Fifth Oldest Standing Building on McDaniel College Campus
Cornerstones

Many buildings on campus display a cornerstone. The date on each cornerstone signifies the year that construction began on the building. The oldest standing building with a cornerstone on campus is Levine Hall (1891). The cornerstone in the new Multipurpose Academic Building (2004) has a time capsule in it containing various periodicals and mementos of the College.

May 21, 2005 marked the 135th McDaniel College Commencement. This year, more than 500 degrees were awarded at the ceremony. The night before, the College held its annual Baccalaureate Service in Big Baker Chapel followed by the famous all campus party. Students, Faculty, Staff, and parents were all welcome to attend this event held in Decker Student Center.

There were two honorary degree recipients at this year's commencement: Dr. Charles W. Manning, Chancellor of the Tennessee Board of Regents, and George J. Mitchell who is a former U.S. Senator and now non-executive Chairman of the newly formed DLA Piper Rudnick Gray Cary law firm and Chair of the Board of Walt Disney Company.

Following the ceremony, refreshments were available in the quadrangle for everyone to enjoy while they socialized, congratulated one another, and said "see you later" to their friends. There are never goodbyes said between friends.

It was a good season this year for McDaniel wrestling. Dan Patterson ended his season with a 20-6-0 record overall and Bryan Hamper ended his season 10-7-0 overall. The team finished second in the Centennial Conference Championships, with Dan Patterson, Tony Howard, and Drew Reinecker all finishing in the top positions. At the NCAA Divison III National Championships at St. Olaf College, Tony Howard finished fifth in the 174 pound weight class, ending his season with the best showing at nationals for McDaniel in six years.
This year, both the men's and women's teams lacked senior leadership as neither team had any senior members. This proved to be a challenge for the Green Terror track program, but did not stop them. At the Centennial Conference Championships at Dickinson, the women placed tenth and the men placed sixth. Also, Sophomore Scott Keloszar won two silver medals in the 200 and 400 meter dash.

However, their talent did not go unrecognized as three players made first team All-Conference, Caitlin Burns, Megan Mitchell, and Mary Abrams. Diana Rosemier and Karyn Curley made Second-team, and Nichol Moeller received an honorable mention. The ladies hope to improve upon their record next season.

The men's tennis team had a tough season, finishing up with a record of 3–11 overall and 0–8 in the Centennial Conference. For seniors Ben Denenberg and Adam Scott, this is not how they hoped to finish off their final season at McDaniel. However, with a lot of young talent on the team, there is hope for much improvement by next season.
With a similar record to the men, the women's tennis team ended the season with a record of 2 - 11 overall and 0 - 9 in the conference. Senior Shannon Pusey was the team's hope in the Centennial Conference Championships, as she was the only player to advance to the second round. Along with Shannon, seniors Danny Magid, Geneve Kallins, and Sharon Desperak said goodbye to the team.

College launches wireless network

BY GREG SANDRUCK
STAFF WRITER

Tuesday, February 15, 2005 – Ensor Lounge – At 0:16:01 AM EST an e-mail traveled its way from one student's laptop to another. The message read, "Hey Westminster, MD Vol. 3 No. 3

"Ladies and gentlemen we have lift-off, the message is there," said Dr. Joan Develin Coley, McDaniel's president, during a brief ceremony to celebrate the wireless connection.

The overall mood of the ceremony, which included "a major step in improving technology" at McDaniel. This is only the first step in a six month "task force, developing a blue print for wireless access all over the college campus," Coley said that she hopes that in the summer she will see students sitting with

A McDaniel professor was found guilty of driving under the influence by a Carroll County jury last week, and sentenced to serve some time in jail.

Robert W. Sapora, an English Communications professor, will spend 10 days in the County Detention Center, Westminster because of his initial year-long sentence.

Sapora, 61, also faces three years probation and is required to pay a $250 fine, attend alcohol-related group meetings, and abstain from using alcohol.

Sapora had no comment on the outcome.

Cowdrey remembered for ‘smile’ and ‘friendliness’

ROB GOEKE
NEWS EDITOR

When Matt Cowdrey transferred from Lehigh University to McDaniel following his freshman year, he lived on the Hill for 111 days during the fall 2004 semester.

The men’s lacrosse team, of which he was a member, held 16 practices while he was there. He was present for 73 days of classes. Though, if you talk to some of his teachers, it was probably more like 55.

In such a short time, Cowdrey was still able to make a lasting impression on his friends, teachers and everyone who got to know him.

“Matt exuded a positive attitude and participated frequently in class,” said Aaron Sorkin, spanish professor. “He often asked good questions I remember him with a constant smile on his face. He was some one with which you could have a pleasant conversation.”

But Matt could take a lengthy nap until his three o’clock class.

“He did not talk a lot in class, but when he did, he was always on target,” said Jamie Bodden, another resident. “But we were constantly challenged to stick out and said something, and when he did, he made an impact.”

Many remember Cowdrey’s smile, shown here in the company of friend and Suites 301 resident, sophomore Amy Ead.

Review of college curriculum will bring changes

Evergates.

The process, though slow-moving, has been initiated and in the works for some time now. The meetings will allow students to have input and information on the curriculum changes, but Evergates stated that “it won’t effect students who are here now.”

The process of the Task Force is to make the changes to future students who may want to adopt the new curriculum while still attending McDaniel. To those students who want to change, there will be a transition period where the students can adjust to the new curriculum.

Evergates and other members of the Curriculum Review Task Force will continue to work on the changes, including viewing the choice of classes and determining if they make sense. “We may want to put emphasis on interdisciplinary courses,” Evergates mentioned.

Monica,

College is over and a new life begins. Words can not describe how proud we are of you. You have been there for us all through our family life together; through happy times and sad times. You always made us laugh with the medical condition and injuries that you have suffered through. From your birth I knew that you were a special person. Smothering you with kisses, hugs and making you an independent lady, has been my goal. You passed the test. I know that you will make it in life. I am glad to say that you have worked two or three jobs to get yourself through college. You have managed to create a large bill, but I know that you will work hard to pay it back. You will be a good teacher to students by helping them all that you can and sharing your life experiences with them. Go for it, the sky is the limit. Travel, Live, Have fun, Don’t let anyone stop you. Use your heart and follow your dearm. You know that you will always have your family behind you, giving you advise and help. Remember that Dad is watching over you every day. I am very proud to say that you’re my daughter! Thanks for giving your all. We love you!

A Note from the Senior Editor

I had no idea what to expect when I arrived at Western Maryland College in 2001. As irrelevant as it sounds, I remember that the Doonesbury comic strips on the front of the application were a small part of my decision to come here. For some reason, the comics made the now McDaniel College seem like somewhere I'd be happy. I've definitely had a great time and made wonderful friends and memories during my time here. During these four years, I've also experienced some extraordinary events including September 11th, the war in Iraq, losing a space shuttle during reentry, and most recently a close presidential election, to name a few.

I wasn't sure what to expect from living on campus, but sharing a room with someone else turned out to be fun. I was paired with someone twice as tall as myself in a McDaniel room barely big enough to be a closet. We easily made it work well. Having the best parts of living on Sigma Phi and taking part was very rewarding, as sororities would agree. I personally have some of the made my time in college very memorable. Even though I'm games is a great experience at McDaniel. Our version of a huge tailgate party where undergrads, alumni, professors, together to have a good time and relax. We don't believe in stands at McDaniel anyway.

I will always remember: swiping my card at Glar only to find out there was better food in my microfridge; late nights with friends doing problem sets... or avoiding them by just staying up all night talking; getting up for 8AM classes for the class as much as for the professor quotes you can cover your dorm your friends escaped Campus Safety the Isabelle with TG+1 (even though much of the not); surviving numerous snowstorms, most when the cleaning staff couldn't get to trucks couldn't get to campus to deliver food; sleep) to a new building being constructed either not working or so slow you might as than AIM (who uses the phone in college anyway?); having the same awesome RA two years in a row; having great apartment-mates my senior year, amongst many other great McDaniel memories.

To the Class of 2005: I wish you all the best, wherever life takes you. You just experienced four of "the best years of your life." Go out and be successful with what you learned in class, and just as importantly, what you learned outside of class. To the friends we leave behind: know that you have been an important part of our lives on the Hill and your friendships will always be treasured. While you are still here, make sure that you stay busier than you can stand to be. Do as much as you can while you are here. Join as many clubs as you have time to join. Play a sport. Go Greek. Be musical. Go to cultural events and talks. Hang out. Meet people. And when you're not doing all of that or sleeping, don't forget to LEARN because that is the main reason why you are here. When you first begin, you might feel like college will last forever. However it doesn't take long to realize that just when you really start having fun, it's time to leave the place that you call home.
