, whose liberal experience and sympathetic understanding of student life have made him valuable as a friend and advisor, as well as an instructor, whose versatility and broad interests have manifested themselves in practically all phases of college life on "The Hill," whose assistance with this and previous "Aloha's" has been indispensable, we, the Senior Class, respectfully dedicate the 1933 "Aloha."

FOREWORD

"The old order changeth, yielding place to the new." We have endeavored to make this annual different, and at the same time we have tried to maintain the high ideals of the Class and the College. To preserve the basic traditions of Western Maryland College year books and to add new features and effect desirable variations have been our goals. Our hope is that in reading these pages you may share with us the inspiration and the pleasure which we derived from our labors on this book.

She locks exactly as we have always thought the perfect lady should lock. Sophistication, poise, dignity, a neverfailing sense of humor, a keen appreciation and understanding of people-that's 'Betry'. The latest economic theories are child's play, and classical allusions hold no horcres for her. Yet' 'Betry' is not a grind, and one may see her dreamy eyes suddenly dance and yarkle as ab gets a new, really brilliant idea. She has the happy faculty of writing perfect papers at the last moment. Ever ready to add to the fun or to sympathize when necessary. "Betry" should be both successful and happy in her chosen work.

Not cute-mo, that would never do. Nor is she too sophisticated. As a description in one work we call it "attractive"—that's "Andy." In fact, for four years her technique of charm has been a constant marvel to us. It may be the sparkling blue eyes, the implish expression, the facinating amplic, or perhaps just ther winning way. Whatever it is, everyone is attracted to her. Varied interests eccupy "Andys" time. Socially or athletically she is equally at ease. She has the rare talent of being a gracious hostess and a clever tennis player without apparent concern in either situation. Shall we call it attractiveness, nonchalance, or independence?

McDonogh Prop has sent many of her graduates to Western Maydand, but ore of her best is Borchers. Held in high estern by his teachers and classmates at McDonogh. "Berch" had little difficulty in winning good will and the same reputation here on "The Hill." No clearer expression of this can be found than the choice of "Borch" as President of the Mer's Student Government. How often we have enjoyed watching "Borch" in the ring, slinging a left or right at some more experienced opponent. Win or lose, he always gave the best that three was to give. Hats off to "Borch" as he goes through life, for he will always be giving his best.

She seems to be as a public meed for precisely this mixture, perhaps to sustain sincular need for precisely this mixture, perhaps to the study of the part in a speech play while she is still sharing her favorite did with the room-mate. Or maybe she aims to store up energy which she knows the will use in any one of the Western Maryland Coed sports which happen to be in season. Elise shows up for every one of them in its turn, and has made a fine record for hereef in this field.

GEORGE HENRY BOWMAN History—Biology Hanover, Pennsylvania Hanover High School Millersville State Teachers College

George entered our Class during our Junice year and has won for himself many intimate friends in his two years in college. He had been a "school teacher" for several years, and was therefore more experienced than most of us. It took a little time to break down this barrier before we could find that he was just like her est of us. George traveled back and forth each day, and so we were denied a close friendship with him. He is not nearly as reserved as he might appear to be; he possesse a keen sense of humor and sociability. If you have "as in" an economics class in which George was, you can readily understand his nickname of "Georemist."

And a little child shall lead them! Dear old "Cleo" looks like a baby, with her round face and big brown eyes; but there is a remarkable store of energy packed in her little person. As Vice-President of the Class for three years, she has managed everything we've done. "Y" programs, Student Government meetings, all kinds of committees and clubs, chapel programs, play practices-all leave her time to improve with each year her record as an honor student, and to stop to talk (she loves it), or to eat in the different rooms as she rushes through the dorm on business. The rest of us can only wonder how and when she does it all. We love our laughing, talkative "Cleo"-even when she has to chase us so she can lock up. Practice has given her tact, and a sympathetic heart tells her when we need just a few more minutes. (She's a regular little matchmaker). Come on, "Cleo,"-"Let's say, 'Good-night.' It's ten o'clock."

Authors tell us to beware of red-headed women: but few people, strangely enough, feel that this rule applies to "Lib." This owner of one of the college's best-looking cars has had no trouble in earning a place for herself with unusual ease for a day-student. The well-known Nash is only one explanation of this fact. "Lib's "ready comb to of her talent to all affans musical and her ability to chum with the residents on "The Hill" are even better factors to take into account. Anyone who has ruledne with "Lib" is familiar with her wail of. "Oh. dear, as long as I'w been driving. I still don't know how to park!" Tessie is a most contradictory person. She is easily embarrassed, but self-confident; she is ambitious and lazy; she likes most people and likes to have people around her, yet is very reserved and self-sufficient; she is a lovable and helpless-looking person, with a soft blush and sweet. always-surprising smile; but she is strong-willed and independent. Add to all that a sense of humor that spares nothing and nobody, and comes out in a delightful lowpitched laugh, or, if she is in one of her crazy moods, in those laconic remarks which have kept crowds of us laughing for evenings at a time. Tessie enjoys what she does for the very good reason that she usually doesn't do what she doesn't want to do. She is always ready to dance or to hike. Her originality, superior intelligence, and record as a biology student seem to mark Tessie for a career, but we're afraid that face and smile will get her into trouble.

Not once a day but three or four can we see "Tom" on his way from the city of Westmixters training along up the hill to his classes. Perhaps that is the reason that "Tom" could not find the time to prove to all of us as the did to some that he has some of the best qualities of anyone in our Class. "Tom" has certainly proved to us that he is sincer in his life sovel. Three are not many of us who would have the energy or find the time to do the work which "Tom" is doing in again through the college and the seminary at the same time. Oh, yes, we have one way of knowing when "Tom" is about for all we need is to her somesone say. "Say Boy" in a southern drawl, and you can bet your hat that is "Tom."

"Ed" has been "our obliging friend" for some several years, a real friend when needed—and when not needed, in fact! We've greatly enjoyed knowing him, and our only regret is that he didn't live with us in the dorms. How can we really know somebody when we see him only in snatches? What we do know, though, is that we should like to know him better.

"Murch," a big strong silent man, is the campus' idea of general efficiency. Every movement, every action, is carefully planned (evidently) and nicely performed with the least possible expenditure of time and effort. This farfamed efficiency has landed him in the place of the pereonial treasurer. He is taking in and disburing other people's money all the time with machine-like precision. But, after all, why not? His aim is to be a hanker; so why shouldn't the Alma Matter give him as much training as possible? Nother the Alam Matter nor "Murch". Thas failed. The college has supplied the training and we have found a thoroughly delightful personality.

Ann will be the ideal "Sweer Girl Graduate." To look at, the is an appending combination of chic, poised nearsophistication, and sweet girlinhreas. To those who know ber, she is intelligent and well-informed, and a sympathetic friend. Ann always does the right thing at the right time. There's no better person in the world to tell your roobles to -for ah has that feminine touch down pat. Ann's ambitions are: to learn not to blush, and either to be a head librarian or to teach. English in the Philippines or Hawaiian Islands. But women have that divine privilege of changing their minds, you know that 'all the waters of Nepture's Ocean'. Gronn tepparte us from Ann.

History of the Class of '33

THEY seem rather like a dream, these four years we've spent on College Hill. So much has happened in so short a time. As in a dream, certain incidents stand out vividly from the background of the whole. Scattered and fragmentary they are, yet significant to each of us—our first glimpse of the little group of buildings overlooking the town—The sun setting behind the hills while a merry group at supper around a camp-fire and got acquainted with the 'Y'' board—A crisp October night, the crackling of a huge bonfire, the swish of paddles, and 'I Get the Blues When It Rains'' sung in a deep bass voice from the top of a nearby tree—Pep meetings—Homecoming Day and the long line of Freshman girls goose-stepping down the hill to the tune of 'How Dry I Am'—Checking off the days until the Christmas holidays—The Christmas banquet—The beauty of the campus the morning of the first now—Mic/year examinations—

Then our first spring on "The Hill"—Tramp Hollow and Tiger Valley, with violets along the banks of streams and arbutus in the woods—College farm when the apple trees were in blossom—The May Day procession winding over the hill and the picnic supper on the campus afterwards—

The day we returned to "The Hill" for our Sophomore year, greeting old friends and tasting of our new freedom—The weeks during which we assumed "responsibility" for giving the Freshmen a correct start—The day we elected class officers—Football games in which some of our class-mates started—Hallowe'en night, ghostly and spooky, with "Dan McGrew" at his best—The agonies of Smith Hall Speeches—Sophomore comprehensives—The long line of lantern lights winding in and out on Holfa Field as the "Alma Mater" was sung—

Then in our Junior year, the nights we sat up to study for psychology testa—The meetings in which we argued over plans for our Junior Prom, and then the night of the dance itself—The trips in the college car down to Westminster High School for our observing—Finally. Commencement, bringing with it the realization that the class we had come to know best was leaving for good—

Those first few weeks during which we tried to convince ourselves that we were really Seniors—Practice teaching—Thanksgiving and the Senior Plays—That Maryland game—Senior speech recitals—The hours spent in working on the "Aloha" and the Gold Bug—The "depression" Christmas banquet, the best in four years—The dignity and solemnity of our investiture service—Sunday Chaples with their embarrassing processions—The Senior Farewell when we saw ourselves as others see us—And then Commencement Day.

History of the Class of '34

Dear "Aloha:"

You ask us what we have done to improve the college since we have been here. We're not sure that we have done anything very outstanding.

We made the usual "breaks" as Freshmen. As Sophomores, however, we seemed to try to break as many traditions as possible, not just to be breaking traditions, but rather striving to give our best, a best that would have been hindered by a strict adherence to certain traditions. (You will recall the annual Sophomore Hallowe'en party which came at Christmas)!

Members of our class have entered athletics, dramatics, " Υ " work; have positions on the *Gold Bug* and the "Aloha" staffs and in the college choir. In all of these tasks, the attitude taken has been one of realizing the work to be done but undertaking the work with a spirit of good-natured fellowship.

The same attitude was expressed in our "Depression Party," given to the Freshmen this year. We are sure that the reason for the jolly spirit on this occasion was not that we think the depression doesn't affect us, but that we can still joke about it.

The Junior Prom is another tradition, but one which is too firmly established for us to disregard it, even if we chose to do so—and we think the Seniors too fine a group to be disregarded.

Perhaps it isn't so much what we have done to better the college as what each of us individually is trying to be. We sincerely hope that our future conduct will be such as to reflect ever increasing credit on our Alma Mater.

Sincerely,

The Class of '34.

History of the Class of '35

WESTERN MARYLAND COLLEGE like an octopus reached out and drew into its confines a motley crowd of one hundred and sixty, or so, men and women. Strange to say, we have never been able to count the number; for, however you count them. there are always two Moore.

We entered our Freshman year with "fear and trembling," yet enthusiastic for what was to come. It wasn't long in coming, for Rat Rules started it off with a bang. Soon every organization on "The Hill" was enlarged by some of the "green Freshies," and while most of us were only average, some have proven themselves outstanding members. So, with the assistance of advisors, big sisters, and our own sense of humor, we weathered the storms of our Freshman year.

Sophomores! Sophomores! It was the voice of the Class of '35 raised in exultation. We came back fewer in numbers, but with the same enthusiasm and determination to rank athletically, intellectually, and socially with the Sophomores of other years. We have done our best, and who will say our presence has not been felt?

There are some things in our first two years which we shall never forget. The lantern chain of '32 was very impressive with W. M. C. blazing on the side of the "bowl;" everyone enjoyed the Sophomore Hallowe'en party, at which 'Luke," 'Terp,' and Kaddy gave us their impressions of what the well-dressed girl should wear. Yes, in spite of the 'Comprehensive' hanging over us, we have have had a good time.

And so, with faith in our ability, courage to uphold our standards, and hope that we may maintain the ideals of W. M. C., we look forward to the coming years, which will bring us an even greater appreciation of our Alma Mater!

History of the Class of '36

AGROUP of shy, but eager young people crowded around the door of the Administration Building on September 27. They were the Freshmen, members of the Class of '36. These Freshmen appeared intelligent, but a trifle green. This greenness became much more conspicuous when the Sophomores bore down upon them with their "Rat Rules;" but the Freshmen took their punishment like sports, from the girls dancing around the hockey field at dawn to the boys dressing as Mahatma Ghandi.

These "greenies" took a keen interest in studies, proving themselves worthy of college. They also had a deep and lasting interest in outside activities. The Class of '36 will do its best to distinguish itself in every phase of college life.

Philo-Browning Literary Society

Dorothy M. Paul	President
Mary E. Parks	Vice-President
Marguerite Ringler	Secretary-Treasurer

THE name, Philo-Browning, has been adopted by the women's literary society in order that old ties and associations that are intimately connected with the college memories of many of our alumna may continue. The Society hopes in this way to keep alive a connection that will be deeply appreciated by any visiting alumna. Although there will be no attempt to use either of the Society rooms in the Administration Building, the Philo-Browning Literary Society hopes to create a definite atmosphere of its own, one of live interest in current literature, art, and music, together with a growing appreciation of the older classics.

The Society is open to all women students of the college.

 $T\rm HE$ Sunday School this year, with Professor Schaeffer as the Superlintendent, consists of four classes. Dr. Little and Miss Paschal are conducting training classes for those students who would like to teach in Sunday Schools. Professor Schaeffer teaches a class using the International Lessons. In March Dr. Ward asked if he might be given a class. The first Sunday this class had forty-nine people present. The membership at the present time is one hundred and thirty-three. The class was named for William G. Baker, the donor of the Chapel. Dr. Ward intends to teach the Gospel of St. Mark, and to allot a certain amount of time for a discussion of the viral questions of the day. The class adopted "Finding God on the College Campus" as a slogan. This class, after reaching the number of one hundred members, entertained the entire Sunday School and the Deans of the college.

The Sunday School is a growing organization; the students are interested, and, with the president of the college and three members of the faculty backing it, it will progress.

Le Cercle Francais

Il y a sept ans le Cercle Français fut organisé pour l'instruction et l'amusement des étudiants français et tous les autres qui s'intéressent à la langue française. Les programmes ont été variés et intéressants avec autant d'esprit français que possible.

Le programme de Noël a été une dramatisation, "Le Casse-Noisette" basée sur "The Nutcracker Suite" de Tschaikowsky.

Le vingt-cinq février, le Cercle a donné une danse à la "Jig-Saw" ou tout le monde s'est beaucoup amusé.

À la dernière séance de l'année les pièces écrites par les membres seront présentées.

ALPHA MU CHAPTER

THE Alpha Mu Chapter of Beta Beta Beta, the National Honorary Biological Fratemity, was founded at Western Maryland College in February, 1992, with a charter membership of nine: Dr. Lloyd M. Bertholf, Professor Cloyd L. Bennighof, Miss Pauline D. Wyman, Anna Callahan, Henry Caple, Harold Chandler, Roger Cissel, Thelma Snader, and Dorothy Timmons. Alpha Mu Chapter was an outgrowth of the "Biology Conference." or "Seminar," of Western Maryland College. Under the leadership of Dr. Bertholf, Professor Bennighof, and Miss Wyman, the conference was initiated in the Fall of '28 to promote interest in biology and to carry out certain projects in that field.

Early in the Fall of '31 correspondence was begun between Dr. Bertholf and the National Secretary of Beta Beta Beta in reference to membership in the Fraternity. The application was sent in and approved at the New Orleans Convention. The chapter was soon organized, receiving its charter on February 12, 1932, at which time the infant member was formally initiated into the Fraternity at a banquet held at the College Inn. The Regional Vice-President for this district initiated the chapter.

Weekly meetings are held on Friday afternoons, at which time interesting advances in biology and herces of biology are reported on and discussed by the members. These meetings are open to all biology students. Monthly meetings are held on the third Tuesday of each month, at which time special speakers are usually secured to address the Fraternity and its friends on biological subjects. This year the Fraternity was fortunate in having anong others. Dr. L. E. Yooum, of George Washington University; Mr. J. R. Manning, of the United States Bureau of Fisheries; and Dr. F. W. Besley, State Forester.

The standards of the Fratemity are very high. In order to be eligible for associate membership a student must be a biology major and have forty per cent A's and B's in all subjects. To be eligible for active membership one must, in addition to the requirement for associate membership, have sixteen or more hours of biology, with eighty per cent of all biology grades A's and B's. Names of those eligible for active membership are submitted to the Fratemity by faculty members of the biology department, after which they are voted upon by the local chapter.

There are now twelve active members and five associate members, as follows:

Richard C. Harlow Director of Athletics

Intra-Mural Athletics

A HUNDRED per cent participation in some sport by the student body has been the war-cry of the Intra-Mural sports program for the past several years, with this year showing the best progress towards attainment of this goal.

Spurred on by the success and the interest shown last year, the committee of club and class representatives, under the guidance of Professor H. B. Speir, planned seasonal sports programs and formed leagues which drew the attention of the entire student body.

In the Fall, touch-football was entered into with much vim by the four social clubs and the four classe. As the pigskin season drew to a close, the committee had already drawn up a schedule for the same league in basketball. This schedule got under way upon our return from the Christmas vacation. So closely contexted and well played were several of the games that such scores as 6-3, 7-5 were not uncommon. Supplementing this league were the annual R.O. T.C. contest. Volley ball found its way into the program, and was supported with such enthusiasm that, besides the regular league, there were entered in the contest fourteen independent teams.

As a special feature for the Winter program, wrestling was developed out of the gym classes to such an extent that Professor Speir was able to run off a wrestling tournament which drew the attention of not only the men but the Co-eds as well. Added to this was the establishing of a hand-ball court in the old "Y" room. This court attracted the men of the faculty as well as the students.

Plans for the Spring activities were started several weeks before Spring vacation, and upon our return the schedules opened. There were five fields for the non-varisity men to take part in, namely, baseball, tennis, box lacrosse, horseshoes, and golf. The same leagues that were formed in touch-football were formed in tennis and baseball, while tournaments were held in horseshees and golf. The box lacrosse league was composed of four different independent groups, and they provided some of the best games of the Spring sport program.

The success of the program for the year was most pleasing to the director of athletics. "Dick" Harlow, and those who were in charge of the planning and carrying out of the program. The fraternities and the classes showed much spirit and were always ready to cooperate. One of the notable outcomes of the program was due to the wrestling tourney. The results of this were so astisfactory that an inter-collegize team was formed, which, although it participated in only one meet and was defeated, gave the college a sport that has not been on its inter-collegize to program since 1927.

This year has proven very successful for the Co-ed Intra-Mural program. Hockey started the year off in the Fall, and the Sophomores carried off the title with the Seniors running a close second.

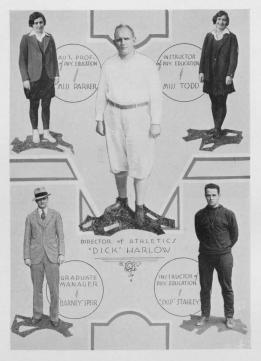

After the hockey season was over basketball started in with a bang and the exciting tournament ended with a victory for the Juniors.

The volley ball season was short, but the enthusiasm and interest always was at a high pitch. The Sophomores won the inter-class tournament after which they were challenged by an "all star" team from the other three classes. They played a series of three games, the "all stars" winning two of the three.

Baseball and tennis completed the Intra-Mural sports for the year.

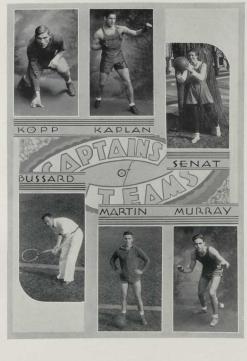

Honorary varsity teams for each sport were chosen by the Co-ed Athletic Board.

1932 Varsity Football Resume

DESPITE the amount of promising material from the '32 Frosh squad darkened by the illness of 'Dick' Harlow, the head mentor. Assistant coaches Stahley and Clark, with the aid of the bed-ridden 'Dick.' whipped the squad into fair condition in the two weeks before the opening game. From the St. Thomas game on, the team improved by leaps and bounds, and by the time of the University of Maryland conflict the Terrors had developed into a team worthy to be mentioned in the class of the invincible team of '29.

The awards given the players will describe better the type of team that represented Western Maryland this year. Four of the players earned places on the mythical All-Maryland Team. Captain Kopp, Sadausky, Shepherd, and Dunn were in the first string line-up, while Schwieker, Blissman, O'Leair, and Linsky eained berths on the second team.

Captain Kopp had the distinction of being the only player to gain a place on the All-Maryland in two positions. In 1930 he was on the team in a back-field position, and this year he was playing guard. He also played very creditably for the All-Southern team in its first annual till with the Northern stars. "Dick" rated him as his greatest captain in twenty-one years of coaching. His playing can best be described by the words of Craig E. Taylor, of the *Baltimore Sun:* "He has lots of drive, is probably the hardest tackler on the team, and his coming out of the line to protect a passer is without an equal."

The season opened with St. Thomas. The boys that left here on Friday, September 30, experienced a feeling that no other Harlow team had ever

Maryland vs. Western Maryland

felt—they were leaving "Dick" at home. The ferce determination to bring back a victory to "Dick." coupled with the desire of the newer members on the team to show that they had earned their places, resulted in a dogged perseverance which brought them to the fore in the second half of the game. Shepherd place-kicked in the second quarter for three points, a pass from Shepherd to Mergo placed the pigskin in the striped zone in the third quarter: and when a St. Thomas back tried to pass from behind his goal line, in the fourth period, he was swamped by the Terror line, giving Western Maryland two more points. The final score was 12-6 in favor of Western Maryland. Mergo and Shepherd, supported by the competent Dunn, starred in the Terror backfield, while Captain Kopp, at guard, led the line in the unspectacular work of opening the holes and stopping the fast St. Thomas men.

Marshall College. of Huntington, W. Va., was the second foe of the Terrors. They had high hopes of beginning another string of victories, such as the one two years age: but this year Marshall was unusually strong. The game was a grueling struggle for the first three quarters, Marshall having secured one touch-down. In the unforgetable fourth period, Shepherd booke loose for a forty-yard dash to score. Marshall retailated by intercepting a pass and gained another touchdown, making the score 13–6 against the Terrors. The Schwieker-to-Green pass brought the ball on the one-yard line, and McNally took it over. Mergo made the extra point tying the score 13–13, at which it remained until the final whistle.

Great was the rejoicing among the team and the student body when it was found out that "Dick" Harlow would be able to see the Mt. St. Mary's game. Sitting on the sidelines, a little paler and thinner than usual, the head coach watched his team romp over the mountaineers to a 33-6 victory.

Boston vs. Western Maryland

Bucknell vs. Western Maryland

Although the team was not perfect, the work was so good that the sports writers prophesied a winning team for the Terrors for several years to come.

As important as the victory was the chance of the coaches to pick out the mistakes. The Terror team, being composed mostly of Sophomores, was weak in the cooperation that characterizes a good team: and, as the next game was with Georgetown University, the team had to be in every way perfect to avenge the 25-7 victory that the Hilltoppers swept from the Terrors last year.

Georgetown, who had been beaten the previous week by the New York University team, was out for blood; and the Terors, wishing to continue their string of victories, gave promise of a game that would outshine any of the previous meets of the rivals. The game was all that was expected; both teams were in full stride and gave a marvelous exhibition of football. "Tormmy" Mills had devised a system of end runs and passes, which dazzled the Terrors during the opening minutes, but the line bucks and off-tackle plays gave the Terrors the edge on the Hilltoppers. The line was an insurmountable barrier to the boys from Washington, and the backfield combination of Dunn, Mergo. Shepherd, and Gorski was the deciding factor in the 12–6 victory in the Griffth Stadium in Washington. "Jee" Lipsky, promising Sophomer center, was hurt in the last few minutes of play, and it was thought that he would be a casualty for the rest of the season.

The Greyhounds of Loyola were the next opponents of the Western Maryland team. Last year's tie with the Baltimore team was an incentive to the Terrors to walk over them, which they did. The final score was 28–6, Loyola scoring its only touchdown in the last few minutes to play. Captain Kopp, O'Leair, and Sadausky were the main strength of the line, while the backfield that starred against Georgetown romped over the Greyhounds.

Loyola vs. Western Maryland

"The first defeat of the season! Bucknell wins by 14–13 scorel" I trwas a down-hearted student body that heard this news on the evening of Novem ber 5. The team had journeyed to Lewisburg the day before in hope of a victory, but knowing full well the power of the Bisons on their home field. There was no scoring in the first period. In the second quarter Shepherd ran 76 yards to be downed on the Bucknell 4-yard line, and then to buck the ball over on the next down. The try-for-point was missed. Bucknell then intercepted a pass and scored, being successful in the point after touchdown. Dunn scored the Terrors' other touchdown in the third quarter; the kick was successful. The Bisons came back strong and scored again, and the extra tally was marked down also. So ended the game. It was a tough game to lose, but the Terror spirit of "Give them all you have, and then if they beat you, take it standing," was exhibited.

The Boston College game! Things did not look so bright to the Western Maryland fans. The Eagles had beaten Fordham, one of the best Eastern teams, earlier in the season, and Chesnulevitch, one of Boston's half-backs, was too much of a reminder of Poppleman of the Maryland game of last year for the upholders of the Green and Gold to prophesy who were going to make the touchdowns. An air of grim determination cloaked the team as they departed Wednesday night. The student body was hopeful, and when the *Gold Bug* came out on the evening of Armistic Day, there was no lamenting, for we had tied the Eagles! Not as much as was hoped for, that 20-20 ite, but it was against the toughest team of the season. A short description of the game is enough to show the uphill fight of the Terrors. Boston College in the first quarter battled through the Terrors for two touchdowns. Western Maryland in the second period pushed a score over the last line. Both teams scored in the second quarter, and in the fourth period, a pass from Willis to Dunn followed by a 38-yard run accounted for the final score of the same.

The last game of the season was with Maryland. Many of the fans believed that the long lay-off of three weeks would affect the team's playing: but, through the generalship of "Dick" and Captain Kopp, the team came through this period of intensive training without the lack of interest and sluggishness which is characteristic of these conditions. The student body was sure of a victory despite the efforts of "Dick" to quell this feeling. He alone recognized the effects of overconfidence.

December third dawned bright and warm, almost too warm for football. The team was cheered off at eleven o'clock, and as soon as classes were over there was a student rush to Baltimore. At two o'clock, the game began. The first play netted the Terrors 66 yards, and the third caused one tally to be marked up. The second, third, fourth, fifth, and sixth touchdowns clicked off with such rapidity that the stands were taken aback. The Terrors were playing perfect football: the team showed how the Harlow plays could be run. There were no individual stars, but rather a collection of satellites, one of which would shine in one play, and then be outshone in the next. Captain Kopp, with his fierce tackling: Schwieker, with his passing: and Dunn and Shepherd, with their ball-carrying, formed a group that will remain as a monument of the 1932 encounter with the University of Maryland. The final score was 39-7, the Terrapins coming back strong in the.

Georgetown vs. Western Maryland

One Hundred Sixty-Nine

 $T\rm HE$ Freshman football squad, although the smallest in years, completed its schedule with one win out of three tries. Five games had been scheduled, but because of the reduction of the athletic budgets of the colleges, only three were played.

The Baby Terrors' first game was against the strong Bucknell team. The ball was in possession of the Bisons most of the time and by their superior poundage they were able to push over three touchdowns. The Frosh fought valiantly but were unable to score. The final score was 19-0.

The only home game was played against the George Washington team, on November 5. The Washingtonians got their only score of the game in the opening few minutes. After that the game settled down to a grueling fight. Western Maryland took advantage of a fumbled punt and scored in the second quarter. A pass accounted for the second touchdown.

Following in the footsteps of the Varsity, the Baby Terrors made a valiant effort to come from behind and win against heavy odds. In the Mercersburg game, they almost succeeded. Mercersburg had piled up nineteen points, the Terrors none during the first half. In the third quarter the fledglings opened up a series of passes, thirty-two in number, and completed twenty-one of them. This netted them two touchdowns and extra points. But the supreme effort was lacking. The game ended 19–14. Very little can yet be said of the possibilities of the Frosh team for the Varsity next

Very little can yet be said of the possibilities of the Frosh team for the Varsity next year because of the meagre schedule and the scarcity of material which cramped the style of potential outstanding players.

Soccer

THIS year the secer team enjoyed one of its most successful seasons since the introduction of the sport at Western Maryland ten years ago. Under the turelage of Coach Harvey Flater, '31, and inspired with the spirit of a mighty determined captain, 'Dick' Martin, the Terror booters tore through a hard, seven-game schedule with five victories to their credit.

The outstanding victory of the season was the 5-4 score chalked up against Army, the first time the Cadet bocters had been handed the short end of the score on their home field in three years. This game, perhaps the most thrilling of the season, was played on a slippery, muddy field that was blankteet in a fog during the last half.

The season opened with Maryland State Normal School of Towson on October 12. The game was more closely contested than was expected, the Terrors winning out 2–1 as a result of two well-placed penalty boots from the toe of Captain Martin. Two days later, the team journeyed to Gettysburg to fight through a very hard game to a 2–1 victory. On October 19, they met Navy at Annapolis and suffered their first defeat, 4–1. Bucknell University was encountered the morning of their home-coming day, and much to the disappointment of the University Alumni, the Bisons were handed a 5–0 drubbing.

The only blot on the splendid record of the Terror team came with the return game with Normal when the Teachers emerged victorious, 2-0. The return game with Gettysburg was cancelled due to adverse weather conditions, so after the Army victory, the booters rested two weeks before spoiling Dickinson College's undefeated record with a score of 6-1, on the last day of November.

The levalty and sportsmanship of the soccer men is to be highly commended. Martin, Routson, Chandler, Leitch, and George will be lost by graduation this year. leaving Speicher, J. Randle, E. Randle, Brinsfield, Jaeger, Wyand, Norris, Wade, and Wright as the letter men to form the backbone of next year's eleven. Reserves were Beane, Barto, Grimm, Holmes, Kimmey, Lantz, Shipley, LeCompte, Brooks, and Murray.

"DICK" HARLOW had to start all over again in forming a boxing team that would, ation and injuries had taken their toll, and at the first workout "Dick" found that he had only three men who had faced opponents in inter-collegiate matches. Despite this lack of experience the team showed up very creditably against the boxers of Navy, University of Maryland, Loyola, Penn State, and a team composed of fistic champions of former years.

The match with Army, originally scheduled for January 21, having been cancelled, the Terrors were given a longer training period. The Navy met. February 4, found the Green team's line-up composed of four men who were fighting their first fight. Harrison. Calvert, Gorski, and L. Kaplan. The remaining four, Brown, Keyser, Mathias, and B. Kaplan, had experienced few ring encounters the preceding season. The match went to Navy, 5/2-2/2. Gorski, who initiated his ring career three weeks before, showed up exceedingly well, and procured a draw from the more experienced Midshipman. Mathias and B. Kaplan defeated their opponents in hard fought battles.

Because the Maryland match, February 18, was fought under Southern Conference rules, the two Freshmen, Pontecorvo and Armacost, who were the only entries sufficiently well conditioned to enter the ring in their respective classes, the Terror team lost the edge given them and came out with a tie, Mathias, Keyser, Gorski, and Kaplan winning their bouts.

The Terror boxers won easily from the Loyola mittmen by a 5½-2½ score. Brown and Pontecorvo won by knockouts. Pontecorvo, a frosh, made a triumphal entry into inter-collegiate boxing by gaining a technical knockout over Cullen in two rounds.

With the cooperation of six former Western Maryland stars, "Dick" made up a card for March 4, to fill the three-week lay-off the team had between the Loyola and the Penn State fights. Among the All-Stars appeared "Don" Woolley, "Doug" Crosby, "Rip" Engle, George Ekaitis, "Ted" Klepac, and Norman Barnett. Ekaitis, Crosby, and Klepac were E. I. B. A. Champions during their college careers. The varsity made a remarkable showing against this chosen team, although the Ex's held them to a 3-3 draw.

The season was climaxed by the defeat of Penn State 5-3 in the Westminster Armory. Brown, Keyser, Gorski, and B. Kaplan won, and the heavyweight bout was forfeited because of the illness of the candidate from Penn State.

The Inter-Collegiate matches, held at Penn State, netted the Terror mittmen one E. I. B. A. Anampion and two second place with Army in the match, which was won by the University of Synacuse. Captain Bernie Kaplan earned his uite of champion by decisively defeating the outstanding representatives of five colleges in the 175 pound class. Gorski lost a close bout to the competitors from Syracuse in the finals of the middle weight class. The heavyweight finals were a grand climax to the evening. "Tom" Ponteorovo, although injured, staged a remarkable fight against Vavra of Syracuse, but lost because of the advantage gained by his opponent in the first two rounds.

Graduation will take only one man, Brown, from this year's squad; so the hopes for next year are very high. It looks as if the titles in the heavier divisions are cinched, and there were more than a few bantams out trying for places this year.

Varsity Basketball

THE 1933 basketball season at Western Maryland College could not by any stretch of the imagination be called successful, but the percentage of games won and lost is no fit criterion by which to judge the real strength of the team. Despite the fact that the Terrors won only a quartet of games out of the schedule of fourteen contests, it has been generally conceeded that this year's quintet showed remarkable ability.

The Stahleyites opened the season by forcing the crack Loyola dribblers to put on all their speed to take a 43-32 decision. A road trip followed, in which the Terrors split even by trouncing Bucknell University and catching the wrong end of a 43-15 score against Penn State. Washington College took a brace of contests by coming back fast in the second half of the first set-to to win, and by squeezing out a 3-point victory by means of an extra period in the second fracas. Navy's quintet, one of the three strongest in the East, was given a hard fight until the deadly shooting of the Academy marksmen began to tell, and the Westminster clan was trailing but still fighting determinedly at the final gun.

The Green and Gold quintet won three out of the next four games played, when they stopped Johns Hopkins; with a driving finish took Gallaudet in stride, and proved that their first triumph over Johns Hopkins University was no fluke when they won as they pleased in a return engagement with the Black and Blue toesser. Loyola again defaated us, sandwiching the win in between the first Hopkins game and the Gallaudet engagement.

Western Maryland played probably its best game of the season against the strong University of Maryland club. The teams took turns at taking the lead until the final minutes, when Snyder, an Old Line forward, sunk several baskets to clinch the decision for the Terrapins. Mt. St. Mary's, the Maryland Inter-Collegiate League champion, won the next two games from us. The second game was played on the same night as the P. M. C. floormen were met. This necessitated a splitting of the squad, part going to Chester, Pa., to meet the Cadets and the rest staying at home to play host to the Emmitsburg team. Both games were chalked up on the debit side of the ledger, but both the second team, which played P. M. C., and the Varsity, which met the league champs, gave god accounts of themselves. Much credit is due Cach Stalley for putting a fighting team on the floor, which was referred to as "the most improved team"

THE 1932 Terror Netmen, under the leadership of Captain Neil O. Woolley, experienced the most successful season in the history of tennis at Western Maryland College. With an undefaeted record in fifteen matches to their credit, they won a total of 103 match games out of a possible 135, and defaeted such teams as University of Maryland, University of Delaware, Dickinson, Gettysburg, Loyola, and St. Johns of Annapolis.

The 1933 team will be greatly handicapped by the loss of such men as Woolley, Tuckerman, Palmer, Willey, and Perkins, but should be able to fill the positions left by those veterans from the squad of twenty-five candidates who reported for opening practice early in April.

BASEBALL, a sport which has been in the background the past two years, has again assumed its rightful position on the Spring Athletic Calendar. Two reasons may be given for the sport's ascendency, first, lacrosse has been relegated to the Intra-Mural ranks, and second, Coach Harlow showed his willingness to excuse from Spring Football practice those men who are adept at the "national pastime."

The diamond nine had a short but hard schedule to play. They opened with Navy on April 19 and closed with Mt. St. Mary's on June 3. In the interim, they engaged Pennsylvania Military College, Penn State. University of Maryland, Mt. St. Mary's, and had a night game with George Washington University in Washington, D. C. Also, practice games were played with the Baltimore Firemen and other aggregations.

Coach "Molly" Twigg, former Western Maryland star pitcher, had a wealth of material from which to select his nine, but is appeared that he placed his dependence on the following men, though they could be replaced at a moment's notice: Captain Kopp, catcher: Shilling, pitcher: Hurley, first base: Willis, second base; Ransom or Cumberland, short-stop: Shepherd, third base; and Doughty, Diksa, Lipsky, Tollenger, and Fowble shared the outfield duties.

The replacements who filled in when the necessity arcse were Leitch, who played either at short-stop or third base, plus Keyser and Moore who played in the outfield. The pitchers who helped Shilling in shouldering that burden were Kimmey. Martin, Junkin, and Wright. Those Freshmen who participated in the games and showed promise were Cumberland, Wade, Pontecorvo, Fowble, Draper, and Norris.

Graduation took Captain Kopp. Martin, Junkin, Leitch, and Doughty whose places will be hard to fill. But with the promising Freshmen who will join varsity ranks, in addition to those who remain, Coach Twigg should be able to knit together a combination which will give a splendid account of itself during the season of '34.

The Women's Athletic Association was organized in the Spring of 1930, with a charter membership of ninety. The purpose of the organization is "to promote athletics, to create a love of sports, and to foster the ideal of good sportsmanship." The Association is governed by an executive board consisting of the officers and the heads of the various sports, advised by the Directors of Women's Physical Education, Miss Parker and Miss Todd.

The Association sponsors participation in hockey, basketball, volley ball, baseball, hiking, and tennis. Western Maryland "Blazers," "M's," Monograms, and class numerals are awarded to those qualifying according to the constitution of the Women's Athletic Association. In its three years of existence the organization has done much to create a general interest in women's sports on "The Hill" and to raise the standards.

THE Rifle team finished another successful season on the indoor range. Staff Sergeant Thomas J. Lavin acted as coach of the team, which finished second in the Third Corps Area, and was designated as one of the Corps representatives in the National Inter-Collegiate Match in competition for the National Championship. This year's graduation three good marksmen, Willey, Bowman, and Woolley. Matches were fired with fifty-site leading colleges in the United States and its possessions, with threshift, and Hersts, the Senior members of the team will receive member in previous matches, returned to 'The Hill' this year and upheld the tradition of the 'has-beens' by shooting remarkable scores. All members of the team will receive medals as contextants in the National Championship Match. Most of the matches were fired on the home range and results telegraphed to the opponents upon conclusion of the matches.

William Randolph Hearst Trophy Winners

THE winning of the William Randolph Hearst Trophy marked the climax of a Successful season for last year's rifle team. The acquisition of a beautiful silver and ebony plaque in the form of medals for each individual was probably outshone by the honor attached. The R. O. T. C. team was rated as the third ranking team in the Eastern Section of the United States, which included twelve states and more than eighty colleges.

Of the aggregate score of 919 out of a possible 1000, Captain Willey contributed 191, which, incidentally, placed him sixth in the individual high scorers of the section. The diminutive "Club" Bowman was second, scoring 189. The other members of the team were Puro, Woolley, and Delaney. These scores, compared with Army rating, entitled each man to the coveted Expert badge, a marked distinction on the Service.

The second team, consisting of Otto, Junkin, Herbst, Myers, and Lantz, scored 877, but did not rank among the prize winners.

Lacking the help of Willey, Woolley, and Bowman, the 1933 team, built around the nucleus of Delaney and Puro, and augmented by Sterling. Bryan, and Fleming, bids fair to gain another victory. An approximate scoring by the college authorities netted a score of 926, seven points higher than the 1932 score.

Much credit is due the teams. The grueling periods of drill in learning the mechanics of rifle firing, the actual work in firing, and the interest displayed in striving for recognition, were the parts played behind the secenes which enabled the squad to a tatin distinction. Staff Sergeant Lavin was detailed as coach of the team, and he did an efficient piece of work.

Looking forward to another winning team next year, we consider the prospects very bright. The new men who have shown great promise of developing into outstanding shots are Leister, Stevenson, Sliker, Williams, Kiefer, and Stone.
